COMBINED ANNUAL REPORT OF COUNTY EXTENSION WORKERS

This report form is for use by county extension agents in making a combined statistical report on all extension work done in the county during the year. Agents resigning during the year should make out this report before quitting the service.

State  Carolina

REPORT OF

(Month)  1947, to  1948

(Named)  Home Demonstration Agent.

Agricultural Agent.

County  Williamsburg

From  Jan. 1, 1947, to  Dec. 31, 1947

From  July 1, 1947, to  Dec. 31, 1947

From  Dec. 1, 1947, to  Nov. 30, 1947

Approved:

Date

READ SUGGESTIONS, PAGES 2 AND 16
SUGGESTIONS RELATIVE TO THE PREPARATION OF THE COUNTY EXTENSION AGENT'S ANNUAL REPORT

Six good reasons may be listed as to why an extension worker should prepare a comprehensive annual report.

1. The annual report is an accounting to the taxpayers of what the extension worker has accomplished during the year.
2. It is a record of the year's work put into shape for ready reference later years by the extension worker himself, or by his successors.
3. The annual report affords the extension worker opportunity to place his activities and accomplishments before superior officers, who form judgment as to which workers are deserving of promotion or best qualified to fill responsible positions when vacancies occur.
4. The inventory of the past year's efforts and accomplishments enables the extension worker to plan more effectively for the coming year.
5. An accurate report of his work is a duty every scientific worker owes to the other members of his profession.
6. Annual reports are required by Federal law.

From four to six copies of the annual report should be made, depending upon the number required by the State office: One copy for the county officials, one copy for the agent's files, one or more copies for the State extension office, and one copy for the Extension Service, United States Department of Agriculture. The report to the Washington office should be sent through the State extension office.

NARRATIVE SUMMARY

A separate narrative report is desired from the leader of each line of work, such as county agricultural agent, home demonstration agent, boys' and girls' club agent, and Negro agent. Where an assistant agent has been employed during a part or all of the year, the report of his or her work should be included with the report of the leader of that line of work. Where an agent in charge of a line of work has quit the service during the year, the information contained in his or her report should be incorporated in the annual report of the agent on duty at the close of the report year, and the latter report so marked.

The narrative report should summarize and interpret under appropriate subheadings the outstanding results accomplished in helping rural people to solve their current problems and to make adjustments to changing economic and social conditions.

A good narrative report should enable the reader to obtain a comprehensive picture of—

1. What was attempted—the program as outlined at the beginning of the year.
2. How the work was carried on—the teaching methods employed.
3. The cooperation obtained from other extension workers, rural people, commercial interests, and other public agencies.
4. Definite accomplishments, supported by objective evidence.
5. Significance of the year's progress and accomplishments in terms of better agriculture, better homemaking, improved boys and girls, better rural living, etc.
6. How next year's work can be strengthened and improved in light of the current year's experience.

The following suggestions are for those agents who wish to prepare a better annual report than the one submitted last year:

1. Read the definitions of extension terms on the last page of this schedule.
2. Read last year's annual report again, applying the criteria for a good annual report discussed above.
3. Prepare an outline with main headings and subheadings.
4. Go over the information and data assembled from various office sources.
5. Decide upon a few outstanding pieces of work to receive major emphasis.
6. Employ a newspaper style of writing, placing the more important information first.
7. Observe accepted principles of English composition.
8. Include only a few photographs, news articles, circular letters, or other exhibits to illustrate successful teaching methods. Do not make the annual report a scrapbook.

STATISTICAL SUMMARY

Where two or more agents are employed in a county they should submit a single statistical report showing the combined activities and accomplishments of all county extension agents employed in the county during the year. Negro men and women agents should prepare a combined statistical report separate from that of the white agents.

Provision is made in the report form for each agent to report separately the teaching activities he or she conducts or participates in during the report year. County totals are the sum of the activities of all agents minus duplications where two or more agents engage in the same activity. For purposes of reporting, extension results or accomplishments are expressed in numbers of farmers or families assisted in making some improvement or definitely influenced to make a change. Such an improvement or change may be the outcome of any phase of the program for men, women, older rural youth, or 4-H Club boys and girls. Only the improvement or change taking place during the current year as the result of extension effort should be reported. Census type of information on the status of farm and home practices should not be included. For use on the national level the statistical data on the year's extension activities and accomplishments must be expressed in somewhat broad and general terms. Each State extension service may desire to include in a statistical supplement additional information on problems and activities peculiar to the State or sections of the State.

