This is the 1965 TAPS. It is the creation of the combined efforts of many people. For the past three years TAPS has received the All-American Yearbook Award. This award is the highest recognition that a college annual publication can receive. We of the staff hope that this year's TAPS follows in the tradition of the preceding books. But more importantly, we hope that the 1965 TAPS is a true picture and history of this past year of Clemson University. There are a number of persons, other than the staff, to whom thanks are due. Dean Cox and the entire Office of Student Affairs gave us much assistance. The photography of Gaspar-Ware, Mr. N. Neil Gillespie, and Mr. Jim Burns was an essential element. Then, of course, the guidance received from Ed O'Cain of the R. L. Bryan Company and from Joe Sherman, our advisor, was of unlimited value. Here is the end result... TAPS 1965.

IMPRESSIONS

This is Clemson... but only for an instant. The Clemson of yesterday. The Clemson of today. The Clemson of tomorrow... they are all different and yet in some aspects they are the same. Once the dream of Thomas Green Clemson... once the inspiring project of Ben Tillman... once a dream, now a reality... once Clemson Agriculture College, now Clemson University... each of us gains a different impression of the campus through our varying experiences. We walk by Tillman Hall and reluctantly admit its rustic beauty, the beauty of the campus surrounds us on our walk down the sidewalk in front of the logia, or as we walk to class or on the lonely return from a lab, we see the contrast of old and new... the Calhoun Mansion in the snow, the girls' dorm, the math-English complex, construction on a new dorm and the new library, classes, professors, quizzes, labs, parties, football games, achievements, failures, happiness, heartbreak—these are all impressions of Clemson. But the most important impression—the one that will last—is composed of the people... the roommate, the good friend, the fraternity brother, that certain girl, the professor who helped you, even the professor who failed you... all of these are merged to create the overall impression... Clemson University.
SPIRIT . . . THE BOND

This too is Clemson . . . there is the spirit of the cheerleaders leading the team onto the field . . . the spirit of an all-conference fullback sweeping the end . . . the spirit of the basketball team fighting for a rebound . . . the spirit of an individual student displaying his emotions for his school . . . the spirit of a banner proclaiming the anticipated fate of a rival from the south . . . the spirit of the cannon's blast as we add another score . . . the spirit of a spontaneous pep rally by a group of "rats" around Tom Clemson's statue . . . yes, all of these are a part of spirit, but there is more. There is the spirit that is shown by the fraternities and clubs as they build a homecoming display, or present a skit in Tigerama, or as they perform a service project for the school. There is the feeling of pride that the student body feels as it sees the homecoming beauties ride onto the field at halftime. There is the spirit that we all feel when we hear "Tiger Rag" or the "Alma Mater." But all of these things are only facets of the spirit that is Clemson University. The real spirit is expressed in the feeling of brotherhood among those people that are Clemson. The bond for this brotherhood is Clemson spirit.
EXPRESSIONS . . . A REFLECTION

The moods and thoughts of an individual are reflected in his expressions. The same concept may be applied to a university. The moods of Clemson are reflected in its physical features and in the people who are the life of Clemson. There is the expression of excitement as a girl is crowned Miss Clemson. There is the expression of deep concentration as an engineering student struggles with a difficult problem. There is an expression of joy on the face of a youngster who receives his only Christmas from Clemson students. The tension is evident on the face of a coach as he watches the game. A couple gaze into each other's eyes and seem to be alone in the midst of the crowded dance floor. A picnic table in the rain. Two men working on the dormitory ledges. The smoke stack at the steam plant . . . All of these things play a part in forming the composite expression of Clemson.
REMEMBRANCE

AND THE YEAR ENDS ... IT WAS A GOOD YEAR, OR MAYBE IT WAS A BAD YEAR ... OR IT MAY BE TOO SOON TO TELL ... YOU LOOK BACK AT WHAT YOU HAVE DONE, AND AT WHAT YOU FAILED TO DO. YOU WONDER WHAT WOULD HAVE HAPPENED IF YOU HAD DONE IT DIFFERENTLY ... BUT THERE IS NO TIME FOR REGRETS. YOU REMEMBER REGISTRATION, CLASSES, QUIZZES, LABS, AND PAPERS AND REPORTS. BUT YOU ALSO REMEMBER THE FRATERNITY PARTIES, THE DANCE WEEKENDS, FOOTBALL GAMES, THE BASKETBALL GAME AGAINST DUKE, HOMECOMING DISPLAYS AND TIGERAMA WITH ITS FIREWORKS. YOU ALSO REMEMBER THE PEOPLE, FOR WITHOUT THE PEOPLE THERE WOULD BE NOTHING TO REMEMBER. YOU REMEMBER THE BULL SESSIONS IN YOUR ROOM AND AT DAN'S. YOU RECALL THE TIME WHEN YOU TURNED TO A CLOSE FRIEND AND FOUND HELP. THE ANTICIPATION OF THE ARRIVAL OF THAT SPECIAL DATE WILL ALWAYS BE A VIVID REMEMBRANCE. THE CALHOUN MANSION, THE DORMS, TILLMAN HALL, THE BEAUTY OF HARTWELL LAKE AT NIGHT—ALL OF THESE AND MANY MORE PLACES AND EVENTS MAKE UP YOUR REMEMBRANCE OF CLEMSON. TO THE UNDERCLASSMAN THE END OF THIS YEAR LEADS TO THOUGHTS OF HIS RETURN IN AUGUST, BUT FOR THE SENIOR IT IS DIFFERENT. HIS CAREER AT CLEMSON IS OVER ... FOR HIM THE IMPRESSIONS, THE SPIRIT, THE EXPRESSIONS HAVE ALL BEEN UNITED AND HE HAS LIVED THE CLEMSON EXPERIENCE. ALL THAT IS LEFT IS THE REMEMBRANCE.
Administration Aids Students

Clemson University is very fortunate in having an able staff of administrators to conduct the business affairs of our institution and to aid the students in any problems that they might encounter. These efficient staff members handle such necessary tasks as housing and development, direction of student aid and placement, and providing an efficient library for student, faculty, and even community use. Under this group of qualified personnel come the responsibilities of providing medical aid to the students, enforcing civil law and order, coordinating the paper work, and maintaining correspondence with alumni.

The administration considers its aid to students as one of its most important functions. This staff handles every job from grading and reviewing placement tests to counseling students who need aid in choosing their field of study here at Clemson University. The invaluable assistance that they give doesn’t stop at this. They work many long, hard hours and are always willing to help the student in any way possible. Our University is a much better place to live and continue an education because of the many and varied deeds of the administration.

Realizing its responsibilities to the people of the State of South Carolina, Clemson University has always strived to employ only the most highly qualified personnel. Under this administration, Clemson has grown to meet the demands of the educational challenge facing our state and nation.
Clemson Board of Trustees
Nucleus of The University

The Board of Trustees was provided for in the will of Thomas G. Clemson to regulate all matters which are part of the functioning of Clemson University. There are thirteen members of the Board of Trustees. Seven of these are life members and six are elected by the General Assembly of South Carolina to serve terms of four years. Three of the six elected members are chosen every two years.

Before he died, Thomas Clemson named seven men whom he designated as the life members of the first Board of Trustees. Vacancies in the life member positions are now filled by unanimous vote of the remaining life members. The current life members are: Edgar A. Brown, James F. Byrnes, Winchester Smith, Robert R. Coker, James C. Self, and R. M. Cooper, who is President of the Board. Mr. Cooper is also the only current member of the Board who succeeded an original trustee, Mr. J. E. Bradley.
DR. ROBERT COOK EDWARDS, President
Dr. and Mrs. Edwards

From Clemson College to Clemson University, Dr. Robert Cook Edwards has served his Alma Mater with pride. Dr. Edwards graduated from Clemson in 1933 with a degree in Textile Engineering, but during his stay at Clemson as a student, he was very active in campus life. He was a member of several national and local honorary fraternities: Phi Psi, national honorary textile fraternity; Phi Kappa Phi, national scholastic fraternity; Blue Key; and Tiger Brotherhood. His stay at Clemson gave him a greater understanding of the Clemson student today.

Dr. Edwards is also very active in the community life of Clemson. He is a member of the Lions International, a Master Mason, a director of the State Bank and Trust Company, a member of the American Legion, a director of the South Carolina Tuberculosis Association, and a Steward in the Methodist Church. Dr. Edwards also serves as Civilian Aide to the Secretary of the Army.

Whether working for Clemson University or for the surrounding community, Dr. Edwards works and serves as an example of the true Clemson Gentleman. Dr. Edwards received an Honorary Doctor of Law Degree from Wofford College and from The Citadel after his appointment as acting president of Clemson College in 1958. Dr. Edwards has worked hard for the betterment of Clemson, and just last year Clemson College was made a university through his efforts. Dr. Edwards has given his all to Clemson in the past and will continue to work for a greater Clemson for the future.
JACK K. WILLIAMS, Vice-President for Academic Affairs and Dean of the University

MELFORD A. WILSON, Vice-President for Business and Finance and Comptroller

W. WRIGHT BRYAN, Vice-President for Development

WALTER T. COX, Dean of Students Affairs
A. WOOD RIGSBY, Assistant to the President and Secretary, Board of Trustees

JOE SHERMAN, Director of Public and Alumni Relations

GEORGE E. COAKLEY, Dean of Men

KENNETH N. VICKERY, Director of Admissions and Registration

SUSAN G. DELONY, Dean of Women
FRANK J. HOWARD, Director of Athletics

J. W. GORDON GOURLAY, Director of the Library

D. GREGORY HUGHES, Director of Placement and Coordinator of Counseling

EXECUTIVE OFFICERS
Robert Cook Edwards, B.S., LL.D. . . . . President
Jack Kenny Williams, Ph.D. . . . . Vice-P. for Academic Affairs
Walter Thompson Cox, B.S. . . . . Dean of Student Affairs
Melford A. Wilson, B.S. . . . . V.P. for Business and Finance
W. Wright Bryan, B.S., Litt.D., LL.D. . V.P. for Development

ADMINISTRATIVE OFFICERS AND STAFF
PRESIDENT'S OFFICE
Robert Cook Edwards, B.S., LL.D. . . . . President
Allen Wood Rigsby, A.B., LL.B. . . . . Assistant to the President
Virginia Earle Shanklin, A.B. . . . . Secretary to the President

ACADEMIC ADMINISTRATION
Jack Kenny Williams, Ph.D. . . . . V.P. for Academic Affairs
Hugh H. Macauley, B.A., M.A., Ph.D.—Dean of the Graduate School

LIBRARY STAFF
John Wallace Gordon Gourlay, B.A., B.L.S., A.M.L.S.—Director of Library
Sidelle Bouknight Ellis, B.S., B.S. in L.S. . Asst. Cir. Librarian
Linda Smith Gill, M.A.L.S. . . . . Reference Librarian
John Goodman, B.S., B.S. in L.S. . . . . Head Science, Technology, and Agricultural Division
Lois Jones Goodman, B.S. . . . . Cataloger
Agnes Mansfield, M.A., M.L.S. . . . . Documents Librarian
Violet Irene Menoher, B.S., M.S. . . . . Head, Social Science and Humanities Division
Margy H. Nowack, A.B. . . . . Acquisitions Librarian
Elizabeth G. Obear, M.S. . . . . Reference Librarian
Muriel Gipson Rutledge, B.S. . . . . Serials Librarian
Mary Conrad Stevenson, A.B. . . . . Head, Catalog Department
Marion Hull Withington, M.S. . . . . Reference Librarian

ADMINISTRATION OF STUDENT AFFAIRS
Walter Thompson Cox, B.S. . . . . Dean of Student Affairs
George Edward Coakley, B.S. . . . . Dean of Men
Susan G. Delony, B.S., M.S. . . . . Dean of Women
Henry Edward Florey, Jr., B.S., M.A. . . . Resident Counselor

OFFICE OF ADMISSIONS AND REGISTRATION
Kenneth Notley Vickery, B.S., Dir. of Admis. and Registration
Reginald Justin Berry, B.S. . . . . Registrar
William Richard Mattox, B.S., M.S. . Admissions Supervisor
A. M. Bloss, B.S. . . . . Financial Aid Supervisor
Gertrude Ramsay Bailey . . . . Recorder

STUDENT CENTER AND YMCA
John Roy Cooper, M.A. . . . . General Secretary, YMCA
Nash Newton Gray, B.S. . . . . Assistant Secretary
Otis Nelson, B.S. . . . . Assistant Secretary

STUDENT PLACEMENT
Davis Gregory Hughes, M.Ed. . . . . Placement Director

STUDENT HEALTH SERVICE
Judson Elam Hair, M.D. . . . . . . . Director
John Charles Barnett, M.D. . . . . . . . Physician
Evelyn Littleton, R.L.T. . X-Ray and Laboratory Technician
Ruth Durham, R.N. . . . . Director of Nurses
Lois Foster, R.N. . . . . Clinical Supervisor
ATHLETIC STAFF
Frank James Howard, B.S. Athletic Director and Head Coach
Robert Cole Bradley, B.S. Athletic Publicity Director
Fred Cone, B.S. Assistant Coach
H. O. Greenfield, B.S., M.S. Track Coach
Fred W. Hoover, B.S. Head Trainer
Robert Morgan Jones, B.S. Assistant Coach
R. P. Jordan, B.S. Assistant Coach
James Banks McFadden, B.S. Assistant Coach
H. C. McLellan, Jr., B.S., M.S. Asst. Business Manager
Christopher Columbus Roberts, Jr., A.B. Basketball Coach
George Krajac Assistant Coach
Robert William Smith, B.S. Assistant Coach
James Donald Wade, B.S. Assistant Coach
Charles Fletcher Waller, A.B. Assistant Coach
William Hugh Welhelm, A.B. Baseball Coach and Director Intramural Sports
Eugene Perritt Willimon, B.S. Business Manager

DEPARTMENT OF BANDS
John Harrison Butler, A.B., M.A. Director

ADMINISTRATION OF BUSINESS AND FINANCIAL AFFAIRS
Melford A. Wilson, B.S. V.-P. for Business and Finance
Kenny Rixie Helton Internal Auditor

ACCOUNTING DIVISION
Trescott Newton Hinton, B.A. Chief Accountant
Melvin Eugene Barnett, B.S. Accountant
Vivian Raymond Harrell IBM Supervisor
William Allen Thompson, B.S. Accountant
Joseph Shelor Walker, B.S. Bursar

PERSONNEL DIVISION
John Baker Gentry, B.S., M.Ed. Director of Personnel
Charles Wallace Lott Job Analyst

PHYSICAL PLANT DIVISION
Ralph Simpson Collins, B.E.E. Director of Physical Plant
James Cleveland Carey, B.S. Superintendent of Grounds
Francis Furman Dean, B.S. Supt. of Planning and Engineering
Roy Marcus Rochester, B.E.E. Plant Engineer
George Carlisle Jones, B.S. Superintendent of Utilities
Jack William Weeden Chief of Security

PURCHASING DIVISION
Earl Spencer Liberty, B.A. Director of Purchasing

AUXILIARY ENTERPRISES
Henry Hughes Hill, Jr., B.S. Dir. of Auxiliary Enterprises
James Pearson Burns University Photographer
Luther J. Fields, B.S. Manager, Student Food Service
Sam Hanvey Supervisor, Central Office Services
Thomas Roy Rhymes Manager, Laundry
Henry Wordsworth Rimmer Manager, Dormitory
Ernest Chisholm Watson, B.S., M.A. Manager, Housing

ADMINISTRATION OF DEVELOPMENT
W. Wright Bryan, B.S., Litt.D., LL.D. V.-P. for Development
Joe Sherman, B.S. Director of Public and Alumni Relations
Brent Breedin, B.A. University Editor
Paul Sullivan Alumni Editor
Fred Mohrmann, B.A. News Editor
George M. Moore, B.S. Assistant to the Director

JOHN H. BUTLER, Director of Bands
JUDSON E. HAIR, Director of Student Health Service
VIRGINIA S. HARDIE, Counseling Psychologist
Faculty Provides Education

One of the basic elements of any institution of learning is the teachers. This alone qualifies Clemson's professors as one of the most important groups at the University. Providing not only their aid in learning, but also guidance and understanding, our instructors are constantly striving to create a better student-teacher relationship.

There are 324 full and part-time teachers at Clemson. They are divided into: 91 in agriculture, 17 in architecture, 128 in arts and sciences, 66 in engineering, and 22 in industrial management and textile science. Fifty-two percent of the faculty hold the Ph.D. degree or its equivalent.

Experience is one way of measuring the quality of teachers. The average teaching experience at Clemson is 10.9 years per professor. The average experience in agriculture is 9.8 years; in architecture, 5.3 years; in arts and sciences, 11.5 years; in engineering, 10.6 years; and in industrial management and textile science, 17.9 years.

Every year our faculty receives various honors. Eight members of the Clemson faculty were invited to serve on accreditation boards at various colleges and universities, and 17 members of the faculty were awarded special fellowships or study awards for programs not associated with work toward an advanced degree. A Clemson student must indeed be proud to be taught by such talented and resourceful men and women as the members of Clemson University's faculty.

Graduate School Offers
Advanced Studies

The principal aim of the Graduate School of Clemson University is that of education beyond the Bachelor's level through advanced courses, seminars, and research. The policies of the Graduate School are determined by the Graduate Council. The implementation of these policies is the responsibility of the Dean of the Graduate School, Dr. Hugh H. Macaulay, who serves as chairman of the Graduate Council.

While providing extensive means for the pursuit of general, scientific, and scholarly interests, the Graduate School places primary emphasis on two objectives: the advanced professional training of qualified students and the promotion of knowledge through research. To these ends it offers work leading to advanced degrees in Agricultural Economics, Agricultural Education, Agricultural Engineering, Agronomy, Animal Science, Bacteriology, Ceramic Engineering, Chemistry, Chemical Engineering, Civil Engineering, Dairying, Electrical Engineering, Entomology, Horticulture, Industrial Education, Industrial Management, Mathematics, Mechanical Engineering, Physics, Textile Chemistry, and Zoology.

The Graduate School offers the graduate student the facilities for achieving professional competence in his chosen field and at the same time to provide society with technically trained personnel for several highly specialized occupations essential to the modern community. This emphasis fits the known need of the present era for men and women equipped not only with a general scientific knowledge, but also with a specific knowledge and skill of professional quality.
DR. HUGH H. MACAULAY, Dean

At Clemson one soon learns to let the machines do the thinking.

Nothing can stump a Clemson graduate student.

Graduate students learn about the oscilloscope.

Clemson Alumni Association Helps Through Loyalty Fund

The principle function of the Alumni Association is the support of the Clemson Alumni Loyalty Fund. This fund is a living endowment program of annual alumni giving that assures the continuance of the alumni program, and that helps to insure the educational excellence that is found on the Clemson University campus. Many deserving students who would otherwise be unable to continue their education because of financial difficulties are given aid through the Clemson Alumni Loyalty Fund.

The Clemson University Alumni Association is dedicated to the service of alumni and the University as a whole. One of the major goals toward which they strive is to maintain fellowship and keep a sentiment of affection for Clemson alive among their members. The association makes several other important contributions to Clemson by uniting the alumni under one group and by promoting to the upkeep and development of Clemson University.

The Alumni program includes: The Alumni Placement Service, the Alumni Publications, the maintenance of alumni records, homecoming, reunions, local club activities, and innumerable services to the individual alumnus. The Alumni Association strives toward the betterment of Clemson University and its many graduates.

All alumni are urged to support the Association and to use its facilities.

Old grads return for an alumni reunion.
The football team has been practicing, and the many fans descend to watch Bryant go—alas, and, as quizzes begin, Wednesday's broken only by the Anita Brecklin-Brooks Concert.

Some sunny days with mediocre skills, fire work and lovely Queen. The USC game follows and ends at an all-time high—so high that the socks were used for the whole winter in the Sunlight Hotel.

The summer's role is the beginning of the end, that an ancient rivalry near. Some bucks turn down the ball opened.

The dance between Thanksgiving and Christ.

Men in suits, far away, know they are here and the home game to close the game.

Some people think that grades have to count for every thing and G.P.R.'s are figured.

Dan's house filled with cake and drink by the gallery and when can give a good boisterous by word.

Two hours and home for the twenty-four hours.

Some people can not understand the men

...
Registration Proves To Be Long, Tiring Process

Every semester each student receives a schedule booklet telling about registration and matriculation procedures. To many students, registration and matriculation are old stuff; when you've done something three or four (or maybe eight or nine) times, you tend to take it for granted. In other words, the enrollment process becomes dull and appears to be a time-consuming hurdle that must be overcome for a few of us Clemson students. However, it seems that no matter how experienced one is with the process, he still can't seem to do everything right. So it is at the beginning of every semester. Students—freshmen and upperclassmen alike—run across the campus carrying little cards and big cards to the bursar, to the class advisors, to the traffic office, and to the professors. Nobody ever knows what should be done first. Half the students don't even bring a pencil, and nearly everyone tries to get through the whole mess without reading the instructions on the back of their brown envelope, which are ingeniously stamped with the words: "Please Read Carefully."

A total of 4,588 students went through this hair-raising registration process this year. Approximately one-third of Clemson University's record enrollment is in the College of Engineering. There were 219 women registered and 315 graduate students. Every semester Clemson contains a variety of students (some new, some old) who will continue the memorable process of registration.

The lines around the Taps table were never short.

"Are you kidding me? Five Saturday classes??"

The first step in a seemingly never-ending trek is picking up the registration folders.
Rat Hop 1964 Initiates Rats Into Clemson Spirit

As usual, Clemson rats were initiated into the spirit of Clemson at the annual Rat Hop of 1964. This dance weekend was the first such weekend for the new Clemson University. The Central Dance Association presented two popular rock-and-roll singers, both of whom thrilled Clemson freshmen and upperclassmen. Mary Wells, the star of the Friday night dance, sang such favorites as "You Beat Me to the Punch," "Two Lovers," and "My Guy." Called "Miss Hitmaker USA," Mary Wells appeared to be deserving of the title, as she sang with warmth, beauty, and poise, delighting the students. During the intermission of the Friday night dance, Miss Patricia Rose, a senior at Greenville High School, was crowned Rat Queen. Miss Rose was escorted by Marshal Coleman of Darlington. Each year the Rat Queen is selected from the dates of the freshmen.

On Saturday night, the University rocked to the cool sounds of Major Lance. Among his most popular songs were "The Monkey Time," and "Rhythm." As the dance came upon the weekend of Clemson's victory over Furman, spirits were high.
Mary Wells presented such favorites as "My Guy," and "Two Lovers."

The Major Lance band performed while the "Major" took a break.

The back-up band for Mary Wells captivated the standing-room-only crowd.

Major Lance was on hand for the Saturday night gala.

Mary Wells...Major Lance

Miss Patricia Rose made a most attractive Rat Queen.
A local folk group displays great talent.

Satire, Fireworks and Skits Draw Large Crowd

The eighth annual Tigerama took place in Death Valley, officially kicking off Clemson's 1964 Homecoming Festivities. Tigerama is an all-student variety production which is coordinated by the Blue Key honor fraternity in conjunction with the Office of Student Affairs. Directed by Jerry Caughman, this year's Tigerama had something for everyone, featuring a pep rally, skits, variety acts, the crowning of the first Miss Clemson University, Miss Ande Mitchell, and ending with a gigantic fireworks display.

Since 1957, Tigerama has become a significant part of Homecoming. The fun, follies, and fireworks, with all their built-in glamour, serve to get everyone in the mood for Homecoming. There were eight skits by various campus organizations, with Kappa Delta Chi winning the Grand Prize for their skit about the memories of vaudeville and star performers of the twenties and thirties. Highlighted by the best of the University's wit and satire, the skits proved to be hilarious.
Fred Astaire and Ginger Rogers help the Chis tap out a winner.

Clemson coeds presented a hilarious parody on life in the girls' dorm.

Tigerama Thrills Thousands

The sixteen contestants in the contest for Miss Clemson University—1964.

"Make it feel alright."

Gypsy maybe, but Rose Lee?
A spell-bound crowd listens to the soothing sounds of Sam Cooke.

Homecoming was a good opportunity to renew old acquaintances.

The Tigers enjoy Sam Cooke during one of his livelier moments.

Ben E. King, Sam Cooke Highlight Homecoming

"Spider" spins another of his yarns.

Fired off by Tigerama, the Homecoming weekend proved to be a tremendous success, although the ecstasy was somewhat hampered by the Tigers' loss to UNC. However, everyone had fun despite the defeat in Death Valley. Clemson students and their dates viewed the brilliantly colored Homecoming displays with awe. The CDA's Homecoming dances were highlighted by Ben E. King and Sam Cooke. King led the Friday night dance with many songs, such as "There Goes My Baby," "Spanish Harlem," and the ever-popular "Stand By Me," which will remain in the mind of many a Clemson student for a long time. On Saturday, Miss Olis Brooks, student at Clemson University, was crowned Homecoming Queen of 1964, climaxing the half-time activities of the game.

