Please welcome our newest members! (In their own words...)

I finally decided this year to get a much overdue NASIG membership as I'm now creeping ever closer to completing my MLIS. I've been working with a variety of serials formats for over fourteen years in every stage of the process from trials to weeding, and everything in between, and more recently have shifted with the times into digital periodicals. I'm looking forward to learning from and contributing to NASIG.

While I originally joined NASIG as a student, I am now the new Regional Librarian for the Chamberlain College of Nursing, Charlotte Campus, which will involve working with serials on a daily basis. I joined while I was still a student because access and electronic resources are very important to me as an information professional. I hope I can get more involved with NASIG as I begin my career!
