The 1938 TAPS
We Announce The
Presentation of
The 1938
TAPS

The Annual Publication of
THE CORPS OF CADETS
OF CLEMSON COLLEGE
Clemson, South Carolina.
As we gathered the material together from which this, the 1938 TAPS, has been formed, we were bewildered by the unending number of different activities, courses, organizations, and interests which go to make up the complete panorama of life on our campus—this was our material. Our problem was to transpose it into a book which would in a smooth and orderly manner present an accurate account of our days at Clemson.

It was anything but singular, that in searching for some theme which would serve as an undertone throughout the book and bind it into one organized volume, the Military Department stood out by way of its function as a binding organization for the purpose of a theme. For this reason WE DIP OUR COLORS to the Military Department, its organization and activities, the theme of the 1938 TAPS.
LEST WE FORGET

While the echoes of the last bugle call still ride upon the air, so do our hearts swell with pride as we hurry from the barracks to form our last full-dress parade. Sabers glittering in the sunlight, rifles clicking, commands snapping over the parade field, and these things we recall, LEST WE FORGET.

Our past has assembled before us for review and as the shadows of our last year march past the reviewing stand of Father Time, so are our memories of four glorious years passing in review. And if, in a far future, this tome shall serve to make the flame of departing memories glow more brightly for an instant, then shall we see the realization of our dreams.
The Editor’s Foreword

To record accurately the four years at Clemson would include many pleasant memories, sweet triumphs, and bitter failures. Bearing these thoughts in mind, we have tried to portray vividly a concrete and pictorial record of these aspirations, joys, and sorrows in such a way that this edition will become with advancing years a souvenir of the past.

Although our theme is chosen from the Military Department, our purpose is not to glorify war, but to both honor our military leaders of today and pay tribute to those of yesterday. Through these pages are revealed the efforts of the 1938 TAPS Staff in compiling a yearbook that we hope will satisfy the varied tastes of those who read this volume. The task was difficult, and we can only hope for the enthusiastic acceptance of our readers, if so, our purpose will have been achieved.

Present ARMS!

At this command our gray-clad cadet corps, awakened by the bitter lessons of the World War, looks into the dim past to pay tribute and to honor the sons of Clemson who answered the call to arms—to honor those sons who, following their Duty in the service of their country, ever placed Honor foremost on the battlefields of war, and to those who made the supreme sacrifice.

To those Clemson men who, in the front ranks of this heroic phantom, have thus endowed Clemson with a heritage we will always face and salute . . . this Thirty-first volume of TAPS is dedicated with pride.
THROUGH THESE GATES
OF CLEMSON COLLEGE
WE ENTER

The Campus Beautiful
The ivy-covered walls in their peaceful somnolence surmounted by the splendor of the clock tower soften a noonday sun...
THE MAIN BUILDING'S TOWER
Rising high against a blue and calm sky the clock tower stands a mute symbol to man's progress in education.

CLEMSON AND NATURE'S BEAUTY
Twisting, shadow-ridden, wending its way amid a riot of color, peace, and meditation.
THE ENGINEERING BUILDING

Amid an air of deep learning—here are unraveled the mysteries of the ancients.
THE AGRICULTURAL HALL

Symbolic friezes, brick, tile, concrete in harmonious dignity; beautiful in the softening influence of a northern light.
THE LIBRARY BUILDING

Surrounded by a profusion of flowers and shrubs, fronted by stately Ionic columns—a perfect setting for this cradle of knowledge.

THE CHEMISTRY BUILDING

Trailing ivy and old brick, the sun’s dying rays add charm to its faded majesty.
HISTORICAL CALHOUN MANSION

Age-old boxwoods, magnificent alabaster columns depicting colonial grandeur.

THE TEXTILE BUILDING

A tower clad in Spring's own cloak of green.
THE THIRD BARRACKS

Columns of majestic simplicity through Spring’s lacy foliage — awe inspiring!

THE Y. M. C. A.

Entrance to the "Y" — the way of the searcher for recreation and fellowship.

THE DAIRY BUILDING

A path to a doorway — worn smooth by young and hurrying feet.
THE GREENHOUSE
Where man and nature join hands—a haven for exotic plants on this slope of green-sward.

THE NEW BARRACKS
Strength, permanence—to us it's home.

THE SECOND BARRACKS
In their massive enormousness lies an atmosphere of security—sure and complete.
Nestling in a beautiful, rustic setting—
a hidden world of restless humanity—
striving, seeking . . . .

. . . at a glance.
THE INDIAN WAR

Daniel Boone’s Expedition

1769—Silhouetted in the rain against the downcast heavens, a few weary horsemen stared at the muddy plains before them. A man, apparently their leader, spoke: "Men, we’re here."—Grimly spoken, these words gave no hint of the privations that had been endured by Daniel Boone and his followers on their long and perilous journey “west.” After a year in the wilderness, with his brother the only other survivor, Boone returned home; but only to bring his family and others out to the new land. For a year the life was comparatively peaceful bringing only occasional skirmishes with marauding tribes. Then one day while out hunting Boone was captured by the Indians. Learning of a planned attack on the little settlement, he made good his escape and hurried to the fortress to warn them of the impending danger.

As men peered anxiously through loop-holes, their wives and children huddled close by to load guns, the hostile Indians appeared on the far bank of the river. It was soon apparent that the attack was incited by the British, as new rifles could be seen glittering in the sun. Swiftly the fight began. With yells and whoops the savages raced for the stronghold. The expert marksmanship of the pioneers made each shot tell, but mad with the lust of battle, the painted warriors came on to gain the barricade. Tomahawks flashed, knives glistened red. With the courage and determination that will live forever in the tales of the frontier, the pioneers drove them back. Each shot found its mark, and the Indians fled before the men that fought too fiercely to be defeated by savage methods. Fires from burning huts were put out, the wounded cared for, sorrow lived through the night. Again the village struggled to carry on its existence—America in the making.

MR. J. C. NEELY
Head Coach

CAPT. J. D. HARCOMBE
Mess Officer
Dr. Sikes, we salute you! And no one man in the annals of our college is more deserving of this respect. Since his coming here in 1925, his every thought has been for a greater institution, his every effort directed toward the fulfillment of this ambition. Evidence of his work lies on every hand. Notable of his achievement in the past few years is the acquisition of a new Agricultural Building, four fine new barracks, a new Textile Building, and others too numerous to mention; but these are the things we see every day. Less noticeable to the eye, but just as necessary was his guiding genius in getting Clemson accredited by the Southern Association of Colleges, in raising the educational standards of the college, and in helping Clemson become one of the largest colleges of the state.

Beloved by everyone who has known him, respected by all the great educators of the country, and an inspiration to us, Dr. Sikes will continue to be a shining light in the educational world long after these present classes pass into the world of business and affairs. And so, ere we graduate, let us show our deepest respect to our president—Dr. Sikes, again we salute you!
The Business Manager

JAMES C. LITTLEJOHN

The rapid growth of Clemson as a school is due in a large extent to the untiring efforts of our business manager, Mr. J. C. Littlejohn. He is one of that group of men who are unceasing in their efforts to promote Clemson and are willing at a moment's notice to lay aside all else to come to her aid. Clemson is in the midst of a vast program of improvement, and Mr. Littlejohn is responsible for the administrative details of all parts of the program.

Mr. Littlejohn assumes the job corresponding to parenthood of eighteen hundred boys, as far as overseeing the feeding and clothing of his huge family. It is he and his staff that silently and quietly manage those momentous questions of financing the intricate machinery that is Clemson.

Mr. Littlejohn's membership in Blue Key and Tau Beta Pi is demonstrative of his keen interest in student activities and of the high regard in which he is held by the men of the corps in general and the student leaders in particular.
A visitor once remarked that one impression of Clemson he would always retain was the busy atmosphere encountered on the campus. Not just a small part of this impression should be attributed to our future engineers. Architects may be seen in almost any unbelievable spot sketching some realistic scene, and everywhere are boys with transits and levels making accurate measurements, it would seem, of every single inch of the campus. Over by the waterworks cadets are puzzling over the numerous pipes and valves.

But the industry does not end here. Slipping into the basement of Riggs Hall one may see boys busy learning the fundamentals of a steam engine; another group collecting data and indicator cards, and climbing under a throbbing "Corliss" to obtain some necessary temperature. Upstairs are the professors' offices, in one of which a cadet is explaining why he couldn't get that problem and also why he just cannot afford to get another deficiency report just then. Down the hall a buzzing may be heard which is just an electric motor doing all it can to run in spite of the efforts of the "double-E" boys crowding around it. On the second floor are men at desks drawing the elements of trusses and braces for a bridge, and dotted here and there down the hall are classrooms in which instructors try to impart a little theory. On up to the third floor, and here you decide to pause—for the Architects have covered every inch of the wall with sketches, murals, and designs.

But that is enough of the Engineering School, for there are six others and not sufficient time to examine each very closely.
The School of
AGRICULTURE

The first sight that meets the eye upon entering the campus is the well kept orchards, little plots of ground divided into neat sections, and clean poultry yards. Should you chance to pass when classes are in full swing, you would see that these are not for the purpose of production but the laboratory in which the cadet experiments. In the poultry yard are boys who test the different methods of getting more eggs from a given number of chickens; and in the orchards the science of spraying trees and grafting is actually put into practice. Still more picturesque is the new dairy building on the other side of the campus, where the dairy boys proudly boast of the purest milk and the best cattle. From the dairy also comes cream, butter and ice cream.

Agriculture does not end in the field. Behind the Library may be seen the new and presumptuous Long Hall, in which cadets laboriously learn the many parts that go to make up a bug. On one side of the basement a hog is being butchered and on another side instruction in farm machinery is being carried on. The first floor resembles a beehive, containing the offices of the Extension Department, and of the professors. On the second floor classes in Botany and Horticulture are held and on the third floor the classrooms of Economics and Agronomy are located. The bell rings and at once the hall is filled, as cadets hurry from that last lecture to another quiz. The hustle and bustle continues until gradually the hall is vacated and again the sound settles to a steady hum. The science of agriculture is being imparted and men are fitting themselves to change farming from a "hit or miss" gamble to a scientific practice.
CHEMISTRY

Anyone who has examined the many buildings scattered over the campus cannot have failed to notice one which holds the distinction of being the oldest. There amid test tubes, retorts, and delicate balances, a group of boys study the many ways a few little atoms combine to make so many different substances. Should it be your misfortune to pick a day to look over the building when the students there are experimenting, it would seem unbelievable that so many odors could originate from one source. As you stroll through the short halls that usually end in a flight of stairs or a laboratory, on each side you will see tall cases filled with bottles of strange looking liquids and solids. Doors lining the hall open into rooms filled with more bottles and curious looking instruments. In one a professor may be busy discovering what is contained in some rock that has been sent in, for quite a bit of research is done in addition to the regular classes and laboratories. Upstairs is a large lecture room where boys pretend to take notes as the instructor delves deeper and deeper into the properties of atoms and molecules. Across the hall are underclassmen performing routine tests and writing reports. In another laboratory are the textile chemists experimenting with dyes and cloths and in another, "straight chemists" mixing an acid and a base together, breaking a metal down, and carefully weighing residues from a dryer. Laughs and jeers break out as someone cracks a test tube over a gas jet and grumbles about having to start over.

Throughout the whole building is an atmosphere of intense study and experimentation. As the afternoon wanes, the rooms begin to empty, cadets leave with arms full of notes and test data to be compiled in barracks.
Apart from those taking technical training at Clemson are the General Science students who are preparing for future study in Law, Medicine, Education, Journalism, and Business. They are distinguished, however, only in that their course is nearly all theory. While the cadets taking some technical course find themselves with quite a bit of practical work, the General Science students find themselves buried in books, and although their class hours are not so lengthy, quite a bit of time must be spent outside in preparation. A trip through Main Building, the center of activity on the campus and home of the General Science Department, will give an insight into the activities of this group of boys.

In the basement the Physics Department reigns, and audible sighs of relief escape the students as they emerge from one of the more grueling examinations on acceleration, gravity and force diagrams. Upstairs is the English Department with its Public Speaking, Literature, and Dramatics. Here too are the rooms where students are striving to master the rudiments of French, Spanish, and German. Up another flight of stairs will disclose the Math Department where instructors cover blackboards with equations that never seem to end, and innumerable theories of integration and differentiation. Then, too, there are the History, Economics, Government, Sociology, and Psychology classes that go to make up a complete and well-rounded course.

The chief purpose of the School of General Science is to give the student a general education with a cultural background that will prepare him for a successful career in whatever field he may decide to enter.
Near Main Building stands an old ivy-covered structure; the front rising into a picturesque tower and the windows filled with soft-colored glass. A stranger would never guess that inside is a complete cotton mill, where cadets gain practical and theoretical knowledge of the textile industry from the baled cotton to the dyed and finished cloth. The side door opens into the picker room, where the cotton is already being turned into the form of a rope, ready for the jack frames; and finally there is the room filled with spinning frames, where cadets are busily turning the soft rope into fine yarns as they acquire a first-hand knowledge of the problems met within the textile industry.

And so on through the rooms. Upstairs a group are busy with pen and ink drawing designs; in another room looms are set ready, cards are punched for the Jacquard looms, and odd phrases are tossed back and forth: “Draw in the ends,” “Peg chains for the dobbies,” “Arrange the harness”; and out of it all comes cloth of every conceivable weave and design. It is not just a cotton mill however, for next door a professor is instructing a class in the art of processing cloths; in another room textile engineers learn the many different parts that make up the complicated machinery and the economical designs for modern mills. A trip to the basement reveals what resembles a combination laundry and chemistry laboratory, vats filled with boiling dye, dryers spinning amid piles of sodden cloth, and in another part of the room cadets holding up to the light test tubes filled with colored dyes in order to obtain perfectly the right shades and colors. The textile industry is of growing importance in the South, and Clemson points with pride to the part her graduates are playing in this growing industry.
The Reserve Officers Training Corps, already recognized as an important feature in the country's scheme of National Defense, is gaining greater and greater importance as World War Veterans retire from the ranks of the Officers' Reserve Corps. The R. O. T. C. is now the principal if not the only real source from which to recruit the personnel for the O. R. C., the largest officers component of the Army of the United States.

Clemson College is in a particularly fortunate status as regards the type of training possible in its Military Department, which includes the R. O. T. C. The fact that its students are constantly under military control, that they are always in uniform, live in barracks, have their meals in a mess hall, and that all matters of discipline, training, and daily barrack life are administered by the Corps itself, makes for exceptional development of character, manliness, and resourcefulness.

National Defense is not the sole beneficiary of the training received in the Military Department. In the administration of its student body were it not for the Military Department the college itself would be under the obligation of providing some other system of control. The Military organization fulfills this requirement in a manner satisfactory to the college and also attractive to the student.

The Military student learns innumerable lessons in courtesy, demeanor, citizenship, personal neatness, leadership, etc., which have proved to be of benefit to him in his daily contacts with his fellow man in society, business, or profession.
Our trip through the buildings is complete, but so far we have failed to examine one of the most important courses of all. Education in agriculture begins in high school, and teachers must be provided to carry on this work. The cadets taking this course receive practical, as well as theoretical instruction, by teaching in the several high schools around Clemson. Each day the Juniors and Seniors in Vocational Agricultural Education eat their dinner early and set out for Six Mile, Central, and Seneca, where they hold regular classes under the instructor's supervision.

