registration... getting organized...
new faces... the Freshman picnic...
afternoon jaunts to the lake... school
spirit... panty raids... first football
game... Rat Hop... Beat Georgia
... Quizzes... Don’t forget Tech...
Autumn color... construction and
torn up streets... 'Bama Blowout...
... parties... more construction...
Halloween... Homecoming floats...
Tigerama... a new Miss Clemson
... the Queen and her Court... exams
too near... Holidays at last...
Carolina-Clemson... last quizzes...
panic... exams... Christmas finally
here!
Clemson opened its doors to many eagerly awaiting students in August. The beginning of school meant long lines to all and the start of a month of frustration to many new freshman. But all was not bad as many students enjoyed the "Y Camp" prior to the beginning of school.
September was a busy month at Clemson. Pep rallies, freshman elections, and after hours activities kept rats busy. Football season and dance weekends arrived. All these activities presented an opportunity to each Clemson student to renew old acquaintances and meet new friends.
With the coming of October, football and profs swung into high gear. But activity was not limited solely to the gridiron and classroom. Bama-Blowout, concerts, and beautifully decorated cars provided entertainment for the students. A major construction program was in evidence everywhere on campus.
The highlight of November was Homecoming: Tigerama, displays, the C.U.-Maryland game, dances, and a Sunday afternoon concert. November also saw the famous McNeight controversy. Fires hit the dorms. Exam time drew nearer. Disgruntled students were active. Football season finally came to an end with the traditional battle against arch-rival Carolina.
When December came, so did exams. For many, exams meant long hours of study. For others, they meant long hours of playing. December also brought the J. F. C.'s annual Christmas party. Many students witnessed Clemson's first rugby team. Construction work continued. At last, first semester was over; Christmas holidays began.
Second Semester... A new year...
Fraternity rush... Sorority rush...
icy streets and sidewalks... basketball
... hectic times for the infirmary...
quizzes... party time again... Midwin-
ters... drill in fifteen degree weather
... houseparties... Valentine's...
all nighters at Taps... Spring Hop
... Military Ball... more quizzes
... spring sports... holidays... a
welcome break... Greek games...
the end in sight... Easter... Junior-
Senior... cram... a day for Seniors
... exams... Graduation... joy and
tears... what a year... The End!
January brought in second semester. Rush began for the frats in less than ideal weather. Basketball season arrived at Clemson and was highlighted with a visit by nationally ranked U. N. C. A flu epidemic hit campus. Construction work continued. Students began another semester of intensive study.
February arrived just ahead of Midwinters. Jackie Wilson, The Classics IV, and the Buckinghams provided the entertainment. Both off-campus and dorm life were as busy as always, but not too busy for students to take an occasional moment to relax.
Clemson was bustling in March. Spring sports got underway. The frats enjoyed their traditional Greek Week. Organizations held initiations. Spring Hop was enjoyed by many. Coeds were anxious to enjoy the sun. Energetic students were everywhere on campus, although the fruits of their energies were not always good. Even “Old Tom” could not stay still.
April, of course, brought its traditional showers. It also brought other things: Junior-Senior; the wind-up of spring sports; Senior Day; and, to the regret of many students, exams. With the end of the school year in sight, many students were found dreaming of the long summer months ahead.
May meant cramming for exams, reminiscing, and graduation. Then it was all over. School was out. A long summer lay ahead.
Before entering a tournament, a Knight received from his favorite Lady, as an emblem of her love, a sleeve made of the finest silk, embroidered with a pearl-clustered design. This sleeve was bound around the helmet and worn during the contest. She was his sponsor, and if he was victorious, he rode by her box to receive acknowledgment of his victory.

In reality, these lovely Ladies are the sponsors of the students of Clemson, and we, the wearers of their sleeves . . .

. . . Gentlemen, the Ladies.

ATHLETICS
Athletics, at Clemson, is more.

It is more than a finish or a start or a list of numbers or a team or a coach or a score or a misused phrase of guilded sports slang.

It is a tear that never flows down a cheek but dies inside when a team loses that should have won.

It is a smile in a crowd.

It is a group of students working in the cold on a homecoming float that will live only for one quick spurt while a tired player rests.

It is the reward and satisfaction of seeing a team grow into a better team.

It is people who care, who speak, who help, who cheer, who play, who love.

It is watching a boy become a man and a girl become a woman.

It is winning.

It is losing.

It is, we hope, also in the pages of this book.
This is what it's like to have the best team in twenty-eight years . . .

A coaching staff singing praises, a roster with more lettermen than positions, a summer of promises, a son or friend to watch, a bottle, a girl, a hell of a team, a kick-off . . .

Four plays later first-string quarterback Jimmy Addison crawls off the field. He cannot walk. 36,000 people wait, and on the field . . . a championship team stumbles . . . then they lean on a sophomore quarterback named Charley Waters. Waters is superb, and the team responds. Buddy Gore earns 122 yards rushing and two touchdowns . . . Clemson makes mistakes . . . but Wake Forest scores only once.

Is one bottle enough? Nationally ranked Georgia comes next week . . .
One bottle isn’t enough, but it does not matter because...

Frank Howard said that it was a fine game that we lost. There was more...

It was...two intercepted passes that resulted in two Georgia touchdowns and a field goal...a hapless, bottleless, spiritless Clemson cheering with nowhere to hide from a Clemson 3—Georgia 17 halftime score...It was Jacky Jackson leading a sustained drive to the one...Buddy Gore scoring...Frank Liberatore returning the next Georgia punt for a touchdown. It was seeing Clemson stunned by a holding penalty...seeing Georgia score as the Tigers momentarily faltered...seeing the Tigers stopped.

Did the best team in twenty-eight years meet a better team? Next Saturday Georgia Tech will not care what happened today...
This is what it's like to have a "bad day" or something . . .

A hot stadium packed with the largest audience ever to see a football game in Georgia, a memory—one year old—of a game earned and then lost with a clipped fullback, a myriad of believing Clemson fans . . . who gaped and saw . . . Georgia Tech run thirteen plays and score one touchdown and one field goal . . . who yelled and saw . . . Clemson's offensive blocking crumble . . . who screamed and saw . . . Clemson humbled in the first half and held in the second . . . who cried and saw . . . a beaten Tiger team crying with them.

Auburn will remember this Saturday . . .
"Auburn did more goods things against us . . ." than any other team this year, but "... it's hard to say just what we would have done had Needle (Jimmy Addison) been in there the entire time." That is the story. These are the details . . .

Auburn scores the first time they have the ball by returning a Clemson punt . . . Auburn's kicking specialist completes three field goals including a 51-yard record breaker . . . Clemson loses more than a third of its first string players due to injuries . . . led by Addison, Freddy Kelly, Phil Rogers, and Jacky Jackson score . . . Clemson is behind at the half only 26-21, but Addison is hurt and will not play in the second half . . . the game is over for Clemson.

Are the Tigers dead? Duke isn't.
The Tigers are not dead. After three winless games there are doubting faces in the stands at Duke University but ... Clemson is healthy, and Jimmy Addison is at the helm. The game is ... a titanic defensive battle in which neither team scores in the first half ... a stellar Clemson line led by Wayne Mulligan, Hoss Hostetler, and Ronnie Ducworth ... a determined Duke squad which scores first and tries to hold ... a shocked response by Clemson as Addison directs the team masterfully and Buddy Gore scores twice ... a Duke team losing to a better one.
CLEMSON  10
ALABAMA  13
The oncoming Crimson Tide ebbs.
The rise and fall of the Tide is a struggle between two superb football teams. Before it falls, records and kisses and bones and hearts will be broken. The largest crowd ever to see a football game in South Carolina watches.

Clemson holds Alabama to 74 yards rushing...Alabama passes over Clemson's impenetrable line to set up the two Alabama scores...the Tigers score one field goal in the first half and then scratch, spit, and claw until they mutilate Alabama in the second half—but score only once. There are tears on the field...two field goals fall short from within the 30 yard line.

It is like death without dying. UNC will wait...
The University of North Carolina waited. So did Clemson. While they waited...

North Carolina stopped the indifferent Tigers on the UNC one yard line... but after marching to the Clemson one they fumbled... Arthur Craig kicked the first field goal of his career to give Clemson a first half lead. Then Clemson's pride swells and the waiting is over... Buddy Gore gains 131 yards... fullback Benny Michael scores... linebacker Billy Ware intercepts a North Carolina pass and lumbers across the goal. Clemson is too good a team for even a fired-up Tarheel.

The Atlantic Coast Conference watches. Maryland hides in the shadow...
CLEMSON
MARYLAND

28
7
Clemson was looking backwards and forward. Maryland came out of the shadows—where they had not won a game. For the Maryland Terrapins the game begins with deadly intent ... 

Clemson scores easily . . . too easily. The Tigers relax . . . Maryland uses the only chance they have and strikes hard . . . the Tigers are stunned and Maryland ties the game 7-7. There is a homecoming float at the half. A Terrapin rides the float on his back. His luck is bad and Clemson is powerful . . . Clemson scores three touchdowns in the second half.

The Atlantic Coast Conference studies a pair of white shoes . . .
The white shoes belong to N. C. State, and Clemson will wear orange shoes. This is the Atlantic Coast Conference game of the year.

Representatives from post season bowl games, professional football scouts, the press, and a conference watch... N. C. State's Wolfpack complete two early field goals... Clemson holds the Wolfpack to 70 yards the first half but trails 6-0.

The Tigers move 55 yards in the second half and score. They are playing their best and N. C. State who was ranked third in the nation a week before, cannot stop them. In less than four minutes Clemson scores again. The defense eradicates the Wolfpack's offense. The white shoes lose.

There is a lone cackle in the stands but Clemson has already shared one title...
CLEMSON
USC

23
12
The lone cackle becomes a chorus of South Carolina Gamecocks. Carolina has a good team. They do not have a reason to crow because . . .

A tailback named Buddy Gore gains 189 yards and breaks the ACC record for the most yards in a season . . . a dedicated group of individuals like Harry Olszewski, Edgar McGee, Wayne Mass, Freddy Kelly, Jimmy Catoe, John Cagle, and James Thompkins frustrate the opposition . . . a coach is only a coach and not a team . . . Clemson leads 23-0 late in the third quarter . . . a bad snap from center and a fumble which give Carolina two breaks and two scores are not enough . . . Clemson has a better team.

The game is . . . a victory . . . a hero . . . a title . . . the end of a season.
The Coaching Staff

Paul "Bear" Bryant .......................... Frank Howard

Kneeling, left to right: Whitey Jordan, offensive ends and flankers coach; Don Wade, head offensive coach; Art Baker, offensive backfield coach; Tom Bass, head freshman coach; Ronnie Grace, assistant freshman coach. Standing: Frank Howard, head coach; Bob Smith, head defensive coach; Banks McFadden, defensive backfield coach; Bob Jones, defensive ends and tackles coach; Fred Cone, chief recruiter.
HARRY OLSZEWSKI: All-American, All-ACC, All-State, Shrine East-West Game, Senior Bowl, Coaches All-America Game, Drafted by Cleveland Browns, Senior.

BUDDY GORE: All-ACC, All-State, Player of the Year in ACC.

JIMMY ADDISON: All-ACC Scholastic Team, $1,000 NCAA Post Graduate Scholarship, Senior.
WAYNE MASS: All-ACC, All-State, Shrine East-West Game, Hula Bowl, Drafted by Chicago Bears, Senior.

JACKY JACKSON: Drafted by Cleveland Browns, Senior.

FRANK LIBERATORE: All-ACC, All-State, Drafted by Washington Redskins, Senior.

JAMES TOMPKINS: All-State.

JIMMY CATOE: All-ACC.

RONNIE DUCWORTH: All-ACC, All-State.

RICHIE LUZZI: All-State.

ACTIVITIES
Clemson Enters N.S.A.

The Clemson University Student Government strives to promote good relations between the student body, faculty, and administration. This year they have helped to establish a better understanding between Clemson and other schools by joining the National Student Association.

The three main branches of Student Government, the Executive Branch, the Judicial Branch, and Legislative Branch, are elected by the Student Body. The Executive Department, composed of the student body officers and the four class presidents, is the coordinating agency for the students themselves and the judicial and legislative branches of the student government.

The close liaison of members and other student committees, along with the student body, has helped Clemson function more smoothly as a university with concern for the individual and his environment.

Although the primary function of Student Government is to give the students a voice in the coordination of their school, the officers and associates have initiated many projects to help worthy organizations. One of their most successful ventures was their drive to sell Student Insurance in order to raise money for Boys' Home of America.
Student Actions
Regulated Through
High Court

High Court is the main constituent of the Judicial Branch. Eight members of high court are elected each spring by the student body. The Vice-President of the senior class is automatically a member making a total of nine members. The court elects its chairman, vice-president, and secretary who interview students for the positions of attorney. There are three attorneys for the defense and three for the prosecution. The court draws up its own rules for procedure annually which are approved by the Dean of Student Affairs. It is the responsibility of the nine members of High Court to decide the guilt or innocence of any one who has violated the student rules and regulations.

After the court reaches a verdict, the sentence is sent to the Office of Student Affairs for approval. If the student feels his sentence is unjust, he may present his case to the Court of Appeals. Through their actions, the High Court helps to regulate and supervise the conduct of the students of Clemson University.
Women’s Student Association is a group of elected representatives of the Clemson co-eds. Its duties and functions range from primary legislative measures to social functions.

The Association itself is comprised of the dormitory officers of Manning Hall and several elected representatives elected by the girls. The commuting girls have three representatives, the president of the Commuting Co-eds Club and two other elected members. Since both commuting and boarding girls are represented, the Association can deal with all matters fairly. Dean Deloney acts as the advisor to the group.

