PHOTOGRAPHIC PROLOGUE
Clemson—students, professors, instructors, alumni...
men, women, boys, girls... studies, books, laboratories, classrooms, dorms... cows, horses, sheep, cars, cars, cars... movies, television, bridge, poker... sports, dances, organization clubs... agriculture, architecture, arts, engineering, sciences, textiles... Tillman, Riggs, Earle, Brackett, Hardin Halls, Poole Center... canteen, post office, lounge, dining hall, library... he displays many faces and many personalities from his resting place in the rolling foothills of the Blue Ridge. He is 4,000 hearts, 4,000 persons who live, breathe, learn, grow, and mature.
Clemson is togetherness. Being one of the crowd, having a sense of belonging, feeling that you fit in with the group, sharing a cup of coffee in the early morning or during that afternoon break, standing in one or the other of numerous lines as the year begins and progresses, worrying when the team seems to be in trouble—the big game means so much, clapping and cheering to the welcome sounds of "Tiger Rag"—your pep song.
Clemson can be loneliness and solitude. The quiet afternoon when you choose to study away from the hustle and bustle of the dorms, the extra time in late afternoon when you have lab work waiting for you, the solitary trip across the ocean of concrete to the laundry, the foggy night when you're alone with your thoughts, the trip to class across a deserted campus, the elusive moment when the solution to a problem seems clear.
Clemson is emotion. The tension and anxiety of the players' bench, the joy and thrill when things go your way, the fun of sharing and remembering those priceless, carefree moments as a student, pleasure of seeing a future Clemson man and a present-day co-ed, sometimes painful knowledge that you've arrived on campus as you undergo an initiation.
Clemson is social-partying, having a good time. It is the swish of evening dresses, the proper black of tuxedos, the sounds from the bandstand, intermissions, houseparties, the informality and the formality of a big weekend. It is the warm afterglow and bubbling spirits when friends meet for an after-dance party. The night is over all too soon. It is the excited, then hushed, always enthralled audience at a Hampton concert. It is you and your friends at play.
Clemson is half remembered, seldom noticed abstractions. The stairs you climb continually, the story in minutiae of your college life—on the go. The trip downtown to the flick or to Dans and the return journey back by the Y while over all still stands the main tower, benevolent in its age and a watchful symbol of your present life. The woven textures, patterns, angles, geometry, and lines encountered in classrooms. The quadrangle wall which is the center of the dormitory complex and in a way, of your day.
Clemson is that grand old man, Tom Clemson, and his spirit. Brooding, pensive, apprehensive, and joyous, he watches his dreams unfold as his namesake grows. He sees its physical face change as new merges with the old. Raw earth is churned up and a new structure rises to house a newly formed school or department or to augment inadequate facilities. Your school changes, grows, becomes greater. So, in a real sense, do you. Tom Clemson welcomed you; he remains to bid you godspeed when your college career draws to a close.

19
Dr. Robert Franklin Poole, our venerable and esteemed president for eighteen years, terminated an exemplary life as educator, scholar, administrator, and gentleman on June 6, 1958. Dr. Poole and Clemson College were born the same year. As both institutions grew and prospered, they encountered each other, loved each other, and became so closely associated that they were often regarded as one. Dr. Poole remains with Clemson in its physical evidence, its atmosphere, and its spirit. His personality remains indelibly stamped on the college.

His eighteen years as president of Clemson were great years of progress for the college. At the beginning of his presidency he had the difficult task of guiding the college through the rough war period and the era of postwar inflation. In more recent years he supervised Clemson's transition from a small state school to a major educational institution. His activities along these lines and all of his presidential activities were characterized by capable leadership, wise administration, and careful planning for the future.

His tall, elegant figure, his great wisdom, his guidance, his warm smile, his casual charm—everything that Dr. Poole represented—will be sorely missed. Quoting from one of the many post-mortem articles concerning this eminent leader: "Robert Franklin Poole's legacy is a greater, more prosperous, and happier South Carolina. His memory, his works, and his spirit of Clemson will linger with the untold generations to come. His monument is Clemson."
The Board of Trustees is composed of thirteen members whose primary function is to govern the affairs of Clemson College. Established per provisions of the Thomas G. Clemson will, their duties embrace the overall functions, executive administration, and financial considerations of the college.

A cross section of agriculture, engineering, industry, professions, and business is represented on the board. These members draw on experience, wisdom, and knowledge in shaping their course of action.

Seven lifetime members, R. M. Cooper, T. B. Young, Sr., E. A. Brown, J. F. Byrnes, P. Sanders, C. E. Daniel, U. Smith, and six members selected by the General Assembly to serve four year terms, W. A. Barnette, R. S. Campbell, A. M. Quattlebaum, R. Stoddard, J. F. McLaurn, and T. W. Thornhill comprise the Board. The president of the Board is elected from the seven lifetime members.

This governing body sets the general policy of the college, approves the courses of study, expenditure of funds, and directs the details of executive action through the President of the college.

Clemson Alumni Association Grows Greater With Clemson
DEDICATED TO THE SERVICE OF CLEMSON ALUMNI AND CLEMSON COLLEGE. THE CLEMSON ALUMNI ASSOCIATION STRIVES TO MAINTAIN FELLOWSHIP AND TO KEEP ALIVE A SENTIMENT OF AFFECTION FOR CLEMSON COLLEGE; TO UNITE FORMER STUDENTS BY A COMMON TIE; TO FOSTER AMONG FORMER STUDENTS A GENUINE REGARD FOR ONE ANOTHER; AND TO ACTIVELY PROMOTE THE WELFARE AND DEVELOPMENT OF CLEMSON COLLEGE.

THE ALUMNI PROGRAM INCLUDES THE ALUMNI PUBLICATIONS, THE MAINTENANCE OF ALUMNI RECORDS, HOMECOMING, REUNIONS, THE ALUMNI PLACEMENT SERVICE, LOCAL CLUB ACTIVITIES, AND INNOMERABLE SERVICES TO INDIVIDUAL ALUMNI.

THE CLEMSON ALUMNI ASSOCIATION IS YOUR ALUMNI ASSOCIATION. ALL ALUMNI ARE INVITED TO SUPPORT THE OBJECTIVES OF THE ASSOCIATION AND TO AVAIL THEMSELVES OF THE MANY AND VARIED SERVICES IT RENDERS IN BEHALF OF THE FORMER STUDENTS OF CLEMSON COLLEGE.

CLEMSON ALUMNI ASSOCIATION
The faculty -- teachers, trainers, lecturers, authors
Training in Agricultural Economics and Rural Sociology prepares students wholly or in part for farming; managing farms; appraising land; marketing activities; supervising agricultural loan departments in private banks; directing farmer cooperatives; educational work as teachers or manufacturers of agricultural implements, fertilizers; organizational and publicity work; research work in farm management, farm, credit, taxation, marketing, farm population and rural life trends; farm planning work for the Soil Conservation Service; and for operating numerous enterprises where a knowledge of economic principles is an essential supplement to knowledge of the technical requirements of the business.

The majority of the graduates in Agricultural Education are employed to teach Vocational Agriculture in the public schools as sponsored by State Department and United States Office of Education. The curriculum, however, is well balanced with training in related fields and many graduates enter general farming and other agricultural educational or business occupations. Employment opportunities for graduates in Agricultural Education are excellent and for a number of years the demand for these graduates has exceeded the supply.

After a few years of teaching experience many graduates have advanced in the teaching profession or have entered related agricultural work such as farm credit, agricultural extension work, soil conservation and other government agencies.
AGRICULTURAL ENGINEERING: Craig, J. T.; Anderson, J. H.; Snell, A. W.; McLeod, H. E.; Wilson, T. V.; Rogers, E. B.

Department of Agronomy and Soils

Collings, Gilbeart H., Ph.D. ... professor, head of department
Boekin, William B., Ph.D. ... associate professor
Craddock, Garnet R., Ph.D. ... associate professor
Jones, Champ M., Ph.D. ... professor
Moore, Kenneth F., M.S. ... assistant professor
Shelley, Robert C., M.S. ... assistant professor

Agricultural Engineering deals fundamentally with the application of the engineering sciences to the problems of agriculture. Agricultural engineers provide engineering services in the areas of power and machinery, soil and water conservation, farm electrification, farm structures, and agricultural processing. Opportunities include employment with industry as design, research, production engineers, and in sales and service; with state and federal agencies as teachers, research engineers, and extension engineers; as field engineers with soil conservation service, bureau of reclamation; with agricultural enterprises as managers, contractors, equipment retailers and consulting engineers. The Agricultural Engineering curriculum is accredited by the Engineers' Council for professional development.

Agronomy at Clemson deals with the study of field crops and soils, emphasis being given to the proper production of field crops and to soil management. Graduates in Agronomy find opportunities in many technical fields related to agriculture. In addition, job opportunities exist in general farming, soil conservation and in agriculture extension. Many graduates become plant breeders and soil and crop specialists with the federal and state government experiment stations. Other positions include work with commercial concerns, such as fertilizer companies, seedsmen, and manufacturers of certain food products.
Department of Animal Husbandry

Wheeler, Richard F., Ph.D.  professor, head of department
Cook, James R., B.S.  associate professor
Godley, Willie C., Ph.D.  professor
Hanklin, Dale L., M.S.  assistant professor

The department concerns itself with animal production and marketing. New methods in breeding and production are produced through experimentation and research. In addition, the department offers adjunctive courses to the other departments in agriculture.

Occupations for Animal Husbandry graduates include livestock farming, cattle and swine breeding, extension livestock specialists, county agents, research work in animal industry, positions with meat packing companies, feed dealers, freezer locker operators, livestock dealers, and livestock commission brokers.

Department of Botany and Bacteriology

Courses in this department are tailored to the demands of a major in Agriculture or Arts and Sciences. Fundamental botany and bacteriology are available for the student majoring in the humanities field. More detailed courses such as soil microbiology, histology, and plant pathology are offered to the student who specializes.
Opportunities in dairying are to be found everywhere. Dairy technology is in demand on large farms and in milk processing plants. Dairy scientists are required in educational, governmental, and industrial laboratories. Business employs dairy specialists to merchandise the milk and milk products coming from the farms and factories every day. Ice cream manufacturing, milk plant operation, dairy extension specialist, milk inspection, and dairy organization work are available to the dairy graduate.

Many Entomology graduates normally enter federal service with the U.S. Bureau of Entomology and Plant Quarantine as research men or as inspectors. Others enter responsible positions in teaching, research and extension staffs of the several State Colleges and Universities. Insecticide manufacturing concerns also attract many Entomology graduates. Beekeeping is also one phase of entomological work.
Department of Forestry

Lehotsky, Koloman, Ph.D.
professor, head of department
Bruner, Marlin H., M.E.
associate professor
Cool, B. M.
associate professor
Shipman, R. D.
associate professor

Foresters of professional standing are employed in various capacities by private concerns or by Federal, State, and other public agencies. They may be engaged as managers and administrators of forest lands, technical specialists in extension, fire protection, recreation, or in other activities presupposing professional forestry knowledge. Foresters earning advanced degrees find employment in academic work and in research conducted both by public and private agencies.

Department of Horticulture

Hagler, T. B., M.S. . . . . . . . . professor, head of department
Ogle, Wayne, Ph.D. . . . . . . . . associate professor
Sefick, Harold J., M.S. . . . . . . . . associate professor
Senn, Taze L., M.S. . . . . . . . . . associate professor
Thode, Frederick W., M.S. . . . . . . associate professor
Van Blaricom, Lester O., Ch.E. . . . . . . associate professor

Opportunities in Horticulture include vegetable and fruit farm management, nursery management, landscape gardening, fresh fruit and vegetable and food products inspection, plant breeding, agricultural extension service, experiment station research, and food canning, freezing and dehydration. Other occupations include work with florists, seedsmen, fruit products companies, fertilizer companies, fungicide and insecticide manufacturers and dealers, and spraying and dusting equipment manufacturers and dealers.
Department of Poultry

School of Architecture

MORGAN, CHARLES L., M.S.  
professor, head of department

BOGGS, J. F.  
instructor

COOPER, JAMES B., M.S.  
associate professor

Graduates in Poultry Husbandry have opportunities as poultry farm operators, hatchery managers, sales and servicemen with feed manufacturers, poultry equipment concerns, poultry research workers, and extension agents. The student in poultry is introduced to the basic agricultural curriculum during his first two years. Later he specializes in courses related directly to poultry such as egg production, marketing, and research.

The curriculum in Architecture is five years in length and leads to the professional degree—Bachelor of Architecture—with basic options in design and structure. Foundation courses in Mathematics and English and basic design courses are offered for the first two years. Affiliated courses in the humanities and in the engineering field are required during the third and fourth years. Additional design courses, visual arts courses, and other architecture courses are taken. The fifth year thesis rounds out the program of training.
The Chemistry curriculum is designed to give the student a thorough knowledge of the fundamental principles of chemistry. The course is so arranged that each student takes approximately the same number of hours of work in each of the four fundamental branches of chemistry—Inorganic, Analytical, Organic and Physical. Additional work may be scheduled in any of these fields in which the student is particularly interested. The number of allowable elective credits is great enough to enable the student to take work in related fields such as engineering, textile chemistry, physics, bacteriology.

Graduates of the Chemistry curriculum are prepared for employment in any of the chemical industries in laboratory, plant control or sales work, as well as in Experiment Stations. The Chemistry Department is fully accredited by the American Chemical Society.
The department, as well as offering a major in itself, affords students from the other departments and schools valuable courses in such fields as technical writing, composition, vocabulary building and business English. Each student is also introduced to English literature in his Sophomore year. Classes in public speech offered by this department are mandatory for most curriculums. Electives in specialized grammar, literature, and composition give an added versatility. Students who receive a degree in English are required to gain a wide field which includes courses affiliated to the field.
Courses are offered by the Department in French, German, Spanish, with Russian soon to be added. Courses in these languages consist of grammar, conversation, literature, history, cultural backgrounds and pronunciation. Arts and Sciences majors are required to take two years of a foreign language. Students in other schools take electives in these departments for an added cultural broadening.

The curriculum constitutes a program of basic professional education designed to prepare students for eventual managerial and administrative positions in manufacturing and commerce, or careers in the general field of business.

In keeping with the increasing demands by industry for students equipped with a well rounded education, during the first two years training in the humanities, social and physical sciences is emphasized. During the junior and senior years the student concentrates on various basic engineering, business, economic and technical courses designed to furnish a balanced curriculum for those entering the fields of business or industry.
The Department of Mathematics is one of the largest on campus. Entering Freshmen must take a series of courses in college algebra, trigonometry, and analytic geometry. Courses in differential and integral calculus are encountered during the sophomore year. The department seeks to provide instruction in currently important mathematical disciplines, and, at the same time, to introduce topics that will be standard mathematical equipment for engineers years from now. The School of Engineering utilizes the facilities of the department more so than other schools but courses are also available as electives. The department gives a very strong major for those students who wish to prepare for a career in pure mathematics. In the graduate division courses in the usual fields are available for those students working for master’s degrees.
Department of Mathematics

Department of Physics

The curriculum in Physics is intended to give a thorough knowledge of the fundamental principles of physics. This course combines sound theoretical training and extensive laboratory work in various branches of physics with considerable work in one related field such as Chemistry or Electrical Engineering. The student is required to take at least two advanced mathematics courses; other technical courses may be taken as electives if desired. On completing this curriculum the student should be prepared to enter research in an industrial or government laboratory; the curriculum also provides an excellent background for advanced work in the field of nuclear science, or for graduate work in Physics.

Huff, Lorenz D., Ph.D.
professor, head of department

Bennett, Richard H., Jr., M. S.
assistant professor

Collins, T. F.
instructor

Lindsey, Tate J., Ph.D.
professor

Miller, John E., Ph.D.
professor

Patterson, James R., Ph.D.
associate professor

Shackelford, MacFarland, B. S.
assistant professor

Wood, Kenneth L., M. S.
associate professor

The purpose of the curriculum in Education is to prepare teachers of general high school subjects. Emphasis is placed upon the training of teacher in mathematics and science. The offerings of the other departments of the college make possible a wide selection of subject-matter courses in biology, chemistry, mathematics, English, history, civics, and physics.

The majority of graduates enter the teaching profession, although some engage in administrative work, recreation leadership, or athletic coaching in schools, textile communities, public parks and elsewhere.