Many courses must be completed before a cadet is ready to practice teaching and his many classes take him to more than one of the different class buildings. To the Engineering Building for a course in drawing, to Main Building for Government, English, and Math, to the Chemistry Building for Chemistry and Geology, and then to the Agriculture Building for his major subjects is just a regular day for the busy cadet who plans to make teaching his life work. For one hour he studies dairying, then for another hour, Animal Husbandry, and after that into the field to study Field Crops, Soils and Forage Crops. The Vocational Agricultural student must be very versatile to successfully complete this course.

Education in agriculture is advancing and expanding each year and the "Vocational Agricultural Education" boys are the keynotes in its progress.
The ADMINISTRATION STAFF

Supervising all activities of all departments of the college is the Administrative Staff composed of the President, the Business Manager, the Deans of the Schools of Agriculture, Chemistry, Engineering, General Science, Textiles, and Vocational Education, the Director of the Extension Division, the Registrar, the Treasurer, the College Surgeon, the Librarian, and the Secretary of the Alumni Association.

The Executive Staff in charge of the collegiate activities is composed of the President, the Deans of the several schools, the Commandant, and the Registrar. This group meets every Wednesday or at the call of the President to discuss with him such educational and administrative problems and proposals as he may submit to them or matters that concern the welfare of the college work.

It is under the guidance and leadership of these men that our conduct, studies, and futures are moulded. The Administrative Staff by sheer will power and determination has secured for Clemson fine new buildings, excellent equipment, and a superior teaching staff, and is ever on the alert to keep this smooth running machine in the best of order so the maximum of benefits of it may be received by every student of Clemson.
FROM EVERY ANGLE
A CADET MIND DEVELOPS
The past year has been both uneventful and eventful. It has been uneventful in that matters have pursued the even tenor of their way, and eventful in that the year has witnessed the fruition of some dreams and visions.

The long wished for and much needed Agricultural Building has been completed and occupied. The building is named in honor of the late Dr. W. W. Long and the formal dedication took place on May 12. At the exercises the dedicatory prayer was made by the Reverend John Lewis of the Class of 1908. The address was delivered by the Honorable Chester C. Davis, member of the Federal Reserve Board in Washington. The occasion was marked by the conferring of honorary doctorates on a number of scholars who have devoted their lives to the study of agricultural sciences. Clemson does not usually confer honorary degrees, but it was thought appropriate that the dedication of a four hundred thousand dollar building after forty years should be celebrated in this way. Certificates of Merit and Scrolls of Honor were conferred on a number of men who have rendered worthwhile service to farming in South Carolina.

A new home for the School of Vocational Education has been fitted up adjoining the Agricultural Building. Since the two schools are so closely connected it was felt that the two buildings should be placed near each other.

During the summer the Chemistry Building was enlarged by the addition of laboratories and offices and by the rearrangement of the old building thus giving more space for the teaching of Chemistry.

The Department of Fertilizer Inspection Analysis has undergone some changes. The new law and the need for its effective administration necessitated the appointment of more inspectors, Mr. B. D. Clooounger, Class of 1932, has been made head of the Inspection Department and will act as chief inspector and will reside at Clemson. For the first time the inspectors have been brought
to the college for a two-day school on inspection and analysis.

The old and dilapidated Veterinary Hospital has been torn down and a new and commodious structure erected near the Dairy Barn.

The Y. M. C. A. has outgrown its auditorium—especially for moving pictures. This is being enlarged and will accommodate an audience of six hundred.

The outstanding structural improvement of the year will be the new Textile Building. This is another P. W. A. project. It will be the largest building on the campus. The ground was broken on December 9. The textile industry realized our need for this building and assisted us in our application for funds with which to build it.

The field in front of the Physical Education Building is now used as a second drill field. The old drill grounds were too small for the two regiments. In the rear of the Field House tennis courts have been fitted up for the use of students interested in this popular game.

The General Assembly authorized the State Highway Department to hard surface the roads on the campus. This will mean a great improvement in the location and improvement of the roads.

The system of "class cuts" places more responsibility on the student. Reward for a lack of demerits has resulted in a thousand to fourteen hundred cadets going through the month without a demerit. The non-R. O. T. C. Senior Company now elects its own officers with most happy results.

The unexpected influx of new students necessitated the employment of additional instructors. The number of teachers and their rank is limited by the budgetary allowance.

This has been a very successful year despite the crowded conditions. Next year there will be the same conditions but it is hoped that the generosity of the General Assembly will manifest itself in a larger appropriation.
STATE EXTENSION DEPARTMENT

The extension service is organized as a branch of Clemson College for the purpose of diffusing useful and practical information to the farm people of South Carolina through instruction backed up by practical demonstrations, publications and other practical methods. The extension service is supported by state and federal funds, and its services are rendered to farm people through county and home demonstration agents, one each of whom are stationed in each county of the state, and through subject-matter specialists representing the various lines of agriculture prominent in the state.

Among the principal educational activities of the extension service are demonstrations in field crops, livestock, dairying, poultry, fruit and vegetable crops, agricultural engineering, soil conservation, farm management, crop insects and diseases, marketing, and 4-H Club work.

D. W. Watkins

THE STATE EXTENSION WORKERS
THE REVOLUTIONARY WAR

Battle of Enlaw Springs

For over a year, General Greene with a small army, once beaten and nearly destroyed, had threatened the British army as it laid waste the country through the South. They struck, now here, now there, never enjoying victory, often being forced to retire rapidly to prevent destruction, but always harassing, so that the British never knew what moment they might be forced to fly from their beds to ward off an attack. Now as they retreated to Charleston and the sea, the still determined Patriots pressed them hard. The crisis of this long-fought war came one afternoon when with increased vigor the Americans fell upon the retreating Red Coats. No long trenches marked this battle field, but though tangled brush and thickly growing trees, the Americans struck in swift and ferocious steps. Men, long used to hunting wild game in American forests, drew deadly aim, and the center of the British lines broke before its withering fire.

To call it a victory might not be true, but soon afterward General Greene with the ever-loyal Patriots marched victoriously into Charleston. The British had been forced out, setting the southern states free, and carrying the American Revolution to triumph in the South.

S S E S
STUDENT GOVERNMENT
The SENIOR DISCIPLINARY COUNCIL

T. I. STAFFORD
Chairman

Salus populi esto. "Let the welfare of the people be established in the law." In this, the motto of the state of Missouri, may be found the main purpose of the Senior Disciplinary Council whose aim is to operate in the best interest of all the students.

It was first organized, as the name implies, for the insurance of discipline, but this is by no means its only function. Serving as a connecting link between the cadet corps and the administration, it is the channel through which pass all petitions to authority. It makes special study of all problems which are encountered during the course of the year, and endeavors to find the most suitable solution with fairness to everyone concerned. Above all else it strives to keep alive the spirit of the Alma Mater and to promote those high ideals of character and good fellowship which have prevailed since the founding of the institution.

The council is composed of ten members of the senior class who, having been elected by popular vote, are most representative of the entire student body. The senior class officers are ex-officio members and the class president is chairman of the council.

The Class of

NINETEEN HUNDRED

SYMBOL

When as freshmen we first stepped upon the sun-drenched soil of the Clemson campus, the first sight to greet our eyes was a group of little men with shovels busily digging the way for a new walk. We observed this group with little more than casual interest for we suddenly became primarily interested in our first "military" haircuts, football boys with palmettos, where the laundry was, what the "jew shop" was, and the way to the P. O. Little did we realize that the little man with the shovel was to symbolize our four year period at Clemson, a period of unprecedented growth for the college. Little did we realize that as we struggled with "rat" English and "rat" chemistry and the little man with the shovel struggled with roads and walkways that as we subsequently struggled with soph calculus, junior army, and senior hydraulics, the little man with the shovel would struggle subsequently with preparations for barracks and buildings which had for years been only visions in the minds of Clemson's leaders.

THROUGH THE MILL

After the haze of our freshman year had lifted we returned to the campus filled with sophomoric wisdom and undertook the serious work of preparing ourselves for our chosen vocations. With each passing day we became more group conscious as we gathered in little clans of engineers, architects, textiles, pre-meds, ag boys, chemists, and future teachers. We crawled into little worlds of our own and strove desperately to win recognition from the honor societies of our various schools. Before we knew it the nemesis of every junior class... Camp... was upon us. We give this period more than passing mention for it was here that the personality of our class was moulded. Here we learned that Sherman was right and that what the seniors had told us was not an exaggeration but an understatement. Beneath a scorching Alabama sun amid the hose orders of majors as they instructed us in discipline, leadership, and the use of the infantry weapons, we became a band of true Clemson men. In field meets and contests we became fiercely loyal to our Alma Mater and rejoiced in the accomplishments of our classmates. Surviving the rigors of K. P., guard duty, and periodical attacks on Howitzer hill, we returned to our homes weatherbeaten and rejoicing in the fact that this is a peace-loving country. We returned more firmly linked as Clemson men... ready to be Clemson's leaders.

OFF THE RECORD

Though we are an average class in many respects, we delight in citing the circumstances and recalling the incidents which combined to give our class its distinctive personality... which makes the Class of '38 different from its predecessors. Clemson's great material growth and the fact that we served under three Commandants gives some indication of the ever changing scheme of things under which we received our education. As a sidelight, we add that we are neither a depression class nor a prosperity class; we finish at a time when everyone predicts the best but keeps his fingers crossed. The largest, we are also the most cosmopolitan and the most widely traveled class in the history of the college. Our football team, Clemson's strongest, traveled from the sun-kissed shores of the Gulf of Mexico for a game with Tulane to the towering palisades of the Hudson for a game with Army. Our Senior Platoon gained more prestige than any similar organization has heretofore attained. We sent boxers to California and press-men to Louisville and Chicago. Our men helped compile an All-American annual. We took the only forced "night march" in the history of the school only to redeem ourselves with an unexcelled discipline record. The world underwent many changes from '34 to '38, and we were not totally oblivious to these changes. We read our share of depression news, prosperity predictions, Babson's reports, eight cent cotton, Supreme Court fights, and warring nations. Somehow, though, we were vastly more interested in "Doc's" football contests, the show at the "V", and Dr. Sikes' "hurdles" which determined whether or not we got the money to put the little man with the shovel back to work.

FINALE

Now the time has come for us to leave the campus which has come to mean so much to us. As we go we still see the little man with the shovel symbolizing Clemson's growth as he prepares for a new textile building and post office, and we envision him in later years preparing for new buildings, barracks, a stadium. We leave him working for a Clemson growing rich in tradition... a Clemson reaching its maturity. In our efforts to gain recognition in the outside world, we of the Class of '38 will ever strive to do honor to our Alma Mater to perpetuate the spirit instilled by Thomas G. Clemson and ever kept alive by Clemson men.

WALTERBORO, SOUTH CAROLINA
Candidate for B.S. Degree in Vocational Agricultural Education
Private; Private; Private; Private; Future Farmers of America, 3, 4; Colleton-Clemson Club, 3, 4; Baseball, 3, 4; Dairy Club, 3, 4.

ALLEN WISE TAYLOR
"SNUCK"
CHARLESTON, SOUTH CAROLINA
Candidate for B.S. Degree in Textile Chemistry
Private; Corporal; First Sergeant; Lieutenant-Colonel; Battalion Commander; Junior and Senior Platoons; Phi Psi, 3, 4, President, 4; Scabbard and Blade, 3, 4, First Sergeant, 4; Tiger Brotherhood, 4; First Sergeants' Club, 3; Who's Who Among Students in American Universities and Colleges, 4; R. O. T. C. Camp, Fort McClellan, Alabama.
V. F. TEAL

L. E. TERRELL, JR.

W. B. TERRY

VERNON FAYE TEAL
"DUCK"
CHESTERFIELD, SOUTH CAROLINA
Candidate for B.S. Degree in Agricultural Education
Private; Private; Private; Private; Non-R. O. T. C.

LAKE ERIC TERRELL, JR.
"TERRELL"
GREENVILLE, SOUTH CAROLINA
Candidate for B.S. Degree in Chemical Engineering
Private; Corporal; Supply Sergeant; Second Lieutenant; Senior Platoon; Y. M. C. A. Council, 1, 2, 3, 4; President, 1, 2; Scholarship to Y. M. C. A. Graduate School, 3; Y. M. C. A. Cabinet, 2, 3, 4; Vice-President Y. M. C. A., 4; Treasurer Southern Regional Y. M. C. A. Field Council, 3; Editor Student Handbook, 4; Secretary State Y. M.-Y. W. C. A. Spring Retreat, 4; Athanor, 2, 3, 4; Greenville County Club, 1, 2, 3, 4; Vice-President, 4; Rifle Marksman, R. O. T. C. Camp, Fort McClellan, Alabama.

JAMES ASHLEY THIGPEN, JR.
"JIMMY"
FLORENCE, SOUTH CAROLINA
Candidate for B.S. Degree in Architecture
Private; Corporal; Private; Private; Non-R. O. T. C., 3, 4; Minarets, 3, 4; Peedeeans, 3, 4.

WILLIAM B. TERRY
"NAP"
MULLINS, SOUTH CAROLINA
Candidate for B.S. Degree in Electrical Engineering
Private; Sergeant; Second Lieutenant; A. I. E. E., 3, 4; R. O. T. C. Camp, Fort McClellan, Alabama.

★ TAPS 1938
SENIORS

ARCHIE C. THOMAS
"DICK"
HAMPTON, SOUTH CAROLINA
Candidate for B.S. Degree in Agricultural Education
Private; Corporal; Sergeant; Private; Non-R. O. T. C., 3, 4;
Future Farmers of America.

ARTHUR RICHARD THOMPSON
"TOM"
BOWMAN, SOUTH CAROLINA
Candidate for B.S. Degree in Vocational Agricultural Education
Private; Private; Sergeant; Second Lieutenant; Future Farmers
of America; Honors, 2, 3; R. O. T. C. Camp, Fort McClellan,
Alabama.

SWAIN NORRIS THOMPSON
"BO"
STARR, SOUTH CAROLINA
Candidate for B.S. Degree in Vocational Agricultural Education
Private; Corporal; Sergeant; Second Lieutenant; Freshman,
Sophomore, Junior and Senior Platoons; R. O. T. C. Camp, Fort
McClellan, Alabama.

WILLIAM FRANCIS THOMPSON
"BO"
NORTH AUGUSTA, SOUTH CAROLINA
Candidate for B.S. Degree in Textile Chemistry
Private; Private; Private; Junior College of Augusta, '34-'35;
Aiken County Club, 2, 3, 4; Sophomore Platoon.
WILLIAM P. TODD  
"BILL"  
LAURENS, SOUTH CAROLINA  
Candidate for B.S. Degree in Textile Chemistry  
Private; Corporal; First Sergeant; Captain; Company Commander;  
Junior and Senior Platoons; President Freshman Class; R. O. T. C.  
Camp, Fort McClellan, Alabama.