Although it seemed as if Ben E. King would be impossible to overshadow, Sam Cooke's performance at least matched that of King as he sang many of his most popular hits, including "Chain Gang," "Having a Party," and "Another Saturday Night." The usual houseparties and fraternity parties were held after the dances, and, to say the least, Homecoming weekend was one of the most exciting and memorable of all ever held at Clemson.
Kappa Delta Chi’s Grand Prize-winning Tiger “clips” the Ram.

A jolly Tiger tars the Ram.

Miss Olis Brooks is crowned Homecoming Queen for 1964.

Coronation . . . Displays

The SKE Tiger bares his fangs.

The good doctor operates to create a homecoming Tiger.
Fall Concert and Lecture Series are Enlightening

Each year through the Fall Lecture and Concert Series Clemson is exposed to an international array of academic and musical talent. The Concert Series opened in mid-October with beautiful Miss Anita Bryant and the wonderful sounds of Guy Lombardo and his Royal Canadians. Tapping the talent of one of the Scandinavian countries, Clemson next played host to the all-male National Swedish Chorus. Everyone attending thrilled to the stirring voices of this talented group.

The lecture series opened October 29, 1964 with Dr. R. W. Pfouts, chairman of the department and professor of economics at the University of North Carolina, delivering a thought-provoking lecture entitled “What is an Affluent Society?” In November the Department of English presented H. J. Oliver, professor of English at the University of New South Wales in Sydney, Australia. His lecture, “Australian Literature and the Comparative Study of Literature in English” proved interesting to all who attended.

To round out the Fall lecture series the College of Agricultural and Biological Sciences presented Dr. Hugh Bunting, Chairman of the Department of Agricultural Botany at Reading University in Berks, England.

The all-male National Swedish Chorus presented a musical scenario of their beautiful land.

SPRING FEATURES

Spring Semester opens after a short semester break to the conclusion of registration, abbreviated classes, and for the fraternities, rush. This is the semester of great expectations: G.P.R.'s will be pulled up; spring will soon be here; and for the diligent, graduation will end the long, hard road called COLLEGE.

Social life flourishes with Mid-Winters, and classes, quizzes, and serious work are forgotten during this time. The campus again becomes colorful and moves outside with baseball, track, and the other spring sports.

Spring Hop begins a rush of activities with two dances and a concert. The long awaited Easter vacation follows with a break before the final dash to June. The Junior Follies follow, amusing the Tigers as much as ever.

The fraternities put on Greek Week, and the end of the semester is obviously near when the seniors celebrate Senior Day.

Junior-Senior weekend ends the social life of the 1964-1965 year. The Miss TAPS and Mrs. TAPS beauties are crowned, and the graduating seniors attend their last Clemson dance as students.

Once again exams are held, but the pressure is somehow lessened by the realization that this means the end of many close friendships, and that graduation means the end of one phase and the beginning of another in the students' lives.
Richard Leibert, famed organist of Radio City Music Hall, visited Clemson late in February.

Four members of the National Players of Catholic University rest before their presentation of "Hamlet" before a packed auditorium.

Springtime Clemson-Van Cliburn and Boston Pops

The Spring Lecture and Concert Series continued with the same high quality of performers and speakers as were presented fall semester. Dr. Claud B. Green, chairman of the Lecture Series Committee, announced presentation of three speakers and also the presentation of "Hamlet" by the National Players of Washington, D. C.

Early in February the English department presented Dr. A. H. Scouten from the University of Pennsylvania whose topic was "Literary Forgeries." Richard Leibert, Chief Organist of Radio City Music Hall, appeared late in February.

Shakespeare's "Hamlet" was very well received late in February as the National Players performed in flawless fashion.

Under the baton of Arthur Fiedler, the Boston Pops Orchestra presented, late in March, a delightful ensemble of tunes. April first brought the great piano performer, Van Cliburn, to Clemson. Van Cliburn's wonderful mastery of the piano brought the concert series to a close.

March winds brought Arthur Fiedler and the Boston Pops Orchestra to our campus.

The incomparable Van Cliburn presented a program of classical and light classical favorites.
Rush opens with an explanation of Rush procedures by Jim Hambright, Interfraternity Council president.

Firm Handshakes . . . Indecision . . . Long Hours

Each year, the fraternities at Clemson, working with the Interfraternity Council, sponsor Rush Week at the beginning of second semester for the purpose of obtaining new members. Rush Week 1965 was the biggest and best rush that the fraternity system at Clemson has ever experienced. Registration for the annual Rush Week totaled 266 boys; this total broke last year's registration record by over fifty rushees. Bids were accepted by 186 boys.

Rush Week began with open smokers on the first two nights. A new rule was established this year to make sure the rushees visited at least four fraternities the first night and at least two the second. On Friday night, each of the fraternities invited a number of rushees to its closed smoker. Saturday night was highlighted by approximately 280 rush girls as the fraternity men gave their annual Rush Week Dances. Bids were sent out Monday afternoon and the rushees accepted their bids Monday night.

"Well, here we are, rushees, come get us!"

The sign-in sheet tells each fraternity who did come; and also, who didn't show up.
Jody Patrick gives his captive audience a little run-down on fraternity life.

"And that's the paddle we'll use on y'all."

"And what'll you have?"

Many Faces to Remember

"Now Waylon, you gotta get out there and rush, rush, rush!!!"

"Hey! What's a girl doing rushing?"
The Dave Brubeck Quartet—Jazz for Midwinters

Midwinters '65 at Clemson again proved to be another one of the CDA's excellent dance weekends. Friday night Dave Brubeck brought his fabulous Dave Brubeck Quartet to the stage of the Field House for two hours of his progressive jazz sounds. The Brubeck Quartet, two-time winner in as many years of Playboy Magazine's Jazz Poll for the number one instrumental combo of the year, again proved its excellence by providing an evening of sparkling jazz sounds. Perhaps no one in the jazz field is as well-known as the Brubeck Quartet. Brubeck himself was again this year selected as the number one pianist in the nation and the Quartet's Joe Morello also placed first in a similar poll on drummers.

Saturday night brought Jerry Butler and his show providing "music to move" for four fun-filled hours in the cafeteria. Butler combined such hits as "Moon River" and "Find Another Girl" with his incomparable "For Your Precious Love" and "He Will Break Your Heart." These two evenings of entertainment will not soon be forgotten by Clemson men and their dates.

Paul Desmond proved his talent as the number one alto sax player in 1965 Playboy jazz poll.

Joe Morello, on the drums, chats with Gene Wright, on the bass.

The great Dave Brubeck announces another favorite selection.

The Field House was packed for the unforgettable Friday evening concert.
On Saturday, Jerry Butler

Jerry Butler hypnotized an attentive audience with his rendition of "Moon River."

It looks like judo, but it's probably just the "Monkey" or the "Frug."

Miss Tammy Montgomery stole the show with such songs as "The Name Game."

Although cold outside, it got pretty heated inside.

Most chose just to gape rather than to dance while Tammy sang.
Ron Young sees Jo Ann in a new light when term paper typing time comes around.

"Now Reid, you've just got to stop studying so hard!"

Married Students Combine Learning, Homemaking

The married students at Clemson University have become a very important segment in forming Clemson's new university status. Although going to school while supporting a wife and family could be quite rough, most of the married students demonstrate the superior planning and management which comes from an adequate liberal education. Many wives are students too, and others fill various jobs in the Clemson area, benefiting the community as well as augmenting their family budgets.

Most of the these married students live in prelabs or duplex apartments provided by the University. These units are furnished by the students and provide comfortable homes for student families. These apartments are not the most spacious of dwellings, but many couples find room to enjoy guests on weekends. The keeping of the unmarried student’s dates on dance weekends is a very important service performed by many of the married couples.

Behind every great man (studying) there’s a woman (taking it easy).

Husbands learn quickly that there’s no easy way to get wives off the ‘phone.
Bill (like every other devoted hubby) is always eager to help Carolyn with the dishes.

"Please, darling, will you lift your feet so I can finish this and start with the wash."

Young marrieds, Reid and Sue Dusenberry, take a week-end off to see the folks back in Burlington.

"I think I’d better stick with TV dinners."

"Only two more baskets of laundry and then I can start on dinner."

The Pleasure of Sharing
Annual Military Ball Keynotes Spring Hop 1965

Spring Hop 1965 brought to Clemson a fun-filled weekend not soon to be forgotten by the country gentlemen and their dates.

Friday night the Central Dance Association presented the Annual Military Ball featuring the Burt Massengale Orchestra. This ten-piece band, specializing in music to dance to, presented Clemson men an evening of enjoyment which climaxed the year for military students. Shoes shined and brass sparkled as ROTC cadets danced to the moody music in their pressed uniforms and black bow ties. Honorary Cadet Colonel, Sergeant, Corporal, and Private were selected, and they with their dates entered to begin the grand march through an arch of sabres presented by the Pershing Rifles Drill Team.

Saturday night brought rock an' roll to the Clemson Dining Hall as the Impressions turned in one of their livest performances yet. Curtis Mayfield, who writes most of the songs for this group, led the Impressions through the paces as they presented "Amen," "People Get Ready," and "Keep on Pushing" in rare form.

During intermission the crowds gathered to watch the PR's precision drilling.

The traditional saber arch greets another Scabbard and Blade member and his date.

The Burt Massengale Band provided an evening of musical favorites.

The receiving line at the Military Banquet provided an opportunity to renew old acquaintances.
The famous "Impressions" thrilled an enthusiastic crowd.

John Lee adds a little of his own hypnotism to the spell cast by "The Impressions."

Most of us were ready for such songs as "People Get Ready."

Ed Munnerlyn of the CDA announces a short "temporary" delay.

One of the New Orleans specie of "Bunny" slips away from the Playboy Club long enough to enjoy a Clemson weekend.

"John!" ... "Marsha?"
Clemson coed, Miss Marilyn Garrett, captivated the audience with her renditions of folk music.

"The C C Sounds" from Columbia College received a tumultuous reception.

Who can forget our own "Clemson Cloggers?"

Jr. Class Presents Full Night of Entertainment

Backstage, the pace was slower.

The 1964 Junior Follies was an outstanding success and was acclaimed by many as the best ever. Junior Follies is an annual show produced, directed, and cast solely by the Junior Class. The profits derived from the ticket sales go toward financing the Junior-Senior Banquet.

The various groups were introduced this year by the emcees, Bobo Lee and Frank Pearce. They succeeded in keeping the show moving and the audience laughing with their hilarious comments and jokes. Among the more popular groups that performed were: Kathy Fowler of "The Shilohs," who sang a solo; the always present Clemson Cloggers; and a group called "Sounds-Off" doing an imitation of the "Beatles." "The Shilohs," a new recording group, brought down the house with their songs. Among the area college groups represented were: "The Limestone Four," "The C C Sounds" (Columbia College), and the "Tigertones" (Clemson). These groups combined to bring to Clemson University variety, showmanship, and humor, and to thoroughly please a packed house.

A great deal of time and effort went into planning the 1964 Junior Follies both by the Junior Class and the groups performing. The co-directors Frank Pearce and Jim Hambright, did a fine job in organizing the Follies.

With the great success of Junior Follies 1964 in mind the students of Clemson University anxiously await Junior Follies 1965.
Folk-singing enthusiasts well remember a night of hearing old favorites.

Clemson's "Ringo" pounds out the big sounds.

Talent and entertainment in just the right measure, were combined in another successful Junior Follies.

College Humor and Talent

Who can forget "Cherry Pie," by the "Limestone Four?"

Clemson's homegrown "Tigertones" provided a change of pace.
Rain Fails to Dampen Greek Week Festivities

The fraternities at Clemson join together each year to put on their annual Greek Week. Sponsored by the Interfraternity Council of Clemson University, Greek Week is the highlight of the fraternity’s year. A bridge tournament on Monday night begins the week which is climaxed on Saturday night by the IFC dance, attended by all the fraternities. The rest of the week is filled with such events as the Fraternity Sing, individual fraternity parties on Friday night, and the heralded Greek Olympics on Saturday afternoon. Rain caused the cancellation of the Olympics in 1964, but it failed to dampen the festivities.

The "Majors" and "Guitar Kimber and the Untouchables" put on a lively show at the dance on Saturday night. A Greek Goddess is chosen and an award is presented to the individual whom the fraternities consider to be the outstanding fraternity man of the year. Each fraternity sponsors a Greek Goddess candidate and a panel of judges decides which one is the most attractive. The 1964 Greek Goddess was Miss Peggy Waters, and Bill Vandiver was voted "Greek of the Year." Kappa Delta Chi received the Overall Best Fraternity trophy for the second year in a row. The selection is based on a conclusive point system.
Frats Enjoy "Their" Week

Guitar Kimber and "The Untouchables" knocked 'em out in the Little Gym.

To the victors go the spoils.

George Rawlings opens the intermission ceremonies.

Delta Phi Kappa presented the "Pirates of Kappa Cove."

Miss Peggy Waters, sponsored by SAZ receives her "Greek Goddess" trophy.

The Majors brought a rainy Greek Week to a close.
The Friday night formal gives many the chance to pull the old tux out of the mothballs.

Billy Butterfield brings the "Big Band Sound" to Clemson.

Billy Butterfield Keynotes Jr. - Sr. Weekend

The TAPS Junior-Senior, the last of the Central Dance Association's five annual dances, was again the highlight of Clemson's social season. Billy Butterfield and his orchestra started the weekend off at a Friday night dance at the Field House. During intermission, the TAPS staff proudly presented its yearbook to the faculty in the TAPS lounge.

Saturday afternoon the CDA presented a free concert in the amphitheater featuring Lester Flatt, Earl Scruggs, and the "Foggy Mountain Boys" from Nashville, Tennessee. These famous members of the Grand Ole Opry presented an enjoyable afternoon of varied country-style music not soon to be forgotten by the many students and dates in attendance. Good country music, a clear and crisp day, blankets and beverages under the open sky all made for a great concert.

The Falcons, a well-known recording group, ended the weekend with a rock-and-roll dance in the field house. Back-up music was presented by the Otis Redding Band. For many seniors this Saturday night dance was their last social event at Clemson.

Retiring Editor Kennedy wishes the best to new Editor Hambright.

The dance floor's deserted but the memories will linger.
John Fernandez receives a very dubious distinction.

Ed Lominack receives some well-deserved praise.

Presentation of 1964 TAPS

Earl and Lester pick it out.

Former Editor Wayne Kennedy makes a presentation to Mrs. Albert on behalf of the staff.

"Look Ma, no hands!"

The world-famous Clemson Cloggers take the stage.
Four Years of Frustration Released on Senior Day

Inhibitions are scarce as 400 Clemson Seniors kick it out on their day. With no schedule to worry about, no lessons to study, and the realization that no one cares what happens, the seniors spill over the hills of the campus like an invading army seeking the enemy. Serious thoughts are thrown to the wind as the happy, active, and uninhibited seniors run wild on their day of days. From long-lasting parties to short private conversations, joy and relief are the main objectives of the day. Four years of tension are released on Senior Day and the energy generated seems to exceed all possible limits.

Along with all the noise there may be some remorse as the seniors remember that this is their last social function as Tigers. As they think of graduating and leaving the campus that has been a home for most of them, sentimentality is felt by the class of 1965. It is this combination of feelings that makes Senior Day one of the most cherished memories of a Clemson graduate.
Diplomas, Commissions and Congratulations

May twenty-ninth... crisp sunshine, brisk air... a gloved and hatted crowd slowly fills the amphitheatre... the faculty arrives black-gowned and serious, the multi-colored hoods displaying their heterogeneity... graduates take their places to martial rhythm... the ceremony begins...

Speeches... "the world is at your fingertips"... shuffling amidst the audience... muffled coughs... remembrances of another graduation not so long ago... on stage the graduates brood over their accomplishments, some wishing the ceremony over so as to get on with the business of living, some praying that it will continue so as to preserve their cloistered student lives for a few more precious moments.

Degrees... Doctors, Masters, and then Bachelors... as each name is read, a small section of the audience is illuminated with happiness... for some families this degree marks the continuation of sacred tradition... for others it is the beginning...

Finally it is finished... the class of 1965 has become alumni... will they meet again?... "Where the Blue Ridge"... arms raised in final farewell... benediction... no looking back, they must go forward.

A pair of very proud parents pins shiny gold bars on the shoulders of Second Lieutenant Francis L. Robertson, USA.

The door to a new future has been opened.

His song was only
... living aloud,
His work, a sincerity
... with his hand!

SHELDY LAMER

In the morning, cadets become second lieutenants, and in the afternoon, students become alumni.

The most meaningful words came from our former professors.
The last few steps in a four-year journey seem always the longest and most difficult.

The End and Yet a Beginning

After the ceremonies, you see the campus as you've never seen it before.

The Clemson years harbor a host of memories.
ACTIVITIES
ACTIVITIES

The interested Clemson gentleman must find something to do with his spare time. Thus, Clemson University has a solution for the Clemson man who wants to do something constructive, something that will benefit his school and make it the best. By taking part in the activities which are ever present at Clemson, a student can gain recognition and will be able to obtain experience that will help him to face his future problems.

There are activities to suit everyone's taste. The two ROTC programs, army and air force, are available for the military-minded. Band, Glee Club, WSBF, or the CDA should be of interest to those who like music. Student publications include *Taps*, *Tiger*, *Chronicle*, *Agrarian*, and *Bobbin and Beaker*. And, Student Government or Student Committees are open for students who show leadership qualities.

The Clemson student can find enjoyment in doing something to benefit the university, in accomplishing something that will remain even after he has gone. Years later, he can visit this campus and remember the wonderful times he had while working and sweating, meeting deadlines, and solving problems.

We are proud of our university and of its accomplishments. But we should constantly keep in mind that these things that we take for granted come about because of the hard work of others.
Award-Winning TAPS Staff Presents Clemson’s Portrait

This is Taps 1965. It is the first annual publication of Clemson University. This is our attempt to present a true, undying picture of Clemson, of what it means to each student. We of the Taps staff feel that this effort has been a success in presenting Clemson, its students and its events. We hope that you agree with us in this portrait of the university.

To be an editor on the Taps senior staff is a very high honor. Along with this honor there is a great deal of work. The normal student, the purchaser of the Taps, does not realize the enormous amount of work that goes into the making of an All-American yearbook, an honor that the Taps has received for the last three years. All a student sees is the sale of the book and the distribution of the final product. He does not see the untold hours of toil—the designing and tracing, the sorting of cards and the pulling of pictures, the writing and revising of copy—all to meet the enemy of us all: the deadline. The week or so preceding each deadline, that editor has the junior staff hopping with his last minute sprint to get his section to the printer. All this effort is to improve on a great publication, as judged by the Associated Collegiate Press.

We of the Taps staff feel that our work has not been in vain. Along with the experience that we have gained, many lasting friendships have been formed and a service rendered to our school and our fellow students.

"When Hambright's not here I'm the boss."

Goz, where did you get all those girls' pictures?

Lee shows the Junior Staffers how to trace.
Junior Staff Works Hard, Acquires Needed Experience

When the final section of the Taps is sent to press, it marks a year of hard work. A large share of the work is done by the Junior Staff who have put in many long hours of typing, writing, tracing, revising, proof-reading, and copying. The Taps Junior Staff is composed of students who are selected at the end of each year and trained as apprentices as future editors of Taps. On them falls a seemingly endless job, but their efforts prove to be worthwhile with the first showing of the new 1965 Taps.

However, Junior Staffers enjoy some pleasures besides the work. They attend drop-ins and houseparties with the Senior Staffers.

Each time a staff member gazes through the 1965 Taps, he will re-live the time in which he was a part of the creation of the book and will realize that the experience is one he will always remember.

It is the fond wish of the staff that you will be able to re-live the experiences of the 1964-65 school year through your 1965 edition of the Taps.
Maxwell types long into the night.

Tiger Senior Staff Delivers Good Weekly Newspaper

The Tiger is the student newspaper of Clemson University. It is composed of nine senior staff members with their respective junior staffs. At the end of the year, the outgoing senior staff elects the next senior staff. This selection is based on ability, desire, and a basic knowledge of the organization. There are no restrictions as to class, sex, or major. However, each senior staffer must have a grade-point ratio of 2.2 or better.

The purpose of the Tiger is to bring Clemson students, alumni, and friends the very best in news, sports, and information about Clemson. To accomplish this, each week it publishes a paper of six pages at the minimum. Few students realize the work and planning that must go into each issue of the Tiger. The senior staff coordinates the junior staff in the work of the week. The only time off for these staffs is Saturday and Sunday. With the advent of Monday, the work begins all over again. In the short space of five days, news has to be gathered, articles have to be written and organized, and the edition has to be sent to the printer to be ready for distribution. Also, a special edition is published in color to help celebrate Homecoming and Junior-Senior weekends.

Activities within the Tiger staff include drop-ins, banquets, and press conventions. Selected staff members are chosen each year to attend the Associated Collegiate Press Convention. The purpose of this trip is to gather new ideas.

DAVID CRAWFORD, Managing Editor

DON ELLIS, Business Manager
Tiger Junior Staff Works For Senior Staff Positions

While the senior staff couples skills of journalism with creativity, the junior staff plays a vital role in the production of the Tiger. The junior staffers are responsible for the typing, copy reading, cleaning the office as well as the distribution of the paper. The junior staff positions are open to any student interested in cartooning, business, sports, photography, and advertising. The work done by the junior staffers proves to be assets to the Tiger in more than one way.

The junior staff not only serves the Tiger by performing the menial tasks around the office, but also by gaining the experience through their work. In future years this experience will see practical application as the junior staffers move up to the senior staff. Learning cooperation and gaining a sense of organization are key points in the lives of the junior staffers.

Stuart and Mike are key persons on advertising staff.

Varied Tastes in Literature
And Art Comprise Chronicle

The Chronicle was originally established in 1897, but interest and support was lost in it during the thirties. In 1961 the Chronicle was revived through the effort of an interested group of students and faculty. The Chronicle reappeared to obtain great heights in the new format it presented to the students. With each new publication the staff gains in experience, and the student body's enthusiasm grows.

After reappearing on the Clemson University campus in 1961, the Chronicle has made a name for itself at Clemson and through the country. Each year the Chronicle puts out editions. It is the official student variety magazine put out by the Calhoun Literary Society. It has won the South Carolina Collegiate Press Association's "Best College Magazine" award.

The purpose behind the Chronicle is to inform Clemson students with an equitable balance of editorial, feature, pictorial, humor, literary, and satirical material. The magazine also gives the students an opportunity to publish worthwhile material and gain experience in all phases of magazine production. The Chronicle utilizes the combined efforts of writers, photographers, lay-out specialists, and general staff.

The Chronicle, in association with the Calhoun Literary Society, encourages that literary and artistic talent which so seldom finds expression in class work.

Textile Students Publish Quarterly

The Bobbin and Beaker, official publication of the Clemson University School of Industrial Management and Textile Science, first appeared in November of 1939, published by the Phi Psi textile fraternity. Since that time a Bobbin and Beaker Staff has taken the responsibility to issue the quarterly magazine. Near the end of the spring semester, sophomores interested in working on the publication are selected to form a junior staff. These junior staffers "learn the ropes" with the help of the ever-present senior staff. The juniors showing the most interest, ability, and desire to put into the work are selected to be on the senior staff. The goal of every member of the junior staff is a position on the senior staff.

The content of the Bobbin and Beaker is devoted to the textile industry and the School of Industrial Management and Textile Science at Clemson. Each issue contains news of the various clubs in the school, such as Phi Psi, AATT, AATCC, SAM, and IMS. Each issue also recognizes four outstanding seniors in the school for their overall ability.

The Bobbin and Beaker reaches most of the states and several countries. With this widespread circulation, it acts as a carrier of ideas and a builder of prestige of the entire university as well as the School of Industrial Management and Textile Science.
Blue Key Directory Provides Student Roster

Each year the Clemson chapter of the Blue Key National Honorary Leadership Fraternity put out perhaps the most-used publication on campus—the Faculty-Student Directory. This directory includes the name and local address of each student at Clemson, as well as the student's major course, his Clemson post office number, and his home address. The Blue Key also contains a list of student organizations with their presidents and advisors, class officers, a departmental telephone directory, a list of the Board of Trustees, faculty and dormitory staff counselors, and a university calendar. The directory proves to be a handy tool for each student. Every club secretary finds it very useful in obtaining the room numbers of his club's members. However, the directory seems to be a must to the upper-classman who wants the address of the freshman co-ed he just met.