Although the Association cannot pass laws, it passes resolutions which are forwarded through proper channels to the Student Senate for approval or action. Each year, to aid the Senate, WSA presents the rules for women students for Student Regulations to the Judiciary Committee.

WSA initiated action to obtain an ice machine for Manning Hall. It sponsors the Big Sister-Little Sister Program. Every freshman is given the name of an upperclassman, a big sister, who is willing to help her through the complexities and rush of the freshman year. WSA coordinates several drop-ins for faculty and guests each year.
Residence Courts
Update Student Regulations

The Judicial Branch of student government at Clemson is composed of High Court, WSA, and the residence courts. Its purpose is to maintain the highest standards of conduct.

The Men’s Residence Court and the Women’s Residence Court regulate violations of the rules in Student Regulations. Each has five members, three elected by dormitory students in the spring and two others appointed by the President of the Student Body and approved by the Student Senate. The officers of the Residence Courts, consisting of chairman and secretary are elected at a special meeting held at the beginning of each year.

The Rules of Procedure of the Residence Courts are decided by each court, making the system flexible. Tradition does not play a part in the courts; new procedures can result from new ideas. Because of this, the court procedures are up-to-date.

Aside from the five court members, there is a joint defense advisor for both courts. He acts as a consultant for the courts and the defendants. There is no faculty advisor, enabling the courts to be a true representation of student ideas.

David Cooper, Barry McCraken, Mack Woods, James Scarborough.
Student Senate

The Student Senate is the legislative branch of Clemson University's student government. This organization is composed of eleven members from each class who are elected in the Spring for the following year. The Vice-President of the Student Body automatically serves as President Pro-tempore of the Senate. The other officers are elected by the members of the Student Senate. They include a chaplain, secretary, and assistant secretary.

The president of the Senate appoints the chairman of the standing committees. These permanent committees include the Judiciary Committee, General Affairs Committee, Traffic and Grounds Committee, and the Student Organizations and Affairs Committee. Special committees are formed to take care of other duties that may arise.

The Student Senate is responsible for passing legislative acts which are subsequently signed or vetoed by the president of the Student Body and Dean Cox. All legislation which passes the Senate and is not vetoed is then put into the laws of Clemson University.

The members of the Student Senate have an important job, and they should be noted for the fine work they have done for Clemson University.
SENATORS AND COMMITTEES

JUNIOR SENATORS. FRONT: Dave Clarke, Marion Aldridge, Becky Carlton, John Segars, Bill Simpson. BACK: Julian Abbott, Brian Ritchie, Don Bruce, David Hollman, Alston Gore.

JUDICIARY. FRONT: Andy Cochet, Jimmy Foster, Larry McIntire, Eddie Durant. BACK: Scott Harrower, Sharon Manly, Cathy Dodds, Chuck Whitney.

CENTRAL SPIRIT. FRONT: Marion Aldridge, Helen Bunch, Darra Williamson, Jeff Lapin. BACK: Joe Hudson, Danny Hunt, Bo Chimners, Jeff Young, Bill Bonicate, Don Alexander.
PRESIDENT’S CABINET

The President’s Cabinet is perhaps the most important of the five major committees composing the Executive Branch of the Student Government. The other four committees include the General Affairs Committee, the Financial Review Board, the Central Spirit Committee, and the Ways and Means Committee. Taken as a whole, these five committees are designed to support the Executive Branch in performing any functions designated by the Student Government and provided for in the Constitution of the Clemson University Student Body.

Members of the President’s Cabinet include the four student body officers, the Presidents of each of the four classes of students, and the chairman of the Ways and Means Committee. Besides advising the Student Body President in many matters, it must consent to all bills proposed by the Student Senate before these bills become law.
WHO'S WHO

DAN BOWEN

BARRY EDWARDS

FRED GASSAWAY

JANE AMICK
Fifteen Clemson Students Selected To Who's Who

Being a member of Who’s Who Among Students in American Colleges and Universities is a national honor, and only those who are outstanding in scholarship, leadership, character, and service to the school are named to this elite organization. Since its organization in 1934 a number of outstanding students from all over the United States have won recognition by being named to this organization.

The task of choosing members of Who’s Who is one of great importance. The campus nomination committee is composed of faculty representatives, administration, and student representatives complete summary of each student is carefully considered. This summary includes the student’s scholarship, his leadership in extracurricular activities, his citizenship and service to the school, and his promise for future success. Selection to Who’s Who is one of the most outstanding honors which a college student can receive. The honor becomes greater because of the limited number of students chosen—they are selected from more than seven hundred and fifty colleges and universities throughout the United States.

It is important to remember that scholarship is not the only important qualification for membership. Admission requires a well-rounded individual. The Clemson students chosen have proven themselves to be persons whose leadership and character have added greatly to the betterment of Clemson University.
Hall Supervisors Help Mold Clemson Gentlemen

The hall supervisors have one of the most important jobs at Clemson University. They are responsible for the welfare of each of the students on their halls and act as counselors in helping to mold these boys into "Clemson Gentlemen."

Duties of the hall supervisors include weekly inspection of rooms, conducting all hall activities, and keeping order. Students who apply for this position must be well disciplined and dependable, and only those of the highest caliber are selected.

Hall counselors are required to come back to Clemson early after every vacation period and at the beginning of each year in order to plan their work and better fulfill their duties. The residents of each hall elect a president, vice president, secretary-treasurer, a social chairman, a chaplain, and an athletic chairman; therefore, some of the burden is taken from the supervisors. Nevertheless, the hall supervisors do have a lot of responsibility and are of great importance to the students of Clemson University.

1968 TAPS

The 1968 TAPS has tried to capture within these pages a glimpse of life at Clemson University for the 1967-1968 school year.

The University was in a constant state of change. New construction was springing up everywhere. In the classroom new horizons were constantly being explored. Athletically, 1967 was hailed as the Year of the Tiger. The university saw internal protest by a few, spirited backing by many others, while some just looked with blind indifference. Amidst this ever changing environment, the TAPS Staff was there to second the events and happenings which took place.

The 1968 TAPS is a reflection of life at Clemson University. Peer into the mirror, you may see yourself.
SENIOR STAFF 1967-1968

D. CHIP NUSBICKEL, JR., Photographer

DANA STUART, Co-Organization Editor

BUTCH DRAKEFORD, Sports Editor

Junior Staffers listen closely at meetings.

Yearly the TAPS Staff invites all interested University students to drop-ins for Junior Staff membership. The Junior Staff acts as a working supplement to the editors on the Senior Staff. The Junior Staff helps with the basic tasks of writing copy, making picture appointments, filing, tracing and typing. The positions for Senior Staff are filled from the Junior Staff; and therefore all of the work is highly competitive. As an incentive to the Junior Staffers, tickets for CDA dances are given to the staffers with the most work hours.
Is that so!!!

I know this is a leading question, but—"When can you have your section in?"

Now where did I put that camera?

Long hours—hard work.
Well, if you want my honest opinion...

Jack talks with the Edwards at the Annual Reception.

THE TRADITIONAL DUNKING—The End and the Beginning.
Tiger Enjoys Top Year

The Tiger, the student newspaper publication of Clemson University, has the honor of being the oldest college newspaper publication in South Carolina. It has invariably won All-American ratings among college newspapers, the result of a willing and competent staff.

As Editor, Harry Tinsley has provided the talent and knowledge necessary in guiding his staff through a very successful year of colorful, entertaining and thought-provoking weekly editions.

Serving as Associate Editor, Chuck Whitney brought many timely subjects to the attention of Tiger readers. Dennis Bolt and Bill Smith, News Editor and Sports Editor, respectively, ably and factually reported all news and sports events of interest to Clemson students and Don O'Briant showed excellent talent serving as Managing Editor.

 Chronicle Draws Praise

The Chronicle serves as Clemson University's variety magazine. This past year it received the rating of a major service organization, and also received official recognition from the United States Government in the form of a second class mailing permit.

The magazine features student written poems, essays, and short stories in each edition along with reviews and criticisms of plays, novels, and records.

Under the able leadership of its editor, Paul Morris, and faculty advisor, Dr. Mark Steadman, the Chronicle is constantly looking for talented students who can put their talents to use in the form of journalism, creative photographs, and the graphic arts.
Chronicle - At Work
CDA Solicits Top Talent

The Central Dance Association is one of the five major service organizations of the University. It is a service organization in that its members solicit top performers for entertainment throughout the academic year.

The CDA is an organization of members who have successfully proven their ability and potential during a trial period, on the CDA junior staff. The senior staff is in charge of choosing and contacting performers, all billing and advertising. This staff directs their junior co-workers who do all the manual work of advertising and decorations.

The CDA sponsors five major dance weekends a year, in addition to an open mixer at the beginning of the year. Of course, it is a tremendous responsibility for the CDA to contract reliable groups and adhere to the social rules of Clemson University, and to operate on a very limited budget. Because of the increasing size of the student body, it becomes increasingly difficult for the Association to please everyone. However, the 1967-68 school year saw such performers as Clifford Curry, Marvin Gaye, and Tammie Terrell, the Radiants, the Platters, and the Prophets.

WSBF Grows With School

WSBF, the twenty-four hours a day broadcasting facility of Clemson University students, is constantly striving to improve and broaden its programs to reach as many student tastes as possible.

A Senior Staff of twelve well-trained individuals guides the activities of WSBF broadcasting. This Senior Staff is divided into three main divisions of operation. These divisions are the Program, Engineering, and Business Staffs. These three main staffs are further divided in order to cover all phases of radio broadcasting.

Since the station has a corporate structure, policy making is co-ordinated by a Board of Directors. This board is composed of the Engineering, Business, and Program Directors plus two appointed members.

TIGER BAND

The Tiger Band, under the fine leadership of Mr. Bruce F. Cook, Director of Bands at Clemson University, is the official marching band of the University. It normally comprises some one hundred and twenty talented male students who wear their brilliant orange coats and black fur busbies proudly as they perform marches and play stirring school songs for enthusiastic audiences. The Tiger Band participates at such school events as football games, pep rallies, and basketball games. Their presence always seems to exemplify the traditional Clemson spirit, both at home and away.

Participation in the band is voluntary. The main functions and disciplines of the band are carried on under the coordination of band director, Bruce Cook, along with the help of field general, Ronnie Bullock. Baton twirlers, Dynva Edens, Kay Knov, and Margaret Kirkland also enhanced the halftime performances of the band with demonstrations of excellent baton handling. To the delight of the audience, they not only show their fine twirling ability, but demonstrate excellently coordinated baton tossing.
The Color Guard leads the crowd to the game.

Band members concentrate on halftime show.
Band performs intricate maneuvers at halftime.
CONCERT BAND

BRUCE COOK, Director
CLEMSON UNIVERSITY
GLEE CLUB

The Clemson University Glee Club is active throughout the school year, making appearances in and around Clemson. Students who share an interest in music are brought together through their common interest in the Glee Club.

The newly formed Women's Glee Club has proven highly successful and an asset to the chorus.

This year, the Glee Club groups have enjoyed many benefits while performing for various audiences, such as school groups and banquets.

During the Spring tour, the Glee Club visited North Carolina, South Carolina, Tennessee, and Georgia. Also, throughout the year they performed for various concerts at the University.

The final outstanding event of the year is the annual banquet, which pays a tribute to all members for a successful year.
Men's Glee Club performs at halftime during Homecoming.
THE CLEMSON PLAYERS

During the past year, The Clemson Players have made great strides in improving the quality of the local theatre. It has been our feeling that the Clemson student body, as well as the community, deserves the best possible theatre performances.

The 1967-68 season has been the best one since the founding of the Players five years ago. Perhaps the biggest achievement of all five seasons was the presentation of Arthur Miller's *The Crucible* this year. The cost of this production was the largest ever. Also new to the Players this year was a student-directed and produced set of one-act plays—*The Sandbox* and the *Boor*.

In the plans for next year are three full-length plays two of which will be student directed. The plays enjoyed the support of Clemson University's fine administration and student body this year, and hope to enjoy this same fine support in future years.
The Clemson Players Enjoy Their Best Year
Through the Reserve Officers Training Corps, the United States Army offers to Clemson men the opportunity to serve their country as commissioned officers.

Upon completion of the required basic course in Military Science, a young man meeting all of the other requirements may elect to participate in Advanced ROTC. Upon successful completion of the two years Advanced Military Science classroom work and a six-week summer training camp along with the normal requirements for the baccalaureate degree, the Advanced ROTC student is rewarded with his "Second Diploma"—a commission in the Army of the United States.

Members of the United States Army Instructor Group are proud to be associated with Clemson University and to have the opportunity to influence the development of young men who will furnish the future leadership of the Armed Services, Industry, and the many other fields of our society.

Counter Guerrillas Train For Jungle Warfare

An opportunity for advanced military training, a striving to achieve a physically fit body, the development of self-confidence and leadership abilities seem to be the aim of the Clemson University Counterguerrilla Platoon. This group of Army ROTC cadets was organized in September, 1962 and its membership is strictly on a voluntary basis.

To qualify for the platoon, one must have a 2.00 g.p.r. and be in excellent physical condition. Their training includes battle drill, hand-to-hand combat, rappelling, bayonet fighting, land navigation, and patrolling.

Field trips to Fort Benning, Georgia, and to the mountain Ranger Camp in Dahloneca, Georgia enrich their training and prove to be a great advantage to those who will attend summer camp.

Commander Frost plans training exercises with military advisors.
Army Band

The Army ROTC Brigade at Clemson University is well represented by the Army ROTC Band; the importance of the band makes it a valuable asset. At drills, parades, and various other functions the band guides the Brigade.

The select sophomore and freshmen cadets who comprise the band are well trained. Most of them are in the Tiger Band, and some of them were in bands previous to their arrival at Clemson. The band has excellent leaders in the junior and senior advanced cadets who direct and advise the other members. The band represents Clemson University in drill competitions with other Army ROTC Bands from different colleges and universities throughout the year.

