College is the culmination of formal schooling and a vital preparation for an active and fuller life. It is those eventful years of shaping and molding in preparation for the future. Within the framework of collegiate discipline and curricula, the student is taught to channelize activity and thoughts; is introduced to possibilities; and is confronted with situations which demand and receive solutions. College is highly creative and demanding—creative in the cultivation, enrichment, and growth of the student mind and demanding in the discipline of process, technique, and method. It is the time of giving full license to the imagination and thought—if not always practical and realistic—is at least daring, bold, and inventive. It is a laboratory for education, a sure stepping stone in the search for knowledge.

College is more than this, however. Times of social contact and formation of lasting, strong friendships thrive. Coupled with the student's knowledge of the world must be a social awareness of the individual. He learns to appreciate a man for what he is. Understanding and a spirit—indeed, a willingness—of cooperation grows.

To create such a fertile ground which can bring forth the necessary results depends upon an open-minded, progressive administration ever alert to changing trends. How alert they are and how efficiently and wisely they run the school is reflected in its growth, and in the caliber of its students. They find the ways and means to run the college. Not at all subordinate—perhaps more predominant as it needs to be—is the faculty. Inspiration, guidance, direction, and development of the student in the quest for knowledge is their capably fulfilled duty. They cultivate a zeal which continues to increase instead of lessening.

This is the college.
Headquarters of C. A. C.

In this building lies the spirit of Clemson.
New Clemson rises from the snow.

The white blanket covers Clemson.
The Board of Trustees is the governing body of the College as provided in the Thomas G. Clemson Will. It is composed of leading business men from throughout the state who give freely of their valuable time. Their experience and vision builds a better Clemson.

The Board consists of seven lifetime members and six members selected by the General Assembly of South Carolina for four-year terms. One of the seven lifetime members serves as President of the Board.

This governing body sets general policy of the College, approves the courses of study and expenditure of funds, and directs the details of executive action through the President of the institution.

**Board of Trustees**

**ELECTED MEMBERS**

T. WILBUR THORNHILL  ROBERT S. CAMPBELL  J. F. McLaurin

ROBERT STODDARD  W. A. BARNETTE
In his eighteen years as president of Clemson College, Dr. Poole has brought with him an unprecedented rate of progress which has changed the campus. New building and dormitories have risen as the old fell. Dr. Poole is an excellent educator, a firm but fair administrator, and above all, a man genuinely dedicated to the job of guiding Clemson to future greatness. Always there when his presence would mean something to the students, Dr. Poole has shown his never-faltering desire to attain his original goal. Great strides have been made in his administration which show that Clemson is headed straight for the fulfillment of his ardent dreams.

Dr. Poole received his B.S. degree from Clemson. He acquired his M.S. and Ph.D. degrees in 1921 at Rutgers. President Poole received an LL.D. from the University of South Carolina in 1942 and in 1950 Furman conferred upon him the honorary degree of Litt.D.

The competent, guiding hands of the President, a man who has given his life to the education of Clemson men, assure students, alumni, and faculty that a constantly growing, improving Clemson will emerge.
Administration

M. A. Wilson
Comptroller

K. N. Vickery
Registrar

G. E. Metz
Assistant to the President

R. C. Edwards
Vice-President for Development
Administration

JOE SHERMAN
Director of Public and Alumni Relations

D. C. HUGHES
Director of Student Aid and Placement

WALTER CON
Dean of Students

J. R. COOPER
Director of Student Center
Administration

J. W. C. Courlay
Director of Library

Dr. J. E. Hair
Director of Student Health Center

H. W. Rimmer
Dormitory Director

Mrs. M. H. Cole
Hostess of the Student Lounge
Dean of Schools

Aside from his numerous activities, Dr. F. M. Kinard, Dean of Schools, finds time to become a friend of the students, devoting much time to their interests. Dr. Kinard received his A.B. from Wofford in 1923, his M.A. from the University of North Carolina in 1929, and his Litt.D. from Wofford in 1944.

Dr. Kinard is the chief educational officer and has the responsibility of solving problems having an educational bearing. He is dean of the five schools and of the graduate students, connected with the library, responsible for the maintenance of the academic standards, and continually reviews the educational facilities of Clemson.

Dr. Kinard's aid to the deans of Clemson Schools and to the different faculty members of these various departments has proven invaluable. His services as advisor have been proven indispensable to this school and are definite assets to all here at Clemson.
School of Agriculture

The School of Agriculture, under the capable leadership of Dr. M. D. Farrar, claims a good portion of the student body and is recognized as one of the foremost in the nation.

The study of agriculture is no longer confined to the raising of crops. The modern agriculturist must learn everything from "Bugology" to mechanical engineering. Clemson provides extensive courses in agricultural engineering, animal husbandry, agronomy, agricultural economics, botany, dairying, entomology, horticulture, and poultry.

All is not limited to the classroom. In the afternoons, groups of the students may be seen engaging in the science of spraying trees and grafting. Spaced throughout the semester are occasional field trips. These provide instruction in its most appealing form.

The ever expanding field of agriculture presents a challenge to the teacher, to the men in research, and to the student.
School of Arts and Science

The School of Arts and Science began in 1889 as an answer to the need for liberal education for college students. It attempts to give the student an opportunity to concentrate in certain fields that may be helpful in laying foundations for various professional pursuits. In its curriculum are found those subjects which have for centuries been regarded as embodying the best cultural traditions of the western world—a study of foreign languages and English, mathematics, natural and social sciences, history and politics.

With Dr. H. L. Hunter as the guiding light, so to speak, this school which furnishes the basic nucleus for any educational process has constantly striven to improve the quality of its education and to equip each student with the fundamental tools of knowledge and culture in order that he may take his place in society as a competent and independent citizen.
Every aspiring engineer here at Clemson knows and respects the man heading his department, Dean J. H. Sams. Dr. Sams received a B.S. from Clemson in 1924, his E.E. from Cornell in 1926, his M.S. and Ph.D. from Michigan in 1931 and 1937, respectively.

Commanding one of the largest and most important schools on the campus, Dean Sams has striven and has succeeded in his attempts to raise the standing and influence of his department.

Engineering has become an integrated part and is the very basis of practically every specialized field at Clemson, making this particular school not only important but also necessary to most students in their preparation for future work.

Physics, statics, kinetics, and strength are just a few of the courses offered. These and many more become the foundation upon which the men of today are building and shaping their futures as engineers.

To many, Dean Sams is an advisor, helping whenever needed and inspiring students to greater heights of responsibility and achievement.

The alert, progressive attitude of the engineering department will be seen in the new structural science complex stated for completion in 1958.
School of Textiles

Wheels turn, gears gnash and another yard of fine cotton cloth or wool material comes from the looms. The leadership of the Textile department here at Clemson lies in the capable hands of their dean, Gaston Gage who obtained a B.S. from Clemson College in 1921 and an M.Ed from Penn. State University in 1941. His able direction makes the department one of the most modern and expansive in the country. But even with his busy schedule, the dean still has time to give fatherly advice to all who need or require it.

Change is the watch word in this all important field. The industry must change from the natural to the synthetic fiber. New machines and principles must be be incorporated into the physical plant. Dean Gage has done an excellent job during this transition period.

Research is an integral part of any field of endeavor today. This statement is especially true of Textiles. The Textile Department of Clemson College is and always has been, one of the most far sighted research departments in the nation. Dean Gage has expanded the research facilities of his department and furthered the cause of futuristic advancement. All in all, Clemson’s Textile Department is in good hands. Dean Gage is fully cognizant of the new advancements, equipment, and methods of the Textile field and is leading his department to new and greater achievements.
Education is a cumulative thing; a sum-total of influence and situations. It can not be accomplished in the too short years of a college career; in fact, the search for knowledge is not ended in the span of a lifetime. Education is a continuous process built stepping-stone on stone of which one of the firmest and surest is a college education. To endow the inquisitive mind with the preparations necessary to fashion a future in accord with pre-determined plans is the vital function of formal schooling.

The rallying ground and the center of forms for all students regardless of school, is classroom instructions. However, the quest for knowledge is not confined and takes on many forms. The earnest student becomes proficient in the use of the tools of his particular trade. Additionally he acquaints himself with the intangibles, the human element with which he must always be concerned in the performance of his duty.

There is the increasing danger of overspecialization and narrow-mindedness of outlook. To avoid this pitfall, man must be equipped to assert his personal beliefs and convictions. Through them he retains his individuality and remains, through conscious and vigorous effort, a man in the truest sense of the word. To do this, he must first acquire a background of information and education which is necessary to defend these convictions and the spirit of inquiry which leaves the mind free to accept or reject dogma or authority stated too positively. Thus the most effective means to acquire an education is personal determination to accomplish it and only to the degree that he seeks this integral ingredient of life will the resultant rewards take form.
Sleeping.

Studying in class.

Studying in the lounge.
Being named to Who's Who is now widely recognized as a stellar collegiate honor. The twenty-nine seniors and three juniors, named this year, have demonstrated their ability to administer, facilitate, and spearhead all phases of student activity. In short, this group accepts responsibility and fulfills their duty.

These students are selected by faculty members whose duty it is to review the merits of the candidates. They are chosen on the basis of their excellence and sincerity in scholarship, leadership, and participation in extracurricular and academic activities, citizenship and service to the college and promise of future usefulness to business and society.

T. C. ANDERSON, a civil engineering major from Greenwood, is vice-president of the junior class, and a member of Taps and Tiger staffs, Tiger Band Color Guard, Numerical Society, and Gamma Alpha Mu.

J. B. BLANDFORD, JR., a ceramic engineering major from Greenville, is vice-president of the study body, president of the Blue Key, and a member of Tiger Brotherhood, Executive Sergeants, Phi Kappa Phi, and Phi Eta Sigma.

H. E. BOLICK, III, an electrical engineering major from Kinards, is a member of National Student Association, Glee Club, Tiger Band, Pershing Rifles, Council of Club Presidents, and Executive Sergeants.

J. D. BRAID, a mechanical engineering major from Charleston, is a member of the Senior Council, Blue Key, Tiger Brotherhood, Pershing Rifles, Executive Sergeant, and Council of Club Presidents.

C. M. BRANCH, an English major from Chesterfield, is a member of the Student Legislature, Council of Club Presidents, Sigma Tau Epsilon, and Phi Eta Sigma.

J. J. BRITTON, a pre-medicine major from Sumter, is president of the student body, and a member of Blue Key, Tiger Brotherhood, Scabbard and Blade, Executive Sergeants, and is a cheerleader.

J. P. CLEMENT, a civil engineering major from Charleston, is a high honor student, and a member of Blue Key, Tiger Brotherhood, Senior Council, and Phi Kappa Phi.

L. N. CONNOR, a mechanical engineering major from Barnwell, is vice-president of the Y. M. C. A., and a member of Scabbard and Blade, Executive Sergeants, Phi Eta Sigma, and Phi Kappa Phi.

H. F. COOPER, a mechanical engineering major from North Augusta, is a member of Blue Key, Tiger Brotherhood, Pershing Rifles, Tan Beta Pi, and Phi Eta Sigma.

W. W. FREED, a textile engineering major from Aiken, is managing editor of Bobbin and Beaker, and a member of Phi Eta Sigma, and Council of Club Presidents.

J. A. GALLOWAY, an electrical engineering major from Georgetown, is a Distinguished Military Student, and a member of Executive Sergeants, Tan Beta Pi, and Phi Eta Sigma.

D. G. GALLUP, an education major from Sumter, is sports editor of the Taps, and a member of Senior Council, State Student Legislature, Phi Eta Sigma, Phi Kappa Phi, and Kappa Phi Kappa.

A. L. HABRELL, III, a mechanical engineering major from Florence, is president of A.S.M.E., and a member of Phi Eta Sigma, Veterans Club, and the Council of Club Presidents.

R. H. HERRON, an agricultural engineering major from Starr, is a member of Blue Key, Tiger Brotherhood, Scabbard and Blade, Executive Sergeants, and the Council of Club Presidents.

T. E. HUTCHINSON, a physics major from Rock Hill, passed editor of the Tiger, and a member of Senior Council, State Student Legislature, and the Council of Club Presidents.
W. G. JOHNSON, an industrial management major from Wilkesboro, N. C., is business manager of the Tiger, and a member of the Veterans Club, and Gamma Alpha Mu.

C. B. MANNING, an electrical engineering major from Abbeville, is editor of the "Mirror," and a member of the Senior Council, Tau Beta Pi, Phi Eta Sigma, and Senior "Y" Council.

W. M. MANNING, a chemical engineering major from Chio, is vice-president of the Senior Class, a member of the Senior Council, Executive Sergeants, Blue Key, Tiger Brotherhood, and Tiger Staff.

B. D. MITCHELL, an architecture major from Greenville, is a member of the Senior Platoon, Minarets, and was selected most outstanding senior in architecture.

L. W. MOORE, a dairy major from Bradley, is a member of the Tiger Brotherhood, Scabbard and Blade, Executive Sergeants, and the Council of Club Presidents.

J. A. NEAL, an architecture major from Greenville, is treasurer of the Senior Class, a member of the Blue Key, Tiger Brotherhood, and A. I. A.

G. W. POWELL, a dairy major from Williston, is president of the Dairy Club, and a member of the Agrarian Staff, and Alpha Zeta.

J. D. ROGERS, an architecture major from Easley, is president of the Minarets, and a member of Blue Key, Student Assembly, Phi Kappa Phi, and Gamma Alpha Mu.

M. SIMONS, JR., an industrial physics major from Summerville, is a high honor student, and a member of Blue Key, Tiger Brotherhood, Scabbard and Blade, Executive Sergeants, and Phi Eta Sigma.

J. L. SINCLAIR, an electrical engineering major from Camden, is a member of the Student Assembly, Band, Glee Club, Pershing Rifles, Senior Platoon, and Scabbard and Blade.

J. F. SMOAK, JR., a ceramic engineering major from Columbia, is head cheerleader, and a member of Blue Key, Tiger Brotherhood, and Senior Council.

C. S. SPENCER, JR., an arts and science major from Glen Alpine, N. C., is editor of the Tiger, and a member of Pershing Rifles, Y. M. C. A. Council, and Phi Eta Sigma.