The Blue Key was begun in 1934 with the main purpose of service to the students of Clemson. It has proven to be one of the most indispensible of all books found on the Clemson campus. The directory, edited by Douglas G. Mahon III, has saved many long hours for thousands of Clemson students. The members of the Blue Key Honor Fraternity are to be commended for giving generously of their time and services in order to make the Blue Key Directory possible.

MIKE MAHON, Editor

John Newton, Virgil Irick, and Jimmy Williams help prepare the Blue Key Directory.

DR. FRANK BURTNER, Blue Key Advisor
"Y" Handbook Staff Aids In Freshman Orientation

Presenting certain specific information regarding many aspects of university life, the YMCA Handbook is given to each student during the fall semester registration. Being a part of the Clemson YMCA, the YMCA Handbook is a separate department of the university. The chief purpose of the handbook is to provide a source of facts concerning Clemson life in general, which enables all students to have a better understanding of the facilities at their school.

Serving as a welcome for all students, both old and new, the "Y" Handbook tells about the university administration and contains advice and statements from students leaders. It is essential for all students and describes all campus institutions. The handbook can even be considered a directory of the Clemson scene. Although this book is particularly valuable to freshmen, it is used and enjoyed by all university students.

The advisor for the 1964-65 handbook was Mr. Cooper. The staff is appointed by the YMCA President. This year's editor was Sandra Cochran. It appears as if the staff and advisor of this well-illustrated and descriptive book should be commended for their work, as our handbook for this school year is one of the best ever published by the "Y" staff.

YMCA HANDBOOK COMMITTEE. SEATED: Dianna Sheram, Darrell Monier, Sandra Cochran. STANDING: Mr. J. R. Cooper, Pete Newton.
The Agrarian is the official publication of the College of Agriculture and Biological Sciences of Clemson University. Now in its twenty-second year of publication, the Agrarian is published twice every year by interested agricultural students.

The staff of the Agrarian is open to any student interested in agriculture or interested in working on the publication. The finances of the organization are carefully worked out by the business staff, whereas the other staff members are responsible for written material and the magazine layout.

The Agrarian attempts to have each department in the College of Agriculture and Biological Science represented by at least one article. Each of the agricultural clubs is invited to submit a newsletter, containing pertinent club information. Several feature articles also highlight each issue.

Having a circulation of over 3,000, the Agrarian is sent throughout the state to high schools, vocational-agricultural departments, public libraries, and many interested individuals. Each land-grant college in the United States is given a copy of the magazine. As a result of the quality of its production, the Agrarian is increasing in popularity on the university campus. It is easy to see why the Agrarian has a definite position as one of the best campus publications.
Central Dance Association Coordinates Weekends

Clemson has always been known for its great dance weekends and famous dance bands. These dances were all made possible through the efforts of the Central Dance Association, an organization whose sole duty and purpose is the creation of social functions for the students of Clemson. The CDA is made up of eight Senior Staffers and sixteen junior Staffers who coordinate their efficient and well-planned activities.

Many weeks of preparation follow the signing of a big-name band. The staffers get their reward when the dance is a success and the students have approved.

The great Sam Cooke made one of his last appearances at Clemson for Homecoming 1964 which drew more people than any other dance in Clemson history. Other famous performers that have appeared here are Mary Wells, Major Lance, and Dave Brubeck. They have all combined to bring about one of the greatest years yet for the CDA. Publicity, decorations, places for dates to stay, and floor arrangements are all a part of the duties of the CDA which must be efficiently dealt with. The biggest burden of the Senior Staff is possibly the selection of the eight staffers to follow in their footsteps.

Goz adds the final touch to the Mid-Winters Backdrop.

Tom beautifies the bandstand for the Homecoming Dances.

CDA Junior Staffers Work Hard for Senior Staff Posts

To the CDA Junior Staff goes the task of putting on the five CDA dances after the entertainment has been signed by the Senior Staff. They start weeks ahead of a dance planning details, painting signs, selling tickets, and building a bandstand. Hours each day are spent trying to improve the dances so as to make each one better than the one before. During the dance they maintain orderly conduct, handle the door, and take care of the band. These duties severely restrict them during the dance and their dates often find themselves alone.

Each spring the Junior Staff is chosen from among those that attend a drop-in and show the most initiative and enthusiasm. The sixteen Junior staffers chosen must carry on the traditions set by the staffs of the past, for from these juniors are chosen the Senior Staff the next year. Membership on the Senior Staff requires a loyal and never-ending support, enthusiasm, and cooperation for the Central Dance Association, as well as the ability to do the work.
WSBF Finishes Another Year of Hi-Fi Programming

A member of the Inter-Collegiate Broadcasting System and an associate member of the South Carolina Broadcasting Association, WSBF has provided almost seven years of broadcasting, which has given the entire Clemson student body, the professors, the staff, and the surrounding area listening enjoyment. The coeds as well as the male students have always heard, interesting, informative, educational, and popular music programs from WSBF. The station now has an FM installation that enables it to be heard for a good distance around the Clemson area.

Every year at Christmas WSBF has its “Operation Save-A-Life” marathon, where the station presents continuous programming stressing safe driving for the holidays. For this campaign, WSBF has received recognition and awards from the National Safety Council. The combined work of the Junior and Senior Staffs creates the professional sound of our radio station.

Almost every student has become familiar with the services of WSBF and many students eagerly await their favorite music on the school station. The records played by WSBF are of the best quality and are by the popular singers. Therefore, the Clemson area can easily keep up with the top hits. We can be assured that our station will continue to present the very best for the future as they have in the past.

WSBF Junior Staff Performs Important Functions

Long and hard hours on the Junior Staff of WSBF results in ample rewards for the Junior Staffers. They gain invaluable experience in the engineering phase of radio broadcasting, in the techniques of announcing, in the skills of obtaining the necessary supplies needed in the business field, and in other things that constantly further their knowledge. Since the Junior Staff is directed and actually taught by the Senior Staff, they are well-qualified to put out those enjoyable sounds familiar to every Clemson student.

All students interested in radio work who join the staff are initially placed on the Junior Staff. These staffers literally work their way into the Senior Staff position. An essential part of the radio station organization, the Junior Staff is divided into the engineers and the programmers. Both are concerned with the development of the best in audio programs for the students of Clemson University.

It is known that music provides "atmosphere" for numerous occasions, and when a person is cramped up in a dorm, if there is one thing he needs to have, it is "atmosphere." So WSBF Junior Staff provides that necessity, giving all of us something to be thankful for.
JUNIOR PROGRAM STAFF. Wesley Harris, Walter Wisely, Charles Humphries, Gary Henderson, Harold Coombs.

BUSINESS STAFF. Don Harris, Jane Amick, Carlos Lam.

Herb takes a "smoke" break while the music plays.

Shuler shows Dozier one of their many new albums.

Rick opens WFBF Station with music and information for the Clemson University students.
Student Government Coordinates School Affairs

Since Clemson acquired its university status it was necessary to ratify a new Student Government Constitution. This reorganization took place the first semester of the 1964-65 school year; the Clemson University Student Government was greatly improved by this revision. Student Government leaders are elected by the Clemson student body, who elect members to the three branches of the Student Government—Executive, Legislative, and Judicial. The Executive Branch is composed of the student body officers and the four class presidents. It serves as the coordination agent for all student government activities. Legislative powers are vested in the Student Senate, and the Judicial Branch includes an intricate system of courts.

Serving to represent the best interests of all Clemson students and to work for the improvement of all phases of campus life, the Student Government actively works for the betterment of Clemson. The Student Government has sponsored several projects this year, including the sale of student health and accident insurance to raise funds for the Boy's Home of America. The Government has also been a great help in the Red Cross blood donation drive.

Because of its fine efforts and activities, the Clemson Student Government plays an important role in the life of each Clemson student. It attempts to provide better understanding among administration, faculty, and student body.
High Court Directs School Disciplinary Action

The Judicial Branch of the Student Government rests in the hands of the students. The High Court is the main constituent of this Judicial Branch. In the spring of each year, Clemson's student body elects eight members at large from the Senior Class as High Court members. The ninth member is automatically the vice-president of the Senior Class. The Court elects its own chairman, vice-chairman, and secretary, and also interviews and selects students for the positions of attorney. Ten attorneys are chosen, five for prosecution and five for defense.

It is the duty of these nine men to decide the innocence or guilt of any student who has been charged with conduct not befitting a Clemson man. Only the decision and sentence of the court are ever made public. A convicted student may appeal the High Court's decision to the five-man Court of Appeals.

E. K. LOMINACK, Chairman

Residence Courts Regulate Dormitory Activity

There are two new additions to the Judicial Branch of the Student Government here at Clemson. These are the Men's Residence Court and the Women's Residence Court. Each is a three-member body. The members of these two courts are appointed by the top official of the Executive Branch of Student Government, the President of the Student Body, to serve for a period of one school year. These appointments of the Student Body Appointees, however, must be confirmed by at least two thirds of the members of the Student Senate in order that the system of checks and balances may be preserved as provided for by the new Clemson University Student Government Constitution. Members may be appointed for more than one term.

The purpose of these two courts is to try cases and determine the penalty if any resulting from violations of school regulations throughout the dormitory system. Generally, the hall counselors or monitors refer dormitory problems to the Residence Courts in order that the problems might be eliminated. On occasion, however, the dormitory manager, H. W. Rimmer, or the Residence Counselor, H. E. Florey, Jr., send cases to the Residence Courts for trial.

These two courts, though not as powerful as the High Court, do much to insure the livability of Clemson University dormitories.
Student Senate is Legislative Voice of Students

The Legislative Branch of Clemson’s student government rests with the Student Senate. This is a working organization composed of forty members, with ten members each chosen at large in individual class elections. All classes except the freshman class elect their senators in the spring for the following year, while the freshman elect their senators almost immediately upon arrival in the fall.

Responsibilities of the Student Senate include the passing of legislative acts which are subsequently signed or vetoed by Dean Cox and the President of Student Body. All legislation which passes the Senate and is not vetoed goes into the laws of Clemson University’s student body and thus applies to all Clemson students.

The Senate carries out its work through its permanent committees: the Judiciary Committee, the Traffic and Grounds Committee, the General Affairs Committee, and the Student Organizations Affairs Committee. Special Committees are formed to take care of duties not covered by the four standing committees.

The Student Senate elects its own officers from its members. These officers are President, Chaplain, Secretary, and Assistant Secretary. The Vice-President of Student Body automatically serves as President Pro-tempore of the Senate although he does not get to vote except in the case of a tie. The chairmen of the standing committees are appointed by the President of the Senate. Members of this unheralded body of our student government often deserve more credit than they get.

Relationships Bettered by Student Committees

In order to conduct the business of Student Government and aid the Executive Branch, the Constitution of the Clemson University Student Body sets up the following committees: the President's Cabinet, the Women's Residence Council, the Financial Review Board, the Elections Board, and the Attorney General. Of these administrative agencies, the President's Cabinet is the most important. It is composed of the President, Vice-President, Secretary, and Treasurer of the Student Body, the Chairman of the Women's Residence Council, and the presidents of each of the four classes. It is the purpose of the cabinet to aid and advise the Student Body President. Proposed legislation from the Student Senate must be approved by the President's Cabinet.

The Elections Board, also an important committee, supervises and administers all class and student body elections.

The Attorney General is assigned the task of compiling and organizing all legislation passed on by the Student Senate. All Senate bills are kept in a file in the Student Government Room.

All of the Student Government Committees are regulated by and come under the heading of the Executive Branch. They aid in the administration and execution of the responsibilities of the President and his cabinet. The Student Government Committees at Clemson function efficiently and effectively, and are manned by capable students. These committees help complete the link between the students and the administration and promote more understanding between the students and faculty.

Those students who participate in Student Government at Clemson gain much experience which enables them to be valuable members of our society.
Elections Board

Financial Review Board

Women's Residence Council

"Watch out! Here comes a hall momma."

A hall counselor writes out an inspection slip.
Supervisors Create Positive Attitudes

One of the first persons to greet the incoming freshman is the hall supervisor. Hall supervisors try to help get the freshmen oriented, to inform them of the student regulations and dormitory policies, and to encourage them to get off to a good start their first year.

Supervisors must meet high standards. They are expected to be dependable, disciplined, and informed of happenings around campus. They serve as a means of communication between the Office of Student Affairs and the dormitory student. They are disciplinarians, sources of information, and coordinators of all dormitory activities. They see that quiet hours are enforced and inspect rooms once weekly.

The "hall mammas" are always available to the men on their hall to discuss problems or just to "shoot the bull." These students give up a lot of their study time to help their fellow students and play an important part in moulding the life of their fellow students, especially the incoming freshmen. The unheeded advice of a supervisor usually leads to disciplinary action and unhappiness.

Tiger Band Appears Nationally on CBS Television

The Tiger Band is the official marching organization for Clemson University. This year’s edition of the Tiger Band consisted of 108 members, including a ten-man color guard. Director is John H. Butler, and this year’s Commander was Jerry Littlejohn, from Lexington, S.C.; Drum Major was Jeff Tisdale, from Sumter, S.C., and the two solo twirlers were Sandy Tarquino and Dynva Edens.

The band appeared at all home football games, winning high praise for their intricate precision drills that have become the trademark of the group. In addition, they traveled to Atlanta for the Georgia Tech game, to Athens for the University of Georgia game, and to College Park for the University of Maryland game. Following this last-named game, the Tiger Band played for the halftime of the Baltimore Colts-Minnesota Vikings game at Baltimore Memorial Stadium on November 15. The game was carried nationally on CBS television, and the band’s spectacular halftime performance won “rave” comments from the stadium fans, the officials of CBS television and the Baltimore Colts, and viewers around the country. This appearance on national television spoke extremely well for Clemson University.

A group from the Tiger Band appeared at all home basketball games, and the full band took part in many pep rallies during football season.
The Tiger Band maintains its own Color Guard.

The Tiger Band Solo Twirlers are Sandy Tarquino and Dynva Edens.

SENIOR STAFF MEMBERS OF THE 1964-65 TIGER BAND. LEFT TO RIGHT: Gene Singleton, Sgt. Major; Charles Martin, Supply Officer; Tommy Mathews, Vice-Commander; Jeff Tisdale, Drum Major and Student Bandmaster; Jerry Littlejohn, Band Commander; and Dickie McMahan, Color Guard Captain.
The Band dazzles fans with their intricate drill patterns.

Tiger Band symbolizes "birth" of the University with its formation.

Pre-game activity by the Tiger Band is concluded with the National Anthem.
Clemson University Also Features Concert Band

The Clemson Concert Band performs a varied repertoire of music ranging from the works of the established masters to lighter music of the present day. It is formed following the last appearance of the Tiger Band. This year's concert band was the largest in Clemson's history: seventy-one members, including sixty-three men and eight women.

A ten-concert tour of the state took place in April, followed by a Spring Concert and a "Pops" Concert on campus. In addition, some twenty members of the band took part in the fourth annual Intercollegiate Band, held in February on the campus of the University of South Carolina.

The Clemson University Concert Band, directed by John H. Butler, is noted for musical performances throughout the surrounding area.

The Clemson University Glee Club poses before a performance.
Making numerous appearances at Clemson and in the surrounding area, the Clemson University Glee Club is active throughout the school year. The group of students are highly skilled performers, presenting a program of enjoyable music at every glee club function.

Open to all students with talent and enthusiasm, the glee club provides enjoyment for listeners as well as the participants. The members of the glee club are bound together with a mutual admiration toward good music. The overall spirit of the club helps make it have the ability to perform so well that it gives to all who hear them an experience they will never forget.

For the student who belongs to the glee club, there are many rewards, such as the joint concert with the girls of Coker College. There are usually several joint concerts during the year, as well as banquets after the programs. During Spring Tour, the glee club visits North Carolina, South Carolina, Tennessee, and Georgia. A feature trip this year was to the New York World's Fair, highlighting the yearly activities.

Several glee club functions with Clemson coeds were held to promote the Clemson girls' interest in musical endeavors. Students of Clemson can be well assured that the glee club will continue to achieve superiority in the music field, giving everyone the opportunity of hearing or participating in the best in vocal music.
We'll be another Thursday afternoon on the drill field.

Army Counter-Guerrillas Learn Combat Conditions

The Clemson University Counter-Guerrilla Unit was organized in January 1963 to give selected cadets supplemental advanced military training. The goal of the Counter-Guerrillas is to keep its members physically fit and to teach them the fundamentals of soldiering. Its members are the elite, for their training is more intensive and specialized. Courses in patrolling, map and compass, ambush techniques, hand-to-hand combat, and bayonet fighting are all part of the training program of the unit.

There are several advantages to joining the Counter-Guerrillas. The most important is that the unit receives advanced training needed for summer camp. This training does not only help in advanced ROTC courses, but will also help in later life.

In the past the Counter-Guerrillas have gone on several field trips to Fort Benning and to the U. S. Army Ranger Mountain Camp. The unit plans many activities throughout the year to improve its members' alertness.

Membership requirements in the Counter-Guerrillas are high. A 2.0 GPR, enrollment in Army ROTC, and a score of 400 out of 500 on the P.T. Test are required. Perhaps the most important requirement is desire—without it one can never succeed.
Army ROTC Band Stresses Excellent Movement, Music

Representing the musical portion of the U. S. Army ROTC program at Clemson University, the Army ROTC Band is a vital part of the military organization. The Army ROTC Band is composed of select freshman and sophomore military students. These chosen members are well-qualified musicians for most of them have been in bands or are members of the Tiger Band.

The Army ROTC Band leads the line of march during drill ceremonies and performs at other military functions at Clemson. Under the leadership of its Junior and Senior Cadet Commanders, and its advisor, the Band fulfills its functions with top honors.

The Army ROTC Band goes on various trips during the year to compete against other U. S. Army ROTC Bands. Clemson University’s Army ROTC program is fortunate to have a band of such high quality to represent the Army and Clemson University.

The Army ROTC Band is a voluntary organization whose members are interested in music and its contribution to the betterment of the Army ROTC program and Clemson University. Clemson is proud to have such an organization to bring honor to the ROTC program.
AFROTC Teaches the Fundamentals of Leadership
Group One Teaches Cadets High Leadership Qualities

AFROTC Group Two Stresses Individuality, Excellence
Air Force Group Three is Leader in Drill Maneuvers

AF Group Four Strives to Build Men out of Students
AFROTC Band Provides Music and Cadence for Men

The Clemson AFROTC Band was formed in the late 1950's and was revitalized in the '61-62 school year. It is made of freshmen and sophomores who have indicated a definite interest in the band. Most of them are also members of the "Tiger Band," where they spend many hours practicing together. This naturally improves their playing and allows them to spend more time drilling.

The purpose of the AFROTC Band is to provide music for the Cadet Wing during drill practice, special formations, and parades.

The music and marching of the AFROTC band have added a great deal toward the enthusiasm of the cadets at Thursday afternoon drill sessions. The cadets work hard to produce a high quality of playing and drill movement to improve the over-all quality of the Cadet Wing.

The advisor for the AFROTC Band is Capt. Robert Carter. Their officers are juniors and seniors who have served in the band while completing their basic AFROTC course. The Band Commander for this year is Cadet Major John M. Hill, who coordinates the functions. His Executive Officer is Cadet Captain Douglas A. Campbell. Flight Commanders, whose job is to insure marching proficiency, are Cadet Captains James a Smith and Robert G. Heller.

The Air Force ROTC Band gathers their instruments for drill.

The Clemson University Air Force ROTC Band.
Who’s Who Names Students

Who’s Who among students in American Colleges and Universities is a national honor and leadership organization for outstanding students who display exceptional character, leadership, scholarship, and service to the school. Since 1934, when Who’s Who was first organized, a great number of outstanding students from all over the United States have been named to this elite organization. It has been said by many, “Find a man who was a Who’s Who and you have a man who is a success.”

Recognition of this award has been given to 34 Clemson University students this year by their selection to Who’s Who. This group of outstanding students contains 4 juniors and 30 seniors. These Clemson students have proven themselves to be of the type whose influence of character, leadership, and scholarship have added greatly to the betterment of Clemson University. It is important to realize that grades are not the only qualification. Admission requires a well-rounded, disciplined individual.
Of High Quality at Clemson

Selection to Who's Who is considered to be one of the most outstanding honors which a college student can obtain. The students are selected from more than seven hundred and fifty colleges and universities all over the United States. Thus, the honor of being named to Who's Who becomes greater because of the limited number of students chosen. This honor is touted to be the only national recognition for students excelling in leadership, character and scholarship on American campuses. The task of choosing the members of Who's Who is one of great importance and magnitude. A complete summary of each student is carefully considered. The campus nominating committee, composed of faculty representatives from all schools on campus, are instructed to consider in making their selection, the student's scholarship, his participation and leadership in academic and extra-curricular activities, his citizenship and service to the school, and his promise to future success.
Athletics are the primary media through which a college or university is thrust into the public eye. A few institutions survive an academic superiority alone, but these are truly few. When a person hears the name of a university mentioned, he automatically thinks of the football or basketball team. If Michigan State, UCLA, Alabama, or even Clemson is brought up in conversation, someone invariably asks, "How did they come out yesterday?" When an out-of-state student is asked why he chose Clemson, he often replies that he had heard of the football team.

This year's football season was one of tribulation. Although the team gave 100 percent effort in all ten games, only three ended with the score pointed in the right way. Breaks and breaks alone cost Clemson the Georgia Tech, TCU, and South Carolina games. The 1964-65 basketball season rested on the shoulders of the inexperienced, but extremely talented sophomores. As maturity joins skill, these sophomores will be great. Clemson's year in basketball should be great in the near future.

Athletics are an integral part of college life. What would Clemson be without football, basketball, baseball, track, tennis, golf, and swimming? It would certainly still be an institution of learning, but the pride would not be nearly as great. A superior athletic team makes a student proud of his institution. Athletics is second only to the academics in campus importance.

Senior Athletes

The senior athlete is one of the most respected positions at Clemson University. After four or five years hard work, he commands the attention of all students. He stands at the threshold of his career, whether it be coaching, industry, business, or the like. He has spent at least three or four hours a day on the battlefield of his sport during its season. He has distinguished himself on the football gridiron, the basketball court, the baseball diamond, the cinder track, the swimming pool, the tennis court, or the golf course. The senior steadies the team; he is the leader. When he visits Clemson in the future, the first thoughts he will have will be those never-to-be-forgotten moments of glory he experienced while playing for the Tigers.

There were certainly standouts: Pat Crain, who was all-ACC and the second draft choice of the Chicago Bears in his junior year; there was Hal Davis, all-State selection and leading ground gainer for the fighting Tiger footballers. Clemson’s answer to Mickey Mantle, both in appearance and in the ability, George Sutton, was a leader mentally and statistically for the diamond crew. Clemson’s track and field hopes are pinned on Cecil Huey and Avery Nelson. Ed Crow and James Ledbetter have the ability to lead Clemson to a successful season in tennis. The golf team looks steady again with Jim Self, leading the way as number one man. These men are the leaders in their respective sports. Only basketball lacked a senior leader.

The above mentioned individuals are but eight of many. This does not mean that the athletes that had the headlines were the only heroes. The student body looks up to all the seniors. This respect is one of the highest on the Clemson University campus.
Senior Athletes

Clemson’s field house is a center of great activity.
Athletes Unite in Block "C"

The Block "C" Club is composed of the students of Clemson who have participated in sports enough to get a "Block C." It is a symbol of effort and skill displayed by students who earned them.

The club had a very active year in 1964-65 under the leadership of Jim Brennan. The club is responsible for selling programs and chairs at home football games. This is the club's primary fund-raising project. These athletes sponsor a Christmas party each year for the children in the Shriners' Hospital. Also, as few Clemson students realize, the Block "C" club is held responsible for the maintenance of the spigots in the parking lot where the majority of students wash their cars. These are just two of the many fine services rendered by the members of the club.

The Block "C" Club offers many social gatherings for its members and guests. There are at least four parties and dances each year, topped off by a house party at the end of the second semester at some fine resort in the vicinity of Clemson.

These are the men who represent us on the field of battle in sports, whether it be a football field, a basketball court, a cinder track, a baseball diamond, a tennis court, a golf course, or a swimming pool. These are the men who are superior in sports both on and off the field. A man who wears the insignia of the club is one of the most respected men on campus. He is looked up to by everyone, especially the easily awed freshman. He is a hero.

Some of Clemson's beauties line up during the Block "C" initiation.
Coaches Develop Teamwork

Clemson University is widely known for its high academic standards, but it is also known throughout the eastern part of the United States for what has been termed Clemson spirit. When the Tigers are winning, these people who have this Clemson spirit have a better outlook on life. On the other hand, when the Tigers lose, Clemson as a whole loses.

