OVERVIEW: The site is in downtown area of Atlanta, GA. It is a part of Beltline, which is a greenway development in Atlanta that connects neighborhoods with green space.

SITE ANALYSIS

- Park Drive Bridge
- Trail in Piedmont Park
- Terrace
- Beltline

SITE MAIN OBJECTIVES

- Make the bridge a gateway from pedestrian access to Piedmont Park.
- Provide an entrance for bicycles.
- Provide a place for people to relax and enjoy the view.
- Create a connection between Beltline trail and Piedmont Park trail.

SITE TRAJECTORIES

- There is no direct entry from Beltline to Piedmont Park or vice versa. The bridge provides an entrance to Piedmont Park.

OUTDOOR AMENITIES

- Bicycle parking
- Entrance for bicycles
- Entrance for pedestrians
- Solar light

KEY CONCEPT

- Create a connection between Beltline trail and Piedmont Park trail.

Masters Plan

At the location of the intersection of Park Drive Bridge and Beltline, the site provides a unique opportunity for an area specific intervention. The objective of this project is to create an entrance to Piedmont Park and provide bicycle parking. This connection is made possible by creating new pedestrian pathways.

Additionally, the project will enhance the neighborhood to downtown Atlanta by making use of the park space. Additional amenities such as benches and green spaces will be included.
