MINUTES

of the

GENERAL FACULTY

of

The Clemson Agricultural College

January 28, 1955 — January 27, 1956
Minutes of General Faculty Meeting

Friday, January 28, 1955

The general faculty of Clemson College met in the Chemistry Building Auditorium at 4 p.m. on Friday, January 28, 1955, with President Poole presiding.

As the first order of business, the minutes of the September meeting were read by the secretary. At the suggestion of Dean Sams, one sentence was amended to read: "Dean Sams stated that Prof. Fernow had requested that he be relieved of administrative duties and Prof. J. C. Cook had been appointed acting head of the department of mechanical engineering."

At the suggestion of Dr. M. A. Owings, a sentence was amended to read: "Dr. Poole then introduced Mr. Gourlay, the Director of the Library, who introduced a new member of his staff."

The minutes as thus amended were then approved.

The list of additions to and deletions from the preliminary list of candidates for graduation was then approved. Copies of these lists are appended to these minutes.

Deans Jones and Kinard recommended that the amended lists of candidates from their schools be approved. It was so voted.

Dean Washington stated that one candidate for graduation from his school, Mr. Frederick B. West, had on the preceding day been killed in an automobile accident. Dean Washington then moved that the B. S. degree be awarded Mr. West posthumously and that the amended list from the School of Education be approved. It was so voted.

Deans Brown, Sams, and Webb then moved that the amended list of candidates from their respective schools be approved. It was so voted.

Mr. Metz, the Registrar, called attention to the mid-year commencement exercises to be held in the College Auditorium on Sunday, Jan. 30, at 3:30 p.m.

Col. Tull, the newly appointed Commandant, announced that commissioning exercises would be held in the same auditorium on Sunday afternoon at 1:30 p.m.
President Poole stated that the former commandant, Gen. Werner, was one of the few recent commandants who seemed to think that the main purpose of the college was to promote scholarship.

Dr. Poole then gave an interesting discussion of the budget and of the manner in which it is drawn up. He stated that it begins with heads of departments and deans and is presented to the trustees in October of each year.

He called attention to the need for increased appropriations for equipment, wages, a larger maintenance staff, a research and graduate program, and other purposes.

He said that the request for the next fiscal year was for an amount about $513,000 larger than the amount appropriated for the current year. He then gave a detailed list of requests for collegiate, maintenance, agricultural, extension, and other services. A copy of this list is appended to the copy of the minutes filed in the President’s office.

He stated, however, that the current copy of The South Carolina State Budget, a book-size report drawn up by the State Budget Commission, allotted to Clemson the same amount for next year that it was given for the current year. He added, however, that there was some reason to hope that something additional might be done for Clemson.

He stated that the system of making participation in the military program optional for juniors and seniors not enrolled in advanced military and air science courses seemed to be working smoothly.

He called attention to the fact that Barracks 4, 5, 6, & 7 were unoccupied and that consequently Clemson had room for an increased number of students.

Respectfully submitted,

J. C. Green, Secretary
PRELIMINARY LIST

CANDIDATES FOR BACHELORS' DEGREES

JANUARY 30, 1955

SCHOOL OF AGRICULTURE

BACHELOR OF SCIENCE DEGREE

Agriulture—Agricultural Economics Major

Julian Juan Carlile --- Princeton, N. J.

Henry Walter Kalinowski ----- Ironstone, N. J.

Ewart Swain Lawrimore --- Conway

Agriculture—Agronomy Major

Walter Marvin Beigan, Jr. ----- Lotta

Marian Dargan Hawkins, Jr. ----- Hartsville

Agriculture—Animal Husbandry Major

Herbert E. Loomis, Anderson, Sr. --- Timmonsville

Harold Austin Breene --- Pendleton

Robert English Coe ----- Sandston

Laco Allan Ovitt, Jr. --- Cope

Madison Keith Dennis --- Memmaway

Robbie Mandel Dill ------ Landrum

Joseph Hyde Emery, Jr. --- Trackman

Joseph Bruno Gentile --- Brooklyn, N. Y.

