IMPRESSIONS . . . THE SCHOOL

Clemson University, founded in 1889, reflects the work and time that has gone into making the dream of Thomas Green Clemson a reality. With the passing of time impressions are made and then turned into memories which bring back the days at Clemson. There is much for one to remember, just as there is much for one to forget. First there is registration. Then the walk to class in the ever-present rain. The homecoming displays. The views of the dorms at night. The shaving-cream fight. The color and music of the Tiger Band. The walk to Lake Hartwell. The nightly trip to Dan’s. The many hours spent on a project. The Bull Sessions. The midnight trip to the laundramat. The time—whether long or short—put on the books, and then there are the people. Some of these memories will be lost, and some will be remembered. Clemson will change—it must. But even with the change there will always be the impressions made during the time spent as a student—the time that you gave to Clemson University.
SPIRIT . . . THE BOND

With the student as the focal point of any university, there must be a bond—a tie that gives a school its character. At Clemson University this bond is the spirit, the kind of spirit that becomes the pulse of a school. This bond is the tradition, and it is the honor, it must never be considered as unimportant because then it would be lost. Clemson’s spirit is shown in many different ways. Spirit is yelling at a football game or a basketball game, spirit is working hard as a cheerleader or a member of the band, spirit is wearing a rat hat or a raccoon coat, spirit is listening to Gator Farr or going to a bonfire, spirit is yelling in the lunchroom or beating a drum in front of Tillman Hall, spirit is riding a bus to a Clemson game or burying a gamecock, spirit is putting out a newspaper or a radio program, spirit is running for high court or singing in the glee club, spirit is making a touchdown or sitting on the bench—waiting, spirit is . . . a Clemson man.
EXPRESSIONS . . . THE STUDENT

The academics, the athletics, the activities, and the organizations of Clemson University function for one reason—because there are students. These students are different from each other, and they express Clemson in their own individual way. There is expression shown at a fraternity costume party and in the tug-of-war at the annual Greek Week. There is expression seen as a cheerleader does her part and as a football player stifles a yawn. There is the effort of a president to explain the importance of an election. There is expression of anger after a bad play, and the expression of pain after last semester's flu shot. There is the expression of bewilderment as a rat begins the long process of learning Clemson, and the expression as he finds the common tie that forms the all-important bond. A boy expresses the wonders of an IFC Christmas party, a skydiver experiences the thrill of a free fall, and Frank Howard explains how a tiger should play football. These are the expressions which represent the school, the bond, and the most important . . . the students of Clemson University.
REMEMBRANCE

ACADEMICS
ADMINISTRATION

Clemson University is a wonderfully complex combination of people, ideas, emotions, facts, events, and all the other things which result in a higher education. The working force is a group of dedicated professionals called the staff of administrators. The job of this staff ranges from conducting normal business affairs to aiding students in almost any problem that might arise.

At Clemson, the administration feels that the job of aiding the students is one of its most important functions. Because the staff is always willing to help the students in any way possible, they are often involved in after-hour problems. Other responsibilities that this group of qualified personnel must handle include providing student medical care, directing student placement, enforcing law and order, organizing housing and development, coordinating paper work, providing library services, and corresponding with the alumni.

With the guidance of its staff and administrators, Clemson University is well qualified to meet the awesome challenge of education.
Clemson Board of Trustees
Coordinating Structure

Under the provisions of the will of Thomas G. Clemson, the Board of Trustees of Clemson University was formed to regulate matters important to the operation of the University. The Board of Trustees is composed of thirteen members of whom seven are life members and six are elected by the General Assembly of South Carolina for terms of four years. Three of the six elected members are chosen every two years.

The Board of Life Members was also appointed under the provisions of the will of Thomas Clemson. Its first meeting was held in 1953. In order to fill a vacancy a member must have a unanimous vote by the remaining life members. The current life members are R. M. Cooper, who is President of the Board, Edgar A. Brown, James F. Byrnes, Robert R. Coker, James C. Self, Winchester Smith, and Frank J. Jervey. Mr. Jervey succeeds Mr. Charles E. Daniel as a life member.

R. M. COOPER, President
1887–1966
Mr. Cooper became a member of the Clemson Board of Trustees in 1922 and became its President in 1951.
DR. ROBERT COOK EDWARDS, President
Dr. Robert Cook Edwards graduated from Clemson College in 1933 with a degree in Textile Engineering. While Dr. Edwards was a student at Clemson, he was very active in campus activities. Today, as President of Clemson, he is still very active in the campus life. He is a member of Phi Psi national honorary textile fraternity, an honorary member of Blue Key, Phi Kappa Phi national scholarship fraternity, Tiger Brotherhood, Scabbard and Blade, and Arnold Air Society.

Dr. Edwards has not limited his activities to Clemson University; he is also very active in the community. He is a member of the Lions International, a Master Mason, a Shriner, a member of the American Legion, a steward in the Methodist Church, a director of the State Bank and Trust Company, and state chairman of the 1966 Heart Fund. Dr. Edwards is also the Civilian Aid to the Secretary of the Army for South Carolina.

He returned to Clemson in 1956 as Vice-President for Development, and in 1959 he became President of Clemson. Before returning to Clemson, Dr. Edwards served five years in the Army and was discharged as Major after which he worked in several places.

Since becoming President of Clemson University, he has received an honorary Doctor of Laws from The Citadel and an honorary Doctor of Laws degree from Wofford College. Dr. Edwards has served Clemson University as an outstanding President and as a leading citizen in the community.
MELFORD A. WILSON, Vice-President for Business and Finance and Comptroller

A. WOOD RIGSBY, Assistant to the President and Secretary, Board of Trustees

JOE SHERMAN, Director of Public and Alumni Relations

W. WRIGHT BRYAN, Vice-President for Development

GEORGE M. MOORE, Assistant to the Alumni Director
HENRY H. HILL, Director of Auxiliary Enterprises

RALPH S. COLLINS, Director of Physical Plant

REGINALD J. BERRY, Registrar

Melford A. Wilson, B.S. in Commerce . . V.-P. for Business and Finance and Comptroller
W. Wright Bryan, B.S., Litt.D., LL.D. . . V.-P. for Development

ADMINISTRATIVE OFFICERS AND STAFF
PRESIDENT'S OFFICE
Robert Cook Edwards, B.S., LL.D. . . . . President
Allen Wood Rigby, M.A., LL.B. . . Assistant to the President and University Counselor
Dorothy Lenore Abbott, A.B. . . Secretary to the President

ACADEMIC ADMINISTRATION
Jack Kenny Williams, Ph.D. . . . . V.-P. for Academic Affairs and Dean of the University
Victor Hurst, B.S., M.S., Ph.D., Dean of the Graduate School

LIBRARY STAFF
John Wallace Gordon Gourlay, A.M.,L.S. . . Dir. of Library
Sidelle Bouknight Ellis, B.S. in L.S. . . Ass't. Cir. Librarian
Linda Smith Gill, M.A.L.S. . . . Documents Librarian
John Smith Gill, B.S. in L.S. . . . Head Science, Technology, and Agricultural Division
Lois Jones Goodman, B.S. . . . Cataloger
Agnes Adger Mansfield, M.L.S. . . Cataloger
Violet Irene Menoher, M.S. . . . Head, Social Sciences and Humanities Division
Margy H. Nowack, A.B. . . . Acquisitions Librarian
Elizabeth G. Obear, M.S. . . . Reference Librarian
Muriel Gipson Rutledge, B.S. . . Serials Librarian
Mary Conrad Stevenson, A.B. . . Head, Catalog Department
Marian Hull Withington, M.S. . . Reference Librarian

ADMINISTRATION OF STUDENT AFFAIRS
Walter Thompson Cox, B.S. . . . . V.-P. for Student Affairs
George Edward Coakley, B.S. . . . . Dean of Men
Joseph G. Guggino, B.S., M.S. . . Asst. to Dean of Men
Susan Goodwin Delony, M.S. . . . Dean of Women
John Randolph Anderson, M.S. . . . Counselor
J. Don Cargill, M.A. . . . . Resident Counselor

OFFICE OF ADMISSIONS AND REGISTRATION
Kenneth Notley Vicker, B.S., Dir. of Admis. and Registration
Reginald Justin Berry, B.S. . . . . Registrar
William Richard Mattox, M.S. . . Admissions Supervisor
Arnold Mandigo Bloss, B.S., Student Financial Aid Supervisor
Gertrude Ramsey Bailey . . . . . Recorder

STUDENT CENTER AND YMCA
John R. Roy Cooper, M.A. . . . . General Secretary, YMCA
Nash Newton Gray, B.S. . . . . Assistant Secretary
Otis Duell Nelson, B.D., M.R.E. . . Assistant Secretary

STUDENT PLACEMENT
Davis Gregory Hughes, M.Ed. . . . Director of Placement and Coordinator of Counseling

STUDENT HEALTH SERVICE
Judson Elam Hair, M.D. . . . . Dir. of Student Health Service
John Charles Barnett, M.D.— . . . Associate Director of Student Health Service
Roy Hames Ellison, M.D. . . . . Consulting Psychiatrist
Evelyn Littlejohn, R.L.T. . . X-Ray and Laboratory Technician
Ruth Durham, R.N. . . . . Director of Nurses
ATHLETIC STAFF
Frank James Howard, B.S. Athletic Director and Head Coach
Robert Cole Bradley, B.S. Athletic Publicity Director
James Brennan, B.A. Assistant Basketball Coach
Fred Cone, B.S. Assistant Coach
H. C. Greenfield, M.S. Track Coach
Fred W. Hoover, B.S. Head Trainer
Robert Morgan Jones, B.S. Assistant Coach
R. P. Jordan, B.S. Assistant Football Coach
James Banks McFadden, B.S. Assistant Coach
H. C. McLellan, Jr., M.S. Assistant Business Manager
Christopher Columbus Roberts, Jr., A.B. Basketball Coach
Robert William Smith, B.S. Assistant Coach
James Donald Wade, B.S. Assistant Coach
Billy Hugh Wilhelm, A.B. Baseball Coach
and Director of Intramural Sports
Eugene Perritt Willimon, B.S. Business Manager

DEPARTMENT OF BANDS
John Harrison Butler, M.F.A. Director

ADMINISTRATION OF BUSINESS AND FINANCIAL AFFAIRS
Melford A. Wilson, B.S. V.P. for Business and Finance and Comptroller
Kenney R. Helton Internal Auditor

ACCOUNTING DIVISION
Trescott Newton Hinton, B.A. Chief Accountant
Melvin Eugene Barrette, B.S., Supervisor of Research Accts.
Vivian Raymond Harrell IBM Supervisor
William Allen Thompson, B.S. Accountant
Joseph Shelor Walker, B.S. Bursar

PERSONNEL DIVISION
John Baker Gentry, Ed.M. Director of Personnel
Charles Wallace Lott Job Analyst

PHYSICAL PLANT DIVISION
Ralph Simpson Collins, B.E.E., P.E. Dir. of Physical Plant
James Cleveland Carey, B.S. Superintendent of Grounds
Francis Furman Dean, B.S., M.E., P.E.—Superintendent of Planning and Engineering
William Lieben Meigs, B.S.E., P.E.—Asst. Superintendent of Planning and Engineering
Roy Marcus Rochester, B.E.E. Plant Engineer
George Carlisle Jones, B.S. in E.E., Superintendent of Utilities
Jack William Weeden Chief of Security

PURCHASING DIVISION
Earl Spencer Liberty, B.A. Director of Purchasing

AUXILIARY ENTERPRISES
Henry Hughes Hill, Jr. Director of Auxiliary Enterprises
James Pearson Burns University Photographer
Luther J. Fields, B.S. Manages, Student Food Service
William Cromer Supervisor, Central Office Services
Ralph Elmer Leyman, B.A. Assistant Dormitory Manager
Thomas Roy Thymes Manager, Laundry
Henry Wordsworth Rimmer Manager, Dormitory
Ernest Chisolm Watson, B.S. Manager, Housing

ADMINISTRATION OF DEVELOPMENT
W. Wright Bryan, B.S., Litt.D., LL.D. V.P. for Development
Joseph E. Sherman, B.S. Dir., Public and Alumni Relations
George M. Moore, B.S. Assistant to the Director, Alumni Relations
B. Brent Breedin, B.A. University Editor
Fred C. Mohrman, B.A. Editor, University News Bureau
Paul B. Sullivan Alumni Editor

MARY HOOD, Head Resident of Women’s Dorm Number One

LUCILLE CORLEY, Head Resident of Women’s Dorm Number Two

ERNEST C. WATSON, Manager of Housing
LUTHER J. FIELDS, Manager of Food Service

JOSEPH S. WALKER, Bursar

FRANK J. HOWARD, Director of Athletics

J. W. GORDON GOURLAV, Director of the Library

D. GREGORY HUGHES, Director of Placement and Coordinator of Counseling
SYBIL R. ALBERT, Secretary to Dean of Student Affairs

VIRGINIA S. HARDIE, Counseling Psychologist

PEARL I. SULLIVAN, Hostess of Student Lounge

SARA MARGARET POOLE, Student Counselor

JACK W. WEEDE, Chief of Security

SYBIL R. ALBERT, Secretary to Dean of Student Affairs
FACULTY

An integral part of any university is its teachers, and here at Clemson we are provided with a competent, understanding faculty who give much of their extra time to helping students.

This year fifty-eight new faculty and staff members joined the academic and research divisions of Clemson. The new faculty contains graduates and undergraduates from sixty-seven different colleges and universities. The total faculty now numbers 399 and, of these, 239 hold the highest degree available in their special field.

Clemson's faculty performs not only the valuable service of teaching but, also, of research in South Carolina's agricultural problems, in highway problems, in health problems from arthritis to cancer, city planning, air pollution, new product development, history, literature, and education. Research is underway for the National Science Foundation, the National Institute of Health, the Army, the Air Force, NASA, and other agencies devoted to the welfare and defense of the United States.

A Clemson student should be proud to be taught by the capable professors of the Clemson faculty. Many advise student organizations, publications, and fraternities. Sometimes this is not an easy task, and the students realize this and appreciate their help and advice.

President Edwards summed up his thoughts about the faculty by saying, "In brief, they are a cosmopolitan, dedicated, highly trained group of men and women. They believe in America, in South Carolina, and in the education of youth. They are the proudest possession of the University."
Capable Deans Provide Outstanding Leadership

GRADUATE SCHOOL
GRADUATE SCHOOL

The Graduate School embraces a part of all of the various schools of Clemson University and is headed by Dean Victor Hurst. There are over four hundred graduate students at Clemson, over one hundred of whom are enrolled in the various doctoral programs. In the past several years the Graduate School has shown very healthy increases in size and in the number of programs offered; the number of graduates having grown at the rate of twenty percent a year. The most recent addition to the program is a doctoral degree in Mathematics, and soon there will be a doctoral offered in Electrical Engineering. In 1965, Clemson granted the first Doctor of Philosophy in engineering ever awarded in the State of South Carolina. This was awarded in the department of Chemical Engineering.

More than three hundred of the four hundred graduate students received financial assistance through various fellowships, traineeships, and graduate assistanceships. Among the organizations offering these fellowships are the National Aeronautics and Space Administration, National Science Foundation, National Defense Education Act, and the Public Health Service.

The largest number of students are working in the fields of chemistry, physics, mathematics, entomology, zoology, chemical and civil engineering.

Clemson also boasts a number of inter-disciplinary graduate programs in which there is a diversion out of the pure subjects of one school and a cross between the departments of the various schools. These programs offer the graduate student a number of diversified courses which will broaden his education in a chosen area. A few of these degrees are Water Resources Engineering, Animal Physiology, and Environmental Systems Engineering.
Experiments are an asset to learning.

Exactness in measurement is essential when compiling any experimental data.

An analog computer intrigues Dr. Stanley and a graduate student.

Close attention to detail is important in conducting an experiment.
Clemson Alumni Association
Dedicated to Serve Clemson

Clemson University is a point of fierce pride with Clemson alumni. Recent years have been a remarkable translation of this pride into a significant program of support for the academic mission of the University.

The Clemson Alumni Association's Clemson Alumni Loyalty Fund is a living endowment program of annual alumni giving. It seeks to insure a measure of Clemson greatness beyond the limitations of state appropriations.

The Loyalty Fund finances the operating costs of the Alumni Association and, in addition, makes annual grants to educational programs for which state appropriations are non-existent or entirely inadequate.

In nine years the Alumni Fund provided more than $535,000 for such educational activities as undergraduate scholarships, graduate fellowships, faculty research and development, professorships, student loans, library additions and for the Permanent Endowment Fund of the University.

And as they seek to serve the educational University, Clemson alumni have not overlooked their responsibility to also serve the students as students. In 1959, a Loyalty Fund grant of $500 was made to the student government organization to permit an expansion of these activities. Subsequently five grants of $1,000 each have been made for the same purpose.

Alumni reminisce over "the good ole days."

HENRY C. COLEMAN, President

J. STUART LAND, Vice-President

THOMAS E. THORNHILL, President-Elect
FALL FEATURES

Because of the change in the semester system, the students came back at what seemed like the middle of the summer with quite a few apprehensions concerning the new semester system.

After a week of matriculation, registration, and frustration, the upperclassmen began concerning themselves with orienting the rats in proper fashion. In just a few weeks football season started and all the students thronged into Death Valley to see the Tigers soundly trounce North Carolina State. Of course from this moment all students were looking forward to the climax of the fall semester—the game with the University of South Carolina.

With the football season also came big dance weekends. This year the Central Dance Association added two dances to the fall semester schedule to give all students a well-rounded semester with entertainment to please everyone.

Homecoming and Tigerama were bigger and better than ever before, and the displays were enjoyed by all visitors.

Before anyone realized it, Thanksgiving holidays were over and it was time for exams. With exams over and a month of holidays to look forward to, Registration in the summer did not seem as bad.
Typical Lines Mark Another Registration Period

Tension, pressure, pain, and a few other feelings of anxiety, frustration, and weariness prevade the atmosphere as a new semester began. Only the unknowing freshmen, who arrived early to begin the usual orientation of classes and campus activities, showed hopes of a smooth-running registration period. All seemed to be going fine as they began this new phase of their lives.

However, all delusions of a perfect year were dispelled when, after receiving their schedules, they learned from upperclassmen that they had the hardest teacher in the department, or when they found that they had classes scheduled until noon Saturday. It is marvelous how adept the professors have become in knowing how to schedule classes at the most unreasonable and unpleasant hours.

Associated with registration is the mad rush for used books and the long lines into and through the book store. Only now do the students fully realize that the summer is over and that there will be a long, hard winter ahead with very few relaxing breaks.

This year the enrollment of Clemson University reached an all-time high of 5,022 students. This includes the women in the dorm as well as 53 women in the nursing training who come from Anderson each day.

After the actual registration period has been completed there are many students who drop or add courses in order to get out of that 11:00 o’clock Saturday class or get into a section with an easier professor.
The dynamic Temptations capture the audience.

Students take break to enjoy the music sung by Barbara Lewis.
Shaved Heads, Orange Hats Mark Rat Hop Success

The Central Dance Association of Clemson University presented one of their finest dance weekends for Rat Hop 1965. This traditional weekend is the first chance for Clemson "Rats" to show off their new way of life to their hometown sweethearts. Rat Hop is the first of many great weekends that will be offered to them during their stay at Clemson. Of course, Rat Hop is not only for freshmen; upperclassmen enjoy the weekend festivities also.

On Friday night, Clemson gentlemen and their dates were treated to the vibrant sounds of Miss Barbara Lewis thrilling everyone with her greatest hit, "Baby I'm Yours."

Saturday night brought on the fabulous Temptations. This group, one of the most popular vocal groups in the country, rocked the audience with such great hits as "My Girl," "Girls—(Why you want to make me blue)," and many more. People who were there are still talking about the tremendous show the Temptations put on that evening.

Rat Hop has become a tradition at Clemson. It is the beginning of that part of college life which is not associated with books and long hours of study. Many fond memories linger on after that first Clemson dance weekend, memories that will not soon be forgotten.

A rat admires his date as she inspects his new hair style.

Bare heads fill the dance floor for Rat Hop.

The Temptations demonstrate the various motions involved in a performance.
The "Rowdy Deacs" make last minute preparations.

The award winning girl dorm shows admiration for a neighboring school.

The cheapest two hours of entertainment in South Carolina.

Wouldn’t Be Homecoming Without Tigerama

Members of SKE make beautiful Go-Go girls.
Each year on Friday evening of Homecoming weekend the Blue Key National Honor Fraternity sponsors Tigerama. This spectacular production features the finest talent to be found on campuses throughout the state, plus the best to be found on the Clemson campus. This evening is highlighted by the competition for the best skit. The different organizations on campus present some original comedy to the delightment of the audience, ten thousand strong.

The events of the evening culminate with the largest fireworks display in South Carolina. The skies are brightly lit with the tremendous skysrockets, and their explosions rock the audience with their deafening roar. The fireworks display is a brilliant finish to a great show.

Tigerama is another of the great traditions of Clemson University. It is an example of what tremendous school spirit can do for a university. It is handled completely by the students and made possible by their hard work. Tigerama represents just another facet of the great Clemson heritage. It brings the students that much closer to their alma mater.

Student Presentation Comes on Homecoming Eve

Nina Dulin was crowned "Miss Clemson" at the conclusion of Tigerama.
"Everybody Say Wheel!" Friday Homecoming '66

Little Anthony brought true showmanship to C. U.

The Gauntlet, Clemson style.
A variety of music was offered at the Saturday night dance.

Good Times, Date, and Good Game-Homecoming

Homecoming weekend holds something special for everyone. For the football players and fans it is one of the biggest games of the year. For the girls who have been invited up to see the campus, it is Clemson University at its best. There is Tigerama on Friday night with its wide variety of skits and sparkling fireworks display. There are the Homecoming displays all over the campus which add an air of gaiety to the weekend. For the gala social events of the weekend there are the two CDA dances.

On Friday evening, the Central Dance Association presented the world famous Platters. Memories of old were brought back by such great hits as “Twilight Time,” “The Great Pretender,” and “My Prayer.” On Saturday evening, another widely-known group performed at Clemson—“Little Anthony and the Imperials.” A livelier group could not be found anywhere. They seemed to sing everybody’s favorite song. It was a wonderful finish to a truly great weekend.

Homecoming is Clemson at its finest. School spirit is at its highest pitch; and an air of carnival excitement prevails all over the campus. It has been said that the success of the weekend is dependent upon the outcome of the game. But win or lose, everyone enjoys Homecoming.

SPRING FEATURES

The spring semester at Clemson begins immediately after the month-long Christmas vacation. Then comes the long haul with the books, for now there is no semester break, and only Easter looms far away in the distance as the nearest holiday. The Clemson man does not let his books overpower him, however, as education isn’t completed solely in the classroom.

Rush Week starts the first week of registration, and the fraternities hustle to get the best boys on campus. Then Midwinters kicks off the second social season. A trip to Highlands on Saturday for skating highlights the fun for many.

Spring practice begins for football players, and spring sports teams schedule regular contests. The junior class puts on the annual Follies, and the Concert Series plays to full houses.

Spring Hop brings more entertainment, and Clemson men introduce their girls to Hartwell Lake for skiing and sunning. The fraternities put on their week, and then all seniors put away their frustrations on Senior Day.

Junior-Senior ends the CDA’s social year, exams are here almost immediately, and another school year is over.
Clemson's newest frat, Alpha Gamma, put on a good first year rush.

Rush '66 Starts Semester

DPK wind up rush week with a dance Saturday night.

