MINUTES
of the
GENERAL FACULTY
of
The Clemson Agricultural College

April 8, 1946 through September 23, 1946
Minutes of the Meetings

of the

General Faculty

April 8, 1946 through September 23, 1946
The meeting was called to order at 5:06 P.M. by President Poole. The minutes of the previous meeting (held September 24, 1945) were read and approved.

The new members of the faculty and those returning to their fields of service after being on leave were then introduced by their respective Deans.

Dean Earle of the School of Engineering introduced Mr. L. M. Patton, Assistant Professor of Architecture; Mr. R. A. Bannister, Instructor in Mechanical Engineering; Mr. Glen D. Hallmark, Assistant Professor of Electrical Engineering; Mr. C. D. Meeks, Instructor in Engineering; and Mr. W. C. Wearn, Instructor in Electrical Engineering. All these are new members of the staff. The faculty members returning from the armed services or war work presented were: Professors R. L. Anderson, D. W. Bradbury, C. W. Carter, A. D. Lewis, J. H. Sams, W. M. Wachter, S. M. Watson, and H. H. Wiss.

Vice-Director McGinty of the School of Agriculture presented Mr. H. J. Sefick, Assistant Professor of Horticulture and Assistant Horticulturist. He also announced that Mr. J. E. Richardson had recently come to serve as Associate Professor of Agricultural Engineering and Associate Agricultural Engineer. Mr. Richardson was not present. Those returning to the staff of this School were: Professors J. W. Jones, J. B. Garrison, and J. T. Kroulik.

Dean Brown of the School of Textiles introduced Mr. T. A. Hendrick, Instructor in Carding and Spinning. He announced that Professor J. V. Walters had recently returned from service with the Armed Forces.

Dean Kinard of the School of Arts and Sciences announced that Professors M. C. Bell, D. A. McDowell, W. G. Miller and D. I. Purser have returned from military leave. He introduced Mr. W. B. Wade, Instructor in English; Dr. M. A. Owings, Associate Professor of English, Mr. C. H. Watson, Instructor in English; Mr. J. P. Winter, Assistant Professor of English; Mr. E. S. Ashcraft, Assistant Professor of Mathematics; Mr. C. M. Stuart, Assistant Professor of Mathematics; Dr. T. J. Lindsey, Associate Professor of Physics; Mr. G. M. Martin, Assistant Professor of Physics; Mr. S. A. Wade, Instructor in Physics; Mr. T. E. Alexander, Instructor in History and Government and Mr. C. H. Carpenter, Instructor in History and Government.

Continued -
Faculty Meeting of April 8, 1946 continued

Dr. Pollard announced that Professors F. I. Brownley and H. L. Hunter had returned from military leave. He introduced as new staff members of the School of Chemistry Mr. A. J. Boggs, Instructor in Chemistry, Mr. F. F. McConnell, Instructor in Chemistry, Mr. J. R. Sharpe, Instructor in Chemistry, and Dr. F. B. Skirmer, Assistant Professor of Chemistry.

Dr. Poole presented Col. A. J. Thackston, Assistant P.M.S.&T. to the faculty.

Professor Stribling of the School of Education announced that Professor W. C. Bowen had returned from military leave.

Several problems of administration were then discussed. One, having to do with prospective enrollment for the 1946-47 session, was discussed by Registrar Metz. He stated that in a recent meeting the teaching deans had gone on record as favoring a 2500 maximum student capacity with our present physical setup. This will mean selection of some sort as the student desiring to enter will far exceed this number. Some sort of elastic ratio or priorities system will have to be worked out.

Mr. Metz also stated that a recent "cut system" submitted by the students was being studied by a special committee of the deans.

Dr. Poole announced the formation of a Calendar Committee. He asked for cooperation in this effort. Dr. Ward, the Committee Chairman, spoke in its behalf.

Business Manager Littlejohn spoke of the housing situation at Clemson. Prospects are good for new units for veterans. He also announced that the Aetna Life Insurance Company was refunding all monies paid in under the old retirement system if the persons holding these policies so desired. He also spoke of the recent changes in the law regarding the State Retirement Act.

Dean Kinard gave some of the highlights of the recent meeting of the Southern Association of Colleges and Secondary Schools held in Memphis, Tennessee.

After several announcements, the meeting was adjourned at 6:09 P.M.