</table>

1 Includes assistant county agent in charge of 4-H Club work or who devotes practically full time to club work.

2 County total should equal sum of preceding three columns minus duplications due to two or more agents participating in same activity or accomplishment.

3 The sum of questions 2 and 3 should equal the sum of questions 4 and 5.

4 Do not count or count as one visit to both the farm and home as two visits.

5 Do not count items relating to notice of meetings only.

¹ Includes assistant county agent in charge of 4-H Club work or who devotes practically full time to club work.
² County total should equal sum of preceding three columns minus duplications due to two or more agents participating in same activity or accomplishment.
³ Does not include picnics, rallies, and short courses, which should be reported under question 19.

### SUMMARY OF EXTENSION INFLUENCE THIS YEAR

It is highly desirable for extension workers to consider the proportion of farms and homes in the county that have been definitely influenced to make some substantial change in farm or home operations during the report year as a result of the extension work done with men, women, and youth. It is recognized that this information is very difficult for agents to report accurately, so a conservative estimate based upon such records, surveys, and other sources of information as are available will be satisfactory.

21. Total number of farms in county (1945 census) | 5,829 |
22. Number of farms on which changes in practices have definitely resulted from the agricultural program | 3,184 |
23. Number of farms involved in preceding question which were reached this year for the first time | 391 |
24. Number of nonfarm families making changes in practices as a result of the agricultural program | 1,659 |
25. Number of farm homes in which changes in practices have definitely resulted from the home demonstration program | 2,330 |
26. Number of farm homes involved in preceding question that were reached this year for the first time | 366 |
27. Number of other homes in which changes in practices have definitely resulted from the home demonstration program | 32 |
28. Number of other homes involved in preceding question that were reached this year for the first time | 12 |
29. Number of farm homes with 4-H Club members enrolled | 2,520 |
30. Number of other homes with 4-H Club members enrolled | 340 |
31. Total number of different farm families influenced by some phase of the extension program. (Include questions 22, 25, and 29 minus duplications) | 4,908 |
32. Total number of different other families influenced by some phase of the extension program. (Include questions 24, 27, and 30 minus duplications) | 1,639 |
EXTENSION ORGANIZATION AND PLANNING

33. County extension association or committee (includes agricultural councils, home demonstration councils, and 4-H councils or similar advisory committees; also farm and home bureaus and extension associations in those States where such associations are the official or quasi-official agency in the county cooperating with the college in the management or conduct of extension work):
   (a) Over-all or general
   (b) Agricultural
   (c) Home demonstration
   (d) 4-H Club
   (e) Older youth

34. Number of members of county extension program planning committees and subcommittees (include commodity and special-interest committees):
   (a) Agricultural
   (b) Home demonstration
   (c) 4-H Club
   (d) Older youth

35. Total number of communities in county. (Do not include number of neighborhoods.)

36. Number of communities in which the extension program has been planned cooperatively by extension agents and local committees.

37. Number of clubs or other groups organized to carry on adult home demonstration work

38. Number of members in such clubs or groups.

39. (a) Number of 4-H Clubs. (See question 173.)
   (b) Number of groups (other than 4-H Club) organized for conduct of extension work with older rural youth. (See question 185.)

40. Number of neighborhood and community leaders in the neighborhood-leader system

41. Number of different voluntary local leaders, committee men, or neighborhood leaders actively engaged in forwarding the extension program.
   (a) Adult work
   (b) 4-H Club and older youth work

COOPERATIVE AGRICULTURAL PLANNING

42. Name of the county agricultural planning (over-all planning) group, if any, sponsored by the Extension Service.

43. Number of members of such county agricultural planning group:
   (a) Unpaid lay members:
      (1) Men
      (2) Women
   (b) Paid representatives of public agencies or other agencies, or of organizations:
      (1) Men
      (2) Women

44. Number of communities with agricultural planning committee (over-all planning).

45. Number of members of such community planning committees:
   (a) Men
   (b) Women
   (c) Youth

46. Was a county committee report prepared and released during the year? (a) Yes

47. Days devoted to line of work by:
   (1) Home demonstration agents
   (2) 4-H Club agents
   (3) Agricultural agents
   (4) State extension workers

48. Number of planning meetings held:
   (1) County
   (2) Community

49. Number of unpaid voluntary leaders or committee men assisting this year

50. Days of assistance rendered by voluntary leaders or committee men

---

1 Where extension program planning and county agricultural planning (over-all planning) have been completely merged into a single program-planning activity, only column (c) should be filled out. Where extension program planning is the only planning activity, the entries in columns (a) and (b) will be identical. In all other cases column (c) is the sum of columns (a) and (b).