I'm sorry Charles you can't rush if you are already in a fraternity.
The 1966 Inter-Fraternity Council Rush came at the beginning of second semester. The nine social fraternities are a part of the new Clemson. They are local, none being affiliated with any national organization. A meeting is held at the beginning of second semester to inform all rushees of the rules and procedures of IFC Rush Week. Open smokers were held by each fraternity immediately following the meeting. Invitations were later issued to rushees who showed a sincere interest in their organization, and who the fraternity brothers considered to be acceptable as members of their brotherhood. Each rushee, in order to be eligible to pledge, had to visit at least four fraternities the first night, and at least two the second. Individual parties were held on the weekend. The fraternities were allowed to have paid entertainment at these parties. Rush girls from other colleges, who met and helped entertain the rushees, were also allowed to come to the parties. Quiet hours were held on Sunday afternoon; and Monday morning bids were extended and accepted. Nearly 300 boys went out for rush and over 200 boys accepted bids.

Rush Season Fills Vital Part of Fraternity Life

Smokers are a vital part of rush week.

D. W. seems to be more interested in the rush girls than the rushees.
Cold Winds Fail to Thwart Spirits at Mid-Winters

Mid-Winters was eagerly awaited by all Clemson students this year, as it was the first dance weekend held since Homecoming in October.

"Jay and the Americans" opened the dance weekend festivities with a concert in the field house. This singing group is well-known for its popular hits like "Only in America," "Sunday and Me," and "Caramia Mine." The concert was a tremendous opening for an unforgettable dance weekend.

Following the concert, the students found their way to the different late parties held in the Clemson area. The rest of the night was spent at these more informal affairs held by the fraternities and other student groups. Clemson's men and women found this to be a fitting highlight to the weekend's first day.

Saturday's activities did not start until that night, giving the students a chance to rest after Friday's hectic beginning. "Otis Redding's" show and band provided the entertainment for the dance. The couples spent an enjoyable evening listening to such Redding hits as "Security," and "Respect."

The weekend proved typical of the dances which have played a vital part in Clemson's social functions.
Jay and The Americans come back for another encore.

Out-of-town dates?????

Jay and The Americans brought "culture" to Clemson University.
Neal and Laurie take full advantage of the cocktail hour.

Whitney has his first piano lesson.

Coeds and Bachelors no More

Jimmy and Nica spend much of their time studying.
There are more married students on the Clemson University campus than ever before. Most of the husbands are either full-time students or graduate students. Many of the wives who do not attend college themselves either work in nearby towns or are employed by the different departments of Clemson University. This extra money comes in handy at the end of the month when the numerous bills come in. Most of the couples either live in prelabs or in apartments on or near the campus. Most of these apartments are furnished by the married students themselves. These couples have the pleasure of sharing and learning together. They learn to budget their time and money wisely, and they gain great knowledge of efficiency in homemaking.

These couples have formed their own organization, which is called "Married Students Association." All married students may belong and this club attempts to promote better understanding and fellowship among the married couples. Many couples get together in their spare time and play bridge or get together for an evening of relaxation.

The married students provide a very helpful service to Clemson students. They keep unmarried students' dates in their home on dance weekends.

Going to college and getting an education can be successfully done.

Two Live as Cheaply as One; Only Half as Long
Junior Follies Bring Needed Break to Routine

Junior Follies 1965 was, as its predecessors were in the past: a tremendous success. The Follies, produced and directed each year by the Junior Class, is an off-the-cuff variety show characterized by pretty girls dancing and singing folk music at its best, and male vocal groups singing the latest popular recordings. The sounds of Junior Follies are unusually good: the evening, extremely enjoyable.

A great deal of work went into the planning of Junior Follies 1965. The time and effort spent by those industrious Juniors was evident by the smoothness with which the program came off. It was a job well done.

One of the interesting characteristics of the Follies is the importation of talent from the other institutions of higher learning throughout the state. These groups represent some of the finest talent available in the Carolinas as can readily be seen by those who attend this entertaining event.

Junior Follies has become a tradition at Clemson, and like her other traditions, it is an experience in excellence. It is a production well worth seeing and one that will not soon be forgotten.

Much feeling is put into Junior Follies.

An amateur magician performs many astounding tricks for the troops.
Pearce and Kinnett Emcee as Regulars at Follies

Kappa Delta Chi, winners of Fraternity sing, perform at Junior Follies.

The Cow College Cloggers show true clogging style.

Zoric and S. E. entertain the troops between acts.
Greek Week Means Good Fun for All Fraternities

The annual highlight of fraternity life at Clemson is the presentation of Greek Week, sponsored by the Inter-Fraternity Council of the University. The competition and fun is shared by all of the fraternities.

The week opens with a bridge tournament and closes with the IFC Dance attended by all of the fraternities. Occupying the remainder of the week are such events as the Fraternity Sing, athletic competition, Friday night parties held by the individual fraternities, and the hectic Greek Olympics on Saturday afternoon.

Special attractions of the IFC Dance are the selection of the Greek Goddess and the Greek of the Year. The latter is an award for the individual who is considered to be the most outstanding fraternity man of the year. Each fraternity sponsors a nominee for Greek Goddess, who is determined by a panel of judges. Also, at the dance, a trophy is awarded to the fraternity which is considered the most outstanding in all phases of fraternity life. The selection is based on a conclusive point system. Greek Week is a festive and enjoyable occasion which promotes interfraternity spirit and fellowship. It is an important contribution to the social life of Clemson University.

Numeral Society holds off DPKs.

Go to it ... orange passing that is.

TAPS Jr.-Sr. Marks End of a Year of Hard Work

Taps' staff ends hard year's work by giving out the new publication.

Dag Walton prepares to entertain for Taps Jr.-Sr.
Another Book is Distributed

An air of anxiety prevailed as students awaited the arrival of their dates for the final big dance weekend—the Central Dance Association's annual Taps Junior-Senior. The Clemson students made the most of this weekend, their last chance to make a "big Fling" and to release tensions before final exams and the end of the year. For many seniors this was their last social gathering. The dance weekend opened Friday night in the field house with a formal dance presented by Dag Walton and the Continentals. The music was soft and dignified and provided a different atmosphere than the music that was to come Saturday night. During the intermission of Friday's night dance, the Taps staff proudly presented its yearbook to the faculty in the Taps lounge. Members of the administration enjoyed the opportunity of seeing certain portions of the book, such as the cover, Mrs. Taps and Miss Taps before it was presented to the student body. On Saturday activities began with the annual Jr.-Sr. banquet held in the dining hall. The Saturday night dance was enhanced by the music of Dionne Warwick. Her style of music appealed to all who attended the dance and everyone was left with the memory of one of the best dances here at Clemson. When the CDA dances were over, the usual house-parties and fraternity parties were held. Sunday marked the end of the social activities and the resumption of studies.
Education being of prime importance in this day and age, the Clemson Senior has spent the last four, five, or more years in diligent study preparing himself mentally for that hard existence known as life in this world. Senior day is that special time set aside for those students who have reached the top, but who must soon start again at the beginning. It is a day of festivity, of carefree attitudes, attitudes that soon must be put to the supreme test. But that time is still a long way off, and for the seniors a break is due. A break in which the rigid demands of a senior curriculum can be briefly set aside. A day of rest and relaxation characterized by wine, game, and song. It is a day of fellowship between departing seniors who soon will be going their separate ways. It is a true experience in friendship, one that will not soon be forgotten.

Senior Day has been criticized by some who feel that its carefree attitude toward rules and regulations is detrimental to the characters of the students. It should be pointed out in its defense that it offers the senior their first free hand, a free hand that they must soon learn to exercise wisely on their own.

Senior Day is, in a sense, a parting expression of a group of students arising at last to throw away the bounds of study, and for once enjoying a day of calm serenity.

Senior Day Brings Once in a Lifetime Merriment

It is not who wins, but how you play the game.
Who said it was impossible to catch a greased pig.

I Had My Jug a Minute Ago

Bell seems to be enjoying all aspects of Senior Day.

Steve begins the climb to the top.
Lines begin to form for graduation exercises.

Senator Rivers gives a meaningful speech.

Dignitaries begin the procession to the Amphitheater for graduation.
Graduation is a time of change. It is the birth of one dream, and the death of another. It’s reaching the top and having to begin all over again. It is a walk to a stage only a few feet away that never ends after the first step. It is looking back and remembering what it felt like to walk up a hill a thousand times and each time to walk heavier and surer. It is meeting the biggest challenge of a lifetime and then facing a bigger one. It is the fullness and warmth of a firm handshake and the emptiness of a lost possession in life that is gone with the last tear. It is leaving behind student responsibilities for professional ones and discovering that quizzes were not so bad after all. It is trading blue jeans for tweed suits and briefcases. It is the continuation of a tradition for some and for others only the beginning. It is reflecting on the mistakes, but still enjoying the successes. It is being alone in a crowd. It is watching dust settle on the past and seeing it lie still. It is a time to die and a time to live. Graduation is a time to change and to go forward. Graduation is all these things and more. It is, of course, a great accomplishment in life, but it is only a forerunner of greater things to come. It is a brief experience, but one with lasting effects that help to shape an individual for the future.
ACTIVITIES

Students attend Clemson for a definite, clearly understood purpose: to train their minds and develop their characters in preparation for lives of usefulness and leadership in whatever fields they choose. Clemson offers the student the opportunity to work effectively toward this goal. However, the University believes in the development of the whole person. Opportunities are available here for participation in various extra-curricular activities spanning many fields. The Clemson student chooses the ones which fit his talents and inclinations, and he participates enthusiastically.

Variety is the chief asset of Clemson's activities. Every varied taste to be found on a university campus can be satisfied by one of the many activities available. The University believes that student organizations should be an extension of the classroom, and should assist in the development of leadership, of cooperation with fellow students, of service to the institution, and the improvement of social graces.

Clemson activities attempt to bring together the people on our campus who have come from various parts of the nation and to unite them in a common cause for the betterment of the University, as well as the individuals.

The Clemson student can find enjoyment in doing something that will benefit the University by accomplishing something that will remain long after he is gone.
TAPS Staff Strives for Continued Excellence

**Taps**, the Clemson University yearbook, presents the school with an unbiased review of the memories that are typical of Clemson. These are the memories that will be kept by Clemson men as long as they can turn the pages of their **Taps**. Such memories as the Carolina-Clemson clash on the "gridiron," the "Rat" season, Mid-winters, Greek week, Junior-Senior, and other activities are held forever within the covers of **Taps**. All phases of school life are shown with the hope that nothing will be forgotten.

**Taps** Senior Staff is truly an achieved position. Many long hours go into a yearbook, and each staffer does his part to produce the best **Taps** ever. But before the honor of Senior Staff, there must be the working and training of Junior Staff. This important part of **Taps** comes from attending selective drop-ins at the first and last of every year.

**Taps** has long proven itself as one of the best in its field. For the last three years **Taps** has achieved the "all-American award" which is the highest rating given by the National Collegiate Press Association. **Taps** has also been awarded the "Best Yearbook Award" from the South Carolina Collegiate Press Association for the past several years.

**Taps** is here to help you save the memories of your stay at Clemson. We of the **Taps** Staff hope that this book will mean as much to you as it does to us. We enjoyed designing it; we enjoyed putting it together; and now in looking back, we enjoy presenting it to you.

Jack gets valuable hours tracing.

Junior staff photographers print photos on enlarger.
The Taps Junior Staff is composed of a handful of hardworking students who give their spare time to work for the Clemson yearbook. For the Junior Staff it is a chance to "round themselves out" while performing a valuable extra-curricular activity.

The job begins at a drop-in at the Taps office, and from the participants a Junior Staff is chosen. After selection, a Junior Staffer finds that he must prove his merit by performing the thousands of small jobs that go into creating a yearbook. The range of these jobs encompasses anything from washing floors to selling advertisements and writing copy. The staffer devotes many hours to such things as tracing, proof-reading, typing, revising, and copying.

In addition to the work, a Junior Staffer takes time out to attend the houseparties and drop-ins with the Senior Staff. In a more intangible way, he discovers that, after the hard work is over, he has accomplished something very great indeed. He has helped to capture the experiences of a school year and has become a small part of Taps.

Tiger Senior Staffers
Edit Weekly Newspaper

The Tiger, Clemson’s student newspaper, gives the current facts and opinions of the events of interest to every student on campus. Its first duty is to inform the students through news, editorials, and features, of campus events. The Tiger also serves as a coordinating element between the alumni, students, faculty, and student body.

The Tiger holds a unique place on the Clemson campus in that it is uncensored. This is a tribute to the administration of the University, in that they do not attempt to channel the thoughts of the students into “acceptable” patterns.

The Tiger is a weekly publication which comes out Friday morning. The staff spends long Monday, Tuesday, and Wednesday nights of every week bringing Clemson students their newspaper. Coordinating this effort is a group of nine Senior Staffers who compose the editorial staff of the paper. Each Senior Staffer heads a Junior Staff, and he must see that his staff does its job. Through their efforts, the Senior Staff sets the policy of the newspaper. At the year’s end they select their replacements from the Junior Staff.
Tiger Junior Staffers Serve Apprenticeships

The weekly publication of the Tiger is largely a result of many hours of work by the Junior Staff. The junior members are the backbone of the staff doing the majority of the actual work, while the senior staffers coordinate and direct the working schedule.

To be a member of the Junior Staff, the student must first be interested in journalism. Secondly, he must be motivated by a sense of responsibility and a willingness to work. Some of the responsibilities of the Junior Staffer are typing, composing, copy-reading, cleaning the staff office, running errands downtown, and distributing the Friday morning paper. A staffer's most vital job is selling the advertisements necessary for the successful operation of the Tiger.

The Junior Staff’s effort not only insures that the Tiger will “roar” for Clemson University every week, but also that it will continue in the future. The experience gained here will lead to a more vital role as Junior Staffers advance to the Senior Staff.

Chronicle Exemplifies Progressive Movements

Having been revived in 1961, The Chronicle is Clemson University's only student variety magazine. In the past few years it has consistently won top national awards.

Originally organized in 1897, The Chronicle was published until the 1930's. After a long layoff, the magazine was revived in the spring of 1961 by interested students and faculty of the Calhoun Literary Society. Very soon thereafter, The Chronicle regained its independence from the Society and has risen steadily to its present popularity and national recognition.

Having operated for a while from the mysterious basement of the Geology building, The Chronicle now has its main office in the Student Center, and publishes three times a year. All copy, layout, and photographic work is done by the staff in its effort to encourage literary and artistic talent which seldom finds true expression in the routine classroom. Staff positions are available to all qualified and interested students of Clemson.

Occasionally contributions are accepted from a member of Clemson's faculty on special stories. Also, special layout and photographic essays are often done on subjects of particular interest to Clemson students. Finally, articles on progressive subjects such as Clemson's Jabberwocky Society and Bluegrass Music Festivals also grace the pages of The Chronicle.

Look for the Red "O".

Blue Key Aids School
With Handy Directory

With service as its goal, loyalty as its ideal, and character as its foundation, the Blue Key National Honor Fraternity continues to perform its duties through the seniors and rising seniors in its membership who have displayed a desire for these qualities.

One of the services rendered annually by the Clemson University Chapter of Blue Key is the compiling of a directory of faculty, staff, students, and student organizations. It would be impossible to publish the directory without the help of the members of Blue Key.

The Blue Key Directory consists of not only the directory of all the students here at Clemson, but also a University calendar, a departmental telephone directory, an alphabetical telephone directory, student body officers, dormitory supervisors and monitors, a list of student body organizations, and a list of the telephone numbers of girls' schools frequently called by Clemson men.

It is certain one will find the Blue Key Directory a big help in looking up the dates of games, dances, exams, or almost anything connected with the University. Without this helpful publication, Clemson students would spend many extra hours searching for the information handily packed in this book.
"Y" Handbook Compiles Facts on Campus Life

The YMCA Handbook is published by the Clemson YMCA as a service to the student body. It is designed to be a source of information that the typical Clemson student might need during the school year.

The book is published annually at the first of the fall semester. In this way, it is probably more useful to entering freshmen than to other students. By using the handbook, one can easily become acquainted with Clemson. The book contains a short history of Clemson's beginnings, its progress, and its traditions. At the same time, it has something to offer all Clemson in the way of information about their University.

Included in the publication are descriptions and pertinent photographs of campus organizations; information about athletics, concerts, student services, and campus churches; and a brief description of the functions of the various segments of the University administration. It also contains a copy of the student body constitution and by-laws, a map of the campus, and a calendar of the school year.

The work involved in compiling the book is done entirely by a staff of Clemson students, which is headed by Jim Jensen, editor. Mr. J. Roy Cooper is the advisor to the group.
CDA Senior Staff Bills Top Name Entertainers

Social life at Clemson reaches its peak each time the Central Dance Association presents popular dance entertainment for University students. Clemson University has long been well known on other campuses for its excellent dance weekends. The CDA has the sole responsibility of presenting popular entertainment for Clemson dances. Each year the CDA presents at least five University-wide dances. This year, however, the CDA added two dances, the Freshmen Mixer, which started the social season off for new students at Clemson, and a dance, which was added on a trial basis, for one of the football games of the first semester. The CDA is also responsible for concerts on dance weekends when there are no football games. These concerts provide listening entertainment for Clemson men and their dates on long Saturday afternoons.

The CDA is made up of eight Senior Staffers and sixteen Junior Staffers, all Clemson students. Members of the CDA are responsible for the organization and also the execution of the dances. Many long hours are spent in preparation for each dance in order to ensure that each student receives the maximum in entertainment. Well known performers like Dionne Warwick, the Temptations, and many others have appeared at this year’s dances.
WILLSON D. RIGGINS, Decorations Chairman

LEWIS S. HORTON, Floor Chairman

EDWARD S. TENNENT, JR., Placing Chairman

TALBERT V. PEARCE, Alternus
The Temptin' Temptations deliver Smokey Robinson's greatest hit, "My Girl."

Clemson students are enthralled by the sensitive sound of Miss Dionne Warwick.

Big band sounds entertain at Rat Hop.
Will Busch does painting on Midwinters decorations.

Barney stares in amazement at the snowflake he cut for Midwinters.

Dance Association Work Falls on Junior Staffers

The eight members of the Central Dance Association are responsible for signing entertainment for Clemson dances. However, the real task of putting on successful dances goes to the sixteen CDA junior staffers. These sixteen boys take care of all aspects of the dances, including selling tickets, handling publicity, preparing decorations, and finally actually running the dances under the supervision of a senior staffer. Often one junior staffer alone puts in over seventy hours on a single dance, for which the only reward is the possibility of eventually becoming a senior staff member. In fact, the junior staffers often do not even get to enjoy their own dances, as their duties at the dances many times force them to leave their dates to amuse themselves. The sixteen junior staffers are chosen each year at a drop-in open to all students. Probably the hardest job for CDA senior staffers is to pick the next year's senior staffers to follow behind them.
WSBF Senior Staff Programs Professional Sound

Radio Station WSBF is Clemson University's own broadcasting system. A 10-watt FM and AM closed circuit operation, WSBF is managed and staffed entirely by Clemson students. The station offers an excellent opportunity for those interested in radio announcing, program organization, script writing, and engineering. Positions are also available in news coverage and sports fields, as well as special features staff positions.

Now in its eighth year of operation, WSBF is at present affiliated with the Inter-Collegiate Broadcasting System on the national level, as well as the South Carolina Broadcasting Association, a statewide group. Due to the shift of the semester system at Clemson, the station has been forced to discontinue its annual Christmas Safety Marathon. However, this award-winning production has been more than replaced by the acquisition of additional equipment which has allowed WSBF to become South Carolina's only twenty-four hour FM sound. The station now operates on an around-the-clock schedule of good music and up to the minute coverage of local and world events.

The daily schedule for WSBF includes a Morning Watch Program for waking up to music, a "Big 88" afternoon show featuring the top tunes in rhythm and blues as compiled by local popularity charts, and an evening of quiet FM programming for the studying Clemson students.

WSBF continues to offer the Clemson gentlemen the best in all-round radio listening as presented by an almost professional staff of students who devote much time to bring this important service to the University.

JOHN D. MATTHEW, Business Director

N. JEFF BORKE, Engineering Director

G. C. PUNDT, Program Director
R. DAN BOWEN, Continuity Manager

DAVID C. ROOF, Traffic Manager

J. AL MONTGOMERY, News Manager

J. B. B. DOZIER, IV, Production Manager

JOHN F. SHOUSE, Transmitter Engineer
Most students of Clemson who are interested in radio technology eventually find themselves on the WSBF junior staff. The junior staff has positions available to all interested students. Almost any talent can be used, from actual radio announcing to programming and covering local news events. The junior staffer is placed on one of the three organized sections of the radio station, either engineering, programming, or business. From there he may eventually work himself into a senior staff position. Actually, the purpose of the junior staff is to train new students to take over the positions left by senior staffers who graduate and leave their positions open.

This year, with the new operation of twenty-four hour radio service, the junior staff has even more added duties. At least one member of the radio staff must be in the office at all times, even if the late night shows are taped ahead of time.

Many junior staffers who are interested in becoming announcers spend many hours studying skills necessary to become a radio broadcaster. However, all junior staffers have as their constant goal a position on the senior staff. Each year the hardest working junior staffers realize their hopes after election of the new senior staff.

WSBF announcer keeps busy during “Starduster” program.

WSBF engineer does his best to keep equipment in top shape.

Production manager John Dozier reviews the script before WSBF program.

WSBF offers a great variety of music for student listening enjoyment.
Student Government Coordinates School Affairs

After a year of operation under its revised constitution, the Student Government of Clemson University is continuing in its excellent standard of providing a communication link for students, faculty, and administration. The Student Government is the student's voice in the coordination of Clemson University, for it gives the students a chance to participate in directing their own campus life.

The student body at Clemson elects the leaders of Student Government each year to the three branches of government: executive, legislative, and judicial. The student body officers and the four class presidents constitute the executive branch. Ten senators from each class make up the Student Senate which serves as the legislative branch. The judicial branch is composed of a system of various courts with the highest authority resting with the High Court.

The Student Government is constantly working to make Clemson University a better place for both faculty and students. Student health and accident insurance was sold by the Student Government to help raise funds for the Boys Home of America. Other projects include providing a student-wide tuberculin skin test and working with the Red Cross in the blood donation drive.

Student Government plays a vital role in the well-being of each Clemson student. It serves to represent all Clemson students in the best manner possible. Through the Student Government, Clemson University can continue to improve student, faculty, and administrative relations and understanding.
High Court is Most Powerful Judicial Branch

The judicial powers of Clemson University's student government are vested in the court system, and the High Court is the most powerful branch of this system. The High Court is made up of nine members of the Clemson student body, eight of which are elected at large from the senior class, and the ninth, who is automatically the vice-president of the senior class. In the hands of these nine boys rests the fate of any Clemson student who violates a serious Student Regulation. Although the names of students tried are never disclosed, the High Court has begun the policy of announcing cases and decisions in the cafeteria to deter students from further violations. In connection with the High Court, there are appointed three attorneys for prosecution and three for the defense.

HIGH COURT ATTORNEYS. Earle Smith, Ed Golubski, Danny Speights, Steven Goldstein.

JOE WALDREP, Chairman
Residence Courts Punish Dormitory Offenders

The judicial powers of the student body are vested in the Judicial Branch, which has jurisdiction over the student body in all cases involving violation of any student regulations and laws and all behavior bringing discredit to the university community.

Two segments of the Judicial Branch are the Men’s Residence Court and the Women’s Residence Court.

These courts have original jurisdiction over minor violations of student regulations concerning students in or related to the dormitories. The courts establish their own rules of procedure.

Each court is composed of five members. Three of the members of the court are elected by the dormitory residents in the spring of the year. The other two members are appointed by the President of the Student Body with the approval of the student senate.