G. E. STEMBRIDGE, a horticulture major from Ellijay, Ga., is a high honor student, editor of the "Agrarian," and a member of Student Assembly, Alpha Zeta, and Phi Eta Sigma.

G. S. SWEET, JR., an electrical engineering major from Charlotte, N. C., is president of the Senior Council, and member of Blue Key, Executive Sergeants, and Y. M. C. A. Council.

W. P. THOMASON, an electrical engineering major from Laurens, is president of the senior class, and a member of Blue Key, Tiger Brotherhood, Scabbard and Blade, and Executive Sergeants.

O. TROTTER, JR., an industrial management major from Pickens, is president of the Mace, and a member of the Blue Key, Scabbard and Blade, Sigma Tau Epsilon.

D. H. TURNER, an electrical engineering major from Blacksburg, is a member of Scabbard and Blade, Y. M. C. A. Council, and Tau Beta Pi.
Executive Committee

Serving in the capacity of coordinating agency for the student body is the Executive Committee which, combined with the judicial and legislative phases, heads up the student government at Clemson. This group is composed of the president, vice-president, and secretary of the student body along with the presidents of the four classes. The committee rules over all student activities and directs the policies of the student government.

J. J. as president had more than one problem as it was often difficult to convince Clemson men that it would not be proper to declare war against Carolina or to paint Carolina’s stadium orange.

Chairman of the Ways and Means Committee, J. S. Whisonant; Campus Coordinator of N. S. A., J. S. Fox and Chairman of the Election Committee, W. W. Stover map strategy for the various small but essential details which crop up continually in the efficient running of student government. Working in close contact with the Executive Committee these three are a valuable aid in expediting any unexpected business.
Student Assembly

Representatives from all four classes plus a selected delegation from the Council of Club Presidents provide for the personnel in the Student Assembly, the legislative department of the student government.

This assemblage is responsible in the main for drawing up the laws and statutes that govern the student body. Meeting at regular intervals, these representatives consider all potentialities that would tend to make student life at Clemson more favorable. The entire student body is polled in some instances before policies are recommended. This aggregate is largely responsible for the ever-increasing interest demonstrated at the polls each year during school elections.

L. W. MOORE
Chairman

Student Assembly.
Senior Council

The judicial agency of Clemson's tri-branch student government is a nine-man team of seniors whose duty it is to administer disciplinary action unto those students who have been charged with a misdemeanor or breach in the regulations of the college. The council is composed of seven members who are elected by the vote of the student body plus two ex-officio members, the vice-president of the senior class and the highest ranking officer in R.O.T.C.

The constituents of this important and essential organization are liable for duty at any time, regardless of other conflicting engagements. It is their job to recommend penalty for any student who has not adhered to certain basic rules or who have brought discredit to the institution.

"The Youth of America!"

Don't worry, Tom, you'll be all right.
"Baby Whale" and boys decorate the homecoming float.

A few inspiring words by the "Good Gator".

The "spastic" tries again!

</tbody>
</table>
"Ruby" Yeary and two of his unidentified fans bring out their artistic abilities on three lowly rats.

"Little fellar" and Eddie act their age.

Pety was the unknown culprit!
"O'er the mountain . . ."

Frank is real gone over "Elvis" Dixon's new hit.

It just couldn't cost that much, could it?

"I want to go home."

How about Saturday morning, 9:00 to 12:00?
Social life, too, is an integral part of campus life. Classes, activities, athletics call for much time and effort; it is in social activity that the student finds relaxing, entertaining, and creative diversions. Annually Clemson has five big dance weekends when having a grand time in an effortless manner becomes the rule rather than the exception. Top orchestras create the perfect mood for the big dances and the weekend of frenzied partying which always goes hand in hand. On a typical night can be seen a debonair group of stags, the dreamy couple lost in themselves, a bubbling circle of friends as they recall old times and plan newer and better times, the swaying lift of a grand march. And so it goes, on and on into the night, the fabulous, unique dances of Clemson.

Another welcome addition is the theatre in the quise of community concerts. Outstanding artists, representatives of the best in their field, regularly appear and spread the joy and wonder of the theater in all its forms. The dramatic arts claim their share of attention. Students participate in and avidly support local productions and realize the thrill of creating and entertaining. The world of illusion after so close to reality—indeed springing from it—opens up new horizons. Fertile imagination coupled with hard work yields spellbinding results.

Those recurring highlights of the year which are a joint effort of the student body deserve a spotlight. Homecoming, Tigerama, and the like display a true and real spirit evidenced in the willing cooperation of diligent workers.

All of these are features of campus life: dances, concerts, lectures, theater, band, activity.
The Friday Night Dance.

The houseparty in the mountains.
The Saturday Night Dance.

It's all over.

Taking a break at the dance.
MISS TAPS, 1958
Miss Cecelia Ann Colvert

The 1958 Taps Staff proudly presents Miss Cecelia Ann Colvert, Miss Taps for 1957-1958. A sophomore at Columbia College, majoring in Elementary Education, Cecelia's home is in Greenwood, South Carolina.

Several weeks before Homecoming weekend each campus organization selects a young lady to represent them at the Homecoming Ball. Before intermission at the Friday night dance a contest is held to select seven girls from the lovely array of over fifty to be featured in the beauty section of Taps.

This was indeed a very difficult task for the judges, Neil Gillespie, J. F. McLaurin, and Bill Burton, to undertake, but after a long period of discussion and deliberation, they finally announced their choices. Realizing the difficult job of choosing these seven girls, one can only imagine the immense task facing those who had to choose only one to be Miss Taps.
Mrs. Taps, 1958

Mrs. Kappy Jordan

Mrs. Kappy Jordan has been chosen by the 1958 Taps Staff to be featured as Mrs. Taps. Since there is a large number of married students attending Clemson, the staff felt that they should be represented in the yearbook.

Kappy was married to "Whitey" Jordan in June of 1955 at Florence. They have a daughter, Kim, and reside in Apartment 46 of the "New Brick Apartments." Kappy is secretary to the Band Director of the College.

Kappy is what one would call a typical student wife. Her job is a very special and difficult one, helping her husband to obtain an education and, above all, understanding his problems. For four years every college wife must perform these difficult tasks and we are sure that everyone will indeed agree that they have done a magnificent job.

Central Dance Association

The brass section blares forth and the crowd roars—the dance is a success. This is the prime motive of the Central Dance Association. Great dances are a tradition at Clemson and this year’s C. D. A.’s presentations are no exception.

C. D. A. is a non-profit organization; set up solely to promote the social activities of the students.

Senior C. D. A. is composed of eight members chosen from the junior staff of the previous year. These, then, are the men who bear the full responsibility for putting on Clemson dances. They must bear the full load of headaches, labor, and anxieties—their’s the glory when things go well. They, of course, deserve all of this praise. They must be men of high integrity and character. They must do a job right the first time, for there is no room for mistake.

C. D. A., we salute you, and now—on with the dance.
The 1958 C. D. A. Staff.
The Junior C.D.A. staff is composed of sixteen hand-picked members of the Junior Class. Eight of these Junior members were picked by last year's Senior C.D.A. staff, and the remaining eight were picked by the present Senior staff. Near the end of the current school year, eight of these present Junior staff members will be chosen to serve as next year's Senior staff.

The purpose of the Junior staff is to aid the Senior staff in making every Clemson dance a most enjoyable and successful event. Each Junior member gives his full cooperation in working with one of the various committees headed by a Senior member, and these committees, consisting of all the members of the C.D.A. staff, must function as a team in order to make each dance a success.
Neely and Erwin watch Lucas finish up a sign.

The Junior C. D. A. boys at work.
Rat Hop

After several weeks, the "Rat" has learned much about Clemson. Just about the only thing left to be experienced is one of the incomparable dance weekend.

He has been scared half to death by the Professors. How long it seems since he has spent much time with that favorite somebody back home. As if by fate, the Rat Hop draws nearer, and the "Rat" is on the threshold of a wholly new type of social life.

Just imagine! A whole weekend! A football game, starring the Tigertown ten plus one and, at night, music for dancing and dreaming by the Jungaleers, long one of the biggest names in college dance-bands. Who could ask for more?

This year, as always, a Queen was picked from the dates of the "Rats", to reign over the weekends' activities. She was Miss Pattie Roehl from Spartanburg, S. C.
The music has ended but the memories will linger on.

"Yes, I suppose you might say that I am somewhat continental."

A great weekend!!!

"The music will continue after a brief intermission."
Homecoming

Due to Tigerama and the fact that the Tigers finally beat Maryland, Homecoming will be remembered as one of the biggest weekends of the year.

Even though presented for the first time this year, Tigerama was a success, and enjoyed by everyone. Immediately following was a dance, one of the most-waited-for in years; since Stan Kenton was supplying the music. The mere mention of his name dispenses with the need of trying to find adjectives to describe him, because he is recognized as one of the greats in his field.

During the course of the evening, Miss Phyllis O’Dell was selected as the Homecoming Queen. Phyllis reigned over the weekend’s activities and was truly a beautiful queen.

On Saturday afternoon, Clemson soundly beat the Terrapins of Maryland. That night the dance was under the direction of Bill Snyder, and his magic piano.

Sunday seemed to come too quickly. The couples sadly said goodbye and closed the curtain on a weekend that will long be remembered by all.

Our Homecoming Queen... Miss Phyllis O'Dell!!!

Kenton and his boys
STAN KENTON

BILL SNYDER

They're judging Tillie, not you, Eddie.

are great for dancing or listening.
For the second year in succession the spring semester was blasted off, only a few weeks after the students returned, by Richard Maltby and his orchestra with featured vocalist Mary Mazza. The C.D.A. went all out in planning and executing this terrific dance. Although it was held during the coldest part of the year, Maltby’s music soon had everyone in high spirits.

The fabulous Maltby Orchestra presented some of the most listenable and danceable music that has ever been presented at Clemson. Everyone was in complete agreement that both the dances and the Saturday afternoon concert were terrific.

Despite an early scare due to the snow, the troops still had their houseparties in the mountains, even though a few “minor” incidents marred the fun. With the return of classes Monday morning, everyone said good-bye to one of the most fabulous dances ever held on the Clemson campus.
And now for the "grubbing".

Does it tickle?

COL. SELLS dances (???)

Give me another shot of cocaine!!!
Spring Dances

During the first two days of spring, one of the most enjoyable dances ever presented at Clemson was held. The Friday night Military Ball featured Clemson’s Jungaleers, who played their own delightful version of very danceable music. The Jungaleers brought to the Military Ball their musical talents which have been heard and enjoyed throughout the South.

The Saturday night Spring Dance featured the nationally famous Gladiolas, here for the first time after appearing at many colleges all over the nation. Again and again they delighted the crowd with their famous renditions of such tunes as "Little Darling," "Run Little Joe," and many others. This was indeed a first for Clemson and a smashing hit for the Gladiolas.

With Sunday came the mournful departure of dates and the campus silently went back to the old grind with only memories of a great weekend remaining.

*The Gladiolas.*
The troops and the Gladiolas "juke" it.

The Honorary Cadet Colonel.

No, my date isn't asleep.
Taps Junior-Senior

Taps Junior-Senior ... one of the most fabulous social events of the year. Though long awaited by everyone, it was half dreaded by the seniors because it marked the last big weekend before graduation and the end of a long college career.

In order to provide the very best entertainment, Lionel Hampton and his orchestra were obtained to play for the dances.

During the course of Friday and Saturday nights and the concert, Hampton thrilled his listeners time after time with his mad rhythm on the drum and vibes. A natural showman, he delighted the crowd with his flashing, flying drum sticks, by dancing on the drum, and by playing the vibraharp with the touch of a master.

After the dances, as always, the couples slowly said goodnight to friends, and went their separate ways. The opportunity was at hand to whisper sweet nothings and try to convince the girls to wait just a little while longer for summer.
How does he do it???

Modern youth's version of the minuet.

Flying home!!!
The Jungaleers

Being one of the smoothest college orchestras in the South, the Jungaleers are recognized as the source of good dance music; slow and easy or fast and hot, whichever the occasion demands.

By promoting good modern music, the reputation of the Jungaleers has spread, until now, one wouldn't be surprised to see them packing the trailer and making preparations to go anywhere in the Carolinas or Georgia for a job.

They play for conventions, banquets, high school Junior-Seniors, other college dances, and annually for their fellow students at the Rat Hop.

The tradition of fine musical talent has brought the Jungaleers to the top and will hold them there for a long time.

The Little Orchestra Society

The Little Orchestra Society of New York, conducted by Thomas Scherman, has long been hailed as one of the most dazzling and original societies in America. For this season Mr. Scherman assembled a special program that will feature a classical concerto for two pianos and orchestra and will be climaxed with a performance of Saint-Saens' "The Carnival of Animals". Appearing with the Little Orchestra Society was Vitya Vronsky and Victor Babin as duo-piano soloists and Faye Emerson as narrator reciting the witty Ogden Nash verses composed especially for the Saint-Saens work. Vronsky and Babin are the reigning duo-pianists of the present day and have long been favorite recitalists and orchestra soloists with the nation's leading symphonies. Faye Emerson has distinguished herself throughout the range of the Lively Arts—notably in the cinema, the theatre, and television. Her rapid rise to fame as television's leading lady is a well-known success story.
Blanche Thebom

Blanche Thebom has reigned as one of opera's brightest and most versatile stars since, as an unknown young singer, she created a sensation with a history-making debut in the 1944-45 Metropolitan Opera season. Miss Thebom, born in Pennsylvania, brought up in Ohio, and educated in New York City, is also that rarity among operatic prima donnas—an accomplished concert artist. Recently the mezzo-soprano made an extraordinary series of appearances as guest star with Sweden's Royal Opera in Stockholm and also sang at the Frankfurt State Opera and in several concerts in Iceland for the U.S. State Department. Her roles range from Wagner's heroic goddesses to sultry Delilah, from Dorabella in Così Fan Tutte to Baba, the bearded lady in The Rake's Progress and Amneris in Aida. Familiar to millions outside the opera house for her regular Telephone Hour Broadcasts and other programs, and her extensive RCA Victor and Columbia recordings, Blanche Thebom is, indeed, one of the unique artists of our time.