JOHN HINDS TRULUCK  
"TULIP"  
LYNCHBURG, SOUTH CAROLINA  
Candidate for B.S. Degree in Architecture  
Private; Private; Sergeant; Second Lieutenant; 4-H Club, 1, 2,  
3, 4; Baseball, 2, 3, 4; Rifle Marksman, R. O. T. C. Camp, Fort  
McClellan, Alabama.

ZEB VANCE, JR.  
"ZEB"  
OWINGS, SOUTH CAROLINA  
Candidate for B.S. Degree in Horticulture  
Private; Private; Sergeant; Second Lieutenant; Horticulture Club;  
R. O. T. C. Camp, Fort McClellan, Alabama.

JOHN DOYLE VARN, JR.  
"RED"  
CHARLESTON, SOUTH CAROLINA  
Candidate for B.S. Degree in Mechanical Engineering  
Private; Private; Sergeant; Second Lieutenant; A. S. M. E., 3, 4;  
Tau Beta Pi, 3, 4; R. O. T. C. Camp, Fort McClellan, Alabama.
T. L. VEREEN

A. C. VERNER

K. N. VICKERY

THOMAS LAWTON VEREEN
"TOMMY"
LATTA, SOUTH CAROLINA
Candidate for B.S. Degree in Horticulture
Private; Private; Private; Private; Non-R. O. T. C., 3, 4; Horticulture Club, Secretary-Treasurer: Dillon-Clemson Club.

ARTHUR CHARLES VERNER
"CHARLIE"
PIEDMONT, SOUTH CAROLINA
Candidate for B.S. Degree in Weaving and Designing
Private; Corporal; Sergeant; Second Lieutenant; Weaving and Designing Club, 2, 3, 4; Freshman Baseball; Varsity Baseball, 2, 3, 4; Freshman Basketball; Varsity, 2; Greenville-Clemson Club, 1, 2, 3, 4; Block "C" Club, 3, 4; R. O. T. C. Camp, Fort McAllister, Alabama.

KENNETH NOTLEY VICKERY
"VIC"
HARTWELL, GEORGIA
Candidate for B.S. Degree in General Science
Private; Corporal; Sergeant; First Lieutenant; Regimental Chaplain; Y. M. C. A. Councils, 1, 2, 3, 4; Staff, Y. M. C. A. Handbook, 3; Scholarship Student, Y. M. C. A. Graduate School, 4; R. O. T. C. Camp, Fort McAllister, Alabama.

GEORGE HENRY WADE
"YANK"
NEW YORK, NEW YORK
Candidate for B.S. Degree in Horticulture
Private; Private; Sergeant; Second Lieutenant; Presbyterian Students Association, 3, 4; Horticulture Club, 1, 2, 3, 4; Palmetto Literary Society, 3.

SENIORS
FRANK COX WARDLAW  
BELTON, SOUTH CAROLINA  
Candidate for B.S. Degree in Agricultural Engineering  
Private; Private; Private; First Lieutenant; Y. M. C. A. Council, 1, 2; Tiger Staff, 1, 2, 3; Anderson County Club, 2, 3, 4; A. S. A. E., 4; Head Waiter, 3, 4.

ALBERT RUSSELL WATERS  
"RUSS"  
SAVANNAH, GEORGIA  
Candidate for B.S. Degree in Chemical Engineering  
Private; Corporal; First Sergeant; Captain, Regimental Adjutant; High Honors, 1; Honors, 2; Football, Boxing and Track, 1; Boxing, 2, 3, 4; Senior Welterweight Champion, Fourth Corps Area, 1937; Treasurer, Central Dance Association, 4; Alpha Chi Psi, 2, 3, 4; Treasurer, 3; Athanor, 2, 3, 4, Secretary-Treasurer, 3, Vice-President, 4; S. G. Club, 2, 3, 4; Senior Platoon; Vice-President First Sergeants' Club; Rifle Marksman, R. O. T. C. Camp, Fort McClellan, Alabama.

WILLIAM ALEXANDER WAY  
"BILL"  
BRUNSWICK, GEORGIA  
Candidate for B.S. Degree in Electrical Engineering  
Private; Corporal; Sergeant; Second Lieutenant; Y. M. C. A. Council, 1, 2, 3, 4; A. I. E. E., 3, 4; Georgia Kracker Club, 1; Honor Student, 1; Sharpshooter, R. O. T. C. Camp, Fort McClellan, Alabama.
SENIORS

WILLIAM CLIFTON WILES
"DUSTY"
COLUMBIA, SOUTH CAROLINA
Candidate for B.S. Degree in General Science
Private; Private; Private; Private; Non-R. O. T. C.; Historian of Freshman Class; Freshman Football; Varsity Football, 2, 3, 4; Block "C" Club, 2, 3, 4.

THOMAS TURNER WILHEIT
"TOMMY"
AUGUSTA, GEORGIA
Candidate for B.S. Degree in Textile Chemistry
Private; Private; Private; Non-R. O. T. C., 3, 4; Junior College of Augusta Freshman Year.

JOHN CORNISH WILKINSON, JR.
"WILKIE"
SPARTANBURG, SOUTH CAROLINA
Candidate for B.S. Degree in General Science
Private; Corporal; Sergeant; First Lieutenant; Company Executive; Historian Senior Class; Senior Disciplinary Council; Tiger Staff, 1, 2, 3, 4; News Editor, 3; Editor-in-Chief, 4; Blue Key, 3, 4; Vice-President, 4; Sigma Tau Epsilon, 3, 4; High Honors, 1; Tiger Brotherhood, 4; Kappa Phi, 3, 4; International Relations Club, 3, 4; Calhoun Literary Society, Secretary, 2; Treasurer, 3; Spartanburg-Clemson Club, President, 3; Y. M. C. A. Handbook Staff, 3; Publicity Director State Social Service Federation, 3; 4; Junior Ring Committee; Secretary-Treasurer Junior Class; Gamma Alpha Mu; Representative, Associated Collegiate Press Association Convention, Louisville, Kentucky, 3; Chicago, Illinois, 4; Who's Who Among Students in American Universities and Colleges, 4; R. O. T. C. Camp, Fort McClellan, Alabama.

JOHN BOYCE WILLIAMS
"J. B."
DACUSVILLE, SOUTH CAROLINA
Candidate for B.S. Degree in Vocational Agricultural Education
Private; Private; Private; Private; Non-R. O. T. C., 3, 4; Alpha Tau Alpha, 3, 4; Future Farmers of America, 3, 4.
C. A. WILLIAMSON
RIDGECWOOD, NEW JERSEY
Candidate for B.S. Degree in General Science
Private; Private; Private; Private; Non-R. O. T. C., 3, 4; Palmetto Literary Society, 4.

ZIZA GUY WILLIS
CLIFTON, SOUTH CAROLINA
Candidate for B.S. Degree in Textile Engineering
Private; Private; Private; Private; Non-R. O. T. C.

ROBERT GEORGE WITHERSPOON
"WITHER-COTT"
LATROBE, PENNSYLVANIA
Candidate for B.S. Degree in Pre-Medicine
Private; Corporal; Supply Sergeant; Private; Non-R. O. T. C., 3, 4; Band, 1, 2, 3, 4; Track, 1, 2, 3, 4; Block "C" Club, 2, 3, 4; Knickerbocker Club, 2; Palmetto Literary Society, 3; Mu Beta Psi, 3, 4.

HENRY A. WOODHEAD
GRANITEVILLE, SOUTH CAROLINA
Candidate for B.S. Degree in Textile Chemistry
Private; Private; Private; Private; Non-R. O. T. C., 3, 4; Phi Psi, 3, 4.
JAMES EDWIN WRIGHT  
"RAM"  
WOODRUFF, SOUTH CAROLINA  
Candidate for B.S. Degree in Vocational Agricultural Education  
Private; Corporal; Private; Private; Non-R. O. T. C., 3, 4; Alpha Tau Alpha, 4; Future Farmers of America, 3, 4; Palmetto Literary Society, 3; 4-H Club, 3, 4; Spartanburg-Clemson Club, 2, 3, 4.

JACOB FREDRICK WYSE  
"BALD EAGLE"  
COLUMBIA, SOUTH CAROLINA  
Candidate for B.S. Degree in Vocational Agricultural Education  
Private; Private; Private; Private; Non-R. O. T. C., 3, 4; Freshman Football; Varsity Football, 2, 3, 4; Block "C" Club, 2, 3, 4; President of the Lutheran Students Association; Treasurer Future Farmers of America Chapter.

LeGRAND IRIS YARBOROUGH  
"RUNT"  
SCRANTON, SOUTH CAROLINA  
Candidate for B.S. Degree in Agricultural Education  
Private; Private; Sergeant; Second Lieutenant; Alpha Tau Alpha; Future Farmers of America; Calhoun Literary Society; 4-H Club; PeeDeeans; Rifle Marksman, R. O. T. C. Camp, Fort McClellan, Alabama.

EMANUEL LAWRENCE ZALANTS  
GREENVILLE, SOUTH CAROLINA  
Candidate for B.S. Degree in Chemistry  
Private; Private; Private; Private; Non-R. O. T. C., 3, 4; Y. M. C. A. Council, 1, 2, 3, 4; Treasurer, 4; Palmetto Literary Society, 1.
RICHARD S. BYRD
"DICK"
ANDREWS, SOUTH CAROLINA
Candidate for B.S. Degree in Architecture
Private; Private; Day Cadet; Day Student.

WILLIAM AULL LEITNER
"BILL"
MARION, SOUTH CAROLINA
Candidate for B.S. Degree in Dairy Husbandry
Day Student, 1, 2, 3, 4; Alpha Zeta, 3, 4; Honors, 1, 2; High Honors, 3.

JOHN EARLE McCURRY
"MAC"
ANDERSON, SOUTH CAROLINA
Candidate for B.S. Degree in Zoology and Entomology
Georgia Tech, 1, 2; Day Student, 3, 4; Honors, 3, 4.

★ TAPS 1938
In our review of the events of the past year, we pause for a moment to pay tribute to the memory of one of our most honored and best beloved friends and teachers. Actively associated with the development of Clemson College from its inception, his many personal triumphs as well as his masterly guidance of our chemistry department during twenty-two years of achievement, have been of incalculable benefit both to his department and to the prestige of the school as a whole. It is with a deep sense of loss that we mourn the passing of Dr. R. N. Brackett on November 27, 1937.
J. F. BRAILSFORD

In Memoriam

Sergeant West

'Twas a sad corps of cadets at Clemson when the news spread of Sergeant Harley West's death. Those who knew him grieved; those who knew of him stood by in awe and respect at the passing of one whom so many boys admired.

As Clemson's quartermaster for ten years Sergeant West had gained the respect and admiration of every cadet and faculty member on the campus. He was a military man to the core—one who believed in discipline and straight dealing, and one who treated every fellow's problems as though they were his own.

Thirty good years in the army, in Cuba with the South Carolina volunteers during the Spanish-American War, on the battlefields of France during the World War, service all over the United States in time of peace, and on retirement from regular service the quartermaster at Clemson—that is Sergeant West's record.

A Tribute

To those of us whom fate has casually struck from the ranks of the mortal and moved into the realm of the immortal, we dedicate this page. It is our prayer that this memorial shall forever keep alive the memory of these, our friends. The reason for their passing lies with the Infinite; it is not ours to question. But this we know—their friendship has left meaning to our lives.

J. G. BYRD
1916 - 1935

W. S. CLOANINGER
1915 - 1935

P. J. FLOWERS
1913 - 1936

H. D. PERRY
1919 - 1937
Many accounts have been written, and many tributes paid to American bravery displayed in the history of our country. But nowhere has more courage been shown than on that third day of July, 1863, when men seemed to scorn death to fight for what they thought was right.

It was the third day of the historic battle of Gettysburg. Fighting had been fierce for the two preceding days, but still the men seemed to be filled with spirit and zest. The tide of the whole battle rested on whether the Union army could be divided in half. For this task General Lee chose the fresh Virginians under General Pickett. To the minute, the Grey-coated Confederates stepped forth in regular march time. The lines were perfect. As the mile-long distance to the enemy was split in half, a sudden volley from sixty cannon opened great holes in the ranks. Quietly the men closed up the holes. The step changed to quick time, and the distance narrowed. Again cannon boomed, this time enfilading the files and tearing great holes in the lines. No confusion still. Doublequick time, and now a great volley of cannon and rifles met them in their very faces. With a whoop they broke and charged the hill with mad cheers and firing. The fighting was as intense as it was fierce. Only a handful of men were left, and then they saw that the feat was hopeless. Sullenly and slowly they retreated, while large volleys reduced their numbers more. Driven off but still not “whipped” they retired to their own lines.

The Colors
Duty bound? Why should we wish to call our "men in brown" this phrase? They are men of glamour, eloquence, and kindness which leaves the one thought element of supernatural beings out of the picture. They live a life of generality, with us as the great wall around their body and soul. They do not mind aiding us in the classroom, on the drill field, in barracks, or any place that we come in contact with them. Their many years of service has taught them discipline, obedience, and the principle of learning to take orders before trying to give orders. They have become masters of these principles, and it is not difficult for them to put over clearly these vital elements to each and every cadet. Finally, they have taught us to respect our superiors. This principle we should observe from the time we are born until we die.
A YEAR IS GONE and

The COLONEL TAKES A STEP

Is it possible to recall time? No, why should we wish to do this at Clemson? Even though the Brigade is in its infancy and has seen only one year of existence, we would dare not recall or retard its wonderful progress. This progress has not only been made of the cadets, for the cadets, but by the cadets with the unrelenting guiding power of Colonel C. W. Weeks.

Our Colonel has numerous and various problems which confront him. The solutions of these problems are reached by wise discretion. Wise discretion, of course, could have been the only thing which inaugurated the idea of a Brigade at Clemson with the enrollment increasing as it has been for the past years. Before our Commandant takes a step, by which he always profits, he looks into the past, present, and future.

Colonel
W. ROBERT CHEVES
Regimental Commander
The First Regiment of the Clemson College Brigade, which is composed of approximately one-half of the Cadet Corps, was organized in the fall of 1936 when the military organization at Clemson College was changed from that of a regiment to a brigade.

The discipline and military training in the regiment is carried on by the Cadet Officers under the supervision of Army Officers from the Commandant's staff. The mutual understanding between the officers and men tends to establish a very efficient military organization, and enables the work of the regiment to be capably carried on for the second consecutive year.

During the annual Spring Inspection, a tactical problem involving the latest in modern warfare was staged, demonstrating to the visiting inspecting officer the military training learned by a Clemson R. O. T. C. Cadet.

THOMAS I. STAFFORD

Regimental Commander

THE SECOND
The REGIMENTAL STAFF

The Second Regiment of the Clemson College Brigade views with appropriate pride the successful record which it has achieved during the past year. As we look back, however, we experience a tinge of remorse as we recall roommates, officers, and others with whom we have come in contact during the course of our military duties. There will remain with us throughout the years to come pleasant memories of the fine relations which have existed between officers and men of the regiment, and above all "L'esprit de corps" which has prevailed throughout the year now in review.
Lieutenant Colonel

A. W. TAYLOR
Battalion Commander

THE FIRST

Discipline and Training

A SOLDIER IN THE MAKING

At the moment of entrance the cadet begins a training process which transposes his life into a more rapid, orderly, and intelligent tempo. From raw, unkempt, shy, and awkward material the military department produces men who stand forth as poised, neat, efficient gentlemen, and prospective officers; an accomplishment we found to be punctuated with trials and tribulations to us and our betters.
The Why and How...