Department of Social Sciences

The Social Sciences Department concerns itself with offering vital adjunctive courses to the various schools and departments. The facts of contemporary American society and government are explained in freshman courses. For Sophomores and upper classmen, there are courses in history, government, sociology, economics, philosophy, and psychology. All of these courses serve to increase the student's awareness of himself and his environment.

The curriculum leads to the degree of Bachelor of Science in Ceramic Engineering, and graduate courses are offered leading to advanced degrees. The course is based on a study of the fundamental courses in chemistry, physics, mathematics, and geology, and advanced courses are designed to apply these fundamental sciences to Ceramic Engineering. The student receives basic training in general engineering and the fundamentals of civil, electrical and mechanical engineering. In the Ceramic Engineering courses, emphasis is placed on the principles of manufacture common to all ceramic industries. The student may choose certain elective courses from the humanistic and social subjects.

The curriculum in Chemical Engineering is designed to give a basic education in science and engineering with the major emphasis in the chemical field. In addition to the work in unit operations theory, thermodynamics, and design, a solid background of chemistry, physics, mathematics, and general engineering is provided. The everchanging and increasingly complex chemical industry demands well educated, adaptive personnel, hence the rule-of-thumb methods of the past are no longer adequate for the chemical engineer's principle tasks, the design and operation of chemical plants. Chemical engineering graduates are principally employed in production, research and development, technical service, and sales.
Department of Civil Engineering

The course in Civil Engineering leads to the degree of Bachelor of Science in Civil Engineering. It is planned to equip the student with a working knowledge of those subjects which are fundamental in the field of civil engineering.

The curriculum for the first three years is the same for all civil engineering students. In the senior year each student may make limited selection of technical electives in order to major in a general, structural, or sanitary option. However, each option requires specific and related courses so chosen as to round out the student's education in fundamentals and to qualify him to enter any branch of civil engineering which he chooses.

Electrical Engineering is that branch of engineering which embraces the conversion of primary energy into electrical form, the application of this energy and the study of electrical methods of carrying out sensing, control, and communication functions.

The curriculum for students contains a selected series of fundamental studies which enable the student to enter any division of the field. In addition the curriculum includes a selected group of broadening and cultural studies.

The first two years are devoted largely to basic sciences, mathematics, English, and other subjects prerequisite to a study of engineering. In the last two years the courses, while still fundamental in nature, are based on problems encountered in the various phases of electrical engineering. A limited degree of specialization in power or electronics work is possible.

Department of Electrical Engineering

Thurston, James M., Sc.D. professor, head of department
Ball, Walter L., M.E.E. associate professor
Bovall, Caryl H., B.S. associate professor
Broyles, Harmon E., B.S. associate professor
Bryant, Furnie S., Jr., B.S. instructor
Butler, Chalmers M., B.S. instructor
Crefager, Paul S., A.M. visiting professor
Goodin, Curtis P., M.S. associate professor
Kersey, Robert N., Jr., B.S. instructor
McCombs, John W., B.S. instructor
Martin, John C., M.S. associate professor
Poe, Herbert J., M.S. associate professor
Rochester, William F., B.E.E. instructor

The Department of Drawing and Design offers to all engineering students, basic courses in engineering drawing. These courses are also open to students in other schools. Later more specialized courses which are closely correlated with the particular field of engineering chosen are taken by the student. Advanced design and drawing in connection with Senior and thesis courses are available. Students in textiles make use of this department's facilities in textile design.
Department of Engineering Mechanics

Moorman, Robert W., Ph.D.  
professor, acting head of department
Byars, Edward F., Ph.D.  
associate professor
Cooper, Henry R., Jr., B.S.  
instructor
Lucas, Charles D., B.S.  
assistant professor
Nowack, Robert F., M.S.  
associate professor
Snyder, Robert D., B.S.M.E.  
instructor
Uldrick, Hohn P., B.M.E.  
assistant professor

Certain basic courses taught by the faculty in the Engineering Mechanics Department are requirements for all majors in engineering and in architecture. Statics and strength of materials are the basic courses. Additional testing labs and experimental labs are offered. Affiliated courses in hydraulics, thermodynamics, and kinetics round out the curriculum. These courses give foundation for the design and construction of machinery, structures, bridges and mechanical equipment.

This curriculum is designed for students who desire to enter industry and to perform functions dealing with the design, coordination, improvement and installation of production systems.

The engineer must have a thorough understanding of the basic sciences and engineering sciences applicable to the production system, and must be thoroughly trained in subjects in his specialized field.

The first two years of this curriculum are devoted entirely to the basic sciences and fundamentals necessary for the general field of engineering. During the last two years the student is given basic studies in the related fields of Engineering Mechanics, Electrical Engineering, Mechanical Engineering and a choice of certain approved electives.

Department of Industrial Arts and Engineering

INDUSTRIAL ARTS

Brock, Dewey C., B.S.  
professor, head of department
Morgan, Harvey E., Jr., M.S.  
assistant professor

INDUSTRIAL ENGINEERING

Freeman, Edwin J., M.S.  
professor, head of department
Dunkle, Bernard E., M.S.  
associate professor
Couch, James H., M.S.  
associate professor
McCormack, J. T.  
professor
Meeks, Charles D., B.M.E.  
instructor
Newton, A. F.  
assistant professor
Short, Patrick E., B.S.  
associate professor
The curriculum for students in Mechanical Engineering follows a sequence beginning with the basic sciences of mathematics, physics and chemistry, continuing through the engineering sciences of thermodynamics, mechanics of solids and fluids, strength of materials, electrical theory, and metallurgy, and ending with synthesis type courses designed to require the student to draw on his engineering and technological background.

Mechanical Engineering graduates work with the production and application of power from fuel and water, in research, and in design, development, construction and application of machines used in manufacturing, as well as in the management of power industries and manufacturing plants.

Moore, W. F., Jr.
The School of Textiles is divided into five departments: Textile Chemistry, Textile Management, Weaving and Designing, Yarn Manufacturing, and Textile Research. These departments offer the basic courses required of all textile majors and furnish, in addition, certain electives which are open to other majors. Advanced courses in all phases of textile operations are studied and explored in the classroom and laboratory courses. An increasing amount of research is being conducted in conjunction with teaching and departmental facilities.
The faculty augments teaching with research

A. D. Lewis, professor of Mechanical Engineering at Clemson College, installs new oscillograph record camera for laboratory use in his department.

Dr. Miller and Dr. Reed of the Physics department overlook an x-ray geiger counter diffractometer - fulfilling part of their role in the National Science Foundation program.

Classroom contact between the professor and students is a vital part of the educational process.
The Graduate School

The Graduate School exists to formulate policies and standards, and to unify administrative procedures concerning all graduate work at Clemson. The Graduate School is headed by a dean who serves as chairman of the Graduate Council, a policy-making body appointed from the general faculties of the College.

The aims of graduate programs at Clemson are to provide comprehensive training in special fields, to offer instruction in the methods of independent investigation, and to foster the spirit of research scholarship.

Courses are offered leading to the degree of Master of Science in the following fields: Agricultural Economics, Agricultural Education, Agricultural engineering, Agronomy, Animal husbandry, Bacteriology, Ceramic Engineering, Chemistry, Civil Engineering, Dairy, Education, Electrical Engineering, Entomology, Horticulture, Industrial Education, Mathematics, Mechanical Engineering, Nuclear Science, Physics, Plant Pathology, Textile Chemistry, and Zoology.

The degree of Master of Agricultural Education is offered by the Department of Agricultural Education. The degree of Master of Education is offered in the area of science teaching.

The degree of Doctor of Philosophy is offered in Agricultural Economics, Plant Pathology, and Entomology.

The School of Agriculture is composed of three main divisions: Resident Teaching, Research (Agricultural Experiment Station) and Extension (Agricultural Extension Service). Some of the job opportunities in each of eight areas of employment are indicated below:

**Farming**—both general and specialized farm production.

**Research**—research with Agricultural Experiment Stations, the United States Department of Agriculture and other agencies in the fields of farm production, processing, marketing, and agricultural engineering.

**Education**—positions with high schools, colleges and universities, agricultural extension services, and farm organizations.

**Industry**—employment related to meat and poultry packing, farm machinery, fertilizers and lime, pesticides and herbicides, dairy processing, food and seed processing and feed management, land appraisal, marketing, storage and warehousing, business—banking, credit, and private business.

**Communications**—newspapers, publications, magazines, radio and television.

**Conservation**—work related to the conservation of soil, water, forests, fish, and wildlife.

**Agricultural Services**—public services with the USDA and state departments of agriculture, and private service.

---

DR. MILTON DYER FARRAR, dean of school

School of Agriculture

OFFERS TRAINING FOR THE MODERN FARMER

Sessions in the laboratory show the student inner mysteries of composition and research possibilities.
The Plant and Animal Sciences Building in the Agricultural Complex is familiar to all agriculture majors.

The classroom is always supplemented by field trips and laboratories.

Dr. J. W. Jones, Director of Agricultural Teaching.

School of Architecture

TEACHES FUNDAMENTALS TO DESIGNERS OF THE FUTURE

Building a model of the actual design gives the student basic ideas in structure.

The development of man's physical environment is the field of the architect, embracing fundamental considerations of function, structure and beauty. The scope of professional problems may vary from the design of furniture to complex buildings and urban planning. To best serve society, the architect should retain a progressive attitude and utilize expanding developments in the field. He should have a broad background in the social science and thorough training in the various disciplines of the profession which is at once an art and a science. Architectural Design is the core-course of the architectural curriculum, engaging much of the student's time and enabling him to creatively employ the knowledge gained in the theory courses.

The curriculum in architecture is five years in length and leads to the professional degree — Bachelor of Architecture with basic options in design and structures. It is accredited by the National Architectural Accrediting Board. The Department is a member of the Association of Collegiate Schools of Architecture.

A varied schedule of visiting lecturers, critics, traveling, exhibits, and field trips are provided each year.
THE DESIGN CRITIC, A PROFESSOR, EVALUATES AND OFFERS SUGGESTIONS TO THE STUDENT IN ELEMENTARY DESIGN STAGES.

Fifth year men begin a detailed series of studies on town planning.

The exhibition and gallery area is the setting for continually changing shows on art and allied subjects.

In addition to acting as a service school to all other schools of the college by furnishing nearly all of the instruction in the humanities, the physical sciences and the social sciences considered essential for a well educated graduate, the School of Arts and Sciences offers seven major curriculums leading to the degree of Bachelor of Science.

The curriculum in Arts and Sciences is planned to meet the needs of those students who desire a broad general education as a preparation for intelligent citizenship and for vocational efficiency. The first two years are spent in introductory work in various fields, in order to give the student breadth of view and to enable him to take a more intelligent part in his own education. During the last two years the student concentrates in selected fields.

School Of Arts And Sciences

GIVES BROAD BASE IN SCIENCE AND THE HUMANITIES

Courses in Chemistry are taken by practically every student at Clemson. Freshmen take basic courses; upperclassmen take more advanced courses.

Hardin Hall, the home of social sciences, sees a constant stream of students.
Dr. Claude Green, in a familiar pose, lectures to classes in advanced English.

The bulletin board in John Lane's classroom is always cluttered with choice bits of information.

Valuable lessons are learned through experiments in physics laboratory.

Old Main is the home of morning classes in English and Mathematics.

School of Engineering
PROVIDES TRAINING FOR THE YOUNG ENGINEER

- AGRICULTURAL ENGINEERING
- CERAMIC ENGINEERING
- CHEMICAL ENGINEERING
- CIVIL ENGINEERING
- ELECTRICAL ENGINEERING
- INDUSTRIAL ENGINEERING
- MECHANICAL ENGINEERING
All engineering consists of the application of the laws of physics, chemistry, and mathematics to the solution of specific problems. Furthermore, any engineer must be able to express his ideas both in words and in drawings. For these two reasons the first two years of all the branches of engineering are substantially the same and deal largely with the fundamentals mentioned.

An engineer in any branch should understand the methods of fabrication of machine parts and the possibilities and limitations of various methods. For this reason shop courses are included in all engineering curriculums. These courses are not manual training in nature and do not deal with the acquisition of specific skills.

The training includes many phases of each respective field. Thus, a Civil Engineering student is graduated in Civil Engineering rather than hydraulic engineering, highway engineering sanitary engineering or other such options, but the curriculum in Civil Engineering includes definite training along these lines. In the same way, the other engineering curriculums include thorough training in various phases of the field of specialization without over-emphasizing one phase to the neglect of others.

The curriculum in Agricultural Engineering is jointly administered by the school of Engineering and the School of Agriculture.

The T-square and compass-familiar tools of the trade to prospective engineers.
A test on a steam boiler is one of the mechanic engineer's most interesting experiments.
The great majority of the textile manufacturing companies are now located in the Southeastern States, centering in South Carolina and neighboring states. This makes Clemson College an appropriate institution for college training in this field. Since there are only ten college level institutions offering training in textiles and since South Carolina has more textile spindles than any other state, Clemson has a real obligation to provide well-trained graduates for South Carolina. The textile industry, realizing the importance of textile training, has contributed approximately one and one-half million dollars, which has enabled Clemson to have one of the top textile schools of the nation, with excellent staff, equipment, and building facilities.

The curriculum requires an excellent foundation in academic courses and engineering courses. Approved electives are also selected to further give the graduates a well-rounded education to supplement their technical training.

FEATURES
The lines begin upon arrival with the securing of room keys from the Dormitory Office.

Eddie Land studies the catalogue to find a possible way to avoid Saturday classes which is typical of most students prior to registration.

Frustration, Lines, Bedlam... Registration

Lines, lines, and more lines confront both the new and old students at registration, but it is the necessary evil that must be conquered at the beginning of each semester. Registration involves lines for room keys and receipts for matriculation, the rush to the chapel at the appointed time to pick up registration data, and the frustration of signing up classes in the Field House.

The upperclassmen spend endless hours figuring credit hours, planning a decent schedule, and talking with advisers and instructors. TAPS picture appointments, registration of cars, and various fee payments add to the reigning chaos.

The ordeal completed, the weary student trudges back to the dormitories. Disgusted with his schedule and disgruntled with a full week of eight o'clock classes, he smiles knowingly at the freshmen who feel certain that after registration they now can meet any challenge in the four years ahead. The more worldly and college-wise upperclassman begins the year with a new determination to improve in every phase of college life.
"Yes, sir, I'm back for another semester of statics."

A semi-annual scene, the Field House becomes a hive of human bees.

Surrounded by class, locator and information cards, these students complete the last phase of registration.

Students start the year off right spiritually by stopping by local church tables.
Rhythm, Freshmen, Girls ... Rat Hop

Not a dance but a weekend, featuring a formal, an informal, a beauty contest, and the highly touted game with U. N. C., will be remembered as Rat Hop. The big college weekend was introduced to the freshmen for the first time. His new status as “Joe College” was reflected in the way he showed his date around the campus. The upperclassmen, as usual, welcomed any excuse to party.

A continual buzz was heard over the campus Friday afternoon as the girls arrived. That night Clemson’s own Jungleers played for the formal dance. Before intermission, the freshmen and their dates formed the grand march and the beauty contest. Nancy Bonnette, a Clemson co-ed, was chosen Rat Queen to reign over the weekend festivities.

After a decisive victory over North Carolina on Saturday afternoon, everyone in jovial spirits looked forward to the informal dance which featured the lively and rhythmic Gladiolas. Sunday was the usual day of good-bys, but the freshmen now had some memories of a college weekend.
Some couples seen sitting one out at the Friday night formal.

The Gladiolas provided the dancers with some "good ole rhythm and blues" at the Saturday night dance.

HAL JONES WAS ALL SMILES AFTER HIS DATE, MISS NANCY BONNETTE, WAS CHOSEN RAT QUEEN. LUCKY RAT!
Football, pep rallies, and parties filled the agenda for Clemson students during the “Big Thursday” holidays. This holiday was eagerly anticipated by Clemson men since the beginning of the fall term. The first holiday of the year meant a relaxation from studies and a chance for the freshmen to excel in their spirit as Clemson men.

On Tuesday before “Big Thursday,” the freshmen began the traditional drum beat which echoed over the campus for twenty-four hours to the cadence of Beat Carolina. Meanwhile the pep rally, featuring Gator Fan, was staged in the amphitheater. Student spirit was resounded and carried on to Columbia the next day, “Big Thursday” eve. A large crowd assembled that night for the Blue Key dance which featured the music of the Gladiolas.