To be eligible for candidacy for a seat on one of the Residence Courts, a student must have at least a sophomore classification as outlined in the Scholastic Regulations. The candidate shall not graduate prior to the expiration of his term and is required to sign an affidavit to this effect. Candidates must have as a minimum the required grade-point ratio for their class to graduate plus a .3. Candidates for election or appointment to these courts must be dormitory residents and must retain this status for the duration of their term of office.

SENIOR SENATORS

Student Senate is Legislative Voice of Campus

The Student Senate is the legislative branch of Clemson University's student government. It is composed of forty members, ten from each class, who are elected in school elections by class vote only. Working in conjunction with the faculty senate, it has the responsibility of drawing up and voting on all legislation which applies to Student Regulations and to Clemson’s Student Body Constitution. The Senate does most of its work through the standing committees of the Senate, which are the Traffic and Grounds Committee, Committee of the Judiciary, Student Organizations Affairs Committee and General Affairs Committee. Officers include a President, Chaplain, Secretary, and newly added Assistant to the Secretary, who is responsible for the voluminous amount of Senate paper work. The Vice-President of the student body also sits in on meetings to serve as a liaison between the legislative and executive branches of the student government. The Vice-President does not vote, however, except in cases of a tie.

This year a new innovation of the Senate is a Senate Suggestion box placed on the loggia for students to submit needed legislation to the senators. This presents the students with a chance to actively participate in their student government, other than the student elections, to further the improvement of the student government system.

Student Committees Aid in Executive Functions

There are five student committees of the Executive branch of Clemson's student government. These committees have as their purpose the support of the Executive branch in conducting the various functions of Clemson's Student Government. They are provided for and set up in the Constitution of the Clemson University Student Body.

Perhaps the most important of these committees is the President's Cabinet, which is composed of the four student body officers, the chairman of the Ways and Means Committee, and the presidents of each of the four classes. The Cabinet meets weekly to advise the Student Body President, and also must pass favorably on all Student Senate bills before they go into law.

The Ways and Means Committee is responsible for the allocation of funds to support the various activities on campus.

The Financial Review Board reviews all incomes and allocations from the Student Activities Fee.

The Attorney General gives legal advise to the Student Body President, represents the student body in all courts, and keeps official records for all branches of Student Government.

The Central Spirit Committee, formed only last semester, is an eight-member body whose purpose is to coordinate all activities relating to the preserving and enhancing of school spirit. The committee has been very active in promoting spirit this first year, especially at the home football games.
Francis Brown signs in at dorm office as one of the supervisor's daily tasks.

Monitor Bob Dixon writes out a "Poor" on room inspection for obvious reasons.
Hall Supervisors Perform Invaluable Services

Hall Supervisors are a group of dedicated Clemson students who are responsible for keeping the dormitories in satisfactory condition by the regulation of activities in the dormitories. The hall supervisor’s job is a rugged one, plagued by unknown freshman disturbances on the halls and disciplinary problems. However, the job is also rewarding, as the supervisors are often the unheralded leaders of their halls, and impressionable underclassmen look up to these boys as examples of the Clemson Gentleman. The hall supervisors undoubtedly play an important role in moulding the lives of the younger boys, especially through the freshman year. Thus, the supervisors help these entering Freshmen adjust to the sudden strangeness of college life.

Duties of the supervisors include weekly inspections of the dormitories, delivery of the Inter-office mail, and posting of any notices from the Office of Student Affairs on the hall bulletin boards. Hall supervisors also often organize hall athletic teams for school-wide intramural competition.

TIGER BAND SOLO TWIRLERS. Dynva Edens, Sandra Tarquino, Rebecca Farmer.

TIGER BAND SENIOR OFFICERS. FRONT ROW: Jeff Tisdale, Drum Major; Sam Ayers, Commander; Jim Goodwin, Sergeant Major. SECOND ROW: Joe Ruzicka, Supply Officer; Gene Singleton, Vice-Commander. BACK ROW: Buddy Crook, Color Guard Captain.
The Tiger Band is Clemson University's official marching band. The band provides halftime entertainment at all home football games and also travels with the team to most out-of-town games. This year the Tiger Band accompanied the Fighting Tigers on trips to the Georgia Tech game in Atlanta, the Georgia game in Athens, and the annual classic with the University of South Carolina in Columbia. The band also enjoyed an overnight trip to Chapel Hill for the clash with the University of North Carolina.

Under the sole leadership of John Butler, Director of Bands at Clemson, and Jeff Tisdale, this year's drum major, the Tiger Band provided excellent halftime programs featuring intricate maneuvers and exciting musical showmanship. Also featured were the Tiger Band Solo Twirlers, three lovely Clemson coeds: Dynva Edens, Sandra Tarquino, and Rebecca Farmer. The band was also responsible for direction and coordination of the annual Band Day held at halftime of the North Carolina State weekend. Mr. Butler's direction of the mass bands, accompanied by scores of drum majors and sparkling majorettes, was a tremendous success.

The band department also put on a dazzling show for Homecoming '65 and again financed the Homecoming Float through the sale of corsages. The Tiger Pep Band, a smaller group selected from the Tiger Band, appeared at all home basketball games and also took part in all football pep rallies.

Voluntary Tiger Band has Professional Quality

Mass bands spell out school name in culmination of football's Band Day.

Tiger Band performs for Wake Forest game in Death Valley.

Band gives impressive show for Georgia Tech game in Atlanta.
The Concert Band devotes its time to the study and performance of concert literature, interspersed liberally with selections from Broadway musicals, marches, and novelties. Frequent campus and tour appearances have given this organization a reputation as one of the finest concert bands in the area. Both men and women are eligible for membership in the group, and the instrumentation is selected to provide a well-balanced concert ensemble. The Concert Band is formed at the beginning of second semester from students who volunteer their time and talents.

The Concert Band is under the direction of Mr. John Butler, also the director of the Tiger Band, and is a part of the Clemson University Department of Bands.

The Clemson University Glee Club.
Christmas Performance

The Clemson University Glee Club is the place for students who like to sing.

Each year, the Glee Club is reorganized as seniors leave and new students enter Clemson. This year’s Glee Club consists of fifty members, among whom are fourteen coeds. During the year, the Glee Club puts on many performances in Clemson and the surrounding area. As would be expected, the Glee Club is best known in South Carolina, North Carolina, and Georgia; but they are no strangers in other surrounding states.

One of the highlights of the school year for members of the Glee Club is the annual concert with the Coker College Glee Club. Each year the two clubs combine to present a program of Christmas music in various places. Other highlights of the year are the Spring Concert and the Spring Tour. In addition, the Glee Club also appears on nearby television stations.

Members of the Glee Club say that these trips during the school year help to bring them closer together as a unit and thereby help them sing better as an entity. Last year’s trip to the World’s Fair is just one example of the type of trips that the group takes.

As a good glee club is necessary to an institution of higher learning, Clemson can be justifiably proud of the excellent service the Clemson Glee Club does for the University.

Newly-Formed Clemson Players Study Theatrics

The Clemson Players was established in the fall semester of 1964 under the direction of Miss Marie Binsse with the assistance of the Office of Student Affairs, and has high hopes of continuing to bring dramatic entertainment primarily to the students of Clemson and the University community. The Players work with the purpose of learning more about drama and stagecraft and of bestowing to the other students an opportunity to share the benefits that the theatre has to offer. The Players believe that drama and all that pertains to the historic arts is one way of educating. The Players are also willing to assist students in continuing with their interests in drama and the theatre. The Clemson Players also offer The Player Awards annually to those members who have done meritorious work in the several dramatic fields.

The Clemson Players want to be able to grow along with the other groups on campus; but their immediate goal is bringing theatre to Clemson University. Their eventual goal and the goal of all people interested in theatre is the establishment of theatre as a discipline in itself on the Clemson campus.

Members of the Players show mixed emotions during a meeting.

The Clemson Counterguerrilla Platoon was organized in September, 1962, with the purpose of enhancing the ROTC program by giving practical application to classroom instruction. The unit strives to aid students in keeping physically fit, since no physical education is offered at Clemson and since good conditioning is needed for the type of work the unit does. The group teaches the basic fundamentals of soldiering which can be of use throughout life.

Membership is limited to those enrolled in Army ROTC having at least a 1.9 GPR who are able to pass a physical training test by scoring 400 points out of a possible 500 points. Once accepted as a member, one must be willing to work in order to learn.

Two types of activities take place: physical and military. The physical activities include running, exercises, combatives, and an obstacle course. The military activities include patrolling, compass and map reading, ambush and raid techniques, hand-to-hand combat, communications and demolitions, and bayonet training.

The unit has made trips to Fort Benning to run escape and evasion problems and to the Dahlonega Ranger camp to run a night patrol against the Rangers. Trips are being planned for this year, as well as many short patrols and two long patrols in the general area around Clemson.

Army Counterguerrillas Study Combat Conditions

The Army ROTC Band sets the marching pace for the rest of the Army ROTC Brigade. This organization is vital to the execution of military functions. Select freshman and sophomore students constitute the Army ROTC Band. Most of the members have been in bands previously or are presently in the Tiger Band, thus giving a well-trained musical group.

In drills, parades, and other military functions, the Army ROTC Band leads the Brigade line of march while cadet leaders in the advanced ROTC program provide the guidance for the band. These junior and senior cadet commanders set the pace and advise the band in order that it might fulfill its duties with the usual high quality performance. The Army ROTC Band competes with other military bands when it makes various trips throughout the year.

The band has attained for itself a position of high regard, and the Clemson University Army ROTC program is fortunate indeed to have such a fine representation. Members of the Army ROTC Band are all volunteers, as their contribution is spurred by an enjoyment of good music and the desire to help develop the Clemson University ROTC program. This organization is bound by its determined and dedicated service and represents Clemson with dignity and honor.

Army Band Provides Cadence for Drill Maneuvers

Army ROTC Band poses on quadrangle before drill.
The Air Force Band is a regular drill unit of the Air Force ROTC detachment at Clemson. Membership is open to all interested Air Force ROTC students. The band performs at all drill functions of the Air Force ROTC as well as in band parades. The band rehearses only during the Thursday afternoon drill period scheduled for all cadets. Members must practice not only in regular class and drill but also on their own time to improve their musical playing and military marching. No scholarships or academic credit are given for band work, but the less tangible rewards of sharing service with friends of common interests have made membership a popular outlet for students.

Each Thursday afternoon the AFROTC Band plays for Air Force cadets to pass in review and also accompanies the color guard in the lowering and securing of Clemson’s American flag. The band provides all marching music for all Air Force cadet troop maneuvers and also participates jointly with the Army ROTC Band each year in the Honors and Awards Day Program.

The members of the band generally furnish their own instruments except for the more costly ones such as trombones and bass drums. The band is also commanded and conducted entirely by student officers.

Who's Who Selects Only Top Students on Campus

Who's Who Among American Colleges and Universities is a national leadership and honor organization which has been in existence since 1934. This organization has students selected from more than seven hundred and fifty colleges and universities in the United States. Recognition for this award is based upon character, scholarship, leadership in extra-curricula activities, citizenship, and promise of future usefulness to the business world and to society.

More than one hundred Clemson students were nominated for the available positions. Nineteen students were selected to represent Clemson University in the national publication, "Who's Who Among American Universities and Colleges." Clemson's list of Who's Who includes two students from last year's publication. The selection of candidates for Who's Who publication is determined by a committee of faculty, administration, and student representatives.

Selection to Who's Who is considered to be one of the most outstanding honors a college student can receive.
ATHLETICS

Athletics is the pride of a school. It is a unifying force around which its other great attributes can be built. Athletic events draw crowds. The weekly encounters of the varsity teams throughout the nation are the highlights of both local and national news media. Athletics makes heroes, or expels losers. The campus life of a school can either be further enriched or damaged by its athletic program.

Athletics is the one active link between a school and the school's alumni. For most alumni the only occasion for returning to their Alma Mater is an athletic event. It is a time when they can see the progress of the university and see the changes in its campus. As the core of school spirit was sports when they were still students, so it is the center of school spirit now that they are alumni. A successful football or basketball game can be the ingredient that insures continuous support from all of a school's students.

Athletics is a way of moulding and developing character. Whether it is on a varsity or intramural level, a student's participation in sports teaches him things which he cannot learn in a classroom. What he learns on a court or track, he can use in his real-life contests.
Senior Athletes

Pre-game spirit failed to subdue the Terps.
Senior Athletes

If there is one quality that makes an athlete stand out, or points him toward stardom, or just makes him a leader on the field, it would have to be experience. Experience is a quality around which a coach builds his team. He knows that the experienced performer will not fumble the football as much, or get called for walking as often, or drop the relay baton, or go for the bad pitch. The Senior Athlete has gained experience and commits fewer errors.

Senior athletes are the most respected group of boys on the team. They are the leaders that have been tried and proven through actual competition. These experienced performers feel a responsibility to the team. They must set a good example for the younger boys who look up to them for guidance and inspiration. When the pressure builds up on the field, it is up to them to hold the team together. They have learned that extra effort and desire are the ingredients for winning ball games; they are always there to give it all they have.

A Senior Athlete has the confidence needed to be a winner. He is a big man on campus to which the student body looks with respect and admiration.

Clemson Coaching Staff Inspires All

No matter what the sport, the athletes must have unity. At the beginning they are merely a group of individuals. To be successful they must be molded into a team. This is the job of the coaches. Whether the game calls for a field, a court, or a cinder track, a coach is needed to provide the guidance necessary to win in competition.

A coach is a father, a friend, a sculptor, and a leader. He molds a team to the paths of glory and suffers with it in the agony of defeat. Coaching is a strenuous job. A coach must, of course, teach them the style of ball he wants them to play. He must also scout his opponents so that he can give his team some idea of what to expect. A coach must also be a good recruiter. The bidding among colleges to recruit a good athlete is very competitive and the coach who can sell his program is usually the winner. A coach must also be able to instill in his players a desire to win. The coaching staff at Clemson does all of these things well. They have earned the Tigers a reputation of excellence in athletics throughout the country. A unique aspect of Clemson's coaches is that many of the coaches are Clemson graduates themselves.
Block "C" Club Promotes Athletics

The Block "C" Club is composed of lettermen from every sport in the Athletic Department. A student who wears a Block "C" sweater has the inner satisfaction of knowing his toil and labor have not been in vain.

The object of the Block "C" Club is to promote congeniality and friendship, foster clean sportsmanship in all branches of athletics, encourage conduct becoming a Clemson gentleman and a true sportsman, impress upon its members the importance of maintaining a high standard of scholarship, and promote the advancement and welfare of athletics at Clemson.

The most important trait of a Clemson gentleman is sportsmanship. These men are good sports both on and off the field. They have earned for Clemson a fine reputation as a true competitor in athletics.

The club sponsors many worthwhile projects, which encourage student interest. The members sell programs at football games and sponsor the annual intrasquad game which climaxes spring practice. The club is socially active, too, offering many social gatherings during the year for its members and their guests.

Clemson’s excellent reputation in Inter-collegiate athletics is due directly to the quality of its athletes. Not only is their ability important, but also the character that they display. Clemson has been fortunate in that the quality of its athletes has been superior in both respects.

BUDDY BENEDICT, President

Each semester brings a new group of Tiger clubs ready to be punished.
Many long hours of practice go into the earning of a Block "C".

President Buddy Benedict shows his hustle against U. S. C.
Football Season—A Dream That Might Have Been

Perhaps the greatness of athletic competition comes from its unpredictability. Too often, a championship is in one’s grasp only to be lost by such trifles as a fraction of a yard, a disputed call by a referee, or an unsuccessful extrapoint conversion attempt. But then again, the thrills were still there, the bands still marched, and the crowds still came to cheer their heroes on. Perhaps a championship did slip away, but honor was not lost. Football season was a dream that might have been. There was talk of a bowl game, an ACC championship, a glorious season. The Tigers fell short, a hair-breath short, and for this the crowds will remember them. It was in the end a gallant season, filled with honor, characterized by a job well done.

Winning is a Clemson tradition. If the Tigers are not on top, they are trying their best to get there. This year the Tigers finished with a disappointing 5-5-0 record. It could have easily been 8-2-0. What about next season? Well, if tradition holds true, the Tigers will be a strong contender for the top and maybe beyond.

1965 RESULTS

| Clemson       | 21 | N. C. State | 7 |
| Clemson       | 20 | Virginia    | 14 |
| Clemson       | 6  | Georgia Tech | 38 |
| Clemson       | 9  | Georgia     | 23 |
| Clemson       | 3  | Duke        | 2  |
| Clemson       | 3  | TCU         | 0  |

| Clemson       | 13 | North Carolina | 17 |
| Clemson       | 0  | Maryland    | 6  |
| Clemson       | 16 | South Carolina | 17 |

It was a year of two teams—the offense . . .

... and the defense,

with the aid of a talented toe—

which left Clemson so near, and yet so far, from the ACC title.
Tigers Defeat N. C. State in Season's Opener

Aided by hot weather and a new two-platoon system, Clemson stifled N. C. State, the defending conference champions, 21 to 7 in their first test of the season. It took the Tigers 13 plays to move the ball 75 yards for their first drive and touchdown of the season. Senior halfback Hugh Mauldin scored from the two-yard line. Late in the second quarter, however, the Wolfpack took advantage of a Clemson fumble and evened the score 7 to 7.

In the final period a 21-yard pass from quarterback Thomas Ray to sophomore fullback Bo Ruffner put the Tigers on the Wolfpack two. Ruffner pushed over on the next play for the score. The same Ray to Ruffner combination moved the ball to the State 18 and set up the final Tiger tally. Sophomore halfback Charles Hough picked up 10 yards and Ray carried the ball over two plays later. Frank Pearce, PAT specialist made good on all three attempts.

The coaches singled out Randy Smith, Johnny Boyette, and Wayne Bell for their work on the line. Ruffner and Mauldin led the backs with two first downs and 55 and 54 yards rushing, respectively. Don Barfield kicked six times for a 40-yard average which included one 60-yard punt.
Pass Interception Ices Clemson Win Over U Va.

Despite the fact that Virginia out-manned, out-passed, and, at times, even out-scored Clemson, the Tigers beat Virginia 20 to 14. An early score by Virginia and a befuddled Clemson offense seemed to be a dismal warning of things to come. After several unsuccessful attempts by the first unit to penetrate Virginia territory, the second team rallied and tied the score. Thomas Ray passed to Stu Caplan from the one for the touchdown. Before the half ended the Cavaliers again overpowered the Tigers and scored their second touchdown.

Clemson proved to be more aggressive than Virginia in the second half. Under the leadership of Ray, the Tigers took the kickoff and drove for a quick score. Wayne Bell climaxd the drive with a pass from Ray for a touchdown. A pass to Edgar McGee, picking up the necessary first down by inches, kept a key drive alive in the final period. Ray threw a 16-yard pass to Bell and put the Cavaliers behind for good.

Defense played an important part in the final moments of the game. With two minutes left in the game, Virginia launched a merciless passing attack on the Tigers. Just as it looked as if Virginia would score, Wayne Page intercepted a pass to put the game on ice for the Tigers.

Stu Caplan catches his only pass of the season—good enough for a touchdown.
Georgia Tech Defeats
Tiger Team 38-6

Clemson’s journey to Atlanta ended in a 38-6 rout in Georgia Tech’s favor. On the opening play from scrimmage, Tech’s Lenny Snow raced forty-seven yards to set up Tech’s first touchdown. Three downs later sophomore quarterback Kim King scored from the one-yard line.

The Tigers received the kickoff and marched fifty-six yards down to the Tech twenty-three before two incomplete passes forced the Tigers to hand the ball over to Tech. Tech quickly added their second and third scores to end the first quarter with a 21-0 lead, Henry’s field goal in the second quarter left the Yellow Jackets leading at halftime 24-0.

The second half was a reproduction of the first with Clemson moving the ball well but losing it through fumbles and interceptions. Tech scored twice in the final half while Clemson’s lone score came when quarterback Thomas Ray scampered twenty-three yards to the end zone.
Tigers Travel to National Ranked Ga.

Clemson's Tigers went to the University of Georgia for game number four. The Tigers received the opening kickoff and combined a 43-yard pass from quarterback Thomas Ray to end Edgar McGee and a 10-yard run by tailback Hugh Mauldin to score early in the first period. Frank Pearce's PAT attempt failed. Seven plays later Georgia tied the ballgame 6-6 on a 34-yard pass from quarterback Ridlehuber to end Hodgson. The Tigers scored their last time in the middle of the second quarter on a 35-yard field goal by Frank Pearce to end the first half with a score of 9-6.

The tide turned in the second half when a punt by Clemson's Don Barfield was blocked and turned into a tally for the Bulldogs as end Larry Kohn fell on the ball in the Tiger end zone. Georgia scored another touchdown and a field goal before the game ended Clemson 9, University of Georgia 23.
Duke Fumbles Make Tiger Win Possible

Clemson's aggressive Tigers forced six fumbles out of previously unbeaten Duke and handed the stunned Blue Devils a 3-2 defeat in a strictly defensive game. Duke penetrated deep into Clemson territory three times, but could not score. With little time remaining in the first half, Duke completed a 24-yard pass and a 41-yard pass to put them on the Clemson seven; but they were stopped by a second Calabrese fumble.

Clemson then tried unsuccessfully to gain running room and was forced to kick from within the end zone. Taking advantage of the situation, the Blue Devils blocked the kick for a safety. Clemson's only effort that resulted in a score was set up by a Duke fumble on the Blue Devil's 30-yard line. Three downs later Frank Pearce kicked a 31-yard field goal to put Clemson in the lead. The Tigers threatened once more when they sustained a drive to the Duke one-yard line, only, to be stopped short.

Duke remained very much alive later in the fourth quarter. Starting from their own 98-yard line the Blue Devils moved to the Clemson eleven when Calabrese fumbled with a minute and a half left in the game.
Clemson Hands a Southwestern Foe a 3-0 Defeat

Clemson’s Tigers, taking advantage of their field goal specialist, Frank Pearce, and their rugged defense that held Texas Christian to only 72 yards total offense and two first downs, stunned the Horned Frogs for a 3-0 homecoming victory. The first half was strictly a defensive struggle with TCU punting seven times and Clemson six. In fact, Tiger Don Barfield tied an Atlantic Coast Conference record by punting a total of 11 times.

In the waning seconds of the first half the second unit under the leadership of quarterback Jimmy Addison moved into Texas Christian territory where Pearce connected on a 26-yard field goal attempt. In the third quarter the Tigers got the ball on their 30 and began to march. Mauldin carried the ball five consecutive times for big gains, and Wayne Bell caught a 17-yard pass putting the Tigers on the TCU 9 with a first and goal situation. Three plays later the Horned Frogs recovered a fumble on their own one-foot line.

Late in the fourth period TCU tried a 42-yard field goal attempt. Defensive end Butch Sursavage partially deflected the ball and it fell harmlessly into the end zone. After an exchange of punts the Tigers took over and let the clock run out the remaining 1:25 minutes.

Frank Pearce kicks the Tigers to victory with this 26-yard field goal.
Wake Forest Succumbs to Superior Passing Arm

Clemson's Tigers unified their passing and running abilities in their best offensive combination of the season by defeating Wake Forest 26-13. Both quarterbacks passed impressively the entire afternoon. Clemson's Thomas Ray connected on eight passes of 16 attempts while Jon Wilson, the Deacon quarterback, completed 15 of 30 passes. Leading the Tiger rushing attack were Hugh Mauldin who carried for 69 yards and Bo Ruffner who made 62 yards.