OF AN EXCELLENT EFFICIENCY REPORT

Clemson's military record as an efficient and accomplished unit evolves from the hours of intense training which whip the corps into a cooperative group handled by efficient leaders. Ours is a record of which we are proud and which we will maintain at cost to our personal desires and preferences.
Dante's

Inferno
CAMP...

1. Black those sights.
2. Characteristic pose of Maj. Walthour.
3. "Maggies."
4. "Pull 'em."
5. Bobby and Jack, champion tent pitchers of camp.
6. After the storm—came the flood.
7. Gentlemen, it is just like carving your initials in the snow.
8. "This will be a dry run, gentlemen."
9. A night problem for a change.
10. McClellan's only joy.
11. Move up to the 200 yards.
12. And they all call this food.
13. Drop and "duck."
14. Smoke and more smoke.
1. "Hades" incorporated.
2. After one of Anniston's five minute rains.
3. "They can't do this to me."
4. "Big Ten" in session.
5. Junior Platoon warming up for Military Field Day.
6. Sweet and Rocky.
7. Spike under the disguise.
8. Just before platoon drill.
10. Camp Colors.
11. What! No merit??
12. Five cents for a name plate, please.
13. The tank of latrine street.
14. This is a hellava life—"*%*%??

...Hades
LIFE WITHOUT LIVING...

1. It must be a road gang.
2. "Keep that bolt open."
3. "Squeeze, squeeze, squeeze, gentlemen, you must learn to squeeze!"
5. Going home.
6. Another day, another seventy cents.
7. Range 500.
8. Gentlemen with the RA.
9. And they call this fun.
10. "No, Madeline"???
11. Amen.
12. After a day on the range.
13. Goldbrick—
14. Gee, and I wanted light duty—
15. Only fifteen more miles to go...
Here and There
HERE THEY ARE

1. They sponsor
2. On to "Tech."
3. Let's call the whole thing off.
4. Just a bunch of suckers for ice cream.
5. "Prepare for inspection."
6. Our last year's seniors.
7. Laundry's up.
8. It may grow back.
9. We want more FUN.
10. Lay on, General.
11. McGinty's little boy.
12. Fish number one, sir.
FISH, WORMS, LOW THINGS

1. What!! The top floor? Damn!
2. Just "fishes"—
3. "Fish," fall in.
4. The "tale" is told.
5. You are "fish" now.
6. Wilkie incognito.
7. Ask us. We know??
8. Spirit of '76.
9. "Fish" gets a bite.
10. Drive on, Bell.
11. Those "Jew Shop" meetings —Ouch!!
12. "Number off."
THE GREAT AND NEAR GREAT

1. Come on—Make some noise.
2. Army masterminds looking the situation over.
4. Clemson's track meet.
5. Barracks dedication.
6. "Now it's like this—." "Jungalccrs" tour.
7. More soap and water.
8. Are you going to send a box home??
9. Senior "Alco Hall."
10. Children at heart.

THE TEXAS-MEXICAN WAR

Battle of San Jacinto

"Remember the Alamo!" With these inspiring words ringing in their ears, the Texans under General Sam Houston, numbering less than seven hundred and fifty, eagerly awaited Santa Anna and his Mexican army. Mexican bugles announced the advance guard of the enemy, almost eighteen hundred strong.

Santa Anna's forces were in perfect order, awaiting the attack, and reserved their fire until the Patriots were within sixty paces of their works. Then they poured forth a volley which went over the heads of the attackers, though a ball struck General Houston's ankle inflicting a very painful wound. The Patriots held their fire until it was given to the enemy almost in their very bosoms, and then having no time to reload, made a general rush upon the foe, who were altogether unprepared for the furious charge. The Patriots, not having bayonets, clubbed their rifles. Knives flashed, men grappled, rifles swung. About half-past four the Mexican rout began and closed only with the night. The rout was complete, the victory final. Seven of the Patriots were killed and twenty-three wounded, while the Mexicans had six hundred and thirty-two killed and wounded; and seven hundred and thirty, among whom was Santa Anna, were made prisoners.

The victory of San Jacinto struck the fetters forever off the hands of Texas, and drove the standard of Mexico beyond the Rio Grande, never to return. Thus has America always fought for her freedom. Thus has her sons given their lives that their country might live.

The heat was stifling. Men crouched in the burning jungle grass under a sun that beat down with an unbearable ferocity. Deadly Mauser bullets from Spanish guns whined through the grass, frequently finding their mark as a soldier would gasp and crumple to the sodden earth. The wait before the attack seemed in-terminable. Men, their eyes rolling and faces streaked with sweat and grime, looked up expectantly when a rider galloped up to hand the commander a message. In ringing tone came the order that sent the famous Rough Riders forward in an advance that was to live in history. The lines of the Ninth Cavalry, then forming the forward wall, parted to let the charging men through and then closed up again as they followed behind cheering lustily. From the top of the hill, Spanish rifles and artillery sent volley after volley into their faces but could not even retard the swift advance. As the gap between the charging Americans and the lines atop the hill became smaller, the Spanish left their trenches to get better aim. With such a target before them, the deadly marksmanship of the Rough Riders began to tell, and the Spanish lines thinned as men were cut down by the score. Replacements filled the gaps, however, and as the advancing soldiers closed in, hand to hand fighting followed with increasing ferocity and determination. This type of battle was too much for the Spaniards who fell back, leaving the hill in the hands of our troops. The victory was not without cost, but a victory it was and a prize in keeping with the courage and bravery displayed by our men.
New Orleans to New York!!

A roaring Tiger churned through a thousand miles of these United States and, though the valiant endeavors of our varsity served merely to shatter illusions of scorn from the home of the bayou to the greatest metropolis of the world, we know that ours has been the team with the strongest heart and the cleanest record! Our chests distended to the bursting point, a cry from eighteen hundred throats roars proudly heavenward:

WE . . . THE TIGERS!!
These, truly, are the men who show the South that Clemson produces teams of which it may be justly proud. From New York State to the State of Florida Tiger teams have traveled to prove to the world that Clemson's athletes "can show 'em."

Just as the stars in the sky guide a ship at sea on its course so do Clemson's coaches guide Clemson teams to fame and victory.

FRANK HOWARD  BOB JONES  C. McMILLAN

Neely shows 'em how.

Get in there.
A captain is responsible for his ship at sea. So, too, are Clemson's captains charged with the conduct of the men on their teams whether on the gridiron, on the basketball court, in the ring, on the track, or on the diamond.
The cheer leaders are the men to whom little credit is given. These men are coordinators... they coordinate Clemson’s minds and throats. Without the feeling that the Corps is behind them, Clemson’s athletes would have little incentive to win. The cheer leaders are the men who lead the cadets in letting teams know that they are backed to the limit.

Clemson’s unsung heroes! To the managers of Clemson teams may be attributed the successful outcome of many athletic contests. These, indeed, are the men who unselfishly give their all and seek nothing in return.

IN THE WAKE

COACH JESS NEELY

Don goes up to meet one...
That the Tiger's roar may echo, o'er the mountain heights.

The Bengals may well point with pride to their 1937 season, doubtlessly the hardest ever played by a Tiger team. Encountering big time teams, the Neelymen upset the dope bucket many times by outfighting and outplaying their adversaries. Led by Captains Lewis and Sanders the Tigers placed first in the State and third in the Southern Conference. Seven Tigers made "All State," Woods made "All Southern" while Woods, Willis, and Bailey secured honorable mention on the "All American" team. Truly, a remarkable team and surely an excellent record!
P. C. COMES TO SEE US

Clemson’s Royal Bengals began a spectacular season in downing Presbyterian College by the overwhelming score of 46-0 before a crowd of 6,500 spectators.

After being placed at a disadvantage by Bailey’s fumble on the opening kick-off, the Tiger team scored within five minutes on a sustained forty-two yard drive. Bailey, fully redeeming his initial mistake, took advantage of two passes and a line buck to dash sixteen yards for a touchdown. Score at the quarter, 6-0.

A series of hip-shifting, sidestepping runs by “Bullet” Bryant placed the ball on P. C.’s two-yard line. Pennington, covering Coleman’s fumble over the goal line, added six points more to the tally. After gains totaling forty-six yards by McFadden, Coleman, and Davis, Magee circled right end to pace thirteen yards for another touchdown. Score at the half, 19-0.

It took only three minutes after the second half opened for Pearson to snatch Horner’s punt out of the air and scamper fifty-one yards down the sidelines for another tally. Pearson added the extra point.

Bob Bailey, playing an outstanding game, went around end for fourteen yards and the fifth score. Pearson converted from placement. Bailey passed to Willis; then Willis bucked the line for twenty yards. McFadden scored by an end run of ten yards only to be called back by a penalty for holding. He did the same thing again and ran twenty-five yards for the score. He then kicked the extra point. At the quarter the score was Clemson 40—P. C. 0.

Clemson’s third team fought on even terms with the tired P. C. eleven until the end of the game when Holman snagged Wiles’ pass and ran eight yards for the final tally. Score: Clemson 46—P. C. 0.
THE CADETS IN NEW ORLEANS

Playing the first game in their "Big Three" series—Tulane, Army, and Georgia—the Clemson Tigers lost a hard-fought battle to the Tulane Greenies by the close score of 7-0 before a gathering of 20,000 fans.

During the first two periods the Tigers fought the Greenies to a standstill. Outweighed ten pounds to the man and suffering from the heat, ranging around ninety degrees, and a continual stream of Tulane substitutes, the gold and purple warriors were forced to allow the Wave a touchdown at the beginning of the third quarter.

Benefiting by a poor Clemson kick-off, two excellent displays of running by Andrews totaling twenty-seven yards, and Mattis' twenty-eight yard run, Tulane smashed the tired Clemson line to score. Tulane's first attempt for the extra point went wide, but, due to Clemson being offside on the play, the Green Wave was given another chance, which Brunner made good.

As play switched to the final period Clemson, through a pass from punt formation from Bailey to McFadden deep in Tiger territory and McFadden's succeeding sixty-one yard run after snagging the pass, held the ball on Tulane's five-yard line. After line bucks against a Green Wave which held like a stone wall the ball went over to Tulane on their own three-yard line. Clemson recovered a Greenie fumble on Tulane's thirteen-yard line to give the Tiger a second opportunity for a score. Failing to place the ball on the other side of the goal by a series of passes, the Bengals lost their chance to upset the Tulane team. Tulane, playing for time, made wide end runs and attempted long passes to hold its margin throughout the remaining few minutes of play.

Score: Tulane 7—Clemson 0.
THE TIGERS GO TO TOWN

Clemson lost this one to a big team with a big name by the score of 21-6, but the Tigers again showed that they had a real football team.

Late in the initial quarter of the fray Army got the ball on Clemson's thirty-six yard line after a poor kick. Failing to gain through the line Craig tossed the oval to Frontczak who was downed on the Tiger twelve. Again failing to advance the ball, Craig, on the fourth down, passed to Wilson in the end zone for an Army tally. Frontczak place-kicked the extra point.

Clemson threatened early in the second quarter when McConnell recovered on Army's twenty-seven yard line, but failed when Hartline intercepted Shad Bryant's pass. Army was forced to kick. Bryant's attempted punt in return was blocked by Army's Sullivan who carted the pigskin twenty yards for a touchdown. Frontczak converted from placement.

Twice during the third period Clemson threatened, once when McConnell blocked Wilson's punt and fell on it on Army's six, only to have the ball lost by a Clemson fumble and again when Pearson intercepted a pass on Army's sixteen.

Craig, hurt in the second quarter, came back in the game and, with two fine kicks, pushed the Tigers back to their fifteen. Clemson kicked; then Long, running behind beautiful interference swept around end for Army's third score.

In the final minutes of the game the Tigers went from midfield for its score by a series of line plays and two passes, one from Bailey to Pearson which put the ball on Army's twelve and another from Bailey to Black for the Tigers' lone tally.

Score: Army 21—Clemson 6.
DOWN IN GEORGIA

Georgia played sensational football to take a spectacular game from Clemson by the score of 14-0.

Before the 8,000 fans had settled down into their seats Georgia kicked off, Clemson fumbled, Georgia recovered and, after failing to make any headway through the line, made a touchdown by means of a pass from Hartman to Maffett. Young made the extra point.

For the remainder of the first period, the second, and part of the third the teams were deadlocked.

Late in the third period “Coot” Vandiver took the ball on Georgia’s forty-nine yard line and, before hardly anyone knew what was happening, made a spectacular fifty-one yard run around the Tiger’s right flank for a touchdown.

Bailey, playing a beautiful game, tossed the oval to Willis, McFadden, Sanders, and Black for gains of twenty-one, fourteen, ten, and eighteen yards, respectively, and in six plays Clemson had brought the ball from its own twenty-seven to Georgia’s eleven. In three plays big Don Willis crashed through to Georgia’s two-yard line. Clemson’s scoring threat was halted there when the Tigers missed a first down by inches within a scant two yards of the goal line.

The game ended with the score in favor of Georgia by two touchdowns, but statistics showed that Clemson gained 181 yards to Georgia’s 116, and had made eight first downs to the Georgians’ four.

Clemson’s passing attack was something to be seen, gaining a total of eighty yards for the men from the foothills of the Blue Ridge. All in all it was a good game, but the breaks went to and were taken advantage of by the Georgians.

Score: Clemson 0—Georgia 14.
OUT BY THE FAIR GROUNDS

Back in the state for the traditional State Fair classic, a Tiger team that couldn’t be stopped chewed up the Gamecocks to win by a four-touchdown margin, 34-6.

The game started off very much the same as the Georgia game with Carolina making a touchdown in the first two minutes of play. Carolina kicked off and Bailey punted back to his own forty-one. The Gamecocks bucked the line for a first down, and then Clary faded back and tossed a long heave to Simpson in the end zone for the first score of the game and Carolina’s only tally. Turning to advantage two Carolina fumbles and a pass interception, Clemson bucked through from Carolina’s fifteen in two plays with Willis toting the leather. Immediately after the kick-off Carolina fumbled and Clemson recovered on the Gamecocks’ thirty-two. The Tigers, in seven plays, made their second touchdown, with Willis again carrying the ball.

The second quarter went scoreless despite McFadden’s thirty-two yard sprint around end.

Carolina fumbled Clemson’s kick-off in the second half and the Tigers recovered on the Gamecocks’ twenty-eight. Pearson “trucked” around end and right between two Carolina would-be tacklers for another touchdown.

Early in the fourth period Bryant returned Lyon’s sixty-eight yard punt to the Carolina twenty-eight. Bryant, Coleman, and McFadden alternately took the ball up to the goal line and Coleman took it over.

Again the Tigers recovered a Gamecock fumble on the twenty-eight. Bryant and Pearson took the ball to the three-yard line and Magee took it over only to be recalled by a penalty. “Red” Bethea then took the ball over for the final tally.