This organization puts in a lot of practice in order to continue its high standing with Clemson University and the ROTC Brigade. The pace that it sets for the cadets is similar to the pace that it preserves in retaining excellence and honor. The University and the ROTC Brigade are proud of the superior performance it has demonstrated. Through their effort, the band continues to hold high the tradition of Clemson’s Army ROTC unit.
Air Force ROTC

The Air Force ROTC Program is relatively new on the Clemson campus. The stature of the program has improved consistently throughout the years. The program consists of two parts, advanced and basic. Both are two-year programs and on completion of the advanced course the student receives a reserve commission in the United States Air Force. Entrance requirements for both the advanced and the basic courses are strict. A predicted G.P.R. of 2.0 is required for the basic course and entrants must pass stiff mental and physical tests. The advanced course requires good class standing as well as continued physical excellence.

Flight Instructor Program Provides Pilot Training

The Flight Instructor Program at Clemson University is designed to prepare future Air Force pilots to go into advanced training upon their commission after graduation.

Participants in the program take thirty-five hours of training, using a Cessna 150 aircraft. Included in these thirty-five hours are twenty hours of dual instruction and 15 additional hours of solo flying in which the trainee gains confidence in his ability to handle his aircraft.

During his training, each cadet gains valuable experience in basic flight, navigation, and cross-country flying. Also, instructions in instrument flight and advanced aeronautics are included. The Department of the Air Force pays for the instruction program.

Each participant must have passed the pilot portion of the Air Force Officer Qualification Test with a certain grade and also the flight physical of regular Air Force pilots.

Twenty-five cadets successfully completed the program this year.

M. G. Pritchard
F.I.P. Commander

FLIGHT INSTRUCTOR GROUP.
AFROTC BAND UNIT

MAJ. B. WILLIAMS
Band Commander

Thursday afternoon drill sessions are much enhanced by the presence of the AFROTC Band. The AFROTC Corps training is led by a well-trained, well-coordinated group. The band performs as a regular drill unit of the AFROTC detachment at Clemson at all drill functions as well as in parades and during the flag presentation.

The band participates jointly with the Army Band in the Honors and Awards Day Program each year. It sets the pace and provides all music for Air Force cadet troop maneuvers.

Membership in the band is open to all interested AFROTC students who display talent in military marching and musical ability. Members generally furnish their own instruments; many members are in Tiger Band, others are students who were in bands before coming to Clemson University.

The band is commanded and conducted by experienced student officers. The Air Force ROTC Corps is proud of the band and well aware of its importance to drill training. Since its organization in 1950, the band has helped to set the high standards of the Air Force ROTC group.
ORGANIZATIONS
HONORARY
Those men who have become members of the fraternity of Alpha Zeta can be justly proud. The fraternity was founded in order that men having high academic achievements and strong character might further agricultural pursuits through their combined leadership.

Both honor and service functions are performed by the fraternity members who come from all of the departments under the School of Agriculture. Members express their thoughts during business sessions and gain new insights from speakers and Alpha Zeta alumni.

Participation on the regional and national levels is carried out by the S. C. Chapter. The chapter was well represented at the last regional conclave held by the Georgia Chapter in Athens. Many interesting and new ideas were brought back to the local chapter. Plans are being made for participation in the next regional conclave to be held at Virginia Polytechnical Institute. Even though the field of agriculture may continue to make great changes, Alpha Zetas will meet these new challenges with eagerness.
Alpha Phi Omega

Alpha Phi Omega is the largest service fraternity in the United States. Clemson University's chapter, Gamma Lambda, is one of nearly four hundred in the nation. This year, active membership reached fifty-five, seventeen more than last year. Alpha Phi Omega is a growing and active fraternity on the Clemson campus. It has to be large to tackle the numerous tasks to be undertaken for a growing university. The projects undertaken this year were very successful. They consisted of a prize winning Homecoming display, distributing of blotters, distributing of the Chronicle, providing graduating seniors with a copy of Careers magazine, and helping the infirmary during the flu epidemic. APO also teaches a course in emergency self help. The scouting committee is responsible for many Boy Scout activities in the area. They observe the presentations of merit badges to Scouts and instructors in swimming, lifesaving, and scouting skills.

Blue Key

Gordon Edgin relaxes in Blue Key Lounge.

Chuck Whitney listens intently during Blue Key meeting.

JOHN DICKERSON, President
Blue Key is a national honorary organization with chapters on over 100 college campuses. Eligibility for membership is based primarily on all-round leadership, scholastic achievement, and service of students to their respective institutions. Their activities and projects are oriented toward the betterment and benefit of Clemson University. Blue Key provides a grounds for discussion of student problems, activities, and means of serving the institution and fellow students.

Several projects are undertaken by the local chapter each year; of which the planning, coordinating, and directing of Tigerama, the annual student variety production, is perhaps foremost. Blue Key did a fabulous job with Tigerama this year. Their efforts and contributions made the show one of the best. Besides being responsible for skit selection and the general production of Tigerama, the members serve as escorts for the Miss Clemson University contestants. In addition to entertaining or fund raising projects, this year Blue Key’s activities included helping visitors on campus during High School Visitation Day. The members served as guides and student hosts for the guests.

The Clemson Chapter has as one of its biggest aims to purchase a large Clemson University Seal to be placed on the front of the new Robert Muldrow Cooper Library.

Blue Key members enjoy a bit of humor at their meetings.
Clemson Circle K Club

The Circle K Club is an organization for college men who have banded together to better serve their school and community. This service organization is sponsored by the Kiwanis Club. Among projects this past year, the Clemson University Circle K built and installed eight 55-gallon litter barrels. These were placed in various sections of the community and also at the YMCA recreation area on Lake Hartwell. Besides this, the club installed a bulletin board on the loggia. During several afternoons, they planted the shubbery now adorning the new boys dormitories on west campus.

The boys in this club are all students with good academic standings as is required by the International By-laws. Their only other requirement is a willingness to give up a few hours of their free time to better serve their school and community. Last year the Circle K Club started a Key Club at Daniel High School in conjunction with the local Kiwanis Club. Various fund raising projects help the club support their service projects.
Gamma Beta Phi Society

The Gamma Beta Phi Society is a national organization dedicated to the principles of scholarship, leadership, and character among university students. The society is affiliated with the National Beta Club and tables its membership from those former Beta Club members who wish to maintain in college the same high standards of scholarship, the development of character, and the dedication to leadership that they upheld in high school. The Society’s academic requirement for membership is a 2.70 grade-point ratio after having completed twelve semester hours.

The Society held many functions this year, all in collaboration with helping Clemson University and benefiting worthy individuals. Gamma Beta Phi members are interested in helping the high school Beta Clubs all over the state. They cooperate with these clubs in helping them with their activities, and the society is directing the formation of new clubs in schools where they are wanted or needed. Gamma Beta Phi helps to promote good citizenship at Clemson University by willingly offering their services to certain activities. They are responsible for the distribution of publicity posters and brochures concerning the Clemson Concert Series. The Society’s members exert their leadership abilities by ensuring beneficial projects to Clemson University.
Iota Mu Sigma

Iota Mu Sigma is Clemson's honorary fraternity for Industrial Management majors. Membership is open to all I.M. sophomores, juniors, and seniors with a cumulative G.P.R. of 2.75 or better. On Honors and Awards Day the fraternity presents an award to one Industrial Management student who has proven his abilities in the fields of leadership and scholarship. Iota Mu Sigma Service Pins are also awarded to two deserving students.

The purpose of the fraternity is to promote scholarship, to be of service to the Industrial Management Department and to Clemson University, and to promote further study preparatory to entering the field of management. The club sponsors several field trips each year to some of the most prominent businesses and corporations in Georgia, North Carolina, and South Carolina to learn what the real business world is like. There is a steak banquet each semester to change the routine of the bi-monthly meetings. Here the members have a chance to speak with professors on an informal basis.

Keramos

In an effort to acknowledge outstanding students in the field of ceramic engineering, the Keramos Fraternity was established in January of 1958. The fraternity’s membership is composed of educators, graduates, and undergraduates who have primary interests in ceramics as a profession. Also the first professional fraternity in the field of physical sciences to be established at Clemson, the Keramos Fraternity has helped through its efforts to recognize ceramic engineering as a distinct engineering curriculum.

By providing recognition and honor to its members, the South Carolina Chapter of Keramos strives to encourage further knowledge and continued interest in the ceramic engineering field.
Mu Beta Psi

During its thirty years of service to Clemson University, Mu Beta Psi, Delta Chapter, has been active in stressing the importance of music as a part of university life. Mu Beta Psi is Clemson University's National Honorary Music Fraternity. Membership is limited to male faculty and students who have participated in recognized musical activities for a minimum of two years.

Presentation of the Annual Concert Series is a major project at which the members serve as ushers and marshalls and sell tickets. There are several concerts a semester, held either at the Field House or at Tillman auditorium. The turnout is usually large, thus the members of Mu Beta Psi do a great service in voluntarily helping at these functions. Spring Sounds is a money making project of Mu Beta Psi which presents prominent musical groups on campus and has become widely recognized for both its entertainment value and as a vehicle for student musical expression.

A very musical drop-in for membership prospects.
Membership into the honor society, Sigma Tau Epsilon, is extended to all juniors and seniors in the College of Arts and Sciences with a 3.0 grade-point ratio or better. Its purpose is to establish and develop high standards of scholarship, character and a spirit of fellowship among all of its members. This is evident when each initiate must pledge "I will always endeavor to speak the truth and live it as to be known and read of men what I really am." Two awards are given yearly by the society on Honors and Awards Day. One goes to the sophomore with the highest scholastic average; the other to the senior in Arts and Sciences having the highest scholastic average. Active participation in Sigma Tau Epsilon is healthful incentive to upholding Clemson's finest intellectual spirit.

Phi Eta Sigma

Phi Eta Sigma is a national freshman honor society which was founded to encourage, recognize, and reward high scholastic work among male freshmen. There are more than 150 chapters of Phi Eta Sigma throughout the United States.

A grade-point ratio of 3.5 or better for the first semester or for the entire year's work is the sole requirement for membership.

Phi Eta Sigma sponsors the achievement tests given to interested freshmen in mathematics and English. The winners are recognized with special awards on Honors and Awards Day. The senior with the highest grade-point ratio is presented with a medal at Honors and Awards Day. In the spring, a banquet honoring those who have joined during the current year is given.

Another purpose of Phi Eta Sigma is to give its members an opportunity to become acquainted with other outstanding students at Clemson.

A formal initiation and business meeting is usually held once a semester.

DON DuBOSE, President
The Executive Council plans meetings and functions.
H. G. SPENCER, President

Phi Kappa Phi

Membership in Phi Kappa Phi is considered to be the highest scholastic honor that can be awarded a Clemson student. The 3.5 GPR for Junior initiates and 3.2 GPR for Seniors serves as a challenge to aspiring young scholars. The existence of such a national honor society on our campus exemplifies the importance which the professors and students alike attach to the pursuit of learning.

The goal of Phi Kappa Phi, "The Love of Learning Rules Mankind," encompasses the determination of Phi Kappa Phi members to bring their influence to bear in the shaping of universal values.

A member of Phi Kappa Phi characteristically is a student who early in his college career realized the importance of performing at a high level of excellence and was willing to put forth the effort required for such a task.

"To strive, to seek, to find, and not to yield."  
(Tennyson)
Members are welcomed after formal initiation.
Tiger Brotherhood

Tiger Brotherhood is a local, selective honorary fraternity which was organized at Clemson in 1928 by Professor J. L. Marshall for the purpose of developing a closer relationship between students and members of the faculty and administration.

Each year Tiger Brotherhood participates in a number of campus activities and projects in an effort to develop greater school spirit and a sense of pride and loyalty to Clemson. A project of key interest is the selling of hats before home football games in an effort to stimulate spirit and raise money for a Tiger statue to be placed in front of the new coliseum. The organization climaxes the school year by presenting the “Mother of the Year Award” to the outstanding mother, who in some way has been affiliated with Clemson University.

Tiger Brotherhood contributes much to the great Clemson tradition by setting high standards of social and ethical conduct, as it strives to instill within its members a living image of the best type of Clemson Gentleman.
Dave and John coordinate hat sale.

This is the best Clemson has to offer.
SIDNEY KERSEY, President

Tau Beta Pi is the nation's oldest engineering honor society, having its beginning in 1885. The local chapter, South Carolina Alpha, was established at Clemson in 1928 with the purpose then, as it is today, to recognize those who have exhibited superior scholarship and distinguished character as undergraduates in engineering.

Membership in the chapter is limited to those juniors and seniors in at least the upper fifth of their class who have shown leadership ability in their respective engineering fields.

Tau Beta Pi strives to improve the academic atmosphere at Clemson by means of its service activities, which include a free slide rule course taught by chapter members, the maintenance of study rooms in the Civil Engineering Building, and an award to the outstanding sophomore engineering student. A new service activity undertaken this year is the freshman guidance program whereby upperclassmen give counsel to freshmen.
The objectives of this fraternity are to secure and maintain a high standard of scholarship in forestry education, to work for the upbuilding of the profession of Forestry, and to promote fraternal relations among earnest workers engaged in forestry activities. A Xi Sigma Pi brother tries to further fraternal relations and to promote the high ideals of the fraternity among those who are directly or indirectly engaged in forest activities.

