Clemson College, Nineteen Hundred-Fifty-Seven. A spark of hope to the freshmen, a gay year to the sophomores, a bore to the juniors, and to the seniors the last oasis before stepping into a wide desert.

Regardless of academic status or position, our presence here the nine months out of this past year have been an integral part in molding our lives and personalities. The books, parties, dances, trips to the canteen, and the early morning walks across the loggia have been places and events which assume a somewhat majestic and sentimental position in the backs of our minds as a symbol of a progressive and fruitful year which will be remembered through the vicissitudes of our lives.

This past year has been one of extreme importance and concern to the majority of the Student Body. Nineteen fifty-seven has carried us through the second crucial year of change and rapid development in which there were countless adjustments to be made, an endless flow of problems to solve, and the same decisions to make. It offered a challenge, was accepted, and by the time proven process of experience, was defeated. A proud college in a proud land, Clemson, U. S. A.
A clear September morning, blooms with registration and a line in every direction. It all requires a little sweat and a multitude of pains, but once it's over you're glad and you realize you're in school again. For several days all that is seen is a hazy fog, and when it suddenly breaks, you find yourself walking to classes.
A familiar and tiresome flight of stairs have led countless feet to and from math and English classes in the Main Building. When the welcome twelve o'clock whistle blows there is a rush to the dining hall. After an hour of food and rest, it’s time for lab. Later in the afternoon your time and patience pays off. The labs are over and you stroll slowly to your room.
Our favorite local pastime . . . quizzes. Hours of endless study into the "wee" hours of the morning, notes, text, research and "skinners" . . . all for a good grade.

You had that empty feeling in the pit of your stomach and went into a short conference with someone who had the quiz the hour before in hopes that some of the same questions would be on yours. What a joke!

In the midst of the quiz, pure panic struck . . . the mind was a complete blank! All that hard study and you couldn't remember a simple formula. The fellow next to you was through and had a confident look on his face. Time was running out . . . you had to THIMK!

Afterwards the cycle started again . . . wheels started to grind and it was another problem for the architects, fifty more pages of notes for the engineers, and fifteen hours of lecture for the liberal arts majors . . . all this for a piece of sheepskin.
The practical side of life . . . a lab. The
greatest time consumer of all, numerous prob-
lems of design with two big questions—what—
and how to do it.

It all started with a weary trudge to the
laboratories after dinner. It was hard to turn
away from a good movie, a track meet, a base-
ball game, or just three hours of much needed
"sack time". Even with all these distractions
there was a keen desire to apply what we had
learned in theory to practical applications so
. . . off to lab we went.

In the jungle of pipes, instruments, machin-
ery, and materials, we started off, lost and
completely amazed; but, in a few weeks, this
maze was as familiar as the backs of our hands.

When the last piece of equipment was put
away, we had obtained another stepping stone
to an education and prosperous occupation.
The dorm, shadowed by a wonderful sunset,
welcomed us to eight more hours of study . . .
with a little luck, we were always in bed by
three.
Clemson's outstanding, and favorite liberal art . . . shooting the bull. At any place and any time on the campus . . . the canteen, loggia, dining hall, or in class . . . there's someone you know and a simple "hello" can turn into hours of conversation.

Anywhere you turn there are groups laughing, scorning, or griping. From a discussion of world events on the loggia, a pinball tournament, to complaints of problems arising out of the morning's quizzes . . . you'll find the invisible bond that unites Clemson students . . . fellowship.

Shooting the bull and killing time—the greatest way in the world to relieve the tension.
Campus organizations with their fellowship, friendship, and initiations... the crack of a paddle on flesh... yes, sir, that's friendship.

The paddle... the once prime weapon of Clemson in days gone by... brings familiar sights to older students and a week of sweat, strain, and a little fear to the newer arrivals.

A time for wearing of the initiation plaques, a time for keeping the old members supplied in candy, cigarettes, and amusement.

When the last day of initiation rolls around, some of the initiates swing into high spirits with an array of customs. Characters from "Robin Hood to Zeus" take time from the hard routine of serious study to have a final fling.

These are the campus organizations... the mixture of friendship, scholarship and recognition... the key to a successful college campus.
Once each year there comes a gala event which nearly disrupts the entire state. Tom Clemson calls his “country gentlemen” to the aid of their campus in time for distress . . . STATE FAIR HOLIDAYS.

Times of mutual raid—the enemy with red paint plotting to paint the amphitheater and remove “Tom” from his thorne. Hour after hour—a constant watch and human alarm system—freshmen and upperclassmen—united to foil the plots of the rival.

During the pep meeting “Tiger Rag” splits the night air and sends the “rats” in wild panic to the flagpole for a chip of white paint.

Big Thursday—two friendly foes meet to determine who will wear the crown of the victor for the next year. All of this adds up to State Fair and spells three days of partying.
Spirits rode high as Clemson College prepared for the Homecoming Weekend, expectant of two wonderful days of beauty, excitement, and dancing.

Anxiety rose to its peak during the pep meeting on Thursday night—everyone confident of another victory for the Tigers.

After a night of dancing and half a day of top football, beautiful Homecoming Queen, Miss Martha Rae Williams, added the proper touch of glamour to the half-time ceremonies.

There were moments of uncertainty and awkwardness for the team, but through faith and teamwork they emerged as victors. As they marched from the field after the game they were swamped with compliments and congratulations by other Clemson men—bringing to a close another fantastic and unforgettable Homecoming Day.
Miami got another good taste of Clemson Bowl power on New Year's Day 1957 when the Tigers stalked to the Bowl. As the troops motored south to bask in the sun and sip orange juice, they left the rest of South Carolina to bring in a shivery New Year.

Game time—the captains moved to midfield and shook hands—bringing together two top powers in a nerve-racking spectacle to vie for the honor of victory.

Crowds of both Clemson and Colorado fans cheered as the Bengals came smashing from behind to tie the score. They later lost in score but in the minds of all Clemson men there was a warm glow of victory. A memorable day in Miami—the ORANGE BOWL.
Six times out of each school year the students take time out to show the rest of the population that Clemson can hold its own and surpass many others when it comes time for a party.

All week is spent in preparation for the coming celebration, houseparties planned, cash saved, and spirits procured. Friday at nine and the results of all the worry... the best looking girls from all parts with the best college students in the land.

Dropping in on a Friday night formal, we can find a Continental classic, a debonaire group with their jokes, laughs... and memories... some got the shaft, some got snaked, and some sprung out a fiery romance, but regardless of the outcome... it was still a great weekend.
THE COLLEGE
The influence of Dr. Robert Franklin Poole as an educator and administrator upon the students of Clemson College cannot be measured. More than one successful graduate will tell you that his example of forthrightness and integrity, of steadily plugging away at the job to be done, and of unfailing loyalty to Clemson has set a criterion.

In 1916 Dr. Poole received his B.S. degree from Clemson. He received his Ph.D. and M.S. degrees at Rutgers in 1921, an L.L.D. from the University of South Carolina in 1942, and in 1950 the honorary degree of Litt.D. was conferred upon him by Furman University.

Aside from the daily duties of the President, Dr. Poole has contributed valuable information to various Scientific Journals. Among his accomplishments lies the credit of discovering and perfecting economic measures for the control of disease in the sweet potato.

To the students, Dr. Poole has been an everyday council to clear our minds of many worries. A man who is never too busy to talk to us, and never too busy to do something for Clemson. Thus we, the students of Clemson, pay tribute to our President.

Dr. Poole came to Clemson in 1940 upon the death of the memorable Dr. Sikes. Since, he has spent endless hours of labor in coordinating and formulating plans for a better Clemson. The fruits of his efforts may be seen in the new Clemson. As an educator and friend . . . he is tops with us in every way.
THE BOARD OF TRUSTEES

THE EDUCATIONAL COUNCIL
Seated, Left to Right: Dr. H. M. Brown, J. W. Gourlay, Dr. J. W. Jones, Dr. F. M. Kinard, Dr. M. D. Farrar, G. E. Metz. Standing: Dr. H. L. Hunter, Dr. R. F. Poole, M. A. Wilson, R. C. Edwards, Dr. J. H. Sams, W. T. Cox.

DR. R. S. CLARKE
Director of Student Health Center

MRS. COLE
Hostess of the Student Lounge

J. W. C. GOURLAY
Director of the Library
Dean of Schools

One of the most indispensable members of the administration from the standpoint of students and faculty is Dr. F. M. Kinard, Dean of Schools. His aid to the Deans of Clemson Schools and to the different faculty members of these departments has proved invaluable. As Chief Educational Officer, Dean Kinard has the responsibility of continually reviewing the educational facilities and solving problems having an educational bearing.

Aside from being head of the five schools, he is also connected with the library and is responsible for the maintenance of the academic standards of Clemson. His duties do not end with the undergraduate system in Clemson. One of his most important roles is to serve as Dean of the graduate students. In this capacity he serves as an advisor and friend to the students in the Graduate School of Clemson. Any man at Clemson who has been in contact with Dean Kinard will verify that he is indeed, a friend of the students.
SCHOOL OF AGRICULTURE

It is the job of Dr. M. D. Farrar, Dean of the School of Agriculture, to integrate all of the departments into a smoothly functioning machine.

The student majoring in agriculture at Clemson is assured of the very best instruction in this field. Staffed with the most competent instructors, and using the very latest equipment, the School of Agriculture produces outstanding graduates every year.

As its name denotes, Clemson places great emphasis on agriculture, as well as engineering. Clemson provides extensive courses in agricultural engineering, animal husbandry, agronomy, agricultural economics, botany, dairying, entomology, horticulture, and poultry.

In the dairy department, students get a working knowledge of the production of milk, butter, and ice cream. All is not limited to the classroom, however. In the afternoons, groups of the students may be seen engaging in the science of spraying trees and grafting. Spaced throughout the semester are occasional field trips. These provide instruction in its most appealing form.
The Agriculture Center.

Pork Production.  Ice Cream Manufacture.
SCHOOL OF
Arts and Sciences

Under the guidance of Dean H. L. Hunter, the School of Arts and Sciences provides a well-rounded education for those whose interests incline toward the field of liberal arts, as well as technical instruction in pre-medicine and industrial physics.

Some of the professors who are encountered in this course of study are Lane, English; Sheldon, calculus; Stanley, math; Taylor, literature; Reed, physics; Waite, psychology; Macaulay, economics; and many others.

The students in this major take a lot of ribbing about their horizontal labs and movies. It is true that these men spend few hours in labs, but their outside work keeps them as well occupied as those in the other courses on campus.

No matter what field the student might want to enter, he will find, upon graduation, that he is a well-rounded, proficient individual, ready for "come what may".

Scholars experiment with centrifugal force.

One of the seemingly endless phases of Quant. Lab.

The Chemistry Building
SCHOOL OF
Engineering

Dean J. H. Sams and company head one of the largest schools at Clemson—the School of Engineering.

To walk across the stage on graduation day and accept a degree in engineering is to say that a student has challenged a mighty foe and has come out on top. He has received excellent training and has passed a rigid barrier—unsurmountable by many.

As if to discourage anyone from taking engineering, math, in seemingly every form imaginable, is thrown at the student semester after semester. Only the most fit survive. To throw salt on the wound, physics, kinetics, statics, and strength are added.

If, by some twirk of fate which he himself can’t explain, the student, upon gaining status as a senior, finds himself still in the School of Engineering, he will be spending all of his time in his own department.

Upon graduating, the engineer may rest assured that his degree is well earned and that he is ready to take his place in his chosen field.
Riggs Hall

Engineers learn through practical experience.  
Students study principle of a turbojet engine.
SCHOOL OF Textiles

Could that be the distant roar of thunder? It could be, but it's really the hum of whirring machinery that can be heard every day in the School of Textiles. All the modern machinery that is used in the textile industry today may be found in this school where the students actually learn the operations of each individual machine.

We call them "lintheads" around here, but in the field of textiles they have no peer. In one of the most modern and expansive textile schools in the country, the curriculum may follow fibers from field to fabric.

Many nights, students complain of spots before their eyes. Filling in those little squares is tedious work, but fabric design is just another must in textiles.

Dean H. M. Brown is the man who coordinates and administrates for this vast school. His is a full-time job, but he handles it with exceptional success.

Who's Who
in American Colleges and Universities

On every campus the duties and responsibilities of spearheading and leading various student activities fall to those who are willing to sacrifice valued leisure, study, and saccertime. The jobs of wading through countless details, solving headaches, and enlisting faculty support are everyday affairs to them. The twenty-nine Seniors and three Juniors pictured on these pages have accepted these duties and proven themselves capable of handling these responsibilities.

Giving unselfishly of their time and efforts, these men have demonstrated their excellence and sincerity in scholarship, leadership, and participation in extra-curricular and academic activities. They have also demonstrated their citizenship, service to school and fellow students, and promise of future usefulness to business and society.

These students, carefully chosen by the faculties of their respective schools, richly deserve the honor of being named to Who's Who in American Colleges and Universities.

J. W. ALLGOOD, a pre-medicine major from Liberty, is a member of the Tiger Brotherhood, Phi Eta Sigma, Delta Sigma Nu, Alpha Phi Omega, and an attorney for the Senior Council.

J. E. BALLenger, a textile chemistry major from Inman, is a Distinguished Military Student, editor of the Y. M. C. A. Handbook, and a member of the Blue Key, Tiger Brotherhood, and Student Assembly.

T. C. BERRY, an electrical engineering major from Charlotte, N. C., is editor of the Tiger, on the Senior Council, and a member of Phi Kappa Phi and Tau Beta Pi.

J. E. BRITTAIN, an electrical engineering major from Horse Shoe, N. C., is on the Senior Council, and is a member of Phi Kappa Phi and Tau Beta Pi.

C. E. BROWN, an agronomy major from Kingstree, is editor of the Agrarian, a member of Alpha Zeta and Mu Beta Psi, and is in the Block “C” Club.

J. W. BRUNSON, an electrical engineering major from Rock Hill, is a high honor student, editor of the Slipstick, and a member of Phi Eta Sigma, Tau Beta Pi, and the Senior Council.

C. W. BUSSEY, JR., a textile manufacturing major from Henderson, N. C., is captain of the football team, and a member of Blue Key, Tiger Brotherhood, Arnold Air Society, and Scabbard and Blade.

C. M. BUTLER, an electrical engineering major from Hartsville, is chairman of the Senior Council, and a member of Tiger Brotherhood, Blue Key, and Senior Platoon.

W. T. CLARY, a mechanical engineering major from Fort Lawn, was in the Freshman Platoon and the Pershing Rifles, and is now the business manager for the Pershing Rifles.

J. H. COLEMAN, JR., a textile manufacturing major from Anderson, is a member of Blue Key, Tiger Brotherhood, Block “C” Club, and the Arnold Air Society.

A. P. COLLINS, a chemical engineering major from Chester, is president of the A. I. Ch. E., and a member of the Student Assembly and Council of Club Presidents.

J. E. COX, an animal husbandry major from Loris, is president of the Block and Bridle Club, and a member of Alpha Zeta and the Council of Club Presidents.
W. P. DuBOSE, JR., an entomology major from Darlington, is commander of the Arnold Air Society, and a member of Blue Key, Tiger Brotherhood, Alpha Zeta, and Phi Kappa Phi.