Score: Clemson 34—Carolina 6.
BACK HOME AGAIN

Home-coming Day found the Tigers taking the Wake Forest Deacons in tow to the tune of 32-0.

It took the whole first quarter to get the Tigers warmed up enough to start scoring. At the end of the first quarter the Tigers held the ball on the Deacons’ 4 after a twenty-seven yard run by Pearson with an intercepted pass and a fourteen-yard gain in three plays by Bailey.

Willis started off the second quarter by plunging four yards for a touchdown. After a series of plays, McFadden intercepted a Wake Forest pass, cut back to the sideline, and took the pigskin fifty-five yards for Clemson’s second tally.

Backing up McFadden’s twenty-four yard gallop to the Deacon’s thirty-nine, Trexler ran ten yards, lateraled to McFadden for ten more, and Bryant made nine yards in two plays. Profiting by a roughing penalty which took the ball to Wake Forest’s one-yard line, Bryant went over standing up for another six points. Ten plays later Bryant went over left tackle, reversed his field, and scampered thirty-six yards to score again.

In the fourth quarter Neely put his regulars back in the game. Bailey punted over his goal; then Wake Forest lost eight yards in two tries, and Fuller’s kick was downed on the Deacons’ 41. Pearson and Willis added six yards before Pearson snagged a fourteen-yard pass from Bailey. Willis and Pearson picked up seven yards more and then Bailey tossed the oval to Pearson in the end zone. Pearson added the extra point.

Score: Clemson 32—Wake Forest 0.
SWEET REVENGE FOR TECH

A Tech team, playing real football, had to fight for their lone touchdown against a Tiger team that wouldn’t quit. Not until the last three minutes of play did the Yellow Jackets make the score that won the game.

The first quarter consisted chiefly of a punting duel between Clemson’s Bailey and Tech’s Gibson, with Bailey getting a little the better of the argument. Near the end of the period Clemson made two first downs in quick succession and looked good for a try at the goal line, but Smith intercepted one of Bailey’s passes to bring a sigh of relief to the Jacket supporters.

In the second quarter the Jackets’ pass offense began to click and the Sims-Jordan combination was hard to stop. Tech tried to get its razzle-dazzle working, but the Tigers were prepared for that and recovered several fumbles to ruin the dazzle effect.

The second half opened with Bryant taking Tech’s kick-off back to Clemson’s thirty-four. The third quarter showed a fighting Tiger team stubbornly keeping a clicking Yellow Jacket team from scoring.

At the beginning of the fourth quarter, Tech fumbled and Simmons recovered for Clemson; then the Tigers passed and bucked to Tech’s twenty. Bailey’s pass to McConnell in the end zone was intercepted by “Dutch” Konemann who came down with a touchback to save the day for the Jackets; then, from their own twenty the Engineers made a determined drive, through a series of passes and end runs, for their touchdown. Sims converted the extra point.

Though Tech deserved winning the ball game Clemson’s stubborn Tigers made them fight every inch of the way to eke out a hard-earned touchdown.

Score: Clemson 0—Tech 7.
THE TIGERS TEAR THROUGH FLORIDA

A game that might well be called the season's thriller left the Tigers on the good side of the score by a scant one point, Clemson winning 10-9 over Florida's fighting 'Gators.

The Tigers, displaying a matchless aerial offense, took the opening kick-off and marched sixty-five yards to a touchdown. Bailey led off by completing a twenty-six yard pass to McConnell. Willis bucked the line for eleven yards in two plays. Bailey passed again, this time to Pearson for fifteen yards. Bailey then went over tackle to place the ball on the 'Gators' one-yard line. Willis hit the line for the touchdown. Pearson converted from placement.

The 'Gators' first break came in the second quarter. Bailey juggled Manning's thirty-seven yard punt and was nailed on Clemson's three. Bailey, in punt formation, passed behind the line of scrimmage to McFadden who was tackled by Walker for a safety.

In the third period, after a spectacular twenty-seven yard run by Mayberry, a quick-kick by Magee to Clemson's forty-three, and a succeeding pass from Mayberry to Evans, Florida held the ball on Clemson's seventeen. Mayberry ran wide around end for a touchdown. Mullins added the extra point.

Clemson backed to its thirty-yard line, took the ball sixty yards to the Florida five through a series of end runs by Bryant and Pearson. Bryant tried the line and placed the ball squarely in front of the goal posts. Pearson calmly kicked the goal that won the game.

Clemson outplayed the Floridians by making nineteen first downs and 280 yards to Florida's nine first downs and 210 yards.

Score: Clemson 10—Florida 9.
THE LAST KICK-OFF

Again the old jinx that has stalked the Tigers for two years in their annual Turkey-Day classic forced a Clemson team, which outgained the Furman eleven 4 to 1, to a scoreless tie to lose hopes for top honors in the Southern Conference. The tie, however, didn't prevent the Tigers from holding first place in the state.

The Tigers opened the game by driving from their own thirty-five to Furman's seventeen in less than a dozen plays; then Goins missed a pass in the end zone, and the ball went over to the Hurricanes. The Hurricane blew a little bit and then fumbled. The remainder of the period was devoted to a Bailey-Scott punting battle.

At the end of the second period the Tigers again looked good for a touchdown, taking the ball from their own twenty to Furman's fifteen, and again a pass into the end zone failed when it was intercepted by Scott.

Near the end of the third quarter the Tigers got inside the Hurricane twenty, but failed to make good their threat.

At the beginning of the fourth Furman got a break by blocking a Tiger punt, but they were thwarted by a quick Clemson recovery. The Tigers made their last bid for the score in a drive that almost clicked. As the time clock ticked away the few remaining seconds of the game the Tigers passed and ran to the Furman eighteen. The last play of the game was a pass from Magee, intended for Goins, which was intercepted by Happel as the gun sounded.

Making 19 first downs and 307 yards to Furman's 4 first downs and 81 yards, the Tigers truly deserved winning the ball game, but it was just another one of those unaccountable happenings.

Score: Clemson—Furman 0.

PHILLIPS—LEVER—HIGHERS
Managers

Clemson's freshman football team displayed great ability in winning four of the five games on their schedule.

The Baby Bengals, in their "opener," easily took Erskine in tow to the tune of 82-0 in a free-scoring exhibition. Losing a hard-fought game to the University of South Carolina Biddies by the score of 13-0 failed to discourage the embryonic Tigers, and they took over their next three encounters, winning from Citadel 42-0, P. C. 14-0, and Furman 14-6.
Beginning the season by leaving Tennessee at the small end of the score the Tigers displayed great ability and bid fair to be a strong contender for the Southern Conference championship.

Let's get in there and win . . .
As TAPS goes to press Clemson as a whole ponders speculatively over the basketball situation. Thirteen hard games are behind the Tigers, six hard games are yet to be played.

The Southern Conference basketball tournament will invite eight member teams to participate. This morning we find Clemson tied for sixth, seventh, and eighth places with two other schools. Five conference games remain on the schedule and if you will permit our indulgence in a bit of star-reading, may we suggest that Clemson will be among the eight teams invited to the Raleigh tournament.

Just for the sake of a season's preview Coach Joe Davis brought Erskine here for a practice game early in December and watched his boys turn in a 38 to 28 practice game victory.
The season officially opened with an impressive bang when the Tigers took the measure of a powerful University of Tennessee team. Two years before Tennessee had been Southeastern Conference champions; one year previous they were Conference finalists. Superb defensive work allowed the Volunteers but 15 points while Ed Kitchens was leading Clemson's 28-point scoring parade with 11 tallies.

Banks McFadden, stepping from the football field to the basketball court, stepped rather lively for a sophomore when Presbyterian College came here and his 22 points constituted more than half of Clemson's 41 to 26 victory.

The Athens jinx worked again and the Georgia Bulldogs administered to Clemson the season's first defeat, 26 to 22. The first Conference game found Clemson clearly superior to a highly touted Davidson team and the North Carolinians returned home with the small end of a 39 to 29 game, but another set of Tar Heels, this time the North Carolina State Red Terrors, took the Tigers' measure, 33 to 31, in a game that was forced into an extra period because of the
26-26 deadlock at the regular concluding time.

Playing mostly with the four veterans, Clemson was taking every opportunity to inject a few of the sophomores into the heat of battle. Veteran forwards Bob Cheves and Watson Magee, sophomore center Banks McFadden, and lettermen guards Ed Kitchens and Jack Bryce were bearing the brunt of the battle.

During the Bengals' 60 to 36 rout of Wofford, Coach Joe Davis was able to add a lot of experience to the ability of Gene Flathman, center; Bob Moorman and R. L. Thomas, forwards; Wister Jackson, Walter Prause, and Henry Bagnal, guards.

The northern invasion of North Carolina netted Clemson but one victory in three starts. The University of North Carolina, favored for the Conference title, took the first game 44 to 34; the Tigers swung back into winning stride in handing Wake Forest a 42 to 33 licking but were set back again by N. C. State, 55 to 35.

The University of Georgia came here for a return game and found the Clemson team
The charm of Columbia snapped the Clemson basketball team back to top form and the University of South Carolina Gamecocks again tasted defeat as administered by the Tigers. Scoring at practically every turn, and halting a Carolina second half rally before it became dangerous, the Tigers packed the game in moth balls, 54 to 38.

The half a hundred points of the night before were of no avail when, before a packed house in Charleston, the Citadel's scrappy Bulldogs threw up an undying defense, scored just enough points to win the ball game and went to the showers the victors, 28 to 26. The Citadel evidently had the Indian sign on the Tigers that night, for it was while this basketball game was in progress that the Bulldog fighters were battling the Tigers to a 4 to 4 draw in Clemson's ring.

Clemson says "So long" this year to a pair of fine basketball players and fine young men. Bob Cheves, forward, and Ed Kitchens, guard, have played their last year with the Bengals. Their work has been outstanding over a period of three years and filling their positions for the 1939 season will be one of Coach Davis' most serious problems of the year.
IN THE ROPES

Intercollegiate boxing at Clemson rose to its highest peak during the season of 1938. Youthful Coach Bob Jones, as has become his custom, developed the Tiger fighters into a team that garnered fighting laurels in Southern circles and materially aided Clemson in starting the winter sports fans headed toward Tigertown.

Captained by Southern Conference Champion, senior welterweight Russell Dorn, and alternately captained by Conference Finalist John "Ripper" Murray, the Bengal Pugilists undertook the hardest boxing schedule a Clemson team has ever attempted and came through the battering campaign with four victories, a tie, and a defeat. As TAPS goes to press, Coach Bob Jones announces indications of entering a full Clemson team in the Southern Conference boxing tournament to be held at the University of Maryland.
Clemson entered the National Collegiate boxing picture when Dorn and Murray, accompanied by Coach Bob Jones, represented the Tigers at the National Collegiate boxing tournament in Sacramento, California.

Under the impetus of the 1938 season boxing at Clemson is apparently headed for greater heights. TAPS feels that it is entirely in order to congratulate Jim Belliveau, of Charlotte, for the excellent way in which he refereed the bouts and the fairness with which he called the decisions.

The old man in cap and gown, Dr. Graduation, will deliver a real knockout punch in June. Murray, Dukes, Jones and Dorn have fought their last for Clemson. They were a credit to the athletic ability, sportsmanship, and fellowship of the Tigers. May their rounds in the battle of life be as successful.
Opening the season by heading South for a match with the University of Florida’s fighting ’Gators, the Clemson team dropped its only match of the season, 41/2 to 3½. There followed a series of four consecutive victories over Georgia, North Carolina State, Georgia again, and the University of South Carolina before the Citadel team fought Clemson to a 4-4 draw here in a spectacular climax fitting of the outstanding season.

The highlights of the 1938 boxing season really began in March of 1937 when Captain Russell Dorn waded through four consecutive battles at College Park, Maryland, to be acclaimed Southern Conference senior welterweight champion. "Ripper" Murray won three fights, losing only to Nirmingham, of Maryland, in the featherweight finals.

The outstanding individual record of the year was turned in by Bill Cason, methodical and hard-hitting middleweight who blasted his way through the six-match schedule undefeated. Primarily a middleweight, Cason stepped his weight up a few pounds and participated in two lightheavy battles during the year. As a middleweight he won three fights by knockouts and one by decision; as a lightheavy he took two decisions.

Teddy Boselli and Milton Berry, dividing the bantamweight fighting time between them, finished the year undefeated. Boselli took three decisions and a forfeit; Berry won a decision and delivered one knockout punch.

Captain Dorn performed brilliantly and steadily throughout the entire season. He won five fights, three by knockouts, and was preyed upon by Madam Fate, probably, when Pete Lempesis of the Citadel handed him his only defeat of the season. Lempesis won a three-round decision and, oddly, it was Lempesis that Dorn defeated to win the Southern Conference title for 1937.

A record of Clemson’s 1938 boxing season would be sadly incomplete without mention of the Murray-Bagnal fight when the Citadel was here. A gamer fighter than Bagnal has never been seen in Clemson’s field house. It was a trifle foolish, perhaps, to keep coming in, asking for—and receiving—the punishment he took from Murray’s powerful gloves, but the three rounds constituted the most sensational fight that has ever taken place here. Murray’s victory was clear-cut, but Bagnal’s ability to "take it" was inhuman.

Welterweight Bob Jones, haunted throughout the season by an easily hurt hand, broke even with two victories and two defeats. Lighthexy Harvey Ferguson won two, lost two, and received one forfeit. One of his victories constituted the freak of the year. Exactly on the third round bell Lyons of the Citadel connected with Ferguson’s chin with a haymaker of the first degree. Knocked completely out, Ferguson was awarded the decision on previously piled up points while seconds were dragging him to his corner.
Track
The South Carolina track championship pennant has flapped around in the Clemson breezes so long that it is becoming definitely frayed around the edges. Four years ago, Coach Frank Howard's Tiger cindermen emerged from one of the most grimly-contested state meets in history in a heated deadlock with the University of South Carolina. The state recognized two champions that year. The three succeeding years found Howard's Bengals ruling the roost of South Carolina track with an iron hand.

The 1937 track team was no exception; it returned from Clinton with the pennant waving jubilantly in the winds. The old flag evidently knew it was returning home.

Champions consistently, it seems, but never by a wide margin. The competition at Clinton is keen. Last year the Tigers, headed by Captain Bob Carter, were able to nose out the University of South Carolina by exactly one point. At the end of the meet the scoreboard read: Clemson, 46; South Carolina, 45. The remaining South Carolina schools finished in the following order: Citadel, 21; Presbyterian College, 19; Furman, 18; Wofford, 18, and Erskine, 3.

The season opened on Clemson in Atlanta with Georgia Tech's flying Yellow Jackets as the year's first opponent. The majority of first places went to Tech's Jones, Konemann and Aldridge; Clemson took a great many seconds and thirds, including the second in the meet. Tech rolled up 71 points; Clemson totaled 55.
A week's work pepped the Tigers up considerably. Meeting Presbyterian College on their home track, one of the South's finest, incidentally, the Bengals roared away with a 82 to 59 victory, eleven first places, six seconds, and eight thirds went into the records beside Clemson names. Captain Carter, running brilliantly in his hurdle specialties, led the scoring with firsts in these events and the top place in the high jump.

