The Victorious Junior Foot-Ball Team.

History of '08 Foot-Ball Team

The history of the '08 foot-ball team, while in Prep, is shrouded in obscurity, as very few members of the present Junior Class entered College in Prep.

Although the coach for the team in the Freshman Class had only raw material to work upon, he got out a strong aggregation, which, though rather light, piled up a score of twenty-eight to the Preps zero. The final game of the season was with the Seniors, who defeated the Freshmen by the score of twenty-three to zero. The Seniors that year had a very heavy and well-trained team, and while the Freshmen also had a good team, they were outclassed by their heavier opponents. Although the team did not bear off the coveted laurels of victory, the players awoke to the realization that they could play ball, and the foundations of a strong Sophomore team were laid. The team was coached by Slattery of the Senior Class, Means being the Manager.

It is probable that the '08 eleven had to light harder while in Soph than in any other class. Both the Seniors and the Preps had good teams, and while the Sophomores had by far the lightest team, they were quick and sure. In a hard fought game with the Preps, the Sophomores won by the score of twelve to zero. The season ended with what was perhaps the most spectacular class game ever played on Bowman Field. In this game the crack Senior eleven failed to score, while the Sophomores left the field with five points in their favor. Derrick, of the Varsity squad, coached the team, and Warren was manager. As a result of their excellent work on the Sophomore team, Cannon, Caughman, and (Continued on Page 2, Col. 2)

Practice Soon to Begin. A Promising Season.

The career of the Clemson Track Team has been so brief that it can hardly be dignified by the name of history. With the exception of a few spasmodic efforts put forth during the early years of the existence of the College, nothing was done to organize and develop the track team until the spring of 1905.

Even then it was a team without a track. Yet the boys enthusiastically sprinted down the roads, hurdle on the walks and jumped around the edges of the foot ball field. Only two or three of the men had ever taken part in any athletic contest; and, to add to the other disadvantages, the coach was obliged to be away from the campus for ten days in the middle of the season. Nothing daunted, Captain McVey and Manager Wyse took the team to Athens for a meet with Georgia. We found the Georgia boys, like the Greek lads of old, fleet of foot. They ran clear away from us from the beginning. The cinder track was such a novelty to the Clemson men that the feet of the visiting runners lingered too long on it for them to secure even a place in most of the races. A majority of our points were scored in the field events. The final score—well, we have made it a point to forget that.

Notwithstanding the disastrous season of the previous year, seventy candidates for the Track Team appeared at the beginning of the season in 1906; and, in spite of many drawbacks and discouragements, thirty men finished the season. Why is it that the interest was continued, and why was it worth white to overcome the difficulties
and establish a track team in a college where a football and baseball team already existed, and where drill was compulsory? These questions can easily be answered.

Aside from the comparatively small number of men who compose a ball team, there are certain requirements which every member must have. A man may be a good fielder and poor at the bat, or vice versa, and fail to make the baseball team. It also takes a certain type of man to play football. Every normal man can do something on the track. The dashes, the long runs, the hurdles, each call for a different type of runner. For the muscular man, there is the hammer and the shot. Others are better adapted for the jumps, or the pole vault. There are so many chances to succeed and to find one's self that track work is bound to appeal to a large number of men.

Although Manager Heyward put forth every effort to make a good schedule last year, but one meet was secured—the return trip with Georgia. What need to tell of that meet? The boys had trained faithfully and well. Although very few men of the old team were again with us, we had much good material. Dr. Mell, who has always shown himself a captain in the South, and the Clemson boys already existed, and the college where a football and baseball team already existed, and where drill was compulsory? These questions can easily be answered.