H. B. GOFF, JR., an electrical engineering major from Columbia, is president of the senior class, and a member of Blue Key, Tiger Brotherhood, Scabbard and Blade, Tau Beta Pi, and Phi Kappa Phi.

L. A. HENDRICKS, JR., a mechanical and textile engineering major from West Columbia, is a member of Blue Key, C. D. A., Tiger Brotherhood, Scabbard and Blade, Arnold Air Society, and Phi Kappa Phi.

C. M. JENNINGS, a mechanical engineering major from Greenville, is a member of Tau Beta Pi, Phi Kappa Phi, and the Council of Club Presidents.

J. H. JONES, JR., an electrical engineering major from Anderson, is president of the Blue Key, the head cheerleader, and a member of Tiger Brotherhood, Phi Eta Sigma, Phi Kappa Phi, and Tau Beta Pi.

D. D. LEE, JR., a dairying major from Dillon, is a high honor student, a member of the Student Assembly, Scabbard and Blade, and Phi Kappa Phi, and is a Distinguished Military Student.

J. T. LIGON, an agricultural engineering major from Easley, is a high honor student, and a member of Phi Eta Sigma, Phi Kappa Phi, Alpha Zeta, and Student Assembly.

W. G. METZ, an electrical engineering major from Clemson, is a high honor student, and a member of Phi Eta Sigma, Phi Kappa Phi, Tau Beta Pi, and the Student Assembly.

J. O'HEAR, III, an architectural major from Charleston, is a member of the Senior Platoon, Alpha Psi Omega, Beta Sigma Chi, and the Clemson Little Theater.

R. S. PARKER, an electrical engineering major from Spartanburg, is a Distinguished Military Student, and a member of Scabbard and Blade, Phi Eta Sigma, Phi Kappa Phi, Tau Beta Pi, and Alpha Phi Omega.

R. H. RAMSEY, III, an agricultural engineering major from Brevard, N. C., is president of the Baptist Student Union, and a member of Tiger Brotherhood, Scabbard and Blade, and Student Assembly.

J. A. RICHARDSON, an agricultural engineering major from Lancaster, is a member of the Senior Council, Arnold Air Society, Phi Kappa Phi, and Alpha Zeta.

M. K. RICHARDSON, a mechanical engineering major from Gastonia, N. C., is a member of the Senior Platoon, Arnold Air Society, Tau Beta Pi, and Phi Kappa Phi.

J. D. ROGERS, an architecture major from Easley, is president of the Minarets, and a member of Student Assembly, Blue Key, Phi Eta Sigma, and Mu Beta Psi.

M. SIMONS, JR., an industrial physics major from Summerville, is a member of the Phi Eta Sigma, Sigma Tau Epsilon, Council of Club Presidents, and Society of American Military Engineers.

A. N. STALL, a textile manufacturing major from Greenville, is a high honor student, president of the student body, a member of Blue Key, Tiger Brotherhood, and Scabbard and Blade, and is the Student Chairman of Religious Emphasis Week.

P. W. STOKES, a civil engineering major from Charleston, is the Cadet Colonel, and a member of Blue Key, Tiger Brotherhood, Scabbard and Blade, and the Senior Platoon.

J. K. SULLIVAN, a chemistry major from Greenwood, is commander of the Tiger Band, and a member of Alpha Chi Sigma, Mu Beta Psi, and Alpha Phi Omega.

J. S. TAYLOR, an industrial management major from Arlington, Va., is president of the Tiger Brotherhood, and a member of Blue Key, Scabbard and Blade, and Student Assembly.

J. H. TURNER, JR., an electrical engineering major from Marion, is president of the South Carolina Student Christian Association, and is a member of Tiger Brotherhood, Arnold Air Society, Scabbard and Blade, and Senior Council.
Student Assembly

Clemson's student government, molded in the precepts of democracy, is composed of legislative, executive, and judicial branches. The legislative branch is the Student Assembly.

Representatives from the four classes and the Council of Club Presidents seek to inaugurate policies beneficial to the student body. Making decisions, taking polls of student opinion, discussing ways and means of making campus life more enjoyable, and promoting the principles of free government are their special duties.

Through extensive campaigns, interest in and participation in student elections and political activities is constantly rising.
Executive Committee

The executive branch of the student government, the Executive Committee, is composed of the President, Vice-President, and Secretary of the Student Body and the Presidents of the four classes.

Their special duties are to coordinate the activities of the legislative and judicial branches, act as the voice of the students, to whom they are directly responsible, and further student-faculty relations. In certain instances, the executive committee may even present a problem to the Board of Trustees.

In addition, this dynamic group solves campus grievances, champions students' causes, and directs the policies of student government.

Director Student Loan Fund
Senior Council

In order that a college may have a respected and admired student body, it is necessary for discipline and controls to be set up. Believing that, in a large measure, such controls should rest in student hands, the Administration has vested the powers of disciplinary action in the judicial branch of the student government.

Seven elected seniors, the President of the Senior Class, and the highest ranking officer in R.O.T.C. have the thankless and tough job of passing judgment and pronouncing punishment on those students who would defile and belittle the name of Clemson.

Alpha Phi Omega 2, 3, 4; Blue Key 3, 4; Tiger Brotherhood 4; Who's Who in American Colleges and Universities 4; Tiger Band Commander 4; Alpha Chi Sigma 2, 3, 4, President 4; Mu Beta Psi 3, 4; Numeral Society 3, 4; Scabbard and Blade 4; Greenwood County Club 1, 2, 3, 4; Band 1, 2, 3, 4; Wesley Foundation 3, 4; ROTC, Captain.

SURIANI, OTTO N.  
Brooklyn, N. Y.  
Architectural Engineering

SUTTON, WILLIAM JR.  
Burlington, N. C.  
Graduate Student

TANNER, ROBERT V.  
Kingstree, S. C.  
Mechanical Engineering

TANNERY, DONALD E.  
Ellorce, S. C.  
Civil Engineering
Freshman Platoon; Pershing Rifles; ASCE 2, 3, 4.

TAFFE, PATRICK E.  
Whitmire, S. C.  
Textile Manufacturing

TAYLOR, CHARLES B.  
Jefferson, S. C.  
Agronomy
Honors 1, 3; Pershing Rifles; Senior Platoon; Band 1; Sears-Roebuck Scholarship 1; YMCA Council 1, 2, 3, 4; Secretary 4; Kappa Alpha Sigma 3, 4; Agrarian Staff 3, 4; News Editor 4.

TAYLOR, CHARLES W. JR.  
Savannah, Ga.  
Industrial Education

TAYLOR, GEORGE B.  
Erwin, Tenn.  
Mechanical Engineering
Band 2, 3, 4; Mu Beta Psi 3, 4; Wesley Foundation 1, 2, 3, 4.
Class

- **TAYLOR, JOSEPH S.**
  Clemson, S.C.
  Industrial Management
  Honors 1; Student Assembly 3; Junior Class Vice-President; Blue Key 3, 4; Tiger Brotherhood 2, 3, 4; Alpha Phi Omega 1, 2, 3; Executive Sergeants 3; Scabbard and Blade 3, 4; Council of Club Presidents; YMCA Council 1, 2, 3, 4; SIM 4; DMS 4; ROTC, Major.

- **TAYLOR, WILLIAM F.**
  Charleston, S.C.
  Textile Chemistry

- **TAYLOR, WILLIAM H., JR.**
  Anderson, S.C.
  Industrial Management
  YMCA Council 1; AIEE 3, 4.

- **TAYLOR, WYLLYS II., JR.**
  Clemson, S.C.

- **THEOS, CHRIS J.**
  Charleston, S.C.
  Electrical Engineering
  Tennis 2, 3, 4, Captain 4; Minor Block "C" Club 3.

- **THOMAS, LOVIC P., III**
  Spartanburg, S.C.
  Mechanical Engineering
  Phi Kappa Phi 3, 4; SAE 3, 4; Aero Club 2, 3, 4.

- **THOMAS, MITCHELL H., JR.**
  Mullins, S.C.
  Vocational Agricultural Education
  Honors 3; YMCA Council 1, 2; BSU 1, 2, 3.

- **THOMAS, WILLIAM C.**
  Edgemoor, S.C.
  Mechanical Engineering
  High Honors 1, 2; Honors 3; Phi Kappa Phi 3, 4; Tau Beta Pi 2, 3, 4; ASME 2, 3, 4.

- **THOMPSON, ALSTON G., III**
  Columbia, S.C.
  Textile Engineering
  Taps Staff 3, 4, Military Editor 3, Features Editor 4; NTMS 3, 4; Columbia-Clemson Club 1, 2, 3, 4; PSA 1, 2.

- **THOMPSON, HAROLD E.**
  Anderson, S.C.
  Chemical Engineering
  Honors 3; Football 2.

- **THOMPSON, HAROLD F.**
  Charleston, S.C.
  Industrial Management

- **THOMPSON, MICHAEL H.**
  Pauline, S.C.
  Textile Manufacturing

- **TILLER, WILLIAM E.**
  Anderson, S.C.
  Industrial Physics
  Honors 1; Sigma Pi Sigma 3, 4; Sigma Tau Epsilon 3, 4.

- **TILLEY, DEWITT U., JR.**
  Greenville, S.C.
  Graduate Student

- **TIMMERMAN, JAMES H., JR.**
  Pelzer, S.C.
  Pre-Medicine

- **TOTH, WILLIAM J.**
  Canonsburg, Pa.
  Electrical Engineering
  Honors 1; Football 2; Baseball 1, 2, 3, 4; Block "C" Club 3, 4.

- **TOWELL, ROBERT D.**
  Clemson, S.C.
  Arts and Sciences
  Tiger Staff 2, 3, 4; Track 2, 3; BSU 1, 2, 3, 4.

- **TOWERS, FREDERICK W.**
  Flat Rock, N.C.
  Architecture
Seniors

- TRUGUS, EUGENE T. Allentown, Pa.
  Pre-Medicine
  AIEE-IRE 2, 3, 4; Veteran.
- TRIMIER, JOHN R. Bedford, Pa.
  Industrial Physics
  Pershing Rifles; Sigma Pi Sigma 2, 3, 4; Sigma Tau Epsilon 2, 3, 4.
- TITAPOE, HARRY G. Graniteville, S.C.
  Electrical Engineering
- TROWELL, JOHN M. Pacolet Mills, S.C.
  Chemistry
  Senior Platoon; Alpha Chi Sigma 3, 4; Spartanburg County Club 1, 2, 3, 4.
- TRUESDEL, JAMES D. Kershaw, S.C.
  Industrial Management
- TURNER, JAMES A. Pamplico, S.C.
  Vocational Agricultural Education
- TURNER, JOHN H., JR. Marion, S.C.
  Electrical Engineering
  Highest Honors 2; High Honors 1; Phi Eta Sigma 1, 2, 3, 4; Phi Kappa Phi 4; Student Body W & M Committee 4; Senior Council 4; Vice-President Senior Class; Tiger Brotherhood 3, 4; Arnold Air Society 3, 4; Scabbard and Blade 4; YMCA Cabinet 2, 3, 4; President 3; YMCA Council 1, 2, 3, 4; Tan Beta Pi 3, 4; ME 2, 3, 4; Council of Club Presidents 4; BSU 1, 2, 3, 4; President S. C. Student Christian Association.
- TURNER, RICHARD A. Blacksburg, S.C.
  Industrial Education
  Alpha Phi Omega 1, 2, 3, 4; Freshman Platoon; Senior Platoon; YMCA Council 2, 3, 4; Spartan County Club 2; Senior Platoon; NTMS 2, 3, 4; Iota Lambda Sigma 2, 3, 4; Dormitory Counselor 4; BSU 1, 2, 3, 4.
- TURNIPSSEED, SAMUEL G. Moravian Falls, N.C.
  Graduate Student
- VANCE, CLARENCE E. Keystone Heights, Fla.
  Ceramic Engineering
  Chemistry
- WALLACE, JAMES H., JR. Gaffney, S.C.
  Textile Manufacturing
  Freshman Platoon; Senior Platoon; NTMS 2, 3, 4; Cherokee County Club 1, 2, 3, 4; BSU 1, 2, 3, 4.

Class

O. TROTTER
Pickens, S. C.

H. R. TRULUCK
Olanta, S. C.

D. H. TURNER
Blacksburg, S. C.

J. H. VAN RAGSTEIN
Portland, Me.

R. H. VARNADOE
Hardeeville, S. C.

G. M. VAUGHN
Greer, S. C.

G. P. VENTURELLA
Anderson, S. C.

J. E. WALKER
Sheffield, Ala.

J. G. WALKER
Marion, S. C.

R. F. WALKER
Newport News, Va.

C. WARREN
Hampton, S. C.

T. A. WATSON
Easley, S. C.

F. M. WAY
Charleston, S. C.

R. P. WELSTEN
High Point, N. C.

W. C. WEEKS
Adel, Ga.

J. R. WERTS
Ninety Six, S. C.

F. E. WEST
Camden, S. C.

J. M. WHALEY
Aynor, S. C.

E. D. WHETSELL
Bowman, S. C.

J. S. WHISONANT
Gaffney, S. C.

E. C. WIGGINS, JR.
Garnett, S. C.

W. W. WIGGINS
Arlington, Va.

R. J. WILKERSON
Winsboro, S. C.

W. L. WILKES
Columbia, S. C.

J. A. WILLIAMS
Fairfax, S. C.

M. D. WILLIAMS
Swansea, S. C.

L. G. WILSON
Wellford, S. C.

H. R. WILSON
Anderson, S. C.

T. K. WINGARD
Lexington, S. C.

R. A. YEARGIN
Greer, S. C.

V. M. YOCKEL
Jersey City, N. J.

C. E. YONCE
Ridge Spring, S. C.

F. H. YORK
Allendale, S. C.

R. T. ZALOVTOFF
Cairo, Egypt

T. N. ZINC
Iron, S. C.

"Checkmate—I should have gone to lab!!!"

"Shucks, everything but the one I want."

LINDSEY struggles for points with "Red Vesters".
Scabbard and Blade book exchange scalps troops.

Finger, you shouldn’t tell her that!!!

Damn, you even look like a hound dog!

All this to get WSNW!!!

Another afternoon shot to hell.

ARMSTRONG keeps another day's haul straight.
The only thing wrong with the barbershop—no Playboy.

Slab invests another nickel—foolishly, as usual.

Cool cat with a cue.

A sight seldom seen but often thought of.

A much-needed break during a hectic Rat Hop weekend.

The only part of this picture that isn't posed is the book in Bob's hand.
To HELL, to HELL with Carolina!!!

"Now who's the wise guy that painted that cotton-picking flagpole???

"Take these rat hats and . . . !!!"

Two tablets, a notebook, two pencils, and twenty dollars later.

"Whaddaya mean, this isn't the way to the latrine???

Freshmen talk over the morning classes while waiting to enter the dining hall.
"Where is Cemetery Hill, anyway?"

"Don't worry, Parsons, they won't bite."

"Oh, HELL! Four Saturday classes!!"