“Big Thursday” was football for everyone. The Tigers failed to exceed Carolina’s score, creating the upset of the season; however, Clemson spirit was not dampened. The men of Calhoun took the defeat as true sportsmen and the students continued to show their revelry following the game. They attended numerous parties, climaxd by a party in the Mehl-Ruh-Jahn Room. Here the Clemson students partied, danced, and were heard using Carolina’s coined phrase, “Wait ’til next year.”

Wednesday every Country Gentleman was off to Columbia with anxiety.

**Spirit, The Game, Parties . . . Big Thursday**
"I come to bury this damn chicken, not to praise him," acclaimed Gator Farr in his funeral ovation.

Anxious Clemson men scan the action on the gridiron at Carolina stadium.

Couples seen dancing at the Blue Key dance Wednesday night.

Dancing wasn't the only thing on the agenda at the dance; some couples preferred...
Planned, produced, directed, and coordinated by Clemson students, the second production of Tigerama was a smashing success. An audience of 10,000 saw comedy, satire, humour, and talent unfold on improvised stages in Memorial Stadium.

"A little bit of Broadway" was the result of many long hours of planning, practice, and hard work. Dialogue, greasepaint, script, strobe lights, front stage center, and curtain call became familiar words to participating students.

Pre-Tigerama, the warm-up for the spectacular, featured comic acrobatics, college songs by the glee club, a spirited pep rally, and the ready witticisms of the emcees. Tigerama was off to a howling success. Notable acts were Clemson Dior, a home-grown fashion show; the five faces of College Joe, a study of the typical student as seen by others, interpreted by the Numeral Society; Classroom Comedy, a satire by the co-ed club which placed second; and the first place Dragging, Dying Drill, a hilarious take-off on an early morning drill after a dance weekend presented by the Pershing Rifles.

Barbara Dillard, a co-ed and varsity cheerleader, was crowned Miss Tigerama by Diane Austin, the previous queen. Barbara was elected in a campus-wide election.

The finale was a brilliant display of fireworks which enthralled an enchanted audience. Once more, the festive event was chalked up as a success and a Homecoming highlight.
Miss Diane Austin, former Miss Tigerama, is welcomed back to the campus by Bob Hunnicutt.

The hula hoop proved to be the item of the day in co-ed's skit.

Many hours were spent practicing skits prior to the presentation.

The Japanese sandman in the Alpha Phi Omega skit claims front stage center.
As one passed Clemson College on October 31, the gaiety and revelry attacked with a force that could not be denied. Homecoming was here!

The gala weekend started with the student production of "Tigerama." Afterwards the joyous crowd thronged to the first of the C. D. A.'s Homecoming dances. Ralph Marterie was featured at the bandstand. After the dance a large number of students headed to the mountains and elsewhere for private parties.

Saturday morning a multitude of dates and alumni swarmed the campus to admire the colorful homecoming displays. The alumni also enjoyed Departmental Open Houses and a luncheon that was held in the dining hall.

Before a happy and lively crowd the Deacons of Wake Forest were beaten 14-12 by a spirited Tiger team.

Halftime activities included the Pershing Rifles, the Senior Platoon, and the Tiger Band. The crowd's attention was stolen by a lively Wake Forest Deacon that, with his "plumber's buddy," danced, marched, played soldier, and even made friends with our famous "Tiger." The halftime festivities ended with Miss "Tootsie" Dennis being crowned Homecoming Queen.

Saturday night Ralph Marterie again grabbed the spotlight to finish off a perfect weekend.

Monday morning classes were the tremendous headache ahead as students waved goodbye to their dates and headed back to the dorms.
"Forget that Gamecock and keep digging, Deacon!"

The Deacon digs his own grave in this Homecoming display.

Police came to Clemson on the Numeral Society's float for the Homecoming Queen and her court.

"Deacons, this is your end." This display illustrated the Deacon's sad fate.

Iota Lambda Sigma's first place display showed the team captains' "Deacon sawmill."
Clemson men are quick to come to the rescue of a maiden in distress, as illustrated by Bunny Loadhoht.

The couples "jitterbugged-it-up" at the Friday night dance.

C. D. A. came up with two informals this time, and the "Country Gentlemen" took to it like professors take to quizzes. Of course, the more-than-fabulous music of Marterie and his merry music makers was a big incentive.

The Friday night dance started off right with the selection of Homecoming Queen and her court. The girls received their laurels upon return from the drop-ins, and as Ralph played on, more and more stars began to appear in the eyes of the revelers.

Those who complained about Saturday night's dance must have had arguments with their dates. Marterie was better than ever, the crowd was bigger than ever, and the dance as a whole was the best the Tigers had seen in a long time. The Deacons had bitten the dust and spirits were high. Then, as the night wore on, the end of a perfect dance drew near, and the beginning of a wild series of "afterwards parties" loomed into sight.

Mood, Marterie, Beauties ... Homecoming
The enchanting trumpet of Marterie sent the dancers into a land of phantasy.

A couple entertaining the crowd with fancy dance steps at Saturday night dance.
From every nook and corner of South Carolina and the nation, local Clemson fans poured into New Orleans around New Year's Day to support their sometimes down but always fighting Tigers and to enjoy the exotic atmosphere of the Crescent City. The spirit was exceptionally high, and everyone in Louisiana soon knew that the Tigers of Clemson were there to play in the Sugar Bowl.

The colorful spots in the French Quarter were the scene of many Clemson man's New Year's Eve party. Throughout the gala night, spirited Clemson yells were heard on night-club clad Bourbon Street, which had been roped off for the occasion.

Eighty-two thousand people packed the gigantic Sugar Bowl Stadium the next day and were entertained by the dancing and pulchritude of the Apache Belles, the songs of the Rochester Chorus, and the music of the Clemson and L.S.U. bands. But the greatest spectacle of all was the battle of the Tigers of L.S.U., No. 1 in the nation, and Clemson, No. 1 in the hearts of their supporters.

A group of eager Clemson fans waiting at the stadium to board the "Tiger Special" for New Orleans.

Celebration, Spirit, The Quarter ... New Year's
Miss Cecelia Ann Colvert, representing Clemson at the Sugar Bowl, waves to the crowd.

On the eve of the big game, visions of footballs danced in the Tigers' heads.

The Clemson Tiger Band and cheerleaders added to the spectacular half-time show with a background composed of the Apache Bells.

Clemson supporters partied both en route and in New Orleans, as illustrated here by a jam session in the baggage car of the train.
Sparked by the vicacious music of the fantastic Lionel Hampton and his international orchestra, the Mid-Winters Dances opened the second semester social events with what many termed “the biggest blast of the year.” It had been over three months since the last campus-wide dance; the weather was perfect; the men of Calhoun were ready to party; they did.

The week-end opened with the pomp and dignity of the Friday night formal, although old Hamp did throw in a little unsophisticated swing. The concert Saturday introduced a new campus innovation—the really informal concert—as couples crowded into the field house in various stages of informal dress and lounged comfortably on blankets on the floor as the wild and frantic Hampton performed. No one in the gym could sit still for over five minutes as the natural showman and his orchestra thrilled them with their mad rhythm. Hamp captivated the audience with his flashing, flying drum sticks, with his dance antics and crazy quips, and by playing the vibraharp with the true touch of a master. The large crowd at the Saturday night dance enjoyed Hampton even more, and everybody really “kicked-it-out.” Lionel said, “We love you like mad; we love you crazy.” An echo of the weekend would be substituting Midwinters for the “you” in Hamp’s phrase.

An eager dancer waits impatiently for his coat check at the Friday night formal.

Spontaneity, Hampton, Jazz . . . Mid-winter
Hampton as the wild and frantic jazz man "rocked" his concert audience with his "mad" music.

The concert audience also was held spell-bound by soothing music of Lionel, true master of the vibraharp.

The band has gone; the dance is over, but the memories will always linger on.

Most of the couples could have danced and listened all night.
For many years the Clemson College Concert Series has brought some of the country's most outstanding artists and attractions of the musical world to campus. The purpose of this series is not only to entertain, but also to give a broader and more well-rounded knowledge of the fine arts. A sum taken out of the activities fee entitles each student admission to these concerts.

The 1958-59 Concert Series got off to a successful start with the appearance of the international star of the Metropolitan Opera, Eleanor Steber. Many consider Miss Steber the modern reincarnation of the legendary "Golden Age" prima donna. She already has sung thirty-five different leading operatic roles, ranging from the coloratura to the dramatic soprano repertoires. Miss Steber sang various selections from "Tosca," Mozart's "Don Giovanni," "Vanessa," and other operas. The New York Herald Tribune once wrote "Her voice has an incandescent purity; it makes for an unforgettable experience," and this was truly the feeling of those who attended the concert.

Early in November the Concert Committee presented the famed Ballet Russe de Monte Carlo under the direction of Gesgei Denham. This presentation proved to be one of the most colorful and most interesting concerts of the season. Nina Novak, Alan Howard, Irina Borowska and corps de ballet celebrate, this year, the twentieth anniversary of this pre-eminent ballet group in America with a repertoire of classical ballets and newly commissioned works. The ballet was praised highly by the many students and others that attended.

International star, Eleanor Steber, opened the Concert Series.

Irina Borowska and Deni Lament of Ballet Russe de Monte Carlo.

A scene from the Ballet Russe de Monte Carlo's performance in the Field House.
The melting sounds of the Melachrino Orchestra, featuring the world-famous Melachrino Strings, were featured in a concert in December which filled the audience with charm and delight. Melachrino, the man who created mood music, and his orchestra of fifty musicians presented a program which enchanted the ear and the heart, and captivated the collegiate audience. With a repertoir that included every kind of music from light novelties to familiar semi-classics, the popularity of this British orchestra has spread throughout the United States, and its performance at Clemson certainly motivated its popularity in this area.

George Melachrino, director of the Melachrino Orchestra.

The Melachrino Orchestra, which is very popular with the British public, caught the fancy of American hi-fi fans.

Eighty-nine distinguished men and women, all artists on the instruments they play, make up the Minneapolis Symphony Orchestra.
The Faculty and Staff Band of the Clemson Marching Band Clinic under the direction of R. E. Lovett gave several concerts in the Ampitheater during the late summer.

**Education, Dignitaries, Celebrities . . . Visitors**

Symphony orchestras have always been popular at Clemson, and the Minneapolis organization which played here in March was no exception. Under the direction of Antal Dorati, this orchestra stands securely as one of America's top ranking ensembles. Featuring a more or less collegiate program, it was accepted as enthusiastically as any other symphony orchestra to appear at Clemson.

The presentation of the United States Air Force Band brought to a close the Concert Series. A Program ranging from opera to jazz, from spiritual to be-bop was presented by the Air Force Band with "The Singing Sergeants."

Louis Armstrong and his All-Stars "jazzed it up" at Textile Hall.

Antal Dorati, director of the Minneapolis Symphony

"The Singing Sergeants," a vocal ensemble with the United States Air Force Band.
Throughout the year, the Clemson campus and the surrounding vicinity are visited by well known persons in the field of education, business, and entertainment. Late in September Dr. Charles L. Horn, president of the Olin Foundation, and Dr. James O. Wynn, vice-president, came to the campus for the ground-breaking ceremony of the Samuel B. Earle Chemical Engineering Building, which was donated by the Olin Foundation. James Burke, world renown cornettist, played at the halftime show during Homecoming weekend. All the jazz enthusiasts of the college and area journeyed to Textile Hall in Greenville to hear Louis Armstrong and his All-Stars' jazz concert. A group of South Carolina congressmen visited the campus to tour the research and development in progress on the campus.
The Executive Sergeants astounded the Friday night crowd with their saber drill.

Polish, Military, Morrow ........ Spring Dances

An admirer congratulates Buddy Morrow on his fine band and music.

With uniforms nearly pressed and brass brightly shined, the R.O.T.C. cadets impressed upon their dates that they were truly soldiers.
The "big brass" plans the strategy for the evening.

With all the pomp and dignity of a West Point formal, the Friday night Military Ball started the Spring Dances weekend. Buddy Morrow and his "Night Train" Orchestra provided some of the best dance music the men of Calhoun and their dates had heard in quite a while.

Just before intermission, the Executive Sergeants executed a precision saber drill and formed an arch for the presentation of the honorary cadet private, corporal, sergeant, and general. Miss Nancy Edwards of Clemson was chosen Honorary Cadet General.

Saturday night's Spring Hop featured the Tiger Tones, one of Clemson's contributions to the music world. The Tiger Tones sang many different types of music ranging from 'rock-'n-roll' to mood music, and everyone thoroughly enjoyed the evening.

The warm spring weather offered ideal conditions for house parties and trips to various secluded, mountain spots. Although Sunday brought with it the usual "parting blues," everyone began to look forward with anxiety to Junior-Senior.

The Tiger Tones sing a "real gone" number in their "real cool" outfits.

Provided with excellent dance music by the Tiger Tone's combo, the couples settled down to a Saturday night of enjoyable dancing.

"We could have danced all night but there are other things to do on dance weekends."
Bill Neely and Alec Morrison presented the audience with their own arrangements of various songs.

Emcee Churchill Curtis takes a bow.

Frivolity, Hi-Jinks, Hilarity ... Jr. Follies

Produced, directed, and cast by the Junior Class, the Junior Follies was again a howling success. With each annual production being acclaimed the best ever, the Follies is a highlight looked forward to by every Clemson student. The directors and chairman spend many long hours in planning and securing various skits from surrounding colleges.

The capacity crowd which attended the 1958 Junior Follies was kept in tears of laughter by the witty and humorous emcee, Churchill Curtis. The skits ranged from Carolina's Zeta Tau Alpha's first place sorority skit, "Bewitched, Bewitched, and Bewitched," a satire on Henry VIII, to the Junior Class's hilarious parody of a typical night at Herman's. Other entertainment included songs by the lovely Miss Ginger Durham, music by the very popular Tiger Tones, and a repeat performance by the notorious Bill Neely and Alec Morrison.
Senior Day is the grand finale to four years, or more, of hard work. This day is set aside once a year in honor of the graduating seniors.

On Senior Day all routine is forgotten and classes are suspended. The seniors begin the day with work on their class project to improve the campus in some manner and the traditional continuation of the sidewalk over the Calhoun Mansion grounds to the Textile Building. Every graduating senior is invited to inscribe his name in the sidewalk as a lasting memorial of his contribution to Clemson.

This is the day that precedes graduation and the final step toward personal independence. All past dignity is forgotten in this last outburst of public disorder. Various games and contests are held in the stadium followed by a barbecue supper. The seniors realize that this is their last social gathering as a class, but their college friendships will remain throughout years.

Every Clemson student looks forward hopefully to the Senior Day when he can place his name in the sidewalk.

Sentiment, Friendship, Play ... Sr. Day

A human totem pole? No, the seniors trying for a twenty dollar bill on top a greased pole.

The dignified seniors seem to forget all their dignity and do as they please.
Nostalgia, Drop-Ins, Taps ... Junior-Senior

Some would rather watch others dance—it's being together that counts.

CDA president and fiancee enjoy the last dance.
TAPS-JUNIOR-SENIOR weekend, the finale of the year's social functions, proved to be one of the most enjoyable and memorable of the year. Claude Thornhill and his orchestra provided very pleasing and danceable music for the evenings.

Everyone was tense with excitement at the Friday night dance—the TAPS beauties were announced, and the new yearbook was revealed. On Saturday, the juniors entertained the seniors at the annual banquet at which "tea cups" were given as mementoes of the gala occasion. The traditional Junior-Senior informal dance was held that night.

Although the seniors realized this was the last time they would be together or attend a dance as students, the spirits were as high as usual, if not higher. May, with her warm and sunny weather, offered excellent conditions for house-parties, picnics, drives in the mountains or—?

Tempus fugit—especially on dance weekend, and all good times were thrown aside as we looked down the rough road ahead—final exams.
THE GRADUATING SENIORS SEATED IN THE AMPHI-THEATER FOR THE LAST TIME AS STUDENTS.

Dreams, Interviews, Diplomas... Graduation

It took only a few short seconds for the graduating senior to walk across the stage and receive his diploma, but this short walk was the climax to years of study at Clemson. The minds of each were still fresh with the visions of last minute cramming for quizzes, burning the midnight oil for a term paper, and afternoon labs. There were also the memories of the dance weekends, football games, houseparties, campus activities and dormitory life which will never be forgotten, but become known as "the good old college days."