Below is given a list of the class of '98, with their present occupation and addresses, as correctly as can be obtained:

Bryan, A. B. (A) Asst. Professor, English, Clemson College, S. C.
Garris, J. S. (A) Died Nov. 28, 1903.
Gentry, C. W. (A) Physician, Enoree, S. C.
Hallum, R. T. (A) Veterinarian, U. S. Army, Fort Leavenworth, Kansas.
Hook, J. H. (M) Asst. Professor, Woodwork Division, Clemson College, S. C.
McFadden, W. H. (A) Southern Power Co., Great Falls, S. C.
Mahaffey, C. B. (M) Electrical Engineer for various enterprises, Colorado Springs, Col.
Minus, J. P. (A) With Union Packing Co., Waldeck Branch, St. Louis, Mo.
Sarratt, W. J. (A) Traveling headquarters at Atlanta, Ga.
Smith, J. B. (A) Teaching, Smoaks, S. C.
Spencer, R. L. (M) Dentist, Benettsville, S. S.
Swygart, G. H. (M) Electrical Draughtsman, Navy Dept., Washington, D. C.
Walker, T. J. (M) With W. F. Fortick, Traveling, Columbia, S. C.
Wiggins, G. (A) Farming, Holly Hill, S. C.

The Schenectady Club has at present the following officers and members:

President, P. G. Langley (’96); Secretary, V. Baker (‘04); Members: P. H. Adams (’96), T. F. Barton (’06), W. S. Baskin (’06), W. Beckett (’06), M. L. Elder (’06), T. S. Gandy (’03), A. A. Gandy (’05), W. A. Holland (’03), G. B. Holland (’06), S. P. Harper (’06), R. L. Link (’05), J. Maxwell (’04), G. W. Melver (’04), C. C. Schirmer (’05), W. F. Sneed (’02), H. W. Schumpert (’06).

The editor of this department requests all members of the Alumni Association to notify him of any incorrect statements concerning addresses or positions which from time to time appear in The Tiger.

Items From Other Colleges.

Carolina claims a good prospect for her baseball team this season. Mid-term examinations were completed on Friday, Feb. 21st; and ball practice started in earnest the following Monday, under the direction of Capt. Gildes, an old Carolinian alumnus. The schedule consists of a trip to all of the principal colleges in the state, commencing with Clemson on March 30th and also a series of games to be played in Columbia.

We hear that Newberry has practically her whole team back this year, besides some excellent new material. This means that Newberry will again put out a strong team.

Trinity has seven of her old nine back this season, and her prospects for a strong team are fine. She plays Clemson at Charlotte on March 4th.

The North Carolina student Y. M. C. A. conference met at Trinity, the 15th-18th of this month, and Mr. Legate, our General Secretary, was present to lend his assistance.
Clemson's coach for the baseball season has been here now about a week. He is hard at work with the scores of boys who come out every afternoon to the practice; he is watching closely the material from which the Tiger team is to be chosen in order that the very best material may be selected.

At this early date, only the most observant and most experienced can foresee who will have the honor of representing Clemson on the diamond this season. Even the scrutinizing eye of the experienced does not see the whole team as it will be. Unforesseen developments can but be expected. Sparred on by this fact, and by the enthusiastic, exciting energy of Coach Shaughnessy, a large squad is on the field working with a vim; and they all have hopes.

As to the outcome of the approaching season, so far as Clemson is concerned, the result is only a vague surmise. Yet, conservative hope exists; and this hope is higher than it once was. Clemson promises to be a worthy opponent in the approaching baseball contests.

Owing to the lack of space in The Tiger for all the material sent to the publisher, the leaders of the last issue, as well as the account of the Fresh-Prep games, were omitted. We regret that these omissions were made.

The Seniors are now busy upon their theses. Wherever they are assembled one can hear, commingled in hopeless confusion, discussions of the relative value of stock feeds, cloth design, strengths of materials, and slots and armatures.

Locals

Some of Interest to You: Some Not.

The postoffice is now in new quarters, and every one expresses himself as being delighted with the new building. Dr. P. H. Mell suggested the following schedule which has been put into operation:

Mails from the north, arriving at 9:05 a.m., 12:35 p.m., and 3:30 p.m.

Mails from the south, at 12:35 p.m. and 3:30 p.m.

Sunday mails come from trains arriving at 9:05 a.m., 12:35 p.m., and 3:30 p.m.