Xi Sigma Pi is the oldest and largest forestry fraternity originating in the colleges of the United States. This year, the fraternity presented, for the first time, a scholarship recognition award. This award is presented to the rising sophomore, junior, and senior that achieved the highest grade-point ratio for the previous academic year and also shows desirable personality traits.
pro-fes'sion-al (pro-fesh'ën-ol, -əl), adj. 1. Of or relating to a profession. 2. Characteristic of or conforming to the standards of a profession; as, professional courtesy. 3. a Engaging in an activity, as a sport, for gain rather than for fun. b Engaged in by professionals; as, a professional race. 4. Following a line of conduct as though it were a profession; hence, assumed; as, a professional patriot. — n. A person who engages in anything for gain rather than for sport alone; — opposed to amateur. — pro-fes'sion-al-ism (iz'm), n. — pro-fes'-
sion-al-ly, adv.

### PROFESSIONAL
Agricultural and Biological Science Council

The Ag-Bio Council is composed of two members from each club and organization in the College of Agricultural and Biological Sciences. The purpose of the Student Council is to serve Ag-Bio students by coordinating all activities among the member clubs. The Student Council welcomes all high school students visiting the agricultural and biological departments by conducting visitation tours. Throughout the year Council members are engaged in orientation talks to students across the state who show interests in respective Ag-Bio fields. The Council stresses the importance of agriculture and biology in our society. Each semester the Council sponsors square dances which promote closer ties between students and faculty.

Agricultural Economics Club

The Agricultural Economics Club of Clemson University promotes fellowship between students and staff members of Agricultural Economics. This organization familiarizes its members with current agricultural and economic problems and makes available all information and advice within this field.

The club sponsors field trips of interest to the students; moreover, it presents various speakers to its members throughout the year. Perhaps one of the most important projects this organization sponsors is the preparation of a news bulletin devoted to encouraging high school seniors to attend Clemson and major in Agricultural Economics and to promote the department's graduate program.

Social activities of this organization include a homecoming display and a banquet for the members, their dates, and staff members.
The student chapter of the American Association for Textile Technology provides textile students an early means of becoming associated with the organization of the National AATT and to advance its aims and goals.

The student chapter of AATT was organized on Clemson's campus in 1962 to affiliate the students in textiles with a national textile organization.

The purposes of the AATT are to keep the students informed on current developments in the textile industry, and to develop an understanding of all aspects of the industry.

These goals are accomplished by having speakers from industry talk at meetings, having field trips to industries, and showing movies on recent developments. All undergraduate students including freshmen, whose curriculum includes one major course in textiles are eligible to become members of the students chapter of AATT.
American Association of Textile Chemists and Colorists

The Student Chapter of the American Association of Textile Chemists and Colorists is a professional organization for those persons interested in the chemistry of fibers, dyestuffs and adjuncts of textile applications. Since the AATCC was founded in 1921, its basic goal has been to provide a forum for the dissemination of knowledge concerning textile chemistry and for the professional development of its members. Today the nearly 9,000 members of the AATCC live and reside in nearly 46 of the 50 states and in over 40 other countries. Activities during the year include plant trips to such textile operations as Greenwood Mills and Gregy Dyestuffs. Speakers at the bi-monthly meetings talk on current subjects and new developments in the textile industry and a banquet ends out each semester's activities.

TERRY ANDERSON, President
The American Ceramic Society is an organization composed of students majoring in Ceramic Engineering. Membership is open to students from freshman to graduate students.

The society holds at least one regularly scheduled meeting each month at which the society endeavors to have an interesting speaker in the ceramic field. Lectures are on such topics as new developments, new techniques and problems of the ceramic industry which the members will some day face as ceramic engineers.

Many field trips are conducted for the ACS. These trips are to brick plants, and fiberglass plants among other plants that manufacture ceramic products. These trips to various places prove to be thoroughly educational as well as entertaining to all who attend.

Each year the local chapter sponsors an annual speaking contest in which the winner represents the chapter at the national convention. Members of the Clemson chapter of the American Ceramic Society may also become student members of the National American Ceramic Society. Members enjoy benefits such as reduced prices on textbooks published by the society and the receiving of the two monthly publications of the society.
American Chemical Society

The American Chemical Society provides an opportunity for fellowship among students of chemistry, textile chemistry, and chemical engineering in addition to instilling a pride in these areas as professions. Membership is open to all students majoring in chemistry, chemical engineering, and textile chemistry.

Each year the members of the local chapter attend various sectional meetings and social events in South Carolina and North Carolina. Speakers such as Dr. John Nair lecturing on the role of chemistry in industry are guest speakers at local meetings. This year there was a joint meeting with AIChE at which the students heard a lecture in drugs and their effect on the mind. In November, the members attended the Regional ACS meeting in Atlanta for several days to hear well-known figures in the fields of chemistry and bio-chemistry.

The local chapter furnishes assistance to all freshman students needing help in chemistry by providing a tutoring program. The society sells safety glasses and aprons to provide money for the various activities, and thereby eliminating the need for members to pay local dues.

While meeting in the Organic Lab, the members watch the stirring solution.
The Clemson American Dairy Association had a small but important beginning in 1922. Due to the tireless efforts of Professor B. E. Goodale, Clemson dairy students started the Clemson Dairy Club, which was later to become affiliated with the national ADSA. This club has the proud distinction of being the oldest departmental club on campus.

Members constantly seek to learn especially from young men who are presently facing situations very similar to ones our dairy graduates will be facing shortly. Programs centered around panel and group discussions are being emphasized. Possibilities for sharing a program with the Georgia ADSA are being considered.

This year’s Dairy Products Judging Team went to Los Angeles to participate in the National Contest. The team composed of Wayne Satterwhite, Richard Chassey, and Robert Steer were pleased to place eighth in ice cream judging.

Academic standards continue to be emphasized. Many scholarships sponsored by various dairy organizations are made available to dairy club members. Perhaps the most cherished award is made by the dairy club to the dairy student showing the most improvement during his stay at Clemson.

ROBERT STEER, President
The student chapter of the American Institute of Chemical Engineers was founded on the Clemson campus in 1947. Membership in the student chapter is restricted to chemical engineering students who have attained at least a sophomore rating. The purpose of the AIChE is to further the interests of the students in the realm of Chemical Engineering and to promote professionalism. This is accomplished by having guest speakers from industry lecture at bi-monthly meetings of the chapter on such topics as Psychedelic Drugs, Computer Control, the Chemical Engineer in Plant Design and Nuclear Engineering. The senior members of the AIChE also participate in numerous plant trips to gain firsthand information about the chemical industry.

The AIChE also engages in social activities. The chapter constructs a display in front of Earle Hall on Homecoming weekend, and a party is given for members twice during the year, as well as a steak supper for members at the end of the academic year.
Frank and Bo conduct a liquid extraction experiment.

DAN HOLDER, President
Judson, Benny, and Gene await results of a gas absorption experiment.

Ed Henne and Bill Bernat work at the analog computer.
The organization formally known as the Society of Industrial Engineers became the Clemson chapter of the American Institute of Industrial Engineers during the 1965-1966 school year. The AIIE was organized to stimulate and promote the advancement of industrial engineers at Clemson.

Members are industrial engineer majors who wish to learn more about their chosen fields, and thus promote themselves professionally. They achieve this purpose by participating in programs which present speakers from various facets of Industrial Engineering and by visiting nearby plants in which industrial engineers are in demand. A trip to Lockheed in Georgia was planned for this year. Speakers highlighted the schedule: Mr. Lenny Bell from Firestone, and a representative from Talon, Inc.

The members may attend the regional AIIE Conference in the spring. Students may submit a technical paper at the conference to practice ability in presenting materials and to compete for cash awards. Also during the year the AIIE produces and sells ashtrays and anvil paperweights in order that the chapter can have funds to operate.
American Society
For Metals

The Student Chapter of the American Society for Metals was organized on the Clemson University campus in September, 1966. This relatively new organization was formed to stimulate student interest in the latest scientific and engineering developments in the field of metals and engineering materials; to offer inspiration through contact with nationally known speakers on metallurgical subjects; and to familiarize students with the professional attractions of the career in metallurgical research or production. Any regularly enrolled, full-time undergraduate or graduate student in metallurgy, metallurgical engineering, materials engineering, or related fields shall be eligible for membership. Yearly activities include plant tours, technical talks by selected guest speakers, monthly visits to the regional American Society for Metals meetings. Further activities include a Homecoming display and two group picnics.
American Society of Civil Engineers

Speakers from the Tennessee Valley Authority, Bethlehem Steel, American Institute of Steel Construction, and Southern Railways highlighted the engineering phase of the Clemson University Chapter of the American Society of Civil Engineers this year. During the course of the year, the Clemson chapter made field trips to the Clemson coliseum and the Keowee Toxaway Construction site, along with other points of interest. The functions and field trips this year, as always, were to acquaint civil engineering students with the various phases of engineering.

Building a Homecoming display, editing an annual student publication, and participating in the Carolina Conference with other ASCE societies rounded out the civil engineers’ calendar year. Through the participation of its 100 member enrollment, the Clemson Chapter of ASCE should again rank as one of the nation’s best.

Joey shows members how to adjust the dials of the machinery.

Students measure the destruction of a cylinder.
JOEY BRIGGS, President

Students watch the crushing of bricks.
American Society of Mechanical Engineers

The American Society of Mechanical Engineers is a national engineering society dedicated to the advancement of the engineering profession. Membership is open to any mechanical engineering student in good standing.

Bimonthly meetings are held that feature business discussions, planned programs and guest speakers from the industry.

ASME students participate in such contests as design contests, the Bendix Award, and technical paper presentations. The Clemson chapter holds the coveted Bendix Award which is presented for the best organization, programs and student participation. Members also take an active part in such activities as the Homecoming display, field trips, and the annual regional student conference.

The ASME is a very useful outlet for students. The club brings together all mechanical engineering students from freshmen to graduates. Many friendships and working relationships are developed that will be of value after graduation.

Engineers build spirit.
Block and Bridle Club

Block and Bridle, the professional club of the Animal Science Department, finances annual trips to Atlanta and Chicago for the Livestock judging team. The money for these trips and other activities is raised by barbecues held on IPTAY Day and the Spring Intra-squad football game.

Each semester, the club offers a scholarship for the outstanding junior in scholastic standing, leadership, and general Block and Bridle work. The club also submits a candidate for the National Block and Bridle Junior Scholarship.

During the Spring Semester, the Little International Livestock Show is held. It includes such activities as a club livestock judging and evaluation contest in which the students exhibit their skills in fitting and showing cattle, sheep, and swine. After this program a judging contest is held for 4-H and FFA Chapters across the state. Trophies are awarded to the highest scoring team and individual team members.

At the annual banquet, honorary membership is bestowed upon two gentlemen whose interest and hard work have greatest promoted the livestock industry in South Carolina. The highest award, the Merit Trophy, was presented to the Outstanding Senior for his leadership and work within the club that helped to make the year a success.
Members serve guest line at the barbecue.

DON BALLINGTON, President

Boys from Newberry Boys Farm were guests at the barbecue.
American Society of Agricultural Engineers

The purpose of the South Carolina Branch of ASAE is to familiarize the student in Agricultural Engineering with his future profession. The Student Branch carries on several activities and projects each year. This year the club was the host for the Southeast region meeting of Student Branches of ASAE.

This year the club had a twelve-acre soybean project. The club members did all the work on the project and got valuable experience working with the other members. The money made on the project helped pay for a field trip to different parts of the Southeast to tour companies that employ Agricultural Engineers.

The Student Branch sponsors a barbecue supper for the South Carolina Section of ASAE each year during the Homecoming Weekend. This is a joint supper between the members and the Agricultural Engineers of the state and gives the members a chance to meet some possible future employers. The annual banquet is held between the Georgia and Clemson Branches of ASAE to exchange ideas and meet students from other schools.
Clemson 4-H Club

Established in 1952, the purpose of the 4-H Club is to establish closer relationships among the students and faculty members and to train its members for leadership. The original members were students who had been 4-H members in high school. These students recognized the need to maintain their social and service contacts with students and alumni having similar interests.

A monthly service is provided for the students by printing and distributing calendars listing major campus events. The Alumni Association aids in the service.

The club members are well informed about 4-H activities by such speakers as Mr. J. B. Williams, State Boys 4-H Agents and Dr. W. D. Mickleberry of the Food Science and Biochemistry Department. All these activities along with a trip to the Southeastern Collegiate Conference enable the students to keep a close watch on the 4-H activities of the nation.
Forestry Club

The purpose of the Clemson Forestry Club is to bring about a closer relationship among the forestry students and to promote interest in the knowledge of forestry in the University. Membership is open to all students of the Department of Forestry.

The club participates in all intramural sports and they have established a winning record for homecoming displays. The members finance their activities by cutting and selling firewood.

This year the Clemson chapter was the host for the Association of Southern Forestry Clubs' conclave. At the conclave there is competition in field events such as pole climbing, axe throwing, and bow sawing.

In addition to the conclave, the club annually publishes *The Clemson Forester*. The aim of the publication is to inform all interested persons of the club and department activities.

From the willingness to work and the enthusiasm of all members, all Forestry students feel that the club is a great asset.

DALE MARTIN, President

"I knew I cut lab one too many times."
Another winning display with “Paperize the Terps”.

Jerry and Larry try to start the chain saw.
The Clemson University Horticulture Club furnishes a medium of contact with the horticulturists of the state and acts as an official agent of the horticulture students in college matters. Promoting the profession of Agriculture, the club is comprised of undergraduate and graduate students and supported by the faculty and staff of the Department of Horticulture. Clemson’s Horticulture Club placed second in nationwide competition of the Association of Collegiate Branches of the American Society for Horticulture Science, of which the Clemson Club is a charter member.

The club has worked enthusiastically on all projects. This year’s club made grape juice and potted plants to make enough money to send representatives to embody the club in several competitions. The school year is opened with a cook-out, which affords new members a chance to meet and mingle with faculty and other Horticulture Club members, and it ends with a spring banquet.