Rupert Adrian Godshall, Jr. --- Columbus

Lawrence Neal Meadors, Jr. --- Orangeburg

Milton Augustus Hilbrand, Jr. --- St. Matthews

Frances Abery Hipp --- Solido

Agriculture—Dairy Major

Baryl Bingold Elzer --- Meagim

James Karnell Henderson --- Copen

Agriculture—Entomology Major

Richard Charles Evert ---------- Washington, D.C.

Agriculture—Horticulture Major

Francis Berwick Cates --- Wadmalaw Island

Robert James Donaldson, Jr. --- Mt. Pleasant

Edward William Enron, Jr. --- Baltimore, Md.

William Aaron Radcliff ------- Norfolk, Va.

Elliott Tilton Wooster --------- Greer

SCHOOL OF ARTS AND SCIENCES

BACHELOR OF SCIENCE DEGREE

Arts and Sciences

Alan York Cannon -------- Anderson

James Arthur Hayes --------- Greenville

Robert William Gillies ----- De Land, Fla.

James Travis Greene ----- Augusta, Ga.

Industrial Physics

Harry Carroll ------- Bamberg

George Edwin Prince, Jr. --- Columbia

Pre-Medicine

William Fitzgibbon Rutherford --- Newberry

John Rutherford Smith ------ Charleston

MINUTES OF GENERAL FACULTY MEETING

Friday, March 11, 1955

The general faculty of Clemson College met in the Chemistry Building Auditorium at 4 p.m. on Friday, March 11, 1955, with President Poole presiding.

Following the secretary's reading of the minutes of the preceding meeting and the faculty's approval of these minutes, President Poole introduced the business manager, Mr. Hamilton Hill.

Mr. Hill, with the assistance of Dean H. J. Webb and Mr. K. R. Helton, presented a number of charts which showed graphically the scope of the far-flung activities of the college in teaching; in research in agriculture, textiles, and engineering; in agricultural extension; in livestock and sanitary work; and in other fields.

A brochure containing these charts is appended to these minutes.

Among the interesting facts presented by Mr. Hill were: since 1893, 32,479 students have enrolled in Clemson College and 11,330 have graduated; 60% of these students now reside in South Carolina and 77% in the South East; there are now 1328 rooms in barracks and there are 287 pre-fabs still in use; in 1950 the college buildings contained 1,135,950 sq. ft. and in the past four years 925,000 sq. ft. have been added; the extension service reached 1,236,821 people last year; the college requested an increase of $513,000 for Collegiate Activities for next year and the Ways and Means Committee has recommended an increase of $205,000 for that purpose.

At 4:30, upon the conclusion of Mr. Hill's very informative and excellently presented talk, President Poole said that while there had been no request for an across-the-board salary increase for next year, there had been a request for an additional $97,000 for merit increases. He called attention to the fact that the legislature is faced with the problem of raising an additional $7,000,000 this year and that we should be glad that we have been treated as well as we have in the preliminary steps towards determining the amount of the appropriation which we are to receive.

At 4:35 Dr. Poole introduced Mr. K. R. Helton, who in an excellent manner gave detailed information in regard to the federal social security system.

Mr. Helton said that in a referendum on May 20 all members of the state retirement system would be given an opportunity to vote on the question of adopting a modified state-federal plan.

He took two hypothetical cases to illustrate the manner in which the proposed modified system would operate: (1) he said that under the present state plan a man whose salary was $4,200 and who retired at age 65 after 45 years of service would receive $294 monthly; under the modified plan under the same conditions he would receive $328 monthly; (2) if a man earning $4,200 retired at age 65 after 25 years of service, he would under the present plan receive $126 monthly and under the combined plan in the same circumstances he would receive a total of $203 monthly.

Mr. Helton stated that Mr. Gressette, the director of the state retirement system, would be in Clemson later in the month and would talk to the faculty.
In answer to a specific question, Mr. Helton said that an over-all view led him to conclude that it would be wise to adopt the proposed plan.

