MEMORIAL YOUTH CENTER CAMPAIGN

Our future lies in the young people of today. Anything which gives them opportunities to lead healthful, respectable lives builds strong character in the citizens of tomorrow.

The Memorial Youth Center will furnish a place of recreation for the young people of Columbia, a place where they can enjoy themselves in proper environment and avoid evil influences which are daily making stronger appeals to our youth. Columbia should be proud to be the leader in a memorial to the men of World War II whose ideals will live through these young people. I indorse this worthy movement and wish it unbounded success.