At the 1967 meeting of the ASHS, Jack Stang, a senior, presented an essay report based on his findings of a summer’s experiment, in which he placed first over other colleges and universities represented.
A lively discussion on which came first, the chicken or the egg.

The Poultry Science Club

The Clemson Poultry Science Club was formed with the purpose of furthering the social, cultural, and scholastic activities of the members by working together and in cooperation with the Poultry Science Department.

To be a member, a student does not need to be a poultry major; his only qualification is that he must possess a sincere interest in some phase of the poultry industry of today.

During the 1967 football season, the club sponsored a chicken barbecue the day of the Homecoming game with Maryland. The proceeds from this barbecue were used to pay the members' expenses to the Southeastern Poultry Exposition in Atlanta during the last of January.

Also, during the year, the club invites in several outside speakers who fill the members in on what is happening in the different aspects of the poultry industry as well as in related fields. These outside speakers help to establish a much needed connecting link between the academic and business views of the student in relation to the day when he will go from one aspect to the other.
Clemson University Recreation and Parks Administration

The Recreation and Parks Administration Club was organized three years ago by students majoring in RPA. Their purpose was to help Clemson become recognized in the field of recreation. The club encourages the students to have a good outlook on the profession and provides recreation activities for them to participate in. In the three years since the club's organization it has grown to be the largest RPA Club in the United States.

The members have many opportunities to get together to discuss their work and make plans for the future. The club sponsors regular activities such as guest speakers, field trips, monthly meetings and socials. In November, the club featured a special social for the most honored guest of the South Carolina Recreation Society's Convention which was held here at Clemson. In the spring, the members will go to Charlotte for a tour of the city's recreation facilities.

BILL KISSAM, President

Economics Club

The Economics Club exists for the purpose of providing investigation and singular discussions of current economic issues. The meetings are informal, and usually held in the homes of the faculty. The meetings are attended by most of the professors of the economics department, so the student has vast opportunities to learn from firsthand discussion and argument rather than from a textbook or static situation of the classroom. There is no prerequisite for the membership in the club, the only requirement is an abiding interest in the study of economics. The club has featured speakers from such fields as banking and the stock market, and holds frequent debates between students and faculty.
Delta Sigma Nu

Delta Sigma Nu is the pre-medical fraternity of Clemson University. The main purposes of organization are to prepare Clemson students for a career in medicine and to familiarize the members with medical subjects, helping them choose courses in keeping with pre-medical training, and to inform them of application procedures of regional medical schools.

Throughout the college year, many trips are planned to the neighboring hospitals and medical schools. Past tours have been to the Greenville General Hospital, the Medical College of South Carolina, and Bowman Gray School of Medicine in Winston-Salem, North Carolina. Noted professionals in the field of medicine come to speak to the club, and films of special interest are periodically presented for the benefit of the student body.

Membership in Delta Sigma Nu is open to all Pre-Medical and Pre-Dental students as well as those in other curriculums who are planning a career in medicine. A minimum grade-point ratio of 2.5 is required.

MICKEY LUND, President

 Gamma Omega Phi

The purpose of Gamma Omega Phi fraternity is to honor the outstanding members of the Young Republicans Club of Clemson University. Organized in 1967, the fraternity participates in many of the important functions of the Republican party in South Carolina. During the fall of this past year, the members of the fraternity helped in the organization of the Reagan dinner. During election campaigns, the Republican Party has the full support of every member of Gamma Omega Phi.

The main purpose of every fraternity function is to set an example for the other members of the Young Republican Club.

To be considered for membership, a candidate must be a member of the Young Republican Club and he must show a high degree of devotion to the Republican Party and what it stands for. The members come from all parts of the country. They are moderates, liberals, and conservatives but they all share a common belief in the ideals and purpose of the Republican Party.
The Gamma Chapter of Iota Lambda Sigma was formed on the Clemson University campus in May, 1930, to promote industrial education through recognition of professional training and high scholarship. It is to maintain a closer fraternal bond between the actual and prospective teachers of industrial education. Members have completed at least twenty percent of the course work in their major field of industrial education with a "B" average or better and a graduating grade-point ratio.

Initiation for the Gamma Chapter takes place twice each year, with a banquet at the conclusion for all faculty members, student brothers, and their guests. At the close of the initiation of the fall of 1967, Professor J. L. Brock, Past President of the chapter, was the speaker.

The fraternity makes its services available to other fraternities on the Clemson campus by way of cutting and furnishing materials for initiation programs. Also, Iota Lambda Sigma contributes to a better educational atmosphere by supervising the Industrial Education Library established for student use.
Richard Bellflower explains machinery to new members as old members look on.

David cuts out initiation plaques for a fraternity.
This year, Kappa Alpha Sigma, better known as the Agronomy Club, has had one of its most active years. Besides the bi-monthly meetings, the club puts out a newsletter called "The Corn-shucker". This newsletter is sent to every member, various agronomy clubs around the state, and especially to all old Kappa Alpha Sigma members to keep them in touch with the club's activities and old classmates. Besides the annual cookout, the club took a field trip to the University of Georgia, and their club was asked to visit Clemson for a return trip. This is one of the many reciprocal field trip programs set up. One of the last things the club participates in is the banquet held in March to which the graduating seniors are the guests of honor.

At meeting, members practice using instruments in the textile testing lab.

Phi Psi

The Phi Psi Fraternity is the oldest Greek letter organization on the Clemson campus. Iota chapter was formed in 1927. The fraternity originated at Philadelphia College of Textile Engineering in 1903. Phi Psi Fraternity is the largest and most respected textile fraternity in the world and its alumni hold some of the highest positions of trust and respect in all branches of industry.

Iota chapter of Phi Psi Fraternity on the Clemson campus is involved in various activities. Being in the heart of the agricultural district of the state, the Textile Club has potential and relevance. Some of the activities of the club include field trips to textile plants and money-raising projects for the organization's annual banquet and national convention held in March in Charlottesville, Virginia. Upon graduation, members may become members of an alumni chapter of the fraternity. The fraternity served as guides for high school students invited to orientation day at the school. They answered questions about college, choosing majors, and the rising opportunities in textiles.

Pre-Veterinary Club

The Pre-Veterinary Club of Clemson enables all students interested in Veterinary Medicine to gain insight and interest into the Veterinary profession. The Pre-Vet Club is sponsored by the freshman and sophomore pre-veterinary advisors who work coordinate with the executive committee of the club to establish an interesting and variable array of programs. Faculty members of the School of Agriculture and Biological Sciences always willingly give of their time to the members of the club.

Each year the club has a variety of programs with speakers, field trips, and demonstrations of the veterinary methods and techniques. In the spring, the upperclassmen make an annual field trip to the Sandhill Experiment Station at Pontiac, S. C., where they are oriented into the activities and experiments taking place there. Also, to keep with tradition, the upperclassmen travel to the University of Georgia to tour the Veterinary Medical School to which many hope to attend.

At the end of each school year, a banquet is held to install new officers and to bring to a close the activities of the club.
JOE LYNN, President

The Society for Advancement of Management, the recognized national professional organization of managers in industry, commerce, government, and education, and the pioneer in management philosophy, has been dedicated to the advancement of management and of management men since 1912.

The annual Career Day sponsored by the Clemson University Chapter gives all students an opportunity to gain knowledge through discussion with leaders in various professional fields. The members of SAM also participate in numerous field trips to industrial and business establishments. All combine to give every member an opportunity to prepare himself for the business world through active participation in the functions of the club.

Membership in SAM is open to any student with a true interest in management. This is the only requirement a person must meet to join SAM.

Some of the activities for this year included trips to Excelsior Mills and WPBC-TV in Greenville. There are usually several trips to Atlanta during a school year, also.

SHERRY MARCHBANKS, Sweetheart
Through varied and numerous activities, the members of the Clemson University Young Democratic Club seek to learn about politics and current political happenings, as well as to participate in political happenings. The CYD's this year have several panel discussions concerning current political questions, with panel members including faculty members and students, and they have heard several speakers, including the Chairman and the Executive Director of the South Carolina Democratic Party, Senator Earle Morris and Dr. Donald Fowler, and former Senator Bradley Morrah. They have worked in several political rallies, including the big voter-registration rally in Spartanburg in October, attended several of the appreciation dinners given for South Carolina Democratic Congressmen in February, and attended the National Young Democratic Convention in Miami in November.
Senator Bradley Morrah speaks before the Young Democrats.
Young Republicans Club

Because 1967 was such an off year on campus politically, the Young Republican Club spent this year trying to build up the club in preparation of the presidential election in November, 1968. Membership rose and more interest was built up in the future activities of the club. The club is an active member in the South Carolina Caucus of The Young Republicans Club.

This year several members attended the Ronald Reagan dinner held in Columbia, South Carolina. Also, several prominent political figures at the local and state level have been invited to speak to the club for its programs. This year the Young Republicans are also planning to bring a petition before the South Carolina State Convention in order to present the political ideas and views that the Young Republicans would like to see put in effect in the government.
Clemson Debate Team

The Clemson Debate Team consists of students interested in representing this university in intercollegiate competition and at the same time, in advancing their own level of achievement.

The debate question is chosen on the basis of its relevance to the current problems of the world. It normally encompasses the fields of political science, economics, sociology, and history.

This year the team traveled to Florida State University, Emory University, University of South Carolina, George Washington University, Tulane, Maryland, Wake Forest. Each of these tournaments provided fresh challenges and opportunities for the students to learn views, meet interesting people, and travel into various areas.

The Debate Team honors its members by membership in the Calhoun Forensic Society. This year's president is Hans Feige who is also president of our chapter of TKA-DSR, a national debate fraternity. Mr. Feige is also Southern Regional Vice-President of the fraternity.
SO'cial (so'shal), adj. [F., fr. L. socialis, fr. socius an associate, ally.] 1. Marked by or given up to friendly intercourse or to companionship in pleasure; as, a pleasant social life. 2. Naturally or habitually living, growing, etc., in groups or communities; as, bees are social insects. 3. Of, relating to, or characteristic of society, or the leisure or pleasure-seeking class; as, social register (a directory of those belonging to this class). 4. Of or relating to human beings as a closely knit body of interdependent persons; as, social science. 5. Of or concerned with the welfare or contacts of human beings; as, social service; social worker. 6. Of or relating to human beings in their physical contacts or to evils resulting from such contacts; as, social hygiene. 7. Socialistic;—often used in names of political parties; as, the Social Democratic party.

Syn. Social, sociable, convivial. That is social which pertains to society in general, or has to do with human intercourse; one is sociable who is companionable, or fond of mingling or talking with others. Convivial implies jovial fellowship.
Inter-Fraternity Council

The Inter-Fraternity Council of Clemson University strives each year to promote good relationships among the nine social fraternities. The IFC also acts as a liaison between the fraternities and the administration.

The fraternity system here thrives on competition. The IFC realizes that competition is healthy and thereby awards many trophies for achievement in the areas of grades, sports, Greek Week, and Homecoming.

Rush Week is the most important time of all for Greeks. Smokers are held during the week, with parties on Saturday night. Bids are issued and accepted on the following Monday.

Greek Week climaxes the social year. The fraternities enjoy competing in the Greek Olympics. The IFC dance, usually with a big name band, ends the weekend.
The brothers of Alpha Gamma recall many fond memories, each one "dear to us all."

BECKY CARLTON, President
Intersorority Council

The Intersorority Council is an organization composed of an elected representative from each sorority and the presidents of each sorority. The Council coordinates inter-sorority activities and presents the overall picture of Clemson sororities to girls who wish to know more about the three sororities on campus.

ISC establishes rules and standards for general sorority conduct and for "rush" season. The council during rush sponsors a reception for all girls who wish to participate in rush to acquaint them with the sororities. It is the goal of ISC to serve as a panhellenic organization under which all sororities can maintain their individual high standards while contributing to the overall Greek image on campus.

MILITARY

Bredland Says

'Is Heaviest In History'

Bombardment Of DMZ
The Flying Tiger Angel Flight is a coed auxiliary to the Major Rudolph Anderson Squadron of the Arnold Air Society. The Angels function as hostesses and social coordinates for the society as well as for the Cadet Wing.

The girls in Angel Flight undertake selected service and social projects within the community. In addition to corsage sales before each home football game, the club undertakes projects for Miracle Hill, and servicemen in Viet Nam. Each Angel sponsors a squadron or a group of the wing during special reviews. They also drill as a team. Several dropins are held throughout the year with the Arnold Air Society.

The Flying Tiger chapter of Angel Flight is a member of the National Angel Flight. At the Area C-1 conclave in Charleston, S. C., the chapter was named the Most Improved Flight in the area of 1967.
Light Brigade

MEMBERS. FIRST ROW, LEFT TO RIGHT: Barker, D., Commander. SECOND ROW: Lancianese, J., Ball, D., Carroll, V., Moss, C. THIRD ROW: Pennington, D., Bissey, D., Stewart, T., Tripp, S., Tyson, C.

"Attention! Present Arms!" Marching with their companies and battalions is one of the main activities of the members of the Light Brigade. On any Thursday, the red uniforms of the girls can be seen among the Clemson Army ROTC cadet units. The Light Brigade serves as secretary and hostess for the military staff and visiting military dignitaries.

Each semester the Light Brigade holds a rush tea in order to meet perspective members. Coeds are selected for membership on the basis of character, personality, appearance, interest, and must have an accumulated grade-point ratio of 2.0. The Light Brigade has become an important part of the Army ROTC Cadet Corps at Clemson University.
Scabbard and Blade

Company K-7 of the National Society of Scabbard and Blade is composed of members of the advanced Air Force and Army Cadet Corps. The goals of Scabbard and Blade are to “unite in closer relationship the military departments of American universities of good and efficient officers; to prepare ourselves as educated men to take a more active part and to have a greater influence in the military affairs of the communities in which we may reside; and above all to spread intelligent information concerning the military requirements of our country.”