Many factors have been involved in developing the atmosphere that now surrounds Clemson and the men that have graduated from Clemson, but no person has contributed more than the Baron from Barlow Bend, Alabama. This season, which was full of breaks and mishaps, was the first losing season Coach Howard has had in many years as head coach.

Coach Frank Howard has not developed this tradition alone. He has been aided by one of the best coaching staffs in the South. End coach Bob Jones has been here longer than any other coach. The backfield coach is Charlie Waller. Defensive line coach Bob Smith has been at Clemson 30 years. Don Wade is offensive line coach. Hall-of-Famer Banks McFadden handles the defensive backfield chores. Chief recruiter Fred Cone was one of the best fullbacks ever to play at Clemson. The job of these coaches is to recruit boys, then train and develop them into college football players.

Banks McFadden continues his coaching throughout the game.

The Country Gentleman watches . . .

The Clemson bench tensely watches the game.
... But how You Play the Game

Although they didn't have a winning season, the Tigers played much better than their record shows. Many games were lost because of one big play by the opponents.

In the opener against Furman, Clemson showed real strength and promise as they soundly defeated the Paladins by a 28-0 score. The Tigers didn't look quite as impressive the second game, as N. C. State defeated them 9-0. They played one of their best games of the season against a strong Georgia Tech team only to see victory slip from their grasp on two big plays for the Yellow Jackets. The next week the Georgia Bulldogs defeated Clemson by a 19-7 score. The Tigers were back in their opening game form in their fifth game of the season as they swamped Wake Forest 21-2. The Tigers then traveled to TCU where they lost a 14-10 heartbreaker. The next week Clemson was in their finest form against Virginia as they thrashed Virginia by a 29-7 score. Homecoming weekend saw North Carolina revenge last year's defeat as they ran up a 29-0 score against the Tigers. Maryland really put on an offensive show in the Tigers ninth game as they defeated Clemson by a 34-0 score. In their final game Clemson really played their hearts out against USC only to see a last minute score hand them a 7-3 defeat.

Ray drifts back looking for a receiver in the Virginia game.

McElmurray wrestles with a Paladin ball carrier.

"Where were my blockers?"

Dumas stumbles through the U. N. C. defense.

Grain charges through a hole in the North Carolina line.
Fighting Tigers Run Over Furman's Paladins 28-0

In the first game of the 1964 season, Clemson defeated Furman 28-0 in a record-setting penalty game, which was played before 20,000 fans. The Tigers had 180 yards in penalties, breaking the old school record of 142 yards. With 14 penalties, the Tigers also established a new Atlantic Coast Conference mark for the greatest number of penalties in an ACC game. Halfback Hugh Mauldin highlighted the Clemson offense, scoring twice, and taking top individual ground-gaining honors.

The Tigers got one touchdown in the first half and three in the second half, scoring on their first and last plays of the game. Furman's first mistake was a fumble on the Paladins' third play. Mauldin bulled his way 31 yards to the paydirt, and Frank Pearce booted the extra point, giving Clemson a 7-0 lead after two minutes, five seconds of game time. A field goal attempt from the Furman 17 by Pearce was short, leaving Clemson with a 7-0 halftime lead.

In the third quarter, after Frank Liberatore carried to the Paladin four, Hal Davis dived across for the touchdown. And, in the fourth quarter, Mauldin streaked in for the third touchdown. With one second remaining, Jimmy Bell passed to Davis for the final touchdown.
Ward carries again, this time good for six yards.

Tigers Lose to N. C. State

A strong Wolfpack defense was the cause of Clemson's 9-0 loss to N. C. State. The Tigers penetrated into State territory only three times, the deepest drive reaching to the 33-yard line. Fullback Pat Crain was limited to 17 yards by the tough Wolfpack linemen, who also frustrated Clemson's air attack, permitting only four completed passes in seventeen attempts which gained a mere 24 yards. In fact, Clemson's total offense was small, 135 yards and the Tigers were held to only six first downs.

State's nine points were accumulated in the first quarter when the Wolfpack scored the first two times the ball was in its possession. Kicker Harold Deters put the ball through from the 37-yard line to put State in the lead 3-0 with 3:04 elapsed. After the kickoff to Clemson, the Tigers were unable to move the ball and a third down pass was intercepted by the Wolfpack's Pete Falzarano. Nine plays later, disheartened Tiger fans watched Falzarano carry the ball for the touchdown, making the score 9-0. State threatened twice more, but was unable to score, missing a field goal in the third quarter, and stopping at the Tiger 3-yard line in the closing seconds.
Tigs Go Down Fighting Hard

The Clemson Tigers put up a hard fight before 47,000 fans, but Georgia Tech's Yellow Jackets managed to secure a 14-7 triumph over the Tigers. The first Tech play came on a recovered Clemson fumble at the Tiger 34-yard line. Tech quarterback Jerry Priestley passed to halfback Gerry Bussell for a 34-yard touchdown only two minutes and eleven seconds after the game had begun.

The Tigers thought they had a touchdown in the third quarter, but the officials said that a 15-yard pass from Thomas Ray to Frank Liberatore was no good. Liberatore apparently stepped out of bound in the end zone. Toward the end of the third quarter, the Yellow Jackets' Johnny Gresham broke down the sideline for a 54-yard touchdown. Since Tech secured both extra points, the score at the end of the third quarter was 14-0. But the Tigers were still fighting hard, and in the fourth quarter, Clemson, taking advantage of a Tech mistake, took over on a fumble at the Georgia Tech 11-yard line. Clemson halfback Hugh Mauldin carried three times, making the only Clemson touchdown. Frank Pearce kicked the extra point for the Tigers, leaving the final score 14-7.
Dogs' Bite Worse Than Bark

Aided by perfect football weather the Georgia Bulldogs wanted to prove that they were the most underrated team in the South. They chose their first home game before 31,000 fans to stop Clemson's offense as well as rip their defense. The Bulldogs bore no resemblance to the team which Alabama beat and USC tied.

Georgia marched 88 yards for the first score, leaving 4:27 in the first period. In the second quarter with seven minutes remaining, a Georgia end intercepted a pass and raced 16 yards for their second tally. The Tigers trailed 0-14 at halftime.

After a scoreless third quarter, Georgia booted an 18-yard field goal and Clemson broke into the scoring column. Bruce McClure recovered a blocked punt on the Georgia 29. From there the drive was sparked by two Ruffner to Hostetler passes while Pat Crain plunged over from the one. Frank Pearce added the extra point. With only five seconds left in the game, Thomas Ray was dropped for a safety in the Georgia end zone, making the final score 19-7.

Coach Howard's postgame observation: "We couldn't have broken an egg today. . . . Gentlemen, we plan to do some work next week!"
The Tigers held the nation's number two rusher, Brian Piccolo, to under one-third his average yardage, beating the Deacons 21-2 at Winston-Salem. With Hugh Mauldin out with an injury and Pat Crain sidelined early with a charley horse, Clemson relied heavily on its defense while taking full advantage of Wake's mistakes.

The first touchdown came in the second quarter after the Tigers had held Piccolo at his own six-yard line. Guard Joe Blackwell blocked Deacon Wayne Welborn's punt, tackle Butch Robbins downed the ball in the end zone, and Frank Pearce made the extra point.

Wake Forest's only score of the day came when Deacon Joe Sepci caught Thomas Ray in the end zone with no receivers open downfield.

The Tigers came back from the 7-2 halftime lead well rested, and when Wake Forest kicked out of bounds on their own 44-yard line, Clemson scored in three plays, including a 40-yard run by halfback Hal Davis, with Frank Pearce in for the extra point.

The final touchdown came in the fourth quarter when Thomas Ray passed to fullback Jay Cooper after faking a field goal. The fake worked perfectly, and Cooper was all alone as he stepped into the end zone. Again Pearce made the extra point, his third for the day.
T.C.U. Slips Past Fast Moving Tigers in Second Half

Against Texas Christian, the Tigers showed their potential as a quick-reacting team. Clemson demonstrated excellent offensive play during the first quarter. The combination of a well-executed trap play, Hal Davis, 22 yards, and a first down comprised Clemson's opening play. Davis took the ball again and moved it to the Horned Frog's 17-yard line for another first-and-ten. Billy Ward picked up the third straight first down on the next play. The Frogs held the Tigers on the 6-yard line long enough to gain possession, but the Tigers regained control after a fumble during TCU's first play. Three plays later, Crain scored for the Tigers. Pearce's kick made it 7-0. Later in the game, Hugh Mauldin recovered another TCU fumble, then helped Baldwin and Liberatore move it to TCU's 4-yard line. Time forced the Tigers to attempt a field goal. The kick was good and at halftime the score was 10-0.

In the second half, Clemson was jinxed: mistakes cost the Tigers 14 points. A Fauver-to-Bratton pass gave the Frogs their first TD and the PAT was good. Later, Fauver broke loose for 70 yards and the final TCU score. The extra point made it 14-10 in TCU's favor.
Mauldin cuts away from a Virginia end.

Davis Leads Tigers to 29-7 Victory Over Virginia

Virginia Sophomore Davis is piled up at the line.

The Virginia game could well be called the "Battle of the Davises." Senior halfback Hal of Clemson ended up on the long end of the 29-7 score, although sophomore quarterback Bob Davis of Virginia, eventual all-ACC first team, turned in a sterling performance. The first time Hal Davis ran, he broke around right end for 54 yards. After several plays, Jimmy Bell passed to Wayne Bell for 34 yards and Clemson's first score. This came after only 2:12 of the first quarter. Frank Pearce kicked his first of three extra points. Clemson rolled up 331 yards rushing, with Hal Davis getting 179. The Tiger's second touchdown came on a 3-yard run by Davis. Early in the second half Virginia began to drive with Bob Davis running from the shotgun. From the Clemson 44, he went to the right, reversed his field, and scored on a brilliant exhibition of broken-field running. In the fourth quarter, Hal Davis ran for 35 yards and Clemson's third touchdown. The score then stood at 81-7. Clemson's final tally came as Ted Bunton picked off a Virginia pass and rambled in from 48 yards out. The game featured errors as the ball changed hands 11 times on fumbles and pass interceptions.
North Carolina Evens Score

Homecoming found North Carolina settling an old debt with a few dividends as the Tarheels slashed their way to a 29-0 victory over an impassive Clemson club.

It had been seven years since the Tarheels had prevailed against Frank Howard's Tigers, and Head Coach Jim Hickey had suffered through five consecutive defeats at the hands of the Bashful Baron's boys.

The Tigers were simply no match for the inspired Tarheels, and 35,000 homecoming fans in Clemson Memorial Stadium could sense early that it might be a long afternoon for the Tigers. And long it was.

It was the biggest margin in the series which dates back to 1897, and it was then that the Rams rolled up a 28-0 verdict. The defeat was the worst loss a Clemson team had ever suffered in "Death Valley" since the present stadium was first used in 1940 and the worst loss at Tigertown in 40 years.

Behind the inspired ball play of ace fullback Ken Willard, quarterback Gary Black, center Chris Hanburger, and middle linebacker Ricky Zarro, North Carolina capitalized on Tiger fumbles, halted Clemson drives with pass interceptions, and simply outplayed the Tigers at their own game—power football.

Sharpe picks up ten yards in the right flat.

Mauldin skirts right end for seven yards.

Hugh is hit hard by the Heels.

Davis stopped by Tar's sticky defense.
Tigers Defeated by Terrapins

Maryland's Terrapins, using a frisky quintet of sophomores, handed Clemson a 34-0 beating and assured Tiger Boss Frank Howard of having his worst season since 1953.

Tom Hickey, Walt Maramak, Ron Walewak, and Bill Petry picked up touchdowns en route, but fellow sophomore Bernardo Bramson was the hero of the afternoon as he added four extra point conversions and a pair of field goals to establish a new Atlantic Coast Conference field goal record of eight in one season.

Clemson's sputtering offense never got started, and Head Coach Tom Nugent's sophomore-heavy squad found little trouble in rolling to their fourth victory of the season.

The Tigers managed only three first downs in the first half and three in the second in failing to their worst defeat since a 54-13 loss to Tulane in 1952. This was the first time since 1936 that the Tigers had lost two consecutive shutouts.

Hal Davis led the Tigers with 36 yards in 13 attempts as the Bengals were held to a total offensive yardage of 90 yards. Maryland rushed for 248 yards, passed for 76, and picked up 19 first downs in moving to their greatest win over Clemson.
Hustling Tigers Frustrated by Carolina Gamecocks

Death Valley was truly "Frustration Valley" for the Tigers on this cold, November day. Three times they drove deep into South Carolina territory and three times their drives were thwarted inside the ten-yard line. The Tigers dominated the game from the very beginning. A beautiful Clemson punt put USC on their one. They couldn't move the ball and after a poor punt, Clemson took over and drove to a first down at the USC 18-yard line. When they couldn't go, Frank Pearce came in on fourth down and booted a 24-yard field goal to put the Tigers ahead 3-0. Clemson had complete control, but they just couldn't get the pigskin across the goal. In the fourth quarter, they had first-and-goal at the USC 4-yard line. On fourth down, Pat Crain cracked into the line and fumbled as he crossed the goal. South Carolina recovered the ball on the 7-yard line. Rogers came in and directed the Gamecocks on a 93-yard scoring drive. Twice they were aided by penalties when they had fourth down and long yardage.

The final 7-3 score did not reflect the story of the game at all. The Tigers played their hearts out on the field and the students showed much school spirit, but fate was against them on this day.
Jim Sutherland lays another one in.

The Clemson bench tensely watches every move.

Randy Mahaffey battles for the ball against the Blue Devils.

Hank Channell goes up for a shot over Hack Tison of Duke.
Sophomore-Studded Tigers Show Great Promise

The 1964-65 basketball season at Clemson can be recorded as one of youth, breaks, and "almosts". There were many close contests during the season, usually with Clemson coming out on the short end by one or two points. This is very well evidenced by the way the Bengals won the hearts of the biased crowds at the North-South doubleheader in Charlotte. They lost both of their games by a total of three points, with the decision to N. C. State, eventual ACC champion, by only one point. The Tigers lost to Duke, who was ranked sixth in the nation at the time, by that same margin in Tigertown. These few games were indicative of the breaks that the Clemson roundballers had in the 1964-65 season.

During the season coach Bobby Roberts depended on eight players: two juniors, captain Buddy Benedict and Gary Helms; and six sophomores. Mahaffey, a sophomore, averaged 17.3 points a game; Sutherland, 16.7. These two cagers led the way in scoring and rebounding with Buddy Benedict providing the hustle. As these sophomores get older, they will acquire a factor necessary for success in sports: experience. They learned a lot last year and will mature more as these next two years pass.

BOBBY ROBERTS, Head Basketball Coach

FIRST ROW: Ken Gardner, Fred Steiner, Mike Grisett, Rudy Antoncic, Richard Hall, and Buddy Benedict. SECOND ROW: Joe Ayoub, Sam Cohn, Tom Corcoran, Donnie Seitz, and Gary Helms. THIRD ROW: Walt Ayers, Hank Channel, Randy Mahaffey, and Jim Sutherland.
Mahaffey outjumps Dick Martini of The Citadel.

Jim Sutherland is far ahead of the pack to sink a snowbird.

Randy Mahaffey scores while surrounded by the entire Citadel team.

Captain Benedict drives in for a lay-up.
Tiger Nine Display Hustle

Coach Bill Wilhelm’s 1964 version of the Baseball Tigers had a so-so season of 13-13 and a record of 6-7 in the Atlantic Coast Conference, which was good enough for a fourth place finish.

Individually, the Tigers were able to produce outstanding players in the game. In the pitching department, Tommy Chapman led the ACC with 83 strikeouts and an overall 6-3 won-lost record. Bob Lowell maintained a 2.41 earned-run-average in 34 innings. These two pitchers were followed by Greg Casey, 5-3, Dale Smith, 2-3, and Dick Edwards, 0-1, to round out the pitching staff.

Catcher Stan Ayers led the team with a strong .316 batting average. Ayers was followed closely by George Sutton, .315. Buddy Nixon and Tommy Pack both had respectable .303 batting averages. Ben Marsella rounded out the top Tiger hitters with a .282 average. Marsella also led the team with 33 hits, 6 homeruns, and 29 runs-batted-in.

The Mitchell Trophy for the Most Valuable Player of 1964 was presented to Ben Marsella. This award is presented to the best all around ball player.

Most of these boys will return for the 1965 season to give the Tigers the much-needed experience for a strong ball team. In addition, the Freshman Ball Club with their impressive 13-4 record should give the Bengals an added claw for the coming year, especially in the fine pitching of Charlie Watson (7-1) and the hitting of Eddie Barbary (.429).

Lawton Cowart awaits a fly ball for the third out.

A Tar Heel is tagged out at third.

Tony Jackson raps another one to leftfield.

Ben Marsella clears the bases for the Tigers.
Cheerleaders Spark Spirit

Each year when the whistle blows for the start of the season’s first football game, a mighty “C-L-E-M” can be heard from the Clemson cheering section. At that moment, every Clemson student is proud to be a part of the Clemson Student Body and is especially proud of the traditional Clemson spirit.

Now that Clemson has become a university and is growing bigger, it is very important to keep the closeness of a small school and to preserve the spirit and pride that has always been the distinction of the Clemson student. This year’s cheering squad did a fine job of keeping the spirit of the students at the usual Clemson level.

The cheerleaders sacrifice many hours of valuable time in order to practice their routines and cheers. They are to be congratulated on the fine way that they represented Clemson University at pep rallies and at the home and away games.

One of the pep rallies well worth mentioning is the one which was held before the annual game with the University of South Carolina. The cheerleaders and students put forth a tremendous effort toward showing the football team that they were behind them. The members of any team need to know that they have the confidence and support of their fellow schoolmates, and much credit should be given to the cheerleaders for their enthusiasm toward these school activities.

Lloyd leads the “Rats” in “C-L-E-M”.

Unheralded Trainers and Managers Back Teams

With every great team are men behind the scenes who seem to never get the recognition that they deserve. These are the trainers and managers who have a tremendous part on the athletic wheel. Their job is hard; the student managers begin each day three hours before practice and have put in a full day's work in an afternoon, finishing an hour or so after practice. They are responsible for issuing clean uniforms each day, making sure that all equipment is on the field before practice, checking all cleats and face masks to see that they are firm, and making sure that the soft drinks are on the field at the proper time. After each practice the managers have a general clean-up and send dirty clothes to the laundry. After a hard week's work, the team and managers take Friday night off and go to a movie, and then retire to the field house at 9:30 to rest up for the big game on Saturday afternoon.

These managers and trainers have played a vital and important role in the advancement of the Clemson athletic department. Their jobs are ones that have to be done in order to run an athletic department. Therefore, they put out extra effort in order to see that things are done right, and leave each day with the feeling of confidence about a job well done. They certainly deserve more credit than they receive.
Clemson Trackmen Finish Undefeated; 2nd in ACC

Nineteen Sixty-Four produced one of Clemson's all-time strongest Track Teams. It was a balanced team, outstanding in every phase of track and field, that rolled through five victories without a loss before succumbing to one of the nation's best, Maryland, in a close Atlantic Coast Conference championship. Gone from that team are record holders Jimmy Wynn in the 100, Cater Leland in the broad jump, Bill Jackson in the pole vault, and Nelson McLaughlin in the shot. ACC records were set by the mile and 440 relay teams and Avery Nelson in the hop, skip, and jump. The team's second-place finish in ACC competition was the highest in many years for Clemson cindermen.

This year's team rests on the capable, talented shoulders of Cecil Huey in the 440; Avery Nelson in the jumping events; Hayes Cone, Carl Pool, and Tommy Durham in the sprints; Dick Dobbs in the shot and discus; E. J. Drown in the distance runs; Lynwood O'Cain in the hurdles.

Two meets were held at Clemson last year. The first was a three-way meet with Wake Forest and Duke which turned into a Clemson runaway. The second was a dual meet with South Carolina. Clemson pulled it out of the fire on the last three events to win 75-69.

P. WEE GREENFIELD
Head Track and Cross-Country Coach

Cecil Huey speeds to another victory in the 440.

The team starts a practice with their necessary warm ups.

The team approaches the finish line in a group formation.

Cross Country Team Looks to Improved Season

Clemson's 1964 cross country team posted but one win during the season's ten meets. This record does not, however, reflect the true quality of the cross country team, for E. J. Drown placed third in the state meet as the team finished third in the state and sixth in the conference meet.

The sole Tiger triumph came from the encounter with Citadel's cindermen by an overwhelming 18 to 45 score. Clemson came very close in their first meet with Virginia, losing by 29 to 26. Cross country is scored in a negative manner; the team with the fewest points wins the meet.

The 1965 season promises to have a much improved cross country team as a whole, due to increased depth and experience. Clemson's team was somewhat hampered last year in several meets because of adverse conditions, new terrain, and injuries. Coach Greenfield is counting heavily on E. J. Drown and the Evans twins, Bill and John.

Tankmen Show Improvement

The 1964-65 Clemson Swimming Team showed much more improvement than was indicated in the won-lost column. The team worked hard to improve themselves in spite of the poor facilities that exist at Clemson for this phase of athletics.

The 1964-65 team had eight varsity and several sophomores who returned from the previous year. The tankmen were up against several strong opponents including Duke, North Carolina, Georgia Tech, Virginia and others. The team showed promise in several matches, coming close to victory against Wake Forest and Maryland.

There is still much room for improvement in this phase of the Clemson Athletic Department, but a marked advancement can be seen each year. Even though the swimmers were not successful in their record, they should be commended for their all out effort.

A Tiger butterflies through the water.
**Tiger Golfers Show Promise**

The Clemson University 1964 Golf Team had a disappointing season with their 2-8-1 record. The team consisted of 4 seniors, 2 juniors, and 3 sophomores. The number one and two men, Mike Dawes and Ray Chapman will be missing from the 1965 golf team, but there are some promising sophomores and juniors to take their places.

The golf team plays its home matches at the Anderson Country Club, and Executive International Golf Club. The team participates in several tournaments throughout the season, including the State Tournament and the Atlantic Coast Conference Tournament.

"Now, if I apply a little body English."
Tiger Tennis Team Retains

Clemson’s Tennis Team had a fine season ending with a 9-8 record. They had several heartbreakers by losing to Florida State, Harvard, and Maryland by 4-5. However, the Tigers still retain their title as South Carolina State Champions which was decided at Clinton, and they finished in third place in the Atlantic Coast Conference Tournament at Durham, North Carolina.

The team included lettermen Fred Craft, Eddie Crow, Malloy Evans, James Ledbetter, Dick Pregnall, Steve Scheer, and Doug Stewart. Also sophomores Harry Frampton, Tom Long, and John Thompson. The Tigers were led by Captain Malloy Evans. Duane Bruley served his second year as coach.

The 1964 Clemson Tennis Team included four seniors who proved to be great assets for the past couple of years, but the team looks forward to having the support of several up-and-coming underclassmen in the future.

Smithyman scoops one out of the dirt.

Hinson leads interference for Hook against Georgia freshmen.

Clemson's freshman football team.
Freshman Athletes are Tiger Stars of Future Years

Each year the Clemson University Athletic Department strives to import outstanding freshman athletes from all areas of the nation to play on Clemson Cub teams. These players prove to be the backbone of the Clemson Fighting Tigers, so our recruiters work continuously to find the best and most talented high school players they can find.

These boys are organized into freshman teams and play regular schedules against the freshman teams of other schools, thus acquiring experience on the college competition level as well as learning to work together with the other members of the Clemson teams.

This year's Cub footballers, coached by Whitey Jordan, came through with some sparkling performances, although compiling a mediocre record. Promising players in the backfield this year included Buddy Gore, Arthur Craig, and Freddie Kelly, while Edman McGee and Connie Wade looked promising at the end positions.

Freshman basketball coach George Krajack enjoyed another fine season with the Cub roundballers, with Jack Dempsey, Marvin Caughman, and Jimmy Padgett showing promise on the basketball court. Although the freshman basketball squad this year has very few scholarship players, the team still looks impressive on the court. Clemson basketball fans can count on good teams for several years in the future.

A preview of the 1965 Cub baseball, track, tennis, golf, and swimming teams shows promising things for the Clemson spring sports program. These freshman athletes strive to excel in their respective positions.
A Cub pitcher warms up before the game.

A freshman ballplayer takes a lead off second.

A Georgia player comes to a dead end.

A Tiger Cub waits for the next pitch.

Bill Manos, a Clemson RAT, strains for the tape against a South Carolina frosh.

Charles Hook looks for an opening.
Freshman cheerleaders add color to the game.

Track and Baseball Round Out Freshman Season

These Tiger Cubs play a rough brand of football.

Stanley Kellett goes up for a rebound.

Jimmy Padgett goes up for a shot all alone.
And the rush is on.

The Numbers and SKEs square off in basketball.

Two points for "Buzzard".