The Country Gentlemen act country... oh, well, Rats will be Rats.
FEATURES
Miss Harriett Johnson, junior at Wesleyan Methodist College, has been selected Miss Taps for 1956-57.

Several weeks before Homecoming, each organization on the campus chose a young lady to represent their group in the Homecoming Queen Contest. The contest was held before intermission of the first night of the Homecoming Ball; and from a grand march of over forty girls, the judges—Mr. Clifford B. Denison, Mr. Neil Gillespie, and Mr. David Freeman—picked seven girls to be pictured in the beauty section of the yearbook.

From these seven beauties, the Taps staff was faced with choosing one to be featured as Miss Taps, 1957. For the first time in many years, the staff decided to submit the beauties to a prominent figure in the beauty profession. Our choice was Mr. Ceele B. deMille. The dilemma we faced could best be summed up in Mr. deMille's words, "For many years I have been asked to judge beauty contests by schools and colleges all over the country. I cannot recall a more beautiful group of contestants than these seven young ladies from Clemson. This made my task—though pleasant—very difficult."
MRS. TAPS, 1957
Mrs. Majorie Campbell
Selected by the
1957 TAPS STAFF

Mrs. Majorie Campbell has been selected by the 1957 Taps Staff to be featured as Mrs. Taps. Since there are over five hundred married students on the campus, the Staff felt that they should be represented in the yearbook.

Majorie was married to George William Campbell in 1953. They have a son, George, Jr., and reside at Pre-Fab 184. Majorie is a secretary in the Accounting Department of the college.

The wife—the one who works all day. Her job is a special one; she helps her husband obtain an education. So goes the life of college wives—we salute them for their magnificent role at Clemson College.

The Judges

The 1957 Tars Beauties
Central
Dance Association

The gigantic task of planning and executing the fabulous Clemson dances falls to the Central Dance Association.

The Senior Staff of the C. D. A. is composed of eight members of the senior class who have served the previous year on the Junior Staff. Through their hard work and general cooperation last year, they were chosen to head the organization for this year.

A non-profit organization, the C. D. A. works wholly to promote the social activities of the students.

These men are the ones who head all the work that goes into putting on a dance. Few of us know or appreciate all the hours of work and conference that the C. D. A. has to put in to produce the top-notch dances that we have here at Clemson.

They deserve all of the credit in the world for making our social life at Clemson something to remember.

The "Champ" gets crowned.

The Junior C. D. A. in operation.
The Dave Brubeck Quartet—foremost in progressive jazz, winner of many top awards, and the hit of many college campuses—headlined the news at Clemson during March.

Brubeck, making his first appearance in South Carolina, captivated a packed house with his uniquely different music. The Quartet improvised with freedom and daring; yet their music was still an integrated, thrilling whole. Generally in jazz no improvisations on the same tune are the same; with Brubeck’s music this is a staggering certainty! Pure melody, completely freed from set arrangements, seemed to pour forth from liquid instruments.

From a varying selection of popular tunes, both old and new, the Quartet spontaneously created great music. Selection followed selection and a swelling tide of enthusiasm swept the audience. After an enthralling two hours, Brubeck acquired a large number of new followers. Clemson men heartily welcomed this new addition—jazz concerts—to campus social life.
Rat Hop

The first function of the Clemson fall social season took place when the Central Dance Association presented the annual Rat Hop, with the Jungaleers providing the music.

The Rats pulled out their high school yearbooks in order to pick the best looking "head" they could find, in hopes that she would be picked as the Rat Queen.

The fireworks started with the C. D. A.'s presentation of the Friday night formal dance. After a couple hours of dancing to the Jungaleers' scintillating music came the selection of the Rat Queen. Miss Sally Felton of Columbia, was selected from a field of five finalists. The following evening at the football game the Queen was chauffeured into the stadium before the Student Body and fans in a convertible where she was received with great ovation.

The Tigers' triumphant victory over the Blue Hose was celebrated at the Saturday night informal held after the game. Several more hours of the Jungaleers' music topped off the weekend.
The “Rats” get ready to show off their beauties.

“Gorbo” Neely plays the “big deal” with his C. D. A. ribbon.

“Why yes—I’m Ivy League. Why do you ask?”

The Rats live it up while they can still get dates.
Homecoming

Homecoming . . . return of old grads, elaborate displays, floats, dances, football, houseparties, and partying! Friday, November 2, saw a campus flooded with students, dates, and alumni. A weekend filled with festivities and pageantry had begun.

The Central Dance Association shot the works with the presentation of two nationally known orchestras. The Friday formal, with Jimmy Sedlar on the bandstand, was highlighted with the selection of Clemson's 1957 Homecoming Queen and the Tars Beauties. Just before intermission, lovely representatives of campus organizations made their bows to the judges. Before the dance was over, Martha Rae Williams of Myrtle Beach was chosen to reign over weekend activities along with a court of six beautiful attendants.

Saturday afternoon, to the roar of a packed stadium, the Clemson Tigers trounced the Gobblers from Virginia Tech. An elaborate half-time show of eye-filling pageantry was topped with the crowning of the queen.

Saturday night, the spotlight shifted to Les Elgart and his fabulous orchestra. An overflow crowd danced to the incomparable music of the "trumpet player's trumpet player". Another Homecoming weekend neared its end and the memories began.
The students “make out” at the Friday night formal.

Miss Martha Rae Williams—the Homecoming Queen—receives roses from Stokes Browning.

“If that guy breaks one more time I’ll . . . .”
The second semester was blasted off by the Mid-Winter’s Ball only three weeks after students returned. The Ivy-League sensation, Richard Maltby, and his band opened the weekend proper on Friday night. The weatherman was generous in offering favorable temperatures most of the weekend; this, along with the fabulous music, kept spirits high and led to a great weekend. The C.D.A. went all out in planning and executing the dance.

The maestro, Richard Maltby, and his men presented the greatest in listening at the Saturday afternoon concert and continued their incomparable music making far into the night. Richard Maltby’s music, along with his amusing personality, and his danceable progressive style, was enjoyed by everyone. Despite a slight cold snap; fabulous houseparties were still carried out in the mountains and the familiar hang-overs were experienced on the mornings after. With the return to classes Monday morning everyone said good-bye to one of the most terrific dances were held at Clemson; however, many happy memories linger on.
Maltby soothes Saturday nerves at an afternoon concert.

"Music by Maltby"

'La Tango!'
Spring Hop

The Clemson College Student Body ushered in the new season with the Spring Dances, April 5 and 6, in typical spring weather. This year the dances were divided; the Military Department sponsored the Military Ball Friday night, and the Central Dance Association sponsored the Spring Hop Saturday night.

Sam Donahue and his Orchestra, an old time Clemson favorite, furnished music. Donahue and his band put on a fabulous performance and entertained the students with the best in dance music and atmosphere.

Shortly before the intermission Friday night, the Executive Sergeants formed the traditional sabre arch and the Honorary Cadet Officers, chosen by the Scabbard and Blade, were presented to the crowd. Miss Mary Jane Webster of Greenville, S. C. was presented as the Honorary Cadet Colonel.

In weather too good to pass up, many parties journeyed to the mountains for a gay houseparty and returned Saturday to wind up a wonderful Spring Dance. Sunday the girls returned to their respective homes and schools and the students buckled down to another hard month of study in anxious anticipation of the Junior-Senior weekend.
The Honorary Cadet Officers.

Preston escorts the Honorary Cadet Colonel, Miss Mary Jane Webster.

It's all over but the "grubbing"!
Taps Junior-Senior

Taps Junior-Senior weekend was one of the most memorable ones of the year at Clemson. Plans for the last big dance of the school year became reality with only a few short weeks left until graduation or summer vacation.

The race began Friday night with Sam Donahue and the Billy May Band providing some of the best music ever witnessed at Clemson. With the dining hall being filled with incomparable dance music, students and their dates forgot the extra warm weather and switched their attentions to the more important tasks of living it up for perhaps the last time before exams. One of the main topics of the evening was newly announced Miss Taps as she was proudly presented to the crowd by the editor of the yearbook.

Saturday afternoon the Juniors rolled out the carpet to the Seniors, honoring them with a banquet immediately preceding the Saturday night dance. Saturday morning found the weather perfect for trips to the mountains or other activities so common to weekends at Clemson.

Wearing apparel changed from formals of Friday night to anything from walking shorts to suits for the Saturday night informal. The evening faded away into the many private parties over the campus. A tired but satisfied student body welcomed the thousands of visitors on the Mothers Day morning.
The no-break in honor of the Taps beauties.

Smoke break during Friday night dance.

Living it up on Saturday night.
Maids of Cotton

In October the 1957 Maid of Cotton Contest was held and once again the most beautiful girls in our state came to the Clemson campus. Girls representing twenty of the counties visited for two days of interviews, a formal contest and finally, speeches by the finalists.

The girls were escorted by some of the outstanding students on the campus. From among these beauties Miss JoAnn Deason of Spartanburg County was chosen to represent the state in the National Maid of Cotton Contest held in Memphis.

The “Numeral Society”, new campus organization, donated time, talent, and effort in decorating the stage and seeing that the contest was the great success that it was. The contest came to a close with the Maid of Cotton Dance held at the Clemson House.

The annual event is sponsored by the South Carolina Ginners Association, South Carolina Textile Manufacturers’ Association, and the South Carolina Cotton Crushers Association.
Fine Arts

For many years the Clemson College Concert Series has brought some of the country’s most outstanding artists and attractions of the musical world to our campus.

The purpose of this series is not only to entertain our students and others living within a close range of Clemson, but it also gives them a broader and more well-rounded knowledge of the fine arts.

During the series the students enjoyed such attractions as the stirring and dramatic music of the Navy Band, Whitemore and Lowe, Pittsburgh Symphony, Obernkirchen Children’s Choir, and the ever-popular Ballet Russe.

These concerts are free to students except for a sum taken out of each student’s activities fee. Each year also finds more and more students taking advantage of an opportunity, not to be found in many other localities.
The presentation of the Pittsburgh Symphony Orchestra under the direction of William Steinberg brought to a close Clemson's 56-57 Concert Series.

The Pittsburgh Symphony Orchestra has established its unqualified right to be considered as one of the greatest orchestras in the United States. Appearances in Carnegie Hall in New York have been hailed by the metropolitan critics as major musical events. The challenging programs and the brilliance of the ensemble under the direction of William Steinberg have received praise from all sides, and the Orchestra's recordings under Steinberg, have been acclaimed some of the world's best. This orchestra dates back to 1896 when it was founded and was first conducted by Victor Hubert, who composed many of his famous operettas during his six-year regime as conductor. In Pittsburgh the Orchestra plays two series of subscription concerts on Friday evenings and Sunday afternoons with outstanding soloists and famous conductors. Appearing at Clemson with the Orchestra in a special program was one of the finest pianist of the younger generation—Greenville-born Thomas Brockman.
The Navy Band

For the seventh time the Clemson Concert Series had the pleasure of opening with the presentation of the Navy Band.

Both matinee and evening program in the college fieldhouse featured soloist's Ben Mitchell Morris, tenor; Richard Bain, harmonica; and Frank Scimonelli, French post horn, and fanfare by the Herald Trumpets.

The matinee program offered music in the popular vein. Some of their selections were; "Tally Ho!", "Slaughter on Tenth Avenue", "Serenadi", from "The Student Prince", and a special hit parade arrangement. A highlight was the "Ballet for the Young American."

Sophistication was the theme for the evening, adult audience show. Featured productions were Abreu's "the Parrot on the Fortune Teller's Hat", Tchaikowsky's "Swan Lake Ballet", and Wagner's "The Ride of the Valkyries", from "Die Walküre". Other offerings were Hungarian Rhapsody No. 2 and "Voice of Spring Waltz", by Strauss.

The Navy Band once again gave the Clemson Concert Series a successful start.
Ballet Russe

The famed Ballet Russe de Monte Carlo under the direction of Gesgei Denham was presented in November by the Concert Committee. This presentation proved to be one of the most colorful and most interesting concerts of the season.

The Ballet Russe began the program with "Les Sylphides", a romantic reverie, with music by Chopin. The featured dances in this ballet were Iuna Barouska, Yvonne Charteauch, Sally Seven and Alan Howard.

The second ballet on the program featured the two top artists of the company; Nina Novak, prima ballerina, and Igor Youskivitch, premier danseur, starring opposite each other in "Pas De Deaux Classique", with music by Tschaikowsky.

After intermission the program included a dramatic ballet, "The Mute Wife", and a musical ballet familiar to everyone, "Gaite Parisienne".

The ballet received the highest of praise from the many student and people from the surrounding area that attended this presentation.
“Brilliant”, “flawless”, “distinctive”, and “versatile”, are the opinions of critics, conductors, and millions of music lovers throughout the country when Arthur Whittemore and Jack Lowe are mentioned.

Both pianists hail from the West.

This crack duo-piano team consistently presents music that is art of the highest order and thrilling only as great art can be.

Pairing their talents professionally while still in school, these pianists have proven that they can produce perfect teamwork without the usual sense of mechanical precision. Everything is fluent and graceful. Indefatigable workers and versatile musicians, they have arranged almost two hundred works for two pianos, have introduced and played major symphonic works by modern composers.

An enthralled audience at Clemson heartily seconded critics. When this star attraction appeared on the concert stage, classical, semi-classical, and popular tunes delightfully entertained a captive audience.

Once again the two pianos blended as one and the audience rapidly warmed to the artistry of these two. Whittemore and Lowe quickly proved their ability to a discriminating audience.
Obernkirchen Children's Choir

Thirty-seven ambassadors of good will, the Obernkirchen Children's Choir, under the direction of Edith Moeller provided the entertainment for the fourth in Clemson's 1956-57 concert series.

The story of the choir began only a few years ago. These ebullient fresh-voiced children, thirty girls and seven boys, come from a picture book village near Hanover, West Germany. In the summer of 1953, they won the Llangollen Eisteddfod in Wales, a contest of twenty-six children's choirs, from all over Europe. This was the beginning of a chorale career without precedent.

Prior to the visit of the "Angels in Pigtails" to this country, they toured successfully in England, but their success was nothing to the overwhelming reception the children received in the United States. Their recording, "The Happy Wanderer", swept the nation as a popular favorite.

This group brought to Clemson a type of music that will be long remembered.

The "Angels in Pigtails".

The Obernkirchen Children's Choir.
Little Theater

The Clemson Little Theater is the dramatics society of Clemson College and the community of Clemson. Membership consists of both students and townspeople. The Little Theater brings entertainment in the form of plays just released after runs on Broadway and also the older classical plays. However, the purpose is not only to present entertainment, but also to increase interest, stimulate creativeness, and foster artistic achievement in all the allied arts and crafts of the theater. Usually two major productions are undertaken each year in addition to several lesser activities.

A scene from The Summer and Smoke.

The cast of Night of January Sixteenth.
One sure way to hold a witness!

Creating characters by use of make-up.

The eternal triangle from "Summer and Smoke".
The Jungaleers

Promoting good modern music, the Jungaleers Orchestra has steadily built its reputation in South Carolina, North Carolina, and Georgia by successfully playing engagements such as college dances, conventions, banquets, and high school Junior-Seniors. The personnel is made up entirely of Clemson students. Membership in the organization is based upon music achievement alone.

