The training is scheduled for November 21 at 3 p.m. in the Student Senate Chambers. The goal of this program is to create campus resources for student veterans.   - B. Candi Forester Smith, United Way of Pickens County – Smith provided information about United Way’s priorities in our surrounding counties. Community needs differ from county to county, so United Way funding differs from county to county. Anderson County is focusing on early childhood education while Oconee County and Pickens County have immediate needs. Oconee is in need of a domestic violence shelter and Pickens is working on a homeless shelter.
  - C. Sean Flood and Dan Hofmann, Gotcha Ride - Flood and Hofmann presented a new program to make getting around campus easier called GotchaRide. GotchaRide is a program that uses 6-passenger electric vehicles. We currently have three on campus. The electric vehicles are staffed by students and they work for tips. The program is supported by selling advertising on the interior and exterior of the vehicle. The vehicles are for faculty and staff use between 8 a.m. and 5 p.m. Call (855) 646-8242 to schedule a ride. Group transportation can be scheduled by visiting Gotchagroup.com. **B. University Committees**

1. **Internationalization Task Force**, Julia Lusk. We met to establish subcommittees. I will serve on the Study Abroad and Campus Culture subcommittees. The purpose of the Campus Culture subcommittee is to familiarize staff with internationalization, so I will mostly present information about work done in that subcommittee.
2. **Joint City University Advisory Board**, Julia Lusk. The City of Clemson has two proposals they would like to collaborate with Staff Senate:
  - Stray/Abandoned/Feral animals (emphasis on cats) – even though several groups are involved in controlling the feral cat population, there is not an overarching program/leadership. New cats are abandoned at the end of each semester. Proposals: a) Educate! b) Establish a committee that provides cohesion with existing groups c) Create a long-term program that establishes a one-stop resource for residents and students.
  - Create a town/gown element for the city's comprehensive plan – it's a ten year plan that was adopted in 2004, so needs to be updated next year. The University and City holds a unique relationship. Proposal: They would like to incorporate goals/objectives/strategies for furthering areas of common interest into the city growth policies. These include housing, economic, environmental, cultural, and civic considerations.

3<sup>rd</sup> Annual Team Up For Regatta – Julia Lusk is co-chair of the 2014 Regatta and hopes Staff Senate will sponsor a boat next year!

3. **President's Commission on the Status of Women**, Karen Erickson and Tina White. The group reviewed and discussed all sub-committee work (child care, salary inequities, open forums); discussed bringing speakers to campus (partner with Women's Studies, Women's Leadership and other campus groups); considered the need for an intern for spring semester projects.
4. **Safety Council**, Anne Cummings. Safety Council met 10/24/13. Final details regarding the logistics of the Thursday, Nov. 14 football game are being discussed. More communications regarding parking and traffic will be coming soon. November/December awareness programs will focus on alcohol and other drugs. There are many community and university programs planned to increase awareness. Watch for announcements.
5. **Tobacco-Free Task Force**, Julia Lusk. A survey went out to a random selection of faculty, staff and students. If you received the survey, I encourage your participation. We want to hear feedback. George Clay is hoping to present the information to the BOT at their winter meeting. The Task Force needs to have the Board vote on the proposed policy, which we hope will happen at the winter meeting.

I wanted to let you know of a special week of events planned around the Clemson Players' theatrical production of *The Laramie Project* (Attachment). *The Laramie Project* deals with the true-life murder of a young gay man named Mathew Shepard and the devastation it wreaks on the small community of Laramie, Wyoming. The piece was written under the leadership of Moisés Kaufman by the Tectonic Theatre Project, which conducted over 200 interviews with the residents of Laramie and crafted them into a play. The result is a story of the depths to which humanity can sink and the heights to which it can rise. In conjunction with the production, the following events and resources are offered to the public:
  - Through generous sponsorship, the Clemson Players have arranged to bring Moisés Kaufman to Clemson to participate in a public question and answer session hosted by Professor Travers Scott at the Brooks Center on Monday, November 18 at 5:30 p.m.

before the opening performance. Mr. Kaufman will speak on a variety of topics, including the power of the arts to heal both people and communities.

- Before each performance, booths will be set up in the lobby by various on-campus organizations, such as the Clemson Gay Straight Alliance, that will offer more information about the many issues addressed in the play, as well as other resources to those who need them.
- The cast will participate in two "Talk Back" sessions after yet-to-be-determined performances that will primarily address the production process.