Dr. Poole then asked that faculty members begin to think of ways in which they might best serve the interest of the state of South Carolina and stated that he planned to send out a questionnaire on the subject in the near future.

After some announcements by Mr. Metz in regard to High School Visitation Day, which was to be held on the next day, March 12, the meeting was adjourned at 5:30 p.m.

Respectfully submitted,

J. C. Green, Secretary
Clemson Grows with South Carolina

Clemson's Activities Cover the Entire State
This Brochure Is Prepared To Show
THAT THE ACTIVITIES AND USES OF
CLEMSON COLLEGE

Grow

☆ IN THE EDUCATIONAL FIELD
☆ IN THE INTEREST OF AGRICULTURE
☆ IN INDUSTRIAL DEVELOPMENT

Along With The Growth of

South Carolina

Through Clemson's

☆ TEACHING
☆ RESEARCH
☆ EXTENSION SERVICE
The following statistical data present graphically and in brief form the activities of Clemson College as they relate to the welfare and progress of South Carolina.

Many people think of Clemson College as an institution teaching only the art of scientific and technological education. However, its research in the fields of agriculture, industry, textiles, engineering, physics, chemistry and ceramics, affects to some degree the majority of the people of the state. In recent years South Carolina has enjoyed a tremendous growth industrially and agriculturally and technically trained graduates from Clemson College engaged in these fields have contributed immeasurably to this growth. Clemson is the Land-Grant College of South Carolina, the state institution through which the Federal Government cooperates in teaching, research, and extension, and it is pledged to promote the agricultural and industrial development of our state. I feel we are fulfilling this obligation as the past year bears out the fact that more than one-half the population of the state sought Clemson for education, research, or extension service. Such service ranged from a telephone call for advice to a four-year course of educational instruction. Clemson serves the farmer, the farm youth, the urban dweller, the industrialist, and people from all walks of life.

Included in the graphical information are the budget requests.

Sincerely,

January 1955

R. F. Poole, President.
CLEMSON COLLEGE is open for teaching every month in the year.

**State Appropriation for 1954-55**: $211,711.00

**State Appropriation Requested for 1955-1956**: $241,262.00

**Increase Over 1954-1955**: $29,551.00
The General Faculty of Clemson College met in the Chemistry Building Auditorium at 4:30 p.m. on Friday, June 3, with President Poole presiding.

Following the reading by the secretary of the minutes of the preceding meeting, Mr. Metz, the Registrar, called attention to the preliminary list of candidates for degrees and a revision list, copies of both of which are appended to these minutes.

Dean Jones, of the School of Agriculture, moved that the preliminary list from his school, as amended by the deletions on the revision sheet, be approved. It was so voted.

Dean Kinard moved that the amended list as further amended by the deletion of the name of Mr. J. M. Tuten, Jr., be approved. It was so voted.

Dean Hunter moved that his list be approved in its original form. It was so voted.

Dean Washington moved that the list from his school as amended by the revision list and further amended by the addition of the name of Mr. T. M. McMillan be approved. After some explanation and discussion it was so voted.

Dean Sams, of the School of Engineering, moved that his preliminary list, including the four names on the "Temporary Retention List" and amended by the removal of the five names on the deletion list be approved.

Dr. Allan Berne-Allen, Head of the Chemical Engineering Department, stated that his department had voted unanimously not to recommend that one candidate, Mr. J. T. Moyd, be given his degree since he had failed to meet the full requirements but that his department's recommendation had been overridden by the faculty of the School of Engineering.

Dean Sams, after reviewing Mr. Moyd's case, which involved attendance at two other schools and being drafted into the army, stated that Mr. Moyd had fallen short of the old requirements by only three grade points and that the School of Engineering with only two members dissenting had voted to award Mr. Moyd his degree. Dean Sam's recommendation was then approved.

Deans Brown and Webb moved that the amended lists from their respective schools be approved. It was so voted.

Dr. D. C. Sheldon, Chairman of the Committee on Scholarship and Honors, moved that the Norris Medal be awarded to Mr. Allston T. Mitchell. It was so voted.