Membership is limited to a maximum of six per cent of the advanced cadet corps, and merit is the sole basis for membership. The criteria for membership may be represented by the Society’s unofficial motto, “An officer only at times, perhaps, but always a gentleman.”

Activities of Company K-7 include selling Rat Hats to the incoming freshmen, and ushering in the President’s box at home football games. The company also sponsors the Military Ball every spring.
An initiate learns what is meant by being "an officer only at times, but always a gentleman."

Sabbard and Blade Crest.

The Society of American Military Engineers

The Society of American Military Engineers is an association in which engineers from all the engineer services of the Armed Forces and from all fields of civilian engineering practice join to increase the engineer potential of the United States for the national security. The student post promotes interest in military engineering and related subjects. This year the post visited the Savannah District Corps of Engineer Headquarters in Savannah, the Lockheed Research Facilities near Atlanta, and highlighted the year with a trip to the Vicksburg Waterways Experimentation Station over the spring vacation. The post holds meetings bi-monthly at which the members have an opportunity to hear from speakers from all over the Southeast as well as to see films on many aspects of military and civilian engineering.

The post is composed of members from Army and Air Force ROTC as well as other engineering students. The post advisors are Captain R. J. Britz of the Army ROTC Detachment and Captain R. M. Carter of the Air Force.

PR 4th Regimental Headquarters

Clemson is fortunate in having the Pershing Rifles Fourth Regimental Headquarters on campus. With the help of 15 PR units in the Carolinas, Georgia, Tennessee, and Alabama, the Fourth Regiment was selected as the Number One Regiment in the National Society last year.

During the year Regimental Headquarters holds two Regimental Assemblies, one drill meet, three postal rifle matches, inspects each unit twice, and attends two National Conventions (this year at Baton Rouge and New Orleans). Clemson won first place in the Rifle Match. By using Regimental Headquarters as a command and coordinating unit, the various activities of the fifteen-member PR units can be made known to the general public, Pershing Rifles National Headquarters at the University of Nebraska, and the geographical area of the Fourth Regiment.
Company C-4

Company C-4 of Clemson University was granted its charter by the National Society of Pershing Rifles in 1939. Since then the company has won over 175 trophies to symbolize victories in various events ranging from Clemson's U.M.O.C. contest to national competition. The Clemson PRs have built up a reputation for precision and sharpness. The PR's personal pride and desire combined with many hours of drill make an unbeatable team. Company C-4 draws its active membership from the first three classes at Clemson. Freshmen make up the pledge platoon. The pledge year is spent learning the fundamentals of drill and of the society. After this year of pledging, selected sophomores form the drilling company.

Highlights of the 1967-68 year include: the traditional performances of the precision routine at Homecoming and Carolina games, Military Ball, a trip to Mardi Gras in New Orleans, and the Cherry Blossom Festival in Washington, D. C.
The PRs learn quickly that many hours of hard drill make an unbeatable team.

PRs even have to spend many hours drilling in the rain.
PR Pledges

Training, education, and fun—those are the watchwords of a Pershing Rifle pledge. The pledge program is geared to instructing the freshmen in the basic fundamentals of drill with and without arms. Practice makes perfect, and to the PR pledge his M-1 rifle soon becomes a part of him. The pledge learns to execute rifle manual sharply, and gains the skills and confidence which he will need during his sophomore year in Company C-4.

A strong sense of discipline and a lot of military bearing will help him in either civilian or military life. The self-confidence, self-respect, and self-pride which he will acquire will help him in his relations with both his peers and his seniors.

The annual tactical problem against the sophomore company gives the pledge a chance to let off steam and to have lots of fun and at the same time teaches him to cooperate with others. The pledges show off what they have learned in various public appearances such as Sumter’s Iris Festival Parade, and the spring festivities at Columbia.

The pledges perform in front of Clemson’s student body when they form a sabre arch at the annual Military Ball.
PR pledges know that practice makes perfect.

Pledges practice for their public appearance at the spring festivities in Columbia, S. C.
Benny Pitman, Commander, and the other members of Area C-1 Headquarters make plans for the Conclave at Charleston Air Force Base.

Area C-1 Headquarters

The Major Rudolph Anderson, Jr. Squadron of the Arnold Air Society was honored to be chosen Area C-1 Headquarters for 1967-68. As Area Headquarters the Clemson Squadron has under its command eleven southeastern schools, including the University of South Carolina, The Citadel, the University of the South, the University of Georgia, Georgia Tech, the University of Florida, Florida State University, the University of Miami, the University of Puerto Rico, Emory University.

The primary duty of the newly elected Area Headquarters is to coordinate the activities of the southeastern schools, to distribute correspondence from national headquarters, to carry out an area inspection, and to hold an area conclave.

The Area C-1 Conclave served as the high spot during the first semester. The convention was held at Charleston Air Force Base, Charleston, S. C. with an attendance of 125 cadets and advisors. During the convention Colonel Pitman conducted business meetings to iron out problems within the area. At the conclave banquet, Captain Robert M. Carter of Clemson University was chosen the Outstanding Area Advisor.
Arnold Air Society

The Arnold Air Society, a national honorary and professional military organization was inspired by the late General H. H. "Hap" Arnold in 1947. The Arnold Air Society is composed of four memberships: active, alumni, associate, and honorary. Its membership has the common bond of established intent to become officers in the United States Air Force.

Drawing its name from the late Major Rudolph Anderson, a 1948 Clemson graduate who was shot down on a reconnaissance mission during the Cuban Crisis, the local chapter of Arnold Air Society strives to promote the mission of Arnold Air Society as prescribed by National Headquarters—to further the purpose, tradition and concept of the United States Air Force, to promote American citizenship, to create a closer and more efficient relationship among AFROTC cadets.

With Area Headquarters for Area C-1 based here this year, the Society hosts the Area Conclave at Charleston, South Carolina along with its regular yearly functions, the formal Arnold Air Dining-In, and such service functions as the upkeep of the Major Rudolph Anderson Memorial in Greenville, S. C., and promotion of the annual blood drive.

Members of the Arnold Air Society feel that the "honor" in an honor society should come from service to country, community, and fellow man in addition to that accorded the name.
Beta Sigma Chi

Founded in 1933, Beta Sigma Chi is Clemson’s oldest active organization. Until 1962 when it became a service fraternity, Beta Sigma Chi was known as the Charleston County Club. It was formed by a group of Charleston County students to promote fellowship among Charleston area students and to be used for the improvement and betterment of the University and the Clemson area.

Beta Sigma Chi’s social calendar remains active throughout the year. Parties of various types are held in Charleston during all holidays, with the highlight of the social season being the annual Christmas dance. The year is culminated with an all-weekend beach party at the beginning of the summer.

Since 1962, the main service of the fraternity has been to give a $200 scholarship to a qualified and deserving freshman from the Charleston area. To raise money for the scholarship fund, the club holds dances in the Charleston vicinity during the summer. Also the proceeds of the Christmas dance are used for this purpose.
The Chester County Clemson Club, a regional organization formed in November of 1959, is composed of Clemson students from Chester County. The club’s purpose—to promote unity and fellowship among club members through club activities—is carried out in its bi-monthly meeting and through the club’s various activities and social functions.

The club’s many functions include the annual Christmas dance which provides an opportunity for fellowship among club members as well as other young people in the area. This dance as well as the various other club functions have proven to be great successes due to the sense of brotherhood shown by the club members.

This fellowship and brotherhood is also evident in all of the club’s activities on campus. The intramural teams in football, basketball, and softball have been very successful. The club also seeks to help those whose families find the expense of college a burden by awarding a scholarship to an incoming freshman each year.

It is through such activities and functions as these that the Chester County Clemson Club has become and will remain an integral part of Clemson.

OFFICERS. Miller, B., Vice-President; Campbell, P., President; Wilson, J., Treasurer; Banks, M., Secretary.
International Student Association

The purpose of this association is to unite the foreign students of Clemson University and through communication among themselves and with American citizens to aid international understanding.

The ISA is best known for its annual ISA supper, a unique Clemson social event which attracted 250 people this year. Attendants experienced choice dishes from India, Turkey, Lebanon, Sweden, Germany, China and South America.

The ISA is known to have a good soccer team and this year won the intramural volleyball championship. The ISA and the YMCA plan in January 1968 to sponsor a table tennis tournament, which is opened to all students and citizens of the Clemson community, a tournament which automatically qualifies the winner for the South Carolina Table Tennis Championship.

The members of different countries around the world gather weekly in Clemson on Thursday evening at the YMCA. The social activity of the ISA includes parties, picnics, and excursions, all of which are carried out in an international atmosphere. Dr. A. Fear, the advisor, is always receptive to foreign students' problems.

OFFICERS. Richard Frank, Secretary; Emile Rasheed, Treasurer; Klaus Schumann, President; Frank Mora, Vice-President.
The purpose of the Baptist Student Union is to encourage the religious and spiritual development of the college student. BSU serves as a two-way channel through which Christian students move in witness and mission from their churches to the campus, and in turn, through which they move in enlistment and service from the campus to local churches. As a campus religious organization, it has no formal list of members but considers all Baptist students on campus as members. The Baptist Student Union works closely with other religious organizations in organizing such activities as Religious Emphasis Week. In addition, BSU has organized, this year, a literary magazine, Impact, to provide a means of expression in the literary art forms for secular, as well as religious topics.

Students of the BSU provide programs for presentation at convalescent homes and orphanages in the Clemson area. Several visits to the old age home at Six Mile, S. C. have been made during first semester. The weekly meetings on Wednesday night at 7:00 include organized groups which study various topics of importance to the college student today.
The Clemson Canterbury Club was organized in 1924 in association with Holy Trinity Episcopal Church. It has been providing fellowship for the Episcopal students at Clemson since that time.

Along with the fellowship, its members enjoy several service projects. The club sponsors a seven-year-old child in Taiwan and makes several trips to the Tamassee DAR school. There the members serve ice cream and entertain the children. In order to raise money for the club, several members work in the Clemson Theatre. Once a month the club sponsors a supper for its members and presents a speaker. Occasionally the members attend deputations at such schools as Lander, Converse, Erskine, and Winthrop. In return the Clemson Canterbury plans some programs for the Canterbury members of these schools.

The Canterbury Club members enjoy a supper together at the church.

In order to raise money for the club, several members work in the Clemson Theatre. Once a month the club sponsors a supper for its members and presents a speaker. The Canterbury Club members enjoy a supper together at the church.

The Canterbury Club members enjoy a supper together at the church.

The Canterbury Club members enjoy a supper together at the church.
Christian Science Organization

The Christian Science Organization is a group of students and sincerely interested persons who have no other religious connections. Since its beginning in 1961, the Christian Science Organization has experienced continual growth in membership and activities. It offers both Wednesday evening meetings and Sunday services which all students and faculty members are invited to attend. Wednesday evening meetings are held in the Student Chapel above the loggia at 7:00. Sunday services, held at 11:00 in the same chapel, are given in accordance with the manual of the First Church of Christ Scientist, Boston, Massachusetts.

The organization maintains a lending library of Christian Scientist material next to the lounge of “A” dormitories. During Religious Emphasis Week the organization offers a film and speaker on Christian Science. A number of films and tapes on Christian Science are shown intermittently through the year. Through these programs, the lectures, Wednesday meetings, and Sunday services, the members attempt to give the university public a better understanding of Christian Science while enlarging their own spiritual perception.

Mary Holton conducts a Wednesday evening meeting in the Student Chapel.
Hillel-Brandeis

The purpose of the Hillel-Brandeis Club at Clemson University is to serve the Jewish students in their religious and social lives. Hillel-Brandeis helps the Jewish students celebrate their holidays away from home. During the High Holy Days, the club provides transportation for the members to attend one of the two synagogues in Greenville.

During the year, Hillel-Brandeis has speakers for the members and their guests. Also, it takes part in inviting a Rabbi to lead discussions in religious forums with other religious groups on campus.

Fund raising projects are undertaken to help pay for the activities of the club. Since there is no resident Rabbi in Clemson Hillel-Brandeis works closely with Rabbis at the University of Georgia.

Some watch, some listen, some smoke, but all enjoy participating in a religious forum.
The Newman Student Association

The Newman Student Association provides a social, cultural and religious organization for the Catholic students at Clemson. Newman Hall, the Catholic Student Center, has a small library, which features a large magazine rack carrying over twenty periodicals of both general and specialized Catholic interest.

Father James Fisher, C.S.P., is the Chaplain to Catholic students at Clemson. Each year the conducts a seminar course on the theology of the Vatican II and a general inquiry into Catholicism.

The Newman Student Association holds a freshman reception and a number of dances during the school year. It also has a number of informal clean-up parties and card parties. It sponsors speakers from the university faculty and from outside sources. The club holds student discussions, and this year featured a four-week marriage discussion. Newman students helped at the Catholic Women's Club annual Mardi Gras, and collected for the United Fund in the Clemson area.
YMCA Staff

The business of the YMCA is people. The staff encourages the all around development of the individual, giving attention to his needs and trying in every way to help him meet those needs.

The backbone of the YMCA program—the YMCA staff is headed by Buford E. Trent as Director of the YMCA. He has served in many capacities in the religious and community life of the campus and is interested in everything which pertains to the life of the student. Mr. Otis D. Nelson, a graduate of the University of Alabama and Southern Baptist Theological Seminary, serves as Associate Director of the YMCA. He is responsible for the program of the YMCA. Mr. Nash N. Gray, a graduate of Clemson, serves as Associate Director, giving the major portion of his time to business operation of the YMCA. Miss Bobbie Palmer serves as Office Secretary and is most helpful to students who come to the YMCA seeking information.
The YMCA is a world-wide fellowship united by a common loyalty to Jesus Christ for the purpose of developing Christian personality and building a Christian society. It is a voluntary, private, membership organization, completely interdenominational and democratic in its nature. Its program is such as to provide a climate for the free association of ideas, intellectual stimulation and to foster growth toward physical and spiritual maturity.