Clemson took the opening kickoff and moved 72 yards in 10 plays to make the first score, a 13-yard run by Mauldin, who made the touchdown and two long passes to Phil Rogers led to the six points.

With five minutes left in the second quarter, Rogers dashed 61 yards for a touchdown on a reverse play that had been run only three times previously in the season. Key blocks by Ray, Wayne Mass, and Johnny Boyette were mainly responsible for the play's success. The third touchdown came mainly as the result of Ray's passes to Rogers. Ray added the six points making the score 19-7 after Wake's touchdown pass in the first quarter.

Clemson earned its last touchdown on a fake field goal attempt as Jimmy Addison passed to Wayne Bell for the score. Wake Forest ended the scoring with less than a minute left.

Clemson flanker Phil Rogers leaps to catch a Thomas Ray pass.
In its first seven games, Clemson relied on its quick-striking offense, its tenacious "Jolly Green Giants" on defense ..., and some young, talented reserves to put it atop the Atlantic Coast Conference.
Tigers Run Out at 1 yd Line

Time caught Clemson's struggling Bengals one yard short of victory as North Carolina salvaged a 17-13 win despite a record-breaking show by the Tigers.

Losing by ten points with only five minutes to play, Clemson drove 61 yards in less than a minute for a touchdown that cut the difference to 17-13. A play later the Tigers recovered an onside kick only to give up possession of the ball on an interception. When they got the ball back, they promptly marched 69 yards to threaten again. With four seconds left, Thomas Ray threw an 18-yard pass to Wayne Bell at the North Carolina one where the clock stopped the drive.

Ray led his team in breaking 13 school and Atlantic Coast Conference records. Clemson compiled a total of 465 yards and 26 first downs while North Carolina made only 271 yards with 13 first downs. However, UNC made four key pass interceptions that turned the tide of victory.
Maryland Terrapins Romp Clemson Tigers

Maryland started the season with one of the strongest teams in the conference, and they displayed a versatile attack in Tigertown. The Tigers played one of the most disappointing games of the 1965 season against the Terrapins. After losing a controversial game to North Carolina, the Tigers appeared demoralized. The defense had to play most of the game because the offense couldn't sustain a drive for any length of time. The Jolly Green Giants did not allow a touchdown all afternoon, but the talented soccer-style place kicker, Bernardo Bramson, kicked two field goals out of three attempts. His performance proved to be the winning margin. The game was the third game for the Green Giants in which the opponents did not cross the double stripes for a touchdown.

In the last two minutes two passes by Thomas Ray to Phil Rogers and an unusual tackle eligible pass play to "Big John" Boyette took the Tigers to the twenty-yard line of Maryland, only to have a desperate pass intercepted by a big Turtle lineman.
Tom Duley stumbles through a gaping hole in the Carolina line.

Butch Sursavage halts another Gamecock play.

Wayne Page charges to cover USC quarterback Mike Fair.

Hugh Mauldin charges through a split-second opening.
Two Point Conversion Fails to Bring ACC Home

Clemson closed its 1965 football season with a heartbreaking 17-16 loss to South Carolina. The loss denied the Tigers a record fourth Atlantic Coast Conference championship, which the Gamecocks and Duke tied for. The game had all pageantry and tradition of past Carolina-Clemson conflicts.

The Tigers, after advancing to a 10-0 lead in the first half, had to rally in the final minute to gain a shot at the title. With forty seconds remaining on the clock Thomas Ray passed to Phil Rogers in the corner of the end zone to make the score 16-17. The Tigers faked the kick and Jimmy Addison tried to pass to Bo Ruffner which would have won the game and the ACC title. The pass was deflected by Gamecock linebacker Bob Gunnels. An onsides kick was recovered by Carolina as the game ended.

With the loss, Clemson’s overall record stood at 5-5 and a conference mark of 4-3.

Basketball Team Compiles Best Record Since 1952

Clemson's struggling sophomores of a year ago matured this season to bring Tigertown its best basketball season since 1952. Led by two seniors and six juniors, the Tigers finished 15-10. Clemson started the season with good performances in holiday tournaments, winning the Poinsettia Classic and placing second in the VPI Invitational. The Tigers steadily improved as the season progressed as they won eleven out of their last fifteen games. They also showed an ability to do better in close games, winning five out of nine games decided by five or less points. Two of these games were a win over N. C. State in the North-South Classic in Charlotte and a last-second, two-point loss to nationally top-ranked Duke. Clemson tied with North Carolina for third place during the regular season only to lose to USC in the first round of the tournament.

Aided by several rising sophomores and redshirts, Clemson can look forward to success again next year.

Baseball Has 18-10-2 Record

The 1965 Tiger baseball squad was guided by coach Bill Wilhelm to its eighth straight winning season with an 18-10-2 overall mark, and had a 9-5 ACC record that earned Clemson the second spot in the ACC.

Outstanding players were numerous on this year’s team. Rusty Adkins grabbed all ninety-five votes to be the only unanimous choice of the All-ACC team. Little Adkins led the conference in hitting a .444 average which was fourth in the nation. Jacky McCall was also chosen all Atlantic Coast Conference. Jacky hit eight home runs last season which ranked sixth best in the nation. Lawton Cowart and pitcher Tommy Chapman also made the coveted all-ACC team. The superb playing of Cowart and the flawless pitching of Chapman carried the Tigers almost to the top of the ACC. Most of the boys returning are lettermen, and will give the Tigers the much needed experience for a strong ball team.

Sophomore Rusty Atkins watches as one of his many hits propel him to stardom.
Tennis Team Captures

The Tiger tennis team had a very fine season and finished with a record that was good enough to capture second place for the fourth straight year in the ACC Tournament. In the new play divisions, James Ledbetter captured the singles title in the number six bracket, while Eddie Crow and "Turk" Ornekian were able to take the number five and number four singles finals, as were Zulfi Rahim, and Tom Long in the number one doubles.

The Tiger netmen will return with top four players intact, and will receive additional help from David Wilkins and Perry Reynolds of the freshman team. Sam Smithyman also will be of great assistance to the team.

In four seasons under the direction of coach Duane Bruley, the Tigers have won fifty-two and have lost just fifteen matches, eight of which were lost in 1964. The 1966 Tiger netmen will certainly be hard to beat in all competition.

Zulfi Rahim shows off his powerful serve.

One of the hardest events in track is the 330-yard intermediate hurdles.

Muscles strain as Clemson pole vaulters soars.

Track co-captains Hayes Cone and Ed Poole.
Thinclads Look Forward to Hot ACC Title Race

Clemson’s 1965 cindermen enjoyed another fine season by winning four and losing two in dual meet competition; and until the 79-65 loss to UNC in April they had taken twelve straight dual meets over a period of three years.

Avery Nelson set a school record in the broad jump at 24' 5\(\frac{1}{2}\)'; and his triple jumps were out of reach of opponents all year. Coach Greenfield lost seven of his top cindermen because of graduation. He has been working very hard on his young men from the freshman and sophomore squads all winter preparing for the first meet in the spring.

Only one meet was held at Clemson last year. This year, Clemson enters a hot ACC race with Maryland and South Carolina favored. The 1966 Tiger trackmen will have to do well in the first few meets if they want the ACC championship. This year’s co-captains are Hayes Cone and Ed Pool, both members of Clemson’s 440-relay team.

The State Meet this year was held again at Furman University in Greenville. As usual, the course proved extremely difficult and Clemson came in fourth.

Moving to the Atlantic Coast Conference Meet, Clemson did not enter a team. Instead, certain individuals were entered and Robert Tindall finished first for Clemson in twenty-second place. Considering the large number of participants in this meet, this was a good showing.

Coach Greenfield is looking for an improvement next year over this year's record in that he had a better than average freshman team, coupled with the returning lettermen of this year's squad, give the Tiger Cross-Country Team a splendid outlook for next year.

Tiger Cross-Country Looks Forward to Next Year

The best thing about cross-country is winning, because then you get to stop.

Robert Tindall is third for Clemson in this race.
The spirit of Clemson is a proud tradition that has followed every student into life. This spirit becomes a part of the education of a Clemson man. The mighty "C-L-E-M" from the moment the whistle is blown brings all the students together.

But Clemson spirit must be engrained in each new class with an enthusiasm that will make it stay with each Rat through his four years in college. It must be stirred with renewed interest in the minds of the upperclassmen. To this job our cheerleaders must dedicate themselves. Our past year's record of spirit was the result of their ability and hard work. Pep rallies were evidence of a great year for Clemson.

The year's football season cheering was brought to a great climax by the annual Pep Rally before the game with South Carolina. Gator Farr made a traditional appearance after several years' absence. His funeral procession, complete with a coffin for the Gamecock, was a tremendous event, with the chant "the worst is yet to come" echoing off every building as the students gathered. All Clemson men were there. To the cheerleaders Clemson owes a debt of gratitude for a job well done.

Cheerleaders Provide Teams with Needed Spirit
Tiger cub Richie Mahaffey blocks a shot by a USC biddie.

Freshman quarterback Tom English gets coaching from the press box.

Richie Mahaffey battles for a loose ball.
Freshman Football Team Has Undefeated Season

The Freshman athletes represent the hopes of things to come for the Clemson University Tigers. Outstanding high school athletes from all over the nation are sought each year by the Athletic Department.

Participation in sports on the Freshman level gives these young athletes experience and enables them to make the transition from high school to college sports.

In his first year as Head Freshman Football Coach, Art Baker directed the Cubs to their first undefeated team in many years. Starring for the Cubs were Tom English at quarterback, Ray Plyler at fullback, with George Burnette, Jimmy Catoe, and Jim Tompkins on defense. The Cubs boasted a 4-0-1 record which included wins over Georgia Tech, Duke, Wake Forest, and South Carolina while tying Georgia.

Coach Jim Brennan, also in his first year at the helm of the Cub roundballers, is looking for big things from his Freshmen, who are led by Trip Jones, Richie Mahaffey, and Allen Goldfarb.

Looking forward to spring sports, the Cubs seem well-stocked with able young athletes on the baseball, golf, track, tennis, and swimming teams.

Freshman athletes are young men eager to compete in varsity sports. Each is dedicated to his respective sport and desires to strengthen the Fighting Tigers.
Scoreboard adds a lot to basketball games.

Intramural basketball helps students keep in shape over the long winter.

The Zetas and Chis square off in the IFC playoff.
A highly popular part of the extracurricular activities at Clemson is the intramural sports program sponsored by the Athletic Department and under the direction of Bill Wilhelm. Students have shown a great deal of interest in intramurals, and each year the number of participants increases. The program offers wide range of sports and gives the non-varsity athlete a chance to participate in organized sports activities. Team sports such as touch football, basketball, softball, and volleyball are offered, as well as individual sports ranging from ping-pong to track. The competition is fast and furious, but a spirit of true competition is always maintained. A crowd of spectators can always be found at these games, as the participants display their various skills.

The intramural program is designed to include almost all sports of which there is some interest here at Clemson, and it affords all students the chance to participate in at least one activity. The teams are always well organized and many hold practice sessions as they seek to gain the champion slot. Each year brings a new champion in each sport.

Intramural football isn't quite the non-contact sport it's meant to be.

Intramurals Have Large Participation at Clemson

Intramural player has the hands of Jimmy Orr.

Part-time roundballer gets to put up rebound.
Country Club Set Enjoys Good Year Playing Golf

The 1965 Clemson Golf team posted a 6-4 overall record while maintaining a 3-4 conference mark. The teams of Virginia, Wofford, Furman, Citadel, Maryland, and South Carolina succumbed to the Tigers: namely Jim Self, Pete Pierson, Pat Harmon, Fay Gooding, Bill Wallace, Bob McLeod and Jim McKellan.

Five lettermen will return to be the stalwarts of the country club set. According to their mentor, Whitey Jordan, Pete Pierson is in line for the number one golfing Tiger although the competition for the post will be keen.

The scene of the golfing action, while at home, is the Anderson County Club but the most intense competition takes place at the State and Atlantic Coast Conference Tournaments where the Tigers strive to capture the respective crowns.

Golf being a game of coordination, strength, and complete mental control portrays, through competition, a major facet of the collegiate life—the making of a man.

On occasion those "deadly" long irons stray, though.

Team members spend much of their time practicing at the Executive Country Club.
Soccer Team Enjoys Second Season on Campus

RESULTS

Clemson .... 3 Duke .... 1
Clemson .... 6 Asheville .... 4
Clemson .... 5 Erskine .... 1
Clemson .... 3 Georgia Tech .... 3
Clemson .... 2 Brevard .... 2
Clemson .... 1 Georgia Tech .... 4
Clemson .... 2 U. N. C. .... 3

Now in its second year of being recognized as a club on the Clemson campus, the Clemson University Soccer Club, through much endeavor and expansion, is seeking to obtain a varsity standing in hopes of becoming a regularly recognized inter-collegiate team. Since the 1965 season was the first one to be composed of scheduled games for the Tigers, the team previously had to contact other teams on the spur of the moment when ever they wanted to play.

With the help of coach-player John Kenny and advisor Dr. Chisman, the Clemson Soccer team finished out the season with a 3-2-2 record. Included among their competitors were Duke, UNC, Georgia Tech, the Asheville Nomads, and Brevard.

Out of a group of many proficient players, some of the members include Frank Smith, the president of the Club, Dick Ormicken, Bill Rose, Graham Gutting, Don Shelley, Bobby Castles, Bill Wallace, Dan Goss, Mark Rubick, and Dick Schroeder.

Opponent defends goal as Clemson threatens to score.

Don Shelley guides the football through three enemies.
This year's Clemson Swimming team, coached by Carl McHugh and captained by Lee Zeis, broke a long losing streak by finishing out the season with a five and five record. Despite the limited facilities of the swimming pool commonly referred to by the boys as "the Tub" and a general lack of student interest, Coach McHugh managed to whip into shape one of the best teams Clemson has had to offer the highly competitive league in years. Facing some of the toughest competition the conference has ever produced, the Tiger tankmen nevertheless overcame such opponents as Emory, Duke, and Georgia Tech.

This year's graduating seniors are Arthur Allison (200 and 500 freestyle), "Mac" Chatneuff (butterfly and sprints), and Martin Davis (backstroke). Despite these critical losses, a strong freshman squad and the return of some reliable sophomores and juniors promise another good season next year.

He flies through the air with the greatest of ease.

Perfect form is noted in this racing dive.

Competition is keen as Clemson swims against Duke in Durham.
SCUBA diver hits the briny depths of the "Y" swimming pool.

The Clemson Diving Club Promotes Safe Program

The Clemson University SCUBA Diving Club was organized to promote the sport of skin and SCUBA diving on campus. Safe diving is the keynote of the organization.

The club is open to all students at Clemson that successfully complete the club training program. No previous knowledge of diving is necessary for membership. The training program consists of swimming improvement, life saving, use of most forms of SCUBA equipment, and the practice of safe diving. Both a written and a water test must be passed before membership is granted. The first training is in the YMCA pool; later Lake Hartwell is the center of operation.

Club activities are composed of diving trips to the many nearby lakes and quarries, lectures and films on the newest diving techniques, the scientific potential and opportunities of SCUBA diving, and social functions. The club is also active in local rescue work, like the salvaging of valuable goods following the train wreck last spring.

The 1965-66 SCUBA diving club.

Part of the early training is getting accustomed to the gear.
Fencing Team Expects Excellent '65-'66 Season

Fencing is a sport in its fifth year here at Clemson, and the experienced members of this year's team expect to do very well this season. Sponsored by YMCA and the Office of Student Affairs, the team is a competitive organization which attends and sponsors meets with other colleges throughout the Southeast. Also, the team is expecting to enter the national amateur fencing finals this year.

The basic requirements for membership are the willingness to work and the desire to learn. Interested students need not have any previous experience or knowledge in the art of fencing. In fact, all new members are thoroughly instructed in the fundamentals of the sport before continuing on into advanced competition. The club practices three days a week at the YMCA. All home and away meets are held on weekends during the school year.

Under the direction of Dr. Hal Coolidge, the team has experienced four exciting seasons, and expects a very good season this year. The Clemson student has a fine opportunity to learn a challenging and rewarding sport through the facilities of the Clemson University Fencing Club.

A salute is offered before each match.

One of the highlights of the season was the five-way match at Clemson.

Hearty congratulations are given and received after a match.
Clemson Rifle Team Shoots for Major Triumphs

The Clemson University Rifle Team has earned a highly successful reputation for the school on other campuses despite its small numbers. Since its founding, the team has captured such victories as the overall championship of the Twelfth U.S. Army Corps Meet, first place in the S.C. College Meet, and even a second in United States competition. During its regular schedule, the squad has defeated such schools as Georgia Tech, Furman, Davidson, Presbyterian College, Wofford, The Citadel, the Military School of the South.

Rifle matches are scheduled all over the southeastern area of the United States during the entire school year. Since it is a non-seasonal sport, the team members must train constantly and often practice as much as four nights a week before a match. The rifle team is open to any interested student who has the ability necessary to reach the team standard for marksmanship.
Clemson FCA Unites Athletes Through Religion

Feeling a need for closer association among themselves and the student body, the athletes of Clemson organized in September of 1965 to form a local chapter of the Fellowship of Christian Athletes.

The Fellowship of Christian Athletes is a national organization which has as its two primary purposes the following: (1) the betterment of athletes lives as Christians and (2) to influence others to follow the Christian way in their everyday life.

The Clemson chapter of the Fellowship of Christian Athletes is composed of 32 members who represent all the major sports plus minor sports such as soccer and swimming.

However, the FCA’s membership is not limited to athletes. There are but two requirements for membership: (1) that the prospective member be interested in athletics and (2) that he attend the church of his choice regularly.

Although the FCA is a comparatively young organization at Clemson, its future looks bright because of participation in many projects, such as the Billy Graham Crusade in Greenville and various other speaking engagements throughout the year.

OFFICERS: Jackie Jackson, Treasurer; Flip Phillips, President; Butch Sursavage, Secretary; Jim Sutherland, Vice-President (Not Pictured).

SECOND ROW: Richard Schroeder, Steedley Candler, Jackie Jackson, Ronnie Miller, Ken Kirkpatrick, Edwin Porter, Butch Sursavage, and Grady Burener.
A Tribute to Clemson University’s Gator Farr

IN MEMORIAM . . . In January of 1966, Clemson University lost perhaps its dearest friend and staunchest ally in the person of Gator Farr. He exemplified the Clemson spirit. The ancient and accurate symbol of Clemson, the Country Gentleman, was personified in him. Here was a man who was the ideal alumnus—he took a very active interest in all facets of Clemson life, but, of course, exhibited the most enthusiasm in football, more specifically, the Carolina-Clemson game.

Here he made his great show: It was an annual affair that had faltered in his waning years, his funeral service for the Carolina Gamecock at the pep rally before the Carolina-Clemson game. These rites were a spectacle one must have seen to have believed. There are no words that could describe his impact upon the student body of Clemson.

Gator Farr is gone in person only. The spirit he instilled within all people who ever came in contact with him will live forever.

Gator’s last visit to Clemson.

Gator Farr prepares to thrill Clemson in 1951.
The Clemson senior returns to a year that seems to go much more slowly than the preceding ones. The intervals between football games seem longer and the first semester appears lengthened. The Christmas Holidays are over and the senior begins his last semester. This semester is different from the rest, for this one is the culmination of his four years of college, graduation.

Before the "big day" the senior is faced with many decisions. Job interviews are held and plans are made for the future.

His unofficial farewell to Clemson is made in the form of Senior Day. With his Clemson ring on his finger he orders his diploma and the last is in sight. The last exam schedules are posted and the day arrives.

Friends, parents, and relatives are present to see him walk down the aisle in the dark robes. Many things are going through his mind. There have been days of studying and devotion to work, there have been days of folly and times spent with friends. He came to Clemson a rat and is walking away a Clemson man. He continues to walk into the future, a future made possible by Clemson University.
School of Agriculture

The Clemson University College of Agriculture is recognized as one of the best and most complete in the nation. No longer is the study of agriculture confined to the raising of crops. As science advances, so must the scope of the study of agriculture advance. The modern agriculturist must study everything from "bucology" to basic mechanical engineering. He must be familiar with many phases in the field of agriculture so that he will be capable of performing well in the many job opportunities open to students of this college. These job opportunities include farming research, education, industry, communications, and agricultural services.

Much emphasis is placed on the practical application of the theory which is learned in class. Many long hours are spent in the labs in studying and using the practical applications. This application of theory enables the College of Agriculture to make many notable contributions to the state and nation. Through current advancement in the form of new buildings, machinery, equipment, and capable instructors, the College of Agriculture at Clemson University keeps its position of national prominence secured.

Everybody "studies" at Dan's during exams.
Tiger band boards bus to go to South Carolina game.
School of Architecture

The School of Architecture stresses considerations of function, structure, design, and beauty. An architect must retain an open mind and a progressive attitude and utilize expanding improvements in the field of architecture in order to serve society in the best way possible.

The curriculum of the architectural student is much more diversified than many other curriculums, as the student must obtain a background in both social sciences and math. The design labs, the major occupation of architecture students, initially lets the student develop his ideas and gradually lets him apply theory in the more complex design problems.

A freshman has two curriculum choices in the School of Architecture—architecture or building construction. When the student reaches his junior year, he must then choose between design or architectural engineering which will lead to a B.A. degree in five years.

To widen the student’s experience, a varied schedule of visiting lecturers and critics and field trips are included throughout the annual schedule. An outstanding schedule of films and exhibitions are available to help the student refine his taste in fine arts and other cultural endeavors.

The College of Arts and Sciences forms an important link in Clemson University's overall, well-rounded educational programs by not only providing instruction in the humanities, physical sciences, and the social sciences, but also offering Bachelor of Science degrees in applied mathematics, physics, pre-medicine, and chemistry.

The Bachelor of Arts program offers a general education for those students who are preparing themselves for intelligent participation in society, business, and journalism; and pre-law students receive an excellent background for their work in our society.

The first two years involve introductory work in various fields of study to provide a breadth of view and encourage the student in his own education. The last two years are devoted to distinctly selected fields of study. At the beginning of his junior year, each student must choose a particular major and minor course from the many which are available.

The continuing growth and development of the College of Arts and Sciences is symbolized by the new chemistry building addition and the constant improvement in the selection and quality of courses offered.

Clemson pep rally provides excitement.
The School of Education of Clemson University had its beginning in the summer of 1965; and its enrollment is growing steadily as more and more students in the liberal arts, engineering and social sciences decide to become teachers. The School of Education offers an excellent opportunity to the student to get the superior training and practice that he needs for teaching while he is still in school. Much emphasis is placed on psychology, social sciences and the humanities in this varied curriculum. There are three main divisions of the School of Education: Secondary Education, Industrial Education and Park Recreation and Development. In all of the programs, the major stress is placed on giving the student enough theory and practical application to enable him to convey his thoughts to others.

Seniors in the School of Education spend most of their last semester doing practice teaching at schools all over the state.

This school feels a large gap in Clemson's overall educational program and provides an excellent opportunity for students to get a solid background in education under its competent leaders.

The new library shows progress for Clemson University

289
The College of Engineering strives to teach the student orderly analysis and logical thinking, rather than developing the special skills that he will need later in his profession. The first two years of study deal largely with fundamentals and strive to give the student a solid foundation for his later specialization.

There are eight related curricular choices for the engineering student: agricultural engineering, ceramic engineering, chemical engineering, civil engineering, electrical engineering, industrial engineering, mechanical engineering, and metallurgical engineering.

The student in engineering does not take specific options or majors under each curricula, but rather studies many phases of each respective field. However, through the use of offered electives the student may receive concentrated instruction in one specific field of study. Still each engineering student receives a well-rounded engineering background as each student is required to take basic courses in each field of his study.