Respectfully submitted,

James E. Ward, Jr., Secretary
FACULTY MEETING

May 17, 1946

The meeting was called to order at 5:03 p.m. by President Poole. The minutes of the previous meeting (held April 8, 1946) were read and approved.

Reports were read from the following committees: Athletics, Buildings and Grounds, Catalog, Public Occasions and Celebrations, Curricula, Graduate, Deficient Students, Food Production, Kress, Library, Student Loans, Public Lectures, Schedule, Coordination of Courses for Returned Veterans, Scholarship and Honors, Social Functions, Student Government, Student Organizations, Student Welfare, Uniform, Visitors, Ethics and Religion, Publications and Radio, and Calendar. (Copies of reports attached.)

The list of candidates for degrees as submitted by the Registrar and as recommended by their respective Deans was approved by the faculty. (Copy of list attached.)

The Faculty of School of Agriculture recommended that Anderson Fellowships for 1946-47 be awarded to Mr. Edwin E. Collins ($200.), Luther C. Hammond ($200.) and John A. Martin, Jr. ($200.). This recommendation was approved.

After several announcements concerning the graduation exercises, the meeting was adjourned at 6:20 p.m.

Respectfully submitted,

James E. Ward, Jr., Secretary
May 13, 1946

Dr. R. F. Poole, President
Clemson College
Clemson, South Carolina

Dear Dr. Poole:

The Clemson College Athletic Council has had the usual number of meetings during the past year. The most important meeting was held soon after the return of the members of the coaching staff who have served at various times in World War II. The Athletic Council welcomed back the Coaches and emphasized the present policy of the college with reference to inter-collegiate athletics.

There has been a definite improvement in our athletics during the past year which is an indication of the type of work our Coaching Staff is doing. Our football season was unusually successful in that we defeated both Tulane and Georgia Tech, and lost to a strong Wake Forest team by a narrow margin. We were invited to the Gator Bowl in Jacksonville, Florida, but the invitation was declined because the Athletic Council and Coaching Staff felt that, due to the long football season, it was necessary for the members of the Football Team to get busy with their studies, and that there was nothing to be gained in a financial way by playing this game. We would probably have received a bid to the Oil Bowl in Houston, Texas had we defeated Wake Forest.

It is expected that athletics will be on a keener competitive basis during the coming years as all sixteen colleges of the Southern Conference are returning to inter-collegiate athletics, but we have reason to believe that the members of our Coaching staff will give a good account of themselves and will represent the institution in a creditable and sportsmanlike manner as they have in the past.

The Athletic Council will consider, at its next meeting, the possibility of increasing the seating capacity at the field house and the development of additional tennis courts, and the addition of other athletic facilities, so that more students may have an opportunity to participate in various forms of recreation.

Respectfully submitted,

Lee W. Milford, M.D., Chairman
Athletic Council

LWM/dj
Selection of sites for the veterans' housing units allocated to the College by the Federal Public Housing Authority has made this a rather busy year for the Buildings and Grounds Committee.

The first meeting of the year was held early in July to decide on a location for a hay shed for the Farms Department.

On November 6 and 7 the Committee met to consider the location of the 50 duplex houses furnished Clemson by the FPHA. Points that had to be considered were available space, electric current, sewerage facilities, water, and roads. The Committee felt that it would be advantageous from the standpoint of economy, morale, and community spirit to intersperse these veterans' housing units among the other college residences. Some of the houses were placed on existing roads, but in order to find enough sites it was necessary to develop two new roads, one parallel with the Pendleton Road in the rear of the house occupied by Mr. Woodward, the other in the rear of the Sheep Barn coming into South Palmetto Boulevard near Dean S. B. Earle's residence and immediately in front of the C. S. Patrick residence.

In December the Committee approved the location of a small shed on the Ravenel property to be occupied by the Agricultural Engineering Department in cooperation with the soil Conservation Service.

During the winter months the mayor of the Town of Clemson and two of the councilmen met with the Buildings and Grounds Committee to discuss some of the problems that the Town was having in connection with the water and sewerage systems. The Committee studied the problems and made some recommendations that it felt would be beneficial to the interests of residents of North Clemson and Cherokee Woods.
In February the Committee chose locations for two small dwellings and a poultry house for the Poultry Department. In view of the fact that the dwellings were to be constructed of a building material not commonly used, it was recommended that they be treated as experimental buildings.