The YMCA Cabinet seeks to provide leadership, programs, and facilities for the physical development and social adjustments of students. Religious Emphasis Week, Hall Forums, Meditations, Vespers, and special speakers are definite programs carried on. Also students have deputations to other campuses and churches. Special and regular conferences are held both on campus and away.

EXECUTIVE BOARD. LEFT TO RIGHT: Irick, E., Miller, C., Smith, H., Kavan, B., Howes, H., Trent, B., Gray, N., Thompson, S., Denton, G.

Betty Smith takes minutes while Bruce Kavan, President, conducts a meeting.
Freshman Council, YMCA

The Freshman Council of the YMCA is a branch of the "Y" created especially for all freshmen at Clemson University, who are interested in the aims and ideals of the "Y". There are no "membership requirements" for those wishing to participate in the programs of the Council. The Council welcomes all students, and for this reason, the main goal of the Freshman Council is to present a variety of programs and activities which are of interest to the majority—not minority—of students.

This year the programs of the Council have covered a range of topics from a lively clogging party to a discussion on the "Advantages and Disadvantages of Campus Life." The climactic social and money-making event of the first semester was a Sadie Hawkins Day and Date Raffle.

The Freshman Council presents social and service, as well as, thought-provoking activities for an "elite" group of people—the Freshmen of Clemson University.
The Upperclass Council of the YMCA is a looseknit organization whose members are interested in providing services for students through the "Y". At the same time the council members are interested in having a good time. Both of these objectives are obtained through the members of the council working with cabinet sponsored functions as well as council sponsored programs. These activities vary from working on the homecoming display and coaching the area youth in various sports to having parties and enjoying general "bull" sessions. The upperclass council has learned that the "Y" is made up of people and is not just a building to go to—to shoot pool or watch movies. The president is Tommy Bishop, and the vice-president is Ken Stepp.

Members enjoy a social gathering at the "Y" Cabin.
Bowling Club

The purpose of the Clemson Bowling Club is to provide active members for the Clemson Bowling Team who compete with other universities throughout the Southeastern United States.

First organized in 1964, under the direction of Professor Jack Tuttle, the team has made great strides, compiling a 33-5 record in 3 years and winning the District V Intercollegiate Tournament twice. After losing its first match of the season this year, the team has gone on to win 17 in a row.

RECORD
Clemson . . . . 4 Virginia . . . . . . . . . . . . . . . . . 5
Clemson . . . . 8 Amer. U. (Wash., D.C.) . . . . . . . . . . 1

Al and Carlos try to get their feet off the ground.

Clemson Aero Club

The Clemson Aero Club, Inc. is an organization composed of students, faculty, and employees of Clemson University who have a keen interest in aviation. It is a non-profit organization whose primary objective is to help its members qualify for and obtain pilot certificates at minimal expense.

Operations of the club airplane are conducted in accordance with the Federal Air Regulations of the U.S.A. and in accordance with rules established by the club for compliance with insurance requirements, for the safety of the members, and for protection of the airplane.

Any person affiliated with Clemson University may apply for membership in the Clemson Aero Club. No previous flight experience is necessary. An initiation fee is nominal, and members pay the club only for the use of the plane and for insurance.

For the experienced pilot, the Clemson Aero Club provides an excellent opportunity to lend the benefit of his experience to other pilots. For the student pilot, the club provides an opportunity to gain flying experience.

Last-minute instructions are given before take-off.

LEFT TO RIGHT: Lam, C, Scency, B., Buckalew, A., McNair, N., Johnson, F., Henderson, B., Freeman, C., Rogers, M.
The Fellowship of Christian Athletes is a national organization composed of many fine athletes and coaches from all the branches of sports at Clemson. The organization was founded by basketball coach Don McClintong in 1954. Its purpose is to confront athletes and coaches and through them the youth of our nation with the challenge and adventure of following Christ through the fellowship of the church. As athletes they recognize that they have an influence on young people, and they want that influence to count for Christ. In its third year of existence on the Clemson campus, the Fellowship of Christian Athletes has shown continued growth and success.
Dixie Skydivers Sport Parachute Club

One of the newest clubs on campus is the Dixie Skydivers Sport Parachute Club. Since its affiliation in the spring of 1967, the club has already doubled its membership. Sport parachuting or skydiving has been growing steadily during the past few years. The student begins his jumping career on a static line. Little time is spent free falling, so the student concentrates on maneuvering his parachute to a designated target. Later, the student progresses in five-second intervals to a thirty-second free-fall. During these jumps the student learns the fundamentals of a controlled fall. Experienced jumpers can maneuver their bodies into any position and in addition to their 120 mile per hour descent can track at a speed of up to 60 miles per hour horizontal to the ground.

All new students are trained thoroughly in all phases of sport parachuting and each student jump is well supervised. The Dixie Skydivers have several qualified instructors, and the club is recognized by the United States Parachute Association. The national collegiate championships held each year in Tahlequah, Oklahoma have also been put on the agenda.

John practices free falling for the National Collegiate Championships held in Oklahoma.
The fundamentals of swordsmanship have been practiced for centuries. With the decline of dueling, fencing became a popular sport. Throughout the ages, the tendency has been toward lighter, more manageable weapons. Now emphasis is placed on speed and coordination, with little given to sheer strength.

The Clemson University Fencing Club was organized in 1959 under the auspices of the Clemson YMCA and the Office of Student Affairs. In its eight years, the membership and scope of its activities have steadily increased. The club participates in all levels of intercollegiate and national fencing. It has repeatedly placed high in the Southeastern District Conference. It is recognized by the Amateur Fencing League of America and recently won Fifteenth place in the national competition.

This year’s club under Professor Anders Kaufmann, sole advisor with Dr. Hal Cooledge on a fellowship leave, is pushing for all available competition.

Parry. Thrust. Counter Thrust. Then touche. The bout is done.

Pete Snyder, President, shows proper form.
Charlie Watson, President, sees that his boys do the job.

The Block "C" Club was organized for the fellowship of all Clemson athletes. Through work and fellowship we would hope to unify all letter-men and Clemson students and faculty towards a better understanding of inter-collegiate athletics and the Clemson athletic program. In order to be a member of the Block "C" Club a letter must be earned in any of the recognized intercollegiate sports. Each new member must participate in the Block "C" initiation and then is awarded membership into the club. Each member is given a club pin, and senior athletes are given framed Tiger rugs as recognition of their outstanding accomplishments. The club earns a percentage on the sale of programs at all home football games. Those members not participating in football handle the distribution and sale of the programs. The slogan "The Year of the Tigers" was originated by the Block "C" Club. The club sold several thousand bumper stickers to encourage school spirit as the club felt this would really be "The Year of the Tigers". The club hopes through continual growth in the club and through the enlargement of the physical facilities that Clemson athletes can prosper in a manner fitting the growth and spirit of Clemson University.

Much toil and labor goes into earning a Block "C".
Block "C" Clubs

Addison, J.  Barbary, E.  Carroll, J.  Cone, F.  Cropp, W.

Adkins, W.  Bonetak, H.  Catoe, J.  Cooper, D.  Dawes, A.

Albers, R.  Bradley, J.  Chilens, W. C.  Courtney, C.  Demsey, D.

Good sportsmanship is shown.
Wilson Childers, a Block "C" man, takes a break during half time.
Clemson Sailing Club

The purpose of the Clemson Sailing Club is to provide an opportunity for learning and advancing the art of sailing and racing and to develop an intercollegiate sailing team at Clemson University. Membership is open to anyone interested in learning or furthering their interest in sailing.

The Sailing Team is picked from the members of the club. The Sailing Team is a member of the South Atlantic Intercollegiate Sailing Association. The racing season lasts the entire school year, with the team traveling throughout the South representing Clemson University.

RACING RESULTS

Spring 1967
- USC Team Race—Won 4-0
- USC Invitational Regatta—First
- ACC Championship—Second

Fall 1967
- USC Team Race—Won 4-1
- Citadel Invitational—Fourth
- MIT Invitational—Fourth
- College of Charleston Invitational—First
- USC Team Race—Won 4-3

Several members sail on Hartwell Lake.

Two members of the Sailing Team show the skill that made them number 1 in the USC Invitational Regatta.

Members practice the art of sailing and racing.
The Clemson University Scuba Diving Club has as one of its primary goals, the training of both new and old divers in safe diving techniques. The club is affiliated with the Southern Council of Skindiving Clubs and the Underwater Society of America. Through these organizations, the club has received national recognition of its training programs from beginning diver to instructor.

A secondary function of the Scuba Diving Club is to act as a rescue unit for local civil defense and law enforcement agencies, and to be constantly on call to aid in all ways whenever the lakes or rivers of the area are involved.

The activities of the Scuba Diving Club are many and varied. The club takes over fifteen club divers a semester into the club, and several of the members have made trips to Florida. The club hosted the Convention of the Southern Council of Skindiving Clubs in January and plans to enter some of the training movies in the International Underwater Film festival. The club hopes to compete in the National Spearfishing Contest this year.

MEMBERS: Bentley, B., Brooks, J., Brown, A., Campbell, A., Cunningham, R., Fletcher, N., Harding, G., Hildebrand, G., Lenzie, J., Pate, C., Reeves, R., Ritter, D., Saber, J., Tewling, D., Thompson, E.
The Clemson University Tae Kwon Do Club, originally called the Tang Soo Do Club, was founded in February of 1966. The club's purpose is to promote the spirit and understanding of Tae Kwon Do and to give Clemson students an opportunity for instruction in this art. Tae Kwon Do, the Korean form of Karate and one of the most powerful styles known, literally means "to smash or destroy with the foot."

This year the club fielded its first tournament team consisting of Lance DuVal, black belt; Richard Dales and Mike Watts, brown belts; and Bill Tilmann and Jimmy Lindsey, blue belts. The tournaments which the team members have participated in are the Atlantic Coast Conference Karate Championships in Columbia, S. C.; the Tri-State Karate Championships (N. C., S. C., Ga.) in Beaufort, S. C.; the North Carolina State Karate Championship in Chapel Hill, N. C.; the Southeastern Karate Team Championships in Greenville, S. C.; and the Kong Soo Do Championship in Augusta, Ga. The team has acquired a total of four first place trophies, four second place trophies, and two third place trophies in these tournaments. The club is instructed by Mr. Billy Hong, a native Korean who has a fourth degree black belt, and who won the All-Korean Tae Kwon Do Championship in 1966.
Dr. Robert C. Edwards was graduated from Clemson in 1933 with a degree in Textile Engineering and was active in Phi Psi, Tiger Brotherhood, Blue Key, and Phi Kappa Phi.

Dr. Edwards became acting president in 1958 and since then has received honorary Doctor of Law degrees from Wofford College and The Citadel. He is an active leader in the community as well as the University, being a member of the Lions International, the Shriners, the Clemson Rotary Club, the American Legion, and a Steward in the Methodist Church. Our president is also one of Clemson's most outstanding sport fans, following the Tigers to many of their out-of-town games.

From student leader to university president, D. R. C. Edwards has always exemplified a man with every interest in his University.
The Board of Trustees Coordinate School Policy

Thomas G. Clemson's will that provided for the establishment of an agricultural college also provided for it, a Board of Trustees. Today this thirteen member Board is the essential governing body at Clemson University. There are seven life members and six elected for four-year terms by the General Assembly of South Carolina.

A life member, of the board, James F. Byrnes, was "Assistant President" of the United States under Roosevelt and also served as Director of War Mobilizations.

Patrick Calhoun, a life member, served as President of the Clemson University Foundation. He has also served as President of the Clemson Alumni Association.

The recipient of an honorary Doctorate of Science degreee from Clemson, Robert Coker, a life member, is the present director of the Bank of Hartsville.

Kenneth Cribe was President of Blue Key and a member of Tiger Brotherhood, Senior Council, and the Tiger Staff at Clemson. He was also named to Who’s Who.

L. D. Holmes was a member of the Board of Visitors to Clemson College in 1958. He is former President of the Savannah River Soil Conservation District.
FRANK JERVEY, former Clemson University Vice-president for development, is a life member. During World War II, he received the “Exceptional Civilian Award.”

E. OSWALD LIGHTSEY of Hampton is a Clemson graduate. His term on the Board expires in 1970. He is co-owner and general manager of Lightsey Brothers.

GORDON MCCABE is a member of the Board of Directors of J. P. Stevens and Co. and the S. C. N. Bank. He is a graduate of the University of Virginia.

A. M. QUATTLEBAUM was a 1934 Clemson graduate. After receiving a Masters degree from Cornell, he was an assistant professor at Clemson for five years.

PAUL QUATTLEBAUM is a Clemson graduate with a degree in Electrical Engineering. He is employed by the U. S. Department of Commerce in Charleston.

A life member, JAMES SELF is an honorary member of the Phi Psi National Textile Fraternity in Clemson. He is a member of the State Development Board.

WINCHESTER SMITH, a life member, is the second Clemson graduate to be chosen to be on the board. He also has a wide range of agricultural interests.

The Alumni Association Gives Strong Support

Since the founding of Clemson University, school spirit has been the backbone of the institution. The Clemson Alumni Association has long been the epitome of this tradition.

The Alumni Association strives to express its love for Clemson by supporting programs which will advance the University. The Alumni Association gives financial support to such programs as undergraduate scholarships, graduate fellowships, faculty research, teaching professorships, student loans, library additions, permanent endowment, and the Alumni Service Program.