"S.E." Kinnett gets set to throw another.

Flawless professional form is noted in this intramural football game.

Popularity of Intramural Sports Increases Each Year

The intramural sports program is one of the most popular of the extra-curricula activities here at Clemson. This program allows students interested in physical recreation and competitive exercise the chance to participate in organized athletics. The program is supervised and financed by the Clemson University Athletic Department and is under the direction of Coach Bill Wilhelm.

The intramural program is designed to include all sports of which there is any interest at all here at Clemson and tries to offer everyone a chance to participate. Popular team sports offered include touch football, softball, basketball, and volleyball. Teams in these programs come from campus organizations, fraternities, and sections in the dormitories. The participants range from serious competitors to those students that are only interested in leisure-time recreations.

Competition is fierce and spirits run high in the intramural battles in quest of the overall school trophies. The interest in this program is skyrocketing, and each year the number of competitors increases. Often there are even spectators for the intramural games, and the championship football game this year drew an exceptionally large turnout.

As the popularity and interest in the program grows, so grows the program for it adds yet another facet to a well-rounded education. Fierce competition, un-rivaled teamwork, individual excellence, and explosive excitement all combine to make our intramural program an excellent activity.
"Petty-cake, patty-cake, baker man."

A prerequisite to intramural volleyball is three years of ballet.

Don't just stand there dumbfounded, do something.

PKD and DPK tangle in a fight for a rebound.

Intramural sports help keep students in good physical shape.
Dail loosens up some before a meet.

Touche, and a point is scored on the thrust!

**Fencing Team Has Good Year**

Fencing is a sport now in its fourth year here at Clemson, and the members of this year’s team expect another excellent season in the tradition of the last three years. Sponsored by the YMCA, the team is a competitive organization which holds meets with other schools throughout the year.

As opposed to other college level sports, fencing does not require great physical size and strength, but rather, demands such important qualities as competitive spirit, skill, timing, and mental and physical agility. Due to the great mental requirement, fencing is often referred to as “physical chess.” Clemson’s team competes with all three weapons in use today in the art of fencing: The foil, where an attempt is made to touch the opponent on the torso; the sabre, where cutting with the blade is also attempted; and the epee, or French dueling sword, where the object is to hit the opponent first, anywhere.

The basic requirements for admission to the fencing team are the willingness and desire to learn and to work. Interested students need not have any previous experience or knowledge in the art of fencing. In fact, all new members are thoroughly instructed in the fundamentals of this sport before continuing on into advanced work and competition. The club usually practices for an hour and a half a day, three days a week at the YMCA. The home and away meets are all held on the weekends of the school year.

Under the direction of Dr. Hal Cooledge, this team has experienced three fine seasons, and again expects a good season this year. The Clemson student has a fine opportunity to learn a minor but challenging sport through the facilities of Clemson’s Fencing Team.
Skin Divers Offer Service

The Clemson University Skin Diving Club, though relatively new on the campus, is a well-organized working organization which offers the student a good chance to participate in this fast-growing sport. The club serves the Clemson students in a dual role: first, experienced instructors provide basic lessons for the novice divers, who later move up the ranks from junior on to senior members of this organization; secondly, the club offers members the use of club-owned equipment, such as new compressors and double tanks, for the personal enjoyment of club members. Club members can also obtain the use of all club equipment for weekend or holiday trips independent of specific club functions.

At the beginning of each semester, this club holds a training program in the YMCA pool, which includes both written and swimming tests applying the techniques and knowledge required for proper safety and fun in and under the water. However, many of the club's functions and activities are held in various lakes in this and neighboring states. The club especially holds many functions in nearby Hartwell Reservoir, which was a boom to the club upon its completion. Aside from these usual club activities, this club encourages water safety while enjoying the varied water sports. New members especially are oriented in safety aspects of SCUBA diving and underwater techniques. The club also acts as the rescue and recovery team for Clemson University in the underwater field when this becomes necessary.
Rifle Team is Rated High

The Clemson University Rifle Team, though small in number and often heralded, has proved to be one of the most successful competitive teams which represents the Clemson Student Body. Over the last several years, the team has brought home such victories as overall champions of the Annual Pershing Rifle meet, overall champions of the 12th U. S. Army Corps meet, first place victory in the S. C. College Meet, and even a second place victory in overall United States competition. The team has also brought to Clemson the overall championship trophy of the Atlantic Coast Conference. In addition, the team boasts of individual victories over such schools as Georgia Tech, Furman, Davidson, Presbyterian College, and Wofford. Most members of the Rifle Team covet most highly the several individual victories over The Citadel, the Military School of the South.

The Tigers participate in matches all over the southeastern area of the United States. Being a non-seasonal sport, rifle matches are scheduled all during the year. Before matches, the team practices as much as four nights a week, but most matches are held on the weekends. This activity is available to any student who is interested in marksmanship and who can shoot well enough to qualify for the team. In fact, for the first time ever, some co-eds are even working with this year’s rifle team. The practice of safety not only with the rifle, but also on the firing line is one of the most valuable traits which is learned as a member of the team. Sgt. Burton and Sgt. Lewis coach this fine Clemson team.
SENIOR YEAR

[Content continues here with text regarding senior year experiences, course work, extracurricular activities, and reflections on the academic journey.]

College of Agriculture
Grows Through Research
And Development

Clemson's College of Agriculture stands as one of the foremost in the nation. In the broad field encompassed by this school, students must study everything from insect life to mechanical engineering to becoming well-prepared agriculturists. They are assured of the very best training in their fields, and the classroom theory is brought to life in the laboratories and on field trips. This application of theories enables the College of Agriculture to make notable contributions to the state and nation through current advancement in agricultural technology.

The College of Agriculture is composed of three main divisions: Resident Teaching, Research, and Extension. Some of the job opportunities in each of the six areas of employment are indicated below:

- Farming—both general and specialized farm production.
- Research—research with agriculture and other federal agencies in the fields of farm production, processing, marketing, and agricultural engineering.
- Education—positions with high schools, colleges and universities, agricultural extension services and farm organization.
- Industry—employment related to meat and poultry packing, farm machinery, fertilizers and lime, pesticides and herbicides, dairy processing, food and seed processing and feed management, land appraisal, marketing, storage and warehousing.

W. H. WILEY, Dean of College

The forestry boys spend countless hours in lab preparing for the future.
Material learned in statics lab is a great aid in solving daily farm problems.

Determining the soil factor is important in today's modern farm program.

Much valuable information is derived from the practical experience gained in the greenhouse.

Research is a must in order to keep pace with advancing technology.

School of Architecture
Cultivates Creative Talent
And Trains in Basic Design

Clemson University's School of Architecture strives to teach the student to develop man's environment—physically and aesthetically—by using the guiding principles of function, structure, design, and beauty. From the school's discipline, the student gains an open and progressive mind in order to meet and serve the demands of our growing society.

The curriculum of the architectural student is different from any other academic discipline. The student must prepare himself with a background of social sciences and math for his structural courses which are put to practical use in the all-important design labs. Here the given problems become more involving as the student progresses to his fifth year town planning and thesis.

The School of Architecture gives two choices to Freshmen—Architecture or Building Construction. The architecture students have a second choice after three years—Design or Architectural Engineering. All three choices lead to a bachelor degree after five years.

The student's education is broadened by having a series of construction lectures, visiting lecturers, and critics, and field trips. To refine the student's taste in the fine arts, an outstanding schedule of exhibitions and films are also available. The formal education of an architect merely teaches him what to learn, for his education continues throughout life.

Architecture is not merely the designing of buildings.

The end product of many hours of work and illustration.
This lab makes or breaks many rising architecture.

The Building Construction boys have a chance to learn from practical experience.

Much planning is necessary on the professor's part.

Informal talks with professors usually smooth out some of the problems.

Variety of Fields Can Offer Arts and Science Graduates A Well-Rounded Education

The College of Arts and Sciences has several important functions on the college campus. It serves not only as a service school in providing instruction in the humanities, physical sciences, and the social sciences, but also as a separate school offering Bachelor of Science degrees in Applied Mathematics, Chemistry, Physics, and Pre-Medicine.

In June, 1963, Clemson awarded its first Bachelor of Arts degrees, marking the opening of a broad new vista of higher education. The Bachelor of Arts Program offers a general education to those students who prepare for intelligent participation in their society. It is an excellent background for pre-law students, business and journalism. The curriculum is also well-suited for those students wishing to pursue a teaching career. Students may select major concentration in either Economics, English, Geology, History, Modern Languages, Mathematics, Secondary Education, or Sociology.

All Arts and Science students pursue a general study course during the first two years. These are spent in introductory work in various areas, in order to give the student an ability to choose his fields of concentration from a variety of courses. In this way the student may take a more intelligent part in his own education.
Experimentation is necessary in the development of new ideas.

T. Y. analyzes a solution in P. Chem. lab.

Many hours are spent in research in the library.

Math students learn to work with computers.

Nine Engineering Curricula Present Numerous Avenues To Scientific Application

Clemson’s College of Engineering offers the prospective engineer nine related curricular choices: Agricultural Engineering, Ceramic Engineering, Chemical Engineering, Civil Engineering, Electrical Engineering, Industrial Education, Industrial Engineering, Mechanical Engineering, Metallurgical Engineering. Of these nine, the curricular in Agricultural, Ceramic, Chemical, Civil, Electrical, and Mechanical Engineering are accredited by the Engineer’s Council for Professional Development.

The student in engineering does not take specific options or majors under each curricula, but rather studies many phases of each respective field. However, through the use of offered electives the student may receive concentrated instruction in one specific field of study. Still each engineering student receives a well-rounded engineering background as each student is required to take basic courses in each field of his study.

Clemson’s College of Engineering strives to teach the student orderly analysis and logical thinking rather than develop the specific skills needed later in his profession. The College of Engineering here at Clemson feels that if the student is first taught thoroughly in college to express his ideas both in words and in graphical communications, he can learn the actual skills required later on in continued college and on-the-job training. The first two years of study in each curricular deal largely with fundamentals.
Two students adjust an electronic microscope for use.

This C. E. student gains practical experience in the use of the transit.

C. E. majors test a soil sample in CE417 lab.

The School of Textiles and Industrial Management Plans Programs for a Modern South

The program of systematic training of Clemson students in the University's School of Industrial Management and Textile Science is turning out more efficient executives. For its students of textiles, the school of Textile Science has three divisions, Textile Science, Textile Chemistry, and Textile Management. Textile Science emphasizes the basic sciences. Forty percent of the curriculum is concerned with physics, mathematics, and chemistry. Managerial courses are also emphasized in the field of Textile Science. Textile Chemistry outlines an educational course, enabling its graduates to compete for administration in synthetic fiber plants, chemical plants, and in finishing plants. Providing education in technological, managerial, and textile subjects, Textile Management converts men into managers, leaders in their field. Its emphasis is on the social sciences.

Existing for nine years at Clemson, the School of Industrial Management is very successful in giving students a well-rounded, professional education. The Industrial Management program at Clemson University includes studies in social and physical sciences, as well as humanities. For those entering the fields of industry, Industrial Management offers liberal study, followed by educational pursuits in business, economics engineering, and technical courses, balancing the curriculum. Having in mind that today's students are tomorrow's leaders, the Industrial Management department turns out well-trained managers, who will make the future better for all.

Chemicals are used to test for fiber strength and durability.

Robert spends many hours running tests for his research program.
The study of Textile Chemistry is important in the Textile curricular.

Textile major learns by experience.

There is a constant flow of knowledge in the labs.

By the time a student reaches his junior year, he has a full realization of what Clemson means to him. He has become an integral part of college life by his participation in extra-curricular activities and organizations. The junior has reached full college maturity by way of his fascination as a freshman and his self-independence as a sophomore.

When the third year arrives, the student is usually well into the curriculum of that “magic moment,” graduation. He realizes, however, that much hard work lies ahead if he is to reach this goal, and he knows how to budget his time to keep abreast of his duties.

Activities, organizations, and fraternities occupy a large portion of a junior’s time as he develops into a better and more useful citizen. He joins with his classmates in projects such as the sale of book covers, barbecue dinners, and Junior Follies—all leading to the Junior-Senior banquet, at which the juniors honor the seniors.

Then, magically, the year is over and the juniors are now the next graduating class. The fun and frolic the trials and hardships of the junior year are behind them.

SOPHOMORES
A sophomore was defined in ancient Greece as a wise fool; at Clemson he is a man eagerly awaiting the opportunity to tell a rat everything about nothing. This "fool" gains an extreme feeling of importance as he begins his sophomore year. He sees the new freshman class decked out in bald heads and orange hats as he was. He realizes that he is not the lowest form of life this time around. He gets revenge for all the ratting he was subjected to his freshman year.

As he registers and attends classes for the first couple of weeks, he realizes that this year is indeed harder than the Freshman year. His courses get more involved and his time is taken more and more by extra-curricular activities: fraternities, publications, professional, and service organizations, as well as religious activities. Since a body thrives on play as well as work, he deems it necessary to enjoy an occasional party night at Bolton's or a trip to Winthrop.

After much pondering on his own, advice from others, and parental demand, he decides on a major course of study that, in all probability, will be his life's work. Once this decision is made, he can plan for his next two years.

FRESHMAN YEAR

The Freshman year at Clemson University is a year of new experience, uncertainty and confusion. Most of this new experience is found in the college way of life: life in dormitories, the fact that they are away from parental supervision. The Rat finds himself without a car, hair, money, and many other necessities of life. He is uncertain about his future. As the first round of quips roll around, he is scared. After they are given back, he either has a newly born sense of confidence or is ready to drop out of school. His confusion stems from the fact that he is away from home for probably the first time in his life. He is on his own, and there are so many things he could do—but doesn’t. Every freshman enters Clemson with hopes, whether they be social, academic, or professional.

The Freshman is quickly inducted into the tradition of Clemson as he loses his hair and starts wearing a “Rat” hat. With this showing, he begins a ten-week tenure as a Clemson “Rat”. He yells in the dining hall, attends all pep rallies, runs errands for upperclassmen, and is generally treated like a nobody. At the termination of this period of time, he is considered a Clemson Gentleman.

ORGANIZATIONS
A school is part of society; a school is also indeed a society within itself. Clemson University is a place where leaders of tomorrow are trained for society’s pressures and demands, and they also learn the important faculty of decision making. The men whose pictures are presented in the following pages have shown motivation which has qualified them for a position in an honorary organization.

To become a member in one of these esteemed groups, scholarship, leadership, and character are considered. Most of these organizations are strictly service fraternities and provide much invaluable time and labor in benefiting the school and students during the academic year.

Within the society framework these organizations are beneficial in that they do perform an active service to the school, and more important, give their members the chance to identify and direct their energies towards helpful, educational purposes. These organizations also give those who are motivated and skillful in life, something to work for, because to belong is truly an honor.

It is here where tomorrow’s leaders are found, for in their endeavors, the profit motive is ruled out; these men work because they are inspired to do a service to their fellowman.
 Academic Leaders Recognized by Phi Eta Sigma

Phi Eta Sigma is a national honor fraternity which gives recognition to outstanding freshmen. A freshman must have a 3.5 accumulative G.P.R. either at the end of his first or second semester of attendance for admittance to the Clemson chapter.

The primary purpose of this fraternity is to encourage high scholastic achievement in freshmen. To become a member is the highest scholastic honor which a freshman may receive. In addition to giving scholastic recognition Phi Eta Sigma presents for its members a slate of prominent figures speaking on a similar nature are presented throughout the year.

In further recognition of scholastic ability the fraternity presents three awards on Honors and Awards Day. A Scholastic Medal goes to the senior having the highest scholastic record. A Mathematics Award and an English Award are given to the freshmen who score the highest on competitive examinations in these subjects.

The Clemson University chapter of Phi Eta Sigma has successfully operated a student tutoring service for one of the nearby boy’s homes. Members in Phi Eta Sigma national honor fraternity are drawn from the various colleges and schools of Clemson University.
Phi Kappa Phi Recognizes Overall Scholastic Ability

Phi Kappa Phi is a national honor society organized in 1897 for the recognizing and honoring of those students who achieve high scholastic results, and also encouraging those students who are capable of doing so. In 1938 the Clemson chapter was established to instill in the Clemson student body the meaning of the society philosophy as stated in its motto, Philosophia Kratei Photon—"The love of learning rules the world." The organization brings together all the top scholars in all areas of academic endeavor.

Membership in the society is restricted to those students whose scholastic achievements are considered to show a high standard of excellence. Phi Kappa Phi is composed of undergraduate and graduate students from all departments of American Universities. Among the undergraduates, only seniors and second semester juniors are eligible for consideration, and selection is limited to no more than five percent of the junior class, cumulative grade-point ratio of 3.5, and ten percent of the senior class, cumulative grade-point ratio of 3.2 or above.

Membership in this national honor society should be a goal for all Clemson University students. Phi Kappa Phi stands as a light in the dark corridors of ignorance, for it is composed of the top future Clemson graduates.

Officers are among the highest honored students of Clemson. Phi Kappa Phi officers and members hold important offices in almost all the top organizations on Clemson's campus. The members believe in serving their Alma Mater as well as achieving high scholastic honors while they stay at Clemson. Phi Kappa Phi contributes greatly to Clemson's student life.
Phi Kappa Phi members discuss plans for a meeting.
Blue Key Fraternity Acknowledges School Leaders

The Blue Key national honor fraternity is recognized as the top honorary and leadership organization on the Clemson University campus. Membership in Blue Key is a very respected honor. It is an acknowledgment of scholastic achievement and participation in extra-curricular activities. Membership is selected from members of the junior and senior classes. The qualifications for membership exemplify the fraternity's purpose which consists of the encouragement of intellectual achievement and a desire to serve Clemson.

Among the activities of the fraternity is the publication of the Blue Key Directory; sponsorship of drop-ins and a Blue Key banquet; and planning, coordinating, and directing Tigerama. After the annual Clemson-Carolina football clash, the Blue Key co-sponsors a dance with the South Carolina chapter. The Chapter elected the following students in the Spring Semester: D. D. Bozard, S. A. Carter, W. F. Hamilton, C. R. Harmon, C. S. Hughes, H. J. McCall, E. W. Merritt, F. W. Pearce, and J. L. Scoggin.

On over one hundred and twelve campuses throughout the nation, a select group of students is assembled to be recognized for their service to the campus, community, and nation, by the Blue Key national honor fraternity. Members of Blue Key are proud of their achievements and of the college or university which they represent. Blue Key inspires its members to grow in character and service to their Alma Mater and to witness to their students as the most honored persons on campus.
Horton and Roach take charge at a meeting.

Tiger Brotherhood Recognizes Loyalty to Clemson

Tiger Brotherhood is one of the most selective honorary service organizations on this Clemson campus. Members are a very select, well-rounded group of students on the campus. Also outstanding members of the faculty are brought into the club in its efforts to "foster within the bonds of brotherhood those qualities and traits characteristic of the best type of Clemson men and to cultivate the virtues of earnestness and integrity, tolerance and forbearance."

Tiger Brotherhood was founded in 1938 by Professor J. L. Marshall. Since that time many Clemson students and faculty members have been honored by invitation to join the club. The selection of members is very strict, for membership requirements are high. The individual must be an outstanding student leader, but he must also be distinguished by showing a deep and sincere love for Clemson in each and every one of his endeavors.

Each member of Tiger Brotherhood shares the unique experience of a Brotherhood that can be offered in no other organization on campus, for before a member is accepted, he must undergo a tremendous amount of discussion and examination. Tiger Brotherhood contributes much to the great Clemson traditions and spirit, all its members act as a sponsor of tolerance and integrity among Clemson men.

Joe, did you say that you left your teeth in the room?

Rudy Antonic presides over a weekly Tiger Brotherhood meeting.

The arch and the tiger are symbols of Tiger Brotherhood.

New Tiger Brotherhood members make up the annual zoo parade.
Tau Sigma Delta Honors Architectural Achievement

Tau Sigma Delta, a national honor society in architecture and the allied arts, was founded in 1913 by the faculty members of the Department of Architecture and Landscape Design at the University of Michigan. It was first established to honor achievements in architecture and landscape design and later honors were expanded to include the allied arts. This year the Phi chapter of Tau Sigma Delta was established at Clemson University. It incorporated Minarets which was a local honor society following much the same principles and standards as its national counterpart. Tau Sigma Delta's past members have proven to be a contribution to the profession and education of architecture.

To quote from the constitution the purpose of the organization is "to recognize and encourage high scholastic attainment among students of architecture, landscape architecture and the allied art of design, rewarding talent and marked ability through election to membership." Each honors and awards day those fourth and fifth year architecture students who have attained these standards will be honored with membership by presentation of a Tau Sigma Delta Key. Tau Sigma Delta's purpose is not only recognition of achievement, but also, encouragement of it. This is done through sponsoring any project which will encourage student interest and participation, providing an educational experience in the architectural and related fields.

Membership in Tau Sigma Delta is the highest honor an architect can achieve.
Ceramic Engineers Deem Keramos Highest Honor

A member of the national Keramos fraternity, the Clemson University Keramos chapter was created to provide a professional and honorary fraternity for students in Ceramic Engineering. To become a member of Keramos, a student must show outstanding character, scholarship, leadership ability, and interest in the field of Ceramic Engineering.

Among the activities of the fraternity are presenting awards of merit to superior students in ceramic engineering, annually donating necessary books to the Olin Hall library, and holding a banquet in the spring for members.

Coordinating interests in the ceramic program, Keramos is particularly concerned with promoting excellence in the field of ceramics. A member in Keramos is looked up to by his fellow students in ceramic engineering, because he must be an excellent student in order to join the fraternity. Working to successfully prepare themselves as ceramic engineers, the fraternity members meet important men in the ceramics field who give them information about their future work in ceramics. The Keramos fraternity will continue to give recognition to the students who show the most promise in ceramic engineering at Clemson University.
Agriculture Students Recognized by Alpha Zeta

A recognized national honorary fraternity, Alpha Zeta consists of students, alumni, and honorary members who possess superior qualifications in the field of agriculture. The Clemson chapter has very high academic standing as it requires a student to be in the upper two-fifths of his class in order to join the organization.

Cooperating with the National Alpha Zeta fraternity, the local organization is concerned with the academic development of the College of Agriculture and with promoting the recognition of agriculture as an essential link in the present-day economy. Membership in Alpha Zeta is a great honor for a student in agriculture since it distinguishes him as an outstanding person in his field.

Meetings of the fraternity are held twice a month. These meetings serve as work periods, as well as a time to broaden the understanding and appreciation of the profession of agriculture. In order to better acquaint the students with each other, the fraternity has several social get-togethers, including an annual banquet in the spring. Although primarily an honorary organization, Alpha Zeta performs several service functions to the students of agriculture. The fraternity maintains a teacher-evaluation program for the College of Agriculture and monitors the plant and animal science building in the evening, enabling the students to be able to study there. Providing a financial aid program for agricultural students, Alpha Zeta also sponsors the annual Alpha Zeta Award which is given to the most superior student in agriculture. Alpha Zeta has a very important part in helping the agricultural student to strive for proficiency in his field.

JAMES C. WILLIAMS, President

Alpha Zeta members discuss plans for a meeting.
Jimmy Williams presides over a meeting.

Alpha Zetas show their lab skills.
Mu Beta Psi Stimulates Campus Musical Interests

As a division of the national Mu Beta Psi, the Clemson University chapter, Delta, was started in 1937 and has developed into a highly rated organization of musically minded students. Serving to promote music as a field and to insure fellowship among students who participate in musical functions, Mu Beta Psi continually emphasizes the importance of music for a liberal education. Music serves as a means of communication with all types of people, enabling a person to always have an interesting topic to discuss. The members of Mu Beta Psi not only recognize the importance of music but also place it foremost as an essential in university life.

To become a member of the fraternity, a person must have been an active member of a recognized university music group for two years or more. However, there are a few exceptions, as certain outstanding students are invited into the group while sophomores. A brother in Mu Beta Psi gains a thorough appreciation of the necessity of good music in this mad world of specialization.

Mu Beta Psi, a participant in social and musical events, takes part in "Fraternity Sing" and "Spring Sounds," two programs that are well known for entertainment, as well as musical, value. The brothers of Mu Beta Psi will continue to represent Clemson in all events that are concerned with the vitality of music.
Textile Students Honored
By Local Phi Psi Chapter

Phi Psi, a professional and honorary fraternity, tries to awaken the public to the importance of the textile industry as an integral part in the modern society. The membership of the organization is composed of qualified juniors and seniors enrolled in the school of textiles. However, a person who has a minimum of twelve semester hours in the field of textiles as electives and who shows an interest in textiles is eligible for membership in Phi Psi. In addition, each year the fraternity invites the two sophomores with the highest grade-point ratios to join this fraternal organization.