As Branquaene in "Tristan and Isolde".

BLANCHE THEBOM

As Carmen
Mantovani and His New Music

Mantovani and his 45-piece orchestra was first exposed to the American public in 1955. Mantovani and his new music has become a byword with record fans throughout the United Kingdom, Free Europe, Canada and the United States. Those who prefer their music to be restful and relaxing find just that in his cascading melodious line supported with a novel concept of orchestral arrangement. Mantovani has a favorite for everyone—be it the 300-year-old "Green Sleeves", a serenade by Tchaikowsky, a waltz by Strauss or the strains of "Charmaine", his theme. "Waltzing with Mantovani", an album displaying his ravishing string tones, swept across the seas from England capturing the fancy of America.
The Chicago Opera Ballet

The Chicago Opera Ballet is America’s newest and most exciting dance company. Directed by Ruth Page, who assembled a young and talented corps de ballet for her inventive choreography in 1953, the troupe introduced a daring new theatre form. The opera ballet, the new form, was the presentation of the original “Revenge”, based on the poems “Il Trovatore”, and “The Merry Widow”. The company of 45 features internationally famous Marjorie Tallchief, queen of the Paris Grand Opera, and Russian-born George Skibine, former soloist with the Ballet de Monte Carlo. Miss Page has been acclaimed one of the world’s greatest dancers and choreographers since Anna Pavlova.

RUTH PAGE

“The Merry Widow”.
The Roger Wagner Chorale

Since the chorale made its bow during the 1945-46 season, it has been hailed by foremost critics as the finest singing group in America today. It has been applauded with the Los Angeles Philharmonic Orchestra in the famed Hollywood Bowl, in 12 hit movies, and on the “I Married Joan” television show for three years. Conducted by Mr. Wagner, the chorale is slated for international fame with adaptability to any form of music as its hallmark. The chorale reflects the energy, musicianship and impeccable taste of its dynamic and distinguished director. Its repertoire ranges from songs by Gershwin to Handel’s “Messiah”, and programs offer such contrasts as Mendelssohn’s “Elijah”, “Salute to Disney”, and Rodgers and Hammerstein night.
Mr. Lovett dines at Hogate's.

Arrival at Virginia.

Band members dine at Hogate's.
The beginning of the 1957 football season saw the Tiger Band, drilled to perfection under the capable direction of Robert Lovett, ready for future events. To create this perfection, the band drilled approximately three miles, two nights a week.

The Tiger Band made trips to the Virginia, South Carolina, and Duke football games to perform at halftime. After the Virginia game the band traveled to Washington, D. C. where they made a notable halftime performance on a nationwide TV network.

The outstanding spirit shown by Clemson’s Marching Band at the many appearances throughout the South gives a true and descriptive view of a typical cross section of the Clemson College student body.
Band plays during half at Redskin game.

The Color Guard.
Tiger Band

In the secluded penthouse of the Clemson dormitories resides a renown group—the Tiger Band—led by the trusty saber and shrill whistle of P. J. "our leader" Holmes. Clan members include Kenneth "Cowboy" Cobb, who makes music only on his hi-fi, "Spider" (I stepped out of a vault) Hicks, "Dago" (I'm a lover) Richardson, Clanton (You'll be alright) Austin, George (I never rush) Sweet, Jerry (Jr. Birdman) Sinclair, and of course, Jack (Don't forget me) Pinckney. "The defender of authority" Bedenbaugh and "Truth and Goodness" Boling are ever present and prepared to carry on. Among the "rats" there is "Rat" (But why am I a rat) Britt, and "Rat" Allgood. Other creators of chaos include Dave (Rock and Roll) Trimmier, Phil (Drill Master) Higdon and Bumey (Love's great) Drake. These, along with the rest, are constantly striving for the mutual goal "every man for himself."

The Tiger Band majorettes.

The boys play at Charlottesville.
The Tiger Band drills at halftime.
The Glee Club of Clemson College is an organization of which all students can be proud. It has carried our name throughout the South and has carried it well.

Since the school has no music department, all members of the Glee Club are volunteers who sing solely for the pleasure it gives. They devote long hours of their time to rehearsals, but by listening to them sing, one can know that the time is not wasted.

Under the very able direction of Mr. Hugh McGarity, the Glee Club sings many different types of songs, seemingly with the greatest of ease.
The Glee Club Officers.

A group of Glee Club vocalist.

The Male Quartet.
Tigerama

The coming of Tigerama to Clemson marked the birth of a new form of entertainment, not only for the student body, but for their friends and relatives as well. Though this was the first year of the intended annual event, a good time was had by all, and the possibilities of more extensive programs for the future were recognized.

The program was composed of satirical and generally comical skits by members of the student body along with music by the Tiger Band. Stan Kenton presented a preview of the music to be expected at the dance, later in the evening.

The climax of the program was the crowning of Miss Tigerama. This honor was bestowed upon Miss Diane Austin, Clemson co-ed and majorette. Immediately following was a fireworks display as had never before been seen at Clemson. For many minutes, the still night air above the stadium was shattered with the thundering and brilliance of some of the most beautiful fireworks imaginable.
Homecoming Display

This year, during our homecoming weekend, the second annual Homecoming Display contest was held. The many clubs and organizations on the campus competed for the honor of winning the contest. As a result of the keen competition many outstanding floats, which were worked on for many long hours, were produced.

The judges, after long deliberation, finally decided upon the "Terpnik" display, which had been designed and built by the Dairy Club.

As a result of having won this honor, the Dairy Club received many prizes and gifts. Among these prizes was the honor of displaying their float on Bowman Field, a full page of their float and club in the yearbook, Taps, and dance tickets to the Homecoming Ball.

As this contest grows, so does the interest in promoting participation in homecoming activities and programs. This competition between organizations is a main feature of the weekend and is sure to be even more successful in the future.
Army R. O. T. C.

Since the transformation from the Cadet Corps to a civilian student body, the Army R. O. T. C. unit at Clemson has taken on a different light. The only time when a student is engaged in the R. O. T. C. Program is when he is attending military classes or participating in military drill on Thursday afternoon.

The objective of the course is to produce junior officers with qualities and attributes essential to their progressive and continued development in the Regular Army. During this period of universal unrest, the need for intelligent, able leadership has definitely become obvious, and the program has been stepped up to include some of the practical aspects of military training.

When the time arises, the Clemson graduate in the uniform of his country will reflect the thoroughness of the training that he received under the direction of our military staff.
Air Force R. O. T. C.

Since the majority of Air Force R. O. T. C. students are engineering majors, this program has taken a definite place at Clemson. Even though the Cadet Corps has been disbanded, the Air R. O. T. C. student still receives the best military training possible under the new system.

The purpose of the Air R. O. T. C. is to select and prepare students to serve as officers in the Regular and Reserve components of the United States Air Force. This program is the principal source of procuring future Air Force officers.

The advanced phase of Air R. O. T. C. comes after the two basic Freshman and Sophomore years. Between the Junior and Senior year the cadets are given a true picture of military life, its tactics, and methods of attack and defense, during the summer camp.

Upon the successful completion of his four years in the Air Force R. O. T. C. program, the cadet receives his commission as an officer in the United States Air Force.

Scabbard and Blade

Scabbard and Blade is recognized as one of the top military organizations in the country. It is an honorary fraternity and is composed of high ranking members of the R.O.T.C. To become a member, one must have obtained honors, both in military and scholastic standing, and also exhibit outstanding qualities of leadership and enthusiasm in the R. O. T. C. program.

The purpose of the organization is to promote better and closer relationship between the cadets and the military staff of the college.

It is a great honor to the cadet that receives a bid to this fraternity, for it is recognition of display of superior leadership ability and excellence in the military field.
Arnold Air Society

The Arnold Air Society is an organization of advanced A. F. R. O. T. C. cadets from 188 of the nation's colleges and universities. Individual members are picked on a basis of personal merit. The organization is unique in that it is the only national extra-curricular organization available to A. F. R. O. T. C. cadets. It is by nature a leadership training laboratory for its membership. A group consciousness among the members, coupled with the improved officer-cadet relationship fostered by the society, leads directly to a stronger, more efficient cadet corps.

Executive Sergeants

The Executive Sergeants' Club is composed of the ranking non-commissioned officers in the R.O.T.C. program, who serve as chief coordinators between the high command and the military students. The purpose of this organization is to foster and perpetuate a true spirit of fellowship and cooperation among its members and the members of the R.O.T.C. At meetings, problems are discussed which are common to both members and the military students and through these discussions the group aids the corps in any way possible.

In the past, this club has been one of the most active on the campus and through its efforts, numerous projects have been undertaken for the betterment of the school and the student body.
S. A. M. E.

The Society of American Military Engineers is composed of students enrolled in the Engineering Branch of the R. O. T. C. The primary purpose is social and professional intercourse which will encourage, foster, and develop relations of helpful interest to the students through club meetings. At these club meetings, the aspects of military engineering concerned with peacetime activities are discussed, as well as addresses from professional men on the various phases of military engineering.

By taking advantage of the opportunities, the students become better grounded on the problems which they may later encounter in their professional fields. The Society is designed to create and encourage interest based on common fellowship.

4th Regimental Headquarters

The National Society of Pershing Rifles is an organization which promotes the fundamentals of leadership in some 135 colleges across the nation. The functions of these companies are co-ordinated by 12 Regimental Headquarters, one of which is here at Clemson. Our regiment covers the states of Tennessee, North Carolina, South Carolina, Georgia, and Alabama. Each year the Fourth Regimental Headquarters has a Regimental Assembly and a Drill Meet, in which all of the companies participate. At some time during each year an inspection trip to each of our companies is made in order to assure the proper training within each unit. The purpose of all of these functions is to bind the many units within our command into a closely knit organization, which has as its purpose the development of the highest ideals of the military profession and the promotion of American citizenship.
The Sabre Air Command

Sabre Air Command is an honorary society of those Sophomores who are members of the A. F. R. O. T. C. The members must show initiative ability, motivation, and a desire to enter advanced Air Science Curriculum.

The primary mission of the Sabre Air Command is to develop within its members a wider and more comprehensive idea of the Air Force, and the future role he, the member, will play as a part in the Air Force. Trips to the larger air bases are undertaken each semester in keeping with this mission.

The Clemson Branch of the S. A. C. is but two years old. In those two short years it has accomplished much to build an interest in the A. F. R. O. T. C. program. S. A. C.'s rigid requirements and restricted membership are guarantees that this interest will continue to grow.
The Senior Platoon

The Senior Platoon is a Clemson organization composed of men who are picked primarily for their drilling and teamwork abilities. They volunteer for nomination and are chosen after countless eliminations. After the final elimination, drilling is begun to learn to function as team. The only things gained for their efforts are some satisfaction for their love of perfection and the honor of being a necessary part of a precision organization. Their practice drills number many. They practice sometimes early in the morning, and sometimes late at night, until their movements are almost flawless. Through their efforts they have become recognized as one of the top drill teams in the country, and their popularity has carried them far and wide for invitational appearances.

Hall Ryttenburg
The Pershing Rifles, formed in 1892 by John J. Pershing, is a national honorary military society organized for the purpose of encouraging, preserving, and developing the highest ideals of the military profession. The Pershing Rifles are an active campus unit composed of those sophomores who stand out in a competitive drill to gain their proper recognition. The members are active as a drill team only in their second year. They have to drill at odd hours to practice perfection for their many appearances. This year the Pershing Rifles were guests of the Washington Redskins Pro Football Team, and appeared on TV. Their reward for their extra efforts is only the prestige involved in belonging to a precision unit.
Enjoying the picnic, fellows?

Don't worry, Simons, it won't bite.

Man, this Army life sure is rugged.

Summer Camp

At the end of the first year of advanced M. S. or A. S., all students participate in a basic summer training course designed to teach them the working principles of the modern Army and Air Force fighting machines.

The Air Force R. O. T. C. students attend summer camp for a period of one month, and the Army students for six weeks. During this period of time these men learn what life is like under actual military conditions and put into actual use all the principles they have learned in their classrooms.
100 points for Cooper and Galloway.

I'm proud (?) to be in the U. S. Air Force.

Gung Ho!!!
Spirit—that intangible but ever-present essential which welds a group of men into a strong and lasting brotherhood—is the very soul of Clemson. Undefiniteable, elusive, but inescapable, it appears in many forms; often voluble, often pensive, often unchanneled, but always with a convincing and ringing note of sincerity. Because spirit is a cumulative and collective thing, it becomes most openly apparent on the gridiron, on the hardwood, on the diamond, on the cinders—in short spirit prevails in the world of sport.

There spectator and player are joined together with their faces reflecting the strain of excitement, anxiety in conflict, joy in victory, and momentary sorrow in defeat. The drama unfolds as the game is played. Favor shows in the fresh enthusiasm of youth and in the deep-seated devotion of the old grad. Tension hits as the pressure mounts and hours of practice and planning are put to the test. Action and the thrill of the contest sometimes blur the demanding and hard work of the athlete, but in the effort to prove himself there is always the satisfaction of playing the game well. The crowds are a part of this struggle and excitement, and the cheers and color of the spectators form a backdrop for the action on the field.

All this is a part of the game; the game is an integral part of Clemson. Its men, united by the driving force of spirit, are known as “The Country Gentlemen.”

Block "C" Club

The Block "C" Club is an organization composed of the men who have earned a varsity letter in one of the various sports at Clemson, and in addition were approved by the other members. These are the men who have raised the Tigers to the top in intercollegiate sports and they have done it well.

Each year the Block "C" Club, advised by Coach Frank Howard sponsors various activities. Besides the initiation of pledges in the fall and spring of each year, it sponsors the annual spring intrasquad football game, and presents a trophy to the athlete with the highest grade point ratio. In addition, each year the club presents a gift to the school or to some needy person. Last year, for instance, the club gave money to a football player at Newberry who had received a neck injury.

