WASHINGTON -- Senator Strom Thurmond (D-SC) announced today that Mr. Ben Boatwright, chairman of the South Carolina Agricultural Stabilization and Conservation Committee, has informed him that the committee is modifying its order regarding combinations of acreage allotments for single farm classification.

Senator Thurmond conferred with Mr. Boatwright several times after receiving letters and telegrams from farmers in South Carolina on the subject of acreage allotments and the regulation issued by the State Committee. Mr. Boatwright told Senator Thurmond that the modified order would be issued as a substitute for a recent letter by the Committee which explained acreage combinations.
