The general faculty of Clemson College met in the Chemistry building auditorium on Friday, January 26, 1951, at 4 p.m., with President Poole presiding.

Following the reading by the secretary of the minutes of the preceding meeting, Deans Cooper, Hunter, Washington, Sams and Brown moved that the appended lists of candidates for degrees, as amended by the appended lists of deletions, be approved. Dean Kinard stated that by a vote of the School of Arts and Sciences and with the concurrence of the dean of the other school concerned, Mr. O. N. Thompson had been permitted to make a substitution for a one-hour laboratory course in botany. He therefore asked that Mr. Thompson's name be removed from the list of deletions and restored to the list of candidates and that the list, as amended by the amended deletion list, be approved.

Dr. Webb, Chairman of the Graduate Committee, after stating that two names had been removed from the list of candidates for the Master of Science degree because of failure to complete requirements, moved that the Master of Science degree in Chemistry be awarded to Mr. Allen Ridley Slone of Pendleton; the Master of Science Degree in Education to Mr. Carl Dewel Boggs of Seneca and to Mr. George Smith McKenzie of Mullins; the Master of Science degree in Textile Chemistry to Mr. Mohammed Hafiz-ul-Islam of Rajshahi, East Pakistan.

All of these motions were approved without comment.

The Registrar, Mr. G. E. Metz, announced plans for graduation exercises to be held in the Field House on Sunday January 28 at 11:30 a.m., and called attention to the list of honor graduates and other information contained in the material which had been distributed and is appended to these minutes.

The Commandant, Col. Cookson, stated that at the present time all R.O.T.C. students were being deferred and being given the right to choose the branch of service which they wished to enter.

President Poole stated that present feeling in Washington seems to favor enlarging the R.O.T.C. program and giving special consideration to the nine essentially military colleges, of which Clemson is one.

He said that the College was asking for an increased appropriation in the hope that salaries might be raised.

He again referred to the Clemson House project and asked that the faculty support it, at least to the extent of sending their friends there. He said that alumni and friends had contributed $50,000 toward furnishing the building and that from present indications it seemed that the debt on the entire project might be amortized.
In speaking of contributions to the college during the year, he said that the contractor of the building project, Mr. C. E. Daniel, had saved the college a large sum by carrying the debt personally until a change in financing could be arranged from government to private sources.

He called attention to the large amount in equipment and funds which Dean Brown had been able to secure for the School of Textiles and expressed the hope that contributions might be secured toward furnishing the new Chemistry building now nearing completion.

He asked the faculty to keep their troubles and complaints within the faculty circle and to bring rumors to him on the promise that he would give them the truth as far as he knew it.

He asked the faculty to make use of the Kress fund for research; again praised the work of the new counselling program; and asked support for the Religious Emphasis program to be held February 6 - 9.

The meeting was adjourned at 4:45 p.m.

Respectfully submitted,

Joseph C. Green,
Secretary

REVISION OF PRELIMINARY LIST OF CANDIDATES FOR DEGREES

1. **Deletions from list:**

The preliminary list of candidates for graduation is revised by deleting the names of the following candidates:

**School of Arts and Sciences**
- William Weldon Clardy — Arts and Sciences
- Oscar Newton Thompson — Arts and Sciences
- John Iver Howell, Jr. — Pre-Medicine

**School of Engineering**
- Royall Edward Norton — Architectural Engineering
- Roger Odom Courtney — Civil Engineering
- James Théodore Thompson — Electrical Engineering
- Robert McDow Duncan — Mechanical Engineering
- Elbert Hines Hamilton — Mechanical Engineering
- Jodean Jolly — Mechanical Engineering
- William Douglas Lockman — Mechanical Engineering
- Charles Dean Veal — Mechanical Engineering

**School of Textiles**
- Ralph Lynn Pruette — Textile Engineering
- Billy Wynne Davis — Textile Manufacturing
- Gerald Alton Lovell — Textile Manufacturing
- Jennings Luther Lyons — Textile Manufacturing
- Calvin Benjamin Sanders — Textile Manufacturing
- St. Clare Blackwelder Smith, Jr. — Textile Manufacturing
- Kirby Clarkson Wise — Textile Manufacturing

ANNOUNCEMENTS

1. Graduating Exercises

All faculty members are invited to march in the procession at the Graduating Exercises at the Field House on Sunday. The exercises begin at 11:30 a.m. and those in the procession are asked to meet in the Little Gymnasium not later than 11:15 a.m. Chairs will be reserved for the faculty in the section just in back of the candidates for degrees.

