STATEMENT BY GOVERNOR THURMOND ON
ANNOUNCEMENT OF NEW MAVERICK MILLS PLANT,
GREENVILLE, S. C.
JUNE 16, 1950

I am sure the people of Greenville and throughout the State will welcome the announcement of the new Maverick Mills plant, which will provide several hundred new jobs for our people.

It is always a happy occasion for me to learn of another forward step in our effort to promote the industrial development of South Carolina. I am proud that we are leading the nation in this respect, and that since 1947 our efforts have resulted in approximately 50,000 new jobs, with new payrolls amounting to more than \$104,000,000.

The people of the Greenville area are to be congratulated on the Maverick Mills announcement.