This short walk started each one on a long walk of his own. It was the beginning of dreams and plans. For most, it was the start of a career in industry, management, agriculture, or professional life; for others, a step to higher education. The short walk over and the diploma received, the graduate could think with pleasure, "I'm a Clemson alumnus!"

The late Dr. Poole led the graduation procession.
An interview candidate waits patiently, and rather nervously, outside the meeting room for his interview.

The job interview begins with obtaining of the information and an appointment in the Student Placement Office.

The actual interview itself consists of an informal chat between the company representative and interviewing student. The representative asks the student various personal questions and answers any questions the student has about the company.
This year the TAPS Staff proudly presents Miss Francis Thompson as Miss TAPS for 1959. Francis’ home is in Bennettsville, South Carolina. Prior to the Homecoming weekend, each organization on campus chose a young lady to represent them in the Homecoming Queen Contest. These fifty lovely contestants were judged from a grand march before intermission at the Friday night formal of the Homecoming Ball. The judges — Mrs. A. M. Musser, Dr. F. A. Burtner, Mr. C. B. Denison, and Mr. M. M. Ware — chose from this array of pulchritude seven girls to be presented in the beauty section of the yearbook. From these seven, Francis was chosen to be Miss TAPS for 1959.
The 1959 TAPS Staff has selected Mrs. Millie Poole to be featured as Mrs. TAPS. Since many of the Clemson students are married and live on the campus, the staff felt that they should be represented in the yearbook by a MRS. TAPS. Millie, who is from Greenville, was married to Ervin Randall Poole in 1953. They have three sons and one younger daughter — Ervin Randall, Jr., Stephen Matthews, Perry Frederick, and Rosalind. The Pooles make their home at Pre-Fab 107.

The college wife's job is an all day one, and a special one, too. Not only does she make a home for her family, but she also helps her husband obtain an education which involves many difficult problems. We salute the college wives of Clemson for their gigantic role.

Students use Music Room in Lounge for impromptu jam sessions.

Many students sit here waiting to see Dean Cox, Mrs. Albert, or to have a question answered.

Mrs. Sybil Albert, Secretary to Dean of Student Affairs.
The Student Center — Nerve Center of The Campus

The Student Center is the nerve center of the campus. The Loggia, lounge, barber shop, dormitory office, meeting rooms, publications offices — all are located here; it is the focus of dormitory life.

The lounges see a constant stream of students on the move. Study, bridge, and television yield occasionally to a hurriedly called meeting. The summons to the Dean’s office—the worry, struggle, frustration that precedes settling a problem—sends students to the second floor.

The meeting rooms see a constant turnover of club meetings and activities. Across the way the Student Chapel always remains open for private meditation. Upstairs, the hum of activity and the noise of typewriters indicate the home of the publications: TAPS, TIGER, and SLIPSTICK.

This is the Student Center—the focus of campus activity.
Each year certain students are chosen, by the various departments of the school, for recognition. These men have given unselfishly of their time and efforts in both academic and extra-curricular activities. The job of wading through countless details, solving endless headaches, and enlisting faculty support are everyday occurrences to them.

This year thirty Seniors and three Juniors were given the honor due them by being named to Who’s Who in American Colleges and Universities. Not only have they demonstrated excellence and sincerity in scholarship, leadership, and participation in activities, but all have shown promise of future usefulness to business and society. Clemson’s group of men are the largest to be named in the state. Selection for the list is the only national recognition for college and university leaders.

Who’s Who In

Colleges and Universities Taps Thirty-Three
DISCUSSING PROBLEMS IS ALWAYS AN ITEM DURING MEETINGS.

The Executive Committee—Executive Branch of Student Government

The executive branch of the student government, the Executive Committee, is composed of the president, vice-president, and secretary of the student body, and the presidents of the four classes. Helpful advice is given by three committee chairmen who sit in on all meetings, but do not vote. The duties of the Executive Committee include coordinating the activities of the legislative and judicial branches of student government, acting as the voice of the students, and bettering relations with the faculty. Meetings are held regularly to solve the small problems which continually crop up in the efficient running of the student government. All situations are discussed thoroughly before a decision is made. In certain instances a major problem may be presented directly to the board of trustees.

JOE FOX, President of Student Body

JIMMY SMITH, President Senior Class; TOM HARMON, President Junior Class.

Committee Chairmen: LUTHER BIGBY, Elections; RONNIE HILL-HOUSE, Publicity; TED DAVENPORT, Ways & Means.

TOM ANDERSON, Vice-President Student Body.

N. B. LOADHOLT, Secretary Student Body.

RICK IVESTER, President Sophomore Class; BILL SCHACHTE, President Freshman Class.
In order that a college may have a respected and admired student body, it is necessary for discipline and controls to be set up. The administration, believing that such controls should rest in student hands, has vested the powers of disciplinary action in the judicial branch of the student government. Any Clemson man who commits a breach of student regulations must be tried. After all facts, both pro and con, have been presented, the Council must make a decision on the innocence or guilt of the student. If he is found guilty, a recommendation for penalty is made. The Senior Council is composed of eight members, elected by the student body, the vice president of the Senior Class serves as an ex-officio member. These men have the thankless job of pronouncing penalty on students who would belittle the name of Clemson.
Debate, discussion, and even argument went into the legislation passed by the Student Assembly in 1958-59. Each bill was introduced, discussed, and either passed or rejected. Every step takes careful consideration and planning before moving to completion. All sides of the question and all the facts related to the question must be carefully considered. Much time and effort was put into the solving of problems. Sample problems which occurred during the year included improvement of parking facilities, development of I.D.C., and the introduction of fraternal organizations. The Student Assembly is the legislative branch of Clemson's Student Government. The forty seats of the Assembly are filled by five members of each class, which are elected by the students, and twenty members from the Council of Club Presidents. These are the men who seek to inaugurate policies beneficial to the student body. Improvement of life, the welfare, and the safety of students were the main goals of the 1958-59 Assembly.

Student Assembly Acts as Legislative Body

Early in the fall of this year, the 1959 TAPS Staff came back to Clemson with but one idea—that of presenting an accurate recollection of 1959. Of course, nothing can encompass all that is our campus, but in your yearbook is shown a typical picture of Clemson College. The task which we undertook was not to be an easy one. A new concept in the publication of a TAPS was used. A central theme, more student photography, new sections, different print styles, more copy, and something entirely new for TAPS, banner headings were the major innovations. Ideas from the past years were either discarded or revamped in an effort to give a visually exciting and informative book. The 1959 TAPS is the final result.

However new were our thoughts, there was still the old physical and mental strain on every member of the staff. The days were long, the nights sleepless, the body tired, the nerves on edge, the mind foggy, and the work hard. Constantly aware of impending quizzes and exams, the majority of the staff was forced into semi-seclusion. Their routine became study and work, work and study. House-parties during dance weekends and stag parties were the main outlet for frustrations. These small interludes of relief were welcomed, for without them the office would have become a place of maniacs.

This combination of hard work and new ideas resulted in the finished product. We sincerely hope it will, now and in years to come, bring back a vivid picture of a year at Clemson—1959.

IT IS LATE AT NIGHT AND THE HARD WORKING JR. STAFF IS STILL TYPING COPY.

Taps Junior Staff Works Diligently and Efficiently

At the beginning of each school year, a selected few are chosen to be a part of the TAPS. This is the Jr. Staff. Little do they realize at the time of their selection, the work that lies ahead. These few, during the year, must spend endless hours in the office doing the tedious, repetitious work necessary for the publication of an annual. Each member of the Jr. Staff will long remember the nights spent over typewriters and tracing boxes. They have all witnessed sunrise over the dorms of Clemson, but only at a glance, and then back to their work. From the Jr. Staff, some are chosen to fill positions on the Sr. Staff. Those so honored are the hardest workers and most interested in the TAPS. Theirs is then the job of publishing the 1960 TAPS.

Newspaper Which "Roars For Clemson"

Monday through Friday gather material; Tuesday and Wednesday get copy ready and to the press, copy read and correct, roll presses; Thursday print and Friday distribute. One big merry-go-round, repeated for nine months, and The Tiger completes another year.

Men with high hopes, plans, and energy, started the year. Some of the hopes were realized, others were touched on and a few remained just hopes. Plans were made, changed, then changed again.

Energy was completely exhausted. This was the life of Tiger—it's editors and managers. Plans, hopes, and energy are the makings of society. The newspaper is a day by day history of society.

Improvement through change was the by line of The Tiger for '58-59. Changes on copy and make up plus enlightening articles on fraternities, I. D. C., girls' dorms, and student behavior brought the title of "The South's Most Interesting News Paper" in focus on the front page.
Preparing reams of copy, necessary for each edition of the Tiger, is time consuming.

The wheels of the armed forces are turned by the non-coms and likewise the wheels of the press were turned by the "Tiger" Jr. Staffers. The leg work of gathering copy, getting pictures lined up, and trudging to Dan's consumes the working time of the Jr. Staff.

Training was the watchword and train they did. "Get a story, write a head, learn to spell, and wake up," were the requests made. These demands seemed, at times impossible, but they were met and fulfilled. The surest way to learn or to train is to do, to experience, and to work. The "Tiger" Jr. Staff learns the newspaper art. Next year theirs is the responsibility, the duty - to publish a newspaper.

Tiger Jr. Staff--Working Towards Sr. Position

Copy reading is an integral part of journalism which each Junior staffer experiences.

It's never too late for a last minute appraisal or check.
Nettles and Mooney tell other Jr. Staffers how to loaf.

Clyburn and Wood discuss an article while Holly looks on.
The job of keeping the student engineers informed as to what is going on in the field of engineering, both in school and in industry is the self-elected job of the staff of "The Clemson Slipstick," the official publications of the students of the School of Engineering. The magazine contains technical items of interest to the student engineers and features and editorials of interest to the community. The "Slipstick" is published four times a year plus one large issue in connection with the annual Engineering Fair. In this issue a brief summary is given concerning the nature of each major engineering course in order to give visiting high school students a brief look into the various engineering courses offered. The entire publication is carried out by the student staff selected from students in the School of Engineering. "Slipstick" offers future engineers a chance to express themselves in a manner somewhat less restricted than the lab reports with which all students feel they are already too familiar.

Express Views In Slipstick

Some of the staff plan an article for the next issue.

"The Slipstick" being placed out by some members.
The Central Dance Association, a non-profit organization dedicated to the promotion of social functions on the Clemson campus, is composed of eight senior members, who serve as officers, and a well-screened sixteen-man Junior Staff. The C. D. A. has official jurisdiction over any event of a social nature that occurs within the bounds of the campus.

C. D. A. has an illustrious past; it is the responsibility of each new staff to maintain the highest calibre of dances for Clemson College. Wonderful and memorable dances have become a tradition here. The eight officers pictured in this section bear the brunt of the tremendous burden of staging a successful dance. Their duties vary according to position, but each task is executed with one primary objective—to have the best dance ever. Their jobs entail many headaches and moments of anxiety; they must do the job correctly the first time—no mistakes can be tolerated.
The Central Dance Association Plans Clemson Dances
The sixteen men pictured here are the carefully selected components of the junior staff of the Central Dance Association; the tremendous amount of labor that this group is faced with is more than offset by the prestige and honor that is associated with C. D. A. Eight of the faces seen here will form the senior staff for the ensuing year.

The purpose of their appointments as junior staffers is two-fold—to work and to work some more. Every Junior C. D. A. member has, at one time, wondered—"What price glory?"

Co-ordination and co-operation with the senior staff is offered by each of these men for every dance during the session, and teamwork is extremely essential. Compensation for their time and self sacrifice presents itself in the form of a complimentary remark—"That was the best dance ever!"

Peri, Jim, and David paint a banner for the forthcoming dance.
FRANK, BOB, JULIAN, AND EDDIE TAKE A WELL EARNED BREAK FOR A SMOKE AND TO "SHOOT THE BULL."

The Junior staff decorates the dining hall for each dance. Here Erwin and Johnny cover overhead lights.

It is the Junior staffers' job to have the C. D. A. room spotless for each dance weekend. Ronnie, Frank, and Tommy clean the big mirror.
The Jungaleers—Progressive Downbeat, Mood Music

The Jungaleers are a group of musically talented Clemson students who have organized into one of the finest college dance bands in the South. Each year they successfully fill many engagements ranging from their annual Rat Hop debut to conventions, banquets, high school Junior - Seniors, and other college dances. Their unique ability to adapt their music to the mood is the dividing line between similar organizations and the Jungaleers. Each year new talent is gained which helps keep the band abreast of the changing trend in music. The members are chosen entirely from the Clemson student body and selection is based on musical achievements alone. Being one of the smoothest college orchestra the Jungaleers are recognized as the source of good dance music: slow and easy or fast and hot, whichever the occasion demands. The tradition of fine music has brought the Jungaleers to the top.
FRIDAY NIGHT—RAT HOP FEATURING THE MUSIC OF CLEMSON'S JUNGLEERS.

THE TROMBONE AND TRUMPET SECTIONS "BLAST IT OUT" DURING A JAM SESSION.
The Clemson College Glee Club is an organization for those who enjoy singing together. Having an average membership of forty, it is made up of male students from all four classes. A willingness to work for the betterment of the club and a satisfactory audition are the only requirements for membership. Glee Club Director Dr. Hugh McGarity, of the Music Department, conducts the auditions and two regular practice sessions per week. Special practices are conducted by the student director, Ted Stecki, whenever the need arises. Performances include a Christmas program in conjunction with various women’s colleges and each spring a tour of South Carolina and neighboring states is held. Singing for many conventions and civic groups in the Clemson area is an additional activity. The Glee Club has also sung at the Southern Music Educators Convention in New Orleans and is invited each year to participate in many of the activities of music groups throughout the nation.

A final scene from the play "Cup of Trembling."
Plays Give Broadway Flavor To Campus

The Little Theatre is the dramatics society of Clemson College and the community of Clemson. Through this organization the students and faculty are given an opportunity to display their talents and to see some of the better productions.

Entertainment in the form of Broadway hits and the older classical plays are presented. However, entertainment is not the only purpose of the theatre. The Little Theatre also strives to increase interest, stimulate creativeness, and foster artistic achievement in all the allied arts and crafts of the theatre. During the season at least three full length productions are produced in addition to several lesser activities. Attendance to all performances is open to the public and every member is encouraged to actively participate in some production during the season, either on stage or in one of the many back stage jobs.

Band Director

Clemson Tiger

The band plays the National Anthem just before kickoff of the Carolina game.
Band Builds Fame As Marching Unit

The Tiger Band, during the '58-'59 school year, enjoyed a successful season. Trips were made to football games with South Carolina, N. C. State, Vanderbilt, and Georgia Tech. The year was topped off by a fabulous trip to the Sugar Bowl in New Orleans, La. Not only is it one of the finest marching bands in the South, but the band is also known for the skits presented at various home football games. During the year the band did a "true" interpretation of a famous coach's trip to Europe and an impression skit of the "Old West". The marching and skits require many long hours of preparation before being presented. Movements demand split-second timing; therefore, all members must work together. Many times crowds were given enjoyable moments and the only reward given the band is a few trips and the knowledge of a job well done.

WSBF - The High Fidelity Voice of Clemson

On May 1, 1958, the words "Good Afternoon, this is the high fidelity voice of Clemson College" heralded a new era in student activities. This was the beginning of Clemson's newest student activity of major size, the Student Broadcasting System. WSBF has been in operation since May, 1958, serving the students in the dormitories.

A wide variety of programs, which are of interest to the college student, are presented daily. These programs range from panel shows to trips to outer space. To make sure that the station lives up to its high fidelity standards, the engineering staff, keeps a constant check of the maze of electronic equipment. The business staff is always in the background taking care of the business operations of the staff. The entire team of over 50 students, the sole operators of the station, are constantly working to keep abreast of the latest in radio so the students of Clemson can enjoy the best in high fidelity.

'59 Coaches and Facilities Produce Champions

The 1959 Coaching Staff consisted of Head Coach, Frank Howard; End Coach, Bob Jones; Defensive Back Coach, Banks McFadden; Line Coach, Bob Smith; Offensive Back Coach, Charles Walker; Freshmen Coach, Covington McMillian; and Assistant Freshmen Coach, Don Wade.

Few colleges in America offer as much to their athletes as does Clemson College. This begins with the scouting and recruiting of a well rounded athlete.