The Iota chapter, the Clemson University chapter of Phi Psi, is interested in developments in the textile field, leading to improvements in the textile production of this country. As the United States is the world leader in textiles, the members of Phi Psi can be proud of the fact that they are part of the "wonderful world of textiles."

With its chief goal being the improvement of the textile industry by producing more qualified students, the Iota chapter wishes to promote the interest and enthusiasm of top students in the field of textiles. Phi Psi sends representatives to the national convention each year. Binding together the members and faculty into an organization of interested individuals, the fraternity will continue to promote higher standards in textiles. The Phi Psi maintains a strategic position in the organization of the state's largest single industry.
Engineering Excellence Cited by Tau Beta Pi

The Tau Beta Pi Association, the national engineering honor society, was founded at Lehigh University in 1885 by Edward Higginson Williams, Jr., "to mark in a fitting manner those who have conferred honor upon their Alma Mater by distinguished scholarship and exemplary character as undergraduates in engineering and to foster a spirit of liberal culture in the engineering colleges of America."

The Clemson University chapter of Tau Beta Pi was founded on November 23, 1928, as the first chapter of the Association in South Carolina. For its objectives, this chapter follows closely those of the national organization in recognizing outstanding achievements in the field of engineering as well as providing many worthwhile services to the Clemson University campus. The best known project of the organization is that of teaching a free course twice each year in the use of the slide rule to all interested students.

Once each semester Tau Beta Pi elects to membership those students from Clemson's engineering curricula who meet the standards of the society. In addition to the basic requirements of honor and integrity, there are also certain minimum G.P.R. requirements. The three top first semester juniors in the College of Engineering with a minimum G.P.R. of 3.4 are elected to membership in the fall. For a second semester junior a 3.3 G.P.R. is required whereas a 3.0 is required for a senior. During its 36 years at Clemson, Tau Beta Pi has served as one of the highest honors attainable by an engineering student.

Formed first at Clemson in 1926 as social organization, the Minaret Society has grown to be a highly selective honorary organization. The organization was begun as a society for leaders in profession of architecture and has continued in purpose through the years. Haywood Singlen, now deceased, a long-time resident of Columbia, South Carolina, was Minaret’s first president. From the founding until 1954, the Minaret Society was composed only of graduate students in the curriculum of architecture. Since 1954, the organization has come to its present status, that of being an honorary society in which one of the requirements is honor point standing. Thus, we have the organization as it is now, a highly select group of leading architecture students from Clemson University’s School of Architecture.

New Members are selected also according to their overall ability in architectural structure and more specifically on the basis of their creative talent. New Minerat members receive keys during Honors and Awards Day. The duties of Minarets not only include the advancement of honors programs in the school, but also do much to contribute to the well-being of the School of Architecture. This year’s advisor for Minarets is G. C. Means.
Scouting Ideals Maintained by Alpha Phi Omega

Alpha Phi Omega is a unique campus-centered national service fraternity for college and university men. It was founded in 1925 at Lafayette College, Easton, Pennsylvania. More than 300 active chapters are functioning. The Gamma Lambda chapter at Clemson was established in 1940.

It is not a social fraternity nor is it an honorary or professional one, but its membership includes men who belong to all of these, as well as those who belong to none of them.

Its service ideals and good turns are derived from the Scouting Movement. However, Alpha Phi Omega is not governed by, controlled by, or financially supported by scouting.

Alpha Phi Omega men engage in four fields of service: service to student body and faculty; service to youth and community; service to members of the fraternity; and service to the nation as participating citizens.

The requirement for membership into the fraternity is that the student has been affiliated in some way with the Scout Movement.

The activities conducted by the Clemson chapter include such things as the issuing of Career to seniors and the distributing of desk blotters to all dormitory rooms. The chapter at Clemson is responsible for the circulation of the Chronicle. Gamma Lambda also sponsors the 'Ugly Man on Campus' contest, a contest in which money is raised for a worthy charity.
Larry Preston explains the shield of Alpha Phi Omega.

Service Emphasized by Circle K Organization

Though Circle K International is a relatively new organization—now in its ninth year—it numbers more than 10,000 members on over 585 college campuses in the United States and Canada. This organization was founded in 1947 and was extended to Canada in 1955.

Sponsored at Clemson by the local Kiwanis Club, the first Circle K Club of Clemson was started in 1957. The Circle K Club is a college-level men’s service organization which performs the same functions as do their sponsors in the community. Membership is open to any male student in good academic standing who wishes to improve the campus.

Improvement through service is the general theme of the Circle K, as seen from its motto “We Build.” The club is a means by which the members projects his desire to advance the students and the university in general. Circle K is is not a social fraternity. It is in every sense of the word a service organization, a character building group whose members are bound together voluntarily to render service to campus and community. The club performs service activities considered desirable by school authorities.
PROFESSIONAL

The professional organizations at Clemson encourage the student to organize his talents toward his chosen goal. Each school usually sponsors a professional club and these groups learn recent facts which are for the betterment of the industry or occupation. In addition to informing students of job opportunities, these organizations plan programs of films, speeches and field trips.

Naturally, these organizations could not function with all business-like attitudes, for social grace is important in later life, too. Quite frequently the members will enjoy cook-outs, parties or dances and also drop-ins or get togethers on dance weekends.

There are many professional organizations on the Clemson campus that have become very influential to the school in general as well as the individual student. Some of Clemson's professional organizations are national and some are local. The national organizations offer excellent opportunity for well-rounded development. Following is a pictorial representation of Clemson University's professional organizations with their respective members.
Agricultural Profession Advanced by Ag Council

The Agricultural Council of Clemson University is the chief coordinating agency of the various agricultural and biological organizations at Clemson. The Agricultural Council serves two distinct purposes: “to serve in an advisory capacity to the Director of Agricultural Teaching and Dean of Agriculture, and to act as a sponsoring group for activities to the whole College of Agricultural and Biological Sciences.”

The main object of the Agricultural Council is “Operation Contact,” a program to spread the profession of agricultural and biological sciences to the college-bound high school students in South Carolina, and in surrounding areas.

The student Agricultural Council is composed of one representative from each of the technical and special interest clubs within the College of Agriculture and Biological Sciences. The clubs included are the Agricultural Economics Club, Alpha Tau Alpha, Alpha Zeta, the American Dairy Science Association, the American Society of Agricultural Engineers, the Block and Bridle Club, the Forestry Club, the Future Farmers of America, the 4-H Club, the Horticulture Club, Kappa Alpha Sigma, the Poultry Science Club, Pre-Vet Club, the Biological Sciences Club, the Food Technology Club, and the Agrarian.

Members seek to broaden knowledge through projects.

Ag Council discusses problems of Agriculture Department.
The objectives of the student chapter of the American Association for Textile Technology are to provide Clemson's textile students an early means to become acquainted with all aspects of the textile industry and its policies. The AATT was first organized at Clemson in 1962 by dissolving the National Textile Management Society. Since AATT is a nation-wide campus organization, the members of the old NTMS felt that they could get more out of an affiliation with a national textile industry club. They felt that the AATT was an excellent national textile organization and that much could be gained by aligning themselves with it.

The purposes of the AATT are to encourage understanding in the field of textile technology and to encourage cooperation with established facilities for textile education. The members of the club become acquainted with the problems of the textile industry and their respective solutions through field trips, movies, and guest speakers. The club acts as a liaison organization linking the textile students and the faculty in the textile department. All undergraduate students, including freshmen, are eligible for membership in the student chapter of AATT if their curriculum includes at least one major course in textiles.
Field Trips Highlight AATCC’s Yearly Activities

The Clemson chapter of the American Association of Textile Chemists and Colorists is open to all students majoring in textile chemistry. It brings them together for banquets and field trips. Members of the local chapter have the opportunity to join the national organization, which now numbers over eight thousand men, representing industries all over the world.

Each year the local chapter has three banquets, each consisting of a steak supper and a speaker with a message concerning the textile industry and especially the finishing division. The chapter also takes many field trips to mills and finishing plants in the general vicinity of Clemson. The highlight of the first semester activities was the trip to Rock Hill to tour Rock Hill Printing and Finishing and the Celriver plant of the Celanese Corporation of America. The former was toured in the morning; the latter in the afternoon. Rock Hill Printing and Finishing held a banquet for the AATCC immediately following the tour of the “bleachery.” These plant trips allow the students to see the practical application of the chemical processes which they study in class.

Charles D. Miller, President
The student chapter of the American Dairy Science Association was organized at Clemson University in 1922 as a Dairy Club under the direction of Professor B. E. Goodale. Upon the formation of the Clemson Dairy Club, ADSA became the first professional organization on campus.

The Clemson University chapter of ADSA is composed of students who have a mutual interest in topics related to the dairy industry. The club inspires interest by sponsoring the dairy cattle judging team and the dairy products judging team. The club sponsors these teams by personal participation of its members and by assisting team members financially. Each year the Dairy Cattle Judging team is sent to the national contest at Waterloo, Iowa. Other activities include building a display for Homecoming Weekend and having interesting speakers and films at the semi-monthly meetings of the club.

Officers of the club have the job of coordinating all the club’s activities. In past years the Clemson chapter of ADSA has placed three officers on the Regional Staff. The club members, officers and faculty advisor work together throughout the year; and at the end of each year an annual supper and achievement banquet is held in conjunction with the dairy staff. At this event an achievement award is presented to the senior showing the most improvement during his stay at Clemson.
The Clemson University chapter of the Society for Advancement of Management is one of more than 211 student chapters of this national professional organization of managers. The objective of SAM is to promote and study the principle of sound management through programs, speakers, field trips, and other related activities. Through these programs the student’s vocational and intellectual horizons are broadened beyond the scope of textbooks.

Through the bi-monthly meetings, SAM members are given the opportunity to hear the members that have made many field trips in this area, gaining a greater understanding of the operations of these firms and having the opportunity to meet and talk to many business leaders. SAM is open to all students who are interested in management.
The SAM troops really look sharp.
Agricultural Interest Furthered by Local ASAE

The South Carolina Student Branch of the American Society of Agricultural Engineers has as its first and foremost purpose the promotion of interests relating to professional agricultural engineering development and the furthering of agricultural engineering as a course of study and a profession for later life. The local chapter encourages work and fellowship between the students and faculty members in the agricultural engineering field.

In 1932 a small group of interested agricultural students and faculty formed the student branch of this organization to promote the interests of the students in Agricultural Engineering at Clemson. Since that time, due to the burgeoning demand for agricultural engineers in the south, the society has grown to a larger size and strengthened itself through many activities. Field trips to observe new developments in agriculture and especially agricultural engineering as well as to visit and observe implement manufacturers and similar sites of interests serve as one of the major functions of the club. REA sites and soil conservation areas are also often on the itinerary for these trips. Other activities of the club which further the interests of the members include bi-monthly meetings featuring programs of professional or general interest. Often members are encouraged to join in forums on topics of discussion. Also these meetings often feature movies or professional speakers to supplement agricultural engineering curricula.

All students majoring in Agricultural Engineering with the exception of first semester freshmen are eligible to become members of the student branch of the ASAE. Interested students of other curricula may affiliate themselves with the organization.
4-H Club Encompasses Wide Range of Ag Interests

The Clemson University 4-H Club has as its objectives to establish closer friendships and better acquaintances among students and faculty members and to train its members for leadership. The club was formed in 1952 by those Clemson students who had previously been members of 4-H Clubs in the high schools across the nation. These students felt the need for an organization like this club at Clemson to maintain their social and service contacts with students and alumni having similar interests as their own concerning the 4-H program.

The club gives members a chance to become more useful citizens by stressing opportunities for leadership and developing common interests of members. Through the club, members work toward useful citizenship by working together in common service projects and participating together in various social events.

Some of the regular activities of the club include monthly programs of general interest to college students. These programs are a valuable asset to the club and especially to all students who attend.

Marshall makes some last-minute plans for a meeting.

The 4-H Club honored Dr. Poole with a plaque.
IMS Stresses Practical Management Situations

Iota Mu Sigma, the Industrial Management Society, was reorganized at the beginning of this year. Although still promoting fellowship among all Industrial Management majors, the group is now basically an honor society for selected Industrial Management students.

Affiliated with the Industrial Management Department, Iota Mu Sigma strives to accomplish its major purpose—to promote scholarship, leadership, and fellowship among the members of the Industrial Management Society, to better relations between students and faculty, to be of service to the Industrial Management Department and Clemson University, and, finally, to promote further study and education preparatory to entering the field of management.

All during the year, the members of Iota Mu Sigma work to better the society and to promote its goals. By conducting money-raising projects to build and maintain a scholarship fund, holding social functions, visiting industrial plants, and conducting functions, visiting industrial plants, and conducting other service projects, the group enhances and promotes the art of management. To make the organization worthwhile to all Industrial Management majors, Iota Mu Sigma provides functions in which every student in this field can participate.
Modern Ag Methods Emphasized by Clemson FFA

The collegiate chapter of the Future Farmers of America of Clemson University was originally chartered in 1937. Membership is composed of students enrolled in Agricultural Education and other students who were FFA members in high school.

The objectives of the chapter are to promote agriculture, to encourage enrollment in the College of Agriculture, to develop leadership, and to provide training needed by advisors of local FFA chapters. The collegiate chapter provides a means for the student to continue his FFA interest and activities. The Clemson chapter has its own constitution and by-laws and carries out a program of work which is in harmony with the South Carolina Future Farmers Association. There are two degrees of membership, the Green Hand for first year members, and the Collegiate Farmers for advanced members. The program of work is based on activities considered essential in the training of perspective teachers of Vocational Agriculture as competent advisors to local FFA chapters on the high school level.

Regular chapter meetings are held monthly with called meetings when needed. Outstanding speakers in the field of agriculture are frequently presented.

This organization has done much to bring the agriculture students of Clemson closer together, and it provides means for them to keep informed about the day-to-day advancements and achievements made in the field of agriculture.
Clemson Horticulture Club has Productive Year

To be able to become a member of the Clemson Horticulture Club, one must be enrolled in the curriculum of horticulture at Clemson and participate in the initiation devised by the present members of the club.

The Clemson Horticulture Club takes part in numerous activities. The Southern Regional Collegiate, American Society for Horticultural Science and the National Collegiate, ASHS, are the two of more important events of the year. Our club has been a very influential member of the ASHS by providing last year's president to both the Regional and the National ASHS; and this year we have an officer in the Southern Regional.

The financial support to make these trips and other activities possible comes from such projects as manufacturing jellies, preserves, apple cider, and grape juice.

The Horticulture Club maintains several other goals other than material ones: to develop a professional sense of value with regard to horticulture, to develop an interest in research that would aid the industry, and to promote fellowship among the students as a group—even though some day we will become competitors.

SECOND ROW: Brown, L. R.; Woodham, J. T.; Race, L. J.; Upson, J. R.; Culp, R. M.; Gilchrist, H. W.; Ridley, J. D.; Dr. Stembridge, Advisor.
Agronomy Students United by Kappa Alpha Sigma

Kappa Alpha Sigma is a professional organization for students either majoring in agronomy or having a human interest in that field. This organization was founded in 1937 and is recognized as an official member of the American Society of Agronomy. The purposes of the club are to foster a spirit of cooperation and mutual helpfulness among the Agronomy Department and to stimulate interest in agronomy with those in closely related fields.

Kappa Alpha Sigma sponsors various social and educational activities each year for its members. During the fall semester the club sponsors a student-staff hamburger fry to enable new agronomy students to meet and become acquainted with the old members and the staff. During the year the club members have the opportunity to hear various speakers and to participate in club sponsored projects. At least one educational trip, usually out of state, is taken each year. The year is climaxed by the Senior Banquet, during which the seniors and outstanding agronomy students are honored.

The Block and Bridle Club Sponsors Barbecues

The Clemson University Block and Bridle Club was organized locally as the Animal Husbandry Club in 1932 and was admitted into the National Block and Bridle Club in 1948. The primary aim of the club is to further the social, cultural, and scholastic activities of students, as well as to encourage and promote an interest in livestock breeding, feeding, and management among the members considering a career in the animal science industry.

Among the various activities of the Clemson Block and Bridle Club is the sponsoring of two barbecues, one at a Clemson home football game and the other at the annual spring intra-squad game. The club also finances both the Meats Judgin team and the Livestock Judging team. These teams participate in contests each year in Baltimore, Atlanta, Memphis, Chicago, and Madison, Wisconsin. The Clemson Little International is an annual livestock show sponsored by the club. The climax of the year is the annual banquet at which time awards are given to the winners of the Little International and to outstanding members who have striven to promote and improve the club.

It can truthfully be said that the Block and Bridle Club of Clemson University is living up to its purpose of organization through its extending a worthwhile service to those students with a professional interest in the animal science industries.

Block and Bridle members add two more pictures to their honorary member gallery.
Block and Bridle members admire club’s trophies.

Club members inspect fresh beef.
Forestry Club is Made Up of Future Foresters

The Forestry Club of Clemson University was first organized in 1957, and the forestry curriculum at this university was accredited in October of 1962. The general purpose of the club is to promote fellowship between the forestry students and to provide a close association between students and faculty. Membership in this professional club is open to all forestry students and faculty.

The Forestry Club has for the last three years done a very good job of raising money by the sale of firewood. Each Christmas season the club sells Christmas trees as a service to the community. These activities and others provide the Forestry Club with a means of self support as well as an excellent means for the student of all classes to get to know each other better.

The first event of each semester is the initiation of new members which is usually done at a steak cookout. In the spring of each year the Forestry Club takes part in the conclave put on by the Association of Southern Forestry Clubs. Last year this conclave was held at Oklahoma State University. This year it will be hosted by North Carolina State in Raleigh. At this conclave the skills are split about half and half between technical events and field events. The technical events test the students knowledge of forestry courses taken in class, which are more important than field events. The conclave is very important to forestry students because it gives them a chance to meet other students whom they will work with after graduation.

The Forestry Club at Clemson University invites all those who have interests in forestry to join it at meetings and its work sessions.

Forestry Club members enjoy the "pause that refreshes."
Ag Econ Club Advises Interested Ag Econ Majors

The Agricultural Economics Association was reorganized in September of 1955 for the primary purpose of creating and promoting fellowship among the students who are majoring in Agricultural Economics at Clemson University. Other purposes of the club are to study current agricultural and economic problems and to provide opportunities for better acquaintances among members and professional workers in the agricultural social sciences. The association is very beneficial to the students in making available all current information and advice concerning the field of Agricultural Economics.

Programs featuring speakers from various fields of agriculture and field trips of interest to the students are sponsored by the club throughout the school year. One important project involves the preparation and distribution of a vocational guidance bulletin to encourage high school seniors to come to Clemson and to promote interest in the field of Agricultural Economics.

The club strives to offer several social benefits along with the academic and vocational programs. Along with these social activities, the association participates in various service projects during the school year.

ACS Promotes Professional Pride in Chemistry

The American Chemical Society is a student affiliate organization of the national American Chemical Society, and as such it is a professional society. Its purpose is to promote an interest in the field of chemistry. It also seeks to improve the qualification and usefulness of chemists through high standards of ethics and education.

The members of this professional organization, through its activities, gain a valuable insight to the problems they will face upon entering the business world. The yearly program consists of a series of speakers, pertinent motion pictures, field trips to regional chemical plants, as well as various social events. The society has this year established a library aimed at supplementing the undergraduate curriculum, thus further augmenting its academic purposes.

The experiences that one gains through being a member of the American Chemical Society are valuable in instilling a professional pride in chemistry.

The members of ACS pose together after one of their meetings.
Field Trips Taken by Student Chapter of AIA

The Clemson University chapter of the American Institute of Architects is sponsored by the South Carolina chapter of the American Institute of Architects and is closely associated with the National Association of Student Chapters of AIA. The purpose of the organization is to aid the architectural student in the transition into the professional life of the architect, and to help the student prepare himself for entry into the profession and the institute. Student AIA membership is a normal step to the successive grades of membership in the American Institute of Architects.

The Clemson chapter, open to sophomores, juniors, and seniors, sponsors a variety of activities. Included in the year's activities are lectures, educational and cultural film series, field trips, and participation in regional and national conventions. The sophomore, junior, and senior members also provide assistance to freshman architectural students who are having difficulty adjusting to college life.

The society offers a job securing service which is open to all architectural students. Through this service, the students are able to secure summer jobs with architectural firms throughout the southeastern part of the United States and abroad. Another major service of this chapter is keeping the architecture building open for students who are seeking a quiet place to study. This service is an invaluable aid to the students of Clemson University as is their entire service program.

The Clemson University chapter of the Institute of Chemical Engineers was established on the Clemson campus in 1948. The Clemson chapter is one of many similar chapters throughout the United States which serve as a link between students of Chemical Engineering and the National Institute.

The purpose of the Clemson chapter of AIChE is to increase the interest and knowledge of student members in subjects of industrial and human interest.

One of the main projects of the chapter is to keep Earle Hall open during week nights to those students who wish to study there. The chapter sponsors three social functions per year. These consist of two parties, one in the fall semester and one in the spring semester, and a steak supper for the student members and the Chemical Engineering faculty.

ME's Extremely Active in Local Chapter of ASME

The American Society of Mechanical Engineers is a professional organization that is dedicated to the dissemination and advancement of knowledge of the theory and practice of mechanical engineering. Membership in the local student chapter of ASME is open to all students in good standing who are enrolled in any engineering curriculum.

Members are eligible to attend and participate in the Regional and National Student Conferences in the spring to the year. This competition is actually the presentation of technical papers to be judged.

Activities of the local chapter include field trips, homecoming projects, and a banquet which is held at the end of second semester. The regularly scheduled meetings consist of lectures given by representatives of various industries and films on topics related to mechanical engineering. The field trips to nearby industrial plants are very informative and helpful since they provide him firsthand information on the professional opportunities available in this area.

Members of the ASME put the finishing touches on their Homecoming Display.

WILBUR Q. DORN, President
Delta Sigma Nu Cultivates Medical Interest at Clemson

Delta Sigma Nu, Clemson University's pre-medical fraternity, is a fraternity which is designed to promote interests and close fellowship among students who plan to enter some field of medicine. It is also the purpose of this fraternity to give its members advice and aid in obtaining information concerning medical or dental school requirements. They also keep very complete catalogues of all medical schools. These are made available to its members. Both of these services are invaluable aids to these students who are seeking a medical degree.

A student must have at least the minimum grade-point ratio required for admission to medical or dental schools before he is eligible for membership in the fraternity. Many other traits, characteristics, and qualities that are necessary in the medical profession are considered to be prerequisites for obtaining membership.

The activities of the fraternity include trips and tours to different hospitals, medical schools, and dental schools throughout the southeast. The members always take an annual trip to the Medical College of South Carolina at Charleston. Through its activities, a deeper anticipation, a greater understanding of the medical field, and a higher degree of insight are developed.
EE Majors Gain Experience in IEEE

The Institute of Electrical and Electronic Engineers is a professional society dedicated to the advancement and dissemination of knowledge of the theory and practice of electrical engineering. Membership in the Clemson University local branch of IEEE is open to all electrical engineering students, regardless of classification.

The objectives of the IEEE are literary and educational as well as scientific. Its aims include the advancement of the theory and practice of electrical engineering by presenting guest speakers on that topic as well as on electronics, communications, the allied branches of engineering, and the related arts and sciences.

The IEEE gives its members the opportunity to acquaint themselves with the varied phases of electrical engineering. At lecture series, the after-graduation panel, field trips, and the Regional Meeting, held last year in Clearwater, Florida, members gain invaluable knowledge about the practical applications in their major.

Calhoun Forensic Society Hosts ACC Tournament

The Calhoun Forensic Society, better known as the Clemson University Debating Team, represents Clemson in intercollegiate debating activities. The society's purpose is the furthering of rhetoric and debate, with emphasis on a clear analysis of national and international problems, a logical pattern of thought, and the ability to do effective research.

Named for South Carolina's John Caldwell Calhoun, the society is composed of students who are interested in forensic activities and demonstrate an outstanding ability in debate and public speaking.

Each academic year, the Calhoun Forensic Society participates in numerous debate tournaments and oratory contests. The annual program includes such tournaments as the Peachtree Tournament at Emory University, the Atlantic Coast Conference Tournament, the Dixie Classic at Wake Forest, and the Duke Invitational. One of the highlights of this forensic year was Clemson's hosting the Atlantic Coast Conference Tournament.

While the society participates in many national debate tournaments, it is also an active participant in campus functions. The experience and knowledge gained from debate is both valuable and rewarding. Many methods and techniques learned through debating are directly applicable to academic courses. This is just one of the many ways in which debating is beneficial to the student.