Continued progress is necessary in this school to keep up to the vigorous standard which must be met in our modern world of complicated technology.

Entertainment, the joy of the I.F.C. Christmas party.
The work piles up for the Tap's Classes Editor.
School of Textile Science and Industrial Management

Existing for ten years at Clemson University, the School of Industrial Management and Textile Science has been very successful in giving students a well rounded, professional education. The curriculum also includes courses in business, economics, engineering and technical courses balancing the curriculum. The students who come out of the School of Industrial Management are well trained persons who, serving as managers in textile plants, will prove themselves capable leaders in whatever position they might undertake.

The School of Textile Science offers three diversified courses for its students: Textile Science, Textile Chemistry, and Textile Management. Textile Science emphasizes the basic sciences. Much of the curriculum is in physics, mathematics, and chemistry in an effort to give the student a very firm foundation upon which he can build a sound specialization. Textile Chemistry outlines an educational course, enabling its graduates to compete for administration in synthetic fiber plants, chemical plants, and in finishing plants. Textile Management emphasizes technological, managerial and textile subjects in an effort to convert men into managers—leaders in their field.

W. D. TREVILLIAN, Dean of School

Textile labs present many tedious problems for the student to solve.

The junior returns with the awe of his freshman year and the indecision of his sophomore year behind him. He is an integral part of college life and is aware of the direction in which he is heading. Some serious thought must now be given to companies that he is interested in interviewing during his senior year. The junior realizes that soon college will be behind him and that he must face the world with what knowledge he has acquired at Clemson. Studies begin to assume a much more important role in his life as a student at Clemson. As activities and studies mount up, the junior learns to budget his time. He is usually well into the curriculum of his field of study and begins to dream of that "magic moment", graduation.

Activities, organizations, and fraternities occupy a large portion of a junior's time. He joins his classmates in the selling of book covers, barbecue dinners, and participating in Junior Follies. These projects are in order to raise funds for the highlight of the year—the Junior-Senior Banquet. Then, magically, the year is over and the juniors are now the next graduating class. The fun and frolic, the trials and hardships of the junior year are behind them.
Junior Class 1966

J. R. HILL, JR., Secretary; C. E. HILL, Vice-President; J. D. REDDEN, Treasurer.

SOPHOMORES
As the sophomores begin their second year at Clemson, their only thought is revenge! They wait eagerly for weeks of yelling at the rats and releasing the emotions they’ve carried over from the previous year. They give the rats more trouble than all of the rest of the student body. Many times a sophomore returns with thoughts of this year being easier than the first. He soon realizes, however, that classes are more involved and, between trips to Bolton’s and Breneau, his studying is intensified.

During the second year the student makes many decisions that will greatly affect his later life. Majors are changed several times and numerous hours are spent in contemplation of signing with Uncle Sam. The student begins to realize, as the year goes by, that a college education is not all written in books. Football games, bull sessions, and trips with fellow students play an important part of his years at Clemson. The weekends are just as important as the class routine in shaping a well-rounded student life. The year draws to a close and with it comes a more mature student, a student who realizes what is involved in an education, a student who has another step forward toward the goal in his life.
Sophomore Class 1966

Hard work on the field, and in the stands.
FRESHMEN
FRESHMAN

The largest freshman class to ever enter Clemson are met by a school that, like themselves, is a “freshman”. Having just acquired university status, Clemson, and its freshmen, are faced with a new world and new ideas. While immersed in the old traditions of haircuts and rat hats, the freshmen and the University must search for a new direction in a world of constantly changing technology and philosophy.

When the short “rat season” comes to an end, and the rat hats are hung on the wall, the freshmen find that the name “rat” has not left them. They must prove themselves as Clemson men. As the year progresses the Clemson traditions become implanted in the freshmen’s spirits, and they become as much a part of Clemson as the new construction or the new status.

Clemson freshmen belong to a unique group; they are a mixture of old traditions and new ideas that make up their school. Both aspects, the old and the new, instill in the freshmen a pride that encourages them to make their goal more than an education from books. They learn that they must live and work together with their new generation if they, who are the hope of today, are to become the reality of tomorrow.
DAVID COOPER, President

Freshman Class 1966

KEN AYERS, Treasurer; ALSTON GORE, Vice-President; HARVEY MATHIAS, Secretary.
Typical spirit at a Clemson pep rally.

FRESHMEN

JOHN J. ABBOTT ... Sumter, S. C.
WILLIAM W. ABBOTT ... Darlington, S. C.
WILLIAM L. ABERCROMBIE ... Easley, S. C.
LARRY ABERNATHY ... N. Augusta, S. C.
ALBERT W. ABRAMS ... Lake City, S. C.
JEFFREY R. ABRAMS ... Columbia, S. C.

BRUNELLO ACCOMANDO ... Irwood, N. Y.
LOUIS L. ACKER ... Anderson, S. C.
PHILIP D. ACKERMAN ... St. George, S. C.
DAMARIS S. ADAMS ... Ocean City, N. J.
HAROLD H. ADAMS, JR. ... Columbia, S. C.
HARRY P. ADAMS ... Saluda, S. C.

JOHN N. ADAMS ... Asheville, N. C.
MARY J. ADAMS ... Latrobe, Pa.
RONALD P. ADDIS ... Seneca, S. C.
JAMES C. ADDISON ... Allendale, S. C.
WAYNE F. ADDY ... Columbia, S. C.
BRUCE B. ALEA ... Rockmart, Ga.

MARION D. ALDRIDGE ... N. Augusta, S. C.
FRED M. ALEXANDER, JR. ... Abbeville, S. C.
RONALD C. ALEXANDER ... Greenville, S. C.
JOHN M. ALFORD ... Latta, S. C.
CARL M. ALLEN ... Charleston, S. C.
FRANKLYN C. ALLEN ... Greenville, S. C.

THOMAS R. ALLEN ... Arlington, Va.
NANCY S. ALLEY ... Columbia, S. C.
JOHN C. ALLISON, JR. ... Spartanburg, S. C.
DAVID R. ALVERSON ... Spartanburg, S. C.
WILLIAM R. AMMONS ... Lugoff, S. C.
PAUL D. AMOS ... Belvedere, S. C.
A happy rat.

Taps issues its fourth successive All-American.

ORGANIZATIONS
FOR RIDE ON NEW GOMY SHIP
WANTED RIDE TO NJ.
HONORARY
Phi Eta Sigma is a national honor fraternity dedicated to acknowledging the achievements of outstanding members of the freshman class. Membership is open to all male freshmen who exhibit characteristics of outstanding academic ability. At Clemson a student must have attained a grade-point ratio of 3.5 or above at the end of either the first or second semester of the freshman year to be eligible for membership.

Although the primary purpose of Phi Eta Sigma is to stimulate high scholastic achievement by freshmen, the organization sponsors several activities during the year. It awards a Scholastic Medal to the scholastically outstanding senior at Honor and Awards Day each spring. It also offers competitive examinations in English and mathematics to all interested freshmen; and appropriate awards are made to the persons scoring highest on each test. In addition, Phi Eta Sigma presents for its members a slate of prominent figures speaking on a similar nature. These speakers are presented throughout the year.

Membership in the Clemson University chapter of Phi Eta Sigma is the highest scholastic honor a freshman may receive. After becoming a member, a person may remain an active member of the organization until the end of his college career and an inactive member for the remainder of his life.

Clemson Student Leaders Recognized by Blue Key

On every university campus there must be an organization that is recognized as being superior—the highest achievement a student can attain in his college career. At Clemson, as well as at over one hundred other campuses throughout the nation, this organization is the Blue Key National Honor Fraternity. Membership in Blue Key is the acknowledgment of one’s scholastic achievement and his participation in extra-curricular activities. The membership, selected for the junior and senior classes, exemplifies the purposes of the fraternity—encouragement of intellectual accomplishment, service to fellow students, and devotion to Clemson.

Since the ideal of Blue Key is service, the Clemson University chapter annually undertakes several activities to benefit the campus community. Foremost among these projects are the planning, coordinating, and directing of Tigerama, Clemson’s annual student variety production, and the editing and publishing of the Blue Key Student Directory.

The Blue Key honorary and leadership organization includes a select group of students recognized for their service to campus, community, and nation. By close affiliation with College Administrators, Blue Key strives to inspire its members to grow in character, intellectual achievement, and service to their Alma Mater and to witness to their fellow students as the most honored group on campus.
Blue Key members relax before meeting.

Tiger Brotherhood is a local, selective honorary fraternity which was organized at Clemson in 1928 by Professor J. L. Marshall for the purpose of developing a closer relationship between students and members of the faculty and the administration. Membership is composed of faculty members and those students from almost every sector of campus life, who through extraordinary ability, character, and loyalty to Clemson University prove to be desirable members of the organization. Only after extensive examination and discussion will an individual be accepted as a member in this unique organization.

Each year Tiger Brotherhood participates in a number of campus activities and projects in an effort to develop greater school spirit and a sense of pride and loyalty toward Clemson. The organization climaxes the school year at the annual Junior-Senior Banquet by presenting the “Mother of the Year Award” to the outstanding mother, who in some way has been affiliated with Clemson University.

Tiger Brotherhood contributes much to the great Clemson tradition by setting high standards of social and ethical conduct, as it strives to instill within its members a living image of the best type of Clemson Gentleman. Its members possess outstanding abilities of leadership, service, and interest in Clemson. It prides itself in having the most select, well-rounded group of students on the Clemson campus.

Goz and Ken straighten tiger arch.
Keromas Honors Outstanding Ceramics Engineers

Keramos is a National Professional Ceramic Engineering Fraternity open to outstanding students enrolled in the schools, departments, and divisions of Ceramics and Ceramic Engineering. Its principal object is to promote scholarship and character, to stimulate mental achievement, and to promote interest in ceramic science, technology, and engineering.

Membership in Keramos is the highest honor a Ceramic Engineer can achieve. To become a member of Keramos, a student must show outstanding character, scholarship, leadership ability, and interest in the field of Ceramic Engineering. Not only must he meet scholastic requirements, but he must be voted into the organization by three-fourths of the members.

Activities of the fraternity include presenting awards to a superior junior and senior in Ceramic Engineering, annually donating necessary books to the Olin Hall library, sponsoring parties for ceramic freshman and sophomores, conducting tours of Olin Hall, working on annual projects, and giving banquets for its members and faculty.

The original Keramos fraternity was organized at the University of Illinois in February, 1915, as a professional fraternity. Among the objects of the fraternity was that of giving assistance to its members in getting started in the industrial field. Keramos, the Greek word for pottery or clay products, was chosen as a significant name for the fraternity; and a ritual was developed which was based on the history and mythology of the ancient Greek pottery.

The Phi Chapter of Tau Sigma Delta, a national honor society in architecture and the allied arts, was established at Clemson in the spring of 1965. The Minarets, a local honor society, was incorporated into Tau Sigma Delta.

The objectives of Tau Sigma Delta are: to emphasize scholarship, leadership, and character, to stimulate mental achievement and effort, and to reward these students who attain high scholastic standing in architecture and the allied arts by membership in the organization. The society attempts to be of service to the school and to promote worthy endeavors which would be of benefit to architectural and related professions. By entertaining guest lecturers and by exchanging slides of regional interest with other schools of architecture, the chapter hopes to broaden the knowledge and interest of its members.

The members of Tau Sigma Delta are selected from the rising fourth and fifth year level of both the design and structure options in architecture. The present organization is small in number and is very select in its members, who are the leading students in the Clemson School of Architecture. Ability in the general field of architectural structure, as well as creative talent, are prerequisites for membership. James Clarke Plaxico serves as chapter master of Tau Sigma Delta.

Hard work and long hours are common to the architect student.

Alpha Zeta Promotes Practice of Agriculture

As a national honorary agricultural fraternity, Alpha Zeta seeks to promote the science and practice of agriculture on a national level. This Clemson University chapter works to improve the facilities and services of the College of Agriculture and Biological Sciences and to render constructive support to agriculture in the state of South Carolina.

Alpha Zeta consists of students, alumni, and honorary members who possess superior qualification in the field of agriculture. In order to comply with the requirements for membership in the Clemson University Chapter, a student must rank in the upper two-fifths of his class. Members are taken in each semester and must meet specific GPR requirements depending on the student's year. Membership is a goal much sought after by all agricultural students, since the organization functions partially as an honorary fraternity.

In order to instill brotherhood and fellowship among the members, the fraternity has several social get-togethers, including an annual banquet in the spring. Alpha Zeta offers many valuable services to the College of Agriculture and the student body as a whole. Monitoring the P&AS building's study rooms, sponsoring a financial aid program, and handling a teacher evaluation program are a few of AZ's service functions. In addition, the advisory committee presents the Alpha Zeta award to the outstanding student in the College of Agriculture.
Alpha Zeta members spend long hours in lab.

Mu Beta Psi is National Honorary Music Fraternity

Mu Beta Psi is the National Honorary Music Fraternity; and the Delta Chapter has been on the Clemson campus since 1937. The brothers are selected for membership after a minimum of three semesters participation in a university-recognized musical organization. Thus, new members are normally selected during their junior year; however, certain outstanding sophomores may also be invited to join the fraternity. Membership is limited in number, resulting in a closer relationship of the brothers and a selection of the most outstanding of the campus musicians. As stated in the constitution of Mu Beta Psi, the purposes of the fraternity are twofold: (1) to promote and maintain fellowship between musicians of this and other institutions, and (2) to advance music to its proper place as an educational subject. Various service projects and productions are undertaken by Mu Beta Psi annually which fulfill these aims. The brothers have rendered their assistance to Concert Series for many years. One of the highlights of the spring semester at Clemson is Spring Sounds, which is sponsored by Mu Beta Psi to give the students of the University an opportunity to enjoy the best campus entertainment in one program. As one of the older of the recognized organizations on the Clemson campus, Mu Beta Psi is respected as being unique for its role in the history and growth of the University.

Phi Psi Promotes Enthusiasm in Field of Textiles

Phi Psi is a national honorary textile fraternity whose purpose is to improve the textile industry by producing more qualified students as it promotes interest and enthusiasm of top students in the field of textiles. Each year it sends representatives to the national convention. Iota Chapter of Clemson University was granted a charter in May, 1927, to promote good fellowship, social intercourse, mutual advancement of its members, and the art of textile manufacturing.

Yearly activities include a banquet in the fall and in the spring and the publication of the Bobbin and Beaker, a magazine published quarterly which is designed to interest students in the School of Industrial Management and Textile Science. This year for the first time the Iota Chapter of Clemson University will be the host for the National Convention of Phi Psi Fraternity.

The membership of Phi Psi is composed mainly of qualified juniors and seniors enrolled in the School of Textiles. However, a student of any school of study who shows an interest in textiles and has twelve semester hours in the field of textiles as electives is also eligible for membership. Each year Phi Psi also invites the two sophomores with the highest grade-point ratios to join the fraternity.
The Tau Beta Pi Association, the national engineering honor society, was founded at Lehigh University in 1885 "to mark in a fitting manner those who have conferred honor upon their alma mater by distinguished scholarship and exemplary character as undergraduates in engineering, and to foster a spirit of liberal culture in the engineering colleges of America.

The South Carolina Alpha Chapter of Tau Beta Pi was established at Clemson on November 23, 1928. The local chapter sponsors a number of worthwhile service projects throughout the year. These include a free slide rule course each semester, monitoring the Civil Engineering Building at night to provide quiet study areas for students, and the presentation of a special award to the Outstanding Sophomore Engineering Student.

Those eligible for membership include male engineering students whose scholarship places them in the upper one-eighth of the junior class or in the highest one-fifth of the senior class. In addition, the student must have a minimum GPR of 3.3 to be elected to membership as a junior and a minimum GPR of 3.0 to be elected as a senior. Candidates for membership are further considered on the basis of character, integrity, and unselfish activities.
Xi Sigma Pi is Forestry Honor Organization

Xi Sigma Pi, forestry honor fraternity, was founded at the University of Washington in 1908. It existed there as a local honor society until 1915 when a new constitution was adopted. The fraternity today has chapters throughout the United States, and is truly national in character. The Alpha Beta chapter was established at Clemson University in April, 1965.

The intention of Xi Sigma Pi is to honor the student who excels scholastically and who has a personality that would tend to make him successful in forestry work. The fraternity aims at bringing together in good fellowship those students who have shown exceptional ability. The establishment of chapters at various universities and colleges throughout the United States has resulted in linking together students from various parts of the country with a common interest.

The objectives of Xi Sigma Pi are to secure and maintain a high standard of scholarship in forestry education, to work for the advancement of forestry, and to promote fraternal relations among earnest workers engaged in forestry activities.

The fraternity stands for high scholarship and its members encourage forestry activities at the institutions with which they are connected. This is done through active participation in their respective forestry clubs.
Alpha Phi Omega Serves the Student Body

The Clemson University Gamma Lambda Chapter of Alpha Phi Omega is one of the three hundred chapters now organized in colleges and universities throughout the United States. Alpha Phi Omega is a national service organization which was founded in 1925 at Lafayette College, Easton, Pennsylvania, by Mr. Frank Reed Norton. The Clemson chapter has been established on the campus since 1940.

The qualifications for membership in the fraternity are: a desire to render service on campus, a desire to develop leadership, satisfactory scholastic standing; and having been affiliated with some phase of the Scout Movement. The fraternity was formed to strengthen men in the Scout ideals, to give them an opportunity for leadership experiences, and for service to others.

There are four fields of service for Alpha Phi Omega members: service to the student body and faculty, service to youth and the community, service to the nation as participating citizens, and service to members of the fraternity.

Service projects are conducted each year by Gamma Lambda. To participate in the spirit of service the Clemson chapter's activities include the issuing of Career to seniors and sponsoring the "Ugly Man On Campus" Contest each year. The money raised in the contest is for a worthy charity. Each year the chapter publishes a desk blotter giving the calendar of events for the year.

APO members pose by shield.

Dean Coakley and Dean Cox were guests at APO banquet.
Iota Mu Sigma Promotes Scholarship, Leadership

Iota Mu Sigma is the honorary professional fraternity for students majoring in the Industrial Management curriculum. The membership consists of the charter members and such members as are duly elected. Selection of nominees for membership are from those members of the sophomore, junior, and senior classes of the Industrial Management Department who have shown outstanding scholastic ability as well as potential leadership qualities.

The purpose of the fraternity is to promote scholarship, leadership, and fellowship among the members of Iota Mu Sigma, to promote better relations between students and faculty, to be of service to the Industrial Management Department and Clemson University, and to promote further study and education preparatory to entering the field of Management.

Iota Mu Sigma gives two awards to the two most outstanding students in the Industrial Management curriculum on Honors and Awards Day. The fraternity strives to provide interesting functions that are helpful to outstanding Management students.

Gamma Beta Phi Works for Scholastic Achievement

The Gamma Beta Phi Society is a national honorary scholastic organization dedicated to the purpose of promoting scholarship, leadership, and good citizenship at Clemson University.

Traits such as these are found only in the best individuals. These students enjoy doing services for their school which is a primary function of the club.

In an age when the desire for outstanding academic achievement is often lost to other lesser things, Gamma Beta Phi is a welcome retreat back to sound values. Scholarship is first and foremost in the eyes of the members of the organization as can be seen in their excellent composite record.

Membership in the society is open to former members of the Beta Club who enroll at Clemson University as freshmen. Other students may become members upon invitation if they attain a GPR of 2.7. All members must maintain a GPR of 2.5 to remain active in the organization.

The Alpha Chapter of Clemson was first organized on March 4, 1965. Gamma Beta Phi's main concern is encouraging students to continue their education with as high a scholastic record as possible.

KEN STOVALL, President

SEATED: Marion Crooks, Judy Floise, Frankie Pitts, Donna Jones, Marilyn Jones, Gail Titcomb. STANDING: Chris Caston, Mike Lawrence, Ben Rook, John Kneeece, Jim Carson, Cody Smith, Stormy Young, Glen Daves, Bob Shoddy, Dick Franklin, Al Franklin.
The professional organizations at Clemson strive to stimulate interest among the students in hopes of directing them in the right direction to make the most of their talents. Each of the schools sponsors a professional organization with the purpose of making available to the students information concerning preparation for a career in a certain field, available job opportunities, facilities available in various occupations, and what to expect in such a career.

The programs of these various organizations include visiting professors who are specialists in their field, and practical experience in projects when available. Besides films, lectures and general business, these organizations sponsor field trips so that the members can be afforded the opportunity to observe their interest in action.

Many of the professional organizations sponsor projects that benefit both their members and the university in general.

Although these organizations are not considered to be social clubs, the members enjoy open houses, parties, cook-outs, and get togethers, so that they can discuss their views and ideas on various aspects of their fields of interest.

Included in the following pages are pictures of the members, informal shots of them in action, and write-ups describing the goals and achievements of the respective organizations that are present on the Clemson campus.
Calhoun Literary Society is Oldest Organization

The Calhoun Literary Society is Clemson’s oldest student organization. Sponsored by the English and Modern Language Department, the group meets with dubious regularity on the first and third Mondays of each month. The Society boasts an unusual slate of informal programs which, focus on varied literary endeavors, whether found in the classics, or otherwise. This year has been heavy on the otherwise. Optimistically, the group selects and reads four recommended books during each semester, and invites someone of the faculty to moderate a seminar discussion of each book. Recent selections have included among others, F. Scott Fitzgerald’s “Tender Is the Night,” Albert Camus’ “The Stranger,” FranyKatka’s “The Trial,” Jean-Paul Sartre’s “No Exit” and Loren Eisely’s “The Immense Journey.” Other programs have featured guest speakers, including Dr. Harold Coolidge of the School of Architecture, who occasionally managed to stay on his subject: “The Parallel of Art and Literature In History.” In October the Society was invited by the School of Architecture to hear a lecture by Mr. Ian McHarg, Head Professor of Landscape Design at the University of Pennsylvania, who spoke on “Man’s Awareness to His Environment.” As a special project for this year, the Society initiated a record collection of plays and readings for the Department of English and Modern Languages.
Student Ag. Council Links Students to Directors

The Student Agricultural Council of Clemson University strives to bring the students of the College of Agriculture and Biological Sciences closer on common grounds through co-ordination of activities of interest to the whole College of Agriculture and Biological Sciences. The Council serves in an advisory capacity to the Director of Teaching and Dean of Agriculture, and promotes interest in agriculture and biological sciences among pre-college youth of this state. The latter is administered through "operations Contact," which had as its primary intent the familiarization of the prospective college student with Clemson University and the challenge in agricultural professions. The Council is a direct channel for exchange of constructive ideas between the students and faculty.

The Student Agricultural Council is composed of one representative from each of the technical, special interest, honorary, and social organizations within the College of Agriculture and Biological Sciences. The organizations included are the Agricultural Economics Club, Alpha Tau Alpha, Alpha Zeta, the American Dairy Science Association, the American Society of Agricultural Engineers, the Block and Bridle Club, the Forestry Club, the Agricultural Education Club, the 4-H Club, the Horticulture Club, Kappa Alpha Sigma, the Poultry Science Club, Pre-Vet Club, the Biological Science Club, Alpha Gamma, Zioigma Pi, and Food Technology.

Council members make plans for meeting.

Agriculture Education Club Stresses New Methods

In May of 1965, the name of the Collegiate Chapter of the Future Farmers of America was changed to the Agriculture Education Club. The purpose of this organization is threefold: to train prospective teachers of agriculture, to develop competent agricultural leadership among college students, and to provide active members the opportunity to continue the FFA affiliation.