Glee Club

Lights dimmed, silence grew in intensity, curtains parted, and attention shifted toward the stage. With eyes riveted on the director's hands, with voices lifted in song, and with melody asounding, the Clemson College Glee Club began another highly successful year!

Already known throughout the South, this highly versatile group continues to merit its fame. The Glee Club has risen to this enviable position under the talented direction of Mr. Hugh McGarity.

Long hours spent on rehearsal, sacrifice of study and "sacktime", and hard work pay off. Such things as diction, cooperation, voice training, and good times are bonus benefits.

Concerts throughout the year and appearances at various campus functions allow the average student to enjoy good music. As an added attraction, the "men of song" embark on a spring tour throughout the state. A good Glee Club is an integral part of every campus and we at Clemson can be justly proud of ours.
Plans are made for the Spring tour.

Adestes Fideles.

The boys entertain for another campus occasion.

The Male Quartet.
Marching Band

The plaintive wail of "Please give us a break!" echoes across a nearly deserted practice field. Members of the band, always hard at work to improve the marching unit, know only too well the weariness and exhaustion which comes after hours of tough practice.

Under the skilled direction of Mr. Robert Lovette, the Tiger Band has grown into a unit without peer. From home football games to out-of-state parades to Orange Bowl festivities, bandsters have marched their way to fame. No less spectacular are the fabulous half-time shows which are so appealing to the football fan. Precision, timing, and memory are responsible for the intricacies of these maneuvers.

Such coordination and skill in movement only comes from hard work and still more hard work. Love of music coupled with a desire to perform for the Alma Mater becomes really worthwhile when the recognition comes from a pleased public.

Drums
The Concert Band of Clemson College was founded in 1956 under the direction of Mr. R. E. Lovett. They were founded to give to the college, an organization for the promotion of better music on the campus. The band has grown at a tremendous rate since its founding. As the band has grown, the interest in music has grown in proportion. The band is a purely voluntary organization, being selected through tryouts among the interested students. Its excellent performances on all occasions has made this band one of the most popular music organizations on the campus.
Army R.O.T.C.

The Army R.O.T.C. unit at Clemson has taken on quite a different light since the transformation from the Cadet Corps to a civilian student body. The only time a student is actually engaged in the R.O.T.C. program is when he is attending military classes or when he is participating in the military drill on Tuesday and Thursday afternoons.

General objectives of the course of instruction are to produce junior officers possessing qualities and attributes essential to their progressive and continued development in the Regular Army. In a period of universal unrest, the need for able, intelligent leadership has become more obvious, and the program has been stepped up to include some of the more practical aspects of military training.

When the necessity arises, the Clemson graduate in the uniform of his country should reflect the thoroughness of the training that he received under the direction of our Military Staff.
Air Force R. O. T. C.

With the majority of the Air Force R. O. T. C. students being engineering majors, this program has taken a firm hold at Clemson. Although the Cadet Corps has been disbanded, the Air R. O. T. C. student at Clemson receives the best training military-wise.

The purpose of the Air R. O. T. C. is to select and prepare students to serve as officers in the Regular and Reserve components of the United States Air Force. This program is the principal source of procuring future Air Force officers.

Upon completion of his freshman and sophomore year, the Air R. O. T. C. student enters into the advanced phase of Air R. O. T. C. training. Between the Junior and Senior years the cadets are given a true picture of The United States Air Force, its tactics, and its methods of attack and defense.

Upon the successful completion of his four years in the Air Force R. O. T. C. program, the cadet receives his commission as an officer in the United States Air Force.

The Air Force boys at work.
Arnold Air Society

The Arnold Air Society is a national military organization named after General “Hap” Arnold, one of the greatest military leaders of our time.

The William Beaven Squadron of the Arnold Air Society at Clemson College is composed of the high ranking Air Force ROTC cadets who have shown a high interest in aviation, who are outstanding scholastically, and who have shown evidence of a high leadership potential.

The activities of the William Beaven Squadron include field trips to various Air Force installations in the country. These trips are taken in aircraft made available by Donaldson Air Force Base in Greenville, South Carolina. Other activities include various projects such as the showing of movies concerning various activities of the Air Force in an effort to keep the public informed of the mission of the Air Force.
Scabbard and Blade

The National Society of the Scabbard and Blade is the leading military organization on the campus. It is a great honor to the military student who receives a bid to this fraternity, for it is recognition of display of superior leadership ability and excellence in the military field.

To enjoy the fellowship of the society, the newly tapped "Fish" must endure an informal initiation of ice water and jabs from the points of blades. However, the privileges that go along with membership make it well worthwhile.

In the spring, the annual Military Banquet is sponsored by this group. This event is the highlight of the year's military social life and is enjoyed not only by members but other leaders in military activities as well. The success of all things military is due to a large extent to the efforts of these few men.

S. L. OWENS
Leader
Executive Sergeants

The Executive Sergeants is composed of the ranking non-commissioned officers of the Army and Air Force R. O. T. C. units. Their purpose is to develop and perpetuate a true spirit of fellowship and cooperation among its members and the military students. The club meets to thrash out problems relating to the efficiency and organization of the companies. By exchanging ideas, each cadet unit is able to benefit from the best that is offered in our R. O. T. C. units, and administration tends to become standardized.

This organization is very active on the campus and is responsible for many of the projects promoted for the improvement of the school and its student body.
Fourth Regimental Hdq.

The Fourth Regimental Headquarters, located at Clemson, composed of the most outstanding members of the Pershing Rifles of advanced standing, is charged with the duty of commanding, counseling, and leading the Pershing Rifles Companies of The Fourth Regiment.

The staff members of The Fourth Regimental Headquarters conduct annual eliminations for the best drilled company of The Fourth Regiment and this company is presented a trophy.

Each year one of the staff members attends the national convention of the society. Here he meets with the National Commanders and gains insight into the activities of the other six regiments. After a bit of social life that goes with the convention, he comes back to Clemson with new ideas and suggestions for the promotion and administration of units of The Fourth Regiment.
The Society of American Military Engineers is composed of students enrolled in the Engineering Branch of the R.O.T.C. The main purposes of this organization are to encourage, foster, and develop relations of helpful interest among the students, to hold meetings for the presentation and discussion of appropriate papers, and for social and professional intercourse.

At some of the meetings, the Society secures professional men to address them on various phases of Military Engineering. Other programs deal with those aspects of military engineering that are primarily concerned with peacetime activities such as river and harbor construction.

By taking advantage of these opportunities, students become better grounded in the problems that may face them in the future and have fellowship based on common interest.
The Senior Platoon

The Senior Platoon has probably furnished more favorable publicity for Clemson than any other organization on the campus with the exception of the athletic groups. This precision drill unit, composed entirely of seniors, has become nationally famous by drilling in events throughout the United States.

In the spring of each year, the organization selects the rising seniors who best qualify in personnel and precision. The skillful execution of the many difficult maneuvers in which the Platoon engages, is not accomplished without a great amount of practice. It is seldom that a week passes without the unit spending several hours working to perfect its drill.

They make a specialty of adding color to the football season by performing at half-time ceremonies, and also accept invitations to participate in parades and other events. The only rewards for the members are the numerous trips and the honor of representing their Alma Mater.

S. L. OWENS
Leader
Pershing Rifles

Pershing Rifles, formed in 1892 by the late General John J. Pershing, is a national honorary military society organized for the purpose of encouraging, preserving, and promoting the highest ideals of the military profession. It also provides appropriate recognition of a high degree of military ability among the various members of the unit.

Company C-4, which is an active unit on the campus, is composed of sophomore students who have successfully completed two semesters of military training. In the Fall of their sophomore year, those who have been selected for membership begin work on their drill under the leadership of the outstanding member of the previous year’s unit. The Pershing Riflemen drill weekly until they perform with the precision of machines.

During the year, the P. R.’s are called on to perform at many football games and at parades throughout the country. When they become juniors they automatically become inactive members of the company.
Summer Camp

All students enrolled in either the Army or Air Force R. O. T. C. are required to take part in a summer training period during the summer immediately following their junior year.

The Army R. O. T. C. cadets attend this summer camp for six weeks, while the Air Force men are required to go for one month. At summer camp the R. O. T. C. students learn what it's like to live under actual military conditions and put into practice all the things they have learned in the classroom.

Army students undergo mock battles and maneuvers, the Air Force cadets learn the role of the Air Force in the modern fighting machine. This enables the cadets to better serve as officers when they are called into the service after completion of their course of study.

Hey, Plumber, what the hell do you see?

Get this damn place cleaned up!
What you doing there, Jim.

These Air Force boys really have it rough.

Don’t hit that damn starter.
Block “C” Club

The Block “C” Club is a social organization composed of men who have lettered in at least one of the various college sports. Among its projects are the sale of flowers and programs at the home games, sponsoring the annual spring football game, presentation of a trophy to the athlete with the highest grade-point ratio, serving as host to prospective high school students on high school weekend, and other similar functions. The faculty advisor of the club is coach Frank Howard.

Block “C” boys enjoy their lounge.
Cheerleaders

"C—L—E—M— in cadence, count". This is one of the many cheers heard coming from the stands led by the Clemson cheerleaders.

In their purple and white uniforms with the big orange "C", they can be seen at all athletic events boosting the morale of the team and the spirit of the student body.

They practice long hard hours to improve their techniques in leading yells and performing stunts for the enjoyment of visitors and students.

To them is due no little part of the credit for Clemson's success in the field of sports.
FOOTBALL
Clemson Tops A. C. C.

A team could be overloaded with the best potentials and material in the conference, but without the strategy and organization supplied by the coaches, the team would be lucky to win a game. This year, as always, the Clemson coaching staff was composed of the best in the business. And this year the coaches really had something to work with. The results were all that could be expected from the best. One head coach, in the personage of the versatile Frank Howard, plus four equally qualified assistants, plus the best in potentiality and material, equaled one Orange Bowl invited team.

Not only do these men work long hours at practice sessions and at game time, but they have the additional tasks of recruiting raw material from high schools and scouting future opponents on the road. Coaching is a hard, busy, and sometimes thankless profession. Among some of the distasteful points of being a coach is the problem of dealing with the “Sunday morning quarterback.” Winning coaches are blessed by being at least half-way in the good graces of the fans. But losing coaches have each critical play called over for them by these “grandstand coaches.” To be a coach is to invite public criticism on every move made. One wonders why and how our coaching staff can be bothered by the general public and still turn out the great teams that they do. Love of the game and of the school must be the answer.

In addition to putting up top gridiron teams, these coaches are responsible for the outstanding Tiger teams in other sports. These are the men and their specific positions: Carl Wise, backfield coach; Banks McFadden, defensive backfield coach; Bob Jones, end coach; “Goat” McMillan, freshman football coach; Bob Smith, end coach and baseball coach; and Rock Norman, track coach. In order to center the valuable talents of McFadden on one spot, Clemson acquired a new basketball coach in the form of Press Maravich.

Because of the outstanding job done by these men, Clemson prestige in the world of sports has grown through the years. This year the Tigers stayed in the national spotlight throughout the season, and finally ended up in the Orange Bowl. Coaching has to be on a high level to produce such teams.

Clemson’s fifth appearance in a post season classic added the finishing touches to the successful, colorful 1956 football campaign. Although the Tigers lost to Colorado in the Orange Bowl, the A. C. C. champions could not be denied the fine seasonal record of 7-1-2. The only loss came by way of the powerful Miami eleven. Two ties, with Florida and Maryland, added the only other blemishes to an outstanding season. The Country Gentlemen won their first A. C. C. championship since the origination of the powerful conference.

Again the Bengals whipped their arch rivals, the powerful Geise led Gamecocks, to acquire one of the most important “Big Thursday” wins in the history of this popular classic. Excitement was added to the season with such last minute comebacks as those against N. C. State and Florida. Sheer power was displayed in the trouncing of P. C., Furman, and V. P. I.

Individual players as well as the team as a whole received nationwide praise. Twelve players made post season honor teams. These honors ranged from third team All-American to honorable mention All-State. Individual rushing honors again went to third team All-American Joel Wells, as he ripped through opposing teams for 675 yards. Honorable mention All-American Quarterback Charlie Bussey, Jim Coleman, Rudy Hayes, and Charlie Horne were the other thorns in the opposition’s defense. The strong Bengal line was led by honorable mention All-American tackles Billy Hudson and Dick Marazza. All-A. C. C. guard John Grdijan and All-State guard Earl Greene added strength to the Bengal forward wall, along with center Donnie Bunton. The flank positions were well manned by third team All-State ends Willie Smith and Dalton Rivers.

These individuals grouped their talents together to build one of the most feared and respected teams in the country. Lost from the 1956 A. C. C. champs are eight starters, plus a few of the powerful Clemson bench. Predictions for the 1957 Tiger team, however, are not dan by any means. Promising talent enters the coming seasonal spotlight in the forms of boys from the ’56 Freshman team. The experienced ’56 second team, aided by a number of bohunks, will make Clemson a power to watch in the coming season. Clemson will be tough.

The 1956 Bengals ushered in the new football season with their usual win over the Blue Hose. P. C. took the opening kickoff and with the help of a 42-yard pass play landed on the Clemson 12. Jim Coleman intercepted a third down pass—ending any threat of an early score.

The Tiger eleven gave the stands a preview of their 1956 power as they began moving the ball. Two long runs by halfback Charlie Horne—one a 26-yard punt return—put Clemson deep in Blue Hose territory. Coleman scooted around end from the two-yard line early in the second period to draw first blood of the game. Charlie Bussey booted the extra point. Just after the kickoff, a P. C. pass was snared by Dalton Rivers. Quarterback Bussey then flipped an aerial to Rivers for 21 yards. Fullback Bob Spooner added six more on a one-yard plunge. The Bussey placement was low. The siren blew with the Bengals holding a 13-0 halftime lead.

Earlv in the second half, Coleman, Spooner, and Joel Wells led a sustained drive which carried to the P. C. one-yard line. Wells drove over on an off-tackle slant. A Bussey to Rivers pass set the score at 20-0. Led by Ken Webb, a threat to the Tigers all night, the Hose began their own T. D. drive. Webb crashed into the end zone from seven yards out. Cook passed to Leahy for the point.

Clemson’s strong second unit added the final tally. The accurate passing of Horace Turbeville and the hard running of Rudy Hayes and Floyd Lawrence put the Bengals in scoring position. Lawrence bulled his way eleven yards through the middle before crossing the white stripes. Turbeville’s kick was good.
Clemson 20
Florida 20

Coming from behind in the final minutes of one of the most exciting games of the season, a stubborn Tiger team tied a strong Gator team 20-20. The Florida heat was as much of a hinderance to our Bengals as the Gators themselves.

On the first play from scrimmage, Joel Wells picked a Gator fumble out of mid-air. Clemson was ready to roll—only 45 yards from paydirt. On the Tigers' fourth play from scrimmage, Hayes crashed into the end zone. Bussey converted. After three plays, the Gators were forced to kick, and the men of Calhoun gave another example of their dominating offense. Exactly one play after Wells had raced eleven yards for Clemson's sixth straight first down, Bussey hit Dalton Rivers with a 16-yard pass. Jim Coleman startled the Gator defense with a weaving, twisting romp to the two, and Wells squeezed over for the score. Bussey's toe added number 14.