This year completed Frank Howard’s nineteenth year as Head Football Coach and Athletic Director of the college. Howard ranks among the top coaches of the nation with 106 wins in nineteen years, as well as the title of the number one coach in the ACC. He and his staff produced the ACC champions in Varsity and Frosh Football.

The story around the Field House states that Howard seconded Jess Neely’s nomination to elect himself Head Coach. Since that time he has become known as “The Bashful Barron from Barlow Bend.”

Covington McMillian has been with the staff for thirty years. He is responsible for Clemson’s scouting and recruiting program, as well as holding the title of Head Freshman Coach.
Tiger ACC Champions Feature Nine As Outstanding Athletes For 1959

FIRST ROW: Charlie Horne, George Ury, Johnny Goff, Bobby Morgan, Don Heilig, Sam Crouch, Jim May, Harold Smith. SECOND ROW: Robert Chatlin, Frank Zoretich, Dave Lynn, Doug Cline, Mike Dukes, Rudy Hayes, Lowndes Shingler, Larry Wagner, Bill Mathis.
These pages are dedicated to the most outstanding athletes of the football team. With a championship team it is hard to choose only a few outstanding players and ignore the others for it is the combined effort of every man on the team which produces the championship team. This description fits exactly for the picture below . . . outstanding athletes of a championship team as they appeared in blue jerseys before the Sugar Bowl Classic.

The other pictures over these pages consist of those men who were leaders among the champions. As a result of their efforts, they received awards during the year, or honorable mentions to all-star teams. Not only are these men leaders of the Tiger Football Team, but each is also a leader of his classmates. These men are leaders of various campus organizations. With school work, outside activity, and the rigid football program, it is understandable why these few are outstanding.
The Block "C" Club is composed of those men who have earned a varsity letter in one of the many sports at Clemson. Head Coach Frank Howard acts as the advisor, and this closely-knit organization sponsors a variety of activities. Among its activities are the intrasquad game at the completion of spring football practice, and presentation of a trophy to the athlete with the highest grade point ratio. The evidence that this organization is a leader among organizations on campus is quite clear because of its many outstanding members. Once each fall and spring the students are a little weary of crossing the quadrangle due to the rigorous initiation of the Block "C" pledges.

Clemson College In New Orleans Bowl Classic, 7-0

Eighty-two thousand fans jammed into the Sugar Bowl to watch sixty minutes of thrill-packed football with the nation's number one team, Louisiana State University and the Atlantic Coast Conference Champions, Clemson College. The game was called a mismatch by many, but those who witnessed the game know better.

The first period found LSU and Clemson swapping punts to end fifteen minutes of hard knocking with Clemson in possession at their own 25 yard line.

The second period held very much excitement for both teams. A short kick gave LSU the ball on the Clemson 12 yard line. A fake field goal missed a touchdown, and a fourth and one on the Clemson one yard line was fumbled into the end zone. The half ended with the score 0-0.

Clemson crossed into LSU territory for the first time in the third period on a drive which carried to the LSU 20 yard line. A bad pass from center at the Clemson 11 yard line set up the only score of the game. LSU halfback Billy Cannon rolled out and tossed a TD pass. Cannon added the extra point. Clemson went deep into LSU territory twice before the game ended but was unable to tally.

The loss gave Clemson college a 3-3 record in bowl games, and brought to a close the 1958 season with a record of eight wins and three losses through the Sugar Bowl.

End Sam Anderson grabs for the pigskin as a LSU quarterback demonstrates "May-Pole" characteristics.
As the Tigers came onto the playing field of a new stadium over a new banner, the fans settled down for another season of sore throats and Saturday heart attacks. The pre-season pickings picked the Tigers as the powerhouse of the Atlantic Coast Conference. The Cavaliers took the opening kick-off and tried to rewrite the predictions with a 45 yard pass which was converted into a TD in the second period. The point after the TD gave Virginia a 7-0 lead.

In the second period, quarterback Harvey White and halfback George Usry led the Tigers on a 70 yard drive which Usry carried over from the eight yard line.

Lowndes Shingler, sophomore quarterback, led the Tigers to a third period TD, and made the two point extra points to regain the lead 14-7. Virginia’s fine passing attack gave them another score and two more points to bring the score to 15-14.

In the final period, fullback Doug Cline set up a touchdown which halfback Bill Mathis ran over from the four yard line. The final whistle sounded, and Clemson chalked up its first win of the 1958 season.
43,000 fans stood for sixty minutes to watch the lead change six times to give Frank Howard his one hundredth victory in nineteen years of coaching at Clemson. As a result of the UNC game, the Tigers moved to number ten in the nation. The Tarheels managed to score first, but the Tiger depth proved to be the superior factor in the game. The Tigers struck with the lightning speed of a bullet as they scored on the last plays of both the first and second period. A blocked UNC quick kick, which came down in the arms of tackle Jim Padgett gave the first TD. In the second period, UNC scored again only to find quarterback Harvey White passing everywhere to climax a 68 yard drive for the TD, and halfback George Usry making the two points good to tie the score at half-time 14-14.

The Tigers opened the third period explosively with fullback Doug Cline, who dived into the end-zone from the two to bring the score to 20-14. UNC bounced back with a TD and a one point extra point to bring the score to 21-20.

In the final period, the determined Tigers drove 91 yards, and featured George Usry on the TD to give them the second victory of the season.

Bengals Break Tatum Jinks In UNC Defeat, 26-21

Padgett gallops 28 yards on a blocked quick-kick.

Ray Masneri carries a completed pass from White to the UNC twelve yard line.

Bill Mathis makes good a Shingler pass as UNC defender tries vainly to break it up.
The old "Saturday Special" of the '58 Tiger season clicked again as the Tigers moved to number eight in the nation. Quarterback Harvey White was in the driver's seat with a 50 yard pass play to end Wyatt Cox. Halfback George Usry made the two points after the TD to give the Tigers their third victory of the season.

The first half was one of frustration because neither the Tigers nor the Terrapins could produce a touchdown. In the second period, back Bob Dempsy attempted a field goal which was short.

In the third period, Maryland attempted a field goal which was also unsuccessful. With only one minute and forty seconds left in the third period, the "Home Run" pass play came through. The fourth period was scoreless with both teams starting good drives, but neither being able to complete their drives.

Howard, when asked if the Terps came close to stopping the Tigers, said: "Buddy, coming close don't count in any sport except horseshoe pitching."

White Uncorks 50 Yard Pass
For Maryland Defeat, 8 - 0.

Wyatt Cox snags a White pass at the Maryland 24.
Terrific Fourth Quarter Play Ends With Vanderbilt Defeat, 12-7

One of the greatest fourth period exhibitions in the history of Clemson football gave the Tigers their fourth victory of the season. Only nine seconds remained in the game after quarterback Harvey White leaped into the end zone.

The Tigers lost two early scoring chances with a fumble in the end zone, and a pass interception at the Vanderbilt 11 yard line.

In the third period, Vanderbilt drew first blood on a 56 yard drive, and added the extra point to lead 7-0.

The last fifteen minutes held the "White-Hayes-Usry" combination which will long be remembered in Tigertown. These three outstanding athletes accounted for two TD's and a total of 278 rushing yards. Harvey White scored both of the TD's on keep plays to climax 76 and 61 yard drives respectively.

The 26,000 fans at Dudley Field were surprised to see the Bengals come from behind to win 12-7.

South Carolina Gamecocks Defeat Tigers

Harvey White covers USC's Dixon at the goal line.

Doug Cline keeps pouring on the coal as USC's Bunch and Hawkins close in.
South Carolina's Gamecocks unloaded with both barrels against the Tigers in the annual "Big Thursday" classic. The Tigers never got wound up enough to score more than one time against the Gamecocks.

The experts took Clemson's 4 and 0 record, and predicted the Tigers to win by as great a margin as 34 points. The fine running of Bunch, Dixon, Hawkins, and Saunders, who each made touchdowns for U. S. C., proved too much for the experts and the Tigers. The game got under way slowly as both teams fought hard in the first half. Quarterback, Harvey White, scored in the second period for the Tigers, only to find fullback, John Sanders, of U. S. C., had returned the favor before the half.

The Governor changed sides during the half to give his support to both state schools, and as play resumed, the Gamecocks played over their heads to clinch the victory. Everything was wrong for the Tigers—penalties after long runs, incomplete passes, and very few first downs.

The best statement which might cover a Country Gentleman's opinion is, "Wait 'til next year!"

In Big Atlantic Coast Conference Upset, 26-6

Robert Chatlin races three Gamecocks only to be called back by a penalty.

Bob Morgan turns towards midfield and slips through alert defenders.
Doug Cline finds the straight and narrow way full of opponents' hands.

In the third period, neither team could score, but the fourth period featured fullback Mike Dukes grinding yardage on a 73-yard drive which quarterback Johnny Golf made good. The Deacons scored again on Snead's passes, but not enough to close the margin. As the final whistle sounded, quarterback Lowndes Shingler batted down a Snead pass to win the game 14-12.

Tigers Down Decons For Homecoming, 14-12

Lowndes Shingler rolls out and turns left end at the Clemson twenty.

Demon Deacon halfback scampers for yardage as five Tigers set up for the kill.
Yellow Jackets Cash In On Tiger Miscues, Only Shutout, 13-0

Harvey White passes to George Usry for yardage against Yellow Jackets.

The injured Clemson Tigers went down in their second defeat of the season as Georgia Tech shut them out, 13-0.

The Tigers rolled up plenty of yardage, but were never able to push through Tech’s defense for a TD. In the first half, fullbacks Mike Dukes and Doug Cline, along with halfback Bill Mathis ground out yardage, but the outstanding punting of the Yellow Jackets set the Tigers back on their own side of the midfield stripe.

The Tech team poured on the coal in the second half and featured Floyd Faucette on a 54-yard run for their first TD. The extra point attempt was no good.

Almost immediately, an intercepted pass in Tech territory set up their second TD. A Delaney southpaw pass to Beasley clinched the score as Wells added the extra point.

Interceptions and fumbles by both teams dominated play for the rest of the game. As time ran out, the Tigers were dead on the Georgia Tech 33-yard line after a pass interception by halfback Bobby Morgan.
With the college name in national ratings, the Atlantic Coast Conference Championship, and a possible Bowl bid in the eyes of the Tigers, this game was a must.

The first three periods passed scoreless, but the Tigers cracked the Wolfpack defense early in the fourth quarter on a 51-yard drive which featured halfbacks George Usry and Bill Mathis grinding out chunks of yardage. Usry scored from the one, and the two-point pass attempt was over the head of end Wyatt Cox.

An extra short Wolfpack punt, good for three yards, set up the Tigers' second touchdown from the Wolfpack 33-yard line. Halfback Bob Morgan slanted off tackle for 15 yards and pay dirt. The extra point try was good and the score stood 13-0.

With the aid of a 15-yard penalty, the Wolfpack took over and drove 55 yards to their only touchdown. It came when quarterback Cackonic passed to end Drexier. The extra point attempt failed, and the Tigers had won their second ACC Championship in three years.

**Tigers Defeat Wolfpack, 13-6**

**Win ACC Championship**

Robert Chatlin watches his interference take out two Wolfpackers in the Championship Game.

Lou Cordileon, directed by Charlie Horne, paves the way for another long run.
The Tigers crashed by the Boston College Eagles in one of the season’s greatest offensive shows.

The first period was hard-fought, but the Tigers overlapped a drive from the first period to the second period, and produced the first TD of the game with quarterback Lowndes Shingler hitting end Wyatt Cox with a 10-yard pass. Shingler then tossed to halfback Bill Mathis for the two-point extra points, and the Tigers closed out the half leading 8-0.

The third period saw fullback Doug Cline break loose for 31 yards and the Tigers second TD. Shingler added one point with a kick to bring the score to 15-0.

Halfback Charlie Horne scored from the one-yard line in the opening minutes of the fourth period for the third TD. Thirty-two seconds later, Horne ran a BC fumble to pay dirt for the fourth TD. Shingler added one more point to make the score 28-0. The Eagles unveiled a secret weapon and scored twice to bring the score to 28-12. Quarterback Johnny Goff tossed to Bill Mathis on the dead run for a 47-yard TD, and the final score of 34-12.

Tigers Set Sights On Bowl, Bounce BC, 34-12

Lowndes Shingler turns left end as Eagle grabs for his nose guard.

George Usry prepares to lower his head into the stomach of a big Eagle.

Bobby Morgan, Tiger "Little Man," cocks his leg to hurtle a BC halfback.
Tigers Clinch Sugar Bowl Bid With Furman Rout, 39-19

A small crowd of 20,000 watched the Tigers pour the power on the Furman Purple Hurricanes to clinch the post season bowl bid to The Sugar Bowl in New Orleans, Louisiana. The first half belonged to the Tigers—passes were completed, and ground gains were enough to make the first downs. The score at half time showed Clemson 32 and Furman 0.

In the third period, the Hurricanes bounced back under good leadership on the field to score their 19 points in their attempt to close the gap. The Tigers, not pushing too hard, scored only once, and made the one point extra to bring the score to the final score of 39-19.

Outstanding play by linemen Lou Cordileon and Bill Thomas, along with Lowndes Shingler and Doug Cline in the backfield, accounted for the Tigers tremendous victory which closed out the season with an 8-2 record and the Atlantic Coast Conference Championship.

A Furman halfback goes high in the air to make a six point attempt good.
Vickers Leads Cheers; Spirits High For Teams

As in all events, the spirit with which the event is entered determines the outcome. Tony Vickers, acting as head cheerleader, kept the spirit of the Troops at an all time high. He and his staff of ten were present at every football game, and all the home basketball games.

The white suits with the purple ivy league stripes were standard uniforms. The Country Gentleman and the Tiger, whose antics are long remembered by Clemson men, aided greatly to the high spirits.

Although the Tigers may be defeated on the field, they will never be beaten spirit-wise. The Cheerleaders hold a job, not a title, and a job well done, too.

Nancy Edwards and Joe Bagwell dance while the Tigers pour a shellacking on Boston College.

Tiger Roundballers

Man, These Tigers are holding some height!

JUNIOR LETTERMAN, DON CARVER GOES INTO THE AIR FOR A SHOT AS DOUG HOFFMAN, GEORGE KRAJACK, AND WALT GIBBONS EYE THE BALL.
The Clemson Tigers faced games at home and games at their opponents' homes with every team in the Atlantic Coast Conference in addition to games on a home and home basis with the Citadel, Furman, and Georgia. Mingled in with the 1958-59 season was the Steel Bowl Classic at Philadelphia, Pennsylvania, and the Carrousel Classic at Charlotte, North Carolina.

At the time of publication of this annual, the Tigers were beginning to put the finishing touches on their season with an overall record of five wins and thirteen losses. The Tigers finished in third place at the Steel Bowl and seventh at the Carrousel Classic. A total of five games remain to be played in addition to the Atlantic Coast Conference Tournament which will take place March fifth through the seventh at Raleigh, North Carolina.

This year marks Coach Press Maravich's third year as varsity coach at Clemson. This year's team was paced by eight returning lettermen from the 1957-58 squad. Among the starters, Don Carver and George Krajack led in field goals with 88 out of 223 attempts and 76 out of 203 attempts respectively. The Tiger Roundballers scored 988 points for an average per game of 54.9, while their opponents scored 1130 points for an average of 62.8 per game.

The wins included Duke, Miami (Florida), South Carolina, Virginia, and Maryland. This year will undoubtedly prove to be valuable experience for the Tigers as only two lettermen out of ten will finish this season.

A Terrapin uses a Tiger to get a little extra height on a jump ball.

Tiger Cindermen Finish

Moose Keller makes many facial expressions as he lets go.
Successful Season With One Loss

When the dust and the flying cinders had settled, the Clemson trackmen had completed a very successful season. They lost only one meet during the regular season, and placed second in the State Meet at Clinton.

Despite the loss of last year's team captain, Dale Tinsley, Coach Banks McFadden hopes to have an even better team than previously. This accomplishment will depend largely on the sophomores who will rise from the freshman team.

The nucleus for the '59 squad will be composed of John Dunkleburg, Walt Tyler, Paul Snyder, and Wilbur Simmons. Last season Snyder topped the ACC record for the javelin throw. Dunkleburg tied the ACC record in the 440 and the 880 yard dashes.

Other names which appear on the '59 squad are Bill Mathis and Walt Ullig.