62. Days devoted to line of work by—

| (1) Home demonstration agents | 0 | 0 | 0 |
| (2) 4-H Club agents | 0 | 0 | 0 |
| (3) Agricultural agents | 0 | 0 | 0 |
| (4) State extension workers | 0 | 0 | 0 |

63. Number of communities in which work was conducted this year.

| | 0 | 0 | 0 |

64. Number of voluntary local leaders or committeemen assisting this year.

| | 0 | 0 | 0 |

### Soil and Water—Continued

65. Number of farmers assisted this year—

| (a) With problems of land use | 0 | 0 | 0 |
| (b) In the use of crop rotations | 0 | 0 | 0 |
| (c) With strip cropping | 0 | 0 | 0 |
| (d) In constructing terraces | 0 | 0 | 0 |
| (e) In grassing waterways or otherwise preventing or controlling gullies | 0 | 0 | 0 |
| (f) With contour farming of cropland | 0 | 0 | 0 |
| (g) In contouring pasture or range | 0 | 0 | 0 |
| (h) In the use of cover or green-manure crops | 0 | 0 | 0 |
| (i) In otherwise controlling wind or water erosion | 0 | 0 | 0 |
| (j) In summer-fallowing | 0 | 0 | 0 |
| (k) In making depth-of-moisture tests | 0 | 0 | 0 |
| (l) With drainage | 0 | 0 | 0 |
| (m) With irrigation | 0 | 0 | 0 |
| (n) With land clearing | 0 | 0 | 0 |

66. Number of farmers—

| (a) In soil-conservation districts which were assisted with education for organisation or operations this year | 0 | 0 | 0 |
| (b) Assisted in arranging for farm-conservation plans this year | 0 | 0 | 0 |
| (c) Assisted in doing work based on definite farm-conservation plans this year | 0 | 0 | 0 |

67. Number of farmers assisted this year—

| (a) In reforestation new areas by planting with small trees. (Include erosion-control plantings) | 0 | 0 | 0 |
| (b) In making improved thinnings, weeding or pruning of forest trees | 0 | 0 | 0 |
| (c) With selection cutting | 0 | 0 | 0 |
| (d) With production of naval stores | 0 | 0 | 0 |
| (e) With production of maple-syrup products | 0 | 0 | 0 |
| (f) In timber estimating and appraisal | 0 | 0 | 0 |

68. Number of farmers cooperating this year in protection of forest fires.

| 0 | 0 | 0 |

### Wildlife—Continued

69. Number of farmers assisted this year—

| (a) In construction or management of ponds for fish | 0 | 0 | 0 |
| (b) In protection of wildlife areas, such as stream banks, odd areas, field borders, marshes, and ponds, from fire or livestock | 0 | 0 | 0 |
| (c) In planting of edible wild fruits and nuts in hedges, stream banks, odd areas, and field borders | 0 | 0 | 0 |
| (d) With other plantings for food and protection in wild-life areas | 0 | 0 | 0 |

---

1 Include nature study.

#### The House, Furnishings, and Surroundings—Continued

- **105. Number of families assisted this year in—**
  - (a) Constructing dwellings
  - (b) Remodeling dwellings
  - (c) Installing sewage systems
  - (d) Installing water systems
  - (e) Installing heating systems
  - (f) Providing needed storage space
  - (g) Rearranging or improving kitchens
  - (h) Improving arrangement of rooms (other than kitchens)
  - (i) Improving methods of repairing, remodeling, or refinishing furniture or furnishings
  - (j) Selecting house furnishings or equipment (other than electric)
  - (k) Improving housekeeping methods
  - (l) Laundry arrangement
  - (m) Installing sanitary closets or outhouses
  - (n) Screening or using other recommended methods of controlling flies or other insects
  - (o) Improving home grounds
  - (p) Planting windbreaks or shelterbelts

#### Rural Electrification—Continued

- **106. Number of associations organized or assisted this year to obtain electricity**
  - (a) Obtaining electricity
  - (b) Selection or use of electric lights or home electrical equipment
  - (c) Using electricity for income-producing purposes

#### Farm Buildings—Continued

- **108. Number of farmers assisted this year in—**
  - (a) The construction of farm buildings
  - (b) Remodeling or repairing farm buildings
  - (c) Selection or construction of farm-building equipment

#### Farm Mechanical Equipment—Continued

- **109. Number of farmers assisted this year in—**
  - (a) The selection of mechanical equipment
  - (b) Making more efficient use of mechanical equipment

- **110. Number of farmers following instructions in the maintenance and repair of mechanical equipment this year**
  - (a) Ginning of cotton

- **111. Number of gin stands assisted this year in the better ginning of cotton**
  - (a) Assisting in the better ginning of cotton
### NUTRITION AND HEALTH

118. Days devoted to line of work by—
   (1) Home demonstration agents.
   (2) 4-H Club agents.
   (3) Agricultural agents.
   (4) State extension workers.