The University of South Carolina, later to prove Clemson's most dangerous foe in the state track festival, offered comparatively little competition when the two teams met in a dual meet at Clemson. Although Dick Little of the Gamecocks matched point for point with Clemson's captain Bob Carter—each ringing up 15 markers—the final checkup found Clemson out in front, 79 to 47.

At the expense of a weaker than usual Furman track team, the Tigers enjoyed their point scoring field day of the year. Firsts, seconds, and thirds went to the Bengals with monotonous regularity. A partially soggy track prevented exceptional times, distances, and heights. At the end of the relay the score stood: Clemson, 91; Furman, 35.

The final dual meet of the season brought one of the greatest track shows in years for Clemson. Champions, some two or three of them, displayed their running wares before well-filled stands. With the University of Georgia came Forrest "Spec" Townes, Olympic and world champion hurdler, and Bobby Packard, Olympic sprinter. Few people were interested in the winning team that afternoon; all eyes, including those of Clemson's participants, were focused on Townes and Packard.

The crowd's anxiety and curiosity was satisfied. Some looked for a close race, possibly an upset, when Bob Carter made his hurdle bid against Townes. There were no mistakes, no missteps; Townes was the Olympic champion; not Carter.

Off with the gun and "gone with the wind," Townes was complete master of the high hurdles. The watches caught him at 14.7 seconds. The crowd wanted a little excitement; Showman Townes gave it to them in the low hurdles. The 220-yard distance gave him a little more time to plan, to watch how the other boys were running. They came out of the holes together, Townes, Carter and Georgia's Arnold. Down the stretch it seemed that Carter was in the lead—he was. With thirty yards to go Carter was still leading by a possible five yards. It was then that the spectators saw a world champion's burst of speed that carried him over the final two hurdles and down the last stretch as though it were a straightaway, Townes ahead of Carter, the winner by the five yards he had been trailing. The watch indicated 24.1 seconds.

It was, however, another successful cinder season for the Tigers. Each year Coach Howard brings his boys along at a swift pace.

Baseball
Baseball at Clemson during the spring of 1937 was an up and down proposition and, regretfully, the Tigers were down slightly more than up. A long, hard schedule of nineteen games found Coach Jess Neely's boys victorious in seven contests, losers in an even dozen.

The reason was two-fold; a slight scarcity of baseball material and an exceptionally hard schedule. A pitching staff of only one veteran and three virtual beginners resulted in quite a number of opposing base hits and subsequent runs.

March, 1937, came to a chilly close at Tigertown as the Bobcats of Ohio University pounded three Clemson pitchers for eleven hits, made good use of five Tiger errors and took the opening ball game, 8 to 1.

The University of Georgia came to Clemson early in April, immediately pounded on the Tigers with all the savageness of a Bulldog and walked away with a 13 to 1 verdict. Georgia touched Coker and Heap for only seven hits, but at various times throughout the nine in-
Ed Heap proved complete master of the Presbyterians as he allowed only three hits, fanned eight of the Calvinists, and tossed the Tigers to an exciting 5 to 4 victory. But the winning streak was short-lived and Furman took the next game, 5 to 2.

Just as Erskine was getting all steamed up with a seven game winning streak and another state championship in view, Ed Heap again turned in a brilliant mound performance. Behind timely hitting of his mates, Heap piled up a six to one lead and only a late defensive rally in the ninth halted Erskine with three runs in that frame, thus giving the Neelymen a 6 to 5 victory.

Two more games went into the lost column when Stokes pitched Newberry to a 1 to 0 victory over Clemson. Only Hendrix’s single prevented Clemson’s going hitless in this game. The University of South Carolina, playing in their own backyard, handed Clemson a 4 to 3 whipping in the first meeting of these two traditional rivals.

Down at Athens, the University of Georgia found Clemson on the comeback trail. A brilliant hit-parade the two days they were in Georgia enabled the Tigers to return home with 11 to 9 and 6 to 1 victories. Carolina came to Clemson and repeated the one-run victory performance, downing the Bengals 5 to 4.

Presbyterian College more than evened the score of Clemson’s early 5 to 4 victory when Walter Johnson’s men ganged up on the Tigers at Clinton, winning 6 to 5 and clinching the Palmetto League championship. Clemson’s heavy guns
came into play late in the season as Furman was vanquished 14 to 8. Two late-season games were shared equally between the Tigers and Wofford. Clemson dropped the first, 3 to 2, and wound the season up with a shower of hits that turned Wofford back to Spartanburg on the short end of a 9 to 4 game.

The 1937 team took the field in the following positions: DeLoach, catcher; Pritchett, first base; Edwards, second base; Verner and Hendrix, third base; Folger, shortstop; Bailey, left field; Heyward, center field; Brodie, right field; Heap, Crosby, and Coker, pitchers.
Minor Sports
The South Carolina State Swimming Championship for 1937 was not contested. For ten consecutive years, Clemson has been first in intercollegiate swimming in the state. By defeating Georgia Tech, Emory University and University of Georgia Clemson might well claim the Championship of two states. Two exciting meets were lost to University of Florida: one at Clemson and one at Gainesville.

George Durban and Bacot made high scores for Clemson ending their college swimming careers in excellent style. T. B. Young and Don Hutchinson showed great improvement and bid fair to be the Tigers' best this year. Frampton Durban, Horner, Miller, Cullen and others helped to make it possible for the Tigers to win.

Clemson is indebted to Carl McHugh, a former star, for his splendid efforts with the team. He did a fine job. With a nucleus of good swimmers and with the addition of some swimmers from the freshman team of last year, it is predicted that the Tiger "Water Splashes" will prove even better this year, and that Coach Holtzendorff will soon have the Champions of the Southern Conference.
In spite of the lack of courts Clemson's racket swingers were able to finish a successful season. The Tigers finished second to Carolina in the state race.

Swinging south early in April the Bengals dropped encounters to the strong Georgia Tech and Florida teams; in return meets, close matches were again dropped; however, Mitchell handed Boyle, Florida ace, his only defeat of the season. Turning to state warfare, P. C. was blanked twice and Erskine was shut out 7-0. Georgia got a hard-earned 5-4 decision. Furman was beaten at Clemson but managed to eke out a win at Greenville. Clemson ended its season by dropping a 4-3 match to Carolina.

Following the season, Clemson made a very creditable showing at the Intercollegiate Tournament held at Clinton. Campbell upset Furman's Southern and advanced to the semi-finals in singles. Mitchell and Arnold went to the finals in doubles before meeting defeat at the hands of the defending champions from Carolina, Daniels and Williams. Campbell and LaGrone advanced to the semi-finals in doubles.

With the completion of the new tennis courts, Hoke Sloan is preparing another strong team, representative of Clemson's minor sports. A tough schedule including matches with Southern Conference teams is being planned.
The RIFLE TEAM

Each Senior R. O. T. C. unit is required by the War Department to enter a Rifle Team in Corps Area and National competition. The Clemson College Rifle Team of 1936-1937 not only met full requirements in an exceptionally creditable way, but in addition participated in numerous postal and shoulder-to-shoulder matches. These teams met in shoulder-to-shoulder competition: University of Georgia, Wofford, and The Citadel. Honors were divided with Georgia and The Citadel. The Clemson team defeated Wofford.

W. P. Law won the college medal for individual high score and distinguished himself by placing fourth in the Fourth Corps Area Hearst Trophy Match. R. V. Jackson won a place on the Fourth Corps Area Camp Perry Team.

The 1937-1938 Rifle Team is captained by W. P. Law; J. S. Baskin is manager and H. B. Risher is coach.
The SOCCER TEAM

FREDDIE KIRCHNER

The Clemson soccer team had a very successful season turning in five victories, one tie, and no defeats. The team can justly be proud of this season of undefeated play, for every game was close and hard fought.

Clemson won twice from Riverside by the identical score of 2-0. The first game with Davidson at Clemson was won by the Tigers 1-0, and the second contest at Davidson resulted in a 3-3 deadlock. Catawba was beaten on Bowman Field to the tune of 5-2 and in the game at Catawba the Clemson team won another by the close count of 1-0.

Clemson College is the only college or school in South Carolina promoting a soccer team and to the Tigers must go the honor of blazing the trail for this sport in the state.
The Intramural Sports Program is promoted in order to give every cadet at Clemson a chance to participate in some form of wholesome sports activity. A wide variety of sports is offered to attract a large portion of the student body. The program is being expanded each year and the aim is to develop it to such a point that every cadet at Clemson, who is physically fit, will voluntarily take an active part.

It is becoming increasingly important for people to learn avocational activities so that leisure time may be used in a constructive manner; wholesome sports activities fill this need to a large extent. The intramural program is an edu-
cational program as well as a recreational program. Personality growth, character development and mental alertness are derivatives of sports just as much as physical improvement. Many sports on the intramural program have carry-over values which enable the individual to participate in them for many years after graduation from college. The recreational aspect of the program is given careful attention along with the keenness of the competitive spirit that is aroused.

Teams and individuals are entered in the leagues, matches, tournaments, and contests by companies and battalions. Open tournaments and contests are promoted. The Athletic Officers (one from each company) and the team managers form a group to handle intramural affairs. The following sports are offered to students: archery, softball, badminton, basketball, bowling, golf, gymnastics, handball, hiking, horseshoe pitching, rifle-marksmanship, soccer, swimming and diving, table tennis, tennis, track and field events, and volleyball.

Six o'clock, May 28, 1918. A deep rumble droned over the battlefield of the American sector, occupying a little salient in the long lines near the village of Cantigny, as American artillerymen, stripped to the waist, laid down their rolling barrage. Five minutes later, the men began to move forward in straight even lines as if on parade. As the rising sun sent fiery fingers through the morning mist amid bursting shells and coughing cannon, the American doughboys went over the top in their first encounter. With firm even steps the Marines of the Fourth Brigade advanced in perfectly formed lines. Coolly, as though at target practice, they adjusted their sights, each doughboy picking out his man in the line of gray-green uniforms. Methodically, as though the Americans were in training, the rows of Germans fell like wheat before the reaper. On into the war-wrecked village of Cantigny the advance continued. Their objective reached the attack ceased and preparations against counter-attack were made.

Thus the Americans met the test of actual combat with the same courage and bravery as displayed by their forefathers. Nations on both sides of no man’s land had wondered how America would react under fire. Now their questions were answered, and all doubt dissolves. The American soldier had lived up to his name in what he called his "baptism of blood."
Publications
"Patience is bitter, reward is sweet." This, my friends, is the motto of the Senior TAPS Staff. There have been many weary hours that we have patiently toiled with hopes for results to exceed previous years. Whole cooperation and a feeling of unity has existed among the ten boys that are on the staff and the corps of eighteen hundred cadets.

Even though our ship has been tossed by the winds of passing time, our Editor-in-Chief and Associate Editor have steered her safely to the predetermined port. When some sensed mutiny in the air among the staff, it was smoothed over by the ruling and inspiration of our college adviser, Mr. J. C. Littlejohn. When he held his hand outstretched over the sea, our ship sailed along calmly and smoothly. The Business Manager's problems were easier solved while the
Photo and Literary Editor's problems diminished.

Individuals and club leaders with their organizations were promptly on time ready to "look at the birdie." Departments and fraternities presented their write-ups which explained what their organizations stood for with their purposes as their goals.

Fellow students, you can plainly see after this year's work that the TAPS is not the Staff's book, but yours. Each and every individual student played a very vital part in the formation of our annual. What we, the Staff, have done was assemble the material which you have given us and present it to the eager eyes of the world. We heartily hope you like the finished product—THE 1938 TAPS.
Members of the Executive Staff of the Tiger, Clemson’s official weekly publication, comprise what may well be called the paper’s Board of Strategy. Under the direction of the editor-in-chief, these men map out the paper’s editorial policy, plan the make-up, and strive for innovations which will give the Tiger more reader interest. The editor-in-chief plays a dual role, carrying the duties of publisher as well as those of editor. It is his job to coordinate the efforts of the editorial, circulation, and business departments.

Though the Board of Strategy supervises the work on the routine editions, its primary function is the planning and supervising of the special issues which are printed throughout the year. Issues such as the State Fair and Thanksgiving issues, and the annual High School and Summer editions are the brain-children of the executives. These members are ever alert to the latest trends in modern college journalism and they attempt to give the students a weekly that measures up to modern standards. Typical of the innovations made by the Executive Staff was the publishing of the first photogravure section and the printing of the first eight-page, eight-column paper in the history of South Carolina college journalism. Keeping abreast of the times, the staff gave Clemson its first streamlined paper. This year, in an effort to provide some form of expert journalistic training for Tiger men a clinic conducted by staff members of one of the State’s leading dailies was established. It is thus that the Executive Staff makes its influence felt.

The TIGER
The ASSOCIATE STAFF

Juniors who have shown genuine interest in newspaper work and who have exhibited a reasonable amount of initiative and ability are given positions on the Associate Tiger Staff. These men may be classed as the key men of the Tiger hierarchy for they head the specific departments of the paper. Each member has direct control over small groups who are directly responsible to him. The news editor issues assignments each week. It is his duty to see that thorough coverage is given each week and that the reporters meet the Monday deadline. He is responsible for the bulk of the routine news copy. The sports editor and his assistants cover all athletic news and are responsible only to the editor-in-chief. Included on the Associate Staff are the exchange editor, the cartoonist, and those assistants to the business and circulation managers who perform a major part of the duties of these departments. It is while working on this staff, the training school for the executive positions, that the men learn the ability to handle men, and gain understanding of the technique of putting out a college newspaper.

Burning the mid-night oil.

T. B. YOUNG

J. K. SMITH

T. E. STANLEY

W. H. FRAZIER

A. W. SANDERS

STAFF
This small group of men of the Junior class is the group chosen by the Senior Staff, out of a much larger number of candidates, to assist in assembling the material for and publishing this book, and, incidentally to be in a position for a place on the Senior Staff of 1938. These men are the Jacks-of-all-trades on whose shoulders fell the task of running the fundamental mechanisms of the work involved in publishing TAPS, and at the same time of trying to learn the more polished methods of the Seniors. The men in these pictures were literally secretaries to the Seniors. They were driven, ridden, threatened, and cajoled into work by the Seniors, but here they stand at the end of the year, more experienced, better prepared, and better for the work and association they have had with the Senior Staff whose places they hope to fill next year.
The unsung heroes of the campus news world are the aspiring journalists who compose the Tiger Reportorial Staff. These leg-men of the staff spend the afternoons, that you spend at the picture show, running around the campus in search of that elusive something known as news, ads from the "business district," and another subscriber willing to fork over a dollar for a year's subscription to a good college newspaper. Numbering approximately thirty members including those who are out only for pictures and banquets, this group is comprised of the lowest workers of the editorial, circulation and business staffs—for the most part freshmen and sophomores.

Time served on the Reportorial Staff is really an apprenticeship for the period is a training period in which the reporters are taught the art of covering a beat, the circulation lads the knack of speeding the thirty-six hundred copies of the Tiger through the mails, and the future financiers the secret of turning a "no" answer into a ten dollar ad.

