President Curris was special guest. He briefly discussed his expectations in regard to the athletic program and added that he looks forward to working with the Council and feels comfortable about the athletic program at Clemson University.

Bill D'Andrea was also a guest. He reported to Council that there had been some reorganization on his staff - redistribution of duties - that have helped the program. He also reported that only 31 out of some 400 student-athletes will be entering in the fall below a 2.0, but that the overall GPA for the spring semester was 2.55.

Bobby Robinson distributed information to Council which included IPTAY Athletic Contributions to the University, 1995 Clemson/Panther football dates, Clemson Football History, 1995-96 Men's Basketball Schedule and Athletic Department Capital Improvements since 1985. He reported that the summer camps were successful, the weight room is almost complete, and the new training table regulations would go into effect on Thursday (one meal a day). The news release regarding faculty-staff discounted tickets was also discussed.

The Committee reviewed 10 Motor Pool vehicle accidents; 7 of which were found to be negligence on the part of employee drivers who were assessed $200 and required to take the defensive driving course. One was no fault, one was tabled until we receive more detailed information, and one was damage to a parked vehicle.

We also reviewed 6 accidents involving University employees with non-motor pool vehicles. Three were at fault, assessed $200 and required to take the defensive driving course; three were no-fault.

Defensive driving courses are offered periodically and anyone interested in taking them should contact Risk Management to register.