Clemson began to show signs of the effects of the grueling heat. The Gators marched straight back from the forty for their first six. The placement was wide. Led by the shifty running of Jackie Simpson, the Florida eleven marched for another score. The ball ended with Clemson holding a slim 14-13 lead.

With only three minutes left in the contest, the picture looked rather dismal for the Tigers, as they were on the short end of a 20-14 score. Willie Smith pounced on a fumble to steal the ball from a hot Gator team. Clemson seemed to gain energy from nowhere, and quarterback Bussey led his team on a determined march deep in Florida territory. A Florida penalty placed the Tigers on the one, and Bob Spooner plunged over. Terrell's kick was good, but a penalty nullified it. The second kick was blocked.
Clemson N. C. State 13 7

After playing listless, average ball for the first three quarters, the Clemson Tigers roared from behind to defeat an inspired State eleven 13-7.

After an exchange of punts, the Wolfpack began to show the effects of their multiple offense as they drove to the Tiger 35—only to be thwarted by the alert recovery of a fumble by Jim Coleman. Clemson showed their only offensive life in these misty three quarters, when a 19-yard pass from Charlie Bussey to Dalton Rivers and some hard running by the Bengals put them on the State 33. The drive stalled.

Early in the second quarter, State started another march. Horace Turbeville put an end to any hopes of a score as he pounced on a Wolfpack fumble on the 15.

On the first play of the fourth period, State scored, and the Tigers began to roll. Led by the jolting, free-wheeling running of Joel Wells, the "Men of Howard" landed on the State 20. A fourth-down screen-pass from Bussey to Hayes put Clemson inside the 10. Playing clutch ball, the Tigers scored on the last down, as Wells burst into the end zone standing up. Bussey added the extra point. A strategic short-kick by Clemson paid off. A driving tackle by Willie Smith caused the State end to muff the kickoff, and Charlie Horne recovered for the Tigers on the Wolfpack 30. The game was put on ice by a weaving, twisting run by halfback Horne, who drove into touchdown land. Bussey's kick was wide.
The Tigers roared to their second straight Conference victory by downing Wake Forest 17-0. The game was highlighted by Clemson's first field goal since the 1949 Gator Bowl. Horace Turberville split the uprights at a 36-yard distance.

The first quarter saw both teams march deep into the others territory. The Demons were halted when Whitewy Jordan threw Carpenter for a nine-yard loss on a pass play. The Tigs were on the move. Bussey uncorked a pass to Charlie Horne which was good for 36 yards. On the next play Horne shot into the end zone. Bussey's toe added number 7. Minutes later Dick DeSimone pounced on a Deacon fumble at the 21-yard line. Clemson was stopped, and Turbeville kicked his field goal. At halftime the score read 10-0 in favor of the Tigs.

Mid-way in the fourth quarter Clemson began its push for the final T.D. Joel Wells started the Tigers rolling with an 18-yard burst to the Deamon 43-yard line. Within the next six plays, Wells, Horne and Rudy Hayes had moved the pigskin to the eight-yard line. From this point, Horne slid over guard and stepped into glory land. Bussey kicked his second conversion of the day.

A Carpenter pass was snatched by Turbeville at the Deacon 27. Led by Shot Rogers, Clemson drove to the 15—only to lose the ball on downs. A few plays later, the contest ended. And the Tigs had chalked up their first shutout of the season. The defensive team had put on a good show. Marazza, Hudson and McCANLESS played outstanding games at the tackle posts. Guards such as Green, Desimone and Kaltenbach also helped blank the Deacons.
"Big Thursday" saw the Tigers and the Gamecocks clash in one of the most important games in the history of this famous series. Both teams went into the contest without a conference loss to mar their record. The winner would gain a chance at the A.C.C. title and a shot at an Orange Bowl bid. Clemson won!

The teams exchanged possession on the pigskin before Jim Coleman grabbed a Carolina punt at his own 25 and tripped 36 yards down the sideline to set up the game's only T.D. The game's leading ground gainer, Joel Wells, added a finishing touch with his 18-yard burst through the Carolina secondary. A sneak play by Charlie Bussey marked up six big points for the Tigs. When the ball squirted from the placement holder's hands, quick-thinking Bussey added point number seven as he raced around right end on a freak extra point play.

On another Clemson drive the Bengals again crashed inside the 10 after the bruising, crushing running of Wells and Hayes. Here the Tigers were stopped, and Horace Turbeville's fourth down field goal was wide.

Carolina made their bid on a 69-yard drive. The Birds were at the four—second and goal. Fullback Johnson, on a drive play, met a stone wall led by Hudson and Bunton. He fumbled! Bussey quickly fell on the ball in the end zone, and Carolina had lost her chance.

After Bussey's 58-yard boot, the Gamecocks were in an even sorrier plight. As the gun ended the classic, Mike Dukes intercepted a Carolina desperation pass. The ORANGE BOWL EXPRESS had begun to roll.

Bussey covers all-important fumble.

Coleman sets up T.D.
“Cheer up, Carolina, the worst is yet to come.”

How to earn an extra point the hard way.

Carolina’s tough line (?)
Hayes pulls in V. P. I.'s pass to race 77 yards.

What's the matter, Joel, the sun in your eyes?

**Clemson**

**V. P. I.**

Before all the splendor and color of Homecoming, the Tigers proved that they were more than worth the rating of 13th in the nation. The Clemson eleven remained undefeated as they stomped the 15th team in the Nation, V. P. I. And the cry of, "Whata we drink...? Orange Juice, orange juice!" echoed through the home stands.

Whitey Jordan set the stage for the first score early in the second quarter as he dropped a Gobbler back on the 5-yard line on an attempted punt return. When V. P. I. failed to gain, Charlie Horne returned their punt 17 yards. Horace Turreville punched over from the one and added the point. The Gobblers came back hot, but the Tiger line put on a terrific show of defensive play. Led by Willie Smith and Rudy Hayes, the Tigs held for three downs inside the ten as the half ran out.

V. P. I. came out with all the pep of a halftime loser and proceeded to drive again to the Clemson 11-yard line. At the goal line Hayes leaped high into the air and batted a Gobbler pass. Gathering it in Rudy raced 77 yards. Five plays later Joel Wells ripped the tough Tech line for number 13. The magic toe of Charlie Bussey raised the score to 14.

Bill Hudson started the show again as he recovered a Tech fumble. Wells and Bob Spooner alternated carries for a first at the twenty. Bussey reached into his bag of tricks and pulled out a new play. Charlie Horne took a pitchout, raced around the surprised defenders, and stepped into the coffin corner. Mr. Bussey then ended the days scoring as he booted a perfect placement.
That's what I call hitting the hole.

"Get the hell out of the way, FAT ONE".

Horne has his eyes on glory.
The Orange Bowl Express was slightly slowed down by a wet slippery field and a determined Maryland line—led by tackle Mike Sandusky. Clemson’s wide plays and pitchouts just couldn’t click, as time after time the Tiger backs slipped trying to cut up field on the wet turf.

Early in the first quarter Jim McCanless dropped a Terrapin back for a yard loss, and on the next play Willie Smith fell on a loose ball. Joel Wells took off on a 56-yard jaunt, only to loose half of the gained yardage on a clipping penalty. The Maryland line stalled a Tiger drive as the quarter ended.

The initial part of the third quarter was uneventful for both teams. Finally Clemson got a break. A forced Maryland punt fell dead inside the fifty, and the Tigs began a brutal, gruelling drive. Two wide pitchouts, one to Wells and one to Horne, were the main factors of Clemson’s score. A fourth down play saw fullback Bob Spooner punch over from the one-yard line. The conversion attempt was wide.

Clemson fumbled inside the ten-yard line, and the Terps found the loose ball at the four. A great goal line stand was almost made by the Tiger line but Maryland came through on the fourth down to add their six to the day’s activities; the attempt was wide.

A final scare was added to the Clemson supporters late in the fourth period. The Terps sliced through the Tiger defense, until they were inside the 15. The Tigers held! Bussey ran out the clock—Orange Blossoms were still in sight!
The Miami Hurricane struck with fury and almost blew Orange Blossoms out of reach of the Tigers. Clemson received its first loss of the season from the Nation’s eighth ranked team before a highly critical Miami crowd.

After Clemson was forced to punt, Miami began to show her power. Clemson tried desperately to hold but the breaks just weren’t falling their way as Miami crossed the double stripes.

Behind 7-0, Clemson was determined to close the gap. A recovered fumble by Charlie Horne on his own 31 started the Tigers on a well executed drive. Joel Wells hauled in a Bussey pass and raced to the Miami 36. And then came the heartbreaking play. Jim Coleman grabbed a screen pass and tripped 35 yards to pay dirt. A clipping penalty nullified the score.

Opening the third quarter, Miami scored again and converted for a 14-0 lead. Clemson roared back with a first down, and just as the Bengals began to move, Miami intercepted a pass.

Late in the third period, Miami increased their lead to 21-0. Immediately after the kickoff, a Bengal pass was grabbed by the Hurricanes. Miami drove to the nine, where they met a weary, but fighting Clemson line. The “Men of Howard” rose up to stop them cold on the one.

Once more the Tigs tried for the score. Bussey connected with Horne for a long one. Horne stepped out of bounds at the Miami 39, but Clemson was held, and Miami ran out the clock. The Tigers had lost their first 1956 game.
Clemson
Virginia

Clemson’s Orange Bowl hopes reached new heights as the Tiger eleven dumped Virginia 7-0 to cinch the A.C.C. title. This sixth seasonal win enabled the Bengals to walk off with their first championship of the newly formed Atlantic Coast Conference.

IPTAY day saw the Bengals and the Cavaliers start off slowly; an exchange of punts followed two unsuccessful drives. The first pass attempt of the contest was snared by center Bill Thomas. Jim Coleman and Rudy Hayes set up the following touchdown with runs of 20 and 13 yards, respectively. A one-yard sneak by Bussey marked six on the Clemson side of the scoreboard. His following conversion was good.

A halftime intermission did nothing for the Tiger offensive punch. Soon after an exchange of punts the Bengals fumbled in their own territory, but Bussey hopped back on a Cavalier miscue to even matters out. A second succeeding fumble put the Tigs back in hot water again. This time it was Horace who pulled them out as he pounced on a Virginia bobble at the 15.

Clemson opened the fourth quarter with the start of an impressive, but unsuccessful, long drive. Starting from their own 20, the Bengals were soon inside Virginia soil, after a 13-yard dash and two successful passes by quarterback Bussey. Charlie scooted for 15 to the Virginia 9, following a 14-yard spurt by Bob Spooner. Here the Tigs were halted, and Horace Turbeville came in for the field goal attempt. He missed. Scoring action for the day, and even close attempts, had ended.

Clemson’s line had played outstanding defensive ball, and Coach Howard was high in his praise of tackle Bill Hudson and center Bill Thomas.
The Furman game proved to be much more important than the pre-season estimate. Clemson needed a “convincing victory,” in order to obtain the Orange Bowl bid. Furman was literally fuel for the Orange Bowl Express.

After running some brutal drive plays, Charley Bussey opened up his aerial game with a 17-yard screen pass to Joel Wells. With the aid of a key block by Rudy Hayes, Joel sprinted over from 15 yards out. Bussey’s boot was perfect. And then came the miracle of the day—Furman scored and converted.

But the Hurricane had blown its wind, and the rest of the day’s glory was soaked up by the Bengals. Wells banged over from the two soon after Furman’s tally, and Bussey added the point. And Clemson’s scoring had not yet ended for the first half. After Bussey had scooted for twelve big yards to the Furman 18, he stepped back and tossed an 18-yard scoring pass to Dalton Rivers—the first of the ’56 season. The P.A.T. was blocked.

The Tigers opened up the fourth period with a first down at the Hurricane 42. Aided by Jim Coleman’s 30 yard break-away run, the Bengals were soon on the one, from which point Bob Spooner crashed into glory land. A wide placement made the score read 26-7. Clemson scored again as an indirect result of Charlie Horne’s 18-yard effort to the Hurricane 13. Furman gained possession on a Tiger fumble. After a 5-yard delay penalty, Whitey Jordan broke through to cover Powers on a safety in the end zone.

Clemson had obtained the Orange Bowl Bid, and the ORANGE BOWL EXPRESS was ready to sign on passengers.
Loyal Clemson fans, who had avidly followed the sometimes bruised but always charging Tigers, were treated to that "treat of treats", a post-season bowl game. Led by the thrilling chant of "Orange juice, orange juice on New Year's Day!", fans poured into the fabulous city of sunshine, balmy skies, and sparkling waters.

With ear-splitting cheers for dear old Clemson, this zany holiday crowd partied, sun-bathed, swam, took in the sights, and boosted the Tigers. Spectacle followed spectacle, pageant followed pageant, party followed party.

The parade, that giant appetizer to Orange Bowl festivities, was a continual kaleidoscope of color, motion, and beauty. The following day activity centered in the Orange Bowl. A terrific struggle on the gridiron kept the roaring crowds constantly on their feet. Then, at halftime, an eye-filling spectacle of beautiful women, breath-taking floats, marching bands, and lovely majorettes unfolded before astonished fans. Too soon, the party ended and cloud nine floated away.
The Palmetto Crescent flies high in Miami.

A few seconds before the big tussle got underway.
Hi Ho, Horne, away!!!

Clemson  Colorado
21  27

Clemson was saved from disgrace by staging the greatest second half comeback in the history of the 23-year-old Orange Bowl Classic. The Tigers turned in a performance that will always be remembered by Orange Bowl viewers everywhere.

When the first half ended, the Tigers found themselves on the short end of a 20-0 score. Apparently Coach Howard's half time pep talk had done some good. Bob Spooner and Joel Wells both showed terrific driving force as they alternatingly sped and bulled their way deep into Colorado territory. Joel finally punched over from the two. The Bussey placement was perfect.

Re-obtaining possession by forcing the Buffs to boot, the Tigers were soon back at their own 42. And then came the play of the game. Wells scooted through the maze of Colorado jerseys, found daylight, and sprinted 58 yards for the T.D. The fans were still in a roaring daze when Bussey's conversion split the goal posts.

At the 21-yard line Cook fumbled a bad pass from center and Tommy Sease lost no time in falling on the loose ball. Spooner soon crashed into the end zone, and Bussey calmly booted his third perfect placement.

After the Buffs had scored again, Willie Smith recovered a bobble at the Colorado 27. But Colorado intercepted a Bussey pass to dim all hopes of another Bengal score. The thrilling 1957 edition of the Orange Bowl classic had ended. The Tigers had lost—but they had lost with the fighting spirit which is traditional of all Clemson teams that have ever represented their school and their state in a Bowl game.
“Taste good?”

Bayuk scores for Colorado.

Wells scores Tigers' first T.D.
Clemson's powerful Baby Bengals turned in a fine seasonal performance as they capped the A.C.C. title with an impressive 3-0 record. The Tigers ended the season with an overall 3-1-1 record.

The Cubs traveled to Ga. Tech for their seasonal opener—only to be turned back by the Baby Yellow Jackets for their only loss of the season.