Any man is eligible for a position on the Reportorial Staff. Experience is not necessary, and genuine interest is the prime requisite. Though the college does not have a school of journalism the system now in operation affords an excellent journalistic laboratory for the aspiring journalist, and strangely enough, a number of former Tiger men as graduates now hold responsible positions on metropolitan dailies.
BUILDING THE BOOK

As the building of The 1937 TAPS is complete and its Senior Staff gives a sigh of relief to denote that their many duties are over, the nucleus of The 1938 TAPS gleefully takes over the job of building another annual. The men have to solve many problems, such as what will the theme be, to whom will the book be dedicated, and getting an efficient Junior Staff.

After the above have been solved, the Junior Staff gets busy collecting space from each and every student that intends to have his picture in the annual. In the meantime, the layout of the book is being made, pictures of individuals and organizations are being taken, write-ups are being contemplated, and dummies are being made. It is not long before proofs are back from the photographers and are distributed for the cadets to admire themselves and select poses. The Editor and Associate Editor make a trip to Atlanta to the engravers and return with new ideas, corrections, and are filled with enthusiasm over the progress of the book.

State Fair arrives with the men in the Tiger Uniform going home with the expectation of getting a picture of that best girl to submit for the Annual's Beauty Section. The latter is chosen by the votes of the corps with the hope that there will not be much politicking.

By this time The TAPS is beginning to take form and the result of the many wearisome hours can dimly be seen. After intricate details have been compiled using the Junior Staff as errand boys, the finished product is submitted to Atlanta to the engravers and printers. The staffs eagerly wait for the return of the proof so it can be proof-read. The next main event is the distributing of the new annual among the corps.
The battle of headlines vs. deadlines is a never ending one, for while the circulation boys are bending over paste pots and addressographs in an effort to get the latest edition in the mails, the executive staff is gathered in the Inner-Sanctum busily drawing up plans for next week’s issue and planning another streamline make-up designed to rock the journalistic world. Here the editor-in-chief, his associates, and the business and circulation managers thrash out the problems that have arisen in their respective departments.

Over in his little office amid the bedlam of typewriters and lusty shouts of "Copy Boy, Copy Boy!" the news editor is rushing around giving out special assignments, reminding reporters of the Monday deadline, helping a cub rewrite that "lead," and trying to impress the lads that it really does take lots of copy to fill an eight-page paper. Here "scoops" are born and the bulk of the routine news is formulated.

Wednesday afternoon the sector of battle shifts to the print shop where, amid the clack-clack of linotype machines the staff puts the paper to bed. The editor, an executive member and two associates make the trip to Greenville each week. Here the associate members are given the training which will fit them for their executive positions the next year. After hours of feverish last-minute headline writing and pounding of extra copy, the forms are filled, a proof is pulled and corrected, and the staff begins the trek back in the staff car Jezebel for a day of rest before the battle of headlines vs. deadlines begins anew.
After the last "New-Deal" corporal, the most recently tapped honor frat men, newly elected officers and countless others had hustled down to the Blue Key Directory office to be satisfied that his latest accomplishment was going to be listed, the nerve-racked Blue Key editors were able to go to press with their annual college directory. Up until the last minute these men were besieged with changes in room numbers, home addresses, courses, and similar trouble—some overzealous individuals even trailing them to the print shop. In spite of all this, however, the Blue Key published the fourth annual Blue Key Directory ahead of schedule.

The directory, first published by Blue Key at Clemson in 1934, has served an unlimited number of purposes, both for cadets and faculty members. It lists each cadet, his company, room number, home address, and student activities. It also gives the officers of administration, faculty, student clubs, societies, and honor fraternities. A copy of the directory was distributed to every cadet in barracks and some were made available for faculty members and others who desired them.
WE TURN TO THESE

MR. J. C. LITTLEJOHN

The yearbook would not be complete without mentioning Mr. J. C. Littlejohn, genial business manager of the college, and financial adviser of The TAPS and The Tiger. He is always willing to give freely of his valuable time to help solve the many problems confronting the staff of the publications. It is not every institution that has the opportunity of having such a friend and staunch supporter.

CAPT. J. D. HARCOMBE

The many persons who visit the Clemson Dining Hall are favorably impressed with the quantity and fine quality of food that the mess officer, Capt. J. D. Harcombe, affords the eighteen hundred cadets. His untiring efforts to make the cadets feel at home in their rooms have been a success. We wish to thank our Mess Officer for what he has done for Clemson, and what he has meant to Clemson men.

PROF. J. D. LANE

No matter what path of life we take, English is an essential factor which helps to determine our success. Clemson has the honor of having widely known English professors, among these is Prof. J. D. Lane. The 1938 TAPS Staff wishes to thank him for the noble sacrifices he has made to better them and The 1938 TAPS. Not only has he made these sacrifices to The TAPS but each and every cadet that seeks his assistance.

MR. JOE SHERMAN

Clemson is in the headlines! There is not a doubt in our minds who has taken his valuable time in order that we might be where we have reached today in fame. Clemson is fortunate in having one of its recent graduates as Director of Publicity, Joe Sherman. Not a little of the honor for the college's becoming recognized as one of the leading schools of the South is due to Joe's articles in the daily newspapers.
Eight Girls Chosen For 1938 Taps Beauty Section

STATE FAIR GAME NEXT WEEK

SIX SOUTH CAROLINA BEAUTIES SELECTED
Alabama And Pennsylvania Also Have Representatives In Year Book

From November 15-17, Clemson's 1,500 men went to the polls and voted for the eight lovely lads to compose the Sections of their beauty

From a group of Carolina and Pennsylvania girls selected The Style and beauty magazine Miss tomato and Miss banana Williams from the Lewis of Arkansas Plus and Miss Millie Oklahoma From the ladies of Delaware and Pennsylvania respectively.

Converses Fierce Impress College also have Miss Gleason of Pennsylvania. Plus and Miss Millie Oklahoma. The ladies of Delaware and Pennsylvania positively.

Y.M.C.A.
The development of the Clemson Y. M. C. A. has been gradual. Had the staff been enlarged much earlier and at a time when the budget would not warrant additional staff members it could easily have been possible for the Clemson Association to accumulate a large debt. The College is fortunate, however, in having some excellent business men on the governing board of the Y. M. C. A., and to those men and other friends who have counseled with its governing members is given the credit for the growth of the Clemson Y. M. C. A.
THE ADVISORY BOARD

In talking with Clemson freshmen it is interesting to note how many of these boys have been influenced by former Clemson students and Clemson graduates in making their decision to come to Clemson. A large number of men who have been mentioned in this connection have been boys who took an active part in the work of the Y. M. C. A. as cabinet or council men or in some other capacity during their student days. In making a survey of the many friends of Clemson who are interested in the college and who continue to give it moral and financial support, we are gratified to find so many men who have shown an interest in their fellow-students during their college days.
Y. M. C. A. CABINET

The cabinet members keep records, make monthly reports, make numerous contacts with faculty and student groups and strive in many ways to render that type of service that will be most useful to a large number of students, keeping in mind always the ideal and purpose of the Association and striving to promote activities consistent with this ideal and purpose.
The Senior Y. M. C. A. Council is composed of a group of seniors many of whom enlisted as members of the Freshman Council during their first year at Clemson. These councils are a very potent type of organization, many students testifying to their wholesome influence, and some have felt that they were as beneficial if not more beneficial than most any other influence that came into their lives during student days. Mr. P. B. Holtzendorff, Jr., is adviser of this group.

Honor Clubs
LEADERSHIP AND SERVICE . . . these two cardinal principles are the basis upon which Blue Key, national honor fraternity, is founded. The Clemson Chapter, established in 1932, is composed of student leaders who have shown particular interest in student activities. Since its inception Blue Key has become the most active and one of the most influential organizations on the campus. Its members have been particularly useful in the promotion of better student relationship and cooperation between the students and faculty and college officials.

Blue Key does not overlap or take the place of any other organization. Service is the keynote, and the activity of the organization is unequaled. Establishment of a Freshman System, assistance in handling the visitors at Homecoming and the printing of a student directory are the highlights of the past semester's work. This Chapter stands ever ready to serve . . . its members . . . ever ready to support any worthwhile plan for bettering Clemson or the student body.

FORWARD MARCH! ... and the military efficiency at Clemson College continues to progress onward, rapidly developing into that high degree of perfection which comes only after being subjected to the proper military regulations.

Behind the scene, well in the background when commendations are being made, is the Clemson Chapter of Scabbard and Blade, National Honorary Military Fraternity, known as K Company of the 7th Regiment. Strictly a military organization, K Company has endeavored to encourage military proficiency by annually presenting cups and medals to the outstanding and best-drilled units and individuals in the brigade.

K Company has not restricted its activities to military functions alone but has taken an active part in all phases of Clemson College life which would better create a feeling of "Esprit du Corps."

Membership in Scabbard and Blade is limited to those outstanding cadet officers who have demonstrated the highest qualities of leadership and initiative.
J. W. DAVIS
President
Demanding as prerequisite the highest type of character, as well as scholarship, Tau Beta Pi is recognized as the leading undergraduate honor engineering organization in this country. Members are chosen from the Junior and Senior classes, only those select few with the highest grades being eligible. In banding together such a group of young engineers, Tau Beta Pi forecasts the leaders in the engineering world of tomorrow. Such a forecast can hardly fail, having the background that it does. And so the present members of Tau Beta Pi are expected to uphold the trust placed in them by virtue of their having been selected to join this body, and to make a definite place for themselves when they leave school.

Iota Chapter of Phi Psi, National Honorary Textile Fraternity, was chartered at Clemson in April, 1927. This Chapter is one of nine active chapters located on the campuses of colleges that have leading Textile Schools. There are also nine Alumni chapters located in various cities of the United States.

Membership of a student in Phi Psi is based on his high scholastic standing and his social rating among his fellow students.

Phi Psi men are leaders in the textile industry. They are always striving to keep the textile industry progressive. The members are linked together by mutual interest in the profession which the fraternity represents and are constantly trying to strengthen this link.
Realizing that the students of the Architectural Department of Clemson College needed an organization that would bind them closer together, there was formed The Minarets.

The selection of members is based upon character, dependability, scholarship, and interest in the department. It is considered a distinct honor for a student to be elected into this club.

Though professional in nature the social side of college life is not neglected. Suppers, informal parties, and interesting programs are given for the members and their friends.

The Minarets are now making plans to petition a National Architectural Fraternity. This club should be an asset to any such organization.

Alpha Zeta is the National Agriculture Fraternity. The South Carolina Chapter was established at Clemson College in 1930.

Student members of this fraternity are selected from among undergraduate agricultural students of high scholastic standing on the basis of character, personality, and leadership. Honorary membership is conferred only upon recognized leaders in the field of agriculture.

It is the aim of Alpha Zeta to promote the profession of Agriculture, and to establish, foster, and develop scholarship among its members.

In the fall of 1933 a group of cadets from Charleston county gathered together for the purpose of organizing a club which would promote a stronger feeling of fellowship and good will among students from the "low country." This group decided that the main qualifications for membership would be based on an individual's merits of character and personality and that he must live within a fifty-mile radius of Charleston.

Such was the beginning of the Beta Sigma Chi and so has it grown from that time, continuing in those fundamental principles laid down by its founders, until today it is one of the most prominent and well thought of social fraternities on the campus.
SIGMA PHI

Sigma Phi is one of the oldest and most outstanding of the fraternal organizations on the Clemson campus. It was organized to promote a friendly spirit and feeling of brotherhood among its members. The membership is limited to men of outstanding leadership in all phases of the college curriculum. Many of her sons have gone out into the world as leaders and men of outstanding ability.
SIGMA EPSILON

In a school such as Clemson we have a decided place for a purely social fraternity. Due to the existence of the technical frats, there is a marked degree of clannishness among the various study groups. And so, in an effort to offset tendency, Sigma Epsilon was founded. Membership into this fraternity is partial only to character, personality, and leadership.
MU BETA PSI

Mu Beta Psi is a National Honorary Musical Fraternity. It is one of the youngest, yet one of the most valuable organizations on the campus. The Delta Chapter was installed mainly through the efforts of the University of North Carolina.

Only those students in the junior and senior classes who have had musical training and are outstanding in their musical ability are selected to be members of this organization.

Music is studied from a standpoint of an educational subject. The relations of the musical organizations of the colleges are brought closer together.
The Kappa Chapter of Alpha Tau Alpha, National Professional Agricultural Education Fraternity was organized at Clemson in 1930.

The purpose of this fraternity is to promote the highest ideals and standards of Agricultural Education and a more intimate acquaintance and closer relationship with men who have chosen the profession of teaching agriculture. The fraternity seeks to find and enjoy the fraternal fellowship of men of high scholarship, true teaching ideals, and of sincere desire to serve in agricultural and rural life leadership.

Active membership is limited to juniors and seniors preparing to teach agriculture, and graduate students whose interest is in Agricultural Education.
SIGMA TAU EPSILON ★ ★

Sigma Tau Epsilon is an honorary scholarship fraternity, organized by and for the students of the School of General Science at Clemson College, to establish and develop high standards of scholarship, character, and a spirit of fellowship among all of its members; to create and bond together an outstanding body of men who, by scholarly attainment, faithful service, and maintaining of ethical ideals and principles, have achieved distinction, and are capable of accomplishment in others.

Founded in 1934, Sigma Tau Epsilon has experienced steady growth in membership and progress in its supreme aim: developing high standards of scholarship.
Athanor, founded in 1934 by the students in the School of Chemistry, has existed primarily as an honor fraternity; promoting the principles of honesty and integrity among its members and the school at large. Athanor provides also a social organization for the students of the Schools of Chemistry and Chemical Engineering, to whom membership is restricted.
Recognizing the need of an organization to maintain a closer relationship between the students and faculty members of the Chemical Engineering Department and to assist these students in preparing themselves for the profession they are to follow, the members of the 1938 class of Chemical Engineering organized the local honorary fraternity of Chi Pi Pi. Membership is limited to the higher rating students taking Chemical Engineering and Chemistry.
PRE-MEDICAL CLUB

Although one of the newer clubs on the campus, having been organized in April, 1936, the members of the Pre-Medical Club justly feel that theirs is one of the more essential societies here. A look at the club’s purpose will confirm this. It is a four-fold purpose: To promote fellowship among the members of the Pre-Medical School, to familiarize these members with medical subjects, to promote further study and education preparatory to the continued study of medicine, and finally to aid the prospective Medical student in selecting subjects in keeping with pre-medical training.
The Kappa Alpha Sigma is a local organization composed of the faculty, juniors and seniors of the Agriculture Department. It was organized in 1931 as the Agronomy Club, but was changed to the Kappa Alpha Sigma in 1935. The local club was one of the first to be admitted to the students' section of the American Society of Agronomy when it was organized in 1934.

The purpose of the Kappa Alpha Sigma is to bring together the students and faculty outside the classrooms. The programs consist of talks either by the members or by some member of the faculty. These talks help to keep the members posted on the latest developments in the field of Agriculture.
Since its founding at Clemson four years ago, the Weaving and Designing Club has endeavored to give its members a better insight into the practical problems of the textile industry. Inspections of nearby plants are made to gather first-hand information. At the club meetings, Clemson textile graduates often lead round table discussions of current problems.