Dr. G. E. Bair asked the President if he would make a statement in regard to the present status of the Kress Fund. Dr. Poole stated that in past years a surplus of $75,000-$90,000 had accumulated and that last year the Trustees had
voted to apply the surplus to furnishing the newly constructed student center. He said that all projects which had been approved would receive their allotments from the proceeds of the next payment of interest.

Mr. Metz called attention to details of the commencement exercises to be held on Sunday, June 5.

Dr. Poole again referred to a questionnaire that he planned to send to members of the faculty and said that he wanted them to be thinking how as individuals and as groups they might serve the best interest of the State of South Carolina. He invited them to come to his office at any time, thanked them for what he considered a successful year's work, and extended best wishes for the summer.

The meeting was then adjourned at 5:35 p.m.

Respectfully submitted,

Joe C. Green, Secretary
Revision of Preliminary List of Candidates for Degrees

Candidates for Bachelor's Degrees

1. Honor Graduates:

The final cumulative grade point ratio list of honor graduates supersedes the footnotes concerning honor graduates on the preliminary list.

2. Addition to Printed List:

School of Textiles
Claude Albert Graves, Jr. ----------------- Textile Engineering

3. Temporary Retention on Printed List:

School of Arts and Sciences
James Maner Tuten, Jr. ----------------- Industrial Physics

School of Education
Terrell Maurice McMillan ---------------- Vocational Agricultural Education

School of Engineering
Charles Glenn Crafton, Jr. --------------- Civil Engineering
Roy Bronson Jeffcoat ------------------- Architectural Engineering
Jack Tompkins Moyd --------------------- Chemical Engineering
George Legare Porcher ------------------ Architecture

4. Deletions from Printed List:

School of Agriculture
Charles Shaw Maloney ----------------- Dairy

School of Arts and Sciences
John Robert Cooper ------------------- Arts and Sciences
James Joseph Dotson ------------------ Arts and Sciences
John Charles Talbert ------------------ Arts and Sciences

School of Education
Joe Watson O'Cain --------------------- Vocational Agricultural Education

Clemson College Faculty Meeting

August 12, 1955

The Clemson College faculty met at three o'clock on the afternoon of August 12, 1955, in the Chemistry Auditorium. Dr. R. F. Poole, President, presiding. The principal order of business was approving the candidates who were to be graduated from the College on August 13. Dr. Poole presented Mr. Metz, who noted the temporary retentions and deletions from the printed list of candidates for graduation. Dean Farrar for the School of Agriculture, Dean Hunter for the School of Arts and Sciences, and Dean Washington for the School of Education presented the candidates from their Schools, and they were approved.

Dean Sams presented the candidates from the School of Engineering and informed the faculty that Mr. Richard Stokes Quattlebaum, a major in Agricultural Engineering, a curriculum administered jointly by the Schools of Agriculture and Engineering, was being recommended for graduation by the School of Agriculture and was not being recommended for graduation by the School of Engineering. It was moved and passed that all the candidates from the School of Engineering, with the exception of Mr. Quattlebaum, be approved. The faculty then discussed the Quattlebaum case at some length. It appeared that under the old system Mr. Quattlebaum had an excess of grade points, under the alternate system he lacked a few, and under the new system he lacked twelve. Various faculty members expressed opinions on the matter or asked for additional information. References were made to faculty action on similar cases at the recent June graduation. It was also brought out that the School of Textiles might have a graduate at this commencement similar to Mr. Quattlebaum.

Dean Brown of the School of Textiles then presented the candidates for graduation from his School. The Textile faculty had deleted the name of Mr. Earle McCall Moore and retained that of Mr. Ralph Bernard Prince in their recommendations. It was moved and passed that the candidates from the School of Textiles, with the temporary deletion of both Mr. Moore and Mr. Prince, be approved.

Information from the Registrar’s office on the June candidates having been secured, the faculty returned to a consideration of Mr. Quattlebaum. After further discussion, it was moved and passed that Mr. Quattlebaum be approved for graduation.