It is little wonder that the Block "C" is one of the leading organizations on campus.
For the past twenty-seven years, Frank Howard, the venerable grid coach who put Barlow Bend, Alabama, on the map, has been a very prominent figure on the Clemson scene. When Jess Neely assumed a position at Rice Institute in the early thirties, the portly Howard took over the reins as Bengal head man. In his eighteen years at the helm, his Clemson teams have amassed a total of 98 victories, 65 losses and 10 ties.

Since the great team of 1948, the colorful Barton has guided four Tiger aggregates into post-season bowl games. Here they have fared on a .500 basis, winning the first pair and dropping the last two.
Clemson’s athletic staff is indeed fortunate to possess the calibre of men that compose the all-important category known in modern language as the assistant coaches. All of these men are athletes of a past age and have devoted their lives to athletics.

Banks McFadden, regarded as the greatest athlete ever produced in the state of South Carolina, is the defensive backfield coach in the fall and doubles as Tiger track coach in the spring. He was formerly head of the Clemson basketeers, but was switched to track this season as a result of Rock Norman’s retirement. Bob Jones, known commonly as “The General” by virtue of his military rank, has been with Clemson since 1930. Jones, an All-South flankman during his undergraduate days, is an end coach. Bob Smith, an amiable Furman graduate, tutors the line and also serves as assistant baseball coach. Incidentally, Smith was named ACC Coach of the Year in ’54, after his baseballers swept the conference title. The latest addition to the Tiger staff is Charlie Waller, who was hired from Texas U. in the spring of ’57. Waller is considered a prize catch and is one of the more promising junior coaches in the league.

Covington “Goat” McMillan, another Clemson alumnus who has better than 20 years on the coaching staff, is the head freshman football coach and handles a large majority of the recruiting of prospective grid aces. Don Wade, now a four-year member of the staff, is the assistant frosh coach.

Press Maravich, who bolstered Tiger cage fortunes greatly last season, is currently in his second season as basketball coach. Maravich was brought down from Aliquippa, Pennsylvania, where he gained renown as a prep mentor. Bob Smith will be replaced as head baseball coach this year by another newcomer to Tigertown, Bill Wilhelm handled the intramural program this season and proved to be a competent worker. The drafting of this man, well-schooled in the diamond sport, supports the facts that Clemson’s athletic program is perpetually on the upgrade.
Behind the glory of a winning team for the coach, the praise of the public for that winning team, and the tip-top condition of the players and their equipment are the real workers of any team—the managers.

Down at the “cage” early in the afternoon is when their work begins. Among their many duties are the keeping up and supplying of all equipment to the players, the responsibility of taking care of the balls and other equipment on the field or the court, and aiding both players and coaches on the field. In addition, managers are responsible for the packing and the care of all equipment on the trips.

The Tigers are fortunate, indeed, in having such dedicated men keeping their team operating efficiently—men who work behind the scenes and receive little and sometimes no recognition for the great job that they do.
Cheerleaders

The cheerleaders display their exhausting antics at the pep meetings and the sports events in leading the yells and boosting the Tigers and the spirit of the students.

They work long, hard hours decorating the stadium and practicing their routines for yells and stunts which the visitors and students enjoy. At their weekly meetings, they plan their work for the forthcoming week and express themselves through their weekly column, "Your Cheerleaders Speak".

Wearing the big orange "C" on their purple and white uniforms, they do their utmost in promoting better relationships with other colleges. Good sportsmanship is a virtue they must and do possess. To them is undoubtedly due much of the credit for Clemson's success in the field of sports.

Words are inadequate to express the outstanding work that these students do to lead the student body in that famous Tiger spirit—the spirit that helps win ball games for Clemson.

The cheerleaders play "Ring Around the Rosy" while Carolina steals the Confederate Flag.

Displaying tremendous potential, Coach Frank Howard’s sophomore-riddled 1957 football club tallied at will as they ran roughshod over an outclassed Presbyterian College crew, 66-0, in their traditional seasonal debut with the Blue Hose.

Twas Clemson’s ball game from the outset as the throng of 15,000 watched Harvey White recover a P. C. fumble on the opening kickoff. White, a touted newcomer, directed his unit to a touchdown immediately as Sonny Quesenberry and Bob Spooner combined their running ability to carry the ball to the Blue Hose 18. George Usry, a rapid sophomore halfback, scored from this point and the avalanche was underway. Bill Barbary came in to guide Tiger touchdown number two; Doug Cline scored this one on a two-yard plunge. George Tupper, a soph flankman, pounced on another loose oval late in the first period to set up Clemson’s third tally. Bill Mathis, a stork-legged rookie, romped across in the waning seconds of the first period and the Tigers held a 21-0 advantage with three quarters remaining.

Even Coach Howard’s attempts to quell the tempestuous Tigers were in vain as the youthful, point-hungry Bengal Brigade marched to 19 additional points in the second period. Spooner, Mathis and the old reliable Charlie Horne each were credited with touchdowns as the Tiger lead swelled to 40 points by intermission.

The Presbyterians lost the ball again on a fumble early in the third quarter with Ray Masneri recovering. A series of plays culminated when White passed to Bill Few for six more. Rabbit Chatlin accounted for the eighth Clemson scoring effort later in the canto on a ten-yard sprint. Quesenberry got his second touchdown on a pitchout from White midway in the final period. The scoring ended when Horne crashed over from the nine late in the game to bring the final count to 66-0 over the hapless Hose.
Clemson

U. N. C.

0 26

The Clemson Tigers went into Kenan Stadium September 28 to play an underdog North Carolina Tar Heel Team. Clemson was favored by most of the experts to keep their spotless record because of a 66-0 shellacking of out-manned Presbyterian College. This was the first meeting between the two ball clubs since 1915, and the Tigs wanted to start off the revised series with a big win. Coach Howard also wanted to break his jinx against Tatum.

It was rainy at kickoff time in Chapel Hill, and the Bengals never could seem to start rolling. The Tigs received the kickoff and after three fruitless downs were forced to punt. The Tigs stopped North Carolina cold on their first series of offensive plays with Harold Olsen shining on defense. After an exchange of punts, the Tar Heels took the ball on their own 33-yard line and marched 67 yards for the TD. On the kickoff Clemson fumbled and Tatum's boys pounced on it in Clemson territory. They drove for the touchdown. The Bengals suddenly found themselves at a 13-point deficit. Later in the first half North Carolina fumbled a fair catch call and Clemson recovered. The Tigers pushed to the UNC 14 with Doug Cline eating up most of the yardage. The Tigs stalled here, however, and just couldn't seem to cross the white stripes.

UNC dominated most of the second half offensively. Clemson did muster up on drive, however. Harvey White led them to the UNC 17 in this drive, but a pass interception put an end to Clemson's threats for the day. The blue-clad Tar Heels humiliated the Tigers further by scoring two more touchdowns. And Coach Sunny Jim's boys walked off the water-soaked field with a 26-0 victory.
Rabbit gets racked up good.

Clemson
N. C. State
7
13

North Carolina State's apparently invincible Wolf-pack, riding the crest of a two-game win skein, came growling into Death Valley to encounter the youthful Clemson Tigers in the third game of the campaign for both clubs. After the ball game the torrid Pack was still undefeated, largely due to a rock-like speed merchant by the name of Dick Christy, who was destined for All-American honors this season.

The fleet State ace raced 97 yards on the opening kickoff to supply Coach Earle Edwards' terrific Wolves with an early six point margin which proved to be the difference as the Tigers dropped their second successive contest 7-13. Throughout the balance of the initial period the two teams played on even terms, exchanging punts frequently as neither offered a serious threat. State's power-packed unit became somewhat listless in the second quarter and the Country Gentlemen, paced by All-A.C.C. Harvey White, drove deep into Pack territory late in the second canto. Their gallant touchdown thrust was thwarted by mere inches, and they trod off the gridiron at halftime on the short end of a 7-0 count.

The visitors widened the border to 13 with seven minutes remaining in the game. Their second tally came when Don Hafer crashed over from the two after a drive sparked by their other touchdown twin Dick Hunter. Minutes thereafter, Tiger hopes again began to soar as the capacity crowd saw Bill Bannary toss a strike to George Usry on a fifty-yard play that resulted in the sole Tiger touchdown tour of the afternoon.

Howard's Bengals kept clawing 'til the end, however, and were trying desperately for a tie or victory until an interception of a Johnny Mac Goff aerial annihilated all Clemson expectations.

Sometimes they catch 'em; sometimes they don't.
Clemson 20
Virginia 6

After playing heads-up defensive ball for the first half, the Clemson Tigers roared back with a big second half offensive showing to down the Virginia Cavaliers 20-7.

Neither team posted a serious offensive threat in the first half. It was strictly a bruising defensive battle from the opening kickoff to the half-time whistle. Rudy Hayes kept the first half lively with several bruising runs.

In the second half, the "Clemson Cannon" began to sound off. The Bengals could not be stopped. Ray Masneir started the offensive game when he blocked a punt on the Cavalier 32. Led by the line-backing of Bob Spooneb, the Tigs ripped to the nine-yard line. Here the Virginia line tightened. And the Tigers were faced with a fourth and eight situation. Harvey White met the crisis and coolly pitched to Wyatt Cox in the end zone for the initial six-pointer. Bill Babbary added the extra point.

Virginia marched for a score on the ensuing kickoff, but the Tigers were not to be denied. The Tigers clawed back early in the fourth quarter with a 72-yard touchdown drive. The drive was highlighted by the running of Spooneb and White. Spooneb lunged the last three yards for the score. The conversion attempt was wide.

The Country Gentlemen sewed the game up when White plucked a Virginia pass out of mid-air and raced 23 yards to the Virginia 17. He later scored from 13 yards out on an off-tackle keeper. White converted. The Tigs had impressively wrapped up their first A.C.C. victory.

BABBARY proves that sometimes even backs block.

"You, too, can turn those ends like Charlie Horne.
Eat Wheaties."
Clemson 13
Carolina 0

Clemson's Tigers invaded the capital city on a rainy Big Thursday and walked away the winner of their third straight State Fair classic. It was Clemson all the way as the Tigers used the deadly weapon which their offense lacked last year—a sparkling passing attack keyed by soph quarterback Harvey White. The Tigers were seven-point underdogs, but they undoubtedly forgot to read the newspapers.

The Birds took the opening kickoff and started driving down the field. Giese's "control football" looked sufficient for a while. Then the fired-up Tigers threw up a stout defense, and the Bird drive stalled. Neither team threatened until late in the second period when Carolina drove to the Clemson 13. Here, the Tiger forward wall, led by Ray Masneri, held and Clemson took over. After the Tigs had driven to the 35 in two plays, White stunned the fans and the Gamecock defense as he twisted and fought his way for a 22-yard jaunt. On the very next play he dropped back and flipped 28 yards to halfback Bill Mathis. Harvey brought the Tiger fans to their feet when he found Sonny Quesenberry all alone at the nine. And Sonny sprinted the remaining nine yards for the TD.

The Gamecocks' back seemed to be broken by this lightening-like TD as they never seriously threatened in the ball game. Clemson iced the game in the third quarter when White heaved to end Whitney Jordan who took the pigskin in and raced all the way to the Carolina one-yard line. Rudy Hayes rammed over for the score and White converted. The sun broke through the clouds in the fourth quarter to supplement the joyous mood of all the Tigers as the Gamecocks' feathers had been plucked.
Tension on the bench.

"Catch that ball, Mathis, and I'll buy you the whole fairgrounds!"

Spooner is spilled.
Before 30,000 amazed fans in Houston, Texas, the Clemson Tigers completely outclassed the Rice Owls of the ever strong Southwestern Conference. The Bengals proved to the world that they were worth noticing nationally as they ran roughshod over the highly favored Owls.

After spotting the Birds a seven point, early game lead, the Tigs grabbed hold of the pigskin and played Geise style control ball for the remainder of the game. Following Rice’s quick seven pointer, Clemson began their scoring drive on their own 29. With Bill Mathis, Sonny Quesenberry, and Bob Spooner carrying the mail, the Bengals drove to the Rice twenty in thirteen plays. Here, Harvey White faded back and flipped to Whitley Jordan in the Owl’s end zone. White converted, and the game was all knotted up.

Charlie Horne almost sent the Tigers out in front before the half ended when he alertly picked up an Owl field goal attempt and raced 32 yards before being caught from behind by the last Rice defender.

The roaring Tigers took the second half kickoff and wasted no time in marching 72 yards to pay dirt. Spooner, Horne, and Bill Barbary took turns in moving the ball to the Owl nine-yard line. Here, White put another notch on his touchdown arm as he hit Horne with a short aerial for the score. The extra point try by White was perfect. And the Tigers were in full control of the game.

The Bengals iced the game with a grinding 89-yard drive which used up most of the fourth quarter time. The drive, which lacked any form of an air attack, took 21 plays. Quesenberry plunged the last four yards for the touchdown. The P.A.T. was low. The fight ended, and the Tigs had tucked a mighty big game under their victory belt in winning their third straight game.
Seeking the highest step on their 1957 ladder of success, the Men from Tigertown invaded Durham to battle the tenth-ranked Duke Blue Devils in a game which had the winner marked Orange Bowl. The inspired Tigers outgained the Devils on the ground and in the air. They just couldn't seem to outscore them. Four costly fumbles spoiled the Tigs scoring opportunities and cost them the game.

Midway the first period, the Bengals drove to the Duke 28 where the first disastrous fumble occurred. After halting a drive on their own 23, the Tigers began rolling again. Following several driving runs by shifty George Usry, Harvey White threw to Ray Masneri who was dropped at the Duke 25. The Tigers moved to the 18 before losing the ball on downs.

It was the Blue Devils' turn. They drove all the way to the Clemson 35 where they struck with a lightening-like pass play for the score. Stunned thousands watched as Duke made the all-important conversion.

The Tigers grabbed the second half kickoff and threatened immediately. Rudy Hayes ran all the way from his own 41 to the Duke 5 in two plays. Clemson fumbled the scoring opportunity away.

Clemson tried again late in the third quarter as White scampered 48 yards deep into Duke territory. Bob Spooner and Charlie Horne carried it to the Duke three-yard line. On second down Duke recovered another loose ball on their own one-yard line. Duke kicked out and the Tigs drove to the Duke eight-yard line where a staunch Duke line held them.