On March 11 the Committee met to consider the location of an additional hundred housing units allocated to the College by the FPHA. This group of houses is being financed by the FPHA and certain requirements and specifications of that agency have to be met. The Committee felt that it had exhausted about all the available sites on the campus area and that it would be necessary to develop a new site where adequate sewerage, water, drainage, power, and roadways could be most economically installed. After considerable discussion of possible sites, the area west of the Cherry Road and just north of the Dairy Barn, extending into the wooded section west of and behind the present Horticulture greenhouses up to a ravine immediately in rear of the Engineering and Agricultural Buildings was decided on. At this date, the site has been partially developed and the houses are expected to arrive in the near future.

On May 16 the Committee again met to discuss the location of an additional 200 housing units. The Committee recommended the site between the Physical Education Plant and Seneca River in the vicinity of what is now a temporary nursery and some hog lots. The same conditions apply to this lot of veterans housing units as to the previous lot: namely, that sewerage, water, power, and roads will have to be provided. The site recommended is about the nearest available space to classroom and other college activities.

On May 16 the Committee met to recommend names for several existing College buildings and some proposed buildings. It was decided to use names of prominent men who had been connected with Clemson College in various capacities. Some of the Committee's recommendations are as follows: that the Administration Building be named Tillman Hall, that Barracks #1 be named Simpson Hall, Barracks #2 - Johnstone Hall, the Physics Building - Norris Hall, the Library Building - Sikes Library. Some of the names proposed for buildings anticipated in the post-war building program were: Newman Hall, Hardin Hall, Lever Hall, and Manning Hall.
Report of Buildings & Grounds Committee continued -

The Committee also suggested names for the new streets developed for the first group of veterans' houses. It was suggested that the new street parallel with the Pendleton Highway and entering this highway by the B. E. Goodale residence be called Morrison Road; that the semi-circular driveway in the rear of the Sheep Barn and in front of Hanover House be called Colonial Circle; and that the new road which enters the Cherry Road in front of the Dairy Laboratory and in the rear of the present Veterinary Hospital (being a continuation of the road by the Dairy Building) be called Jersey Lane.

The committee is still considering names for some of the barracks buildings, for the several new streets in the housing developments, and place names for the different groups of veterans houses. In this respect we welcome suggestions from the faculty and from veterans occupying the houses.

In addition to the above, the Committee has been in touch with State Highway Department officials and residents of the Clemson community who are interested in developing sidewalks to our school at Calhoun and other sidewalks along the highway on the campus property.

We feel that with so much proposed building activity in the next few years, the Buildings and Grounds Committee will be very active.

Respectfully submitted,

David J. Watson, Chairman
Buildings & Grounds Committee

May 17, 1946

Report of the Catalog Committee

May 17, 1946

In accord with plans made by the Catalog Committee, an abbreviated edition of the catalog was published in August 1945. Catalogs printed during the year included the August edition of 6000 copies, a reprint of 3000 in January and another reprint of 3000 in April.

Much of the material in the current catalog is in need of revision. Within the near future the Catalog Committee will consider plans for publishing the 1945-1946 edition.

Respectfully submitted,

G. E. Metz, Chairman
The Catalog Committee
Report of the Committee on Public Occasions and Celebrations

May 17, 1946

While there has not been a meeting of the entire Committee on Public Occasions and Celebrations during this session, members of the Committee have worked untiringly in the interest of the Concert Series and other functions.

Members of the Committee feel that the Clemson College Concert Series has had a successful year. Three of the four programs for the 1946-1947 season have already been selected. These include Gladys Swarthout, Mezzo-soprano, The National Symphony Orchestra, and Eugene List, pianist.

Respectfully submitted,

G. E. Metz, Chairman
The Committee on Public Occasions and Celebrations

Report of the Curriculum Committee

A few months ago the educational world was startled by the admission of Harvard that its curriculum was not perfect. This discovery caused many other schools to begin a careful evaluation of theirs. All of these seem to have the same objective, - a general education which includes a specialized one.

At last, colleges have begun to realize that education must be threefold: - to make a good citizen, to enable him to enjoy life, and to train him for some special line of work so he can make a living. It is evident that a college cannot accomplish the first two objectives without giving some attention to the third.

At the present time all schools seem to be doing a very thorough job of revising their curricula. At Clemson I think we are very fortunate in that we have always had a threefold objective of education in mind. Some may argue that we have placed too much emphasis on the third but the records of our graduates would prove that all three have been well integrated.