Mr. Ralph Bernard Prince was then approved from the School of Textiles. Dr. Poole ruled that unless the faculty reversed the recommendation of the School of Textiles that Mr. Moore be deleted from the list of graduates their recommendation would stand.

Dean Webb presented the candidates for Master’s degrees and they were approved.

A list of all the candidates approved for graduation is attached to these minutes.

Dr. Poole thanked the faculty for its summer’s work, spoke of the College’s having adopted the regular ROTC program, and referred to the report on the College recently completed by the survey team of Cressap, McCormick and Paget and the availability of this report to the faculty for reading.
Dr. Poole then called on Dean F. M. Kinard, Dean of the College, who made some observations on that part of the survey team's report which particularly related to the faculty. Dean Kinard explained that he hoped to go into these matters in more detail when the entire faculty was assembled in September.

The meeting was adjourned at four o'clock.

Respectfully submitted,

Claud B. Green
Acting as Secretary

CBG: dm
Minutes of the General Faculty Meeting
Tuesday, Sept. 6, 1955

The general faculty of Clemson College met in the College Auditorium on Tuesday Sept. 6, 1955, at 4 p.m., with President Poole presiding.

Following the reading by the secretary of the minutes of the June and August meetings, the President spoke a few words of welcome and then referred to the recently submitted report of the Cresap, McCormick, and Paget group of consultants. He stated that the purpose of their study was to find ways to economize and to operate the college more efficiently.

He stated that, following the recommendations in the report, there were now only four top officials responsible directly to him.

He then introduced the first of these, Dr. F. H. Kinard, Dean of the College, who proceeded to introduce the Deans of the various schools.

Dean Farrar, of the School of Agriculture, announced that Mr. George B. Nutt had been made Director of Extension and Dr. G. H. Collings had been made Head of the Agronomy Department. He called attention to the fact that Professors Lazar, Wheeler, Reed, and Godley had received their Ph.D. degrees during the summer and then introduced the new members of his staff. A copy of the recent additions to the staff is appended to these minutes.

Dean Hunter, of the School of Arts and Sciences, announced that Dr. Schirmer had been made Head of the Department of Chemistry and Geology and Dr. Trevillian Head of the newly organized Department of Industrial Management. He stated that two members of his department, Professors Webb and MacIntosh, had received their Ph.D. degrees during the summer and then introduced the new members of his staff.

Dean Washington, of the School of Education, stated that he had no additions to his staff.

Dean Sams, of the School of Engineering, stated that Prof. H. E. McClure had been made Head of the Department of Architecture and Dr. C. E. Littlejohn Acting Head of the Department of Chemical Engineering. He said that Professors Cook, Adams, and Moorman had received their Ph.D. degrees during the summer and then introduced the new members of his staff.

Professor McKenna, in the absence of Dean Brown of the School of Textiles, stated that there were no additions to the faculty of that school.

The President then introduced the second of the four new top officials, Mr. Walter Cox, Dean of Student Affairs, who stated that Mr. D. G. Hughes had been put in charge of student aid and placement, that the registrar's office, the student health center, the Y.M.C.A., the athletic department, and the student center would be under his supervision. He asked the faculty's cooperation in his many duties. He stated that he would serve as coordinator between the college and the military department also and then introduced Col. K. E. Carpenter, acting for Col. Tull, and Col. G. A. Douglas, who introduced the additions to their respective staffs.
President Poole asked for the faculty's cooperation with Mr. Cox, and then introduced Mr. G. E. Metz, who had recently been appointed Secretary of the Board of Trustees and Assistant to the President. Mr. Metz spoke of his many duties, which included being secretary of three councils, educational, administrative, and plans and development.

The President then introduced Mr. M. A. Wilson, the new Comptroller, who spoke about the work of the seven divisions under his supervision: physical plant, purchasing, accounting, auxiliary enterprises, personnel, Clemson House, budget.