The Alumni Association also takes a personal interest in the entire student body by giving annual $1,000 grants to the Student Government to support their activities.

The functions of Clemson University, from the simplest to the most complex, would not be valuable without the most intricate part—the faculty. The faculty is truly a key link in the long chain of activities, organizations, and events that make Clemson the fine University that it is.

Throughout the years, Clemson has been blessed with having some of the most capable instructors in the many fields offered at the University. The primary purpose of a faculty is to teach, but Clemson’s faculty offers much more than an education. It offers such tangibles as friendship and inspiration.

Through such opportunities as this, the students of Clemson University are fortunate to be exposed to such worthwhile people.

The Graduate School of Clemson University functions for the primary purpose of advancement. This advancement is available to any eligible student who desires it.

This school, headed by its Dean, Dr. J. F. Brownley, offers many facilities in providing an education beyond the level of the bachelor's degree. These facilities give Graduate Students an opportunity to gain professional qualities in their chosen areas.

Enrollment is continuing to increase, and advanced degrees are now offered in many areas, ranging from Chemical Engineering to Physics.

The promotion of research in these advanced studies shows the emphasis now being placed on the acquisition of general knowledge as well as professional skill. Advancement in these two directions fulfill the purpose of the Graduate School.

CLASSES
Where the Blue Ridge yawns its greatness.
Where the Tigers play;
Here the sons of dear old Clemson,
Reign supreme always.

Dear Old Clemson, we will triumph
And with all our might,
That the Tiger's roar may echo
O'er the mountain height.
A student entering his senior year at Clemson experiences a mixture of many feelings; relief, anticipation, fear, sorrow, melancholy and pride. He is coming to the end of some of the most important years of his life. He has passed the dependent stage and is entering the longest and perhaps the most important phase, the independent stage.

It is time for him to put to use all the knowledge that he has acquired over the past few years.

With his ring on his hand, he orders his diploma. During the year job interviews are held, and the first steps toward the future are made.

As the Clemson graduate walks down the aisle in cap and gown with many friends and relatives proudly standing by, he realizes that his Clemson days are over. He is leaving behind many meaningful things but through the things given to him by Clemson University he will be able to reach the goal that he desires.
WILLIAM H. WILEY, Dean

Agricultural and Biological Sciences

The College of Agriculture and Biological Sciences at Clemson University stands out as one of the foremost in the nation. Being encompassed in a broad field, the College increases each year in the areas of research, education and public services.

In its widely expanding program the College places emphasis on the practical application of theory learned in class. Through experimentation agricultural and technological processes are conducted with many progressive accomplishments. The College participates each year in the University Lecture Series in sponsoring one or two speakers a year. During summer it holds a training program for outstanding high school students brought to United States by the Department of Agriculture and Agency for International Development.

Students enrolled in the College of Agriculture and Biological Sciences are offered graduate and undergraduate degrees in their specific curriculums enabling them to perform more readily and more competently in today's increasingly complex world.

Architecture

The College of Architecture has as its main objective the improvement of our society's appearance and efficiency by producing young men and women who are well trained in the principles of function, structure, design and beauty.

The curriculum of the Clemson architecture student is unique in that it requires a background of social sciences and math. In the labs the students are encouraged to express their own ideas and are also taught to apply theory to the design problem.

In the first year the architecture student makes a choice between architecture and building construction. After three years he makes a choice between design and engineering. In his fifth year he plans a town and writes a thesis leading to a Bachelor of Arts degree.

Throughout the year the student follows a schedule of lectures, field trips and exhibitions, all of which are designed to help broaden his scope of the fine arts. In the end the student of architecture finally reaches a point where he will be capable of improving the world in which we live.

Since the awarding of the first Bachelor of Arts degrees in 1963, the College of Arts and Sciences has progressively graduated to increasing heights, both in the number of graduates and in the curriculums offered. Today there are eight major concentrations offered in the Arts and Sciences leading to the Bachelor of Arts degree. Students may base their study in any of the fields covering Chemistry, Physics, English, Geology, History, Mathematics, Modern Languages and Sociology. In keeping with it's growing tradition, Psychology will be offered as a major field of concentration in the coming year.

Although the primary purpose of an Arts and Sciences education is for a broad general learning to help in becoming a more active citizen, it also provides an excellent background for further education in such fields as Law, Business, and Journalism.

The student in Arts and Sciences is striving to become rounded in a better rounded world.
JAMES H. ABERCROMBIE, Charlotte, N. C.

The School of Education has greatly expanded since its beginning in the summer of 1965. Elementary and Secondary Education are, by far, not the only fields for prospective teachers. They may enter other areas of education by going into the programs of either Agricultural Education, Industrial Education or Recreation and Parks Administration. Though their specific curriculums, students are being prepared to teach the leaders of tomorrow.

Seniors spend a semester practice teaching at various schools. During this time and after graduation, the students convey their ideas and thoughts to others by means of instruction.

The School of Education is continually growing and expanding to give the students a better opportunity for a solid background in education.

Education is an essential necessity throughout the world. And Clemson provides the best training in this field that can be had anywhere in today's already well-educated world.

Engineering

The College of Engineering at Clemson University offers its students eight different curriculums pertaining to engineering: Agricultural, Ceramic, Chemical, Civil, Electrical, Industrial, Mechanical and Metallurgical. Industrial Engineering, however, is to be discontinued and has accepted no new students since 1966. The Agricultural Engineering curriculum is jointly administered by the College of Engineering and the College of Agriculture and Biological Sciences.

A Bachelor of Science degree from the College of Engineering leads to a wide choice of careers and serves as a preparation for continued study on the job or further formal graduate study in a broad spectrum of fields. The engineering curriculums include thorough education in various phases of the field of specialization without overemphasizing one phase to the neglect of others. The first two years of study include the basic fundamentals and social sciences.

Upon entering the working world of today the engineer prepares to make for a better world in tomorrow.

Industrial Management
And Textile Science

In its twelve years of existence at Clemson University, the School of Industrial Management and Textile Science has provided an extensive program in the professional and textile fields. The Industrial Management program at Clemson includes studies in social and physical sciences, as well as humanities. Beginning this year those majoring in Economics are under the School of Industrial Management rather than the School of Arts and Sciences.

The School of Textile Science has three divisions: Textile Chemistry, Textile Management and Textile Science. Textile Management gives an essential background in textile technological and managerial subjects with outside emphasis on the basic sciences. Textile Chemistry graduates are generally employed in research and administrative positions in their field.

The School of Industrial Management and Textile Science realizes the need for a versatile education and strives toward this in all its programs.

The Clemson University junior is in a unique position; he is over the hump and headed for his goal... graduation. Settling down to a definite major, participating in extracurricular activities, and fully appreciating the merits of his university are qualities to be found in a junior. As he travels the path toward senior year and completion of his college education, he is aware of the value of applied study as well as the benefits that friendships, good times, and social activities present.

The juniors are always busy; their many projects include the selling of book covers, providing entertainment through Junior Follies, and organizing bar-b-cue dinners. Their big event comes at the end of the year when they honor the seniors by the Junior-Senior Banquet.

Their junior year will be a replete one for the Class of '69. The greatest thrill, the one that compensates for all the heartbreaks of the first three years, comes to the junior when the day arrives in May and he can say "I am a Clemson senior."

515
The sophomore returns, confident and complacent, and full of plans for everything but study. He avenges himself on the new crop of rats, thankful to be only a sophomore. With sophomore level courses, however, he finds that it is even harder than adjusting as a freshman. There is never time for study between extracurricular activities, sports, and weekends. Grade-wise, this period is called “the slump.”

However, the class of 1970 is an industrious class in school activities. It sponsored the “Sophomore Sit-In,” a talent show featuring local talent, vocalists, bands, various acts, and go-go girls. The proceeds were given to Miracle Hill. Also, the sophomores helped in adding color and spirit to the “Best Bama” weekend by selling spirit ribbons. It is unusual for a class to be so united and progressive before the junior year.

540
After arriving on campus, the freshman experiences the frustrations, anxieties, and trials of the transition from the home environment to the college world. He is immediately exposed to the hazards of the Clemson campus: matriculation lines, registration scrambles, and the demands of the Rat System. Before he enters a classroom, he loses his hair, learns to answer the shrill cry of “Rat”, and masters the art of cafeteria cheering. This is the start, and only later can he truly reflect upon the uniqueness of this experience.

It is here that he must set his direction, purpose, and goals as he matures both socially and academically. It is here in an atmosphere of continued progress and growth that he will now live, work, and play. Now is the time that the Clemson freshman begins his quest for recognition, fulfillment, and achievement.

Clemson University
At Greenville

The Greenville County Technical Center provides the facilities for Clemson University at Greenville. The center is located on S. C. 291 by-pass in Greenville, S. C. and consists of only one classroom building.

There are 239 students attending the Greenville Extension as compared to last year's enrollment of 143.

The Extension offers all freshman courses required of any major on the main campus at Clemson for the remainder of his study.

Director of the Extension is Dr. C. B. Thompson who was originally a member of the Social Sciences Department at the main campus. He coordinates the work of a very well qualified faculty. Many of the professors there have taught in Clemson.

Clemson University
At Sumter

In an effort to extend its educational facilities in order to reach more students, Clemson University has in operation the Clemson University Extension in Sumter, S. C. Being composed of four buildings, the modern campus is located on the west side of town.

Enrollment at the extension has nearly doubled since last year. There are now 178 students attending classes at Sumter.

Dr. S. M. Willis is the director and was transferred from the Industrial Management Department at the main campus. He leads a competent faculty that is well qualified in their respective fields.

The Sumter Extension offers all courses that a freshman must have for any major of the main campus. A student may complete his freshman and sophomore years at the extension, after which the remaining two years of his work must be taken on the main campus.

Epilogue

Four years happened . . .
All to quickly. Or was it?
Time holds answers. Good years, best years, formative years. Trying times, hard times. Hypocritical days . . .
Endlessly repeating
Achomlishments, in a constructive time. Failures?
Some . . . More to come.
The purpose . . . Look inside. The End.
The Start . . .
Clemson . . . A special place. Much more than brick on top of brick. A spirit born in days gone by . . . Growing with a State that's strong and right. Representing the Nation at its best.

What walkway are we passing through . . . Is this some sort of special thing? Or does it happen every day . . . Once, twice, a thousand times . . . 'Tis surely just a stopping point in time.
Clemson. An Academic World . . . Expressions. All types are found right here.
What lessons are we learning in these years? Some are found in books . . . Some in bottles . . . And some are found while strolling down the lane.
What sort of student leaders are there here? Can one believe the words he finds in print? Most are of highest quality. Others just pretend to be. Still others need to get their feet back on the ground.

It takes all kinds to make a world . . . The best, the worst, and all the inbetween. It takes more views than just the common held. It takes some change, for better not for worse. If progress is to forge us through the dark.
Some laugh . . .
Some cry . . . Yet
all remember . . .
These youthful days
At Clemson
I came to Clemson in search of knowledge . . . To meet people . . . To make friends . . . To form beliefs . . . To build character . . . To uphold traditions . . . To find spiritual meaning . . . I leave Clemson with confidence . . . My goal . . . To make this world a better place to live . . . For myself . . . And for my fellow man.

Reddy To Rock

Reddy Kilowatt never misses a party. In fact, without him, things would be pretty dull. Think of it: no stereos, televisions, electric guitars or ice cubes. Thanks to Reddy there are over 160 flameless electric servants that make modern living comfortable, economical and fun. When you have a home of your own, there will probably be even more.

The Heart Of The Crop Is The Seed . . .
The Heart Of The Seed Is The Breeder

Confidence in the integrity and breeding methods of the breeder whose seed you plant is an essential element in successful farming . . . More than 50 years of breeding experience combine with the outstanding performance of Coker varieties to merit fully the confidence of Southern farmers in the purity and quality of Coker’s Pedigreed Seed and in the superior methods of Coker’s breeding staff . . . The Red Heart trade mark on every bag of Coker’s Pedigreed Seed is your assurance of pure, high quality seed developed by breeders who stake their reputation upon the integrity of their breeding methods.

Among the most expensive things in a person’s life is a good education which, today, is within reach of all mainly because of the tax structure of our free enterprise system. That’s why SCEGCO is proud to have paid $17.5 million dollars in taxes last year alone. As long as our form of government exists, we will continue to have the best in educational facilities. It costs a lot to grow a man—But it’s worth it.

The Man Behind the Machine Works for Springs...

So do 18,000 other people.

In 19 plants and 25 sales offices.

And then there's the Computer Center.
And the administrative offices. The Fabric Design Department. The Engineering Department. The Foundry. And the Machine Shop.

To say nothing of the Corporate Development Division. The research labs. The Executive Offices. The production and sales divisions. And things like that.

The man behind the machine (the one in the picture) is working on the control panel of a new cloth bleaching range.

Textiles. Where the action is.
Ask the man from S.P.R.I.N.G.S.

OF THE

TAPS
CONGRATULATIONS TO THE CLASS OF 1968!

Masers, lasers, lift-offs, gantries ... all are familiar words these days. They are words our grandparents never knew.

But the strongest, most unchanging words in America have always been about people ... what they believe, how they live.

When you look into this annual in later years, we hope the best words will still be those our ancestors knew so well ... FAITH, COURAGE, AMBITION, UNITY, LOVE, HONOR and PATRIOTISM!

The 1968 TAPS staff expresses its deepest appreciation to Dean Walter T. Cox, Mrs. Sybil R. Albert, Dean George E. Coakley, Joe Sherman, E. T. O'Cain, Gaspar-Ware, H. Neil Gillespie, and to the many others who have given of their time and interest to TAPS. Special thanks is given to the students of Clemson, without whose cooperation this book would not be possible.
