Acting President Earle next presented the following statement from the Governing Board of the Clemson College Alumni Association which had been filed by the President of the Association, Mr. A. H. Ward, Aiken, S. C.:
We, the Governing Board of the Clemson Alumni Association, in meeting assembled, have unanimously adopted the following statement for submission to your Board:

The Alumni Governing Board is composed of seven members, six of whom were present at this meeting. These members comprise graduates from practically every stage of the history of the college. Our deliberations have emanated from our own varied experiences and our conclusions represent the earnest convictions of our entire body, whose opinions are derived from observations made at virtually every stage in the development of the institution. As graduates of Clemson College who have been keenly interested in the welfare and advancement of the institution, we are forced to the conclusion that there exists at Clemson College a condition, or conditions, which are fundamentally wrong. In this conclusion we find that a vast number of individual alumni concur. Being thoroughly convinced that some fundamental changes should be made, we respectfully submit the following recommendations for your consideration, in the belief that within them may be found a solution to the all-important problem which faces the institution today:

That the Board of Trustees consider:

1. The gradual modification of military discipline at Clemson, the same to be as gradually superseded by student government as rapidly as the students adapt themselves to the changed conditions, with the ultimate aim of the entire abolishment of military discipline in favor of student government.

2. The making of military training optional for members of the Junior and Senior Classes.

3. A thorough investigation of the feasibility of establishing a cafeteria system at Clemson, and if for any reason this should be found impracticable or inadvisable, that a rearrangement of tables in the messhall be effected so that not more than eight men will be seated at any table.

4. The employment of one or more matrons in the messhall.

5. That in order to determine the feasibility of the above recommendations, your Board appoint a committee to make a thorough investigation of the systems of government of student affairs followed by other representative institutions with a view to the incorporation of the most desirable features of each into a system for the government of student affairs at Clemson.

Moved by Mr. Bradley: That the Governing Board be thanked for its letter and interest, and that the matter be given serious consideration.

Motion Adopted.
Petitions for reinstatement from ex-Cadets J. H. Darden and R. N. Truluck were next read to the Board.

Moved by Mr. Tillman: That the appeals be dismissed.

Motion Adopted.

The Chairman of the Board of Trustees requested that a Committee consisting of Messrs. D. H. Henry, S. W. Evans, and J. C. Littlejohn be requested to appraise all fixtures, outhouses and other appurtenances installed by the late Dr. Riggs in his residence, and to make a report to the Board at its next meeting. (This was for the purpose of reimbursing Mrs. Riggs for these expenditures.)

Moved by Mr. Bradley: That the Committee be appointed and report as requested at the spring meeting.

Motion Adopted.

Moved by Mr. Wannamaker: That the tables in the messhall be cut down in size to seat approximately eight students, and that $300.00, if so much be necessary, be appropriated to make the change.

Motion Adopted.

Acting President Earle stated that this matter had been under consideration, and by common consent the Board left the question in the hands of President Earle to settle.

Moved by Dr. Timmerman: That the Board adjourn until Saturday morning.

Motion Adopted - Board Adjourned.