The members of the Baptist denomination at Clemson went to work several weeks ago to get subscriptions for the building of a church here. They worked with such zeal that they soon secured enough to insure the erection of an attractive and commodious building.

The repairing of the road between the textile building and Mr. Clinkscales' store was indeed a great improvement to the campus. We now suggest that the board of health improve the conditions in the vicinity of the stores.

Dr. F. H. H. Calhoun, who is in charge of the gymnasium, has made several additions to the equipment. He is doing splendid work with his men and will give a public exhibition sometime in March. Professor Calhoun is also in charge of the track team. Some field practice has already begun. Prospects are indeed promising.

Prof. D. W. Daniel has recently been appointed a colonel on the Governor's staff.

The Junior Tennis Club has made a pretty count on the north side of "Old Barracks." Machinery for the new power house has arrived and is rapidly being installed. This installation is of much interest to the mechanical students, and they frequent the station during vacant and recreation hours.

Miss Katharine Cox, of Cornelia, Ga., has been visiting her cousin, Mrs. A. B. Bryan.

Miss Rast, of St. Matthews, is visiting her sister, Mrs. Tucker.

Miss Pearl Smith, of Chico College, has been the guest of Miss Helen Brackett.

Miss Godfrey, of Greenville, S. C., has been visiting Mrs. R. E. Lee.

Professors Morrison, Harper and Doggett, who have been with the Clemson car, arrived several days ago.

Major Sloan (in Literary Society): "Mr. President, I move that we get a gravel" (gavel).

Professor McSwain: (at show)

"That curtain is made of asbestos."

L. Gardner in the drawing room:

"This is a mighty hard eclipse (ellipse) to draw."

Cast: Freshman, Sophomore and others.

Fresh—"How come those tomato skins in that pitcher of water?"

Soph—"That's not water; that's soup."

Senior S. wants to know what becomes of the electricity that is cut off from the generator when a switch to a load is opened.

Mr. C. C. McDonnell, who has for a number of years been connected with the Department of Chemistry at Clemson, has accepted a position with the Bureau of Chemistry in the Department of Agriculture at Washington.
THE 1907 ANNUAL.

The Annual of the present Senior Class promises to be the best yet gotten out at Clemson College. The staff is a strong one, and the work of the literary and the art editors has been high grade. The management has been businesslike and eminently successful. In consequence of this fact, the very best workmanship and the very best materials will be employed.

The cover to the Annual will be of a very pretty and unique design. It will be made of the best grade of cadet gray cloth. Diagonally across the cover, in the characteristic script, will be the word “Clemson,” the letters being blue to carry out with the gray of the cloth, the class color scheme. In the right lower corner of the cover will be artistically inserted the college colors. The Annual will have a pretty clasps made of a little Clemson button.

The management is desirous of making the circulation of this publication as large as possible. If you desire a copy, see or write to Mr. F. M. Stephenson or Mr. A. B. Taylor at once. They will be delighted. You will not regret it.

SENIOR NOTES.

For Seniors, this is perhaps the busiest time of year. From now until June they will be busy with their theses. All of their Saturdays and most of their vacant hours will be given to the work; and, as a result, much practical experience, as well as much scientific knowledge, will be gained.

At a recent class meeting, a class ring was adopted. The design submitted by the committee, which design is a combination of the 1905 and 1906 rings, was adopted unanimously. Heretofore, attempts have been made to establish a standard Clemson ring, but all efforts thus far have met with failures. Special pains has been taken in the selection of a ring which will be neat and striking in design, and which will at the same time be characteristic of the State and the college. It is hoped that the design selected will prove satisfactory to future classes, and that it will be adopted as the Clemson ring. If this is done, the Clemson ring will be known at sight, just as the standard rings of many of the larger colleges, and the badges of the various lodges and societies are known.

The Senior Privates, under the command of Captain Robert A. EASTERLING, are now learning the Hospital Corps drill. As soon as the new litters and other accoutrements arrive, they will begin the practice of “The First Aid to the Injured.”