2. Orange Bowl Pictures

The Orange Bowl Movies will be shown in the Chapel at 7 p.m. and again at 8 p.m. on Thursday, February 1. All faculty members and people of the community are cordially invited to attend.

3. Registration Hours

New students will register for first semester freshman subjects from 11 a.m. to 12 Noon Thursday, February 1 (instead of from 12 Noon to 1 p.m. as previously announced). Upper classmen will register from 1 p.m. to 5 p.m. February 1 and from 8 a.m. to 12 Noon, February 2.

4. Religious Emphasis Week Dinner Meeting

There will be a Religious Emphasis Week Dinner Meeting sponsored by the Fellowship, Forum, and Sage Clubs on Tuesday, February 6 at 6:15 p.m. at the Methodist Church. The price per plate will be $1.50.

This meeting is open to all faculty members who would like to attend whether or not they are members of these clubs. Make reservations by February 1 with Mr. Hugh Macaulay, Phone 6528.
Minutes of the General Faculty Meeting Friday April 27, 1951

The general faculty of Clemson College met in the Chemistry Lecture Room on Friday April 27, 1951, at 4:15 p.m. with President Poole presiding.

The President expressed pleasure at the large attendance and, calling attention to the heat of the afternoon, said that he hoped that those present would relax.

He referred to the steps taken in advance to arrange for Senior Day and to the fact that, in spite of these plans, something went wrong on Tuesday night, the eve of Senior Day.

He said that meetings of the faculty council and heads of departments had already been held and that the purpose of the general faculty meeting was to line up thinking for the present and future.

He added that his personal feeling was that there should be no more Senior Days.

He then read a prepared statement, a copy of which is appended, in which he called attention to the fact that Clemson, being a land-grant college, comprises many factors; has varied functions; has a large number of committees, all of which have the same objective — i.e. to serve; that a high sense of loyalty and tolerance and individual and collective initiative are necessary; that many committees, such as the schedule committee, and many individuals perform services in addition to teaching duties; that the prestige of the college in contingent upon sound principles of conduct and achievement.

It is now necessary, he continued, to re-examine our organization. He said that the loyalty of every faculty and staff member is essential; that by words and deeds each person influences others; that the aim of all is to educate young men; that everything that concerns this aim is the business of every member of the faculty; and that he would count on the support and cooper-
ation of every staff and faculty member.

He explained that he did not think that anything could be gained by a general discussion in so large a group but that any person might express his views then or to him personally at a later time.

The meeting was then adjourned at 4:35 p.m.

Respectfully submitted,

[Signature]

Joseph C. Green,
Secretary
Clemson, especially because it is an educational institution of the land-grant college type, comprises many complex factors. Clemson has a multiplicity of divergent functions; it has a faculty of many and various philosophies; and, it has a student body of an even greater variety of individuals. For obvious reasons the large number of committees, both standing and special, use rules and regulations with similar objectives designed to serve the best interests of the college.

The administrative and teaching functions of a land-grant college require a high sense of loyalty, tolerance, and individual and collective initiative. At Clemson, I believe we have these traits evidenced from day to day, with a few reservations. For example, the extraordinary work of the Schedule Committee in which the members, in addition to heavy teaching loads, spend many hours arranging complicated schedules is proof of the faith and fidelity of these men to college needs.

