Fees are usually waived for university requests. 3) A task force was established to look at health insurance for graduate students. 4) A survey may be sent out regarding size of Clemson University. 5) 600 employees will be eligible for retirement under the new 28-year retirement plan.

We should now be in good standing to support the part-time administrative position with supply monies. The Golf Tournament monies transfer request has been confirmed by Accounting Services. This business plan projects over the coming years what will be needed to move the Library into the future and how much (if the price is known) each goal would cost. 2) Electronic Thesis and Dissertations: The Library would "house" a server which would hold all of the thesis and dissertations that are written in the coming years. 3) A company called Java City put a cyber cafe in the Library. They will hire a company to begin the renovations necessary for the café. 4) New Information Resources: Several new resources are available from the Libraries' web page, such as Dissertation Abstracts, Net Library, and eBooks. 5) Funding: Dean Boykin discussed the cost of remote storage and several of the other items listed in the Library Business Plan, such as ASERL-VEL and Science Direct. We discussed the advantages of joining a consortium of other university libraries in an effort to increase our collection while offsetting the amount that is paid for electronic journals. When asked for input, a donations drive for needed items on the Libraries web page was suggested. Also, a need for a Development Officer was stressed.
11. Parking Advisory: Barbara Bergman reports that Barret Anderson is taking over as chair of the PAC. Almeda Jackson is setting up a meeting in October for the PAC, Parking Task Force and key services. Parking Services is working on an online system for payment of both permits and fines. They are making signage changes in the 24-hour employee parking lot at the library to further discourage student parking there. Shirley Davis is reviewing parking spaces on campus for ADA compliance. There are plans to put a stop light at the end of Williamson Road where it meets Perimeter Road.
13. Recreation Advisory: Steve Perry reports that they have not met.
14. SACS Committee on Physical Resources: Dexter Hawkins reports that they divided into subcommittees to address the various MUST statements. The committees are working on putting together survey questions to get responses from faculty, staff, and students.

The tickets are $5 in advance or $8 at the door and may be purchased from Betty Cook by contacting her at 656-3933 or celizab@clemson.edu. This is an excellent opportunity to come meet your newly elected upstate legislators and let them know your priorities and concerns regarding state employee issues. Our next Executive Board Meeting will be on Thursday, November 9, at 8:15 a.m. in the Gunnin Architecture Library in Lee Hall.

6. Unfinished Business

A. Blitz Build 2001 Support: A sign-up sheet is available for the bake sale this Friday, October 13. Volunteers are needed for setup, take down, and to man the tables during the day. Only 15 people have volunteered to donate food. Marian Littleton would like the food delivered to 118 Kinard Thursday afternoon. For more information contact Marian at 656-3418 or marianw@clemson.edu.
B. Clemson Club: Survey sheets have been mailed out.

7. New Business

A. Attendance Policy for Representatives: Article III Section 3B of the CSC by-laws states "After three absences during the year at monthly meetings and committee meetings, a representative's status as a Commission member will be reviewed by the Executive Committee for possible removal from the Commission." This policy will be enforced.
B. Reminder of Travel Reimbursement for Off-Campus Members: Commission representatives based at off-campus locations are eligible for mileage reimbursement. Contact Cindy
Long at lcynthi@clemson.edu.

C. Flex Time Recommendation: Currently flex time is based on a single workweek. There has been a request to extend the flex time period to two weeks and Administrative Council has asked us to give a recommendation. For example, now you can work 4 9.5-hour days and take Friday off each week. Under the new proposal, you could work 9 8.5-hour days and take every other Friday off. There are several concerns: 1) this proposal would have to be approved by the state Budget and Control Board, 2) it would generate more work for departmental administrators (although time sheets are already based on a 2-week time period), and 3) it may eliminate over-time compensation (time or money) for staff. Note, flex time requests must be approved by the employee's supervisor and there are differences between exempt and non-exempt staff. It was moved and approved that the Policy and Welfare committee consider the issue and bring back recommendations.

D. Clemson University "Time Magazine Public College of the Year" t-shirts were distributed to meeting attendees.