“Judge” Moore is still in Green ville, where he is installing a creamery. We wish him much success in this enterprise.

The Lyceum Comedy Company played an engagement for the benefit of the 1907 Annual. Manager P. M. Stephenson and his assistants have done a telling work for this college publication. It bids fair to be one of the best published by the students of a Southern college.

PALMETTO LITERARY SOCIETY.

At the last meeting of the Society, a very spirited debate was carried on. The query was one relating to the President’s recent action in the dismissed of the negro troops in Texas. The debate was a vigorous one, and many good points were brought out on both sides. Although some of the discussions were very short, they were nevertheless full of thought and exactly to the point. This was especially true in the talk by Mr. Bill Hawley.

After the regular Friday night program was carried out, it was voted that the officers be elected to serve during the succeeding term. The following were the members elected: President, Mr. Lemon; Vice-President, Mr. Curtis; Secretary, Mr. Shuler; Treasurer, Mr. Pratt; Censor, Mr. Gee, P. M.; Literary Critic, Mr. Nichols; Prosecuting Critic, Mr. Wood; Reporting Critics, Messrs. Gee, W. P. Thomps, W. A. Brunson, and Bond; Sargent at Arms, Mr. Hutchins.

Several meetings ago a motion was made that the society be reorganized. This motion was carried and a committee was appointed to look into the cost of curtains and draperies. The committee has since looked into the matter and will be ready to report at the next regular meeting of the Society.

Owing to conflicting circumstances, the society has not been able to hold its meetings for the past three weeks. The same exercises, however, will hold good; and an excellent debate is expected of the members, as they have had ample time to prepare themselves.

JUNIOR CLASS.

An informal dance was given by the Junior Dancing Club in the gymnasium hall, Friday evening, February twenty-second.

C. W. BUSCH, of Aiken, has gone to his home, whence he will go to Fort Worth, Texas, to accept a position with his brother.

Through an oversight, L. O. Watson’s election as Secretary of the Junior Class to succeed J. E. Lunn, who went home because of sickness before Christmas, was not mentioned in a previous issue.

Ever see “Rube’s” new Ryoautomobile? It is certainly a wonder—1907 style, with all improved motor car equipments. It has a ten H. P. double-cross opposed, composed Corliss, four cylinder “Hat Power” engine. It was constructed of an old two-seated open carriage, with an empty beer keg in front to serve as a gasoline tank; it has a broken alarm clock for a headlight. “Rube” is certainly due praise for his ingenuity in the construction of this wonderful machine. The crank attachment consists of a perforated paddle, which serves as a powerful stimulus to the motor power.

THE CALHOUN SOCIETY.

The meeting of Feb. 8th was very well attended; but of the few absentees, four were men on duty.

After the reading and adoption of the minutes of the last meeting, Mr. Sherard was installed as our corresponding secretary. In the absence of Mr. Folk, Mr. Crawford was appointed to act as literary critic.

The regular exercises were then taken up. And they were as good as could be expected, considering the number of absentees. The debate on the Brownsville affair was hotly contested, and a number of good points were brought out by each side. That the debaters up-
held their sides of the question well, is shown by the wide difference of opinion among the members, and by the fact that the judges decided in favor of the affirmative; and the house, in favor of the negative.

As the Lyceum Comedy Company was playing an engagement here on the 15th, no meeting was held at that time; and as the Palmetto Society contest takes place on the 22nd, the next meeting will not be held until March 1st, unless a short one is held on Saturday for the appointment of certain committees which are immediately necessary.

For several reasons Mr. Plenge has decided to decline the election as orator in the coming contest, and this place will probably be filled by Mr. Sherard, who had intended volunteering but was absent at the time the contestants were chosen.

SOPHOMORE NEWS.
Our Class was lately very highly honored by Doctor and Mrs. R. N. Brackett, by the gift of a large box of delicious cake. It has been the custom of Doctor and Mrs. Brackett to show some courtesy to the Sophomore class every year, and we assure them that the present class very much appreciates their kindness and thoughtfulness.