Many if not most of you faculty members of this institution give of your time in helping maintain a worthy faculty with standards advantageous to graduates, students, and faculty alike. The prestige of the faculty, of the students, and of Clemson is contingent upon sound principles of conduct and achievement. We have placed implicit faith in our many committees and organizations. We have made changes to meet special occasions and these constant changes have brought about many improvements but even these for many and diverse reasons have failed to solve all problems.
Now, it becomes necessary to re-examine every phase of our organization and to revise our planned approaches toward solutions of both present and potential problems. The loyalty of every faculty and staff member of Clemson College as expressed in the language of the Bylaws of the institution is essential. By words and deeds each faculty member influences others, whether they be strangers, friends, students, or fellow staff members. The aim of Clemson College is to educate young men. And, anything and everything that concerns this aim, whether it is good or bad, is the business of every staff member.

In upholding sound principles I shall depend on your fullest cooperation and your willingness to help maintain a most worthy and useful institution and exert your greatest influence for the good of the college.
Minutes of General Faculty Meeting

The faculty of Clemson College met in the auditorium of the Chemistry Building at 4 p.m. on Friday June 1, 1951, with President Poole presiding.

Deans Cooper, Kinard, Hunter, Washington, and Sams, and Professor Gaston Gage, acting in the absence of Dean Brown, presented the names of candidates from the various schools as indicated on the enclosed lists and lists of deletions. It was moved and voted that the indicated degrees be amended.

Captain Beaven stated that Mr. D. C. Shirley would like to make a substitution. Mr. Metz stated that no formal application for such a substitution had been presented to the Deans and Directors.

Dr. H. J. Webb, Chairman of the Graduate Committee, moved that the amended list of candidates for the Master's degree be approved, and it was so voted.

Mr. Metz announced plans for graduation exercises to be held on Sunday, June 3, at 6 p.m.

President Poole thanked the faculty for a successful year's work.

On motion of Dean Hunter, it was voted to dispense with the reading of faculty committee reports and have mimeographed copies distributed later.

Dean Hunter announced that the new Chemistry Building would be open for inspection on June 2 from 4 to 6 p.m., and Mr. G. B. Nutt announced that the new Agricultural Engineering Building would be open during the same hours.

Dr. D. C. Sheldon, chairman of the committee on scholarship and honors, moved that the Norris Medal be awarded to M.M.R. M. Prince, who was graduating with a grade point ratio of 8.42. The motion was approved.
Dr. Sheldon also announced that the Sullivan award, sponsored by the New York Southern Society, was being given to Mr. James Cushman, graduating senior from Chester "for meeting with high moral and citizenship standards," and to Mr. G. E. Daniel "for his untiring efforts in advancing the standards of Clemson, the state of South Carolina, and the southeast."

Dr. Poole then gave not only an opportunity but a cordial invitation to the faculty to make any statements which they might care to make.

In the lengthy session which followed, which took the form of the familiar "for the good of the order", Dean Hunter pointed with pride to the new Chemistry Building; Professor Nutt mentioned the new Agricultural Engineering Building; Professor Gage mentioned the improvements in the Textile Building and new equipment; Professor St. Hubert referred to the accomplishments of the students of architecture; Dr. Poole referred to the honors received by Dean Brown of the School of Textiles, and again referred to Mr. G. E. Daniel's services to Clemson; Dean Sams referred to Mr. Kirk Craig's being awarded second place in a national architectural contest; Dean Kinard stated that a Clemson student ranked in the top three per cent in English in a National College Record examination; Col. Cookson stated that under existing regulations he thought that all Clemson students could be deferred; Captain Beaven stated that next year courses in armament and flight operations would be offered in addition to the present course in air force maintenance; Professor Stepp expressed the pride felt by the School of Agriculture over the fact that Dr. Poole, Dean Cooper, and Dr. G. H. Aull were presidents this year of national organizations; Mr. J. C. Littlejohn stated that the new hotel and housing project had drawn compliments from Maine to Florida.
Dr. Poole recognized the presence of Dr. Earle and Major Martin, who spoke briefly.

The remarks which drew the greatest applause came when President Poole called on Professor E. L. Clarke, who was to retire this year, to tell the faculty how he had managed to live to the ripe age of seventy two. Professor Clarke replied, "I have learned to keep my mouth shut in faculty meetings."