Duke kicked out again. Clemson drove to the Duke five-yard line with a 24-yard White to Whitby Jordan pass and a ten-yard sprint by Doug Cline. Spooner crashed into the end zone for the score. The extra point was wide and Duke won, shearing off hopes of a Bowl bid for the Tigs.
Rather slow on that block, aren't you, Dickie Boy?

Spooner, in the limelight again.
A clear, sunswept day abounded here on Homecoming Day as hundreds of old grads congregated at their Alma Mater to join the students in cheering a white-hot Clemson Tiger team to their fourth consecutive victory, a convincing 26-7 shellacking of University of Maryland.

The Terp tilt was remindful of past Clemson-Maryland games at the beginning, for Tommy Mont's troops took the opening kickoff and tramped 73 yards to paydirt on a sustained drive. The visitors sported this 7-0 lead throughout the first half as the Tigers failed in their every endeavor due to miscues and fumbles.

After intermission and after a pep-talk by the Baron, the Tigers sudden-came to life and smothered the visitors with a mountainslide of touchdowns. The Bengals began to live up to their title as a "second-half club" midway in the third period when aerial artist Harvey White completed a long pass to Whitey Jordan on a play that covered 55 yards and knotted the count. It was all Clemson for the balance of the game as the Tigs exploded for three additional tallies in the final quarter.

George Usry zoomed through the Terp defense early in the fourth period to put Clemson out front to stay. A one-touchdown victory wasn't enough, however, as the Country Gentlemen struck for two more in the dying minutes of the game. Bill Mathis skipped around left end for the third Tig scoring effort. An interception of a desperate Maryland pass with one minute left resulted in the final touchdown of the game. Doug Cline bulled this one over from the one. Seconds later, a tired, yet happy, band of orange-clad gridsters walked toward the dressing room with the first victory ever scored against a Maryland football outfit.

And this is how turtle soup is made at Clemson.
Clemson 13
Wake Forest 6

The Clemson Tigers played dead for almost 58 minutes against the Wake Forest Demon Deacons and then came pile-driving back to whip the hapless Deacons 13-6. The Tigers drove down into Wake Forest territory many times during the first three quarters only to have their drives thwarted by fumbles and pass interceptions.

The Deacons drew first scoring blood as they drove for a TD midway the first period. But this was all that Amen's boys could muster as the Tiger defensive line, led by Jim Payne and Harold Olsen, tightened and never let Wake Forest taste paydirt again.

Five minutes were left in the ball game when "The Clemson Tiger" showed its teeth. Clemson took the ball on its own ten-yard line where Charlie Horne and George Usry cracked out to the thirty-six in two plays. Harvey White then hit Doug Cline on a 25-yard pass play to the Deac 45. On a fourth down and ten situation, White threw a perfect strike to end Whitey Jordan for twenty-one yards. Harvey then threw to Cline on the right sideline, and the speedy halfback romped all the way for the TD. White's conversion split the up-rights and the Bengals were out in front to stay.

But the Tigers were not happy with the one-point lead. They kicked to Wake Forest with one minute and thirty-five seconds remaining. The Deacs attempted three desperation passes and failed. On a fourth-down pass play, they were penalized fifteen yards and lost the down because of an ineligible receiver downfield. When the Tigs took over at the Wake Forest five, Cline leaped over the goal line for the six-pointer. And the Mighty Men from Clemson had handed the Deacs another loss.

Do pass patterns run 'em side by side these days?
Clemson Furman

45 6

The Men from Tigertown came from behind again to romp little Furman 45-6. After spotting the Hurricanes a six-point lead in the first quarter, the Tigers put on one of the greatest aerial shows ever witnessed by a Clemson fan.

The Bengals ignited their initial drive at their own 25. Doug Cline and Bill Mathis carried the pigskin to the Furman 31 in three plays. Harvey White flipped to Mathis who carried it to the five-yard line. Mathis slipped through tackle for the score, and White converted. With time running out in the first half, White threw a 34-yarder to Whitey Jordan and a 21-yarder to Cline. Mathis hit the line again for the six-pointer, and White's placement was perfect.

In the third quarter Lou Cordileone blocked a Furman punt at the Furman 28. White hit Jordan with a pass to the ten. Mathis then hauled in a White pass and romped all the way for his third consecutive TD. Soon afterwards the Tigers gathered in a Furman punt and a White to Jordan pitch carried to the five. White then fired to Wyatt Cox in the end zone.

Clemson turned back a Furman drive at their own three and the Bengals roared quickly out to the Furman 39. White tossed to Jordan at the seven where Cline carried over for the TD. Minutes later the Bengals took over on the Furman 44. Rabbit Chatlin and Rudy Hayes hammered down to the two, and Bill Barbary sneaked over for the score. Barbary followed up with a perfect placement.

Clemson scored one more time when Harvey White set a new A.C.C. record of TD passes thrown in a season (11) as he hit his favorite target, Jordan, with a five-yarder.
"But when I was in high school, they blocked for me."

Freshman Season

Coach "Goat" McMillan's freshman football club, contrary to their older varsity brothers, underwent an extremely unsuccessful year, losing five contests in succession without a victory for the entire year. Nonetheless, valuable experience within the collegiate ranks was gained, so the winless season was not in vain.

The Cubs entertained a touted Bullpup outfit from University of Georgia in the opener on September 27. The Athens frosh completely outclassed the youthful Clemson rats, handing them a 14-0 shelling, and limiting the home team to 120 yards and five first downs.

Duke's top-notch freshman aggregate invaded Tiger-town the following week and again the Cubs found themselves on the short end of the count, this time by a 14-7 margin. After an early Duke lead, Pat Killen hit the double stripes for the first Cub score of the season. The Dukes raged back, however, for a second touchdown, thus providing the final difference.

On the eve of Big Thursday, a tough group of USC Biddies gave Carolina fans the only thrill they got that particular week as they tamed the Tiger frosh by a 15-7 score. Tyson Leonard's three-touchdown performance the next game, with Wake Forest, was to no avail as the Cubs maintained their losing streak in a 20-26 heartbreaker to the Baby Deacons.

Despite sterling play by Lowndes Shingler and Dick Anderson, the little Tigers failed again in the finale, falling haplessly to Georgia Tech 30-0.

Facing a tremendous rebuilding problem, Press Maravich and his 1957-58 Bengal basketeers have compiled a mediocre 6-11 won-lost record as the current campaign enters the final stage. Despite the somewhat discouraging mark, the Tigers have chalked up impressive victories over N. C. State, Maryland, and Wake Forest, three Atlantic Coast Conference toughies who are regarded very highly.

At this writing three A.C.C. teams are among the top eleven outfits in the nation; this in itself offers ample proof of the caliber of competitors that form the A.C.C. and lends greatly to the Tigers' record thus far in the season.

The ol' reliable, Vince Yockel, is pacing the Clemson offensive assault at this writing with a 14.8 ppg. average and the likeable senior from Jersey City is a good bet for post-season honors. Lanky Docu Hoffman has come into his own and has won a permanent starting berth; he was very instrumental in the upset win over Maryland and has a creditable 12.4 average currently. Ed Brinkley and George Krajack are both toasting in the double-figure category with respective averages of 10.7 and 10.1. The other starter utilized through the majority of the year has been 6'7'' sophomore Walt Gibbons who is sporting a nine point average.

The Tig hardwood forces have six games remaining on one of the most difficult slates in the history of Clemson basketball. The A.C.C. tourney also looms, with the victor entering NCAA playoffs. Tom Cameron, a veteran performer, and three sophs—Don Carver, Bill Warren, and Jim Lewis—have comprised the bulk of the utility players of this year's Tiger cage crew.

Basketball

The height of hustle fails as Lewis scores.
Gibbons, my boy, we do not use wrestling holds in the game of basketball.

Have you ever noticed the "four-eyes" that come to a basketball game?

Long, tall Ed contributes his two for the night.
Kinda of outpositioned you for that rebound, didn’t he, Carver?

Come on, Carver, get the ball!

Those Tarheels are pesky, aren’t they, Hoffman?
Lot of spectators, weren't there, Krajack?

**Freshman Basketball**

At the time Tars went to press, the Tiger freshmen had an overall record of 9 wins and 2 losses. With the help of a fine one-two scoring punch in Connie Mac Berry and Earle Maxwell, the talented freshman squad showed that they can be depended on to do a great deal toward adding to the continuous improvement of the Clemson varsity team.

The Cubs opened the season with an 85-81 overtime victory over the Georgia frosh. The frosh made it two in a row by defeating Lee Edwards High of Asheville in a 58-56 bout, but followed with a close 72-77 loss to Young Harris College.

The Cubs then began a seven game winning streak by downing the Donaldson AFB team 93-70 and bowling over Young Harris, 80-70. Clemson again met stiff opposition in Georgia, but eased by the Tech team, 74-72. South Carolina proved to be no match for the frosh as the Tigers displayed their power in a 64-53 victory. The Cubs then crushed Spartanburg J. C., 85-71. Clemson had little trouble in beating Augusta J. C., 90-61. Scoring the highest total of 112 points, Clemson proved too much for Greenville High as they won, 112-57. Connie Mac Berry set the high individual mark for the season with 36 points. Clemson couldn't handle the powerful Baby Blue Devils from Duke as they lost by a 85-101 score.

Clemson's basketball future looks bright with the fine talent coming up from this year's team. Connie Mac Berry had a 22.8 average at this book's publication, and Maxwell, Leshock, and Krajack were averaging in the double figures.
The 1957 Tiger baseball team, under Coach Bob Smith, ended the season with a 10-6 win over the Carolina Gamecocks to boost the final standing to 6-12. This record proved to be slightly better than the previous season's 4-14.

For the second straight year pitcher-outfielder Don Shealy led the Bengal batsmen, closing out the year with a .313 average. Shealy also led the team in runs batted in with 13 and tied third baseman Bud Spires for the most total bases, 27. In setting this mark Don connected for five doubles, while Bud led the team in homers with three. Another power hitter for the Tigs was centerfielder Doug Hoffman, who hit for the circuit twice. The long ball-hitting Bengal club additionally had five players to connect with a triple for the season.

Although Shealy's mound record for the year was 2-3, the pitcher claiming the most wins was lefthander Harold Stowe with a seasonal 3-5. Stowe also owned the best-earned run average with 3.58 in 55 innings pitched. The other pitchers who figured in decisions during the season were Leon McDonald, 1-2 and Sam Gambrell, 0-2.

Because of the loss of only one senior, Shealy, the '58 season should see a majority of the squad returning. Couple this with a group of freshman players who won 14 of the 15 scheduled games they played and it would appear that Clemson baseball stock is looking up. The 1958 Tigers will definitely be hard to handle.

Baseball

Keep looking back when you turn that corner, Shealy, and you're liable to turn into stone.
There you go, Hubbard, messing up your Ivy League hat.

Safe as a Segregationist in South Carolina.

"Stand up, Bud, Stand up!"
If you really want to look good, Spires, get parallel to the ground on that double play ball.

An observant High School rival makes sure that Coker touches the bag.

Eye contact, level swing, follow through—Hoffman topped it.
Co-Captains, Venturella and Tinsley, exhibit synchronized jogging for the camera.

Cross Country

The 1957 edition of Coach Banks McFadden's Cross Country team enjoyed a highly successful season as they swept to a very respectable record of eleven wins and three setbacks. The Tiger harriers were the class of South Carolina as they won the state meet. Their showing in the conference meet was superb, also, as they topped the runner-up position in a field of eight competitors.

A trio of veteran performers—Walt Tyler, Dale Tinsley, and Leon Newman—paced McFadden's runners throughout the year. Tinsley and Tyler tied for first place in the state meet to ace the Bengals to their impressive victory. Tyler had a fourth place and Tinsley and Newman finished ninth and twelfth, respectively, from a field of 65 entries in the A.C.C. meet.

John Dunkelburg, John Beason and George Venturella rounded out this 1957 outfit which is considered by many observers as the foremost group of harriers ever assembled at Tigertown. Venturella and Tinsley served as co-captains for this season's team and, along with Beason, are the only seniors on the squad.

Hence, Clemson fans can look for another banner year in 1958 with lettermen Tyler, Newman and Dunkelburg returning and a promising group, headed by Harold Merck and Jimmy Moorhead, coming up from the freshman ranks.

Left to Right: Tyler, Newman, Dunkelberg, Beason, Venturella, Tinsley.
Track and field fortunes at Clemson revealed a definite upward trend during the 1957 campaign as the Tiger cinder crew amassed a creditable 3-2 regular season record. They completed the year in a burst of glory by sweeping the state championship in the annual state track meet staged at Clinton in May.

During the season, Coach A. W. "Rock" Norman's thinclads topped two Atlantic Coast Conference foes, Wake Forest and N. C. State, consecutively before falling to a tough Davidson College aggregate, 62-69. The Bengals came back to win over Presbyterian College, but faltered in the finale with U. S. C. as the Gamecocks raced to a 70-61 victory.

Because of this loss, the Tigs were underdogs to the Bird forces in the Clinton event. The Bengals, however, were not to be denied as they presented Coach Norman with a well-deserved farewell gift... state track supremacy. The final count read thusly: Clemson 53, U. S. C. 42½; P. C., 35¼; Furman, 19; The Citadel, 12; and Wofford, 2½.

The talented 57 track crew was extremely young and only two performers, discus-men Don Spooner and Harold Murphree, will not be available for the 1958 season. Spooner, incidentally, was undefeated during the season in his specialty—the shot put. Sophomore Leon Newman racked up a new state and school mark in the mile run with a blazing time of 4:36.7, registered in the state meet. Burly Paul Snyder smashed the Clemson record in the javelin and won a blue ribbon at Clinton with a heave of 204' 6¾". Other Tigers who took the winner's stand in the state event include basketballer Tom Cameron in the high jump, Wilburn Simmons in the low hurdles, and, as mentioned previously, Spooner in the shot. Simmons placed the squad point-wise with 80 tallies during the season.
Must be a foaming "keg" at the other end.

The meanest and roughest and toughest man in all of Tigertown.