WILBUR SIMMONS DEMONSTRATES TO VISITING TRACKSTERS HOW TO PERFECT THE RUNNING BROAD JUMP.
1958 MEETS

Georgia Tech vs. Clemson . . . . . . . Won
North Carolina vs. Clemson . . . . . . . Won
South Carolina vs. Clemson . . . . . . . Won
N. C. State vs. Clemson . . . . . . . . . Won
Duke vs. Clemson . . . . . . . . . . . . . Lost
Furman vs. Clemson . . . . . . . . . . . . Won
Wake Forest vs. Clemson . . . . . . . Lost
ACC Meet . . . . . . . . . . . . 6th Place

Though lacking in depth, the 1958 Clemson Cross Country Team united for a very successful campaign. After posting an impressive 5-2 record during the season, the cindermen went on to win the state championship for the second straight year. Later the distance men placed sixth in the Atlantic Coast Conference meet.

Walt Tyler, the captain of this year’s squad, took number one position in the state meet while John Dunkleburg placed fourth. Fifth and sixth positions were also taken by the Clemson team.

In the conference meet, Tyler placed ninth, and Dunkleburg was also placed among the leaders of the 60 men competing.

Leon Newman, Harold Merck, Bob Ervin, and Gene Philips rounded out the ’58 squad. With the exceptions of Tyler and Newman, all of these boys will be returning next year. With help from the rising freshman team, Clemson can expect another winning season.

Distance Men Take State Championship Second Straight Year
Swimming Team Lacks Depth For Intercollegiate Competition

The 1958-59 Swimming team composed of only six swimmers and a diver did not have a successful season. The members did all that anyone could ask, but the lack in depth of the team proved fatal.

In many meets Clemson would take first place only to lose because of second and third places being taken by the opposing teams.

The outstanding member of the team was its captain, Louis Ackerman. He placed first in every dual meet and second in the ACC Championship meet.

With additional help from the rising freshmen, the 1959 team should show better results when the final tally is taken. This year’s team has placed first in many meets also. However, they have been seconded and thirdered into many defeats which should have been in the win column.

Swimmer Clayton Cox shows the necessary movements for a backstroke.
Tiger Golfers Finish Split Season; Six Wins Six Losses

With two rising sophomores and three returning lettermen, Coach Bob Moorman’s golf team hopes to better its 6-6 record of last year. Returning lettermen include senior Toddy Crittenden, and juniors Mac Long and Burnham Uhler. Lost from last year’s squad are team captain George Warren, Kit Hane, and Melvin Mattison. The rising sophomores which are expected to strengthen the squad include John Murray, Bob Moser and Buddy Grant.

Last year’s 6-6 record includes a win over Wake Forest, who, at the time, was defending the ACC championship. Another big win for the Tigers was a win over the present state champions, Furman. The Tigers finished third in the State Intercollegiate Meet, and seventh in the ACC Championship Meet.
Tennis Team Finishes Season With Mediocre Record

After two years of reign under a new coach, Longshore, the 1958 Tigers finished their season with 6 wins and 4 losses. A main factor in the Tigers net play was the six returning from the 1957 squad.

Losses which the Tigers encountered were Duke, Maryland, Virginia, and Georgia.

Outstanding team play accounted for the Tigers wins. Much of the help for 1959 is expected to come from the rising sophomores of the 1958 Freshmen Tennis Team.

Tiger Leftfielder, Larry Wilson, puts on a batting demonstration against Furman early in season.

Tiger Baseballers Clinch Titles of State

Butch Coker flips off his mask to keep an eye on a pop foul.

Tiger first baseman Fred DeBerry rounds third and heads for home plate in another Tiger victory.
Atlantic Coast Conference And District 3 NCAA Champions

The Tigers under a new coach, Bill Wilhelm, finished their 1958 season with 21 wins and 6 losses through the College World Series. These 21 wins included the S. C. State Champs, the ACC Crown, and the District 3 NCAA Title. The squad lost only two lettermen from the 1957 team, and moved up from the cellar to the top in 1958. With shortstop Bud Spires, and left fielder Larry Wilson as the team captains, the Tigers wrote down a winning season as well as a record-breaking season. Bud Spires set an ACC high of 33 RBFs, and tied the ACC high of four home runs. First baseman Fred DeBerry led the ACC in doubles for 1958 with eight to his credit. Third baseman Larry Bagwell scored the most runs and stole the most bases. Bud Spires led in the number of base hits, while outfielder Bailey Hendley led in base on balls.

Pitchwise, Harold Stowe won 13 of 19 games and held an earned run average of 2.39, while Ed Lakey won six of 14 and held an earned run average of 3.33.

The team batting average was .273 to the opponents' .246. In the NCAA Playoffs, the Tigers defeated George Washington, Florida, and Florida State to move to the College World Series at Omaha, Nebraska. Here the Tigers met defeat from Holy Cross and Western Michigan, after defeating Arizona to finish the season with a total of 22 wins and eight losses.

Freshmen Footballers Cop Title of ACC Champions

Freshmen Basketballers Revenge on Three Losses in 1959

The fine coaching of “Goat” McMillian produced a freshmen squad that turned in an impressive record of three wins and two losses. In the ACC standings, the Baby Bengals posted a three and zero record to cop the title.

The Bengals progressed as the season progressed. This year they met N. C. State, Georgia, USC, Georgia Tech, Wake Forest. Many of the athletes in this picture will compose the 1960 varsity squad.

The Baby Basketballers lost but three games out of the season’s schedule, and found enough fight to revenge each loss with a win in the second game. The Freshmen ball club is a reflection on head basketball coach Press Maravich. Each member has been scouted, recruited, and is future material for the varsity team. The names which compose the freshmen roster will appear on the varsity list next year.
At the time of this publication, Sergeant First Class Charles Keller and Captain Carmichael have coached their 1959 Rifle Team to four wins and no losses out of sixteen scheduled meets. Their hopes for Intercollegiate Rifle Teams may be expressed this way: The Rifle Teams of colleges should earn letters, and the Atlantic Coast Conference has great possibilities of a Rifle Team from each school. They hope for a winning season again this year. This year’s marksmen are paced by the two top men, Captain Franklin David Dye, and Jerry Bailes, who are the top two respectively.

The 1960 Tiger Rifle Team should receive much help from a very high scoring Freshman Team.

This year’s team has the great asset of returning lettermen from last year’s squad.

Clemson Rifle Team Opens Season With Wins

FIRST ROW: Ladson Dubose, Daniel Burr, Allen Traylor, John Dean, and Bob Corn. SECOND ROW: Tommy Boseman, Hugh Cannon, Ed Muckenfuss, Randy Willingham, and Marvin Spearman. In rear is Captain Dye. Absent from the picture are Jerry Bailes, Roy Hensly, and Walden Coyle.

MILITARY
Army R. O. T. C.

The Army R. O. T. C. units at Clemson and throughout the nation have taken a very important spot due to the unrest and distrust that reigns over the world. Officers such as those who graduate from Clemson are more than doing their part for the defense of our nation. The need for intelligent, able leadership has definitely become obvious and the R. O. T. C. program has been stepped up to include some of the practical aspects of military training. The course of instruction at Clemson produces the men necessary for the job. These courses have as their objective the production of officers possessing qualities and attributes essential to their progressive and continued development in the Reserves and Regular Army. When the time arises the Clemson graduate will reflect the thoroughness of the training.
Air Force R.O.T.C.

The ultimate goals of the Clemson A. F. R. O. T. C. program are to give the students an introduction to air power and to instill in them the leadership training that is essential to an Air Force Officer. In the basic program, students receive fundamental instruction on the role of the Air Force in today's world of unrest. Military courtesy and leadership training also play a major role in the basic cadet's instruction. The advanced phase of A. F. R. O. T. C. consists of instruction in personal leadership, basic flight training, and aerial warfare. Summer camp, between the cadet's junior and senior years, gives the cadet an insight into the everyday life of an officer as well as the operations of the U. S. A. F. Upon graduation and the completion of the advanced course, the cadet receives his commission and is ready to join the ranks in the United States Air Force.

FRESHMAN PLATOON

THE COLOR GUARD
While most college men were enjoying a long, pleasurable summer, over 125 advanced A. S. and M. S. students were having a blast(?) at summer camp. A full schedule included long hikes, rigorous inspections, and nights of blissful sleep lasting from midnight till 3 a.m.

It is during these rigorous weeks that the cadets put into actual use the principles learned in their military classrooms.

Dull and boring to the average cadet, challenging to the potential career man, exasperating to the instructor - such might be the story of summer camp. The experience, seasoning, and training gained there, however, will prove to be a valuable asset in the future.
The Scabbard and Blade represents the top cadets on the campus enrolled in Army and Air R. O. T. C. Its members are chosen from cadets who have obtained honors, both in military and scholastic standing. The objectives of the Scabbard and Blade include the following: to raise military standards at Clemson, to unite in a closer relationship the cadets and the military department, to encourage and foster the essential qualities of efficient officers, and to promote friendship among the cadet officers. It is a great honor to the cadet who receives a bid to this organization, for it is recognition of display of superior leadership ability and excellence in the military field. The club activities include the annual Military Banquet, and Military Ball.
The Arnold Air Society is an organization composed of outstanding Air Force R. O. T. C. cadets. It was founded in the memory of the late General "Hap" Arnold of the U. S. Air Force. The Society has squadrons in 188 of the nation's colleges and universities. Up until 1958 the organization was composed of only advanced cadets, but during the 1958 conclave held in San Francisco, an amendment was passed allowing basic cadets to become members of the society. All members, both basic and advanced are chosen on their personal merit. A group consciousness among the members, coupled with the improved officer-cadet relationship fostered by the Society, leads directly to a more stronger, more efficient cadet corps.
Executive Sergeants

Betterment of the school and of the student body is the main platform on which the Executive Sergeants Club is built. This club, which is composed of the ranking non-commissioned officers in the R. O. T. C. program, serves as a chief coordinator between the high command and the military students. The Executive Sergeants have taken on many projects: a Homecoming display, a saber drill at the Military Ball, a conduction of competition for best drilled cadets and flag raising ceremonies. Other projects foster and perpetuate a true spirit of fellowship and cooperation among its members and the other members of the R.O.T.C. program. Regular meetings of the organization are held during the year. At these meetings problems which are common to both members and the military students are discussed. As a result of these discussions, the group is beneficial to the military program.
The Society of American Military Engineers was formed to help prepare engineering students in advanced R. O. T. C. Since then the prerequisites have changed. Now any student in advanced R. O. T. C. or majoring in any phase of engineering is invited to join the organization. The Society takes field trips to such engineering feats as the Hartwell Dam, and also to local construction projects and harbor dredging. Several films are shown during the year for both entertainment and education. Also, speakers are often invited to speak to the members at their meetings. The Society feels that everyone could benefit from the Society because many phases are covered in field trips and in the bi-monthly magazine. A highlight of the year is the presentation of medals by the National Society of R. O. T. C. Recognition Day to one junior and one senior.
The development of the highest ideals of the military profession and the promotion of American citizenship are the primary purposes and concerns of the 4th Regimental Headquarters of the Pershing Rifles. The home of this organization is here at Clemson. It promotes the fundamentals of leadership in some 135 colleges within the boundaries of South Carolina, North Carolina, Alabama, Georgia, and Tennessee. The 4th Regimental Headquarters promotes and directs an annual assembly and drill meet in which all of the Pershing Rifle companies participate. At some time during each year an inspection trip to each of the companies is made in order to assure that proper training is being offered in each unit. The purpose of all these functions is to bind the many units within the organization into a closer knit command.
On almost any cold morning or foggy night the Pershing Rifles can be found perfecting their close order drill. Many long hours of work are necessary before the P. R.'s participate in the various parades, football games, and competitive drills. The most important of these appearances is the National Drill Competition which takes place each year in Washington, D. C. The P. R.'s have always placed high in this competition.

The Pershing Rifles, Company C-4, is composed of sophomores who have completed one year of military training. The new members are selected in the spring of each year, and the officers are selected from the members of the previous platoon.

The only reward for the long hours that the members practice and drill is the knowledge that they are members of one of the finest drill units in the nation.

J. T. DEATON, Leader

Pershing Rifles initiates undergo a week of rought initiation and provide some dinnertime entertainment during the process.

The Senior Platoon

With its popularity growing every year, the Senior Platoon has brought much favorable publicity to Clemson. The members of this fancy drill team were chosen primarily for their drilling and teamwork abilities. This precision drill unit has become nationally famous by drilling in events throughout the United States. To achieve such excellence in drill, many long hours were spent late at night and early in the morning at work, ironing out the smallest faults. The precision that the Senior Platoon has could not be without the full cooperation of each member. It is only through their willingness to work that the platoon can accomplish its job. This year's program included the Carolina-Clemson football game, Homecoming, various Christmas parades, the Mardi Gras, and many other fancy drill exhibitions. The only reward the members of the platoon receive for their work is the knowledge of a job well done.
The Senior Platoon at halftime of the Clemson-Carolina game, an annual appearance.

The boys do series "XYZ," a favorite parade maneuver.
The Blue Key National Honor Fraternity is recognized as the top honorary and leadership organization at Clemson. Its members are picked from the highest ranking students, both scholastically and extra-curricularly, in the Junior and Senior classes.

Among the accomplishments of the Blue Key are *The Blue Key Directory*, the Blue Key Dance held during the State Fair in co-sponsorship with the South Carolina Chapter, and the planning and co-ordination of Tigerama, the Homecoming extravaganza.

Members are selected each semester from the most outstanding juniors and seniors. The qualifications for membership also make up its purpose: Ambition for intellectual attainment and a desire to serve college and fellow students.

N. P. WELBORN, President

Blue Key Remains Top Honorary and Leadership Fraternity
BRUNER AND GRAVELY DISCUSS CAMPUS PROBLEMS WITH DR. BURTNER WHILE WAITING FOR MEETING TO BE CALLED TO ORDER.
One of the oldest and most recognized organizations on campus, the Tiger Brotherhood, founded in 1916, is a fraternity dedicated to a betterment of relations between the faculty and student body. Membership, gained by invitation, is open to all classes.

Members are selected for their interest in Clemson College, their merits gained in other phases of college-life, and their proven desire to serve unselfishly for the benefit of their fellow man.

Outstanding projects include a Christmas toy drive for underprivileged children of the area. Student-Faculty suppers, and the annual selection of Clemson’s “Mother of the Year.”

Numeral Society Continues Series of Noteworthy Projects

This group, founded three years ago, has taken its place among the top service clubs through its hard work and rigorous activities. These projects have helped the Numeral Society to fulfill its primary function: service to Clemson College. Among these services is the elaborate float prepared for the Homecoming Queen every year. Active support of Tigerama, assistance to the Bloodmobile program, and numerous smaller services have also been a valuable part of the program of service activity.

The Numeral Society has for its purpose to initiate, develop, and perpetuate the tradition of great school spirit that has and will make Clemson College grow in stature among colleges and universities.

Every semester new members are elected to serve as pledges for one semester. At the end of this time they are voted on for active membership.
One of Clemson's foremost service clubs, Alpha Phi Omega is a national service fraternity organized on the basis of the Scout Oath and Law. Its members ordinarily are men who have previously been registered members of the Boy Scouts of America. The objectives of Alpha Phi Omega includes service to the student body and faculty, to youth and community, to members of the fraternity and to the nation as participating citizens.

Alpha Phi Omega, during the school year, sponsors many projects. A few of these include the distribution of desk blotters to each student's room, the distribution of "Career" magazine to the seniors, and "Alumni Loyalty" Pamphlets to all students, and the collection of food at Christmas and Thanksgiving to be given to needy families in the Clemson area. This year the fraternity also took an active part in "Tigerama."

"In things essential, unity; in things non-essential, liberty; in all things, charity." This is the Presidential Creed which guides the activities of Clemson's newest student organization—Sigma Rho Beta service fraternity.

The fraternity was conceived and established for the purpose of serving the student body through the medium of radio. These services are actually performed in a dual capacity. Besides being a direct link between the student body and the radio station, it serves to promote student radio at Clemson throughout the United States.

The fraternity's service activities also encompass areas not directly connected with radio broadcasting. It promotes activities which benefit the community as well as the college.

Sigma Rho Beta Debuts as Service Fraternity

DAN RICHARDS, President
Theta Tau Kappa was founded in 1956 as the Coed Club, an organization to which all coeds might belong. It was and is the purpose of the club to give the women students a feeling of togetherness.