The program of work is based on activities considered essential in the training of prospective teachers of Vocational Agriculture as competent advisors to local FFA chapters on the high school level. This chapter also provides its members the opportunity to attend meetings at which are present outstanding speakers in the field of agriculture. As far as possible the club sponsors field trips for its members so that they can observe many facets in the field of agriculture.

Membership in the club is composed of students enrolled in Agricultural Education and other students who were FFA members in high school.

This organization has done much to bring the agriculture students of Clemson closer together, and it provides means for them to keep informed about the day-to-day advancements and achievements made in the field of agriculture.

Due to new advancements in agriculture, there is an increasing interest in this field as shown by the increase in membership.
The Agricultural Economics Association was reorganized in September of 1955 for the primary purpose of creating and promoting fellowship among the students who are majoring in Agricultural Economics at Clemson University.

Other purposes of the club are to study current agricultural and economic problems and to provide opportunities for better acquaintances among members and professional workers in the agricultural social sciences. The association is very beneficial to the students in making available all current information and advice concerning the field of Agricultural Economics.

Programs featuring speakers from various fields of agriculture and field trips of interest to the students are sponsored by the club throughout the school year. One important project involves the preparation and distribution of a vocational guidance bulletin to encourage high school seniors to come to Clemson and to promote interest in the field of Agricultural Economics.

The club strives to offer several social benefits along with the academic and vocational programs. Along with these social activities, the association participates in various service projects during the school year. Some purposes of the club are: to study current agricultural and economic problems, to obtain an understanding of the services that agricultural economists can render, and to provide opportunities for better acquaintances among members.
The Clemson University Chapter of the American Dairy Science Association was founded in September of 1922 by Professor B. E. Goodale. At that time the Dairy Club was the only department club in existence at Clemson. All students are encouraged to join and to take an active part in this organization which is designed to bring together students who are interested in the dairy industry.

The club participates in all campus activities and is recognized by the Council of Club Presidents and the Student Agricultural Council. This recognition, however, has not been limited to the campus. Since the formation of the Southern Branch of the ADSA in 1960, Clemson men have dominated the offices of the thirteen-state organization, serving as secretary and treasurer, third vice-president, second vice-president, first vice-president, and three times as president. Clemson is also quite proud to have had one of its men serve as President in the National Student Branch of ADSA.

At the annual awards banquet each spring, the Dairy Club Achievement Award is given to the senior who has made the greatest improvement during his four years at Clemson. This award is the only one given by the club and is held in very high esteem by its members.

ADSA Presents Annual Achievement Award
Block and Bridle Club Promotes Animal Industry

Block and Bridle members learn how to judge livestock.

Club member inspects beef.

W. C. STANFORD, President
The Clemson University Block and Bridle Club is the professional club of the Animal Science department. It is affiliated with the National Block and Bridle Club and is one of forty-two such clubs throughout the nation. The purpose of the club is to promote an interest in livestock and the livestock industry.

Membership consists of animal science majors and other students in the College of Agriculture with an interest in livestock.

The club sponsors a spring and fall barbecue each year to finance the club activities. The club sponsors a meat judging team which competes in Baltimore and Chicago each fall. A junior livestock judging team competes in the Southeastern livestock judging contest each spring and a senior livestock judging team travels to Memphis, Atlanta, and Chicago each fall. The senior livestock judging team takes a statewide trip each year to view the livestock and the livestock industries of the state. The club finances all these trips. Several members also attend the national Block and Bridle Club meeting in Chicago each year. Each semester a fifty-dollar scholarship is given to a qualified junior in the club.

Cookouts highlight the initiation programs each semester. Every spring the club sponsors a livestock evaluation contest and a livestock judging contest. Trophies and ribbons for these events and other club awards climax the year at the annual banquet.

Block and Bridle members learn how to shear sheep.

Club members make many trips to the farm.
Forestry Club Holds Its Annual Spring Conclave

The Forestry Club, organized in 1957, is composed of forestry students, faculty members, and extension and research personnel concerned with the forestry profession. Membership in the club provides the student with a better understanding of his profession and a closer relationship with the faculty and professional foresters.

Since its inception, the club has been organized around the Department of Forestry, which offers a B.S. and M.S. degree in forest management. The club seeks to develop a professional understanding of the problems concerned with forestry by having practicing foresters and other qualified persons to address the members at club meetings. Not only does the club provide a means for the forestry student to enjoy club activities and fellowship, but also it gives a better understanding between students and faculty.

The annual conclave, which is the highlighting event for the club, is centered around the various arts and skills with which a forester is concerned. A local contest is held each spring to determine the representatives to the AFSC conclave which will be held this year at Stephen F. Austin State College.

It was through the efforts of the Forestry Club that the Department of Forestry at Clemson was accredited by the Society of American Foresters.

Forestry Club practices for conclave contest.
The Clemson Horticulture Club is a member of the student branch of the American Society for Horticultural Sciences. Membership is open to all Horticulture students and any students interested in the field. It is a charter member of the Association of Collegiate Branches of the American Society for Horticultural Science. Some objectives of the club are: to promote the professional aspects of agriculture pertaining to horticulture and to develop a spirit of fellowship among its members.

Cook-outs are held, as well as the annual picnic given for the students by the faculty. The year's social events are terminated by the annual Spring Banquet which honors graduating seniors.

The club's financial backing is a result of the "Juice Sessions" which are held several times during the school year. With the profits, the club is able to finance its "Newsletter," social activities, and convention expenses.
Clemson 4-H Club Has Varied Service Projects

Objectives of the 4-H Club are to establish closer relationships students and faculty members and to train its members for leadership. The club was formed in 1952 by those students who had previously been members of 4-H Clubs in high schools across the nation. These students felt the need for a 4-H organization at Clemson to maintain their social and service contacts with students and alumni having similar interests.

The club offers members a chance to become productive and useful citizens in community life through its leadership training and varied service projects rendered throughout the year. Monthly meetings offer opportunities to evaluate progress on service projects and to absorb new ideas from guest speakers. Meetings are open to all students. Various social events add a lighter side to the club's yearly activities.

FRED GASSAWAY, President
Kappa Alpha Sigma Creates Interest in Agronomy

Kappa Alpha Sigma is a professional organization designed to help foster a spirit of cooperation and mutual helpfulness between the students and the Agronomy Department, and to create more student interest in subjects related to agronomy. Activities in leadership are also stressed for club members, and many advances have been made in these activities this year. Jimmy Vaignon has been selected as winner of the local speech contest and represented the club in the National American Society of Agronomy Speech Contest held in Columbus, Ohio. There has been enthusiastic competition in the soil judging team this year, and the local winners were sent to the regional contest in Kentucky in October. There has been participation in the National Agronomy Society of America Essay Contest held in the spring.

Social events have been very outstanding this year. In September, there was a most successful cookout which was attended by the faculty, graduate students, and undergraduates, as well as new members of the Agronomy Department. Other major social events included the annual Senior and Awards Day Banquet held in April and a spring picnic.

An educational trip was also planned for all members of the club, along with many other club sponsored projects. The year proved to be one of the most active and successful years ever for Kappa Alpha Sigma.
Pre-Vet Students Create Interest in Profession

The Pre-Vet Club is made up of students majoring in Pre-Veterinary Medicine and others who have a sincere interest in Veterinary Medicine. The Pre-Vet Club strives to aid the Pre-Veterinary student and to develop an appreciation of the Veterinary profession. The club meets twice a month, and the programs consist of films, field trips, and speakers. At the first of the year a cookout is held for prospective members, and at the end of the year a banquet at which the guest speaker is usually from the School of Veterinary Medicine at the University of Georgia.

During the school year, the upperclassmen make two trips. The first is to the State-Federal Livestock-Poultry Health Laboratory in Columbia, and the second, an open-house at the School of Veterinary Medicine, University of Georgia. At the diagnostic laboratory in Columbia, the members observe how the veterinarians and laboratory technicians aid in combating diseases of livestock and poultry. At Georgia, the members tour through the lecture rooms and laboratories. They observe scientific displays, operating techniques, and proper procedures of handling livestock.

Through the trips, meetings, and suppers, the Pre-Vet Club strives to create a sincere interest and pride in the profession of Veterinary Medicine.

John Baker, President
Student Chapter AIA Unites Architecture Students

The Clemson University Student Chapter of the American Institute of Architects is sponsored by the South Carolina chapter and is closely affiliated with the national organization. The student chapter is open to students in all five years of the curriculum in architecture and is organized to unite the students and acquaint them with the profession.

In order to accomplish these goals, the AIA sponsors a film series each semester which includes topics in related fields, such as painting, sculpture, urban planning and design. Students and professors in other schools on campus are invited to attend this film series in order to further relate their fields of study with architecture. To extend the exposure of architecture students to other endeavors, the AIA supplements the film series and sponsors guest lecturers at its bi-weekly meetings. Social activities sponsored by the AIA include a fall picnic and the Beau Arts Ball in the spring.

The Clemson Student Chapter sends delegates to the National AIA Convention in the summer and also to the Student Forum in the fall in order to participate in the activities and to bring new ideas back to the chapter members. As a participant in the national organization, the students in the AIA have elected to contribute to the War on Ugliness by sponsoring films and meeting with town organizations to discuss possible projects for the improvement of Clemson town and campus.

ACS Strives for the Advancement of Chemistry

The Clemson University Chapter of Student Affiliates of the American Chemical Society is the local chapter of the world's largest organization dedicated to a single science. Membership in the local chapter is open to all undergraduates majoring in chemistry, textile chemistry, and chemical engineering. The specific purposes, as set forth in the constitution of the local chapter, are to afford an opportunity for the students to become better acquainted, to secure the intellectual stimulation that arises from professional association, to foster a professional spirit among members and to instill a professional pride in chemistry and chemical engineering. The chapter meets twice a month during the school year. The varied programs include films and talks by scientists and men from industry.

A new activity undertaken this year was the maintenance of a study hall. Freshmen and sophomores can get help with their chemistry courses four nights a week at a designated location.
Calhoun Forensic Society Promotes Debating

The Calhoun Forensic Society, named for South Carolina's John C. Calhoun, is composed of students who have an interest in any aspect of speech activity. The purpose of the organization is to further an interest in rhetoric and debate.

The society represents Clemson in intercollegiate tournaments throughout the Southeast. The annual program includes the Dixie Tournament at Mercer University, the Peachtree Tournament at Emory University, the Duke Invitational, and the Atlantic Coast Conference Tournament. The main interest of the society is debate; but members also participate in individual speech contests at most tournaments. In addition to participation in these national tournaments, members are also active in many campus functions.

The experience and knowledge gained from debate is both valuable and rewarding. Many methods and techniques learned through debating are directly applicable to academic courses. Other advantages are the development of both a logical pattern of thought and an ability to do effective research. Members also have the opportunity to visit other campuses and meet students from other colleges.

The Clemson University Education Association is the pre-professional association for Clemson University students preparing to teach. Any student enrolled in education and preparing for a career in the teaching profession may join the club by becoming a member of the student National Education Association and National Education Association.

Being a new organization, Clemson University Education Association has no past activities, but plans to sponsor a high school visitation day at Clemson next year for the Future Teachers of America.

The purposes are to develop understanding of the teaching profession through participation in the work of local, state, and national education associations and to understand the history, ethics, organizations, policies, and programs of such organizations, to interest capable young men and women in education as a lifelong career, to encourage selective standards for persons admitted to teacher education, and to gain practical experience in working together and with problems of the profession and of society.

By bringing about an interest in the teaching profession, the Clemson University Education Association furthers the education of the participating members in addition to serving the needs of society. The Clemson University Education Association does indeed further education.
Delta Sigma Nu Speakers Give Helpful Advice

Delta Sigma Nu, founded in 1946, is Clemson's Pre-Medical fraternity. In celebrating its twentieth year on the university campus, it promotes close fellowship among its members who desire to pursue the medical or dental profession. Another fraternity objective is to familiarize its members with current information pertaining to medical or dental school entrance requirements.

A student must have at least the minimum grade-point ratio required for admission to medical or dental school before he is eligible for membership in the fraternity. An active desire to pursue a medical career along with many other traits, qualities, and characteristics are additional requirements for membership. Membership is attained only by invitation. The number of pre-medical or pre-dental students at Clemson is steadily increasing; and the fraternity receives more importance with the increase of students.

The fraternity's activities range from member discussions and informative lectures to tours of hospitals, visits to regional medical and dental schools. The activities are designed to stimulate a higher plateau of understanding of the medical profession. The highlight of the club's activities is an interesting field trip to the Medical School of Charleston.
Iota Lambda Sigma Promotes Industrial Education

Iota Lambda Sigma is a national, professional, industrial education honor fraternity. The Gamma chapter, organized at Clemson in May of 1930, was one of the first fraternities to honor those students of a particular major. Membership is limited to those juniors and seniors in Industrial Education maintaining a "B" average in their academic field.

The purpose of this fraternity is to promote the purposes of Industrial Education. This is attempted in three ways: the recognition of professional training, the recognition of high scholarship, and the creation and maintenance of a close fraternal bond between actual and prospective teachers in this special field.

Outstanding speakers in education acquaint the students with the problems that they can expect in their respective fields. Banquets and drop-ins bind closely the fraternal ties among the members. Techniques learned in the classroom and laboratories are compared and each member benefits not only from what he has personally encountered, but from the experience of others as well.

Promoting Industrial Education and outstanding achievement, Iota Lambda Sigma performs services to the University, the community, and the nation. As a result of this activity, Iota Lambda Sigma grows into a better fraternal organization.

Young Republicans Promote National Party Ideals

The Clemson University Young Republicans Club was founded in 1960 to promote the ideals of Progressive Conservatism. The club participates in political campaigns, conventions, and many other aspects of the Republican Party's activities in South Carolina. The club is united with other South Carolina Young Republican Clubs through the South Carolina Young Republican College Caucus. As the largest club in the caucus, Clemson holds two of the most important state offices. Chip Spradley holds the office of co-chairman, and Wendell Shealy, holds the Recording Secretary position.

Under the leadership of Curtis Clinkscales, the Young Republicans have made this year their most active. In the fall speeches delivered by Senator Strom Thurmond (R-S.C.) and Representative Albert Watson (R-S.C.) were heard by the students. A new reading room was opened in January in the library by the club for student use. It provides conservative literature and much other information. The club sponsored candidates for the Miss Clemson University contest and Homecoming Queen.

Membership in the Young Republicans Club is open to all students who are interested in the Republican Party.
Young Republicans Emphasize Politics

Members relax before meeting.

Curtis Clinkscales presides over meeting.

Senator Thurmond pauses while addressing the Young Republicans.
American Ceramic Society Enjoys Annual Banquet

The student chapter of AIChE was established on the Clemson University campus in 1948. Sophomore, Junior, and Senior Chemical Engineering students are eligible for membership. The student chapter serves as a link between students of Chemical Engineering and the national institute; for this reason student membership is encouraged.

Through speakers from both on and off campus, the chapter serves to keep the student engineer well informed on up-to-date subjects of engineering and human interest. The participation by the members and faculty develops a close relationship within the chapter. The chapter also keeps Earle Hall open week nights in order that the students may study there. A variety of social functions are given each year by the local chapter. The chapter sponsors a party each semester and one steak supper for the student members and the Chemical Engineering faculty during the year.

Through these activities its members have gained useful knowledge that will aid them in their future.

The student chapter fulfills its purpose by stimulating interest and increasing knowledge in fields related to a career in professional engineering.

The student branch of the American Ceramic Society is composed of all students majoring in Ceramic Engineering. Since its beginning in November of 1949, this organization has grown and has become an important part of the Ceramic Engineer's curriculum at Clemson. Important speakers from the ceramic industry often appear and give talks which help the students become more familiar with the industry and the future toward which they are striving.

The student branch of the society also serves as a link between the students and the national society which provides literature concerning the latest ceramic techniques and developments.

Other activities of the society during the year include trips to conventions, plant tours, and socials. During Homecoming weekend, the society also participates in the activities by building a display and by entering a representative in the beauty contest. Finally, a banquet for all of the members is held at the end of the year. The purpose of this banquet is to honor students of high merit and scholarship.
AIIE Commemorates Its First Year on Campus

This is the first year for the American Institute of Industrial Engineers, Student Affiliated Club, on the Clemson University campus. The organization was formerly known as the Society of Industrial Engineers; the name-change occurred upon recognition by the national organization.

The purpose of the AIIE is to stimulate and to promote the interest and advancement of Industrial Engineering at Clemson University. This purpose is carried out by presenting programs that will give the students a better insight to the traditional and more recent concepts of the I. E. field.

Speakers coming from various industries, such as Saco Lowel Shops in Greenville, S. C.; Chemstrand Company in Decatur, Alabama, and Sunnen Honing Company in Charlotte, N. C., are the highlights to the semester schedules. Several plant trips are made to nearby manufacturing plants in order to see the industrial engineer at work. All of the year’s activities are brought to a close with the annual spring banquet usually held during the middle of May.

Students entering into the ranks find new barriers in membership requirements. The main qualification is that the student be enrolled in the Industrial Engineering curriculum and upon completing the mild initiation program, the students are gladly welcomed into the ranks of the professional society.

Detailed drawings reveal many hours of hard work.
AIIE members work hard on their project for the year.
ASAE Keeps Students Informed on New Information

The ever-increasing demand for engineers in agriculture is met, in part, through ASAE. The South Carolina Student Branch of the American Society of Agricultural Engineers seeks to promote student interest relating to professional development and to the parent society. The student branch was formed in 1939 by a group of interested students.

Club membership is open to any student in Agricultural Engineering with the exception of first semester freshmen. The ASAE holds bi-monthly meetings at which time programs are presented to keep the student up-to-date with the changes in agricultural engineering. The programs are designed to keep the interest of the student by having different speakers, movies, and projects relating to agriculture.

Field trips are taken to observe new developments in agriculture and to explore the field by visiting implement manufacturers, rural electrification systems, and soil conservation projects. Last year the club toured T.V.A. Engineering Laboratories in Norris, Tennessee; T.V.A. Bull Run Power Plant in Bull Run, Tennessee; Athens Power Company in Athens, Tennessee; and Oak Ridge Museum of Atomic Energy in Oak Ridge, Tennessee.

W. H. ALLEN, President

Agricultural Engineers hear latest information on a field trip.
ASCE Developes Better Civil Engineering

The American Society of Civil Engineers was organized to promote high professional standards and ethics among its members and to further and initiate new developments in the field of civil engineering. This organization ranks as the oldest national engineering chapter in the United States.

The Clemson University student chapter of ASCE provides the opportunity for the beginning of professional acquaintances and associations. Membership in the student chapter assures that contacts can be made with the business men and leaders who are responsible for the never-ceasing progress. The society offers to its members many advantages and opportunities, such as guest speakers, to keep them well-informed on the practical and everyday aspects of the world of engineering. The organization helps the student realize what he may expect upon graduating and entering the complex, but interesting, life of a civil engineer.

The professional periodicals, pamphlets, and other publications of the American Society of Civil Engineers are made available to the student chapter and serve to keep the student well informed about his future profession.

High academic and character requirements are expected of each member of the Clemson University chapter. Membership in the ASCE is limited to those persons majoring in Civil Engineering.

The Clemson University chapter of the American Society of Civil Engineers is continually serving each of its members. This organization ranks as one of the top engineering and professional societies on the Clemson campus. To all Clemson University students and faculty who have a genuine professional interest in Civil Engineering, the Clemson chapter of the ASCE will continue to provide its excellent service.
Furthering Profession is the Goal of the ASME

DAVID C. BRAGDON, President

Robinson, W. L.
The American Society of Mechanical Engineers is a national engineering society dedicated to the advancement of the engineering profession. Any mechanical engineering student in good standing may become a member. During the school year meetings are held two times per month at which time business is discussed and guest speakers, ASME members get an idea of what their profession will entail after graduation.

After the student ASME member has graduated he still may be a member of the ASME. He will be of a higher rank and will be associated with professional engineers across the nation. Through this association with fellow engineers, invaluable experience is gained.

The ASME is a very useful outlet for students of mechanical engineering. Through the bi-monthly meetings, the members can absorb useful ideas from others and convey ideas of their own.

Informative instructions during afternoon lab.
Electrical Engineers Enjoy Informative Lectures

The Clemson University Chapter of the Institute of Electrical and Electronics Engineers is composed of students who are carrying at least thirty percent of a normal full time academic load majoring in Electrical Engineering, the allied branches of engineering, or the related arts and sciences.

The Clemson University Student Chapter, which is one of the larger of over two hundred student branches established in approved colleges and universities throughout the world, gives its members the opportunity to acquaint themselves with the varied phases of engineering through a variety of field trips, guest speakers from industry, national publications, and social functions. The most popular social functions are the various picnics on Lake Hartwell and the annual banquet held during the fall semester. Among the projects undertaken this year were the construction of a homecoming display for the big weekend of the Clemson-TCU game and the organization of a library-lounge in Riggs Hall where the students can refer to publications related to engineering and containing the latest inventions within the field. One of the highlights of the school year is the Regional Convention held last year at the University of Miami, where the student papers are presented.

SAM Holds Successful and Profitable Career Day

The Clemson Chapter of the Society for Advancement of Management, which was formed in 1957, is one of 210 student chapters located across the nation.

SAM seeks to bring the business executive and the student into closer harmony through guest speakers, plant tours, and other related activities. It is the aim of the society to broaden the textbook knowledge gained by the student with the practical experience of the business executive. Through the bi-monthly meetings, SAM members are given the opportunity to hear the members that have made many field trips in this area, gaining a greater understanding of the operations of these firms, and having a chance to meet and talk with many business leaders.

The University-wide Career Day Program is sponsored annually as a service to the Clemson students. This year the program was expanded to include 41 top business executives from over 30 different career fields. The response was excellent, and plans are now being laid to make the '66 program bigger and better than ever. Membership in SAM is open to all students on campus with an interest in management and its related activities.

J. R. JENSEN, President

SAM members settle down for another long meeting.

SAM sponsors career day.

AATT Promotes Interest in Textile Technology

The local student chapter of the American Association for Textile Technology was first organized at Clemson after dissolving of the National Textile Management Society in 1962. Members of the old NTMS felt that they would benefit more from a nation-wide organization and thus affiliated themselves with the AATT, an excellent national textile organization. The objectives of the student chapter of the AATT are to provide students means of becoming associated with the organization of AATT and to advance at the local level the aims and goals of the parent national association.

The purposes of the AATT are to provide Clemson's textile students with an early means of becoming acquainted with all aspects of the textile industry and its policies and to encourage understanding in the field of textile technology and marketing. Another immediate objective is to develop a fraternal spirit in hopes that this spirit will create enthusiasm in the chapter's activities. This is accomplished through movies, speakers from industry, and field trips to various textile and machinery plants within this area.

All undergraduate students are eligible to become members of the student chapter of the AATT if their curriculum includes at least one major course in the field of textiles. To these members comes the opportunity to get a close-up look at a growing and dynamic textile industry of which they may someday be a part.

Experience is gained in lab.

AATT members learn much through practical application.

LARRY K. LOTT, Vice-President

Ambrose, G. W.
Craig, E. G.
Guin, K. E.
Lee, J. E.
Members gather for instructions about textile machinery.
The Student Chapter, American Association of Textiles Chemists and Colorists (AATCC) helps complete the Textile Chemistry student's life during his stay at Clemson University. After graduation, the student may join and become a junior member in the National Organization of the AATCC, which was founded in 1921 and now numbers over seventy-five hundred professional men.

The purpose of the AATCC, unchanged over four decades, remains: "To promote the increase of knowledge of the dyes and chemicals in the textile industry, to encourage in any practical way research work on chemical processes and materials of importance to the textile industry, and to establish for the members channels by which the interchange of professional knowledge among them may be increased."