Dean Kinard then spoke about his philosophy of education and said that he thought that the administration's interest in the faculty should be second only to its interest in the students. He pledged his services to the faculty and asked their loyalty, assistance, patience, and guidance. He spoke of the Trustees' interest in the problem of faculty salaries; the problem of small sections; and the problem of the increase in enrollment expected in the next 10 or 15 years.

He stated that the consultant's report made certain recommendations regarding the faculty and then announced the appointment of an ad hoc committee composed of Professors Schirmer, Cook, Gage, Goodale, J. E. Miller, and Bowen. The function of this committee was outlined as follows: "To formulate recommendations on the organizations, functions, and legislative powers that might be approved for the general faculty, subject to the approval of the faculty, the President, and the Board of Trustees,"

Dr. Poole stated that certain funds had been restored to the Kress fund. He announced that the graduate program was now under the direction of Dean Kinard. He extended to the faculty and their wives an invitation to attend the wedding of his daughter, Marcia, on Sat. Sept. 10, at 6:30 p.m.

Mr. Metz announced that the freshman reception would be held on Thursday Sept. 8 from 7 to 9 p.m. at the Student center; the faculty reception on Thurs. Sept. 15 from 8 to 10 p.m. at the Clemson House; and the first convocation on Monday, Sept. 19 at 11 a.m. in the amphitheatre. He stated that tickets for the concert series were available in the President's office. He then introduced Mr. J. B. Cooper, President of the Sage Club, who invited new faculty members to the next meeting of the club to be held on Tuesday, Sept. 20.

The President called attention to the number of faculty members absent from the meeting and asked that in the future the faculty make a greater effort to attend all regular meetings and special convocations, especially such occasions as Honors' Day observances.

The meeting was then adjourned at 5:30 p.m.

Respectfully submitted,

GRADUATING EXERCISES

August 13, 1955

CLEMSON, SOUTH CAROLINA
ALMA MATER

Where the Blue Ridge yawns its greatness

Where the Tigers play;

Here the sons of dear old Clemson

Reign supreme alway.

CHORUS

Dear Old Clemson, we will triumph,

And with all our might,

That the Tiger's roar may echo

O'er the mountain height.

—A. C. CORCORAN, '19

Minutes of the General Faculty Meeting
Tuesday, Sept. 6, 1955

The general faculty of Clemson College met in the College Auditorium on
Tuesday Sept. 6, 1955, at 4 p.m., with President Poole presiding.

Following the reading by the secretary of the minutes of the June and
August meetings, the President spoke a few words of welcome and then referred
to the recently submitted report of the Cresap, McCormick, and Paget group of
consultants. He stated that the purpose of their study was to find ways to
economize and to operate the college more efficiently.

He stated that, following the recommendations in the report, there were
now only four top officials responsible directly to him.

He then introduced the first of these, Dr. F. M. Kinard, Dean of the
College, who proceeded to introduce the Deans of the various schools.

Dean Farrar, of the School of Agriculture, announced that Mr. George B.
Nutt had been made Director of Extension and Dr. G. H. Collings had been made
Head of the Agronomy Department. He called attention to the fact that Professors
Lazar, Wheeler, Reed, and Godley had received their Ph.D. degrees during the
summer and then introduced the new members of his staff. A copy of the recent
additions to the staff is appended to these minutes.

Dean Hunter, of the School of Arts and Sciences, announced that Dr. Schirmer
had been made Head of the Department of Chemistry and Geology and Dr. Trevillian
Head of the newly organized Department of Industrial Management. He stated that
two members of his department, Professors Webb and MacIntosh, had received their
Ph.D. degrees during the summer and then introduced the new members of his staff.

Dean Washington, of the School of Education, stated that he had no addition to
his staff.

Dean Sams, of the School of Engineering, stated that Prof. H. E. McClure
had been made Head of the Department of Architecture and Dr. C. E. Littlejohn
Acting Head of the Department of Chemical Engineering. He said that Professors
Cook, Adams, and Moorman had received their Ph.D. degrees during the summer and
then introduced the new members of his staff.