Whole lot of gruntin' going on.
Must be that cute facial expression that kept you undefeated. Bon.

"Fresh Stick, Fresh Cream, Fresh Ready-Roll-On, too."

If only the face matched the form.
Golf

Although the 1957 linksmen didn't quite match their 1956, 10-4 record, their winning of the South Carolina Intercollegiate Golf Tournament more than compensated for their 4-8 seasonal record.

The victory was an additional boost to the season, as the team that the Bengals just edged out by four strokes was their rivals, the South Carolina Gamecocks. In third position was the Furman team, which posted 16 more strokes than the winning low gross score of 578 by the Tigs.

George Warren won the medalist honors for the 36-hole play with a 138. Behind him went Keitt Hane, 143; Melvin Mattison, 146; Bruce Schaefer, 151; Toddy Crittenden, 153; and Tommy Townsend, 162.

During the season the Bengals split with the Gamecocks, each team edging out one win over the other. Other teams who bowed to the linksmen were North Carolina State, The Citadel, and V. M. I. Besides the South Carolina loss, five other losses can be accredited to conference teams: Maryland, Duke, University of Virginia, Wake Forest, and the University of North Carolina. Furman and the University of Georgia handed the Clemson Men their other defeats.
Tennis

Within the state of South Carolina the 1957 Tiger netters, coached by Hoak Slone, posted an undefeated 8-0 record. Their overall seasonal record of 10-3 was the best of any Bengal spring sports team.

Leading this outstanding team was the versatile Nick Carter who lost only one of his 13 singles matches and additionally was half of the winning doubles team 11 times. Running a close second to Carter was Don Mitchell who had a 10-2 singles record and 11 wins and one loss with his doubles partner.

Others who earned their share of wins were Lenaire Bryant, 6-3 and 7-2; Chris Theos, 8-5 and 10-2; Eddie Scarpa, 5-8 and 7-5; Kit Matthews, 7-4 and 10-1; and Paul Galloway, 3-2 and 7-1.

Three out-of-state teams who defeated the Bengals were Cornell and two conference teams, University of North Carolina and Maryland. The Tigers notched single victories against Erskine, Wake Forest, College of Charleston and North Carolina State, and they dumped Wolford, Furman and the University of South Carolina for double losses.

With the experience of returning lettermen and the success of a good season the 1958 tennis team should prove to be tough throughout the South.
Swimming

Coach Carl McHugh’s 1957-58 aquatic aces, who are in the middle of their tough schedule and winless at this writing, have performed well under the Clemson banner this season although they have yet to taste victory for the current year. The Tiger mermen, members of the terrific Atlantic Coast Conference, have dropped six meets consecutively with all but one of these setbacks coming at the hands of A.C.C. competition. Davidson, one of the more highly rated Southern Conference teams, was the sole non-loop outfit to best the Bengal swimmers. League teams that McHugh’s charges have met are U. N. C., Maryland, Duke, Wake Forest, and N. C. State. Four meets are in order prior to the post-season swimming meets; the local tankmen face Sewanee, Emory, U. S. C., Virginia, and Citadel during the latter portion of this campaign.

The top swimmers are Mac McCahan, Eric Phllpott, and Louis Ackerman, who also serves as team captain. This trio has performed well consistently. Hap Stover, a veteran collegiate swimmer, also has compiled a nice record thus far. The state meet is slated for Charleston and the Conference get-together will be staged in Chapel Hill.
Rifle Team

The 1958 Rifle Team, under the able direction of Sergeant Keller, is in the midst of their second semester campaign as this publication goes to press. The Tiger marksmen, with ten meets remaining on the slate, have won but once in four starts thus far this season. The University of Georgia downed the Clemson forces in the first match of the year; then, in another intra-conference bout, they lost to University of Tennessee. As the season progressed, however, they posted a rousing victory over Presbyterian College in their most recent outing. A triangular meet with Wofford and Furman prior to the win over P. C. saw the Tigers grab a second-place in the three-team field.

Five men have paced the rapidly improving Clemson riflers to their creditable mark at this early date in the season. This group of aces includes Captain William Hayden, Bruce Neal, Ralph Cunningham, Roy Hensley, and Jerry Bailes. The above quintet is composed largely of sophomores and juniors, thereby creating a formidable nucleus about which to build future teams.

The Clemson gunners also have a nice outfit of freshmen. Leading the frosh in this regard are Marvin Spearman, Lee Bullard, Walden Coyle, Tom Boseman, and Tom Bair.
The muddy, bloody C. D. A.-Taps rivalry.

Intramurals

Get yourself off the floor, Leonard, and you might even touch the ball.

"Back in high school I had no trouble making these."
The Runner-Ups.

The Champs.
Activities—that measure of man's personality and total development—are in a vibrant and meaningful sense, the essence of Clemson.

The hours of bull sessions, classes, and the labs which molded and shaped the individual are put to the test. Participating in a group effort calls for fair play, cooperation, and willingness to accomplish. There is a resulting give and take and the art of getting along with your fellow man is learned.

Within the framework of the various organizations with each particular brand of fellowship, friendship, and initiations, students learn to debate, discuss, accept, reject, and plan. They plan often too grandly but always with a young and eager certainty which breathes into them a fundamental of success—confidence. They accomplish in some vague semblance of the original form and purpose because this is a united effort of interested people. They argue, good-naturedly and heatedly, and somehow become better friends because they aired their differences freely.

Activities call for an unselfish giving of time and effort, and a demonstration of sincerity. They equip the student with a background suitable to good citizenship, service to the community in which he might live, and usefulness in his profession or business.

This, then is the campus organization. Activity—the mixture of friendship, scholarship, and recognition—the key to a successful college career—the doorway to a fuller and more meaningful life.

ORGANIZATIONS
The mess . . .

The fun . . .
The egg...

The frolic...

... The reward.
Council of Club Presidents

The Council of Club Presidents, an outstanding vital, organization, serves as the coordinating body among the various campus organizations; thereby, serving Clemson College, the students, and their welfare.

This important group has many purposes, some of which are the promotion of club activity, the encouragement of high standards among the students, and aid in the development of campus projects. It also acts as an outlet for suggestions both from the students and the administration pertaining to club policies.

The Council meets from four to six times a scholastic year. Its president must first arrange the meeting times of some eighty organizations on the campus in order to eliminate conflicts with college activities and programs. Delegates to the Student Assembly are chosen early in the year as one of the many projects of this organization.
One of Clemson's foremost service clubs, Alpha Phi Omega is a national service fraternity organized on the basis of the Scout Oath and Law. Its members ordinarily are men who have previously been registered members of the Boy Scouts of America. The objectives of Alpha Phi Omega includes service to the student body and faculty, to youth and community, to members of the fraternity, and to the nation as participating citizens.

Alpha Phi Omega, during the school year, sponsors many projects. A few of these include the distribution of desk blotters to each student's room, the distribution of Career magazine to the seniors, and the collection of food at Christmas and Thanksgiving to be given to needy families in the Clemson area. This year the fraternity also took an active part in Tigerama by handling all props necessary for production.
The A. P. O. boys spread Christmas joy.
Numeral Society

This group, the most recent service fraternity on campus, has as its purpose to initiate, develop, and perpetuate the tradition of great school spirit that have and will make Clemson College grow in stature among colleges and universities.

Its primary function, service to Clemson College, is exemplified in the many activities undertaken to benefit the school. The preparation of the usual elaborate float for the Homecoming Queen, the active support of Tigerama, and the decoration and production for the Maid of Cotton contest were highlights of the year. Another noted service was volunteer aid during the flu epidemic.

The society has proven by its hard work and vitality that there is always a place for a new, alert organization.
What a mess!!!

Curtis Hughes Smoak
Dixon Jordan Williams
Dowdle Kennedy Williams
Erwin Miller
Fidler Moore
A service fraternity for all classes is Tiger Brotherhood, which was founded in 1916, by Professor John Marshall for the purpose of recognizing and encouraging leadership and service among the students. Members are chosen for their interest in improving Clemson, its advancement in South Carolina, and elsewhere in the country. The primary function of the organization is the bettering of relations between the faculty and the student body.

The outstanding project of the Brotherhood is the selection of the "Mother of the Year". The mother of any Clemson student or alumni is eligible for the selection.
Jinx calls the meeting to order.

The Brotherhood chows down.

Clark Sauls  Clement Simons
Blue Key

Blue Key, the national honorary fraternity, is recognized as the honorary and leadership organization at Clemson.

To establish the principles of good citizenship and to enrich student life are two purposes of the organization.

Juniors and Seniors are picked each semester from the highest ranking students, both scholastically and extra-curricularly.

The accomplishments of Blue Key include the Blue Key Directory, which is of great value to everyone on the campus, and the Blue Key Dance co-sponsored by the Carolina chapter to foster a better relationship between Carolina and Clemson.
Theta Tau Kappa

The Co-Ed Club was organized to bring the women students of Clemson into an organization so that they might participate more actively and effectively in student affairs. The club strives to encourage enrollment of women at the college and to promote among women students those qualities characteristic of the best type of mature person.

SHERRY HOLLEMAN
President
Phi Eta Sigma

This honorary fraternity recognizes those freshmen who have attained high scholarship. Membership in Phi Eta Sigma is limited to those who maintain a 3.5 grade point ratio for their first semester or a cumulative grade point ratio of 3.5 for their first two semesters at Clemson College.

Phi Eta Sigma, a national organization, was organized at the University of Illinois in 1923. The Clemson chapter was initiated in 1940 and since that time has become the highest honor a freshman can receive.

The club encourages scholarship throughout the college career and each year presents a competitive freshman math award, as well as a key to the graduating senior with the grade point ratio.
Phi Kappa Phi

Phi Kappa Phi is a national honor society organized in 1897 for the purpose of recognizing and encouraging superior scholarship. The efforts of Phi Kappa Phi are intended to further the fulfillment of its motto—"The love of learning rules the world." Good character is an essential supporting attribute to those elected to membership. The society is composed of graduate and undergraduate members in all departments of American Colleges and Universities. This recognition of scholarship in all areas of academic endeavor is a unifying force that brings members of the campus together.

The Clemson Chapter received its charter in 1938. The requirements are probably the most stringent of any organization on the campus, since eligibility requires a cumulative grade point ratio of 3.5 for Juniors and 3.2 for Seniors.
Phi Kappa Phi national president presents certificate to Clemson's first girl member.

Sigma Tau Epsilon

Sigma Tau Epsilon is the honor society of the Schools of Arts and Sciences. It was established with the purpose in mind of promoting scholarship and character among all the students of arts and sciences.

It has grown more and more in its years of operation and has created a greater fraternal relationship between all its members. A student must be a junior or a senior in order to acquire membership and must also have a 2.7 grade point ratio. On Scholarship Recognition Day each spring, an invitation of free membership in Sigma Tau Epsilon is presented to the sophomore with the highest grade point ratio.

Phi Psi

Phi Psi, the oldest and most honored textile fraternity, was founded in Philadelphia in 1927, by the grand council. There are nine student chapters, and thirteen alumni chapters with a total membership of about three thousand.

Pledges are chosen from the students of highest scholastic standing in the junior and senior classes plus the sophomore with the highest average. Inside these scholastic limits, pledges are chosen on the basis of character and integrity.

The aim of Phi Psi is to bind together its members with the idea of attaining a higher standard in the textile world.
Observe these men closely because they have been chosen to receive the highest honor of the "Engine House"—Tau Beta Pi. This honor does not stamp a guarantee of success on them, but to be pledged to this organization is no temporary mark of distinction and will not fade with the passing years.

Desirable traits of character as well as abilities of leadership must be possessed by a member of this group. In addition to the above, the student must be either a junior or a senior in civil, mechanical, or electrical engineering and must be in the upper fourth of his class, scholastically speaking. A large quantity of native intelligence, inherent ability, and just plain hard work are prerequisites to membership in this national honorary fraternity.
A. I. Ch. E.

The American Institute of Chemical Engineers main goal is to provide a link between the student engineer and the chemical process industries. It also acquaints its members with the latest information and technical development in the field of chemical engineers.

Membership is limited to students who are majoring in chemical engineering and have a sophomore standing or better.

Some of the institute's projects are the freshman counseling program and the engineering fair.
The American Institute of Electrical Engineers and Institute of Radio Engineers is a professional fraternity composed of juniors and seniors majoring in the field of electrical engineering. It has as its objects, the advancement of the theory and practice of electrical engineering and of the allied arts and sciences, the maintenance of high professional standing among its members, and the development of the individual engineer.

The local chapter offers to the student of electrical engineering the opportunity to increase his knowledge of his chosen profession outside the classroom by the presentation of speakers, by demonstrations, by research and presentations by the students themselves.
Mr. Wizards at work.
The Clemson Chapter of the American Society of Agricultural Engineers was first organized in 1931. Its primary function is to bring about a closer relation between the professors and students of Agricultural Engineering.

The society also promotes a scientific approach to problems found on the farm. It keeps its members posted on the latest developments in the field of Agricultural Engineering. This is done chiefly by many interesting guest speakers who are experts in this field and by the members working together on various projects.

Membership is limited to those men in the upper three classes with the qualifying grade point ratio. The members personality and character are also considered.
"I can't see a thing through this thing!!!"
American Ceramic Society

The Clemson Student Branch of the American Ceramic Society received its long-awaited charter on November 28, 1949. This organization was formed to promote fellowship among its members and to aid in every way possible the advancement of the Ceramic Engineering Department which is one of the fastest growing departments on the campus.

During the year the club’s many activities consists of various sectional conventions and a student speaking contest. Two awards are presented annually, the Ferro Award—$500.00 presentation and a $75.00 award to the winner of the student speaking contest.
The Ceramic boys learn how to make nose cones.
American Chemical Society

The purpose of the A.C.S. chapter is to help the student gain a professional consciousness; to prepare himself to enter one of the most challenging and interesting fields; and to promote a better relationship between the student and faculty.

As a secondary purpose the club strives to foster better relationships between Mr. Magoo and Mickey Mouse. We also try to help the poor unfortunates in Dr. Holmes P-Chem.