This year the Curriculum Committee has worked along three lines:

1. To try to coordinate fundamentals for all courses, such as, the number of credit hours required in each school, minimum time that should be devoted to any course, and to relation that should exist between the high school graduate and accelerated program.

Continued -
Report of the Curriculum Committee continued -

2. To evaluate the accelerated program.

3. To try to foresee the needs for adjustments and changes in the post-war period.

4. To try to help solve many problems that, while they do not relate strictly to the curriculum, are closely related to it.

The committee approved curricula for the following majors: Textile Manufacturing, General Education, Industrial Education and Agricultural Education.

From time to time, we have made other recommendations to the Deans and Directors which usually have been approved.

A few months ago the Deans of the various schools were asked to have their faculties submit plans for curriculum changes. A good deal of work has been done and I trust before July 1st the committee will have had time to consider these suggestions and submit a new College Curriculum to the Deans and Directors. As far as I have been able to gather, we do not think it wise to make too drastic changes but each school feels that certain minor adjustments and additions would strengthen its work.

Respectfully submitted,

R.H.H. Calhoun, Chairman
Curriculum Committee

Report of Graduate Committee

During the present session the Graduate Committee has spent most of its time marking time.

We have, I think, a complete set-up that should enable us to begin graduate work at any time when the demand warrants it. With the co-operation of the Deans, two categories of graduate courses have been listed, - those that can be given with our present staff at the present time and those that must wait until some time in the future. A list of strong junior and senior minors have been made. Most of these are in the General Science School.

Next year there may not be too large senior or junior classes and for that reason some of our instructors qualified to give graduate work may be able to inaugurate some of these courses.

Continued -
I should like to recommend that if any student wishes to register for graduate work that their names be submitted to the Graduate Committee, the committee to arrange for such courses to be given in the proper departments. This to be done only after consultation with the heads of the departments concerned.

In a recent survey made by the Registrar's Office, six students expressed a desire for special post graduate work during the summer and seven for such courses during the first semester of next year. I understand that some of these wish refresher courses and were not anxious to work for a graduate degree.

Respectfully submitted,

F.H.H. Calhoun, Chairman
Graduate Committee.

May 17, 1946

Summary Report of the Committee on Deficient Students

May 17, 1946

Under the abnormal conditions of the war period, even though the college has experienced an abnormally low quality of scholarship in the student body, because of certain peculiar conditions practically all rules governing general scholastic work of students have been permitted to lapse. Existing rules were not readily applicable under the accelerated program; the student body was generally small; and with the rapid turnover the weakest students soon eliminated themselves. With the return to the college of veterans under federal benefits which prescribe that the veteran student make "satisfactory progress" and with the rapid increase to capacity enrollment which will not permit admission to all who apply, it has become necessary to prescribe policies to follow with regard to students doing unsatisfactory work and standards to be demanded of such students. All the work of the Committee during the past year has been directed toward these questions.

In June, 1945, the Committee was called on to define what constitutes the "unsatisfactory progress" required of veterans by federal law and regulations. In making recommendations which have since been modified, the Committee recommended that any adopted standard be applicable to all students, veterans and non-veterans.

Continued -
The large increase in enrollment for the second semester for 1945-46 and prospective further increases for 1946-47 brought before the college the question of whether it could afford to permit students with generally poor records to remain at the college and refuse admission to others who might do better. During the first semester of this year, one-third of the student body passed fewer than twelve semester credit hours, and a number had very poor records. Facing these matters, the Committee held a series of meetings in the spring with the principal result that the Committee recommended that "To be eligible to continue his enrollment at Clemson, a student must pass at least six semester credit hours during the first semester of his freshman year and at least nine semester credit hours during any semester thereafter" and that this rule should be applicable during the second semester 1945-46. Subsequently, these recommendations have been approved by the President and his Council of Deans and Directors and the students notified that they would be subject to this regulation. While there is in the Committee some opinion that this policy is too strict, the majority opinion is that it is lenient and that the standards should probably be raised soon. A lenient policy was favored at this time because no such regulation has been imposed on students for several years, and it was felt that in renewing policies of eliminating weak students, a lenient standard might wisely be set with a definite intention of raising it after it was established.
Food production by the various departments of the School of Agriculture has been continued on a similar basis as in previous years. Labor costs have materially increased during the year. Feeds, other supplies and equipment are also higher. Food prices must remain at high levels to meet production costs. Adequate housing for labor continues to be one of the most important factors in maintaining sufficient help in the various departments.