Professor McKenna, in the absence of Dean Brown of the School of Textiles,
stated that there were no additions to the faculty of that school.

The President then introduced the second of the four new top officials, Mr.
Walter Cox, Dean of Student Affairs, who stated that Mr. D. G. Hughes had been
put in charge of student aid and placement, that the registrar's office, the
student health center, the Y.M.C.A., the athletic department, and the student
center would be under his supervision. He asked the faculty's cooperation in his
many duties. He stated that he would serve as coordinator between the college and
the military department also and then introduced Col. K. E. Carpenter, acting for
Col. Tull, and Col. G. A. Douglas, who introduced the additions to their respective
staffs.
President Poole asked for the faculty's cooperation with Mr. Cox, and then introduced Mr. G. E. Metz, who had recently been appointed Secretary of the Board of Trustees and Assistant to the President. Mr. Metz spoke of his many duties, which included being secretary of three councils, educational, administrative, and plans and development.

The President then introduced Mr. M. A. Wilson, the new Comptroller, who spoke about the work of the seven divisions under his supervision: physical plant, purchasing, accounting, auxiliary enterprises, personnel, Clemson House, budget.

Dean Kinard then spoke about his philosophy of education and said that he thought that the administration's interest in the faculty should be second only to its interest in the students. He pledged his services to the faculty and asked their loyalty, assistance, patience, and guidance. He spoke of the Trustees' interest in the problem of faculty salaries; the problem of small sections; and the problem of the increase in enrollment expected in the next 10 or 15 years.

He stated that the consultant's report made certain recommendations in regard to the faculty and then announced the appointment of an ad hoc committee composed of Professors Schirmer, Cook, Gage, Goodale, J. E. Miller, and Bowen. The function of this committee was outlined as follows: "To formulate recommendations on the organizations, functions, and legislative powers that might be approved for the general faculty, subject to the approval of the faculty, the President, and the Board of Trustees."

Dr. Poole stated that certain funds had been restored to the Kress fund. He announced that the graduate program was now under the direction of Dean Kinard. He extended to the faculty and their wives an invitation to attend the wedding of his daughter, Marcia, on Sat. Sept. 10, at 6:30 p.m.

Mr. Metz announced that the freshman reception would be held on Thursday Sept. 8 from 7 to 9 p.m. at the Student center; the faculty reception on Thurs. Sept. 15 from 8 to 10 p.m. at the Clemson House; and the first convocation on Monday, Sept. 19 at 11 a.m. in the amphitheatre. He stated that tickets for the concert series were available in the President's office. He then introduced Mr. J. E. Cooper, President of the Sage Club, who invited new faculty members to the next meeting of the club to be held on Tuesday, Sept. 20.

The President called attention to the number of faculty members absent from the meeting and asked that in the future the faculty make a greater effort to attend all regular meetings and special convocations, especially such occasions as Honors' Day observances.

The meeting was then adjourned at 5:30 p.m.

Respectfully submitted,

Secretary
THE PRESIDENT'S OFFICE

Additions to the College Staff Since July 1, 1955

Bloss, Arnold M., Lt. Colonel, USA; B. S. Lehigh University; Methodist; Married; Clemson Homes, 8-D.

Carroll, Harry, Instructor in Physics; B. S. Clemson College; Catholic; Married; Pre-Feb 1966.

Creddock, G. R., Assistant Soil Scientist; B. S. Virginia Polytechnic Institute, Ph.D. University of Wisconsin; Christian; Married; 39-B Daniel Drive.

Guggino, Joseph G., Captain; USAF, B. S. Furman University; Baptist; Married; Clemson House temporarily.

Harris, Claude E., Jr., Captain; USAF, B. S. Oklahoma A & M; Protestant; Married; Clemson Homes, 8-B Daniel Drive.

Johnson, Grady, Jr., Assistant Agronomist; BSA University of Georgia; Baptist; Married; Central, S. C.

Johnson, James Karl, Jr., Instructor in Mechanical Engineering; M.E. Clemson College; Baptist; Single.