And so I said to Polk...
I wonder what will happen if I turn this.
A. S. Civil E.

By giving its members an opportunity to exchange ideas and make personal contacts, the American Society of Civil Engineers present the members with an idea of what to expect in their particular field upon graduation.

The purpose of the organization is to promote higher professional standing among its members, the advancement of engineer and architectural facts, and to encourage fellowship and cooperation among its members.

Members are selected from students in the upper three classes who are majoring in Civil Engineering, possess a satisfactory grade point ratio, and has the traits of good personality and character.

Originally the student chapter of the American Institute of Architects was formed for the exchange of ideas among its members concerning professional development. In recent years the club's concerns and interests have advanced considerably.

This organization, unique in that it is sponsored by a parent group, the American Institute of Architects, is also a welcome outlet for social growth. Intermission parties, smokers and drop-ins are held frequently, helping the architect to develop socially.

The sponsorship of exhibits, attendance at informative lectures, and demonstrations in the field of architecture are also vital parts of club activity. This year the student chapter was instrumental in organizing the first A.I.A. Student Wives Auxiliary.
Future architects discuss future design.
A. S. M. E.

One of the oldest engineering affiliations in the United States, the American Society of Mechanical Engineers student chapter at Clemson meets twice monthly to encourage high professional achievement, greater engineering knowledge, and to provide a means of greater fellowship between members.

The A. S. M. E. realizes these goals by offering movies, guest speakers, and field trips which encourage and develop the mechanical engineering student.

Membership is open to all junior and senior M. E. majors who desire to broaden their knowledge of engineering matters and further possibilities for a successful professional career.

The Block and Bridle Club is a professional club, organized as the Animal Husbandry Club in 1932. The club achieved its present name when it was admitted to the National Block and Bridle Club in 1948.

The club is designed for those students pursuing some phase of Animal Husbandry as a profession. Its purpose is to further social, cultural, and scholastic activities of the students interested in Animal Husbandry by working together and in cooperation with the Animal Husbandry faculty. Awards such as livestock judging awards, showmanship awards, and freshmen judging contest awards are presented each year. The biggest project of the year is the sponsoring of “The Clemson Little International,” a livestock showmanship and judging contest, which occurs each spring.
What did you say, Frank???
Forestry Club

This year, for the first time, Clemson is offering a four-year program in forestry leading to a B.A. degree. This will enable students desiring to enter the profession of forestry to complete their education within the state.

In order to promote interest in forestry, and to bring about a closer relationship between the forestry students and faculty of the college, the Clemson College Forestry Club was organized last September.

Membership in this club is open to all students majoring in forestry, extension foresters, research foresters, and faculty members.

The club’s first official annual function was providing all Clemson churches with holly, trees, and mistletoe, during the Christmas season. In the spring of each year, the annual Forestry Field Day will be held, in which all club members will engage in such contests as log birling, tree felling, and fly casting. This will highlight the activities of the year.

Off to the woods!!!
Industrial Management Society

The Industrial Management Society was organized at Clemson in order to promote fellowship among the members of the Industrial Management Department, to promote better relations between students and faculty and to promote further study and education preparatory to entering the field of Industrial Management. The club also acts as a liaison between the Industrial Management students and the Placement Office.

To be a member of the Industrial Management Society a student must be nominated by the Membership Committee and elected by a two-third vote of the club. In addition, he must also be a member of the academic junior or senior class.

The activities of the club include a smoker at the beginning of the year, an affiliation with other school organizations in putting on Tigerama, prominent speakers, and field trips.
"Boy, that Mansfield is tough!!"

Sanders gets a charge out of a placement booklet.
Society for the Advancement of Management

The Society for the Advancement of Management was organized on the college campus in the spring of 1957. Sponsored by the S. A. M. Senior Chapter in Greenville, it is one of the many student chapters which are located over the entire U. S. in colleges and universities.

The purpose of S. A. M. is to bring together the students in all departments who are interested in a management career. From a small beginning in the spring of '57, S. A. M. has become a prominent organization of Clemson College.

NORVILLE B. SPEARMAN
President
The Society receives its charter.

Skinner discusses worldly affairs.
Veterans' Club

In its fairly short life on the campus, the Veterans' Club has taken its place as one of the leading organizations from both a social and service viewpoint. As for membership, all honorably discharged veterans who are students of the college are eligible for entry. The primary purpose of this organization is to promote the social and cultural welfare of its members, and to improve the student-faculty relationship. At the beginning of each new semester the club strives to aid the incoming veterans in their transition from service to campus life.

The organization's dances and social functions have become an accepted part of the campus activities, opening up a new field of entertainment for the married students who don't always enter into all activities available.

The organization is also well known for its service activities such as the annual Christmas party for the children of all students on the campus. It has also been active in such combined actions as the Hunter New Fund.
Ross gets serious for a change.
Alpha Zeta

The highest agricultural honor society on the campus, Alpha Zeta’s membership is composed of those men who are outstanding in scholarship, personality, character, and extra curricular activities. The purpose of the Alpha Zeta is to promote the profession of agriculture and to establish, foster, and develop high standards of scholarship, character, leadership and a spirit of fellowship among its members. Each year the Alpha Zeta Award is given to the sophomore in the School of Agriculture having the highest grade point ratio. During the course of the year speakers discuss various phases of agriculture to these future agriculturists.
The Agricultural Economics Club was reorganized in September of 1955 for the primary purpose of creating and promoting fellowship among Agricultural Economic majors. Other purposes of the club are to study current agricultural and economic problems, to obtain an understanding of the services agricultural economists can render, and to provide opportunities for better acquaintance among members and professional workers in the agricultural social sciences. The club welcomes anyone majoring in Agricultural Economics or Economics to join or to attend the meetings.
Clemson Ceramic Club

This organization was established in 1956 to provide an honorary society open to outstanding juniors, seniors, and graduate students in the Department of Ceramic Engineering at Clemson. Its principal object is to promote and emphasize scholarship and character in Ceramic Engineering students, to stimulate mental achievement, leadership, and to promote interest in Ceramic Engineering and technology.

Members are selected on the basis of character, leadership ability, contributions to the Department and to Clemson, and scholastic achievements. Certain minimum scholastic averages are required.

One of the highlights of the club’s activities during the school year is the initiation banquet in the spring, at which the new members are formally recognized and the new officers are installed.
Delta Sigma Nu

The Delta Sigma Nu is composed of the potential dentists and surgeons who are now Pre-Med students at Clemson. The fraternity strives to promote fellowship among the members of the Pre-Medical School, to familiarize these members with medical subjects, to promote further study and education prior to the continued study of medicine, and to aid prospective medical students in selecting subjects in keeping with Pre-Medical training.

A number of field trips are taken each year to various medical schools in order to allow the members to observe the functions of a medical school.
Future Farmers of America

The Student Branch of the Future Farmers of America, chartered at Clemson in 1937, is composed of members from the upper three classes of Vocational Agricultural Education majors. These members help to further the purpose of the organization which is to train prospective teachers of vocational agriculture in their duties as advisors of local F. F. A. chapters.

At the monthly meetings members learn to organize, prepare and conduct interesting programs to teach the farmer better and more productive methods and practices. In addition the club promotes cooperation and fellowship among the members and helps prepare them for useful lives as teachers.
The 4-H Club

The Clemson College 4-H Club was reorganized in May of 1952. The main purpose of the club is to give agricultural students and former 4-H members a chance to become more useful citizens, placing emphasis upon providing opportunities for leadership, developing their interests, and broadening their understanding of the Agricultural Extension Service and its possibilities.

The members help regional clubs with suggestions, passing on information gained through experience. Not only do they better themselves, but also they leave to those that follow the fruits of their work in the field of agriculture.
Horticulture Club

The Horticulture Club is the professional club for all students interested in landscaping, ornamentals, vegetables, and food preservation. Members need not be horticulture majors.

The purpose of the club is to stimulate interest in the field of horticulture, to keep its members informed on the latest developments in the ever-increasing field, and to provide an opportunity for its members to meet with experienced horticulturists who are qualified to give first-hand information on problems that confront beginners in the horticultural profession.
Iota Lambda Sigma

The Iota Lambda Sigma fraternity is a national industrial Education fraternity.

The purpose of this fraternity is to promote the causes of industrial education in three ways; the recognition of professional training, the recognition of high scholarship, and the creation and maintaining of a closer fraternal bond between actual and prospective teachers in this special field.

Membership is limited to juniors and seniors who have completed a portion of their major work with a grade of "B" or better.
Kappa Alpha Sigma

The American Society of Agronomy chapter on the campus, Kappa Alpha Sigma, was organized in 1935 for the benefit of Agronomy majors. The purpose of the chapter is to bring about a closer union between fellow members and to foster a spirit of fellowship between the students and faculty.

Membership in this society is limited to the Agronomy students who have qualities of personality and character, as well as scholarship. These men have shown promise that they will be outstanding in their chosen field.

At the meetings, successful agronomists are brought in as speakers to present their ideas to the students on subjects pertaining to Agronomy.
N. T. M. S.

This professional society was founded to further the interest in Textile Manufacturing and to spark new interest in all phases of textiles.

This year, as has been the custom in the past, many prominent textile leaders came to Clemson to lecture. The members always welcome a guest speaker as they know that many valuable words from an experienced man will prove helpful in the years to come.

New members are formally accepted into the club at a supper given in early spring by the new members for the old members.
Society of Automotive Engineers

Chartered in May, 1952, the S. A. E. was organized to keep the engineering students posted on current automotive trends and policies.

This organization is open to all engineering students and attempts to bring in speakers on the technical phase of the automotive field as a service to Clemson students.

S. A. E. is the technical society for those engaged in the development, design, production operation, and maintenance of passenger cars, aircraft, railroad equipment, and farm machinery, their components, parts, and lubricants.

McCown Wingard
Beta Sigma Chi

Beta Sigma Chi, "Geechie Club," is made up of Clemson students who live within a fifty-mile radius of Charleston. It has been one of Clemson's most outstanding regional fraternities since its organization in 1933.

The purpose of the club is to develop a closer contact between the men of the Charleston area through social and fraternal gatherings, and by working together in social and civil projects for the betterment of the college and community.

Each year the Beta Sigma Chi sponsors competitive examinations in the Charleston County Schools, the winner of which is awarded a partial scholarship.

The club offers social entertainment for its members in the form of an Annual Christmas Dance, as well as many other social gatherings during the holidays.
Delta Kappa Kappa

Delta Kappa Kappa is one of the many organizations on the Clemson campus that serves a dual purpose. Besides constantly striving to better the college, it promotes good will and unity among the students which is typical of Clemson men.

The purpose of this club is to bring together socially the Clemson students from Dorchester County and to promote the interests of Clemson in Dorchester County.

This regional organization was established in 1955 with a charter membership of fourteen.
Horry County Club

The Horry County Club was organized to promote friendship and unity among Horry County men at Clemson and to bring them together socially. Another of its aims is to promote the interest of Clemson in Horry County. It has been one of Clemson’s most outstanding regional clubs since it was organized at Clemson. The club’s activities consist of programs, Christmas and Thanksgiving parties, and various other forms of entertainment which help the club carry out its purpose. The members are selected entirely from students of Clemson from Horry County.
The Clemson Aero Club is, as its name implies, an organization of students who have a genuine interest in flying. The function is to provide low cost instruction for members who want to learn to fly and moderate rental to members who are already pilots. The club owns two aircraft and urges its members to fly at every opportunity.

Since the club is completely independent, students are required to buy a share of stock in the club which they may "fly out" before leaving the club. Membership is open to students of all classes who wish to fly or learn to fly and both planes are available to members for trips.
Mu Beta Psi

Any student who has served at least two years in any musical organization such as the Glee Club, Concert and Military Band is eligible for membership in Mu Beta Psi. This club was organized for the purpose of furthering music and musical organizations. It also furthers this interest among non-musical students, for after all, everyone enjoys music. Mu Beta Psi has been a great help to all musical presentations on the campus by furnishing its members as ushers and for other important services.

This exclusive organization has a long and arduous initiation. Initiates must stand and play such selections as "Tiger Rag" and "Dixie" while the members paddle their "tails" in the time honored Clemson manner.
The Square and Compass Club of Clemson College was reorganized September 17, 1957. The club meets twice each month in the Clemson Masonic Lodge. Still an infant organization, but ever striving for a niche in "Clemson" tradition, the club has had a very beneficial and inspiring group of speakers for its programs. The purposes of the club are to bring together as an active group all student Master Masons, to sponsor worthy causes, and to stimulate interest in masonry among the transient Brothers of the Craft.

The club has organized a first degree team for giving the first degree into masonry. This has been accomplished through the help of Mr. A. M. Sheriff, Mr. J. C. Hubbard, and the Clemson Masonic Lodge along with the full cooperation of the club members.

The membership of the club consists of the chapter members and such members as may be petition, be chosen in council. Membership is open to all student and graduate student Master Masons.
The Clemson College Dairy Club is a student organization composed of all students who are interested in dairying. Its purpose is to create a greater interest in the rapidly growing dairy industry and to create closer relationships between the faculty and students. The professors affiliated with dairying take a great interest in the club functions and students.

In addition to being functional, the club is also helpful from an educational standpoint. Meetings are held twice a month, with programs presented by students, a guest speaker, or a faculty member.
Y. M. C. A. Cabinet

Composed of student leaders in the Y.M.C.A. and other religious life of the campus is the group that plans and promotes the program of the Young Men’s Christian Association.

The Cabinet endeavors to coordinate the religious activities of the campus, and since many of the leaders of the church organizations are members of the Cabinet, the religious needs of all students are kept in mind as programs are planned.

Students who serve in the Y. M. C. A. Class Councils make a distinct contribution to the Cabinet because they are familiar with the purpose and the activities of the Y.M.C.A.

Fellowship with these students and with others not in the Cabinet, but who are sincerely concerned about the Christian’s philosophy of life, is invaluable. They desire to be the means by which Christians express their desire for Christian service to their fellow men.
Y. M. C. A. Council
Senior

The Senior "Y" Council, organized at Clemson in 1954, brings together men of the Senior Class who desire, by exchange of ideas and fellowship, to strengthen their own spiritual lives and the lives of others and to serve the members of their classes and of others in developing finer men at Clemson.