The meeting was then adjourned at 4:55 p.m.

Respectfully submitted.

REVISION OF PRELIMINARY LIST OF CANDIDATES FOR DEGREES

1. Additions to list:

The preliminary list of candidates for graduation is revised by adding the name of the following candidate:

School of Engineering
Royall Edward Norton — Architectural Engineering

2. Deletions from list:

The preliminary list of candidates for graduation is revised by deleting the names of the following candidates:

Bachelors' Degrees

School of Agriculture
Henry Marion Chaplin — Agronomy
John Anderson Christopher, Jr. — Agricultural Engineering

School of Engineering
Charles Leslie Johnson — Architectural Engineering
William Gerald Melnyk — Architectural Engineering
Barney Patrick Turner, Jr. — Architectural Engineering
Walter Marion Keene, Jr. — Architecture
Marion Richard Rhea — Electrical Engineering
William Harold Dey — Mechanical Engineering
Floyd Harold Gillespie — Mechanical Engineering
John Holtzclaw James, Jr. — Mechanical Engineering

School of Textiles
Doyle Clayborne Shirley, Jr. — Textile Engineering
Herbert Phillips Worth, Jr. — Textile Engineering
Jack Tollison Deason — Textile Manufacturing
Wesley Klugh Fooshe, Jr. — Textile Manufacturing
James Malcom Ivester — Textile Manufacturing
Jack Cullum Scott — Textile Manufacturing

Masters' Degrees

School of Chemistry
George Evans Bruner, III — Organic Chemistry

School of Education
John Vernon Walters — Industrial Education
William Clinton Owen — Vocational Agricultural Education
Minutes of general Faculty Meeting:

The faculty of Clemson College met in the auditorium of the new Chemistry Building at 5:30 p.m. on Friday, August 10, 1951, with President Poole presiding.

Following the reading by the secretary of the minutes of the preceding meeting, the President turned to the business at hand.

Mr. C. L. Morgan, acting for Dean Cooper, and Deans Kinard, Washington, Sams, Brown, and Webb moved that the candidates from the Schools of Agriculture, Arts and Sciences, Education, and Engineering, and the Graduate School, as indicated on the appended lists and lists of deletions, be awarded their degree it was so voted.

Mr. Metz, the Registrar, asked that the faculty approve the delayed award of a degree to Mr. J. T. Deason, whose diploma was held up in June as the result of an error made in reporting a grade on one course. The award was approved.

Mr. Metz announced plans for commencement exercises to be held in the outdoor theatre at 7:00 p.m. on Saturday August 11, and announced that the first faculty meeting in the fall would be held on Tuesday, September 4, at 11:00 a.m. in the college chapel.

President Poole referred to the heat with which the faculty had had to contend during the summer and expressed the hope that air conditioning equipment might some day be installed.

He stated that Mr. C. E. Daniel since the June meeting had contributed an additional $50,000.00 to complete the improvements and add to the equipment of the Textile Building.

He referred to Mr. Daniel's efforts to bring additional industries to the state and to the many fine structures which his firm had erected.

The President stated that the Trustees felt that the faculty should make an effort to display the college buildings and facilities to the best advantage. In order to give the members of the Legislature an opportunity to secure first-hand information, he continued, the Trustees had decided to invite all legislators to spend a day on the campus next spring.

The President announces plans for the dedication of the Textile Building on November 3 and for the awarding of an honorary degree, "Doctor of Industries", to a number of outstanding men on that occasion.

He said that he had appointed a committee composed of Dr. S. B. Earls, Mr. M. E. Bradley, and Mr. A. B. Bryan, all retired members of the faculty, to select the men to be honored.

Their recommended list, he continued, had been approved by the Trustees and by the Deans and Directors with the understanding that Dean Brown might recommend additions to the list.

On motion of Dr. C. H. Collings, seconded by Dean Washington, the faculty voted to approve the awarding of these honorary degrees.

After thanking the faculty for a successful summer session and expressing hopes for a pleasant vacation, the President declared the meeting adjourned at 5:55 p.m.

