(3) Parking Services set a new record in August noting that the longest wait to obtain a parking permit was five minutes. (4) A noticeable increase in the number of Clemson House residents purchasing parking permits has necessitated some reallocation of spaces. There are currently about 80 – 90 more permits issued than available spaces. It was noted that students living in nearby apartment/condominiums with inadequate parking are using Clemson House resident parking. (5) The R-01 lot is overflowing. Cost estimate for expansion of the lot is over $600,000. Alternative solutions are being studied. (6) CATS Blue Route ridership has significantly increased, but traffic backup at Cherry Rd and McMillan is still a problem. (7) Abuses of the parking spaces for the mobility impaired are being addressed. (8) Annual visitor hangtags are no longer being issued this year. Placards could be stopped or reduced at the end of the year. (9) The area next to Woodland Cemetery (Cemetery Hill) is officially designated for employee parking.

7. Unfinished Business
   A. Search Committees
      1. Provost Search
   B. Staff Issues
      1. Classified Staff Job Description phrase 'other related duties' Information received from Vivian Morris, Human Resources, reads as follows: 'The 'other related duties' job task is shown on some of our prototype position descriptions and is shown on a majority of the classified position descriptions. In our training, we inform departments that this statement is allowed on the position description, however, the percent of time spent on this function should be 5% or less and is always a non-
essential job task (a task that is not essential to the job). When the percent of time exceeds 5%, the
tasks/duties included under this statement should be spelled out because they are no longer as
assigned but have become a regular job task for the employee." It is the employee's responsibility to
redefine their job description with their supervisor during the job-planning stage. No further action
will be taken on this issue.

2. Improving CUBS communications: The CSS Executive Committee met with CUBS representatives