A member of the council must first have an interest in the Y. M. C. A. and campus activities, and in addition be a member of the Senior Class.

Y. M. C. A. Council
Junior

The "Y" Council of 1959, one of such Y. M. C. A. class organizations, was organized to bring together men of the 1959 class who desire, by exchange of ideas and fellowship, to strengthen their own spiritual lives and the lives of others and to serve the members of their class and of other classes in developing finer men at Clemson.

Among its projects are; sending deputation teams to other schools to present programs, building a workshop for the town children, and sponsoring various parties and dances.
An organization which is consistently on its toes is the Sophomore “Y” Council. It is consistently on the lookout for those projects, small, large or medium, which will directly benefit their fellow students.

The Sophomores, who after a year off at school become vitally interested in all phases of college life and activity, find that the “Y” Council is really a fine group to be affiliated with.
Y. M. C. A. Council
Freshman

The bewildering and complex adjustment to a new kind of life barely begins before a chance is offered freshmen to join the “Y” Council.

This active group brings together freshmen who desire, by exchange of ideas and fellowship, to strengthen their own spiritual life and the lives of others. They strive to serve the members of their class, as well as others, in a Christian manner.
The Y. M. C. A. at Clemson is dedicated to service to students and faculty in their religious, educational, and social activities. Through the years the "Y" program has been designed to the development of Christian personality and the building of finer men and women.

Through the varied program of religious, recreational and social activities, as well as the counseling service to students, the "Y" has earned a well deserved place on the Clemson campus.
Baptist Student Union

In 1932, the Clemson College Baptist Student Union was organized in order to foster spiritual growth, thought, and action through a program of Christianity at work, centered in the services of the church. B. S. U. is now serving as a vital link between the Baptist students at Clemson and the local Baptist Church.

Under the leadership of A. B. Parsons, Jr., B.S.U. sponsors four big parties a year and is responsible for sending deputations to churches, to hospitals and to other college campuses.

REV. CHARLES ARRINGTON, REV. A. B. PARSONS, President RICHARD ASHMORE.
The Canterbury Club

Canterbury is the student organization of the Episcopal Church on the campus. Although it is mainly for the Episcopal students, other students have found a warm welcome. The group is organized as a student Parish under the Chaplain, the Rev. Robert L. Oliveros, and a student Vestry, which is elected each year by the group. The total program includes worship, study, projects, fellowship, and evangelism. The group is part of the National Association of Canterbury. John A. Pinckney, Jr. is the present Senior Warden; and Mr. John H. Hunter, Faculty Advisor. A new modern building has been provided at the local Church exclusively for the group which is always open for the use of the students.
Hillel-Brandeis Club

The Jewish students at Clemson obtain spiritual and moral sustenance through the workings of the Hillel-Brandeis Club. This organization, operating at Clemson since before World War II, holds weekly meetings in the Student Center for the purpose of holding discussions and forums.

Having no resident Rabbi at Clemson, the Jewish students must, for spiritual guidance, seek outside help. It is for this reason that Rabbi David Gruber, from the University of South Carolina, was invited to Clemson to participate in the Religious Emphasis Week ceremonies.

In an effort to promote brotherhood, the Clemson Hillel group annually presents the Hillel-Brandeis Award to the man on campus who has done the most toward furthering brotherhood. Last year this award was presented to Professor Robert Morman.
Lutheran Student Association

Lutheran Student worship and fellowship is presented at the weekly meetings of the Lutheran Student Association. The very interesting programs held at the Clemson Lutheran Church are sponsored by the Division of Student Service of the South Carolina Synod. The association is also affiliated with the Lutheran Student Association of America.

The Reverend Mr. E. D. Stockman, minister of the Clemson Lutheran Church, helps the association very much with their weekly meetings. At the meetings guest speakers, informal discussions, and social functions are the general content of the interesting gatherings.
The Newman Club

The Newman Club was organized in 1940 under the direction of Father T. F. Tierney. Since the time of its organization, the Newman Club has helped to join Catholic students of Clemson College in closer friendship ties through spiritual, intellectual, and social activities.

This year, under the direction of Father Tierney, the Newman Club is supplementing the college life of the Catholic students with many social and service activities.

Robert Fister, this year’s president, urges all Catholic students to join the Newman Club and to become active members in the functions of the club.

President JAMES FISTER, FATHER T. F. TIERNEY.
The Presbyterian Student Association meets in its club room in the Fort Hill Presbyterian Church every Wednesday night during the school year. The association offers its members a variety of religious and social programs in the form of round travel discussions, traveled speakers, and religious movies. This helps to fulfill the two primary purposes of the organization which are spiritual growth and social development. The fellowship of these students forms a link between the students which is invaluable in their later life.
The Wesley Foundation is the organization set up by the Methodist Church for students in state-supported colleges throughout the nation. It was formed to take care of a need for a more thorough church program for Methodist students and was initially formed here at Clemson in 1938.

The goals of the club, to furnish the student with the opportunity to serve others and to get students to work together in fellowship, are realized through weekly meetings where guest speakers, group forums and other activities are presented.
Publications record the pulse beat of student life. They measure, report, indicate, and record the ever-changing, ever-forming student mind. They are a sure yardstick of student thought, action, and outlook. Publications on the campus appear in three forms: the newspaper, the annual, and the magazines: professional and directory.

The newspaper, the Tiger, has been a permanent fixture. Through the years it has been instrumental in effecting change, in expressing student thought, in reflecting the stages of Clemson’s growth as she changes from the college of the past into the university of the future. Even the voice of the student body, the Tiger is ready to cajole, to plead, to ask, to demand with one thought in mind, a better Clemson.

The yearbook has one clear-cut function—to depict in the most lasting way student life at Clemson during each year. As such it must be a flexible medium necessarily adaptive to changing, improving modes of expression and delineation.

Format and design change but basic collegiate activity varies little. Taps seeks to capture this, the moods and attitude of each specific year and portray in pictures and words the elusive memories. The yearbook becomes a living record.

The magazines which fill professional needs recognize the evolving student approaches and conceptions toward the changing world around him. They attempt to aid him professionally by introducing him to written reports of latest techniques and advances. The directories and guide books serve as a handy reference for the student and are a constantly used source of information.

Publications, in the final analysis, exist to inform the student and report his world as it unfolds around him.

MISS PAT JAMES
Taps Sweetheart

The 1958 Taps Staff
New . . . the watchword of the 1958 Taps and its staff. For the first time, the yearbook of Clemson College is using color. This presents immense new problems in layout, design, and all the other integral parts which go to make up your yearbook. These new problems must be met with new ideas and new techniques.

Last year's book was radical in design . . . we have carried this newness and radicalism to greater extent. The volume which you hold in your hands is, we hope, the personification of the word modern. It is the culmination of bleary eyes, stomach ulcers, sleepless nights, and many tears. Editors become nervous and sweat breaks out on the forehead when the word "deadline" is mentioned. Typewriters smoke and steam from overwork. Lights burn in the office late into each and every night. Emotional and physical strains are built and must be released in some manner. The tortures of these stresses and strains are relieved by great parties, good fellowship, and gales of laughter.

For the first time in recent years, Taps has chosen a sweetheart. Miss Pat James of Sumter, S. C., is the proud recipient of this honor. She will act as unofficial hostess at all Taps functions which include such things as dances and houseparties.

This, the writing of a yearbook, has been a wonderful experience for the members of this year's staff. Twenty years from now, as the students and graduates take down their old '58 Taps to review their memories; joy or sorrow, laughter or tears, or perhaps just the wonder of being alive and here, maybe they will appreciate our toil in bringing this insight into Clemson. To you, dear Clemson, we hope that our efforts have pleased, saddened, gladdened, inspired, and saluted you, for Clemson . . . we are you.

Taps Junior Staff

One year of hell. This statement aptly describes the long and arduous hours spent in those tiresome little jobs which go to make-up a yearbook. These individuals go through this trying period to gain the invaluable experience needed when they become editors.

These men work hard and faithfully day after day, often with only a snarl and a curse for reward. The sun peeks over the hills and these men are still bent over their tracing boxes or typewriters. Files are perused innumerable times and names, numbers, and faces blur before their tired eyes.

The "Junior Staff" is under the direct supervision of the "Senior Staff" at all times. Their hours are regulated and certain standards must be met in order to remain on the staff. The new "Senior Staff" is picked in late April. Only the members of the "Junior Staff" who show great interest, initiative, and loyalty are chosen.

Look out '59; here comes the new staff.
Fifty-one years of uninterrupted publication is the record of the Tiger. The Tiger is written under these two heads—"The South's most interesting college newspaper," and "The oldest college newspaper in South Carolina." From the Clemson students' viewpoint, this is certainly true.

During the first three days of the week, lights burn far into the night as each article is written. Wednesday the presses start to roll, and the finished product is distributed on Thursday evening.

Is this task dull or boring? Of course not! The hard work only makes the members appreciate the "good times." A group of boys who work and play together must have a feeling of group solidarity. This feeling makes up for the toil and sweat.
Tiger Junior Staff

Apprenticeship is the best word to describe this year of hard labor. The Junior Staff of the Tiger has the opportunity to learn how to write articles, headlines, and the inner workings of a newspaper. This is done, of course, under the direct supervision of the Tiger Senior Staff, who criticize and advise at all times. While the Junior Staff may not possess the know-how in some cases, they are learning from the examples shown by the seasoned and experienced people who serve on the Senior Staff. Some of the menial and tedious task performed by the junior members are running down information of late copy to be given to their respective editors for publication, writing heads, and that all important mid-night trip to “Dan’s” for food. These men are the future editor-in-chiefs, editors, and managers. These are the newspapermen of the future.
This picture is obviously posed!
The Slipstick

Under the able direction of Gerald B. Manning, the Slipstick, official publication of the School of Engineering at Clemson College, has become a moving force in this all-important field. It is published four times a year by students majoring in all branches of engineering. Articles of a technical nature are written by students and contain all such pertinent information concerning new developments, techniques, and equipment.

One of the services rendered by this publication is a large bi-annual issue published for the Engineering Fair. In this issue, a brief resume is given concerning the nature of each major course in engineering. This is done to give high school students a brief look into the course before entering Clemson.

The Bobbin and Beaker, organized in November of 1939, marks its nineteenth consecutive year of publication. Over the years, this publication has supplied valuable information to the students and leaders in the field of Textiles.

The Bobbin and Beaker is the "tool" used to inject newness into the Textile field. New methods, techniques, and equipment are to be found among the many fine articles.

Since this magazine has a very wide circulation throughout the industry, it affords a medium of exchange for ideas among leaders in this field who contribute to the articles published in the magazine.
The Agrarian, Clemson College's oldest student publication on campus, was founded in 1938 by agricultural students with the assistance of faculty advisors. At the present time this magazine has a circulation exceeding four thousand copies and is mailed to all parts of the world.

One of the most-read columns in this publication is its news service "Plowing the Furrows". The column gives news of farming improvements all over the country.
The Blue Key Directory

The Blue Key Directory, begun in 1934, is probably the most important and indispensable book to be found on the Clemson campus. The Directory has proved its worth to literally thousands of Clemson men. The Directory, a neat little time-saving device, contains a listing of students, their major course, college address, room number, and home address. It also provides a College Calendar, a Departmental Phone Directory, a list of the Board of Trustees, Faculty and Staff, Dormitory Counselors, and a Directory of Student Organizations. A copy of the Blue Key is presented to each student, and they regard it as indispensable.

The Y. M. C. A. Handbook

The Y. M. C. A. Handbook is primarily a guide for the freshmen as to location of buildings, the activities of the campus, and the active organizations. It offers a descriptive picture of the campus, aids in orienting freshmen on the history, appearance, and location of the buildings and grounds. The book is prepared by the staff in the spring and distributed to the freshmen in the fall.
The many problems of putting a yearbook together have been summed up. The mechanics of planning, photography, layout, copy writing, and proof reading are familiar to the staff. But before the yearbook can grow into the record of a year of college it must have a financial background. The money required to assemble and publish a yearbook is a tidy sum and must be on hand. One of the major sources of revenue is advertising.

The business and industrial leaders of the state and area are approached and asked to advertise in the yearbook. Many of them are Clemson men and are quite willing to contribute to the yearbook. Others have a deep-seated interest in the college. Both groups are making a good investment for their particular ad in that this section is directed to the college market, a market which will rapidly grow in size. Indirectly their advertising also is seen and makes its appeal to all of those who read and enjoy the yearbook. In short this becomes a reciprocal relation.

The business staff of the annual contacts the various firms, shows them the projected ad, and explains the value of such advertising mediums. Then, the staff works with the advertiser in drawing up his particular copy and ad. The result is a credit to the book and, at the same time a credit to the advertiser. For making the annual possible, so to speak, the staff and subscribers owe those firms and individuals who contribute through advertising a sincere note of gratitude.

WHEN YOU LOOK BACK
ON GRADUATION DAY . . .

These are history-making days in South Carolina. That is particularly true in the privately owned electric industry.

On November 12, 1957, a group of four power companies announced that it had selected Parr, S. C., as the site of a nuclear-fired reactor for the production of electricity. If approved by the Atomic Energy Commission and a joint congressional committee, the reactor would be built adjoining the steam electric generating plant of the South Carolina Electric & Gas Company, one of the group. This would be the first atomic project for the production of electricity in the southeast.

In the fall of 1958, SCEGCO expects to place the first two units of its huge new steam electric generating plant, McMeekin Station, in operation. Located at Saluda Dam on Lake Murray, this project adjoins the Company's largest hydro-electric plant. This will make the eighth power-producer for SCEGCO, four of which are steam driven operations. Looking ahead and building ahead with sites beamed to the future growth and progress of South Carolina—that's South Carolina Electric & Gas Company in 1958.

When you look back on graduation days we hope both of these projects will have become realities and completed as scheduled, financed in the real American tradition of free-enterprise. Its up to you whether or not such progress will continue through privately owned and operated power companies or whether you as a tax payer will be footing the bill for government-owned and operated facilities.