Iota Lambda Sigma Honors Industrial Ed Majors

Both a professional and an honorary fraternity, Iota Lambda Sigma is the national fraternity that promotes the field of Industrial Education. The Clemson chapter, Gamma, was the third chapter of the national group that was organized, being established at Clemson in 1930. During its lifetime, the local fraternity has supplied the national organization with three presidents.

To become a member in Iota Lambda Sigma, one must major in Industrial Education, have a junior standing, and have a high academic record. Students meeting these requirements are invited into the fraternity at the beginning of each semester.

Maintaining a fraternal bond between its members, Iota Lambda Sigma participates in various campus activities, including drop-ins, cook-outs, and two annual banquets, to name a few.

Each year the fraternity participates in the South Carolina Trade and Industrial Fair, an event that requires participation of all Industrial Arts teachers in the state. Iota Lambda Sigma benefits the public by grouping together the best students in Industrial Education.

CE's Gain Insight Through ASCE

The American Society of Civil Engineers was organized to promote high professional standards and ethics among its members and to further new developments in the field of civil engineering. It is the oldest national engineering chapter in the United States. The Clemson University student chapter of ASCE provides the student the opportunity for early professional associations in his area of interest. Members of the society are given information concerning current technical and professional advances in civil engineering and also have the opportunity to meet some of the various leaders who are responsible for these advances. Equally important, members are given the opportunity to take part in constructive activities conducted by future leaders of the profession. The professional publications of the society are made available to the chapter and serve to keep the students better informed.
Does anybody know how to work this thing?

The CE boys are hard at work in their lab.
SIE is Integral Part of Industrial Ed Activities

The Clemson University Society of Industrial Engineers, open to all students majoring in Industrial Engineering, provides professional stimulation in this field. This organization has also promoted a greater understanding as to the exact realm of study and activity which Industrial Engineering encompasses. The organization has striven to present an accurate picture of the problems to be expected by the people entering this phase of industry. Discussions and evaluations of industrial problems prove to be a valuable insight into the world of industry.

The society of Industrial Engineers has promoted the participation of industrial engineers in industry through circulars and the distribution of information pertaining to the activities of the society. Their field trips to factories all over the southeast prove very valuable towards the student's on-the-job experience that is essential for a well-rounded education in industrial engineering.

Future activities include an increased number of field trips to surrounding industries and guest speakers from related fields. The Clemson society anticipates, in the near future, becoming a member of the American Institute of Industrial Engineers (AIIE) with the subsequent benefits membership in the national organization will provide. As a benefit of the national fraternity, there will be an opportunity for several of the top members to attend the national convention which is held each fall. Much information for running the chapter more efficiently can be obtained from these national meetings.

Swart, W. N., President; Handegan, J. D., Recording Secretary: Brown, J. D., Corresponding Secretary: Oglesby, F. W., Treasurer.

Swart, W. N., President; Handegan, J. D., Recording Secretary: Brown, J. D., Corresponding Secretary: Oglesby, F. W., Treasurer.
The American Ceramic Society’s student branch at Clemson University, which was organized in November 1949, is composed of students majoring in Ceramic Engineering. The society provides for its members an atmosphere which is conclusive to better relations among the students in Ceramic Engineering. Its primary purpose is to acquaint the students of the Ceramic Department on a social, and not academic basis. It is through its activities that the society helps, in every way possible, the advancement of the Ceramic Engineering Department, which has become one of the best in the nation.

By means of the publications of the national society, which deals with the research and development in the various fields of ceramics, the student has an excellent opportunity to broaden his knowledge.

During the year, the American Ceramic Society participates in various conventions, plant tours, socials, and an annual student speaking contest in which the winner represents the local chapter at the national convention. The society is also active in the annual Homecoming activities by way of the erection of a display and sponsoring a Homecoming Queen contestant. At the conclusion of each year a banquet is held where awards and scholarships are presented to the outstanding students in Ceramic Engineering.

VIRGIL IRICK, JR., President
SOCIAL

Social coordination is achieved through the social organizations here on the Clemson campus. These organizations, which include the various fraternities and sororities at Clemson, work to develop social poise, scholarship, and leadership in their members. This poise is attained through varied social functions and service projects. Each organization has a stated purpose, and through individual and group cooperation, these purposes are fulfilled. Parties on dance weekends, banquets, and houseparties increase the area of social facet of life at Clemson.

The story of social organization on the campus of Clemson University had its beginning in September 1959 with the founding of Sigma Alpha Zeta. It was immediately joined by six others; Delta Phi Kappa became the eighth in 1963. In this brief six-year existence, only eight percent of Clemson’s lifespan, the social groups have progressed from a truly infantile origin to the position of prominence which they hold today. In 1964-65 school year, they gave identity to more than 300 of Clemson’s 4,500 students.

When a student enters such a large institution as Clemson, he loses his identity. This identity is regained when he joins a social organization and hence is identified with a small, close-knit group. These social groups fill the void that Clemson was left with since the military system, with its companies, was abandoned.
The Inter-Fraternity Council of Clemson University was formed in 1949 shortly after the founding of the first social fraternities at Clemson. The Council serves as the coordinating and governing body of Clemson's eight social fraternities. The body strives to promote harmonious relations between the member fraternities. The Council also serves as a liaison between the fraternity system, the administration, and the student body. The IFC is also responsible for discipline within the fraternity system. The Judicial Board of the IFC serves as a court to try and punish any infractions that might occur.

First semester the Council sponsors the traditional Fraternity Open House and also this year added a second Open House due to the great amount of interest displayed at the first. During the first week of second semester the Council sponsors its annual Rush Week. With the largest number of rushees participating in the history of fraternities at Clemson, this year's rush proved to be the most successful yet for the fraternity system.

During the last of April the IFC sponsors its annual Greek Week. This week is highlighted by the joint IFC dance at which various awards and trophies are presented to the various fraternities.

The Council also sponsors various service projects. One of these is the annual IFC Christmas Party for underprivileged children. At this year's party, over fifty children were entertained and given their entire Christmas, including clothes, food, and toys, by the fraternity system. The Council also gave and furnished a picnic area to the school and the combined pledge classes of all the fraternities performed a service project for the school.

No matter what the activity, the Inter-Fraternity Council has but one constant goal—betterment—betterment of Clemson's fraternity members, of the individual fraternities, of the fraternity system, and, ultimately, of Clemson University.

IFC's biggest project is the annual Christmas party for needy children.

The IFC coordinates the efforts of all eight fraternities.
Delta Kappa Alpha was chartered as the second social fraternity at Clemson on December 14, 1959, bringing fifteen individuals together to form the closest brotherhood on the Clemson campus. The membership has since risen to about forty-five members, but the close ties of brotherhood that dominated the minds of the fifteen charter members remain as strong as ever.

The purpose of DKA is to bring together boys of common interest and moral integrity in bonds of brotherhood to learn to work together, play together, and live together. Delta Kappa Alpha accepts its responsibility to Clemson by promoting academic achievement, as well as extra-curricular activities. "Deacs" may be found participating in all areas of campus life. They serve in high positions of Student Government, in all major organizations such as Blue Key and Tiger Brotherhood, and on most of the varsity athletic teams.

Living together is the third segment of campus life. Here is where the bonds of brotherhood grow stronger and the basis for lifelong love of the fraternity becomes deeply rooted in every brother.

Delta Kappa Alpha has certainly established for itself a high position among the fraternities on the Clemson campus. The brothers of DKA are proud of their past record of achievements and look forward to ever increasing ones.
Deac's Tiger eats Goat Toasties for his Saturday morning breakfast of Homecoming.
Delta Phi Kappa Points Goal Toward Brotherhood

Delta Phi Kappa, in becoming a social fraternity on the Clemson campus, constitutionally outlined its goals as a social organization. The primary purpose of the fraternity is the furtherance of brotherhood through a framework of social life and the simple art of harmonious living. Through all the activities in which it engages, the brotherhood attempts to bring honor on Clemson University and the academic community.

The brothers feel proud in their achievements, not for its awards or first-place trophies, but in the fact that with each opportunity to engage in, as Inter-Fraternity Council or campus sponsored activity, the attainment has displayed the results of a fraternal effort.

Delta Phi Kappa adds to the social events offered by the university by having drop-ins, beach and mountain houseparties, and dances throughout the school year.

The brothers also stress academic excellence, and they are always willing to help one another in any problem. All activities point towards developing the characteristics and traits which make Clemson men.

To excell in activities is but one aspect of the goal for which Delta Phi Kappa strives. Being a social fraternity by name and nature, the entire goal of the fraternity is BROTHERHOOD.

GERALD CAUGHMAN, President

CHIS Win Overall Trophy in 1964

From its founding date, February 24, 1960, Kappa Delta Chi has continued to grow in size, fellowship and closeness. A mutual interest in Clemson University, campus activities, and social functions has established the Chis history, and throughout that history, the importance of leadership, scholarship, and personal responsibility have never been undermined.

Each homecoming, KDX has produced a skit for Tigerama and a homecoming display, and participated in all intramural sports throughout the year. The Chis also take active part in the IFC sports, helping with the IFC party for underprivileged children, the Fraternity Sing and various other activities of Greek Week.

Varied social functions are an integral part of any fraternity. Each fall and spring there are KDX houseparties in the mountains, and a summer houseparty at the beach is an annual affair. Parties on dance weekends and other times during the year are important occasions.

Closeness in brotherhood is shown in KDX in its day-to-day associations among brothers, and its scope evidenced by fellowship with friends. True brotherhood lasts throughout life; this and sincere friendship is dear to the Chis. "No man is a stranger in our house."

The Chi's Barbershop is the Homecoming Display Winner.

KSN Enjoys Active Social Year

Since its founding on February 22, 1960, Kappa Sigma Nu has compiled a record of which any organization would be justly proud. Its brothers may be found in many campus activities and hold numerous positions of leadership in student government. The brothers work together academically, athletically, and socially to achieve the high standards preceded by its founding brothers. Kappa Sigma Nu is noted for its many service projects and is proud to be the founder of the Christmas party for underprivileged children, an annual project which has been undertaken by the IFC.

As the first semester activities began, the brothers of Kappa Sigma Nu and their dates ventured to Lake Rabun, Georgia, for the largest and most successful houseparty ever. Homecoming was greeted with a lot of hard work on Tigerama, the display, and a party which highlighted the weekend.

Kappa Sigma Nu's social activities during the second semester were climaxed by the annual Country Gentleman's Sweetheart Ball. At this dance the spirit of the Old South was revived by brothers and dates dressed in the costumes of the 1860's.

The brothers of Kappa Sigma Nu respect and take pride in their close brotherhood, a brotherhood which will prevail within their minds for many years to come.

Kappa Sigma Nu won first place in the fraternity sing with their old Georgia prison tales.
NS Promotes University Activities

The Numeral Society, in continuing its position as the “First and finest” social fraternity of Clemson University, has had another great year on campus. Founded in 1956 as a service fraternity, the Numeral Society made the transition to a large active social fraternity in 1959. Since then the society has continued to perpetuate its purposes and ideals in both service and social functions. The society strives to instill in its members the brotherhood and social poise necessary after graduation for success in the business world.

The brothers of the Society enjoy and take pride in the many service contributions each year. These service functions include designing and constructing the annual Homecoming float, building of a Homecoming display, participation in Tigerama, distribution of pep slogans for athletic events, and the recent adoption of an orphan child from Taiwan through a foster parent plan. Also included in the many phases of fraternity life are the social functions. All the members of the Society enjoy such social activities as houseparties in the mountains and at the beach, parties on dance weekends, and drop-ins after football games.

The membership consists of active participants in all phases of university life. Most fields of study are represented by the Numeral Society, and many campus positions are held by brothers of the society.

The brotherhood, poise, character, and versatility developed by individual members of a fraternity are unmatched in college when projected to later life. The Numeral Society strives to promote these traits in each member through its many relationships both with Clemson University and with the non-academic society.
PKD Creates Close Bonds of Fraternal Friendship

Phi Kappa Delta was founded in 1959 upon the ideals of brotherhood, friendship, and scholarship among its members. It has grown since its formal recognition to become outstanding among fraternities and an integral part of Clemson University. Phi Kappa Delta is well represented in the honorary, service, and scholastic organizations of Clemson. Brothers provide leadership in student government, the Tiger Brotherhood, and Scabbard and Blade. In addition, Phi Kappa Delta is well represented on the Taps staff, the Central Dance Association, and the Tiger staff. The 1964 IFC Greek of the Year, recognized as the University’s most outstanding fraternity man, was a brother of Phi Kappa Delta.

As a social fraternity, the "Phi Kapps" look forward to fall and spring houseparties in the mountains of North Carolina, along with numerous parties during the year. Construction of a Homecoming display, and the various activities of Greek Week are actively participated in by the fraternity, and almost every brother takes part in intramural sports. A beach houseparty at the close of school ends the social year.

Phi Kappa Delta is proud of its past record and is ever striving to keep its goals high, as well as to enrich the fraternity system at Clemson as a whole, thereby creating a better Clemson.

JOHN L. SCOGGINS, President

IN MEMORIAM: McDANIEL H. BRICE

Phi Kapps leave football field after close game.
SAZ Spirit Projects Originality

On September 27, 1959, the first of Clemson’s eight social fraternities was formed: that organization being Sigma Alpha Zeta. It was organized by seven Clemson men who felt a fraternity was needed to fill the social void which had developed following the termination of the military system. These seven recognized the need for a close brotherhood and believed that a medium was needed through which Clemson students could attain the necessary social graces which accomplishing their primary purpose of obtaining an education. The Zetas have long stood for scholastic achievement and outstanding character along with the social of university life. The coordination of the social with the academic has been Sigma Alpha Zeta’s primary purpose.

The brothers of Sigma Alpha Zeta are active in all parts of life at Clemson University. They hold offices in classes, publications, honorary and service organizations, and so on. They are outstanding in all the intramural and inter-fraternity activities.

Sigma Alpha Zeta is a social fraternity. It is an organization of individual personalities that rise together for an occasion. There is no stereotype of a Zeta, for each Zeta is different. The brothers believe that a social fraternity should be, as its name implies, a social organization, and not dedicated to some service or project.

The Zetas have become known as a fraternity of originality and individuality. The more recent of these innovations were their charter bus excursion to the Clemson-Georgia football game in Athens and their combo on the fraternity quadrangle following the Homecoming with UNC. They sponsored a drop-in luncheon in the Zeta house for parents and dates of brothers Saturday afternoon of Homecoming. These are but a few examples of the “Zeta Spirit.”
LAURIE FOWLER, Sweetheart

HAROLD N. COOLEDGE, Advisor

"Now, this is really serious."

Rushee Coleman is welcomed into the Zeta House.
SKE Sponsors Various Activities

The social organization of Sigma Kappa Epsilon is known for its wide range of activities in school and social life around Clemson University. This variety of participation is, we believe, a major part of a student's education; therefore, our goal is to give our members and friends an evenly rounded life for preparation for the future.

The brothers of SKE are chosen, not for their social status, wealth, or influence, but for their sincere interest in our fraternity and the brotherhood that comes from such association. Through parties, drop-ins, dances, and mixers, we provide the needed breaks in routine university life. This is a major part of a social fraternity, but the scholastic segment is enhanced by certain grade qualifications for pledges and active members.

In order to maintain active membership in SKE, one must show a sincere interest in the activities of the fraternity and the projects it undertakes. Members also must maintain a GPR that is sufficient for graduation.

As to participation in university-wide activities, SKE is not lacking. Every year, the brothers work on a display for the Homecoming weekend and a Tigerama skit. During the spring semester, we are active in the annual Greek Week festivities.

Our members hold offices in student government, professional organizations, and our fraternity has held high positions in the Inter-Fraternity Council, the fraternity central governing body at Clemson.

The close association of SKE brothers and their friends provide lasting acquaintances that will be comforting and beneficial to later life.
Rock serves SKE jungle juice to members and rushees.
Several members of Omicron listen to the piano after a meeting.

Omicron Sets High Standards

In November of 1959 some of the women students formulated their ideas and decided on an organization which would foster the best social, spiritual, and intellectual environment for the Clemson women students. Omicron Zeta Tau was organized as a result of this and became the first social organization devoted entirely to women students at the college.

The sisters engage in both social and service activities on the campus. As contributions to the university, they help with the school immunization program, entertain the children at the Shriner's Hospital with a Christmas party, and distribute clothes to the needy children. For their social functions, they include joint church attendance, dinner together after meetings, rush week, and conclude the year with a houseparty at the beach.

Rush is held the first week of the second semester each year. Pledges are chosen on basis of high standard of morals, a congenial personality, and the qualities which make a lady.
SBX Sorority Participates in Campus Activities

Organized in April 1963, Sigma Beta Chi became the third social sorority on the Clemson campus. Sigma Beta Chi exists "to promote fellowship and sisterhood among Clemson women working for the betterment of Clemson University." The sorority seeks to unite in friendship Clemson coeds with common ideals, dedicated to the sorority, standard of scholastic achievement, leadership ability, high moral conduct, and pleasant personality.

The Sigma Beta Chi sisters have worked together throughout the years to serve their community. Sigma Beta Chi joined the Clemson fraternities in giving the annual Christmas party for underprivileged children. The sisters have also worked together planning informal get-togethers. The height of the social activities of the sorority is Rush Week. During Rush Week, Sigma Beta Chi holds a drop-in for interested rushees, a pizza party for prospective pledges, and its first annual Jabberwocky party.

As it grows in size and service, Sigma Beta Chi strives always to unite in sisterhood outstanding women of the Clemson student body.
MILITARY

Although the formal military days of Clemson are gone forever, Clemson men still cherish their proud military traditions. The glory of the uniformed cadets is seen only once a week now, but the military tradition persists at Clemson through the Army and Air Force Reserve Officers’ Training Corps. Because Clemson is a land grant school, male student must enroll in ROTC during their freshman and sophomore years. The primary purpose of the ROTC detachments here at Clemson is to train officers for a position in the United States Armed Forces. If a student meets all the requirements of the United States Government, he may take ROTC during his junior and senior years and receive an officer’s commission in the Air Force or Army upon his graduation from Clemson. When a cadet receives his diploma and commission, he reports immediately for active duty with the rank of second lieutenant.

Except for the Angel Flight, the following organizations are composed entirely of Clemson men enrolled in either Air Force or Army ROTC programs. They range from honorary organizations to the various precision drill teams. Parades, drill meets, education programs, and the Military Ball are among the many activities undertaken by these military organizations. The members of these organizations work closely with the military departments here at Clemson, and always seek to improve the military program on the campus.
Arnold Air Society Advances AFROTC Standards

The Arnold Air Society is a national honorary and service organization which is composed of four types of members: actives, alumni, associate, and honorary. The society is an organization advocating the support of air power. It is "professional" because of the established intent of its members to become officers in the United States Air Force. It is "honorary" because of the high standards required of all basic and advance AFROTC cadets. The pledges must have a 3.0 AFROTC GPR and be outstanding in drill and ceremony behavior. Its mission is mainly to: 1. Aid in the development and production of Air Force Officers; 2. Create a closer and more efficient relationship within the Air Force Officers Training Corps; 3. Further the purpose, traditions, and concepts of the United States Air Force; 4. Support Aerospace Power and its role in national security.

The individual is the important element in the structure of the Arnold Air Society. His motivation towards a successful and profitable Air Force ROTC career is the all-important objective. In accomplishing these objectives the cadet develops through participative training, such qualities as team work and cooperation, discipline and dependability.

Through recognition of the USAF, the cadet's range of possible activities extends from coast to coast while participating in area and national meetings, Air Force briefings, inspection tours, and orientation flights. In promoting the concept of air power, Arnold Air fosters service projects, military balls, and other projects, such as public relations benefits, presented on campus and in the community.

The staff contemplates while Herb says, "Let him live!"
The society's meetings are sparked by interesting remarks and good participation.

Clemson Angel Flight Promotes Air Force ROTC

The Flying Tiger Angel Flight, sponsored by Arnold Air Society, is a national organization which was established at Clemson University in the spring of 1963. It received its national recognition as of February of 1964.

Promoting the Air Force ROTC, the Arnold Air Society, and Clemson University are the primary objectives of the Flight. The Angels accomplish their aims through various service projects, programs, and other activities.

The Flight has gained both national and campuswide recognition for its various activities. Sandra E. Cochran, Commander of '63-'64, was the recipient of one of the national Angel Flight awards. She was chosen for this distinction at the national conclave of 1964. On campus the Angels work on different projects such as the immunization programs and the bloodmobiles, and they also sell corsages at the football games. The members attend the area conclave at Warner-Robbins Air Force Base in the fall and the national conclave in Washington, D.C. in the spring.

Pledges are accepted into the Flight on the basis of their character, poise, appearance, and interest.

The Angel Flight is commanded by Joan Reas. Carol Rostron serves as the Executive Officer; Nancy Miller is Information Officer; and Mishelle Barrette is Administration Officer.
AF Drill Team is Best Yet

Consisting of freshman and sophomore cadets in the Air Force ROTC program, the AFROTC "Flying Bengal Drill Team" continues to emphasize the importance of a "crack" drill team, maintaining an organization which stresses perfection in military discipline. Wearing their uniforms with pride, the members of the "Flying Bengals" try to motivate their members toward the necessity of military life, practicing throughout the week. They use a challenge system in order to pick the most-qualified cadets as leaders of the team. The freshmen and sophomore cadets supervise the drilling, aided by the Advanced AFROTC cadets only for advisory purposes.

This year the Drill Team entered the Emory Invitational Drill Team Competition at Emory University and won the first-place trophy for the best drilled unit. Known by unique uniforms and insignia, the AFROTC Drill Team members work diligently to better their group of militarily minded students, making the Drill Team the best yet. With their persistent effort, the members constantly fulfill the purpose of the team—to produce a top ranking drilling unit.
Scabbard and Blade Honors Top Military Students

The National Society of Scabbard and Blade is the highest military fraternity for ROTC cadets in the country. Since its founding in 1933, Company K-7 has actively pursued the supreme ideals of the Scabbard and Blade—"to unite in closer relationship the military departments of American universities and colleges; to preserve and develop the essential qualities of good and efficient officers; to prepare ourselves as educated men to take a more active part and to have a greater influence in the military affairs of the communities in which we may reside; and above all to spread intelligent information concerning the military requirements of our country."

Company K-7 is represented by the outstanding senior Army and Air Force ROTC cadets who meet the society's requirements of high character. Whether it be the Military Ball in conjunction with the CDA, the sponsorship of the annual Military Banquet, or for general promotion of the ROTC programs, the activities will always be based on service to the University. Company K-7's cadets are sincerely proud of the heritage of Scabbard and Blade and will continue in the finest military tradition to promote the society's ideals here at Clemson.
The staff poses in their uniforms, fashioned after Clemson's old ones.

The Fourth Regimental Headquarters, Pershing Rifles, serves as a coordinating unit for P/R units in the states of Alabama, Tennessee, Georgia, North Carolina, and South Carolina. The headquarters detachment has been at Clemson since 1948.

The principal events of the year are the Regimental Drill Meet and the Regimental Assembly. The Assembly is held before the drill meet with all companies represented. Plans for the meet as well as other plans for the regiment are covered. The meet allows all of the companies of the regiment to compete in different classes of drill. The Regiment awards the George A. Douglas Trophy to the unit which has been judged the best in the regiment for the year. The units are judged on their showing during the meet and their grades during their inspection and reports submitted to the headquarters. The staff gives up its semester break to visit the units for their annual inspection.

The commander this year is P/R Colonel Edward L. Holcombe of Greenville, S. C. The advisor to the headquarters is Major T. E. Gioiosa.

Edward L. Holcombe, Commander

PRs plan the year ahead in Fourth Regimental Headquarters.
SAME Members Gain Knowledge from Field Trips

The Society of American Military Engineers is a national organization composed of thousands of civilian engineers and military officers and 2,000 students. Dedicated to the national defense, the society promotes helpful relations between the civilian and military engineering professions as well as the advancement of military engineering.

The Clemson University chapter is composed of some thirty ROTC and/or engineering students. These men are authorized to wear the red, black, and white cord and ribbon of SAME.

This year the chapter visited the Army Corps of Engineers District Engineer in Savannah and the NASA Data Acquisition Facility in Rosman, North Carolina. The highlight of the year was the Easter week-end trip to Cape Kennedy, Fla. The program also includes meetings on every other Thursday evening where movies of various application of engineering are shown and speakers are presented.
Pershing Rifles Gain Honors and National Acclaim

The Clemson University Pershing Rifles Company C-4 is a member of the National Society of Pershing Rifles founded in 1894 at the University of Nebraska by General John J. Pershing. Company C-4 is composed of Air Force and Army ROTC sophomores who have completed their freshman year as pledges. Company C-4's staff is composed of junior members of the Pershing Rifles, chosen at the close of their sophomore year.