MINUTES OF GENERAL FACULTY MEETING

The General Faculty of Clemson College met in the college chapel on Tuesday September 4 at 11 a.m. with President Poole presiding.

Following the reading by the secretary of the minutes of the preceding meeting, the President recognized Mr. C. L. Morgan, who, in the absence of Dean Cooper, introduced the new members of the faculty of the School of Agriculture, a list of these names being appended.

Dean F. M. Kinard stated that there were no additions to the faculty of the School of Arts and Sciences but that a number of men had returned from graduate study, including Dr. Gilbert Miller, who received his Ph. D. Degree in August from the University of Florida.

Dr. F. B. Schirmer, acting for Dean Hunter, introduced the new members of the School of Chemistry; Deans Washington, Sams, and Brown introduced the new members of the faculty of the Schools of Education, Engineering, and Textiles respectively; Colonel Cookson introduced the new members of the Army staff, and Colonel John B. F. Dyce the new members of the Air Force Staff. All these names are included in the appended list.

The President then welcomed the newcomers and those returning from graduate study.

He stated that the faculty reception would be held at his home on Thursday, September 13 from 8 to 10 p.m. and that all members of the faculty who had been added to the staff since June were invited to stand in the receiving line. All people in the community were invited, he said.

He called attention to the copies of faculty reports and faculty handbooks which had been distributed, and announced that tickets for the concert series were available in his office.

Mr. G. E. Metz, the Registrar, announced plans for registration to be held on September 6 and September 7. He stated that from present indications there would be a freshmen class of approximately 800, including about 100 who entered in June, and that the total enrollment would probably be between 2600 and 2700.

The President thanked those who had helped to make the annual Farmers’ Week Program one of the best yet held; he again referred to the services performed by the counselling, schedule, and examining committees; he called for tact, caution, and discretion on the part of the faculty in their relations with the public; and expressed the hope that the present wholesome and close relationship between the faculty and the student body would continue.

After expressing best wishes for another successful year, he declared the meeting adjourned at 11:55 a.m.

Respectfully submitted

Joseph C. Green, Secretary
THE PRESIDENT'S OFFICE

RECENT ADDITIONS TO THE COLLEGE STAFF

Allbritten, H. G., Associate Agronomist; B. S. Murray State College, M. S. University of Kentucky; Ph.D. Pennsylvania State College; Methodist; Married; Harris Apartment, North Clemson Avenue.

Austell, Joseph R., Captain, US Air Force; B. S. Clemson College; Baptist; Married; College Avenue.

Bainbridge, F. F., III, Instructor in Architecture; B. S. University of Virginia, M. A. Kansas City Art Institute; Episcopalian; Married; Clemson Homes 29-B.

Barretta, Louis S., Sergeant, US Army; Catholic; Married; Pre-Fab 20.

Berry, E. C., Assistant Professor of Geology; B. S. and graduate work University of North Carolina; Episcopalian; Married; Cherry Bridge Road.

Brown, E. T., Captain, US Air Force; B. A. Beloit College, Ordnance Training School; Church of Christ; Married; Hagan Apartments, Earle Street.

Connally, William S., Captain, US Air Force; B. S. Texas A and M; Protestant; Married.

Cooper, Hardy S., Sergeant, US Air Force; Protestant; Married; Hagan Apartments No. 9, Earle Street.

Craig, J. T., Instructor in Agricultural Engineering; B. S. Clemson College; Baptist; Married; Pickens, South Carolina.

Davis, B. O., Sergeant, US Air Force; Protestant; Married; Hagan Apartments No. 1, Earle Street.

Dice, John B. F., Colonel, US Air Force; B. S. United States Military Academy, Coast Artillery School, Command and General Staff School; Presbyterian; Married; Clemson Homes 40-A.

Duvall, R. W., Instructor in Chemistry; B. S. Clemson College; Episcopalian; Married.

Eckerle, James R., First Lieutenant, US Air Force; B. S. University of Pittsburgh; Protestant; Married; 605 Clemson House.

Finch, J. M., Sergeant, US Air Force; Protestant; Married; Clemson Homes 10-D.