The Baby Tigers roared back for a stunning defeat over N. C. State, 33-0. Ends Emil Zager and Jack Webb were on the receiving end of White’s passes for two Tiger tallies. Johnny Goff, White’s more than capable understudy, got into the act, hitting George Usry with another T.D. pass.

The Cubs kept up their winning ways with a team victory over arch-rival South Carolina, 27-0. White once again stood out, connecting with Zager and Kennedy for two touchdowns and scoring one himself.

The Baby Bulldogs from Georgia held the Cubs to a 0-0 tie in the roughest ball game of the year for our little Tigers. Keller and Cline were outstanding in holding down the score.

The Cubs wound up the season by defeating the Baby Deacons of Wake Forest, 39-6.

Many of the boys on this outstanding team will show up well on the varsity team next year.
BASKETBALL
Coach Press Maravich came to Clemson with a style of basketball that had every team the Tigers played on the lookout for an upset. And upsets came against top teams.

At the first of the season the Tigers pulled a major upset by defeating N. C. State—then one of the top teams in the country. The Bengals had proven from the start that they were no team to scoff at.

Clemson seemed to be most effective at home winning most of their victories in the Field House. The overall record was 7-16. Coach Maravich introduced a very effective weave that was used this year when the Tigers forged ahead in the final minutes. The weave, which was a partial freeze, drew the opposition far enough out into the back court to permit the Bengals to drive effectively.

Highlight of the year was when Clemson’s arch rival South Carolina journeyed to Tiger-town. The favored Gamecocks had the nation’s leading scorer, Grady Wallace with them. But the Bengals held him to 24 points as they dumped the Birds 79-71.

All in all, the Bengals will be tough to handle next year.
Swish—he hopes.

It's in the air; it's good!

Bill pushes one more through the little round hole.
"Now, where in the hell do I bank it?"

"Pass it to me, Vince; it's my turn."

Basketball or Ballet?
“No rebounds on my shots.”

A finger in the eye always keeps the opposition puzzled.

Great form, Cameron, but do you know where it's going?
One jump shot, two points.

Get the Hell out of my way!

Let the law of gravity take over now.
“Boo”

If they'd just teach 'em how to jump over at the "High School".

“Baskets are attractive these days—right, Tom?”
Freshman Basketball

Clemson's high scoring Cubs fielded one of the best Freshman teams in Tiger history, as they came through with an impressive 14-3 record.

The Baby Bengals traveled to Ga. Tech for one of the season's best thrillers, as they took a 65-63 overtime victory from the Baby Yellow Jackets. The Cubs broke the century mark twice during the season, defeating Western Carolina J. V.'s 101-64 and the Furman Frosh 107-95. The most satisfying victory for the Cubs was a 81-76 win over arch-rival South Carolina. The Baby Bengals played well as a team. The passing and floor play left little to be desired. A convincingly winning season was the result. Two losses of the season came at the hands of the Fort Jackson Eagles, who were led by All-American Darrel Floyd.

The boys and their more than capable substitutions will be counted on heavily by Coach MAIRAVICH and the varsity squad next year.
TRACK
Clemson's track team, under Coach Rock Norman, ended its regular season with two wins and two losses in dual meet competition and came in second in a tri-angular meet with U. N. C. and N. C. State.

The Tigers walloped Wake Forest 108 to 23 in opening the season and then came in behind the Tar Heels, but ahead of the Wolfpack, in the next outing. Davidson barely edged the Tigers before P. C. paid a local visit and succumbed. U. S. C. took the Tigers 73 to 58 in the season's final.

Joe Bowen was a consistent scorer in the 120 and 220 hurdles and the 100- and 220-yard dashes. Against P. C., in the time of 23.9 seconds in the 220-low hurdles, he tied a 16-year-old state record held by Banks McFadden.

Sophomore John Steedley will evidently succeed Bowen on the hurdles as he was just one-tenth of a second behind Joe's record tying pace.

Tom Cameron came within one inch of breaking Allston Mitchell's high jump record. Gene Metz was the team's top pole vaulter, and Bob Spooner excelled in the shot put.
If you'd keep your damn foot up, Steedly, you might catch Bowen.

The face only a mother could love.

"What the hell am I doing up here?"
"Hey, Coach, how's this for form?"

And I thought "Mike Hammer" was tough!

It's a hell of a long way down, isn't it, Metz?
“Hey, Wilbur, wait on your ex-high school teammate!”

Up, up, and away!

"Damn it—let me have it! Don’t just stand there with your mouth hanging open!"
Cross Country

Donelan shows mild strain as he works out before the action.

Tinsley works out with a stationary kick.

BASEBALL
Baseball

The 1955 Clemson Tigers fell short of the seasonal records of previous teams by chalk-ing up a low 4-14 in the win-loss column. The hitting of Don Shealy and Glen Sheriff added a few bright spots to an otherwise dismal season. Both hit at the .333 mark. Power for the team came by the way of centerfielder Bill Barnett's bat. He led the Tigers in both R.B.I.'s (19) and homers (4). Barnett hit just one percentage point under another big bat of the Tigers—Dave Garrison .277.

With the absence of Johnnie Drake—who won four games for the '55 Tigers—Coach Smith will depend on the mound ability of lefty Harold Stowe. Butch Coker will add strength to the catching staff. A promising big bat comes by way of outfielder Mike Dukes. Larry Bagwell is a likely candidate for the third sack.
A slip in the law of averages.

"I'd run a mile for a Camel."

And the Tigers retire another.
Just which are you going to catch it with, Sheriff?"

"Between Heaven and Hell!"

"The answer to a teen-age prayer."
"A bucket, anyone?"

"This is the way to cover second?"

"Dammit, throw the ball!"
Managers

The most unrewarding job in the Clemson athletic program is that of the managers. These boys begin preparing equipment long before the players arrive for the day's drill. During practice they are on hand at all times to aid both coaches and players. They forfeit many hours of leisure time to keep the team in readiness for the next encounter. Without the services of the managers, the Tigers would find it hard to operate efficiently.

Our thanks to the managers, the unsung members of the Tiger team.

Basketball managers, Susan and Heath, pack for the coming encounter.

Track managers (bottom to top, left to right) Corrado, Richardson, Cudd, and Wisniewski display smiles for the camera.

Baseball managers, Dempsey and Keller, carry out the equipment for the day's practice.

Football managers, Bryan and Norris, screw new cleats on practice shoes.
MINOR SPORTS
Front Row, Left to Right: George Warren, Andy Inman, Bill Van Arsdale, Captain Len Yaun, Keitt Hane, Bob Agnew, John Woodard.

Captain Len sends the ball straight and smooth down the farway.

Golf

The Clemson golf team enjoying one of its most successful seasons in 1956, ending up with an overall record of 10 wins and 4 defeats. In the conference Coach Bob Moorman's linksmen racked up 5 wins, while losing 4.

In the first annual Carr T. Larisey State Intercollegiate Tournament Len Yaun, the Tiger's Captain, won the cup as the state's top college golfer. In the same tournament the Clemson squad came in second to U.S.C. in team play having 280 strokes to 273 for the Gamecocks.

The Bengals defeated U.S.C. (twice), Wofford (twice), Georgia (twice), Maryland, Duke, Northern Illinois State, and Virginia. Wake Forest dropped the Tigers twice, and the other two matches were lost to U.N.C. and N.C. State.
Swimming Team

The 1956 Tiger aqua-men ended the regular season with a 2-5-1 record. They have yet to make their mark in the State meet and the A.C.C. meet. Clemson's victories were over Wake Forest and Carolina. Losses included U. N. C., N. C. State, Maryland, Duke, and Davidson. The lone tie was with the Virginia squad.

Captains of the '56 tankers were Wes Millard and Bonum Wilson. Wes was Clemson's valuable distance man. Other team leaders were Ackerman in the 200-yard butterfly and Hendee in the sprints.

Valuable talent from the Freshman team, in the personages of Elmore, Fusselle, and Coleman, will help boost next season's team into championship form.

The beginning of a backward backstroke.

First Row: Millard, Wilson. Second Row: McCalhan, Stoner, Philpot, Dowdle, Ackerman, Nickler. Third Row: Boozer, Manager; Murphy, New McHugh, Coach; Webster, Gilmer, Wingate, Manager.
Sarpa, you can't play on that side of the net.

Tennis

The 1956 tennis team closed out the regular season with a 8-5 record against competition in the A.C.C. as well as other teams in the state.

The Bengal netters broke the College of Charleston's 24-win streak with a 5 to 4 defeat. The other wins were notched against The Citadel, Erskine, Furman, and N.C. State. The Tigers absorbed losses from Furman, Cornell, U. S. C., Virginia, Maryland, Duke, U. N. C., and Wake Forest.
Rifle Team

After losing two-thirds of last year's undefeated team, the Clemson Rifle Team started a program of rebuilding. The team is largely made up of sophomores and freshmen with only one three-year veteran. At the helm of this new program is Capt. William Luce and S.F.C. Simpson of the U. S. Army.

The Rifle Team spread its challenges to teams outside of South Carolina. These outer state teams include University of Maryland, University of Tennessee, Davidson, and Georgia Tech. Next year the team hopes to have a match with more of these larger schools.

At the end of each year medals and cups are given to the 10 highest members of the team. The awards are donated largely by the U. S. Army, since the team's members are usually from the Army R.O.T.C.

Experience should help next season's squad to post a bigger and better year.

"Ain't nothin' like huntin' squirrels with Pappy, is it Dye?"

When the 1957 Taps Staff met in the early autumn of this year, it was their express purpose to uncover a vast expanse of new ideas and conceptions in College Yearbooks, which we hope the men and women of Clemson may enjoy now as well as in the years to come. The staff felt that this year had afforded us the opportunity to present something new in the vogue of yearbooks, so we put our shoulders together and pushed. . . . The ultimate results are new design, new photography, and a revolutionary cover.

All previous ideas were discarded as things of the past, and a simplified style of type design and picture layout replaced the usual style. In comparison to the previous yearbooks of Clemson, this one may appear somewhat radical, but in the long run we feel that it might well be a criterion. In short, the designers used square-cut, black and white simplicity, which made the book completely dependent on pictures and copy. From this original design the staff worked with the idea that this new and simplified design would demand the best they could offer in pictures and copy.

Like all of its predecessors the Taps was produced under the same physical and mental torments which were always available to supply the characteristic background to our office on the ninth level of the student center. Constantly aware of impending examinations and impending deadlines, the majority of the staff were forced to become living, reading and writing bookworms to stay in the fight, but we were learning. . . .

Beneath the surface of all the turmoil, Editor Doug West diplomatically handled the executive responsibilities, and maintained the level headed, yet comical atmosphere which is so essential to an enterprise such as this. Rusty Langley gave a brilliant account of himself as Business Manager by keeping the office running in a smooth efficient manner.

The combined efforts of the Editors of each section in the yearbook is the finished product of imagination and work which you now hold in your hand.

The 1957 TAPS Staff.
Without this group of select individuals, the Taps would be in a straight jacket. There would be no one to do all those infinite and wearisome tasks involved in the production of the yearbook.

They work hard and faithfully day after day, often seeing an orange glow in the eastern skies before their tired eyes are allowed to close in much needed sleep. It is almost impossible to fathom the magnitude and complexity of problems involved in the production of this yearbook.

These problems constitute the major portion of the Junior Staff's work, work that may seem meaningless now, but they find that it is the experience they need for next year when it falls their lot to take over the helm. These men have withstood the rugged fire of one year and have come through . . . Results: a great staff for next year.
Left to Right: Kenny Parkes, Jerry Sinclair, Ray Griffin, Jack Branch.

Left to Right: Burt Taylor, Heyward Arnold, Allen Armstrong, Billy Poole, Brogdon Nichols.
This year the Clemson Tiger, "the South’s most interesting college newspaper", and "the oldest college newspaper in South Carolina", completed fifty uninterrupted years of publication.

The Tiger commemorated this event by re-establishing a custom which had been ignored since the years of the second World War: the making of appointments to the positions of editor and columnist strictly from the senior class.

Each Monday and Tuesday night the Tiger staff is found hard at work performing each large and small task that might present difficulty. Wednesday the paper goes to press, and Thursday it rolls off as their final product.

Is the Tiger staff, then, synonymous with drudgery? Indeed not. Anyone who has witnessed the good times a group of boys can have as members of the Tiger staff: living together, working together, partying together, working out problems together, and viewing proudly the fruits of their labors, may readily see that the Tiger Senior Staff is more than just a few words.

"The Tiger moves out of his den."
The Tiger
Junior Staff

Perhaps the most pronounced education received while on the Tiger Junior Staff is the opportunity to create while under supervision. In writing an article or head, the apprentices are endowed with the advantage of being able to consult their Senior Staff members for criticism or advice in their beginning attempts. While not possessing the know-how in some cases, to justify in print the happenings around the campus, they are learning from the examples shown by the seasoned and experienced people who come to the office every Monday and Tuesday night. Some of the so-called menial tasks performed by the junior members are running down and gathering the information of late copy to be given to their respective editors for publication, writing heads for the front page stories, and appearing at "Dans" just in time to bring an order back to the office. These men are the managers, editors, and editor-in-chiefs of the years to come.
"You see, Jerry, it's quite obvious."

"Now, how in hell did HE get in there?"
The Slipstick

The Slipstick is the official publication of the School of Engineering at Clemson College. It is published four times a year by the students majoring in all branches of engineering. Articles are written by students and are usually of a technical nature concerning any developments in equipment or any point of interest to both the students and faculty.

Included in each issue of the Slipstick is "What's New in Engineering", a column which recognizes outstanding seniors majoring in engineering. There is also a section devoted to news of Professional Societies.

The Slipstick publishes a large issue bi-annually for the Engineering Fair in which a brief resume is given concerning the nature of each major course in engineering. The purpose of this is to give high school students a brief look into the course before they enter Clemson.

Bobbin and Beaker

The Bobbin and Beaker was organized in November of 1939. This marks the eighteenth consecutive year the magazine has supplied beneficial information to students and leaders in the field of Textiles.

The main purpose of the publication is to serve the Textile students of Clemson. The articles are comprised of the latest advancements made by the Textile Industry, and in this way supplement knowledge and new trains of thought to all of its readers. Since the magazine has a wide circulation through the industry, it affords a medium of exchange for ideas among leaders in the industry who contribute to the articles appearing in the magazine.

The Agrarian

The Agrarian, Clemson College's oldest student publication, is beginning its sixteenth year of publication. The Agrarian was founded in 1938 by agricultural students with the assistance of faculty advisors. Completely financed by advertising, it has been in continuous publication with the exception of two years during the Second World War. At the present time this magazine has a circulation exceeding four thousand copies and is mailed to practically every state, Alaska, and Hawaii.

The Blue Key Directory

Probably the most indispensable of all books found on the Clemson campus is the Blue Key Directory. Begun in 1934 with the primary purpose of service to the Clemson students, the Directory has proved its value to literally thousands of Clemson men. A neat little time-saving device the Directory contains a listing of the student roster, major course, college address, room number, and home address. It also provides a College Calendar, a Departmental Telephone Directory, a list of the Board of Trustees, Faculty and Staff, Dormitory Counselors, and a Directory of Student Organizations. A copy of the Blue Key is presented to each student, and they regard it as indispensable.