The student must major in a field related to Textile Chemistry in order to qualify for membership. The chapter welcomes all students of Clemson University and offers them an opportunity for fellowship with other members of their curriculum. Activities of the Student Chapter include two steak suppers and two plant trips annually. These trips to such plants as Chemstrand, American Enca, and Utica Mohawk allow the students to see the practical application of the processes they are studying.
SOCIAL

Since their birth in April of 1956, social fraternities have grown and developed into an integral part of Clemson University. The fraternity system consists of nine fraternities, eight of which are located on the lower quadrangle of the campus, and three sororities whose members live in the Women's Residence Halls.

There are many opportunities and benefits to be gained from participation in social organizations. The most important benefit to be gained, perhaps, is the intangible quality known as brotherhood. Brotherhood builds such beneficial characteristics as leadership, understanding, and initiative.

The fraternities and sororities contribute actively to such key student activities as Tigerama, Homecoming displays, the intramural program, and Student Government. These organizations are interested in social endeavors, but they compare most favorably in an academic sense with any other group of Clemson students.

The fraternity system at Clemson continues to grow and improve. It has the opportunity, in fact the obligation, to help produce the kind of men and women who can operate constructively in the world which we are now living. The fraternity system is at Clemson to serve the university.
IFC Coordinates Activities Among Fraternities

The Inter-Fraternity Council of Clemson University was founded in 1959 by the several existing social fraternities. In the seven years of its existence, the council members have grown to nine in number—the latest addition being Alpha Gamma in 1965.

The primary purpose of the IFC is to serve as the coordinating and governing body of Clemson's social fraternities. It coordinates inter-fraternity sports competition and sponsors the annual IFC Christmas party for underprivileged children. The council strives to provide an atmosphere in which the fraternity system at Clemson can flourish and grow. To help accomplish this end, the IFC has established over the years a closely knit relationship with the administration and student government.

The September Open House ushered in the IFC-sponsored social functions for first semester, followed by a second Open House in November. An IFC dance for fraternity men, their dates, and guests closed out the IFC social calendar for first semester. The annual Rush Week activities launched the IFC program for second semester. The IFC-sponsored Greek Week activities in the spring climaxed the social year for the fraternities and the IFC.

Neil Robinson explains rules for fraternity Rush Week.

The annual Christmas Party gives IFC a chance to make "little friends" happy.
Alpha Gamma Becomes
Clemson’s Newest Frat

Alpha Gamma was accepted by the Inter-Fraternity Council on April 27, 1965. At this time it became the newest social fraternity on the Clemson campus. When Alpha Gamma was accepted, it brought to a conclusion much hard work by the people who organized the fraternity. To the twenty-three members who were accepted into the Alpha Gamma, it was only the beginning of work for which they had no precedence to follow.

Alpha Gamma is a fraternity for men who have a common interest in agriculture; and it is from this nucleus that they branch. Although members of the fraternity do not have to have lived in a farming area, most of the brothers have lived on a farm. This specification was incorporated into the constitution to make the close, fraternal spirit more meaningful.

The brothers of Alpha Gamma are not only interested in the social aspects of the fraternity but also in academic standards and service benefits to Clemson University. Alpha Gamma participated in all intramural and IFC events. They built a Homecoming display and entered a skit in Tigerama. Pat Clyburn, Alpha Gamma’s sweetheart, was selected Clemson’s Homecoming Queen for the 65-66 school year. Greek Week climaxed the first year of activity for Alpha Gamma and completed the first chapter of its history as a social fraternity at Clemson.

Alpha Gamma joins the other fraternities in having smokers during Rush Week.
O'Neal enters into the discussion at Alpha Gamma fraternity meeting.

Alpha Gamma's display adds to the colorful festivities during Homecoming weekend.
Delta Kappa Alpha received its charter as one of Clemson's first social fraternities on December 14, 1959. At that time a close brotherhood was formed among the original fifteen members. This brotherhood, based on the highest of ideals and dedicated to the enrichment of college life, has proved to be an asset to the entire campus and community.

In the past, Delta Kappa Alpha has participated fully in intramural sports, Tigerama, Homecoming display contest and all other phases of college life. Brothers of Delta Kappa Alpha can be found in every honor society at Clemson, on nearly every athletic team, in every phase of Student Government, and in many other positions of honor and responsibility. Today Delta Kappa Alpha numbers among its brothers, past and present, some of Clemson's greatest men. The future promises even greater accomplishments for this dynamic assembly of gentlemen. Through the years, even though Delta Kappa Alpha has grown and expanded its interests, it has managed to preserve the sense of Brotherhood and fraternal love that bound the original fifteen to a single purpose of projecting Delta Kappa Alpha into its present position as a campus leader and pace-setter among fraternities.

Deacs Tie for Overall Trophy in 1965

"Quit fighting, this will add character to the display."
DPK Extends Standing Invitation to Visitors

Since its organization in 1962 Delta Phi Kappa has continued to strive for unity through brotherhood. Brotherhood fosters high ideals and also the beginning of many friendships that will last a lifetime. Delta Phi Kappa promotes brotherhood through its framework of social life and art of harmonious living.

This year DPK held parties, dances, drop-ins, and houseparties at the beach and in the mountains. The fraternity also ranked high in homecoming activity and in intramural softball and football. The brothers participated in all phases of student life including the Student Government, professional, scholastic, and honorary organizations, and athletics. DPK continues to add to their collection of trophies and awards; and each award continues to be the result of a fraternal effort, whether it be the result of an Inter-Fraternity activity or a campus activity.

Delta Phi Kappa brothers seldom are unwilling to give up a little enjoyment for the fraternity interest, this being the true manifestation of brotherhood. The brothers are always ready to help each other in any project or problems, in addition to giving academic help. There is always a welcoming smile and an informal atmosphere at the “Kappa Kove,” and DPK issues a standing invitation to anyone who wants to drop by to see them.

“Don’t pout, I’ll dance with you next.”

“Melodic Makers” provide dance music for DPK rush party.
From its founding date, February 24, 1960, Kappa Delta Chi has continued to grow in size, fellowship, and closeness. A mutual interest in Clemson University, campus activities, and social functions have established the Chi history; and throughout that history, the principles of leadership, scholarship, and personal responsibility have always been emphasized.

The Chis enjoy participating in fraternity, intramural, IFC, and campus-wide activities. The KDX calendar is filled with such events as parties in football and dance weekends, Homecoming display and Tigerama projects for the annual Homecoming weekend, athletic contests in intramural and inter-fraternity competition, houseparties in the mountains and at the beach, and the annual Fraternity Sing contest and related Greek Week activities.

Other fraternity projects include bringing their "little brothers" from the Boys of America Home in Easley to Clemson for football games, helping with the IFC party for underprivileged children, sponsoring a picnic for parents and alumni at Homecoming, and publishing a fraternity newspaper for alumni brothers. Last year the brothers retired the coveted Overall Trophy for excellence among fraternities.

Closeness in brotherhood is shown in KDX in these activities and in its day-to-day associations among brothers; and its scope is evidenced by fellowship with friends. "No man is a stranger in our house."
Kappa Sigma Nu Enjoys Houseparty at Lake Rabun

E. EARL BURCH, President

SCOOTY WALPOLE, Sweetheart

Gary keeps close watch over "punch" bowl during smoker.

J. V. REEL, Advisor

Steve proudly displays KSN's scrapbook to rushee.
A strong dedication to their purpose as a social fraternity and an increasing effort to excel in all they undertake continues to bring coveted recognition to Kappa Sigma Nu brothers as leaders academically, athletically, and socially.

This year Kappa Sigma Nu illustrated its high standards of achievement in their Tigerama skit, which they prepared for the homecoming festivities, as well as in their homecoming display.

The annual houseparty at Lake Rabun, Georgia, was held in the fall of 1965, while the fraternity's social calendar was further highlighted by a big dance on Homecoming week-end and the Christmas Party.

Again, during the lapse of the school year, Kappa Sigma Nu presented the 1966 "Country Gentlemen’s Sweetheart Ball" in the celebrated splendor of the 1840's.

This year the numerous visits to the fraternity during the school year by the fraternity’s alumni served as authentic reminders of the deep meaning the brotherhood of Kappa Sigma Nu has for its members. Kappa Sigma Nu instills within the alumnus a most valued sense of pride which reaps for him untold benefits throughout his life.

Kappa Sigma Nu participates in Greek Week activities.

For the past ten years, the Numeral Society has perpetuated its initial purposes and ideals in service and brotherhood to Clemson University. With the founding of the Numeral Society in 1956, a precedent was set and an atmosphere was created that led three years later to the founding of the first seven social fraternities at Clemson.

The Numeral Society is dedicated to perpetuating school spirit to make Clemson grow, to upholding, developing and strengthening the character of its members, to promoting brotherhood among its members, and to providing for their social development. Practically all fields of study are represented in the Numeral Society. The members take pride in their fraternity's service contributions each year. The Numeral Society is responsible for the annual Homecoming float. The members also build a Homecoming display and participate in Tigerama. They distribute pep slogans at each football game to promote school spirit.

All the members enjoy the many and varied social activities such as houseparties in the mountains and at the beach, parties on dance weekends, and an annual trip to Camden for the "Carolina Cup." Members have held and continue to hold a wide variety of campus positions. The brothers boast of a commendable record of participation in virtually every major activity on the Clemson University campus.

The doors of the Numeral Society are open to everyone—especially to those who would like to become a part of this organization in brotherhood.
The 1965-66 school year saw Phi Kappa Delta enlarge its scope of social and service functions as a fraternity, while its members also increased their individual honors. Included in the various projects were the three ring circus display for Homecoming, a skit for Tigerama, and a presentation in the Fraternity Sing, as well as helping out in the IFC’s Children’s Christmas Party and other school activities.

As the fraternity’s work grew, so did the fun as the “Phi Kapps” played in all the intramural sports while making the best of the CDA dance weekends, went to the North Carolina mountains for a fall houseparty, took to the beach for their annual Summer Houseparty, and held miscellaneous parties on the weekends in between.

Along with time for studies and time for the fraternity, the members of Phi Kappa Delta also found time to make such contributions to the University and to their fellow students in Student Government as Senior Class President, Student Body Vice-President, and Class Senators, while others served on the Taps, the Tiger, and the Chronicle. “Phi Kapps” were also active in the CDA, Tigerama, Junior Follies, the Pershing Rifles, and the IFC Executive Board, as well as varsity sports, the Block "C" Club, and honorary organizations including the Blue Key, the Tiger Brotherhood, and three members of Who’s Who.

The year seemed to go fast for the “Phi Kapps” as they worked, played, and lived together, learning and growing in the Brotherhood for their Fraternity.

“Phi Kapps” begin early on Homecoming display.
In 1959 seven Clemson men founded the first fraternity on this campus created primarily for social purposes—Sigma Alpha Zeta. Since that time this fraternity has strived to develop excellence of character among its members, as well as to provide an enjoyable social life. It is part of the purpose of this fraternity to aid each member to grow in maturity through its spirit of brotherhood.

Although Sigma Alpha Zeta’s prime purpose is social, it does not neglect the academic side of college life. The demonstration of a graduating grade-point ratio is required for brotherhood. High grades are further encouraged by the presentation of a scholastic trophy to the brother with the highest grades each year.

Sigma Alpha Zeta continuously strives for variation in its many social activities. Last year a chartered bus trip to the University of Georgia football game, a dance on the Fraternity Quadrangle for the student body after the Homecoming game, and a house party at the beach during the spring semester were new additions to the Zetas social season.

It is the function of Sigma Alpha Zeta to give its members every opportunity to grow in character, responsibility, and maturity. Each member believes that by maintaining the high ideals of this fraternity he is working toward a better Clemson.
In December of 1959, Sigma Kappa Epsilon was organized on the Clemson campus as a closely knit brotherhood of young men united in common goals. Over the years they have continued to grow; and today the brothers of SKE are proud of the part they play in the development of Clemson University.

The SKE's enjoy an active social life during the school year. Through parties, drop-ins, dances, and mixers, they provide the needed breaks in routine university life. The brothers of SKE also realize the importance of an education and strive to promote scholarship among its members.

The SKE's participate in the varied extra-curricular activities offered on the Clemson University campus. They are active in many school organizations and also take a part in many school and community service projects.

Annually a display is prepared for homecoming weekend and a Tigerama skit is presented. Although the fraternity system of Clemson University is young, it takes a great pride in its growth and success. The brothers of Sigma Kappa Epsilon are happy to share a part of this pride. As a part of the fraternity system they are pledged to the ideals of service, friendship, brotherhood, and scholarship.

Inter-Sorority Council Begins Its First Year

Clemson University Sorority Council was formed in 1965 because of the growing needs of the three social sororities to coordinate their various activities. The council is composed of the president and an elected representative from each sorority. It is the hope of the council to maintain on a high plane sorority life and inter-sorority relations with the university. The tribunal serves as a link between the sorority system, the administration, and the student body. The establishment and administration of rules governing rushing, pledging, initiation and the general deportment of sororities is another function of the council.

One of the main duties of the Clemson University Sorority Council is to plan and to regulate Rush Week. In planning Rush this year, the council gave a drop-in during the first semester to interest girls in sorority life. An ice-water tea was given by the council on the first day of rush held during second semester to acquaint the girls with the procedure of rush.

In addition to Rush Week, the council also helped Sigma Kappa Epsilon, a social fraternity, with the planning of Dixie Day festivities, which was held for the first time in 1966.
Delta Theta Chi, formerly Chi Chi Chi, was one of Clemson's first sororities, organized in November of 1959. The sorority was formed to bring women students into more active and effective participation in the scholastic, social, and service phases of campus life. This being their goal, Delta Theta Chi is composed of outstanding women in both dormitories and day students.

During the school year, the sisters participate in service and social activities at Clemson, such as the Women's Dorm skit for Tigerama, campus clean-up campaigns, and an annual visit to the Rest Home in Seneca. Social events include houseparties at the beach and in the mountains, suppers, and drop-ins.

Rush season is a busy time for any social organization and for Delta Theta Chi, it is no exception. A busy week of drop-ins and ice water teas was climaxed this year by a spaghetti supper for prospective rushees. A two-week pledge season followed, culminated by a pledge supper given by Mrs. R. F. Poole, their advisor.

DTX feels that the sorority sisters embody the ideals of the Clemson woman. Pledges are chosen on a basis of personality, friendliness, scholarship, and a genuine interest in Clemson University. Delta Theta Chi's sisters are united by a common love of service, friendship, and high ideals.
OZT Gives Full Cooperation to Sorority Council

Omicron Zeta Tau Sorority, organized in November, 1959, was the first selective social organization devoted entirely to women students at Clemson. The purpose of OZT is to "foster the best intellectual, spiritual, and social environment."

During the year activities and services of OZT are varied: personal letters of welcome written to all new coeds at Clemson; a Halloween party for a Greenville orphanage; dinners together once a month after a meeting; a house party each semester; a car wash on a dance weekend; participation in Dixie Day; an enthusiastic rush week; and to end the year of activity, the annual house party at the beach.

The first president of the Clemson University Sorority Council is OZT member, Gail Dixon. In keeping with the cooperative spirit of the sorority OZT has taken an active part in the Council's attempts to have all sororities work together to create interest in sorority life.

During Rush Week, to get acquainted with prospective pledges, OZT held a drop-in at Tiger Tavern and a pizza party at Mrs. Bartmess' home. The new pledges were active and enthusiastic as was shown when they worked out a basketball game between OZT and Delta Theta Chi as their pledge project.
Sigma Beta Chi Welcomes Largest Pledge Class

From its beginning date, April 1963, Sigma Beta Chi has continued to grow in size, fellowship, and closeness. The sorority, through increased interest and participation in Rush, has been able to quadruple its original size since its founding. The sisters seek to unite in close friendship Clemson University coeds with common ideals, stressing necessity and importance of leadership, personal responsibility and development, and social life. Sigma Beta Chi has actively stepped forward in its social life on the Clemson campus in helping the Clemson fraternities in giving the annual Christmas party for underprivileged children, providing signs at football games, participating in Tigerama, and planning a Sorority Greek Week. During February of this year, Sigma Beta Chi gave a Valentine Dance featuring the Chevelles. This dance was the first of its kind for the sorority. During the intermission of the dance Sigma Beta Chi pledges were introduced.

The highlight of the year was Rush Week during which the sorority sponsored the annual Jabberwocky party and steak dinner. Each summer Sigma Chi enjoys a house party at the beach as its finale to the school year.

What began as a small group of individuals wanting to further close ties and mutual interests has grown into one of the most close knit sororities at Clemson.
MILITARY

Beginning with the days when Clemson was established as a military school, the military organizations that were formed have always played an important role in the lives of Clemson men. Because Clemson is a land-grant college, the male students are required to enroll in either the Army ROTC or the Air Force ROTC program for at least their freshman and sophomore years. The other two years are optional for physically qualified students. If a student takes ROTC for four years, he receives a reserve officer's commission upon graduation along with the rank of second lieutenant.

The military organizations range from honorary clubs which honor students for excellence in leadership and character to various drill teams which display splendid drill maneuvers. Many of the organizations are affiliated with national organizations and are closely coordinated by the national organization along with the military department at Clemson.

Members of the military organizations participate in parades, drill meets, social functions, as well as educational programs. The annual Military Ball and the other activities undertaken by the military clubs are designed to further the military program at Clemson.
Arnold Air Society Motivates Interested Cadets

Inspired by the late General H. H. "Hap" Arnold, the Arnold Air Society was conceived during the spring and summer of 1947 and is now a national honorary and professional military organization. The Society is "honorary" because of the high standards required of all its members. It is "professional" because of the established intent of its members to become officers in the United States Air Force. The Society's mission is to: 1. further the purpose, mission, tradition, and concept of the United States Air Force; 2. promote American citizenship; 3. create a closer and more efficient relationship among ROTC cadets. The Arnold Air Society is composed of four memberships: active, alumni, associate, and honorary.

The local chapter of the Arnold Air Society is named in honor of the late Major Rudolph Anderson, Jr., a 1948 Clemson graduate who was shot down during a U-2 reconnaissance mission during the Cuban Crisis. It is in the image of such men before them that they as a Society are motivated in the concept of air power. "We may live in fame or go down in flames, but nothing can stop the United States Air Force."

The Society engages in such social functions as the formal Arnold Air Dining-in and such service functions as the up-keep of the Major Rudolph Anderson Memorial in Greenville, S. C. and assistance with the Campus Blood Drive.
DAVID B. GRUBBS, Commander

New Arnold Air members are initiated in the Student Chapel.
Tiger Angel Flight Undertakes Service Projects

The Flying Tiger Angel Flight is a coed auxiliary to the Major Rudolph Anderson Squadron of the Arnold Air Society. Angels function as hostesses and social coordinators for the Society as well as for the Cadet Wing. In addition they also undertake selected service projects within the community. Membership to this chapter of the National Angel Flight is by invitation. Pledges are selected for their poise, personal appearance, and personality during an initial drop-in and a subsequent interview with the Selection Board. After a semester of Pledge work under the Pledge Commander, new Angels are received into full membership in January. This year Angel Pledges planned and modeled in a Fall Fashion Show for a local store.

Tiger Angels also participated in the annual Immunization Drive for the Student Health Service, as well as SAM’s Career Day. In November Clemson’s joint delegation to the Area C-1 Conclave at Warner Robbins Air Base was one of the largest. Angels were helpful in making plans for the National Conclave as well as in discussions about mutual problems with other Flights. In November the Angel Flight had a joint cookie-bake with the Arnold Air Society, the outcome of which was fifty dozen cookies sent to an Air Force squadron in Vietnam commanded by a Clemson graduate. In April a delegation from the Angel Flight was sent to the National Conclave in Dallas, Texas.

JEANNETTE L. HICKS, Commander
The Light Brigade Serves the Army ROTC Program

The Light Brigade was organized in December of 1964 under the sponsorship of the Army ROTC Unit, becoming the second coed military auxiliary unit at Clemson University. The Light Brigade is composed of a group of coeds who have shown an interest in the activities of the Army ROTC. The objectives of the Light Brigade are to sponsor the units organic to the Clemson University ROTC Cadet Corps and to advance and promote the interests of Clemson University and the United States Army. The meetings of the Light Brigade are held bi-monthly. At these meetings the members learn more about the Army and their country. Composed of twenty-two coeds, the Light Brigade serves the Army ROTC Cadet Brigade in a secretarial capacity and acts as official hostess for visiting army dignitaries. They also sponsor the Cadet Brigade in military events such as the annual military field day. The Light Brigade began its duties this year by helping to register the cadet brigade's 1,800 Cadets. In addition, the girls also helped with various Homecoming projects at Clemson and displays at the Anderson and Greenville Fairs. Qualified coeds are chosen as members of the Light Brigade on the basis of character, appearance, poise, personality, congeniality, and interest in the objectives of the Light Brigade. They must also maintain a minimum grade-point ratio of 2.0 in order to remain active members of the Light Brigade of Clemson University.

Scabbard and Blade Sponsors Military Banquet

Since 1933 Scabbard and Blade has been an active organization on the Clemson campus. A national honorary society, Scabbard and Blade is the highest, most esteemed college military organization in the United States.

Membership in the Society is select and is looked to as the highest honor an advanced ROTC cadet can achieve. Twice each year the members conduct a formal selection board to which prospective candidates for membership are invited and are individually questioned by the society to determine and judge their qualifications. Members are chosen on the basis of their meritorious achievements, and their military bearing and attitude. They must be both "an officer and a gentleman."

The purpose of Scabbard and Blade is primarily to raise the standard of military education in American colleges and universities; to unite in closer relationship their military departments; to encourage and foster the essential qualities of good and efficient officers; and to promote friendship and good fellowship among the cadet officers.

The Clemson chapter of Scabbard and Blade, Company K, 7th Regiment yearly sponsors the Military banquet. Last year’s banquet (1965) was attended by close to five hundred persons. Senator Strom Thurmond was the guest speaker.

SAME Promotes Interest in Military Engineering

The Society of American Military Engineers was organized to promote interest in military engineering and related subjects. Membership is open to anyone who is either enrolled in the ROTC program at Clemson or majoring in engineering. Members of both the Army and Air Force ROTC are now eligible for membership.

Club meetings are held the first and third Thursdays in each month. At the meetings the programs range from movies on flood control to speakers from all over the Southeast. During the year 1965-66, SAME went to Savannah for a weekend trip, while plans were made for a trip to Cape Kennedy during the Easter holidays. Club members wear the distinctive red and white shoulder cord and ribbons on their ROTC uniform and also receive "The Military Engineer" magazine.

This year the advisors for the club are Captain James N. Weeks of the Army ROTC program and Captain Carter of the U.S. Air Force. Captain Weeks has had over ten years of experience in the Army Corps of Engineers, while Captain Carter is a 1955 graduate from Clemson University with a degree in Civil Engineering.
The Fourth Regiment Provides PR Coordination

Commanded by the most prominent members of the Pershing Rifles, the Headquarters detachment of the Fourth Regiment serves as a coordinating unit for PR units in the states of Alabama, Tennessee, South Carolina, North Carolina, and Georgia. This Headquarters also helps fulfill its service function by organizing new companies in the National Society of Pershing Rifles.

The headquarters detachment has been at Clemson since 1948 and is one of sixteen regiments that make up the national organization. The Fourth Regiment is composed of 16 companies.

The principal events of the year are the Regimental Drill Meet, Regimental Rifle Match, and the Regimental Assemblies. Many time-consuming hours are spent in coordinating these events. The assemblies are held before the drill meet with all companies present and with the purpose of discussing pertinent plans for the regiment.