King, D. A., Assistant Professor of Mathematics; B. A. Hanover College, M. S. Purdue University; Presbyterian; Married; Goodman Apartments.

Landers, K. S., Instructor in Chemistry; B. S. University of Alabama, M. S. University of Alabama; Church of Christ; Single.

MacKenzie, John S., Instructor in English; B. A. University of Southern California, M. A. Columbia University; United Presbyterian; Single.

MacLean, D. G., Personnel Director; B. A. and M. P. A. Cornell University; Presbyterian; Married; Clemson Homes, 20-B Hunter Street.

McClure, H. E., Professor of Architecture and Head of Department; B.A. and B. Arch. George Washington University, Dipl. Arch. Royal Swedish Academy, M. Arch. Massachusetts Institute of Technology, Cert. Mil. Govt. Princeton University, Civil Affairs Dipl. Harvard University; Episcopal; Married; 238 Riggs Drive.

McCormac, Jack Clark, Assistant Professor of Civil Engineering; B. S. The Citadel, M. S. Massachusetts Institute of Technology; Methodist; Single.

Page, Clayton Meredith, Associate Professor of Architecture; B. Arch. University of Minnesota, Notre Dame University, M. Arch. Harvard University; Congregational; Married; 144 Riverside Drive.

Phelps, Roy L., Sergeant, USA; Methodist; Married; Trailer, Morrison Road.

Philhower, L. S., Jr., Assistant Agricultural Economist; B. S. Clemson College; Presbyterian; Single; Clemson House.

Mitchie, Paul A., Jr., Sergeant, USAF; Baptist; Married.
Spurlock, H. C., Associate Agricultural Economist; B. S. A. University of Tennessee, M. A. and Candidate for Ph. D., University of Florida; Methodist; Married; Clemson Homes, 3-D No. Palmetto Blvd.

Stamey, William, Jr., Sergeant; USAF; Protestant; Married.

Tingle, W. W., Instructor in Geology; B. S. and M. S. University of North Carolina; Christian; Married; 27-A Martin Street.

Webb, B. K., Assistant Agricultural Engineer; B. S. Clemson College; Baptist; Single; 101 Ridge Drive.

Westphal, James L., Sergeant, USAF; Protestant; Married.

Wilson, M. A., Comptroller; B. S. University of South Carolina; Graduate Work University of North Carolina and University of South Carolina; Methodist; Married; Cherry Road.

Wise, Robert C., Captain; USAF; M.S. Indiana State Teachers College; Protestant; Married; Clemson Heights.

Graduate Assistants

Barnette, V. T., Jr., Chemistry; B. S. Furman University; Baptist; Single.

Bilton, R. L., Chemistry; B. S. College of Charleston; Baptist; Single.

Fleming, M. L., Jr., Physics; B. S. Clemson College; Methodist; Single.

Gray, V. E., Chemistry; B. S. Guilford College; Wesleyan Methodist; Married; No. 2 New Brick Apts.

Herbert, T. J., Jr., Chemistry; B. S. Wofford College; Presbyterian; Single.

Howell, R. E., Entomology; B. S. North Carolina State College; Baptist; Married; 9-E Daniel Drive.

Keller, L. J., Jr., Chemistry; B. S. College of Charleston; Presbyterian; Single; Dormitory.

Morgan, Harvey Eugene, School of Education; B. S. Clemson College; Methodist; Married; 324 Clemson House.

Sellers, E. E., Chemistry; B. A. Erskine College; Presbyterian; Married; No. 6 New Brick Apts.

Continued
Sutton, William, Jr., Chemistry; B. A. Elon College; Congregational Christian; Married; No. 9 New Brick Apts.

Tilley, D. U., Textiles; B. S. Wake Forest College; Baptist; Married; Pre-Fab No. 103.

Vazopolos, Steve, Chemistry; B. S. New Bedford Institute of Textiles and Technology; Greek Orthodox; Single.

Westendorff, C. G., Jr., Chemistry; B. S. College of Charleston; Catholic; Married; 89 Morrison Rd.