The Y. M. C. A. Handbook

For the benefit primarily of the new freshmen, the "Y" edits a guide to Clemson. It is a handbook which lists all of the schools, organizations, and means of entertainment found on the campus. It offers a descriptive picture of the campus, and aids in orienting freshmen on the history, appearance, and location of the buildings and grounds. The book is prepared by the staff in the spring, and distributed to the freshmen in the fall.

COUNCIL MEETING STUDENT CHAPEL
Council of Club Presidents

The Council of Club Presidents serves the Clemson College Campus, its students and their welfare, by acting as the primary coordinating body between the various organizations.

The Council’s purpose is to promote club activity, encourage high standards and to aid in the development of campus projects. Suggestions and complaints are brought before the Council where they are discussed and mutually agreed upon. The Council also acts as a means for members of the Administration to call attention to matters relating to the campus organizations.

Meetings are held four to six times a scholastic year. One of the first projects for the club president is to develop and arrange designated times for meetings of the eighty campus organizations in order to eliminate conflicts with college activities and programs. Also, one of the first and most important functions of the Council is to elect delegates to the Student Assembly.
The purpose for which the Blue Key Honor Fraternity was established is clearly set forth in the Preamble to the Official Code, as follows:

We, who have accepted the pledge of Blue Key National Honor Fraternity, recognizing it as a basis of union, do ordain and establish for Blue Key National Honor Fraternity, this Constitution, in order that through organized effort among student leaders in American Colleges and Universities:

(1) The belief in God will be perpetuated and intensified, the government of the United States will be supported and defended, and the established institutions of society and the principles of good citizenship will be preserved;

(2) An ambition for intellectual attainment and a desire to serve college and fellows will be fostered among students in institutions of higher learning;

(3) Student problems may be studied, student life may be enriched, and the progress and best interests of the institutions in which the organization is found may be stimulated and promoted."
Members of the Blue Key discuss plans for the future at their weekly dinner meeting.
The Tiger Brotherhood is composed of students who possess outstanding abilities of leadership, service, and interest in Clemson. Its purpose is to act as a sponsor of tolerance and integrity among Clemson men. The Brotherhood, organized in 1928 by a group of student leaders and faculty members as a service and leadership fraternity, is open to members from all classes.

Its many functions consists of a Christmas party held each year for the needy children in the Clemson area. Each year the Brotherhood selects a Mother of the Year and presents her to the students on Mother's Day. Another one of the services is the Student-Faculty supper that is held for promotion of better relations among students and faculty.
Brotherhood members gather for a meeting.
Alpha Phi Omega

The purpose of Alpha Phi Omega is "to assemble college men in the fellowship of the Scout Oath and Law, to develop friendship, and to promote service to humanity." This imposing objective includes four major fields of activity in which the program is delivered, these being as follows:

- Service to the student body and faculty,
- Service to youth and community,
- Service to members of the fraternity,
- Service to the nation as participating citizens.

Each year the club distributes the APO desk blotters; collects food for the needy prior to the Thanksgiving and Christmas Holidays; and coordinates with other service fraternities in the Clemson Community Council United Fund Drive.
It's music time U.S.A!!!
Numeral Society

The Numeral Society, newest service club on the campus, has proven itself to be a vital and welcomed addition to campus organizations. The primary function of this society is service to Clemson College. Its purpose is to initiate, develop, and perpetuate the traditions of great school spirit that have and will make Clemson College grow in stature among colleges and universities.

A very busy year, activity-wise, was highlighted by the preparations of the elaborate Homecoming Queen's float and the decoration and production for the Maid of Cotton Contest. Other noteworthy activities include organizing card sections at football games and arranging pep meetings.

The Numeral Society, hard at work to assert itself in the sight of other clubs, has proven that a new organization can readily find a welcomed place.
Anyone for a bull session?

Duffie Sullivan
Erwin Wells
Jones Wilson
Key Vickers
Co-Ed Club

A campus constantly growing sees many additions in the course of a year. One of these additions is the newly formed and growing organization known as the Co-Ed Club. This new addition to Clemson felt that they, too, wanted to help in every way possible to increase the progress of the school. They, the co-eds, decided to unite together in fellowship in order that they might encourage the further development of co-education at Clemson and at the same time contribute to the betterment of Clemson College.

They felt that they, working together instead of as individuals, could accomplish something for the good of the school. The co-eds, although in the minority, feel that they can play an important part in the development and progress of Clemson College.
Phi Eta Sigma

First introduced at the University of Illinois in 1923, Phi Eta Sigma was founded as an honor society for freshman males only. The Clemson Chapter was instituted in 1940 and since that time has become the highest scholastic honor a freshman can achieve.

All freshmen who maintain a grade point ratio of 3.5 for their first semester or a cumulative grade point ratio of 3.5 for their first two semesters are eligible to become members.

Phi Eta Sigma gives an award to the senior who graduates with the highest grade point ratio and a competitive award in mathematics.
Phi Psi

This, the first Greek letter fraternity on the Clemson Campus, was established as the Iota Chapter of Phi Psi in April of 1927. The original chapter of this National textile honorary fraternity was founded at the Philadelphia Textile School in 1903. It now has many alumni divisions as well as student chapters throughout the nation.

Members of this organization are constantly urged to raise the scholastic standing of the School of Textiles. The basis for its organization is the bond of mutual professional interest between the students and the members in the business world. Phi Psi more than provides the spirit of unity and understanding which is so necessary to the students.
Snap, crackle, and pop!!! Mostly POP!!!
Observe these men closely because they have been chosen to receive the highest honor of the "Engine House"—Tau Beta Pi. This honor does not stamp a guarantee of success on them, but to be pledged to this organization is no temporary mark of distinction and will not fade with the passing years.

Desirable traits of character as well as abilities of leadership must be possessed by a member of this group. In addition to the above, the student must be either a junior or a senior in civil, mechanical, or electrical engineering and must be in the upper fourth of his class, scholastically speaking. A large quantity of native intelligence, inherent ability, and just plain hard work are prerequisites to membership in this national honorary fraternity.
The highest honorary fraternity for agriculture students on the campus, Alpha Zeta, is a national organization whose members are selected from students "of high scholarship on the basis of character, leadership, and personality." To be eligible for membership, a specified grade point ratio must be maintained for four semesters at Clemson.

The purpose of Alpha Zeta shall be: (a) To foster high standards of scholarship, character, leadership, and a spirit of fellowship among all its members; (b) to strive for breadth of vision, unity of section, and accomplishment of ideals; (c) to render service to the students and to agricultural divisions of the respective institutions; (d) to promote the profession of agriculture.

Each year Alpha Zeta presents an award to the sophomore having the highest scholastic record while majoring in the School of Agriculture.
Minaret Fraternity

The purpose of the Minaret Fraternity is three fold: (1) To render services to the Clemson Department of Architecture in its capacity as a form of leaders of the department; (2) to form a closer bond between the scholastic classes of the Department of Architecture by bringing together a congenial group of students from its second, third, fourth, and fifth year classes; (3) to recognize outstanding scholastic work combined with personal ideals commensurate with those of the Minaret Fraternity in students of the Department of Architecture.

The fraternity was first begun with the idea in mind to give the architectural undergraduates a common ground on which to exchange ideas of their profession.
Sigma Tau Epsilon

Sigma Tau Epsilon, the honor fraternity of the School of Arts and Science, has, since it was founded, greatly increased its membership. This fraternity was founded with the purpose in mind to promote high standards of scholarship, character, and a spirit of fellowship among those students majoring in Arts and Science, Industrial Management, Education, Industrial Education, Chemistry and Pre-Medicine.

Each spring on Scholarship Recognition Day an award is presented to the sophomore in the School of Arts and Science who has maintained the highest grade point ration. Along with this award goes an invitation of free membership into the Sigma Tau Epsilon fraternity.
The Sabre Air Command, in its first year at Clemson College, is a national honorary society for basic Air Force ROTC cadets. This charter was taken as men realized that there was a need for an organization which would better prepare the freshman and sophomore Air Force ROTC cadets for their advanced training. It was designed to increase the member's knowledge of the mission and scope of the United States Air Force, promote American citizenship, and to create a close bond of esprit de corps among its members.

Since the disbanding of the Cadet Corps, the freshmen and sophomores have not had anything to bind them together in fellowship and work and this organization is certainly a great opportunity for doing such a chore.
PROFESSIONAL
Due to the rapid growth in the engineering field of chemistry the American Institute of Chemical Engineers was recently founded. The purpose of this organization is to encourage fellowship among the members and to present the practical aspects of the profession to them.

Members are chosen from the upper three classes of students majoring in Chemical Engineering. All who are interested are invited to join this organization.

Club meetings are held by the students who present programs on the practical applications of the Chemical Engineering field.
The American Institute of Electrical Engineers and Institute of Radio Engineers is a professional fraternity composed of juniors and seniors majoring in the field of electrical engineering. It has as its objects, the advancement of the theory and practice of electrical engineering and of the allied arts and sciences, the maintenance of high professional standing among its members, and the development of the individual engineer.

The local chapter offers to the student of electrical engineering the opportunity to increase his knowledge of his chosen profession outside of the classroom by the presentation of speakers, by demonstrations, by research and presentations by the students themselves.
Who says this thing can't add?!!!
A. S. A. E.

To become a member of the American Society of Agricultural Engineering requires that the student be a member of the Sophomore, Junior or Senior class majoring in Agricultural Engineering.

Members of the A.S.A.E. adopted a policy of promoting the interests of students in Agricultural Engineering and to create an understanding and fellowship between the students of the top three classes and the faculty members. At the meetings, many problems that arise in the field of Agricultural Engineering are discussed and through these discussions much valuable information is received.

Club activities include various field trips, banquets and suppers, Agricultural and Engineering Fair participation, and projects which are sponsored by the American Society of Agricultural Engineering.
You know this won't work; the power's not on.
A. S. C. E.

On November 28, 1949, the Clemson Student Branch of the American Ceramic Society received its charter that had been long awaited by the “Country Gentlemen” majoring in Ceramic Engineering. These men felt a need for such an organization as they knew that there should be some type organization to promote fellowship among its members. They also felt that the men majoring in Ceramic Engineering should be more fully recognized and by the formation of this club they would aid in the advancement of Ceramic Engineering here at Clemson College.

During the year the club has many activities which consists of a student speaking contest, and attending various sectional conventions. The club presents two awards each year. One is the Ferro Award—a $500.00 presentation and a $75.00 award to the winner of the student speaking contest.
A. S. Civil E.

By giving its members an opportunity to exchange ideas and make personal contacts, the American Society of Civil Engineers presents the engineer with an idea of what to expect in that particular field upon graduation.

The purpose of the organization is to promote higher professional standing among its members, the advancement of engineering and architectural facts and to encourage fellowship and cooperation among its members.

Members are selected from students in the upper three classes, who are majoring in Civil Engineering and who possess a satisfactory grade point ratio, personality, and character.
Members enrolled in the American Society of Mechanical Engineers are juniors and seniors whose major course of study is Mechanical Engineering. The A. S. M. E. was first organized at Clemson with the purpose of binding together student engineers who meet the standard requirements of scholarship, personality, and character. This organization strives to present the practical side of the profession to the potential engineer. The meetings are an aid in developing initiative and ability to express his ideas.

The A. S. M. E. meets twice monthly to enjoy the best speakers, demonstrations, and lectures that the field of mechanical engineering can produce.
And the wheels begin to turn.
Block and Bridle

The primary goal of the Block and Bridle Club is to promote and encourage interest in livestock breeding, feeding, and management in the field of Animal Husbandry.

The club is planning one of the biggest and most exciting years for the school year of 1956-1957. For the first time the club is planning to put on a unique livestock show called the Clemson Little International. This show will come in the spring and will include many contests where several awards will be presented. Every year the club puts on at least one barbecue, the most important one being the one held at the annual intra-squad football game.

The climax of the year comes with the annual banquet which is held in the Clemson House. At this banquet an address is given by a guest speaker and awards are presented to outstanding club members. A plaque is given to the outstanding senior in the club.
So goes the way of all flesh.
This professional society was founded to further the interest in Textile Engineering, Textile Chemistry, and Textile Manufacturing and to spark new interest in all phases of textiles.

This year, as has been the custom in past years, many prominent textile leaders came to Clemson to lecture. The members always welcome a guest speaker as they know that many valuable words from an experienced man will prove helpful in the years to come.

Again this year the N. T. M. S. had their annual sock sale at which time members of the organization went throughout the dormitory offering named-brand socks to the students at a great reduction.

New members are formally accepted into the club at a supper given in early spring by the new members for the old members.
No, Dave. The movie isn't on Sex!!!
Vets Club

As a comparatively new organization on the campus, the Veterans' Club is quite active. The only limitation to membership is that members must be veterans and students at Clemson College. The primary purpose of this organization is to promote the social and cultural welfare of its members. It also strives to better the student-faculty relationship. At the beginning of each new semester the club strives to aid the incoming veterans in their transition from service to college life. The club sponsors dances, parties, and other forms of social entertainment for its members and occasionally has guest speakers at its meetings. One recent community service performed by the members was the construction of two well-equipped playgrounds for the children of the community.
Agricultural Economics Club

For those students who have chosen Agricultural Economics as their field of study, a special club—the Agricultural Economics Club was formed. This small but progressive organization has as its primary purpose the creation and promotion of fellowship among majors of Agricultural Economics and Economics and the respective departmental staffs.

Other important purposes are to study current agricultural and economic problems, to obtain a better understanding of the services the Agricultural Economists can render, and to provide opportunities for better acquaintance among members and professional workers in the Agricultural social sciences.

Membership in this select group is actively sought by majors in Agricultural Economics and the bid to join is eagerly accepted.
A. I. A.

Originally the student chapter of the American Institute of Architects was formed for the purpose of an exchange of ideas among its members upon a common ground, but the club's concerns and interests have advanced considerably.

This organization, unique in that it is sponsored by a parent group, the American Institute of Architects, is also a welcome outlet for social growth. Intermission parties, smokers, and drop-ins are held frequently and allow the architect to develop socially.

The sponsorship of exhibits, attendance at informative lectures, and demonstrations in the field of architecture are also vital parts of club activity.
The future of any nation depends upon its agricultural ability, and to a great extent the future depends upon those who teach future farmers. The student in this field is eligible for membership in Alpha Tau Alpha.

The purpose of this national honorary and professional Agricultural Education fraternity is to establish brotherhood and unity between those who show promise of becoming leaders of tomorrow in their chosen field. Also, to develop a true professional spirit in teaching agriculture and training the teachers to be rural leaders in their communities.
Alpha Psi Omega

For those students with the theater in their blood, Alpha Psi Omega provides that needed link between campus and the legitimate stage. Members read and discuss the latest plays and theatrical events at club meetings.

This organization works in close harmony with the Little Theatre of Clemson. Among the cast and stage crew in a Little Theatre production may be found members of Alpha Psi Omega actively at work and helping to bring good drama to Clemson students.