The Regimental Drill Meet allows all of the units in the regiment to compete in different classes of drill and for the many awards given for outstanding achievement. The regiment awards the George A. Douglas Trophy to the unit that has been judged the most outstanding during the year. The judging is based on showing during the meet, grades during inspection, and reports submitted to headquarters. The staff also inspects each of the units to note their progress and give assistance when needed.

Major A. T. Ford is headquarters advisor.
Company C-4 Rewards Outstanding PR Pledges

The Clemson University Pershing Rifles, known as Company C-4, is a member of the National Society of Pershing Rifles founded at the University of Nebraska by General John J. Pershing.

Twenty-seven years ago on the campus of Clemson A & M College, a handful of cadets banded together to form a crack drill unit. Today, a nationally prominent group of military minded young men carry on their predecessor’s tradition of precision marching and military proficiency. Across the nation whenever good drill teams are talked about, the fame of the Clemson University Pershing Rifles is talked about and respected.

Throughout these twenty-seven years Company C-4 has upheld their purpose stated by General Pershing: “To foster a spirit of cooperation among men in the military department and to maintain a highly efficient drill company.”

Company C-4 is composed of Army and Air Force ROTC sophomores who have completed their freshman year as pledges. Company C-4’s staff is composed of junior members of the Pershing Rifles, chosen at the close of their sophomore year.

Since the appearance of the Pershing Rifles at Clemson in 1939, the drill unit’s trophy cases have rapidly filled. These trophies are signs of victory for events ranging from Washington, D. C., to Augusta, Georgia, to New Orleans, Louisiana.

PR Pledges Gain Valuable Military Experience

The Clemson University Pershing Rifle Pledge Platoon is composed of basic Air Force and Army cadets who are interested in becoming PR's in their sophomore year. The main purpose of the Pledge Platoon is to afford the pledges an opportunity to become proficient in both basic drill and rifle manual. Pledges are taught basic drill fundamentals in both drill and M1 rifle manual which is essential in order to become an eligible candidate for tryouts in Company C-4.

The pledge is also taught military courtesy as well as military bearing which are important characteristics of a Pershing Rifle. However, a pledge's duties do not end on the drill field. Some of the additional duties which he performs include ushering at all home football and basketball games and forming an honor guard for Homecoming Beauties. A pledge also gains valuable experience through several performances during the year such as Christmas parades and the Iris Festival in Sumter, South Carolina.

The entire pledge year is spent, in one way or another, preparing for Pershing Rifle tryouts which are held in the latter part of the second semester. This is the pledge's final opportunity to show what he has learned during the year. Both the tryouts and a pledge's attitude throughout the year serve as a basis on which PR's are selected. Those pledges who measure up to the high standards are chosen to become members of the Pershing Rifles during their sophomore year.
The regional organizations at Clemson University are composed of international clubs, out-of-state clubs, and clubs representing the various counties in the state. The regional clubs are made up of students who wish to unite with other students from their own home areas. The county and international clubs have been created with the intention of serving Clemson, as well as each other, through their consolidated efforts. Several activities are sponsored by these organizations during the year such as dances, drop-ins, mixers, and various service functions. In addition, they also participate in the intramural sports program.

The student members profit from their membership in the regional clubs in that they gain the friendship of many through their various social and service activities. The foreign students become better acquainted with the American students and the American way of life.

Regional clubs are an important part of Clemson. The organizations that appear on the following pages illustrate many of the regional organizations who further their goals of fellowship and friendship and the objectives of Clemson University in producing well-educated gentlemen.
Beta Tau Sigma Strenthens Clemson Ties at Home

Uniting the Clemson men from the “Independent Republic of Horry County,” Beta Tau Sigma continues with the tradition started in the 1930’s of promoting a true spirit of brotherhood among these men. A regional fraternity since its founding, “the Brothers By The Sea” proceed to instill a vigorous Clemson spirit in each Horry County man. The purpose of Beta Tau Sigma is to live together, to play together, and to serve together with all sons of Horry County on the Clemson campus.

In fulfilling its responsibility to help in the all-round development of the Horry County men at Clemson, Beta Tau Sigma had an active social year during 1965-66. Homecoming was one of its biggest weekends. From the “beautiful belles” of Horry County, “The Brothers By The Sea” selected a homecoming sponsor. After the homecoming game, a drop-in was held for the brothers, dates, and families.

The highlight of the social year was the annual Christmas Dance in Conway. A Thanksgiving dance and several beach parties rounded out the social calendar. Besides participating in various social events, Beta Tau Sigma strives to promote a better spirit of participation among its brothers and the student body at large through service activities. These activities add to the increasing bond of friendship.

BSX Donates Annual Scholarship to Freshman

Beta Sigma Chi, the oldest active organization on campus, was founded as a regional club in 1933 by a group of Charleston County students. In 1962 the club became a service fraternity open to any interested students who are from Charleston County. The primary purpose of the club is to promote fellowship among Clemson students.

New members are initiated into the club during a pledge season once a year. The pledge system is designed to acquaint the new members with the fraternity and to acquaint the fraternity with the pledges. Each new member is expected to acquire 200 points by performing services for the members of the club during pledge season.

The club's social activities are centered around dances and parties held throughout the year. The highlight of the social season is the Christmas dance, the proceeds from which are used for the $200 scholarship which is given by the club to a deserving freshman.

Chester County Clemson Club Enjoys Active Year

The Chester County Clemson Club, formed in November, 1959, is a regional club composed of Clemson students from Chester County. Since the time of organization, the members have enjoyed the fellowship and social activities of the club in keeping with the club’s purpose: to promote unity and fellowship among club members through club activities.

The club’s many activities include several dances and parties held during the year which provide opportunities for club members, as well as other young people in the area, to form lasting friendships. The annual Christmas Dance is one of the highlights of the year and is a very good one due to the cooperation and sense of brotherhood shown by club members. During the year the club holds meetings bi-monthly, at which time activities and social functions are planned.

Many of the proceeds from the dances are given to the Chester County United Fund, to the Boy’s Home of America, or to some other deserving fund. The club provides an opportunity for friendship and sportsmanship among the members as they participate in intramural sports or social activities. Each activity is designed to create a feeling of pride in and among students of Clemson University and to enhance the social development of each member.
ISA Promotes Friendship Among Nations as Goal

The International Students Organization is made up of students representing all parts of the world. Its primary objective is to establish relationships among students attending Clemson from all nations. Such friendships are established through the various activities organized by the club but mostly through parties and frequent, informal meetings that give vent to stimulating, and sometimes controversial discussions arising from the varied backgrounds, cultures, and philosophies. Lectures either by faculty guest speakers or by the members themselves are offered to the club. The main effort and event of the International Students Organization is the Annual International Students Supper, which has become a tradition at Clemson and a treat to those who partake of the supper. Dishes from many countries are prepared to satisfy the palate of the Clemson Gourmets. As the supper continues to grow in popularity, it gives the members of the International Students Organization an excellent opportunity to promote understanding and good will among the different nationalities. Membership in the International Students Organization is open to all students and faculty regardless of nationality.
KDK Has Social Functions At Clemson and Dillon

Kappa Delta Kappa, the Clemson Dillon County Club, was chartered as a social and service organization in the fall of 1958. Kappa Delta Kappa was organized with the expressed purpose of furthering relations among Clemson students from Dillon County and strengthening their ties with the citizens of the county, as well as with other Clemson students. Membership in Kappa Delta Kappa is open to all Dillon County Clemson students with the approval of three-fourths of the active members. It is the hope of the members of Kappa Delta Kappa that the fellowship extended by the members help students feel that they have a home away from home. The club members meet twice a month and at any other time that a meeting is believed necessary for fellowship or for business. These meetings serve to bring Dillon County men together socially and provide an opportunity to plan projects and social functions.

Kappa Delta Kappa also is represented in all intramural athletic events by teams with a strong desire to win coupled with a deep sense of sportsmanship. A vigorous and loyal supporter of all Clemson sponsored activities, Kappa Delta Kappa sponsors projects which include car washes, mixers, and drop-ins. Perhaps Kappa Delta Kappa is best known for its fabulous dances given in Dillon County at Thanksgiving, Christmas, and Easter of each year. Recently, the club has sponsored such hit attractions as the “Hot Nuts,” “Dale and the Del-Hearts,” and Maurice Williams and the “Zodiacs.”

Nu Epsilon Offers Events to Northern Students

Nu Epsilon was organized at Clemson University in 1948 to serve as a service and social organization for northern students on the Clemson campus. The purpose of the organization is to further the social and cultural lives of both northern and southern residents. Nu Epsilon seeks to develop a framework of activities within which the essentially northern student may lead a fuller collegiate life and make more effective contributions to the welfare of the student body of the University.

The organization tries to give northern students the opportunity to meet other students from the same region and makes an effort to help a member of Nu Epsilon become better acquainted with the southern students.

Requirements for the organization are that the student be a resident of a northern state and be in good standing with the university administration. This year Nu Epsilon participated in intramural sports, had an entry in the Homecoming display contest, and sponsored various social events.

Since most of the members of Nu Epsilon are a long distance from home, Nu Epsilon provides a needed interest for weekend relaxation for the northern student. The organization also assists members in finding rides during weekends, holidays, and semester breaks during the school year.
RELIgIOUS

Stimulation and development of spiritual growth are the objectives of the religious organizations on the Clemson University campus. The organizations seek to provide the college student with the inspirational and spiritual growth which is necessary while he is away from home. Among the religious organizations are the student fellowships sponsored by each of the churches and those supported by the YMCA. In addition, there are religious groups such as the Christian Science organization and the Hillel-Brandeis club which are not sponsored by local churches. Weekly worship services featuring spiritual and educational speakers contribute a large part to the activities of these clubs. Students are given opportunities to ask questions and to enter into discussions at the meetings of the various religious organizations.

Membership in these organizations is open to all who wish to associate in fellowship with other Clemson students and to worship God. Given a chance to meet new people and to continue old friendships, students appreciate the informal atmosphere of the church groups. Within the pages that follow a number of the religious organizations at Clemson are portrayed.
BSU Serves as Channel Between Home and Campus

With over 1,700 Baptist students at Clemson University, the BSU's goal is to serve as a unified approach to the religious activities of these students. BSU serves as a two-way channel through which Christian students move in witness and mission from their churches to the campus, and in turn, through which they move in enlistment and service from the campus to local churches. For this to happen the BSU must engage in Christian fellowship, in the study of the Christian faith, and in responsible expression of the Christian faith.

This year's activities have included the regular Wednesday evening program often led by a student, also employing outside speakers. One of the highlights of the fall term was the visit of Reverend William Dyal of the Christian Life Commission. Soon afterwards a retreat in the mountains was held. Conventions, deputations to and from other colleges, and some personal study groups also have played an important role in the year's activities.

One of the most important projects the BSU participates in each year is the cooperative support of student summer missionaries for various foreign countries and areas of the United States. This past summer John Setchfield was selected to serve in Trinidad.

At Clemson there is a close spirit of cooperation between the Clemson Baptist Church and the BSU.
Canterbury Club Adopts a Six-Year Old Child

Since its organization in 1924, the Canterbury Club has provided fellowship for the Episcopal students on the Clemson campus. It has strived to bring the students closer together in fellowship and service and to bring the Episcopal students closer to the church.

This year for the first time the Canterbury Club sponsored a six-year-old child on the island of Taiwan through the Foster Parent Plan. Besides entertaining students from the Tamassee D.A.R. school on Youth Day, the Canterbury Club took ice cream to Tamassee twice for various parties.

During the year, the club has deputations with Converse, Winthrop, and other nearby college Canterbury Clubs. Either one or two work projects are held each year to make improvements on the church parish house. For social life a party is given for the new freshman and Folk Festivals are held at different times throughout the year.

Each year Clemson Canterburyians attend the state, regional, and national conferences of the Canterbury Club in order to learn more about themselves and their church.

The Christian Science Organization at Clemson University is a student organization composed of Christian Scientists and sincerely interested persons who have no other religious connections. The organization holds testimony meetings every Wednesday night at 7:00 in the Student Chapel above the loggia. To these, all students and faculty are welcome. Every year a lecture on Christian Science is held. The lecturer is from the Christian Science Board of Lecture-ship and prepares his lecture for a college audience. A question and answer period follows. The student body and faculty are always invited. A number of films on Christian Science are shown throughout the year. On Monday night of religious emphasis week, the organization offers a film and speaker on Christian Science. There is a question and answer period following the program. In a room adjoining A-Lounge, the organization maintains a lending library which is open for the use of all students from 7:00 to 10:00 Monday through Thursday nights. In it may be found the Christian Science Monitor, a daily international newspaper, Christian Science periodicals, the writings of the founder of Christian Science, Mary Baker Eddy, the Bible, Concordances to the Bible, the Christian Science hymnal, and other authorized Christian Science literature.
Hillel-Brandeis Offers Activities to Students

The Hillel-Brandeis Club at Clemson provides the Jewish university student with an opportunity to increase his participation in school affairs and to give him a deeper understanding of his Jewish heritage through bi-monthly meetings. The club was formed to coordinate the social, cultural, and religious activities of its membership throughout the academic year. It seeks to give the student member a better understanding of his religion through studies of the Jewish life.

The club takes part in inviting a Rabbi to lead forums and discussions with Jewish and Christian students throughout the school year and during Religious Emphasis Week. Also, during the High Holy days the club provides transportation and housing for the Jewish students on campus to go to Greenville. Hillel gives them a choice of two synagogues to attend.

Although there is no resident Rabbi in the Clemson community, Hillel has a strong liaison with the Jewish families in nearby Greenville and Anderson. With the increased enrollment at Clemson, the Jewish student population has expanded proportionately and has allowed Hillel to step up its activities.

In an effort to provide a good life for the Jewish students, the club promotes many social events for the members. Sunday morning breakfasts are held at which typical Jewish food is served to the club members.

By planning a well-rounded program, the Hillel-Brandeis Club better prepares the Jewish student for later life.

STEVEN F. GOLDSTEIN, President
Newman Awards Banquet Highlights Active Year

The Newman Student Association of Clemson University was organized in 1940 under the direction of Father T. F. Tierney C.S.P. Presently, there are 350 members of the Newman Student Association, which is composed of all Catholic students attending Clemson. Its activities center around the religious, intellectual, and social interests of its members. On the religious level the Newman Club offers the following: the celebration of the Mass, Benediction, Student-Faculty Communion Breakfasts, Stations of the Cross, and prayer meetings. To satisfy intellectual needs, it provides the following: lectures by members of the faculty of Clemson, seminars, films, and discussions. In regard to social activities, the Newman Club sponsors Student-Faculty softball games, dances, parties, outings at the YMCA camp, and intramural teams for the university intramural program. For the parish the Newman Student Association presents the annual Newman Awards Banquet to which the public is invited. The club plays an active role in the sponsoring of the annual Mardi Gras offered by the Women's Club of the parish. On other occasions it is asked to help the parish and the community. It is also active in the Southeastern Province of the National Newman Student Federation. The Newman Club is well represented at the Province and National Conventions held annually.
The YMCA Staff is Backbone of YMCA Program

ROY COOPER, General Secretary

The Clemson YMCA is one of the best known organizations on the Clemson University campus. At one time or another every student on the campus comes in contact with one or more of the varied services offered by the "Y". These services include basketball, ping-pong, weightlifting, the health club and many other useful activities for the students.

The YMCA is operated very effectively by an efficient staff. Mr. J. R. Roy Cooper serves as General Secretary of the YMCA. He has served in many capacities in the religious and community life of the campus and is interested in everything which pertains to the life of a student. Mr. Otis D. Nelson, a graduate of the University of Alabama and Southern Baptist Theological Seminary, serves as Assistant Secretary of the YMCA with primary responsibility for the program of the YMCA. Miss Bobbie Palmer serves as Office Secretary and is most helpful to students who come to the YMCA seeking information. Mr. Nash Gray, a graduate of Clemson, serves as Assistant Secretary, giving the major portion of his time to business operation of the YMCA. Each of these people spend many conscientious hours in order to provide the interesting "Y" program which is available to students at Clemson University. Without their efficient leadership the program offered at the "Y" could not possibly continue to exist.

MISS BOBBIE PALMER, Office Secretary

NASH GRAY, Associate Secretary

OTIS NELSON, Associate Secretary
YMCA Cabinet Plans Student Programs for YMCA

The YMCA Cabinet at Clemson serves as the student program planning body for the student YMCA functions. The members of the YMCA Cabinet are students who have taken a sincere interest in the YMCA program and have worked with the religious phase of life on campus. Members are taken from the Senior, Junior, and Sophomore Councils in addition to one representative from both the Freshman Council and the staff. The Cabinet is composed of three elected officers and the chairmen of the subordinate committees. The officers are not necessarily members of any particular class but usually come from the Junior or Senior class. The President is almost consistently a Senior, and the Vice-President and Recording Secretary are either Seniors or Juniors. It is their duty and responsibility to channel the efforts of the Cabinet toward fulfilling the objectives of the YMCA. The committee members are selected by the President with the advice and counsel of the General Secretary of the YMCA. The chairmen of the committees are appointed by the President. These committees attempt to interest the students in the activities of the "Y" and to strengthen ties of fellowship and cooperation.

The Cabinet plans and directs much of the program of activities which the YMCA has to offer. The General Secretary of the YMCA serves as advisor to the Cabinet. Some of the Cabinet's activities are supplying Christ-centered programs for the councils and directing the vespers programs on Sunday evenings.

LEFT TO RIGHT: Newton, P., Secretary; Truitt, D., President; Robinson, M. A., Vice-President.

The Senior YMCA Council at Clemson University, having been through all the training procedures that are given in the YMCA, furnishes much of the leadership for students on other YMCA councils. The council is composed of the type of men and women who desire to strengthen the spiritual lives of themselves and others.

The YMCA Senior Council has been in operation on the Clemson campus since 1954, and through the development that has taken place in this group, many of the outstanding leaders of the student body have been developed. Membership is based on invitation and election by members of the council.

Activities of the Senior Council include sending and receiving deputations, sponsoring drop-ins during campus-wide dance weekends, and ushering at the convocations during Religious Emphasis Week. One year the Senior Council presented a concert by the the Four Seasons which proved to be popular with the Clemson University student body.

The Senior Council is indirectly responsible for the guidance of the other councils. They share the burdens of the other councils and offer them aid. The Senior "Y" Council stands at the head of the governing body of the student YMCA. They provide the guidance and knowledge for the other councils and students which is needed to point them toward a Christian life that will better prepare and benefit them for the future.
The Junior YMCA Council is composed of juniors who have expressed a desire to become a member and by election by the other members. The Junior YMCA Council, through participation with students of the Junior Class, attempts to develop the spiritual growth not only of the students who meet with that group but also of other students in the class.

The Junior "Y" Council has several activities. These are the cutting of hair of entering freshmen in August, offering leadership in the pre-school YMCA retreat, helping with the children's Christmas party, serving at drop-ins during dance intermissions on dance weekends, and ushering at the convocations during Religious Emphasis Week. The process of development which takes place through discussion programs at meeting brings to the group outstanding leaders of the campus and community and projects in which members of the group become involved. Understanding how to become a better student and how to make the kind of contribution to student life that a group such as this has the possibilities of doing is the primary responsibility which the Junior Council has.

The council has a uniqueness that links it with the continuous stream of life and to the community of which it is a part. The Junior "Y" Council encourages the all around development of the individual, giving attention to his needs and trying in every way to help him meet those needs.

Junior YMCA Council Contributes to Student Life
The Sophomore Council of the Young Men's Christian Association is a closely knit group of sophomores who work together to promote "Y" activities. The closeness among the members promotes Christian character and fellowship and guides the sophomore members in planning and executing programs and activities. Although one of the staff persons serves as advisor to the Council, much of the program planning and project development is left for the group to formulate.

Meetings are held once a week to meet the spiritual need that the members have. These meetings consist of worship discussions, lectures, or films. There are many social activities as deputations, from such women's colleges as Winthrop and Converse, cookouts, dances, and parties. It is not uncommon for the visiting deputation to spend the whole weekend at Clemson. The Council also has dances at neighboring colleges. At many of these dances the other three councils are invited to participate in the activities.

Much intramural competition is held against the teams from the other three councils. The athletic competition consists of football, softball, tennis, and golf.

The Sophomore "Y" Council is a group of young men and women who have not lost sight of the basic Christian philosophy which should motivate all Christians in their every undertaking.
Freshman “Y” Council Aids Freshman Orientation

The Freshman YMCA Council is the first opportunity for a new student arriving on the Clemson campus to be oriented in an extra-curricular activity. Those students who attend the YMCA Freshman Camp have an opportunity for membership in this group immediately after arriving on the campus. The Freshman Camp is scheduled two days before the opening of the fall session and is open to all incoming freshmen. The purpose of Freshman Camp is to give freshmen a period of orientation with a chance to meet their own classmates and to gain some information on what they might expect at Clemson, as well as an opportunity to meet many of the administrative and staff personnel at the University.

The Freshman Council is composed of members of the YMCA who are interested in taking an active part in what the YMCA is doing on the campus. This Council, along with the advisor, is responsible for developing its own program and for arranging for speakers. Speakers are sometimes foreign students or faculty members. Many of the adjustment hurdles are overcome through the fellowship and discussion which goes on in the Council group.

Students plan their own programs and engage in projects such as deputations, discussions, and services to needy children in the area. Each month the Freshman Council meets with the other three councils from the three classes for a program and business meeting.
EPILOGUE

ADVERTISING

The TAPS is a record of all the events and happenings that have made 1966 a memorable year at Clemson. In the years to come these pages in the advertisement section will mean a great deal to the Clemson alumnus in recalling his years in college. At the same time TAPS promotes interest in these businesses and in their products and services today. It makes goods and services known to the public. Clothing stores, drug stores, sport shops, service stations, hotels, and jewelers all show an interest in the Clemson University student body when they purchase an advertisement. It is hoped that these annual ads will be helpful and profitable to both Clemson and the businesses themselves. Clemson's student body is composed of students from all parts of the country. Students carry their annuals with them to many places—to the beach, on house-parties, to home. Thus, a TAPS advertisement is effective and permanent.

You've probably read in the paper that the South Carolina Electric & Gas Company recently paid its county taxes. You might have also read that SCEGCO's tax check was among the largest payments received by the county if not the largest. And, next year about this same time you'll read essentially the same story except that the amount of taxes paid will probably be higher.

So it goes year after year, the South Carolina Electric & Gas Company, an investor owned utility, plays its part as a good citizen by paying its share of taxes to help provide all the services of government.

NOTHING SO DURABLE AS DURAWELD

STEHEDCO Duraweld Harness Frames are Premium Grade and guarantee longer life. Each Duraweld frame stick is a lamination of strips of carefully selected, high quality wood permanently bonded together for greater strength and stability. This assures less distortion, warping, and splintering, with greater holding power for hardware, and elimination of weak spots.

SOUTHERN Duraweld Shuttles are made of finest quality tempered dogwood end blocks, for greater resiliency and tip retention, permanently bonded by an exclusive Southern method to long wearing wall sections of laminated wood or plastic. They assure at least 100% longer life expectancy with only a very moderate weight increase.

STEHEDCO Duraweld Picker Sticks provide the unexcelled combination of greater strength and whip, plus resistance to warping. They are made of multiple laminated veneers of high grade hickory reinforced with veneers of vulcanized fiber, permanently bonded with phenolic adhesive into a uniform panel.

Duraweld Harness Frames, Shuttles and Picker Sticks are manufactured with great care under rigid Quality Control methods, and will pay for themselves over and over again with superior performance and longer life. Ask one of our qualified Sales Engineers to show how YOU can start counting your savings when you invest in DURAWELD.