This year the club emphasized the lowliness of a Rat, and held Rat Week during which the freshmen rendered services to the upperclassmen.

In Tigerama, Clemson's Homecoming extravaganza, Theta Tau Kappa presented a comical take-off on a public speaking class. On the eve of Christmas holidays the club held its annual Christmas sing in the student lounge for all students.

Each year the club grows in membership and in its influence for good and service.

DADDY "POOLE" READS BEDTIME STORIES TO FELLOW "VETS" AND THEIR WIVES FROM A SKIT PRODUCED FOR TIGERAMA.
This organization was established in 1897 to provide an honor society dedicated to the unity and democracy of education.

The Clemson Chapter received its charter in 1938. Membership is open to all departments of the school but the requirements are probably the most strenuous of any organization on the campus since eligibility requires a cumulative grade point ratio of 3.2 for seniors.

The prime objects of Phi Kappa Phi is to emphasize scholarship and character, in the thoughts of college students, to foster the significant purpose for which institutions of higher learning have been founded, and to stimulate mental achievement by recognition through being elected as a member.

A banquet is held twice a year for the members.
Phi Eta Sigma is a freshman honorary fraternity that is open to first or second semester freshman with a cumulative grade point ratio of 3.5 or better. They participate actively for two years, after which, members revert to an inactive status although they remain on the roll.

This fraternity promotes scholarship at Clemson and engages in many extra circular activities, among these Tigerama publicity, Homecoming display, and the annual banquet in the spring for new initiates.

Phi Eta Sigma was organized to give credit to those students having a B-plus average. They try to encourage freshman to study and give them a goal to work toward.

The Clemson chapter was organized in 1940 and since that time has served Clemson in the best interest of the school.

The fraternity of Alpha Zeta is composed of all regularly initiated student, alumni, associate members and honorary members. Student members are selected from undergraduate and graduate agricultural students of high scholarship on the basis of character, leadership and personality.

The object of Alpha Zeta is to promote the profession of agriculture; to establish, foster and develop high standards of scholarship, character, leadership and a spirit of fellowship among all its members; to create and bond together a body of outstanding technical men who by scholarly attainment, faithful service, and maintenance of ethical ideals and principles have achieved distinction and are capable of honoring distinction to others; to strive for breadth of vision, unity of action and accomplishment of ideals; to commend all worthy deeds and if fraternal welfare demands, to counsel with his workers.

Honorary Fraternity for Agricultural Majors is Alpha Zeta
Minarets Recognize Students for Architectural Excellence

Composed of a select group of students, the Minarets represent the School of Architecture.

Because of the intensive curriculum an Architectural major must pursue, membership in this group is held dearly. It also serves as a goal for other students to strive toward.

It is the privilege of the Minarets to hold informal luncheons for visiting lecturers, some of whom in the past have been Buckminster Fuller; Richard Neutra.

The club, founded in 1926, the second oldest on campus, counts many of its past members as leaders in the growing architecture of our country.

This year, under the leadership of Jack Parillo, and the advice of Mr. George Means, the faculty advisor, a new and more vigorous program is anticipated.

J. A. PARILLO, President
Sigma Tau Epsilon, honor school for the School of Arts and Sciences, was established with the purpose in mind of promoting scholarship and character among all students in the school.

To be eligible for membership in the fraternity, a student must have an academic standing of junior or senior with a grade-point-ratio of 2.7 or better. He must also receive a vote of a majority of the current members.

Each year the fraternity sponsors many worthwhile campus-wide activities including the Sigma Tau Epsilon short story contest and the Spring Lecture Series. The sophomore having the highest grade-point-ratio is presented with a certificate of free membership on Scholarship and Recognition Day each spring.

Tau Beta Pi is a national honorary Fraternity established to encourage scholarship in engineering. Its members are students in agricultural, ceramic, chemical, civil, electrical, or mechanical engineering. Desirable character traits plus leadership ability must be possessed by a member of this group. In addition to this, a student must be a junior or senior in at least the upper fifth of his class scholastically. Becoming a member of this organization is the highest honor an engineering undergraduate can obtain.

Membership in this organization does not guarantee success, but membership does place a mark of distinction on a student that will not fade with the passing years.

CHARLES HORN, President

Tau Beta Pi Encourages Scholarship Among Engineers
Textile Students Center
Interest In Phi Psi

The purpose of the Iota Chapter of the Phi Psi Fraternity is to bind members of the student and business world together in mutual professional interest. The Iota Chapter of Phi Psi Fraternity has the honor of being called the first Greek letter fraternity to become established on the Clemson Campus. The original founding of this National Textile Fraternity took place at the Philadelphia Textile Institute in 1903.
Sponsoring concerts, ushering at Clemson musical concerts, and keeping past members informed of the club’s services compose the activities of Mu Beta Psi.

Any student who has served at least two years in any musical organization on the campus is eligible for membership in Mu Beta Psi. This club was organized for the purpose of furthering music and musical organizations. It also furthers interest among non-musical students.

This exclusive organization has a long and arduous initiation. Initiates must stand and play such selections as “Tiger Rag” and “Dixie” while the members paddle their “bottoms” in the honored Clemson manner.

Mu Beta Psi Requires Musical Background
PROFESSIONALS
The American Ceramic Society was chartered at Clemson to promote ceramic science and education to its members. The requirements for admission are to be of sophomore standing and to be a major in ceramics. One of its many purposes is providing publications for its members and holding scientific meetings which furthers the members' knowledge of ceramics. The American Ceramic Society sponsors student chapters which give the student an important introduction into the learned society of his chosen profession. The American Ceramic Society also provides students with guest speakers, job interview service, and other things of importance to them. The student chapter promotes fellowship among the ceramic engineering students in addition to providing important background material for their educational program. The new members also have to undergo a week long initiation before becoming a full pledged member.

The student chapter of the American Institute of Architects is a campus organization of professional status. The organization is unique in that it is sponsored by a parent group, the American Institute of Architects.

Its purpose is to promote student interest in architecture and its allied arts and to enlighten him as to the position he will assume in the world today.

This year the chapter moved, along with the School of Architecture, into its new building. Accommodations provided for the group to hold its drop-ins, smokers, and meetings.

The AIA will sponsor, as it did last year, the student art competition and is making plans for its first Beau Arts Ball.

As well as being a professional organization, the chapter functions as a social nucleus for architectural students. The AIA also provides for an auxiliary chapter for wives of married students to help to further their understanding toward the architectural profession.

AIA Promotes Interest in Architecture and its Allied Arts
To become a member of AIChe, a student must be enrolled in Chemical Engineering, he must have a sophomore rating, and he must complete a week of initiation. Activities for this year include two socials, and a smoker which brings back graduates in Chemical Engineering from previous years to give the students a broader insight as to just what Chemical Engineering in industry actually is. The AIChe also furnished ushers for Tigerama this year. The purpose of the Student Chapter of the American Institute of Chemical Engineers is to promote the professional development of its members by its programs and by its relations with other student chapters and the parent body, and to contribute to the development of chemical engineering at Clemson College through activities involving the faculty and all classes of student members.
The American Institute of Electrical Engineers and Institute of Radio Engineers is a professional fraternity which is made up of juniors and seniors majoring in the field of electrical engineering. Advancement of theory, practice of electrical engineering and of allied arts and sciences, the development of the individual engineer: these are the objectives that the A.I.E.E.-I.R.E. strives for.

The local chapter offers to the student of electrical engineering the opportunity to increase his knowledge of his chosen profession outside the classroom by the presentation of speakers, by demonstrations, and by research.

AIEE-IRE Strives For Individual Development

D. A. YARBROUGH, JR., President
The South Carolina Student Branch of the American Society of Agricultural Engineers has as its purpose on the Clemson campus the promotion of the interests relating to professional engineering.

This objective is accomplished through various activities: Bi-monthly meetings of the organization at which programs of professional or general interest are presented; participation of the organization in college-wide campus activities; field trips to observe developments in the field of agricultural engineering; social activities among the student and faculty members of the Clemson branch and with the student branches of other colleges; and affiliation with the parent society, the American Society of Agricultural Engineers.

All students majoring in agricultural engineering with the exception of first semester freshmen are eligible to become members of the student branch of ASAE. Also, interested students of other curriculums can become affiliate members of the organization.

By giving its members an opportunity to exchange ideas and make personal contacts, the American Society of Civil Engineers present the members with an idea of what to expect in their particular field upon graduation.

The purpose of the organization is to promote higher professional standing among its members, the advancement of engineer and architectural facts, and to encourage fellowship and cooperation among its members.

Members are selected from students in the upper three classes who are majoring in Civil Engineering, possess a satisfactory grade point ratio, and have the traits of good personality and character.

Idea Exchange, Contacts, Facts Presented By ASCE

J. C. EDWARDS, JR., President
Future Engineer's Role Concerns ASME Members

Movies, speakers, information related to the mechanical engineering profession, and field trips helped to give this year's A.S.M.E. members an opportunity to observe the engineer's role in industry, thus broadening the student's concepts of professional practice.

One of the oldest engineering affiliations in the United States, the American Society of Mechanical Engineers is open for membership to all students enrolled in the mechanical engineering curriculum. Meetings are held twice a month, and each meeting is set up with one purpose in mind: to bring together engineering students of common interest and to provide the invaluable framework which enables student engineers to develop professionally.

The Block and Bridle Club was organized in 1932 and received its present name in 1948 when it was admitted into the National Block and Bridle Club.

The primary aim of the club is to encourage and promote interest in the livestock industry and a close relationship of men interested in the breeding, feeding, and management of livestock.

Among the various activities of the club are two barbeques, one at a football game and one at the annual spring intra-squad game, the financing of a livestock judging team and a meats judging team to various intercollegiate contests, and a great interest in "Clemesta." The Clemson Little International is an annual livestock show sponsored by the club. The climax of the year is the annual banquet at which awards are given to winners of the Clemson Little International and outstanding members of the club.

Livestock Industry Featured In Block and Bridle Club
The Forestry Club of Clemson College, being only in its second year, has come a long way since it was first organized in September, 1957, toward presenting to the forestry students of Clemson a broader and more realistic outlook on the profession they have chosen to follow. In 1958-59 the members were offered programs which were designed to present, through talks by specialists in a particular field of the forestry profession, a better concept of the varied jobs they might be required to perform.

The culmination of the year's activities is the Southern Forestry School's Conclave which this spring will be held at L. S. U. This is a field day in which forestry students compete for prizes in such contests as cross-cut sawing, log burling, ax chopping, and fly casting. In preparation for this event, a field day is held at Clemson and the winners in the events become the representatives at the regional conclave.

Woodsmen Are Enlightened By Numerous Programs

WEEK OF INITIATION ENDS WITH FOOD, "BROOM SWINGIN," AND FINALLY THE SIGNING OF PLAQUES.
The Industrial Management Society was organized at Clemson in order to promote fellowship among the members of the Industrial Management department, to promote better relations between students and faculty, and to promote further study and education preparatory to entering the field of Industrial Management. The club also acts as a liaison between the Industrial Management students and the placement officer.

To be a member of the Industrial Management Society a student must be nominated by the Membership Committee and elected by a two-thirds vote of the club. In addition, he must also be a member of the academic junior or senior class.

The activities of the club include a smoker at the beginning of the year, an affiliation with other school organizations in putting on Tigerama, prominent speakers, and field trips.

IM Society Features Industrial Management

JUNIUS SMITH, President
The Society for the Advancement of Management was organized on the college campus in the spring of 1957. Sponsored by the S. A. M. Senior Chapter in Greenville, it is one of the many student chapters which are located over the entire U. S. in colleges and universities.

The purpose of S. A. M. is to bring together the students in all departments who are interested in a management career. From a small beginning in the spring of 1957, S. A. M. has become a prominent organization of Clemson College.

In the highly industrialized society of the twentieth century, it is no longer possible for single organizations or individuals to function solely within their own boundaries. It is necessary for all facets of management to share its problems and its advantages in order that the highest caliber of service be administered to the ever changing ways of a modern world.

SAM Encourages Interest in Management Careers

JIM CARTEE, President
Field trips to chemical plants, speakers from chemical industries, and participation in the Science Fair, mixed well and digested fully, brought chemistry home to A.C.S. in 1959.

The sale of lab aprons and social events took chemistry out of the limelight and broadened the interest of A.C.S. members.

All members of A.C.S. were drawn from students in Chemistry, Chemical Engineering, and Textile Chemistry.

Acquaintance with professional organizations, promotion of higher scholarship, and stronger bonds of friendship were and are the ends of the A.C.S.

Major In Chemistry Field Requisite For ACS Members
The Agricultural Economics Association was reorganized in September of 1955 for the primary purpose of creating and promoting fellowship among Agricultural Economics majors. Other purposes of the club are to study current agricultural and economic problems, to obtain an understanding of the services agricultural economist can render, and to provide opportunities for better acquaintances among members and professional workers in the agricultural social sciences. Projects undertaken by the club in 1958-1959 were operating vending machines, "egg co-op," and presenting programs of job opportunities for members. The social functions of the club included a fall picnic, Christmas party, and Spring banquet. The club welcomes anyone majoring in Agricultural Economics or Economics to join or to attend meetings.

Membership in A.D.S.A. is based on interest, attendance, and participation in programs. One of the many activities consists of building a display for the "Homecoming" weekend. The club also sponsors the dairy cattle judging team and the dairy products judging team by assisting their team members financially on their trip. With further regard to membership, there is a short initiation period which new pledges must undergo. This is terminated by a formal initiation. The members of the club, in conjunction with the dairy staff, sponsor an annual picnic for the purpose of furthering relations between students and faculty members. The meetings are scheduled every second and fourth Tuesday. Last year a display was constructed by the club featuring the dairy department during "Clementa." The final activity is the compiling of an annual report to the National American Dairy Science Association. This report, which is one of the requirements for affiliation with A.D.S.A., is in the form of a scrapbook.

Dairy Club Reorganizes; Affiliates With ASDA
Delta Sigma Nu is composed of sophomores, juniors, and seniors majoring in the Pre-Med and Pre-Dental programs who have a cumulative grade point of at least 2.0. The club strives to promote fellowship among the Pre-Medical students, to familiarize them with medical subjects, to promote further study and education preparatory to the continued study of medicine, and to aid prospective medical and dental students in selecting subjects in keeping with Pre-Medical training.

The club presents monthly programs toward maintaining the Pre-Med students' interests and insight into the broad field of medicine. Some of these programs consist of field trips to various schools.

Delta Sigma Nu Joins Pre-Med, Pre-Dentals

HENRY MARTIN, President
The Clemson College Chapter of Future Farmers of America is a local organization chartered to meet the requirements of the National Board of trustees of F.F.A. with reference to the Association of Collegiate Chapters.

Membership is active, associate, and honorary. Any student enrolled at Clemson as a major in Agricultural Education, or who has been an active F.F.A. member prior to entering Clemson is eligible for membership.

There are two grades of membership: Green Hand, and Collegiate Future Farmers. Both are based on achievement and interest.

F.F.A. has many activities, some of them are: The acquisition of speakers, studying outstanding high school F.F.A. programs, cooperation with the state F.F.A. conference at Clemson, and the promotion of Agriculture at Clemson.

With these numerous undertakings, the students learn to teach the farmers how to have better and more productive farms.

Promotion of Agriculture Is Special Interest of FFA
Agriculture Furthered By 4-H Club Members

The Clemson College 4-H Club was organized in May 1952 for the specific purpose of providing members an opportunity of becoming better citizens by furthering the cause of Agriculture. Through projects such as coordinating the recreation during Clemson’s annual Farm and Home week, helping the Student Agriculture Council in sponsoring the Agricultural fair, and taking an active part in campus activities, the club has become an integral part of Clemson College.

4-H members who took an active part in club work in their counties and districts are invited to join this organization.
Problems In Horticulture Field
Discussed By Horticulture Club

The Horticulture Club is a Professional Club for all students who are interested in landscaping, vegetables, and food preservation. A Horticulture major is not a requirement for admission to the club.

The main purpose of the club is to stimulate interest in the field of Horticulture. Some of its many purposes are to keep its members informed on the latest developments in the ever increasing field, and to provide an opportunity for its members to meet with specialists in the field of Horticulture who are qualified to give the best information in matters and problems confronting beginners in the Horticulture profession.