Grimes, C. L., Instructor in Chemistry; B. S. Mississippi College, M. S. Vanderbilt University; Baptist; Single; 120 Wigington Street.

Grinnell, Richard A., Major, US Army; B. S. University of California; Congregational; Married; 108 Strode Circle.
Gunnin, E. A., Instructor in Architecture; B. S. Clemson College; Methodist; Married; Pre-Fab 252.

Hamlin, Jack I., Major, US Army; B. S. Indiana University; M. S. Ohio State University, Quartermaster Officers' Advanced Course; Church of Christ; Married; Clemson Homes 6-A.

Johnson, W. C., Extension Entomologist and Beekeeping Specialist; B. S. Mississippi State College; Baptist; Single.

King, Alfred O., Sergeant, US Air Force; Lutheran; Married; Hagan Apartments No. 6, Earle Street.

Loveless, H. L., Assistant Professor of Spinning; B. S. Texas Technological College, M. S. North Carolina State College; Congregational; Married; Clemson House.

Lovett, Robert E., Acting Director of Music and Acting Associate Professor of Music; B. S. Ithaca College, M. A. Columbia University; Presbyterian; Married; Pre-Fab 318.

Lund, C. M., Assistant Agricultural Engineer; B. S. Clemson College; Baptist; Married; Clemson Homes 3-D.

Maher, The Reverend Edward A., CSP, Assistant to the Catholic Pastor; A. B. St. Paul's College; Folger Street.

Marinelle, Frank D., Sergeant, US Air Force; Catholic; Married; Hagan Apartments No. 3, Earle Street.

Martin, Rhett F., Jr., Captain, US Air Force; B. S. Clemson College; Protestant; Married; Clemson Homes 2-D.

Murphy, The Reverend Robert J., CSP, Pastor, St. Andrew's Catholic Church; M. A. Catholic University of America; Folger Street.

Niver, J. M., Instructor in Textiles; B. S. Clemson College; Methodist; Married; Pre-Fab 61.

Peery, D. L., Assistant Agricultural Economist; B. S. Virginia Polytechnic Institute, M. S. Iowa State College; Presbyterian; Married.

Prince, R. M., Jr., Instructor in Agricultural Engineering; B. S. Clemson College; Baptist; Single.

Ritter, B. M., Associate Professor of Agronomy; B. S. and M. S. West Virginia University; Methodist; Married.

Schildhauer, A. F., Visiting Professor of Mechanical Engineering; B. S. Case Institute of Technology; Married; Clemson Heights.

Simonds, J. D., Instructor in Mechanical Engineering; B. S. E. Clemson College, M. S. University of Florida; Episcopalian; Single; 108 Hillcrest.
Stephenson, Everett B., Sergeant, US Air Force; Methodist; Married; 87 Morrison Road.

Still, C. N., Instructor in Chemistry; B. S. Clemson College; M. S. Purdue University; Baptist; Single; 305 Clemson House.

Stockman, The Reverend E. D., Pastor of the Lutheran Church; A. B. Newberry College; B. D. Southern Lutheran Seminary; Married; Clemson Homes 10-E.

Witt, D. H., Instructor in Textile Testing; B. S. Clemson College; Methodist; Single; 104 Oak Terrace.

Young, S. P., Assistant Professor of Agricultural Engineering; B. S. Clemson College, M. S. University of Illinois; Presbyterian; Married; Pre-Fab 279.

Graduate Assistants

Jacobs, W. D., Graduate Assistant in Chemistry; B. S. College of Charleston; Baptist; Single.

Moyd, P. K., Graduate Assistant in Chemistry; B. S. Clemson College; Methodist; Single; 104 Oak Terrace.

Nelson, R. B., Graduate Assistant in Physics; B. S. Presbyterian College; Presbyterian; Single; 120 Wigington Street.

Smith, J. E., Jr., Graduate Assistant in Chemistry; B. S. College of Charleston; Married.

Wood, A. E., Graduate Assistant in Physics; B. S. University of Tennessee; Baptist; Married.