Projects other than this include participation in the Maid of Cotton production and the presentation and direction of student plays.
The Society of Automotive Engineers

The Society of Automotive Engineers was chartered in May, 1952 as an organization for all engineering students interested in automotive phase of engineering. The organization attempts to provide speakers on technical phases of the automotive field as a service to the students.

Officially, S. A. E. is the technical society for those engaged in the development, design, production, operation and maintenance of passenger cars, aircraft, railroad equipment, and farm machinery, their components, parts and lubricants. The term "automotive" embraces all these areas.

The purpose of S. A. E. is to provide an organization for the professional engineer and the engineering student. It is designed to keep him posted on current automotive trends and policies.
Dairy Club

The Clemson College Dairy Club is a student organization composed of students from all classes who are particularly interested in dairying. Bringing together students mutually interested in topics relative to the dairy industry, this club serves to inspire a livelier interest in academic work.

In addition to this stimulus of interest, this club is beneficial from an educational standpoint. Men who are actively affiliated with this industry meet socially with members of the club and professors provide the necessary overseeing to assure the proper functioning of the organization.
Delta Sigma Nu

Potential dentists and surgeons compose the ranks of Delta Sigma Nu—the Pre-Med Fraternity. The purpose of Delta Sigma Nu is to promote fellowship among pre-med students. The club strives to aid these men by providing helpful advice and discussions in regard to their future entrance into medical school and medicine itself.

Also, a number of field trips are taken annually to various medical schools in order to allow the members to observe the functions of a medical school.

These men hope that by meeting together they will have an opportunity to present problems of their own and possibly help someone solve a problem. These problems may include such things as a choice of school for obtaining a medical degree or in selecting subjects in keeping with medical training.
Future Farmers of America

The Student Branch of the Future Farmers of America was chartered at Clemson in 1937. Its purpose is to train prospective teachers of vocational agriculture in their duties as advisors of local Future Farmers of America chapters. Since grade schools in rural areas encouraged F. F. A. activities, by the time these students reach college, they are well prepared to make worthwhile strides towards a successful organization.

Membership is limited to the upper three classes with a Vocational Agricultural Education major. Because there is such a wide range of competition in the raising of crops and livestock throughout the United States, this organization has a very large membership. These students are learning to teach the farmer how to have better and more productive farms.
The 4-H Club

The Clemson College 4-H Club was organized in May, 1952, in order that the agriculture students and any former 4-H Club members might continue their broad educational development and become more useful citizens, placing emphasis on providing further opportunities for leadership, social, and citizenship development.

These members can help regional clubs by making suggestions to them. The members feel that at times experience has given them knowledge and they in turn help younger people in other 4-H clubs by passing on this to them. Not only do they better themselves but also they help those who will follow after them.
In 1955 a new curriculum was started at Clemson College. A major now could be obtained in the field of Industrial Management and because of this new addition, they desired the formation of an organization that would bind them together in a common cause.

A charter was approved with the purpose in mind that this club would strive to promote fellowship among the members of the Industrial Management School. Further, they would strive to promote additional study and education preparatory to entering the field of Industrial Management.

It was also a strong desire that better relations between the students and the faculty would be achieved by the formation of this organization.
Iota Lambda Sigma

In 1930, a group of Clemson men majoring in Industrial Education felt the need for an organization to aid them in becoming more closely acquainted. It was also founded to aid them in their problems at the moment and the problems they would face in the outside business world.

The club's main aim is to promote Industrial Education in three ways: the recognition of professional training; the recognition of high scholarship; and the creation of a closer bond among the men in this field which encompasses nearly every industry in the country.

Membership is limited to juniors and seniors who have maintained a grade of "B" or better in a portion of their scholastic work and who have shown by their actions as well as their words a constant and demanding interest in the field of endeavor.

Kappa Alpha Sigma

The Kappa Alpha Sigma Chapter was founded in 1937, and is recognized as an official member of the student section of the American Society of Agronomy. Its primary purpose is to maintain the interest of agronomy students by keeping them well informed of the latest developments in agriculture. By establishing a closer relationship between faculty and students, it encourages high professional standing and stimulates interest in the field of agronomy.

Membership is limited to students majoring in Agronomy who show promise of becoming outstanding in their chosen field. Scholarship, character, and personality are taken into consideration in the selection of its members.
Mu Beta Psi

Any student who has served for at least two years in any musical organization such as the Glee Club, Concert and Military Band is eligible for membership in Mu Beta Psi. This club was organized for the purpose of furthering music and musical organizations. It also furthers this interest among non-musical students, for after all, everyone enjoys music. Mu Beta Psi has been of great help to all musical presentations on the campus by furnishing its members as ushers and for other important services.

This exclusive organization has a long and arduous initiation. Initiates must stand and play such selections as “Tiger Rag” and “Dixie” while the members paddle their “tails” in the time honored Clemson manner. The initiates, of course, carry their candy-filled cigar boxes and may be stopped anywhere on the campus to feed the older club members.
The S.N.E.A. is the Student National Educational Association. It was founded on this campus last year to further the interest in education which was thought to be lagging. The club has revived the interest in this all important field. We must remember that we must have teachers in order that we might raise this profession to its lofty ideals and goals. Also let us remember that we as future parents will need and want the help and guidance of these teachers and administrators in bringing-up our children.

The members of the club are chosen from those men and women who show a real interest in this work. These men and women must also exemplify those qualities of good character and personality which best qualify him or her for this noble profession.
The F. N. D. C., Friday Night Dining Club, has emerged as the zenith of debonair and cosmopolitan living. The foremost purpose of this organization is to promote and develop the social, scholastic, and epicurean ideals of its members and pledges, ultimately benefitting our school.

Highlighting the activities of this year was the mass migration of the club in their touring sedan to the annual Carolina-Clemson festivities where the organization undertook the challenge of raising the spirits (?) prior to the Big Thursday game.

New members are elected to the fraternity only by unanimous vote and careful screening.
"Y" Staff

The Y. M. C. A., one of the best known organizations on the campus, has proven to be of great value to Clemson students through the years.

The Staff is headed by General Secretary P. B. Holtzendorff. The intramural program is under the direction of Mr. Roy Cooper and Mr. Nash Gray serves as Assistant Secretary.

The "Y" sponsors dances, provides pool tables, two movies, a swimming pool, ping-pong tables, and two club rooms that are available for club and church meetings.

Indeed the "Y" has earned a well-deserved place on the Clemson campus.
“Y” Cabinet

The “Y” Cabinet is composed of the student leaders of all the church groups on the campus, and the outstanding workers on the “Y” Council. The members work to promote a better understanding among the various faiths, and through their mutual faith to carry out a number of projects promoting inter-church and inter-college cooperation.

Back of all its chores is the reward of Christian fellowship with students of all denominations.
Senior Y. M. C. A. Council

Serving as an integral link between the students of the college and the campus Y.M.C.A. are the Y.M.C.A. councils. Organized to increase Christian fellowship and spiritual growth, the councils are divided into four divisions: Senior, Junior, Sophomore, and Freshman.

The Senior "Y" Council, first to be pictured here, brings together the Seniors on the campus who have a strong interest in furthering the precepts of the Y.M.C.A.
Junior Y. M. C. A. Council

The Junior Y. M. C. A. Council, second in chronological order, is still a strong and functioning organization. Taking no back seat to other councils, this group plans and completes numerous projects which have directly benefited the "Y" and the campus.

Men of the Junior class, as the name implies, comprise the Junior "Y" Council. They meet to exchange ideas and fellowship, and to strengthen their own spiritual lines.
Sophomore
Y. M. C. A. Council

An organization which is constantly on its toes is the Sophomore Y. M. C. A. Council. It is consistently on the lookout for those projects, small, large or medium, which will directly benefit their fellow students.

The Sophomores, who after a year off at school become vitally interested in all phases of college life and activity, find that the "Y" Council is really a fine group to be affiliated with.
Freshman
Y. M. C. A. Council

The bewildering and complex adjustment to a new kind of life barely begins before a chance is offered Freshmen to join the "Y" Council.

This active group brings together freshmen who desire, by exchange of ideas and fellowship, to strengthen their own spiritual life and the lives of others. They strive to serve the members of their class, as well as others, in a Christian manner.
Hey, Jack! What's on downstairs?

Nothing like relaxing, is it?

Peace and quiet.
The Baptist Student Union brings together the many Baptist students at Clemson and fosters in them spiritual growth, thought, and action through a program of Christianity at work.

Members of this organization enjoy the fellowship and brotherhood of close associations in Christian activity. Meetings are held each Wednesday night.

The programs are planned by and for the students, with a goal of spiritual and mature interest in the church.

RALPH H. RAMSEY
President

Rev. Arrington

The Canterbury Club

The first chapter of the National Association of Canterbury Clubs in this country, the Clemson Chapter, is under the supervision of the Reverend Bob Oliveros.

The Episcopal students at Clemson are organized through the Canterbury Club into a Student Parish having their own Junior Warden, Senior Warden, and Vestry. The Student Parish is integrated into the total life of the local church through Parishioners who are mainly faculty members.

Episcopal Church
Hillel-Brandeis Club

The Jewish students on the campus are organized into the Hillel-Brandeis Club which evolved from the Brandeis Club that existed before the war. The club seeks to coordinate the religious, cultural and social activities of the Jewish students at Clemson through various religious devotions and social events throughout the academic year.

Having chapters throughout the country, the Hillel Foundation is located and recognized by the leading campuses of the nation.
Lutheran Student Association

The Lutheran Student Association, affiliated with the Lutheran Student Association of America, is made up of the Lutheran students on the campus. The program is sponsored by the Division of Student Service of the South Carolina Synod. The association attempts to develop fellowship among Clemson's Lutheran students by presenting programs of interest in the form of speakers, informal discussions, and various social functions.

The meetings are held each Wednesday night during the school year at the Clemson Lutheran Church.
Whenever Catholic students attend a secular college or university they have recognized the need of joining together to deepen the spiritual and enrich the temporal lives of the group through a program of religious, intellectual and social activities, to weld the Catholic students into a common union and to assist the college and all its students whenever possible.

The Newman Club was organized to accomplish these ends and is under the guidance of a Chaplain appointed by the Bishop in whose diocese the college is located.
P. S. A.

The Presbyterian Student Association is a church club known to its members as P. S. A. It meets in its clubroom in the Fort Hill Presbyterian Church every Wednesday night during the regular school year.

The purpose of this organization is to further the aims of the Christian faith and to bond together Presbyterian students in faith and worship while they attend Clemson College.

The faculty advisor for P. S. A. is Professor Ben Goodale, known to the boys as "Big Ben". He has been a faithful attendant as P. S. A. for twenty years.
Wesley Foundation

The Wesley Foundation is the organization set up by the Methodist Church for students in the state-supported colleges throughout the nation. The purpose of the Clemson Wesley Foundation is to assist Clemson students in developing a well-rounded Christian life and offering opportunities for worship, work, play, fellowship, and study.

The Wesley Foundation does not try to monopolize the time of the students nor to make religious fanatics of them, but to help them develop physically, spiritually, socially, intellectually, and morally.
Beta Sigma Chi

Beta Sigma Chi has been one of Clemson's most outstanding local social fraternities since its organization in 1933. Members are selected from students who live in a fifty-mile radius of Charleston.

The purpose of the "Geechie Club" is to develop a closer contact between the men of the Charleston area through social and fraternal gatherings and by working together in social and civil projects for the betterment of the college and community.

Each year the club sponsors competitive examinations in the Charleston County Schools, the winner of which is awarded a partial scholarship.

Beta Sigma Chi offers social entertainment for its members in the form of an Annual Christmas Dance, as well as many other social gatherings during the holidays.
Delta Kappa Kappa

Another active regional organization on the Clemson College Campus is Delta Kappa Kappa, organized in 1955 with a charter membership of fourteen.

The purpose of this club is to bring together socially the Clemson students from Dorchester County and to promote the interests of Clemson in Dorchester County.

Delta Kappa Kappa is another of the many organizations on the Clemson Campus that serves dual purposes. Besides constantly striving to better the college, it promotes good will and unity among the students which is typical of Clemson men.

MAYRANT SIMONS
President
Horry County Club

The Horry County Club has been one of Clemson's most outstanding local social clubs since it was organized here at Clemson. The members are selected entirely from students at Clemson, who live in Horry County.

The club's activities consist of programs, parties and various other forms of entertainment for the purpose of aiding Clemson students from Horry County in becoming better acquainted with Clemson.

The club is now concerned with a project to establish a grant-in-aid scholarship for some worthy Horry County boy who desires to attend Clemson and needs financial aid. Funds for this scholarship are expected to come from donations by old grads and other Clemson fans who are interested in the club.
Homecoming Display Winner

Homecoming this year was marked by the first Homecoming Display contest ever held on this campus. In the days of the military, the companies competed against one another; but now, since the college is in its transition period between military and civilian college life, the different clubs vie for this honor. This contest is held to promote keener competition between these clubs. It is also held to promote interest in homecoming activities and programs.

The winner of this contest is feted all over the campus. Honor is theirs, and they also receive many gifts and prizes. Among these prizes are the honor of displaying their float on Bowman Field, a full page of their float and club in the Clemson Yearbook, "The Taps", and dance tickets to the Homecoming Ball.

The Nu Epsilon Club won this annual event this year.
ADVERTISING
The Duke Power Company still values among its customers many who were served in 1904. During fifty-one years of service, a strong tradition has grown up within the Company:

To be ready with Power before it is needed. To back Electric Service with such efficient production that you will continue to pay less for it than any other necessity in your budget.

Duke Power Company
Serving the Piedmont Carolinas
looking ahead...

Big things are ahead for those who will take advantage of the many opportunities offered by our great country today!

It is our sincere hope that each and every one in your class will lead healthy, prosperous and worthwhile lives—using your education to make your community and America an even better place in which to work, play and live.

Congratulations!

Architect's sketch of the huge new steam electric generating station now under construction at Saluda Dam on Lake Murray, the company's big hydro-electric reservoir.

Still MORE Power for South Carolina's Progress

Construction on McMeekin Station at Saluda Dam had hardly begun when it was announced that the capability of the initial installation would be doubled—a second 137,500 kw. was ordered—both to be completed in 1958. Here is ample proof that this company has infinite faith in the progress and growth of South Carolina and the 23-county area it serves. Building years ahead of demand has always been the policy here at SCEGCO.

Lowenstein is approaching its third decade in the South—nearly 30 years of partnership that has borne fruit for both Lowenstein and the South.

Today, in this rich and growing Southland, Lowenstein operates twenty thriving plants, including the world's largest, most modern finishing plant. In the past few years alone, Lowenstein has added eight new mills to its continually expanding operation in the South. And, as Lowenstein has grown, it has added to the South's prosperity—in the form of millions of dollars in wages and taxes.

But we are not resting on our laurels. We are continuing to build for a better future in the South—for more and better jobs—more and better fabrics for our customers the world over. We are firmly convinced that the future will be even brighter than the past.

HOW ARE YOU THINKING ABOUT YOUR FUTURE?

If you have overlooked the Textile Industry in your career thinking, think again. In South Carolina alone it is estimated that the Industry will need several thousand college trained men in the next ten years. Like others in this great industry we are interested in discussing the matter with outstanding young men, especially those who have had training in textiles.