JOHN HOWARD, President
Correct usage of saw is demonstrated to Iota Lambda Sigma members.

Iota Lambda Sigma Taps IE Members

The Iota Lambda Sigma fraternity, one of the first to be organized on the Clemson Campus, is a national Industrial Education fraternity.

The purpose of this fraternity is to promote the causes of industrial education in three ways: recognition of professional training, recognition of high scholarship, and creation and maintaining of a closer fraternal bond between actual and prospective teachers in this special field.

Membership is limited to juniors and seniors who have completed a portion of their major work with a grade of "B" or better.
The Clemson Chapter of the American Society of Agronomy was organized on the campus in 1935. Membership is limited to agronomy undergraduate students who have an active interest in agronomy and related fields.

The purpose of this organization is to stimulate interest in the fields of agronomy and to foster a closer relationship between agronomy students and members of the staff of the agronomy department.

Successful agronomists are always welcomed, as speakers, to present their views on subjects pertaining to agronomy.
Keramos, Ceramic Engineering, was founded September 30, 1902, and was the first professional fraternity in the field of the physical sciences.

This organization was established to provide a professional fraternity open to outstanding students in the schools, departments and divisions of Ceramics and Ceramic Engineering in universities and colleges of the United States and Canada. Its principal object is to promote and emphasize scholarship and character in the thoughts of Ceramic students, to stimulate mental achievement, and to promote interest in ceramic science and engineering.

Keramos Is Ceramics Students Fraternity

HAL CRAIG, President
Club socials, field trips to various textile concerns, and the annual club projects made up the activities of the Alpha chapter of the NTMS.

The National Textile Manufacturing Society is composed of a group of textile students whose objectives are to bring about a more intimate relationship between the textile industry and the undergraduates of the textile school at Clemson. Another immediate objective of the Society is to develop a fraternal spirit among the textile students. It is hoped that the spark received by the members of the organization through their activities will create increased enthusiasm, therefore causing this comparatively young club to become one of the best professional clubs on campus.

Promoting the arts and sciences, as well as the engineering practices connected with the design, construction and utilization of automotive apparatus, is the paramount purpose of the Society of Automotive Engineers. Movies, guest speakers, club projects and field trips were offered to members who cared to participate in them throughout the year.

The Society was chartered in May, 1952, offering membership to all undergraduate engineering students. Mutual interest and the desire to broaden personal education through fellowship with other students brought the men of the society together.

Automotive Engineers Study Various Apparatus

WILLIAM McCOWN, JR., President
The Square and Compass Club of Clemson College was reorganized September 17, 1957. Still an infant organization, but ever striving for a niche in "Clemson" tradition, the club has had a very beneficial and inspiring group for all student Master Masons, to sponsor worthy causes, and to stimulate interest in masonry among the transient Brothers of the Craft.

The club has organized a first degree team for giving the first degree into masonry. This has been accomplished through the help of Mr. A. M. Sheriff, Mr. J. C. Hubbard, H. H. Moss, and the Clemson Masonic Lodge along with the full cooperation of the club members.

To be eligible for membership in the Beta Sigma Chi the applicant must be enrolled in Clemson College, live within a fifty mile radius of Charleston, or be admitted by an affirmative vote of three-fourths of the active membership.

A prospective member is a pledge for one semester and if he successfully meets the requirements set by Beta Sigma Chi, he is activated during the first regular meeting of the following semester.

PAUL HUND, President

Beta Sigma Chi Serves Charleston Area Students
The Phi Iota Alpha was organized in the spring of 1956 to provide a social outlet for the tri-state students of Clemson. House parties at Pawley’s Island during both the Easter Holidays and the first week in June are special functions of the club, which are supplemented during the school year by other “parties.” Members of the organization are given an opportunity to acquaint themselves better, through the club, with other students from their area.

Meetings are held every two weeks in the meeting room. During the year many prominent speakers have participated in the programs, adding to value of the club.

PIA Gives Tri-State Students Social Benefits

J. M. FLANSWORTH, President
The Horry County Club was organized to promote friendship and unity among Horry County men at Clemson. It has been one of Clemson's most outstanding regional clubs since its organization. Its members are selected entirely of Clemson students from Horry County.

This year's activities included a Christmas dinner and dance, a drop-in at Homecoming, and various other socials.

Dedication to the furthering of public relations for Clemson College is the intimate goal of the Horry County Club.
The fall of 1958 brought with it a new organization to the Clemson campus, the Clemson Dillon Club, called the Kappa Delta Kappa. Formed by the students of Dillon County, the club was designed to promote Clemson and to bring together, socially, the Clemson students from Dillon County. Along with the regular meetings and activities, the Kappa Delta Kappa held special “socials.” Their sponsor, Miss Tootsie Dennes of Columbia College, was chosen as the 1958 Homecoming Queen. It is the desire of the club that the friendship and welcome received in Kappa Delta Kappa will help its members feel as they “belong” at Clemson.

The activities of Nu Epsilon are numerous, extending from social enjoyment to creative ability for the benefit of the school as well as for the advancement of the student's personality. The achievement of competition is procured through the building of a homecoming float, the originality of acting and presenting a well-organized skit for Tigerama, as well as participation in intramural sports. This competition anticipates a fulfillment of the student's personality by instructing him to work in complete harmony with other individuals.

The purpose of Nu Epsilon is to develop a framework of activities within which the essentially northern student may lead a fuller college life and make more effective contributions to the welfare of the school. The organization will assist the student in becoming understanding of his new environment, and will interest him in promoting the name of Clemson College in his homeland.

Nu Epsilon Initiates Activities For Northern Students
The Veterans Club is an organization existing primarily for the benefit of the veterans enrolled in Clemson. To become a member, one has to be a honorably discharged veteran enrolled at Clemson.

The purpose of the club is to promote better relations between the students and the faculty and also to lend aid to needy students who are hard pressed for some unforeseen causes.

The organization is known to the college as initiators of drives to raise money for students. Cases are the Hunter New Fund and help given to individual students.

The club also gives an annual Christmas party for all children of the campus and has built playgrounds on the campus for all children.

In the social field, the club sponsors dances each year for married students and veterans and a few picnics were held during the summer months at Boscobel Lake.

Veterans Have Active Club
To Further Many Interests

ROSS GOBLE, President
Foreign Students Organize; Promote Better Relations

The Foreign Students Association came into being in May 1957 as the result of the efforts and enthusiasm of a group of foreign students then attending Clemson College. This association was founded to help the foreign student with his problems while attending Clemson College; and to enhance the relationship, build good will, and maintain friendship between the American people and the foreign students.

This association enters its second year of activities, after a very successful first year. Through socials, cultural programs of interest to the students, and participation in sports, this association carries out its program and at the same time offers the members hours of fun and relaxation.

Any foreign student attending Clemson College is eligible for membership in this organization.

Baptist Student Union Plans Interesting Programs

Deputations to other colleges, participation in weekly worship services, films, and guest speakers made up the interesting programs for the B.S.U. members during the '58-'59 school year.

The Baptist Student Union is a denominational organization that serves as a connecting link between the college student and the Baptist Church. Its main purpose is to promote spiritual strength through weekly meetings designed for the individual.

Membership in the B.S.U. is voluntary, and the only requirement is that a student be enrolled in Sunday School or be a member of a Baptist Church.
Canterbury Club Welcomes Episcopal Students

The Canterbury Association is the student organization of the Episcopal Church on campus. The organization's total program includes worship, fellowship, service, and study. A new modern building has recently been provided at the local church exclusively for the group which is always open for the use of students.

The group is organized as a student parish under the chaplain, the Reverend Robert L. Oliverous, and a student vestry, which is elected each year by the group.

This association is composed of Episcopal students grouped together for the purpose of promoting religious interest and fellowship. The club affords its members a warm association with church during their college days.
The Jewish students at Clemson obtained both spiritual and moral sustenance through the workings of the Hillel Brandeis Club.

Having no resident Rabbi at Clemson, the Jewish students must, for spiritual guidance, seek outside help. It is for this reason that Rabbi David Gruber, Rabbi at the University of South Carolina, was invited to Clemson to participate in the 1958 Religious Week Ceremonies. Rabbi Gruber held several discussion groups and forums for both Jewish and Christian students. His visit was culminated by a dinner given for him by the Jewish students at the Clemson House.

This foundation was organized to co-ordinate the social, cultural, and religious activities of the Jewish students at Clemson throughout the academic year. It seeks to give the student member a better understanding of his religion through studies of the Jewish life.

Hillel Brandeis Offers Jewish Students Guidance

President Mike Orenstein

S. Heimlich, A. Greenberg, F. Levy, H. Ryttenberg
The Lutheran Student Association, affiliated with the Lutheran Student Association of America, offered to the Lutheran students on campus a variety of programs during the school year. Speakers from the college faculty, and outstanding church laymen appeared at the weekly Wednesday night meetings. Also visiting Lutheran ministers helped to enlighten the members and make them a more purposeful group.

The yearly exchange of deputations with other L.S.A. organizations and the Lutheran Student Assemblies, which the Clemson group attended, gave the membership welcome social opportunities.

Christian fellowship and the promotion of ideals and principles of Christianity are the major purposes.
The Newman Club of Clemson, for Catholic students, is a member of the 600-chapter National Newman Club Federation.

Programs of spiritual, cultural, and social activities have been planned and carried out throughout the year. The above programs offer numerous courses conducted by outstanding Catholic leaders of the area.

Through these programs the goal of the Newman Club, to deepen the spirit and enrich the temporal lives of the group, is reached. Newman Clubbers try to weld the Catholic students into a common union and to assist the college and all its students whenever possible. In doing this, the members follow the Latin motto, "Cor ad cor loquitur," or "heart speaks to heart."

Catholic Activities Are Coordinated By Newman Club

E. Zalewski, Treasurer; T. Stecki, President; Father F. Sullivan, Advisor; J. Suber, Vice President; A. Himiob, Secretary.
Through study, work, fellowship, and service, the Presbyterian Student Association provided a church home away from home for Clemson students in '58-'59. With the purpose of providing an intellectual as well as a spiritually enlightening program for its members, the P. S. A. presented a variety of speakers throughout the year.

To fulfill a much needed social deficiency, deputations from other colleges in South Carolina were brought on campus to help round out the Wednesday night meetings.

Fellowship, a key word to the members of the Fort Hill Presbyterian Church, is strongly stressed to the members of P. S. A. in hopes that in future years the bonds of unity will remain unbroken.
Wesley Foundation Is Campus Methodist Organization

Spiritual enrichment, picnics, and deputations—these are only three of the many important functions of the Wesley Foundation. By participating in these activities and taking an active part in group forums, the student is given a deeper concept of his Christian duties.

The purpose of the organization is to promote an integral relationship between the Methodist student and his church. Along with the opportunity to serve others, the students, by working together in fellowship, develop for themselves ideals and personality traits that are valuable aids in later life, both spiritually and socially.

The Wesley Foundation, which was initially formed here at Clemson in 1938, is one of many similar organizations set up by the Methodist Church for students in state-supported colleges throughout the nation.
Staff Coordinates Clemson Y Activities

The Clemson Y.M.C.A. is one of the best known organizations on campus. Every student, in one way or another, comes in contact with one of the many services it undertakes. The Y sponsors dances, provides pool tables, movies, a swimming pool, ping-pong tables, papers, and magazines. Also, the Y keeps two rooms available to church groups and clubs. General Secretary P. B. Holtzendorf heads the Y.M.C.A. staff and sponsors many activities on campus, providing excellent entertainment for Clemson Students.
The hub, around which all student Y.M.C.A. activities revolve is the Y cabinet.
It is the governing body which arranges for deputations, promotion of inter-church and inter-college cooperation, and other related activities.
The Y Cabinet is made up of council presidents, and other outstanding students who continually work for a better understanding of Christian fellowship.

Cabinet Governs Y Functions For Successful Year

Men of the Senior class, who desire by exchange of ideas and fellowship, to strengthen their own spiritual lives and the lives of others are the type of men that belong to the Senior Y Council. Members of the council, which was organized in 1954, must have an interest in the Y.M.C.A., and be willing to serve the entire school to the best of their ability.

ARTHUR LINDLEY, President

Senior Y Council Prepare Seniors For Future Life

FIRST ROW: Frank Southerland, Robert Cureton, J. R. R. Cooper, Arthur Lindley, Phil Richardson, Gus Conor, Tommy Bryce, Charles Spencer. SECOND ROW: Bob Reese, Frank Edwards, Billy Abbecrombie, Joe Baly, Dwight Strawn, Dong Wha Kim, Ernest Peoples, Bill Austin, Charles Tool.
Sending deputations to present programs, building workshops, and sponsoring various parties and dances are some of the many projects that are participated in by the Junior Y Council. The purpose of the council is to bring together men of the Junior class who desire to strengthen their own spiritual life and the lives of others.

Membership in this organization is based on invitation and election by members of the council. In order to become a member an individual must not only have leadership ability, but also a sincere desire to help his fellow man.

**Junior Y Council Strengthens Members Spiritual Life**

Projects, whether large or small, are the main goals of the Sophomore Y Council. Through the exchange and accumulation of ideas, the members of the council learn to understand and appreciate their fellow companions. In addition to this, they also are able to strengthen their own spiritual lives and the lives of their associates.

Membership consists of members of the sophomore class who are interested in the Y.M.C.A. and have the quality of leadership and the sincere desire to help their fellow man.

Sophomore Y Council Gains Through Fellowship

The freshman Y Council is an active group of young men who come together in a spirit of fellowship to strengthen their lives, exchange Christian ideas, and increase their spiritual benevolence. They strive to serve the members of their class, as well as others in a Christian manner.

A freshman is offered the chance to join the Y council early in his college career. Almost before he has adjusted to the new ways of college life he has created a spirit of stewardship in himself and among his fellow students.

ALAN CLEVELAND, President

Clemson Freshmen Get Guidance Of Y Council

SECOND ROW: Jimmy Martin, Frank Compton, John Dubay, Billy Freeman.

Everywhere you look, the electric power industry is growing and expanding rapidly to meet the ever increasing demands for electricity. Here in South Carolina and especially in the area served by SCE&GCO., the story is the same.

This year of 1959 will be an historic one in this respect. It will see two additional giant power-makers in service at the new McMeekin Station, the fourth steam electric generating plant and the eighth on the SCE&GCO. system.

At Parr Shoals, S. C., the Southeast’s first atomic-fueled electric plant will be under construction by an association of four privately owned power companies with the cooperation of AEC.

In addition, improvements and expansions of transmission and distribution systems continue to increase the efficiency of the delivery of power wherever it is needed and in the amount required.

The bugle sounds for the final time... your year... it and its story, the 1959 Taps, are now complete. Through joy and trial, excitement and despair, elation and defeat, surprise and anxiety the year and the yearbook have grown. The memories remain... in your mind and in your Taps. Fair weather and foul, the staff weathered; produced a book we hope can continually recall 1959, the year and the events; trained a capable staff to produce a book for Clemson in 1960. The year closes; ahead looms another. The year, yours; the memories, yours; the yearbook, we, the staff, hope is yours to enjoy and fondly keep as a reminder of 1959.

WITH GRATEFUL ACKNOWLEDGEMENT TO:

Foote and Davies, Incorporated; Helen Morgan, the steady hand and guiding eye; Dot Smyly, the last minute advisor on details; Earl Sanders, the cover and type consultant. Photographers: Gaspar-Ware Studios, Marion Ware for top class photography and for filling rush orders at a moment’s notice; Neil Gillespie, painstaking in planning special photos — the inside cover, library, loggia, advertising shots and the beauties; Rick Levy, Johnny Crow for splendid, additional student work; Al McCormick who supplied last minute shots; Gene Cantrell, Lewis Reilly of Central Service for many vital photos.

Publications: The Tiger for their interchange of photographs and splendid cooperation; The Charlotte Observer, The Greenville News, The Washington Post, The Times Picayune and New Orleans State without whose help the sports section would have been practically void of pictures; The Garnet and Black for furnishing other photographs. Joe Sherman, for invaluable advice; Ray Davis and the personnel of the News Bureau for valuable information; Dean Walter Cox and Greg Hughes who were always ready with suggestions and ideas; Sybil Albert for motherly encouragement, advice, counseling, and plain hard work; WSBF for continual announcements and spots.

The many students, administration, and others whose interest and cooperation gave an added polish and finish.