1964-65 marks the 26th year for Company C-4 at Clemson. During these twenty-six years the Clemson P/Rs have made themselves known throughout the United States. They have won the National Drill Championship twice and the five-state Pershing Rifles Fourth Regimental Drill Meet ten years running. This has been accomplished only through hard work and discipline which has perfected their well-known close-order drill techniques with their intricate steps and fancy rifle manuals.

This year marks the twenty-sixth for the Pershing Rifles at Clemson. In all these years the C-4 Company has upheld their purpose stated by General Pershing: "To foster a spirit of cooperation among men in the military departments and to maintain a highly efficient drill company." This cooperation, seen in their series of very intricate maneuvers performed at Homecoming and Honors and Awards Day, creates a desire for perfection as well as giving the cadets insight into the meaning of efficiency. Their acquired sense of cooperation carries into their years of military service and makes them more effective and proficient officers.

Company C-4's functions are many and varied. Be it aiding our new coeds at the girls' dorm, ushering at home football games, performing at the Mardi Gras in New Orleans, or in competition at the Cherry Blossom Festival in Washington, Company C-4 is always there, and Clemson University is assured of receiving the recognition it deserves.

PR Pledge Platoon Works into Crack Drill Team

The Clemson University Pershing Rifle pledge platoon is the C-4 company's freshman drill unit. This platoon exists for one purpose: to produce cadets with the characteristics which permit them to become Pershing Riflemen. Freshmen enrolled in Army and Air Force ROTC who are interested in military proficiency and desire to become a PR may become a member of the pledge platoon.

As a Pershing Rifle pledge, the cadet is first taught to obey his commander and superiors as well as to carry out their orders quickly and efficiently. The pledge then learns the basic fundamentals in both drill and M-1 rifle manuals, which are essential in order to become an eligible candidate for tryouts in the C-4 Company. At the end of the year each pledge is inspected and tested before becoming one of the PRs. If selected into the C-4 Company, the cadet then becomes a member of the crack drill team.

During his freshman year the pledge takes an active part in the functions of the Clemson PRs. As a group the pledges engage in many activities on and off the campus. His main duties include ushering at all home football and basketball games and forming honor guards for visiting dignitaries and beauty contests. Besides taking part in many Christmas parades, they perform at the Sumter Iris Festival in Sumter, South Carolina.
"After all, pledges, this doesn’t last that long!"

One of the PR pledge activities is ushering at home basketball games.
REGIONAL

The regional organizations of Clemson University include several regional and international clubs along with the various clubs from counties throughout the state. The people who are members in these regional clubs are those students desiring to unite with students from their home areas. Various county and international clubs have been formed at Clemson solely for the purpose of coming together in order to benefit both Clemson and themselves through their combined efforts. Many activities such as dances, drop-ins, and service projects are sponsored by these organizations during the course of the school year. These clubs also take an active part in the intramural sports program which offers a spirit of competition combined with good sportsmanship.

These regional organizations benefit their members in many different ways. Nothing can replace the value of the fellowship and friendship which is developed through service and the various social functions. The foreign students, especially, can benefit greatly from these clubs. In them lies a perfect opportunity for the foreign student to become better acquainted with the American customs and ways of life.

These regional organizations are an integral part of the Clemson University campus life. Through their services the social and service facets of Clemson are greatly benefitted. Their major purposes are furthering fellowship, friendship, and fraternity. These purposes are closely intertwined with the goals of Clemson University.
The Chester County Clemson Club, which was formed in November 1959, is a social club composed of Clemson University students from the Chester area. Since that time the members have enjoyed the fellowship and social activities of the club. This is in keeping with their purpose: to promote unity and fellowship among the members through club activities.

The club's many functions are enjoyed by the members. Several dances and parties are held during the year, which provide opportunities for Clemson students, as well as other young people in the area, to form new and lasting friendships. The annual Christmas dance is one of the highlights of the year and is very successful due to the fine cooperation and sense of brotherhood shown by the members of the Chester County Clemson Club. During the year the club holds meetings twice a month, at which time projects, activities, and social functions are planned.

The club also provides an outlet for the energy of its members. The club gives an opportunity for friendship and cooperation with each other as they participate in many college activities such as intramural athletics. The football, basketball, and softball teams have been very successful, and the members take pride in the fine sportsmanship displayed.

The Chester County Clemson Club is an integral part of the Clemson University campus and works hard to keep this position.
BSX has Fund for Scholarship

Beta Sigma Chi service fraternity was founded in 1933 as a regional club by a group of Charleston County students who wished to establish fellowship among Charleston area students. It was known as the Charleston County Club. In 1942 the Charleston County Club became a service fraternity and retained the name of Beta Sigma Chi. It is Clemson's oldest active organization.

Its membership is made up of Clemson students who reside within a fifty-mile radius of Charleston. Its main service is to give a scholarship to a qualified and deserving freshman from the Charleston area. This year the recipient received two hundred dollars in scholastic aid.

Beta Sigma Chi maintains an active social calendar throughout the year. Dances and parties are held during Thanksgiving, Christmas, and Easter holidays. The year's social activities are culminated with a beach party at the beginning of the summer. Although all funds are directed to our scholarship fund, special emphasis is put on the Christmas dance, and it is designated as a scholarship dance.
Business is conducted as usual during a BSX meeting.

Members are busy building their homecoming display.
Nu Epsilon Unites Clemson's Northern Students

Nu Epsilon is a fraternity composed of Clemson students whose legal residence is north of the Mason-Dixon line. It gives northern students an opportunity to meet other students from their own area and brings the men closer together through social functions, thus enhancing the social life of the University.

Established as a service club in 1947, Nu Epsilon performed many useful and functional activities on campus. Through the years the group has progressed to include social functions in its schedule. In the latter part of 1961, Nu Epsilon became a regional fraternity with a primary objective of creating brotherhood among essentially northern students. From this date its members have enjoyed social functions such as hay rides, mixers, drop-ins, picnics, and other activities which enrich the social aspect of life on campus. During the school year they also challenge local sororities in softball and football. Each year the club competes in the Homecoming display contest and various other group projects.

Nu Epsilon meetings are held every other week with a very high percentage of members attending. The group realizes that friendship is the basis upon which a successful life functions and therefore unites a group with common ideals and standards and provides an outlet for the northern student who is not able to go home often.

KDK Extends Welcome to Dillon County Students

Kappa Delta Kappa, the Clemson Dillon County Club, was chartered in the fall of 1958. It serves as a social as well as a service organization. The purpose of Kappa Delta Kappa is to further the relations between Dillon County residents and Clemson University and to bring together socially the present and prospective Clemson students from Dillon County.

Membership in Kappa Delta Kappa consists of being a resident of Dillon County and receiving the vote of seventy-five percent of the club members. Club meetings are held twice each month to bring the members together socially and to provide an opportunity to plan projects and other functions. It is the desire of the Dillon County Club that the friendship and welcome extended by the club will help its members feel that they belong at Clemson.

Throughout the school year Kappa Delta Kappa offers its support to all Clemson-sponsored activities. In addition to this they sponsor such projects as car washes, mixers, drop-ins, and holiday dances. Their high-spirited sportsmanship is reflected by their participation in all intramural athletic events.

Kappa Delta Kappa highlights the school year with its various dances at which many well-known dance bands and vocal groups are featured.

RELIGIOUS

The local churches and the Clemson YMCA accept the responsibility of providing Clemson men and women with religious guidance during their formative, questioning, college years. The churches provide regular Sunday worship and, in addition, sponsor student fellowships that bring together students of the same denomination. The church fellowships active at Clemson are the Baptist Student Union, the Canterbury Club, the Lutheran Student Association, the Newman Club, the Wesley Foundation, and the Presbyterian Student Association. Religious groups not sponsored by Clemson churches include the Christian Science Organization for Christian Scientists, the Hillel-Brandeis Club for Jewish students, and the various YMCA functions for all students who are interested. These groups feature thought-provoking lectures led by church leaders and educators and are designed to provide Clemson students with the opportunity to express their ideas and to consider the ideas of others. Members find that they have an opportunity to meet new people and strengthen old friendships in the warm, informal atmosphere of the church fellowships.

Membership in a church, church fellowship, or any of the various YMCA sponsored activities is open to any student who wishes to bring himself closer to God through worship and learning. Any student who feels an interest in one of these groups is welcome to attend a meeting and become acquainted with the members. On the following pages many of the religious organizations functioning at Clemson are presented.
The Baptist Student Union of Clemson University is an organization composed of Baptist students who meet for the purpose of joint worship, study, recreation, and fellowship.

Each Wednesday evening there is a meeting at the student center featuring a speaker, panel, or film. Immediately after the formal program, refreshments are served and those who would like are encouraged to discuss the program with the speaker. The Clemson Baptist Church has a separate department for students in the Sunday School and Training Union, and students serve as ushers and in other places of responsibility in the church. In addition to these opportunities of worship, a group of students meet each day at noon for prayer and fellowship. Twice in the year, once in the fall and once in the spring, a retreat is held to allow students to withdraw for a couple of days and re-examine their lives and commitments. This year they also had a Bible group that met weekly.

In cooperation with other BSUs throughout the country, the Clemson BSU participates in a summer missions program. This past summer Lewis Bolton served in Taiwan.

Deputations play an important part in BSU. The students are invited to churches and other schools throughout the state to present programs and teach classes. Deputations from other schools are also invited to Clemson.

The Clemson BSU journeyed to Charleston in December for the state BSU convention and served as host to the Spring Leadership Conference in April.
Canterbury Club Provides Informal Atmosphere

From 1924 to present, Episcopalian students have joined together in fellowship through the Canterbury Club. While the group is mainly one of fellowship, it is also an active instrument for bringing its members closer to the church. Student members are welcome at all services of worship and other parish programs that are held at the Episcopal Church.

The club provides an informal atmosphere for Episcopal students to meet and come to know each other better by doing things together. Throughout the school year, many projects are planned and carried out through the combined efforts of the members of the club.

The Canterbury Club plays host to children from the Tamassee School on Youth Day and sponsors ice cream parties at the school during the warmer months of the semester. Work projects with Furman and deputations to and from Winthrop are planned with the nearby Canterbury Clubs on these college campuses.

During registration and orientation, a dance and reception is held for incoming freshmen, and hootnannies featuring local talent are held during the year. In addition to campus activities, Canterburians participate in State, Regional, and National conferences that are held all over the nation. Most of these meetings are usually attended by a large delegation from the local club.

Meetings are held weekly from 7:00 to 8:00 p.m. Programs consist of panel discussions, talks by guest speakers, and meetings with other church groups. All students, Episcopal or otherwise, are invited to attend the meetings and activities.
Newman Club Unites Clemson's Catholic Students

The first chapter of the Newman Club in the United States was organized at the University of Pennsylvania in the year 1893. Since that time it has expanded to a vital organization of well over 800 chapters in the National Newman Club Foundation. The Clemson University chapter was organized in 1940. It was organized and directed by Father T. F. Tierney, C.S.P. The Clemson club has grown in effectiveness and number to its present 350 members. The club continues to fulfill its purpose: in order of importance, to promote the spiritual life, religious instruction, and the social life of its members.

The Newman Club joins Clemson's Catholic students together in ties of friendship which are nurtured by the joint spiritual, intellectual, and social activities offered by the club. The club functions on Wednesday night of every week. It starts with a meeting of the executive leaders and afterwards a meeting is held in which all members are participants. The program is always interesting as well as enlightening, consisting of films and lectures. Often the club invites outstanding church leaders from Clemson and other areas of the state. Another interesting facet of the club is the seminars and joint meetings with other church groups at the University.

The Newman Club enjoys also a varied social calendar for the year. In addition to the Wednesday night meetings, they sponsor mixers and picnics. The highlight of the year is the "Winthrop Weekend."

This club is open to all Catholic students on the Clemson University campus and welcomes them. The club continually strives to offer a broader program every year in order to give the members a fuller understanding of their faith.
Christian Scientists Maintain Lending Library

The Christian Science Organization unites the Christian Scientists within the University in closer bonds of Christian fellowship and welcomes the Christian Scientists entering college. It affords those desiring an opportunity to learn about Christian Science as taught in the Bible and in "Science and Health with Key to the Scriptures" by Mary Baker Eddy, the discoverer and founder of Christian Science. Services conducted by members each Wednesday evening in the Student Chapel and a lecture on Christian Science were important parts of this year's activities. The Organization maintains a Lending Library under the newer section of A dormitories where the Bible and all authorized Christian Science literature may be read or borrowed. A literature distribution committee was formed for the purpose of giving Christian Science periodic literature to the University campus. This included the Christian Science Monitor, a daily world newspaper. Several film programs were presented throughout the year inviting the entire student body to several of them. It also cooperates whenever possible with the student religious group on the campus and with the University authorities in participating in projects which promote inter-faith interest.

Fulfilling its purpose of participation in programs promoting inter-faith interest, the Organization brought a speaker to the campus during Religious Emphasis Week and members participated in presenting the vesper services held in the Student Chapel.

Students and faculty, showing a sincere interest in Christian Science, are invited to apply for membership in the Organization.
Wesley Foundation Emphasizes Group Discussions

Affiliated with the state and national components of the Methodist Student Movement, the Wesley Foundation confronts the student with a challenge to examine his faith and its relevancy to the modern university campus.

Each week three different programs are presented at Wesley Foundation: the Wednesday night program, Sunday morning seminars, and the Academy of Lay Theology. The Wednesday night programs are planned to present the student with interesting lectures by prominent personalities in and around the campus.

The Sunday morning seminars emphasize group discussion of topics pertinent to the university student. Topics for discussion are often picked in advance by the students themselves, and are discussed as a free exchange of ideas, using Christian principles as a guide.

A newcomer this year at the Wesley House is the Academy of Lay Theology. The academy consists of small groups bound together by a covenant for the purpose of serious study of contemporary theological thought.

Every student should be able to find something meaningful in at least one of the three programs, whether it be the formal programs on Wednesday night, the Sunday morning seminars, or the thought-provoking Academy of Lay Theology meetings throughout the week.
YMCA Staff Heads "Y" Life

The Clemson YMCA is one of the most well known organizations on the Clemson University campus. Every student, at one time or another, comes into contact with the Young Men's Christian Association. The "Y" has many varied activities which are available for both the students and members in the surrounding community. There are ping-pong tables, pool tables, a swimming pool, a gymnasium, a weight-lifting room, movies, papers and magazines, a club room, and meeting rooms. The YMCA also sponsors a concert series of its own, featuring local bands and singing groups. The young people in the Clemson community take an active part in the varied athletic programs planned by the staff.

Roy Cooper, General Secretary, heads the YMCA staff and is responsible for the YMCA's many varied activities. He is ably assisted by the assistant secretaries, Nash Gray and Otis Nelson. Mr. Gray is in charge of the movies and assists Mr. Nelson with the programming of the sports facilities at the "Y". Miss Bobbie Palmer is the office secretary at the YMCA.
YMCA Cabinet Coordinates Student Activities

The function of the YMCA Cabinet is to serve as the coordination and planning body for the student activities on the Clemson University campus. The members of the cabinet are assigned to several different YMCA students committees and strive to insure efficient and effective work from that committee. These committees are composed entirely of students with council members for guidance and direction.

The members of this cabinet are chosen because they are students who have taken a sincere interest in the YMCA program and have worked with the religious phase of campus life. The Senior, Junior, and Sophomore Councils furnish most of the members of the cabinet. Two of the members are taken from the Freshman "Y" Council and staff. Officers of the cabinet are elected by the student members of the YMCA.

It is the duty of these officers to provide effective leadership to channel the efforts of the cabinet toward serving the students of the Clemson University campus and toward fulfilling the objectives of the YMCA.

Some of the cabinet's more important activities are those of sponsoring a recreational program for the councils, supplying Christ-centered programs for the four councils, and direction of the vespers programs at the YMCA on Sunday evenings.
Senior “Y” Council Offers Christian Leadership

The Senior YMCA Council was organized in 1954, and today it has a large role in the promotion of the Christian spirit on campus. Membership on the council is based on invitation and election by members of the council. The council is composed of those men and women of the senior class who are interested in strengthening the spiritual lives of themselves and their fellow men. The members of the council strive to build a better Clemson on the basis of high spiritual beliefs and needs.

Activities of the Senior “Y” Council range from athletics to social deputations. They participate in sending or receiving groups or deputations, in sponsoring drop-ins during campus-wide dance weekends, and in ushering during Religious Emphasis Week.

The Senior Council is indirectly responsible for the leadership and guidance of the other councils. In the four years in the “Y” program, the members of the Senior “Y” Council have shared the burdens of and offered aid to the other councils. The Senior “Y” Council stands at the head of the governing body of the student YMCA. They provide the leadership and knowledge needed to guide the students and members of the other councils toward a Christian life that will benefit them.
Junior “Y” Council Builds Christian Character

The Junior YMCA Council is composed of those members of the junior class who wish to stimulate the spiritual lives of themselves and others and to aid the members of the various classes in cultivating better men at Clemson University. The activities of the council consists of cutting the hair of entering freshmen in the fall, offering leadership in the preschool YMCA retreat, helping with the children’s party, serving at drop-ins during dance intermissions on dance weekends, and ushering at the convocations during Religious Emphasis Week. Programs are designed around increasing the students knowledge and understanding of God.

Membership in the council not only requires the man or woman to be a member of the junior class, but for him to be elected by other members. The members show a real desire to serve Clemson in the Christian spirit.

The purpose of the council is to join the members of the junior class together through interchange of opinion and ideas. The council members inspire understanding and appreciation in their companions so that they will be more useful to the university and the community.
Soph “Y” Council Promotes Spiritual Activities

As a closely knit group of sophomores working together as a group to witness as Christians, the Sophomore Council of the YMCA works earnestly to promote “Y” activities. This witnessing as Christians by these young people, if applied in a thoughtful manner promotes fellowship and Christian character among all Clemson University students. This common purpose, which is present in the minds of themselves, serves to guide them in planning and executing their programs and activities.

Weekly meetings are held by the members to meet this spiritual need that they have. At these meetings the members have a worship, a business session, and an educational lecture, discussion, or film. The different “Y” councils carry on much athletic competition such as football, golf, basketball, tennis, and softball. Social activities with deputations from women’s colleges throughout the state include cook-outs and worship. These girls often stay for an entire weekend of fun and fellowship.

The Sophomore “Y” Council is truly a group of hard-working earnest Clemson students with a spiritual desire which they want to fulfill. They devote much of their time and energy to make the YMCA a better organization to serve our University.
Freshman "Y" Camp Offered by Frosh "Y" Council

Two days prior to the opening of school, a freshman YMCA camp is conducted in the mountains of North Carolina at Camp Greenville. At the camp the freshmen enjoy wholesome recreation and fellowship with classmates and friends, and strengthen their Christian character.

The Freshman YMCA Council is composed of those freshmen that attend the camp. Officers are elected by their fellow classmates after they have become well acquainted with one another. These officers consist of a president, vice-president, secretary, treasurer, and reporter, and two voluntary officers, the chaplain and athletic chairman. The officers are elected to lead the council for the first semester.

While at the camp the freshmen become acquainted with other students with whom they will be living and working, with members of the administration and faculty, and with student leaders. The members of the council learn about how campus life is going to be and the parts they must play.

Deputations play a large role in the activities of the Freshman YMCA Council. Together with the upper-class councils or by themselves, the council exchanges deputation programs with other colleges in the area.

LEFT TO RIGHT: Suber, Z., President; Richardson, W., Vice-President; Tarquino, S., Secretary; Johnson, B., Chaplain.
EPILOGUE
And the Year Ends . . .

THE SUN SETS ON LAKE HARTWELL AND THE DAY COMES TO AN END. THE YEAR HAS END
ALMOST AS RAPIDLY. FOR SOME THIS MARKS A CHANCE TO START OVER AGAIN. FOR OTHERS IT
IS NOW A LOST OPPORTUNITY. TO MANY THE YEAR'S END MARKS A BREAK IN STUDIES, AND THEY
AWAIT THE RETURN IN THE FALL. BUT TO THE SENIOR THIS EVENT MEANS A GREAT DEAL MORE.
YOU HAVE NOW COME TO THE END OF YOUR CAREER AT CLEMSON. IT IS TIME TO LOOK BACK
AND EVALUATE THESE FOUR YEARS. LOOKING AT YOUR OWN PERSONAL LIFE YOU FIND THAT YOU
HAVE CHANGED A GREAT DEAL. MAYBE YOU HAVE APPLIED YOUR ENTIRE TIME TO STUDIES AND
YOUR EDUCATION. OR. MAYBE, YOU ALSO FOUND OUTSIDE INTERESTS AT CLEMSON. STUDENT
GOVERNMENT, FRATERNITIES, PROFESSIONAL AND HONORARY ORGANIZATIONS, PUBLICATIONS,
SPORTS . . . YOU FOUND YOUR PLACE AND GAVE A PART OF YOURSELF TO CLEMSON. NOT ONLY
HAVE YOU CHANGED, BUT THE UNIVERSITY HAS CHANGED ALSO. YOU CAN FEEL THE DIFFERENCE
FROM WHEN YOU FIRST ENTERED AS A "RAT". THE NEW BUILDINGS. THE RECREATION CENTER ON
THE LAKE. THE EVER-INCREASING NUMBER OF COEDS . . . THESE ARE ALL PART OF THE CHANGE.
YOU SAW THE CHANGE; YOU LIVED THE CHANGE; YOU WERE A PART OF THE CHANGE. NOW YOU
MUST LEAVE THE SHELTER OF THE CLASSROOM. BUT, AS YOU LEAVE, YOU LEAVE WITH THE HOPE
THAT IN YOUR YEARS AT CLEMSON YOU HAVE NOT MERELY LEARNED HOW TO MAKE A LIVING . . .
BUT ALSO HOW TO MAKE A LIFE.
ADVERTISING

Advertising is one of the chief means of communication a business has to inform the public of the goods and services it has to offer. The Taps offers its advertising section to those business concerns interested in the future of Clemson University in the hope that these annual advertisements will be helpful and profitable to the various firms included. The Taps is a diary of the past year's events at Clemson University, and the businesses that are included in the following pages are a part of that year. Advertising comes from almost every area where there is a Clemson man. Industries, eating establishments, clothing stores, drug companies, travel agencies, service stations, hotels, and jewelers have expressed an interest in the student body at Clemson and realize the quality and ability of the Clemson graduate. The Taps is proud of the business concerns that advertise in it, and hopes that they will prosper and grow as an important part of Clemson University.

Good Light Keeps Young Minds Bright!

Good school work depends on proper lighting at home. Lamps used to read and study by should be glare-and shadow-free, have white-lined translucent shades with diffusers and bulbs of 150 watts or more. To protect your sight, check your lighting now.

A NEW DAY HAS DAWNED!

Woodside Mills is very much a part of the new textile era that has dawned. And millions of dollars have been spent by Woodside in building new plants and completely revamping older plants in meeting the challenge that this new textile era presents.

In 1963 the $10,000,000.00 giant new Beattie plant started operations near Fountain Inn, S. C. This manufacturing facility has 10 acres under one roof and produces premium quality cotton print cloths.

The new $5,000,000.00 Furman plant is scheduled for completion and start-up in 1965. This synthetic weave plant will be as modern as tomorrow and embrace the very latest machinery and equipment. It is located adjacent to the Beattie Plant.

In addition to these units, Woodside has 7 other modern and progressive textile plants located in a three county area of Anderson, Pickens and Greenville.

Yes, Woodside Mills offers unlimited job opportunities to textile graduates. For additional information write to:

Serving You In Clemson and Surrounding Areas
You've probably read in the paper that the South Carolina Electric & Gas Company recently paid its county taxes. You might have also read that SCEGCO's tax check was among the largest payments received by the county if not the largest. And, next year about this same time you'll read essentially the same story except that the amount of taxes paid will probably be higher.

So it goes year after year, the South Carolina Electric & Gas Company, an investor owned utility, plays its part as a good citizen by paying its share of taxes to help provide all the services of government.

THERE WILL ALWAYS BE SOMEONE TAKING YOUR MEASURE

Some measures are taken with a tape but the more important measures of life are taken by the people who size us up, whether it be a sweetheart, a classmate, a son or daughter, or a prospective employer. There is always some keen eye, whether we know it or not, scrutinizing the dimensions not only of our physiques but of our minds, abilities and characters.

Your training at Clemson has been designed to improve the dimensions of both your mind and character so that when you graduate it can be said that here stands a man ready and eager to shoulder the responsibilities which his particular talents and abilities qualify him to assume.

We measure ROTC Cadets for uniforms. Our customers measure us in their appraisal of our ability to execute a uniform contract satisfactorily. It will be a never-ending effort on our part to keep our measurements good in the eyes of Clemson College.

We salute the Graduating Class and wish you all Godsspeed in your chosen field of endeavor.