Membership in the club is open only to those students majoring in Weaving and Designing and the faculty of this department of the Textile School.
The American Institute of Electrical Engineers, the national organization representing the electrical engineering profession, was founded in 1884, and has as its objects the advancement of the theory and practice of electrical engineering and of the allied arts and sciences, the maintenance of a high professional standing among its members, and the development of the individual engineer.

The Clemson College branch functions as an instrument under the auspices of the Institute for aiding in the development of the latent abilities of students, primarily by affording opportunities for them to carry on activities quite similar in nature to those which are carried on by the Institute members, such as the holding of meetings, the presentation and discussion of papers, reports, abstracts, etc., participation in inspection trips to places of engineering interest, etc. There is no knowledge that will be of greater value to the students in the future than the ability to stand before an audience and present their ideas clearly and convincingly, and the branch meetings offer ideal opportunities for the development of such ability.
A. S. C. E.

The professional preparation of engineers is chiefly acquired after graduation, but it should be clearly recognized that an engineering course is a part of one's engineering career. Therefore, one should begin immediately, while still in school, the habit of study, the process of making professional acquaintances, the practice of interchange of ideas with other engineers, the conformity to a code of ethics, and the developments of other attitudes and habits intrinsic to the profession. A consciousness that there is a professional side to an engineer's career which should be awakened while the more obvious side still holds the center of the stage. These things are made possible by membership in the Clemson College Chapter of the American Society of Civil Engineers and are carried on simultaneously with the work in the classroom.

The aim of the Clemson College Chapter is to promote a six weeks' surveying camp during the summer between the sophomore and junior years.
The student branch of the American Society of Agricultural Engineers is a professional organization for Agricultural Engineering Majors. Membership is based upon scholarship, personality, and participation in extracurricular activities. Meetings held bi-monthly are designed to promote fellowship, to develop initiative, to establish high standards of scholarship and character, and to discuss topics of interest of Agricultural Engineering.

The principal aim of the society this year is to publish an annual giving the accomplishments and problems of Agricultural Engineers.
The student branch of the American Society of Mechanical Engineers was authorized in 1908. The Clemson branch is composed of Junior and Senior Mechanical Engineering students, and endeavors to bring the practical side of engineering to the young engineer. It aids him in developing initiative and ability to express his ideas, the prerequisites of a good executive.

The bi-monthly meetings enable him to establish fraternal contact with his fellow students in engineering, and to meet older men actively engaged in his future profession.

The Society is most active in upholding the purpose of the organization and in widening the scope of the student in the problems of modern engineering. With the able advice of the Honorary Chairman, Prof. B. E. Fernow, the present Society is among the leading technical organizations on the campus.
One of the leading organizations on the campus for the promotion of forensic activities, the Calhoun Literary Society has for the past decade been an active force in a movement designed to keep alive interest in literary society work.

As the primary purpose of the organization is to acquaint Clemson students with some knowledge of public speaking and parliamentary procedure, the programs include in addition to formal debates, both long speeches and short talks on varied subjects of current interest.

By injecting a certain amount of informality into the meetings, by the use of pleasing innovations such as the Impromptu Speech Box, and awarding of prizes for performances of merit, the Calhoun Literary Society is setting new standards for literary society work and is fully accomplishing the purpose for which it was founded.

PALMETTO LITERARY SOCIETY

To teach a man primarily one of the fundamental necessities of a successful business career, to be able to get on his feet and hold an audience while he delivers a message, these are the aims of the Palmetto Literary Society. This year a new and long-awaited era in literary work at Clemson begins to progress—forensic activities are beginning to forge to the front. Urged on by the strong competition from other state institutions Clemson men are catching the spirit of inter-collegiate debates and such activities and are placing more emphasis on this phase of work.

The Palmetto Literary Society, through its programs and general policies, is standing behind this work one hundred per cent and is determined to do everything in its power to further such activities.

Weekly meetings of the society are carried on under the regulations of parliamentary procedure whereby each member is given voice in all affairs. The results obtained by the society work clearly show that literary societies are definitely on the upgrade. The Palmetto Literary Society is determined to continue to be a leader in these activities.
The junior staff, realizing the need of fuller cooperation among themselves and feeling there should be some agency for the discussion of their mutual problems, organized what is known as the Junior Staff Club for the purpose of obtaining this cooperation as well as a more proficient military department in the corps.
As indicated by its name, the First Sergeants' Club is composed entirely of first sergeants. It provides a chance for the "top kicks" to discuss their mutual problems and to arrive at some generally satisfactory decisions. Too, it helps keep the discipline uniform throughout the school, since the reins of discipline are largely held by the first sergeants. 'Tis he who determines whether the discipline be severe or easy, and the First Sergeants' Club acts as a leveling agent in this important work.
INTERNATIONAL RELATIONS CLUB

The International Relations Club is a world-wide organization established for the purpose of studying national and international problems. Although the Carnegie Endowment for International Peace sponsors the club, it is not an anti-war society but a most valuable society in which a student may broaden, beyond his chosen line of endeavor, his knowledge of both past and present problems concerning peace. Moreover, the Endowment believes that a more thorough understanding of these problems will be a great means of securing the much-sought-for peace.

MINOR "C" CLUB

The Minor "C" Club aids in the promotion of interest in minor sports. The members are selected each year from the outstanding participants of the swimming, tennis, and rifle teams. The cheer leaders also have the distinguished honor of wearing the Minor "C". Although this club is still in its infancy, it is rapidly becoming recognized as one of the most popular organizations of the campus.
Although there have been several attempts to organize a Glee Club at Clemson for the past several years, the goal was not accomplished until this year. It has as its purpose to afford an opportunity to those students which possess the ability to sing and wish to do so.

It is hoped that its fine work will be continued in the years to come. From the many trips which it has made, it has proven also to be a social organization not only at Clemson but with the other colleges which it has contacted.

(381)
The Grange, the order of Patrons of Husbandry, was organized at Clemson College as a subordinate unit of the state Grange in nineteen hundred and thirty-seven. This is a national fraternity with membership in thirty-five states. It provides its members with healthy amusement, wholesome recreation, and opportunities for advancement.

In the Grange, we shall constantly strive to secure entire harmony, good will, vital brotherhood among ourselves and make our order perpetual. We have the desire for fraternal harmony, equitable compromises and earnest cooperation which is an omen of our future success.

Long ago the Grange founders declared: "Individual happiness depends upon general prosperity." In this agricultural brotherhood, we shall recognize no north, no south, no east, and no west. We only seek the greatest good to the greatest number. The Grange door swings inward to the future leaders of Agriculture.
Through the untiring efforts of Octavus Roy Cohen and Prof. John Lane, Gamma Alpha Mu has progressed from a small organization when it was chartered in 1933 to become a fraternity of major importance today. Its necessity is evident, for it gives a student an outlet for his journalistic endeavors. Any cadet may submit his writings to Cohen, but his work must meet certain standards before he becomes a member and receives a pin. But, once accepted, he becomes a life member. The field of work is wide, for he may work in Journalism, Belles-Lettres, Fiction, or Poetry.

During the year the fraternity holds meetings of an informal nature at which topics of various natures are discussed, pro and con, and which are usually attended by a number of noted newspapermen and others who have been successful in their particular fields. A banquet is given each year which terminates the initiation of the new members.
The Dairy Club has been one of the most active departmental organizations on the campus since it was founded in 1922. Membership in the club is open to any member of the student body who is interested in dairy work. Bi-monthly meetings are held—one meeting being devoted to student programs and the other to talks by members of the faculty, extension workers, and representatives of companies—dealing with the industry. From time to time the club sponsors group meetings of interest to the whole school of agriculture and has the other departmental organizations as their guests. The college creamery furnishes refreshments for each gathering.
In order to create and further the interest in horticultural subjects among the students, the Horticulture Club was ushered into existence. Membership is open to any student who is majoring in, or who manifests a particular interest in this branch of agriculture, and to those who attend the semi-monthly meetings of the club. This organization is accomplishing its purpose and is giving the students the opportunity to express themselves and to formulate plans for problems confronting them.
With the help of the state 4-H Club agent at Clemson, the local 4-H Club was founded in 1930 by the boys in school who, having previously been members of state 4-H Clubs, were interested in keeping up the spirit for which this club is noted.

The main purpose of the club is the continuous development of leadership qualities and activities that began back in the home communities. This is accomplished by preparing and conducting programs and by taking part in the organization.
The S. G. Club was organized on the Clemson College campus in September, 1935, in order to bring into closer relationship the boys whose homes are in Savannah, Ga., and the boys who lived there in the past.

The club endeavors to promote and carry on social activities, both at Clemson and in Savannah. With this thought in mind, the club sponsors as the outstanding social event of the year the annual dance during the Christmas holidays in Savannah.

In addition to this, the club attempts through its active members and Alumni to increase the enrollment of Savannah boys at Clemson.
GAMMA KAPPA ALPHA

Gamma Kappa Alpha is a social organization composed of Clemson cadets residing in the vicinity of Charlotte, North Carolina. The club was formed this year for the purpose of bringing about a closer fellowship and promoting a more active social life among its members. The club acts as a medium of correspondence with the city.
Dillon-Clemson Club

The Dillon-Clemson Club has the honor of hailing its first year of existence at Clemson. It is composed of boys from Dillon County. It acts as a medium to bring the boys of this county into a closer degree of friendship while pursuing their education. The social side of life is also stressed with its many functions at home and at college.
The Colletonians

The Colletonians is an organization of Clemson students who strive to promote and keep high ethical and moral standards. Eligibility requires only that the student's home be within the boundaries of old historic Colleton. The club acts as a stimulus by encouraging and helping boys to attend Clemson College. The Colletonians are instrumental in promoting social functions as well as conducting "open forum" discussions on everyday problems of the modern college student. As a service club, the campus recognizes the Colletonians as a leader.
CATAWBA CLUB

The Catawba Club is an organization of Clemson cadets from Chester County.

Besides promoting a greater fraternal friendship among its members, which is the ultimate aim of the club, it has also sponsored several seasonal dances in Chester County during the holidays.
There was felt a need of a magnetic attraction at Clemson College in order to draw the attention of the high school graduates of Dorchester County to this Agricultural and Mechanical College. As the result of this feeling "The Reigning Eagle" came into existence to be the supreme factor to influence the home towns.
The Dukes of Marlborough, a social club composed of boys from Marlboro County, has as its main purpose the sponsoring of a closer fellowship among the boys of the county attending Clemson. This is accomplished by the club having regular meetings, dances, and socials.

The club cooperates with the County Alumni Association which helps the club sponsor its main social attraction that is looked forward to during the preceding year—a Christmas dance.

GREENWOOD CLUB ★ ★

The Greenwood-Clemson Club was formed in 1934 for the purpose of promoting closer relationship among the Clemson students from Greenwood County.

Each year the club gives an invitation dance during the Christmas holidays for Alumni, prospective Clemsonites, and club friends. The club flatters itself by considering these dances as one of the social highlights of the Christmas season.
For several years, the Florence and Darlington County boys felt a need for some organization to keep them in contact with each other during the rush of college life. In 1936, the Peedeeans was organized for this purpose, as well as to promote social gatherings while at home. The highlight of the many successful events during the year was none other than the Christmas dance.
The York Club, one of the oldest county social orders at Clemson, was organized for the purpose of establishing more intimate relations among the boys from York County.

During the summer the York Club holds meetings for the high school graduates of this county in an effort to arouse their interest in Clemson. The curricula, the military organization, and the social life at Clemson are discussed with the prospective students, and their questions concerning student activities are answered.
The Blue Granite Club was organized to bring about a closer relationship among the boys from Newberry County. Since its organization it has added much to the social life of the members. Aside from the regular meetings, there are socials, dances, and various other entertainment held at regular intervals throughout the year. The club brings the county boys into contact not only at college but during the holidays by an annual Christmas dance.
The Spartanburg-Clemson Club, one of the largest and most active clubs of its kind, was formed to foster friendship and promote social welfare among the home town boys at school.

In the past, the club has sponsored a Clemson-Spartanburg dance during the Christmas holidays. It has proved to be an enjoyable and successful occasion.

The club is growing each year. The members hope that it will continue to grow, and rapidly come to be a leading club on the campus—one of which every member will have reason to be proud.
The ORANGEBURG TIGERS

The Orangeburg County Club was organized in 1936. It was formed purely as a social club for the benefit of the boys from Orangeburg County. For the present, its functions will be in the line of promoting the social welfare and good fellowship of the boys. In the future, however, it is hoped that the club will be able to participate in the other activities of the college.

It is also the aim of the club to interest the high school boys, who are eligible for college, in Clemson. We are endeavoring to show them the social side of college life as we know it. Through our efforts and those of other similar clubs, we are striving for the betterment and enlargement of the roll of Clemson College.

To the readers of TAPS the Jungaleers need no introduction, having "beat it out" so dance-ably at the college field house. The orchestra has also acquired quite an enviable reputation in North Carolina, South Carolina, and Georgia through the spirit and versatility they displayed at numerous dances played for colleges, fraternities, and clubs. The Jungaleer name is recorded favorably on the books of the Cunard White Star Lines, which has engaged the orchestra on numerous occasions to play on their transatlantic steamers. Needless to say, all the musicians are seasoned "swingaroos" and thrive on that style of rhythm.

Before We Go...

We turn and look back at an office littered with papers piled high on the desk, the floor covered with mistakes dropped there during a year of honest effort and tireless endeavor, the walls plastered with memories of the editor gone before us, all this we see at a glance as our eyes come to rest on the typewriter. It is covered, and the 1938 TAPS has gone to press.

We give to you in this bound volume a record of our last days at Clemson. We have tried to make this account as complete as possible, and still keep you all on our side. Maybe you didn't like our theme, or your best girl didn't make the TAPS beauty section. No doubt we will have to dodge many of you, and stay two jumps ahead of others. If your name was misspelled, or even if we have given you some new name, do not blame us too harshly, but instead consider the details and hazards that confront an annual staff and bear with us. Our every move during these sleepless nights has been in the interest of the reader, and now, since it appears that the goal has been reached, we cautiously await the verdict which shall be rendered by you.

The editor is grateful for this opportunity to thank his helpers. The one we see standing foremost is Mr. J. C. Littlejohn, our advisor, who has never failed to lay down things of great importance to help us with the building of this book. We give thanks to Captain Harcombe, Mr. D. J. Watson, Mr. P. B. Holtzendorff and Joe Sherman for playing their part and helping us in many ways that we shall never forget. We could always depend on Prof. John Lane to correct our many mistakes and watch over us. To the Junior TAPS staff, we say: "You were truly loyal, your services were given most unselfishly, and without you this annual would have been impossible."

Out of our hands, the 1938 TAPS was cared for by those in whom we placed the utmost confidence. We thank Walt Dargan, George Way, Helen Morgan and their organization, Photo-Process Engraving Company; Johnny Long, and Foote & Davies Company for the splendid job they did in printing this book; Marion Ware and Henry Gaspar, our photographers. The 1938 TAPS staff wishes to thank every one to whom thanks are due, and we thank you for your patience in scanning through this edition.

The Editor.