119. Number of communities in which work was conducted this year.
120. Number of voluntary leaders or committee members assisting this year.
121. Number of families assisted this year—
   (a) With time-management problems
   (b) With home accounts
   (c) With financial planning
   (d) In improving use of credit for family living expenses
   (e) In developing use of credit for family living expenses

122. Number of home demonstration clubs, other consumer associations or groups assisted this year with cooperative buying of—
   (a) Food
   (b) Clothing
   (c) Housefurnishings and equipment
   (d) General household supplies

123. Number of families assisted this year through cooperative associations or individually, with the buying of—
   (a) Food
   (b) Clothing
   (c) Housefurnishings and equipment
   (d) General household supplies

124. Total number of different families assisted this year with consumer-buying problems (includes question 123 (a), (b), (c), and (d) minus duplications).
125. Number of families assisted this year with "making versus buying" decisions.
126. Number of families assisted this year in using timely economic information to make buying decisions or other adjustments in family living.

Note.—Individual families and groups assisted with selling problems should be reported in column (f), page 9.

1. The house—its arrangement, equipment, and furnishings, including kitchen improvements and care of the house—is reported under "The house, furnishings and surroundings," p. 10.
2. Includes question 122; also families buying through marketing cooperatives, organized or assisted, column (b), p. 9.
### SUMMARY OF 4-H CLUB BOYS' AND GIRLS' PROJECTS

(One club member may engage in two or more projects. The sum of the projects is therefore greater than the number of different club members enrolled)

#### Work with Older Rural Youth

| 185. Number of groups (other than 4-H Club) organized for conduct of extension work with older rural youth |  |
| 186. Membership in such groups | (a) Young men | (b) Young women |
| 187. Number of members by school status and age | In school | Out of school | Under 21 years | 21-24 years | 25 years and older |
| | Unmarried | Married | (a) | (b) | (c) | (d) | (e) | (f) |
| (1) Young men |  |  |  |  |  |  |  |  |
| (2) Young women |  |  |  |  |  |  |  |  |
| 188. Number of meetings of older rural youth extension groups |  |
| 189. Total attendance at such meetings |  |
| 190. Number of other older rural youth groups assisted |  |
| 191. Membership in such groups | (a) Young men | (b) Young women |
| 192. Number of older rural youth not in extension or other youth groups assisted | (a) Young men | (b) Young women |
| 193. Total number of different young people contacted through the extension program for older rural youth | (a) Young men | (b) Young women |

#### Check column showing approximate portion of older-youth program devoted to:

| (1) Citizenship, democracy, and public problems | Under 10 percent | 10-19 percent | 20-39 percent | 40 percent or more |
| (2) Vocational guidance | (a) | (b) | (c) | (d) |
| (3) Family life and social customs | (a) | (b) | (c) | (d) |
| (4) Social and recreational activities | (a) | (b) | (c) | (d) |
| (5) Community service activities | (a) | (b) | (c) | (d) |
| (6) Technical agriculture | (a) | (b) | (c) | (d) |
| (7) Technical home economies, including nutrition and health | (a) | (b) | (c) | (d) |

---

1 All data in this section are based on the number of different boys and girls participating in 4-H Club work, not on the number of 4-H projects carried.
2 Report the total number of different boys or girls enrolled in club work. This total should equal the sum of the project enrollments reported on page 19, minus duplications due to the same boy or girl carrying on two or more subject-matter lines of work. Do not include boys and girls enrolled late in the year in connection with the succeeding year's program.
3 Same as footnote 2, except that reference is to completions instead of enrollments.
## MISCELLANEOUS

(Report here all work not properly included under any of the headings on preceding pages)

1. Include grasshoppers, armyworms, chinch bugs, and other insects not reported under specific crop or livestock headings.

## COOPERATION WITH OTHER FEDERAL AGENCIES

The purpose of this report is to bring together in one place the cooperation given other Federal agencies working with the rural people of the county. It is assumed that all such work has been reported previously under appropriate problems of the farm or home.

