1. **Guest Speaker: Gerald Vander Mey,** spoke on the campus master plan. The early eighties saw the beginning of the update to the long-range plan. It was done again ten years later. In fiscal year 1994-96 the Board of Trustees approved the plan. Land use has an academic core, followed by in-fill development (adding additional wings to existing buildings). 23,000 is the expected maximum number of students. Clemson will need more academic space as this happens. They want to maintain the wonderful character of the landscape at Clemson. If we reach 23,000 students the major plan concepts are: 16,500 parking spaces, peripheral lots, parking structures, expanded transit system and roadway improvements. Currently we have a total of 12,300 parking spaces. There are no plans to transport employees from the periphery of the campus. Greenhouses cannot be moved due to soil contamination. They need to look at more handicapped spaces. The Hendrix Center will be 100,000 square feet and consist of a food court with 5-6 vendors, convenience store, Edgars, Career Planning, student media (Tiger, TAPS, Chronicle, WSBF), bookstore and ballroom. Current space in Johnstone used for the student media will go to student organizations. Plans are in the works to have pedestrian and orientation Kiosks have pullout maps of the campus.

2. The minutes were approved as corrected.