Base-ball and truck team practice is now the order of the day. We expect to have a good many representatives take prominent parts in both of these sports. We have several men among us who, we know, can play good ball; and we are sure that they will “make good” during the coming season. Our class furnished some of the best members of our varsity football squad in the season just closed, and we shall be surprised if we are not able to claim at least two or three men on Clemson’s nine. Last year several of our members did fine work on the track team; and while one of the best has left us, the others are still here, and we look to them to uphold the reputation which the class has made in that line.

H. K. Sanders, of Chester, was recently called home on account of the death of his father, and will not return to college. The whole class extends its sympathy to him in his bereavement. Sanders was
our Historian, and we are sorry to
see him.

G. W. Keitt had a very good poem
in the last issue of the “Clemson
College Chronicle,” and a drawing
of Clemson’s far-famed “Tiger with
long and shaggy hair,” which illus-
trated the condition of our various
opponents after they had met this
vanquishing foe. The University
of Georgia, Tennessee, Georgia
Tech, including the latter’s wonder-
ful “Lobster” were all present, and
all seemed to have shared the same
fate. This is a good piece of work;
and since our class is already think-
ning of the ’09 Annual, we are glad
to see evidence of such talent
among us.

FRESHMAN CLASS PROS-
PEC T S.

Our prospects for having a good
many men to represent us on the
different athletic teams are very
bright at present. We have, from
last year’s baseball team, McFad-
den, who is an all-round athlete,
and who will, no doubt, again play
Varsity ball. Fetner, while a new
man is, showing up well. He did
dine work on a local Columbia team
last season, and we expect to see
him make a successful college play-
er. Besides these, we have several
others who are trying for the team,
whose playing is very promising so
far.

We are sorry to say that there
are not many of our class who are
trying for the track team. This
should not be so; a large number
from each class ought to go out
and at least do their best. If one
tries and fails, no harm is done;
for exercise certainly hurts no one.
A. F. Simpson, of Laurens, has
left college to accept a position at
his home. We wish him success.
G. F. Cassels met with a very

painful accident while he and a friend were playing with a bayonet. The bayonet stuck in the calf of his left leg, passing entirely through. He is, however, able to walk, and will soon be all right.

COLUMBIAN LITERARY SOCIETY.

On account of the shows for the benefit of the '07 Annual, the Columbian Society did not meet last week; but the exercises on Friday night, March 1st, promise to make up for all lost time. There will be a big campaign meeting to which every body is invited, especially the ladies of the “Hill” and the members of the faculty.

D. B. Peurifoy has announced his candidacy for Governor, and will run on the Local Option ticket. Mr. Peurifoy is at home on the stump, and is a very forcible speaker. C. W. Wannamaker of St. Matthews, who also stands high in the eye of the public, will oppose him. Mr. Wannamaker stands flat footed on the prohibition platform. H. W. Moore will oppose H. W. Riser for Lieutenant Governor; he has not yet announced his plat form, but it is believed by all who know him that he will favor the State dispensary.

Mr. Carter announces his candidacy for the Senate, and will fight emigration “from the word go,” while his opponent Mr. W. P. Sloan is going to “put up a spiel” on good roads.

Mr. J. C. Clark of Marion, who is a very eloquent speaker, will enlighten the minds of the public with his ideas of education. The candidate to oppose Mr. Clark for Superintendent of Education is Mr. “Heavy-weight” Hughes who is from Edgefield, and who is a shrewd politician.

Mr. F. J. Crider and J. S. Wessinger will be in the race for the Legislature. Both of these are men of good reputation, and of noted forensic ability.

For Coroner, Mr. Fike will oppose Mr. Covington. It is hard to say which stands the best showing. Mr. Covington is considered the best man morally, but Mr. Fike is a fluent speaker and a good politician.

Mr. Tolbert, the chairman, guarantees a sober crowd and good order.

THE == CLEMSON == CAFE