</tbody>
</table>

2. Number of communities in which work was conducted this year.

3. Number of voluntary local leaders or committees assisting this year.

4. Number of meetings participated in this year by extension workers.
If extension reports are to convey the intended information, it is important that the terminology employed be that generally accepted by members of the extension teaching profession everywhere. Precise use of extension terms is an obligation each extension worker owes to the other members of his or her profession. The following definitions have been approved by the United States Department of Agriculture and by the Association of Land-Grant Colleges and Universities.

**DEFINITIONS OF EXTENSION TERMS**

1. **A community** is a more or less well-defined group of rural people with common interests and problems. Such a group may include those within a township, trade area, or similar limits. For the purpose of this report, a community is one of the several units into which a county is divided for conducting organized extension work.

2. **A cooperator** is a farmer or homemaker who agrees to adopt certain recommended practices upon the solicitation of an extension worker. The work is not directly supervised by the extension agent, and records are not required, but reports on the success of the practices may be obtained.

3. **Days in field** should include all days spent on official duty other than “days in office.”

4. **Days in office** should include time spent by the county extension agent in the office, at annual and other extension conferences, and on any other work directly related to office administration.

5. **Demonstrations** as contemplated in this report are of two kinds—method demonstrations and result demonstrations.

A method demonstration is a demonstration given by an extension worker or other trained leader for the purpose of showing how to carry out a practice. Examples: Demonstrations of how to can fruits and vegetables, mix spray materials, and cull poultry.

A result demonstration is a demonstration conducted by a farmer, homemaker, boy, or girl under the direct supervision of the extension worker, to show locally the value of a recommended practice. Such a demonstration involves a substantial period of time and records of results and comparisons, and is designed to teach others in addition to the person conducting the demonstration. Examples: Demonstrating that the application of fertilizer to cotton will result in more profitable yields, that underweight of certain children can be corrected through proper diet, that the use of certified seed in growing potatoes is a good investment, or that a large farm business results in a more efficient use of labor.

The adoption of a farm or home practice resulting from a demonstration or other teaching activity employed by the extension worker as a means of teaching is not in itself a demonstration.

6. **A demonstration meeting** is a meeting held to give a method demonstration or to start, inspect, or further a result demonstration.

7. A result demonstrator is an adult, a boy, or a girl who conducts a result demonstration as defined above.

8. **An extension school** is a school usually of 2 to 6 days' duration, arranged by the Extension Service, where practical instruction is given to persons not resident at the college.

9. **An extension short course** differs from an extension school in that it is usually held at the college or another educational institution and usually for a longer period of time.

10. **A farm or home visit** is a call by the agent at a farm or home at which some definite information relating to extension work is given or obtained.

11. **Farmers (or families) assisted this year** should include those directly or indirectly influenced by extension work to make some change during the report year as indicated by:

   (1) Adoption of a recommended practice.

   (2) Further improvement in a practice previously accepted.

   (3) Participation in extension activities.

   (4) Demonstration of responsibilities.

   (5) Or by other evidence of desirable change in behavior.

12. **A 4-H Club** is an organized group of boys and/or girls with the objectives of demonstrating improved practices in agriculture or home economics, and of providing desirable training for the members.

13. **4-H Club members enrolled** are those boys and girls who actually start the work outlined for the year.

14. **4-H Club members completing** are those boys and girls who satisfactorily finish the work outlined for the year.

15. A **project leader, local leader, or committeeman** is a person who, because of special interest and fitness, is selected to serve as a leader in advancing some phase of the local extension program. A project leader may be either an organization or a subject-matter leader.

16. **A leader-training meeting** is a meeting at which project leaders, local leaders, or committeemen are trained to carry on extension activities in their respective communities.

17. **Letters** written should include all original letters on official business. (Duplicated letters should not be included.)

18. **An office call** is a call in person by an individual or a group seeking agricultural or home-economics information, as a result of which some definite assistance or information is given. A telephone call differs from an office call in that the assistance or information is given or received by means of the telephone. Telephone calls may be either incoming or outgoing.

19. A **plan of work** is a definite outline of procedure for carrying out the different phases of the program. Such a plan provides specifically for the means to be used and the methods of using them. It also shows what, how much, when, and where the work is to be done.

20. An extension **program** is a statement of the specific projects to be undertaken by the extension agents during a year or a period of years.

21. **Records** consist of definite information on file in the county office that will enable the agent to verify the data on extension work included in this report.

22. The **older rural youth group** is primarily a situation group, out of school, at home on farms, not married or started farming on their own account, and mostly 16 to 25 years of age.
