Continuing Activities

- Choose webinar software. Next steps are to setup demonstrations of the software for the committee members.

- Coordinate and organize at least two webinars prior to NASIG 2012

The presenters of the “Gateway to Good Negotiation: From Computer Mediated Communication to Playing Hardball” session from NASIG 2011 have agreed to present a webinar for CEC.

- Revise and post continuing education survey results to share with all members
- Put out call for volunteers to help organize webinars and/or regional events

- Work with PPC to identify content and presenters for events
The PPC said they could possibly share proposals to help the CEC identify content and presenters.

- Work with PPC to create proposal process website or podcast
The PPC does not believe the NASIG proposal process is unique enough to need guidelines, but feel that if the CEC creates something about the process in general it would not be unwelcome. CEC will work to create a website about the proposal process.

Completed Activities

- Investigate webinar software
Members contacted various organizations to inquire about the webinar software they used to compile our own list. Most price quotes have been received. We also discussed the offer to use EBSCO and Swets software, but the rules tied to that use may be too restrictive for our needs.