The receipts of sales to the Subsistence Department and from other sources are listed in the following summary:

FOOD PRODUCTS REPORT OF THE ANIMAL HUSBANDRY DEPARTMENT

From April 30th 1945 to April 30th 1946 the Animal Husbandry Department sold to the Subsistence Department 21,480 lbs. of beef (22 steers) which amounted to $3,188.63; and 15,459 lbs. of pork (54 hogs) which amounted to $2,322.90; the total amount being $5,511.53.

Other livestock sales amounted to $10,572.53. Total livestock sales of the Animal Husbandry Department from April 30th 1945 to April 30th 1946 amounted to $16,084.06.

FOOD PRODUCTION REPORT FOR THE DAIRY DEPARTMENT

May 1, 1945 to April 30, 1946

We have operated a little over half of this year with most of the war restrictions removed. The most troublesome governmental restriction with which the Dairy Department must contend is the small allotment of sugar made available for ice cream production. Within recent weeks government policies formulated to provide more grains for destitute sections of Europe and Asia are serious threats for continued operation of our dairy herd at its normal capacity.

Continued -
Report for Dairy Department continued -

During the year milk production has been 1,600,362 pounds as compared with 1,589,860 pounds during the last fiscal year. The total dollar sales was practically identical with previous years. The Mess Hall took 24.8% of the milk produced. A new phase of the marketing system is now being developed to provide bottle milk for the married "GI" families that are now located on the campus and the increasing number scheduled for arrival next fall.

The Dairy Department has been able to purchase new tractors and other new equipment which will improve our production facilities. Many improvements on our premises are now being made by labor operated under the direction of Mr. George Barnett.

Our greatest need for efficient operation continues to be more houses for labor. Most of our labor now drives to Clemson each day from Seneca and Pendleton. This situation makes it impossible for us to maintain a stable supply.

The Milk, Processed Dairy Products, Cattle Sold for Breeding, Cattle Sold for Beef and Subsidy Payments for the Dairy Department during the year May 1, 1945, through April 30, 1946.

FOOD PRODUCTION REPORT - POULTRY DEPARTMENT

May 1, 1945 to April 30, 1946

The Poultry Department has continued the production of poultry and eggs in practically the same quantity as in the previous year. Labor and feed costs have increased quite materially. In spite of higher prices for poultry and poultry products, conditions are not favorable for commercial production. Sales for the period covered by this report are as follows:

<table>

TOTAL SALES $24,105.65

Clemson, South Carolina
May 17, 1946

Dr. R. F. Poole
Clemson, South Carolina

Dear Dr. Poole:

During the past twelve months grants from the Kress Fund have been approved for the following four projects:

1. "Designing, building, and testing an automatic power-driven yarn twist tester for examining yarns from various types of textile fibers" by R. K. Eaton and J. E. Shigley.
3. "Investigation of the fastness of vat dyes on nylon and other synthetic fibers" by Joseph Lindsay, Jr.
4. "Investigation of the electrical properties of the spermatozoa of cattle as related to their virility and effectiveness from fertilization" by J. C. Hendricks.

Continued -
In addition to the grants for these projects the expenditure of the sum of $800 for a series of five lectures and entertainments was approved. Total expenditures during the year amounted to $1940 which included $733 for projects approved in previous years. Thus less than one-third of the annual income from the fund was utilized.

Manuscripts covering the investigations carried on under two projects have been submitted. These two projects are the "Investigation of the use of native bamboo for reinforcing concrete" by H. E. Glenn, and "Analyses of the surface waters of South Carolina" by F. H. Calhoun and H. J. Webb. Publication of these manuscripts awaits final consideration by the committee which will act in the near future.

Because of the press of teaching and other duties and the inability to obtain materials progress on certain projects has been somewhat slow. However the four new projects mentioned above are proceeding satisfactorily. The yarn tester on which Mr. Shigley has been working is almost completed and can be used as soon as one or two hard-to-get items can be obtained.

Professors Hendricks and Lindsay are going ahead with their projects and I believe Drs. Calhoun and Webb have accumulated considerable information in connection with their study of the natural resources of the state.

The project undertaken by Dr. Carodemos, involving the preparation of certain iodinated phenothiazine derivatives for use in combating protozoa in turkeys, has been suspended. In tests here at Clemson the compounds prepared have offered some promise and at least one or two have been sent to the U. S. regional animal disease laboratory at Auburn for further testing. When circumstances permit Dr. Carodemos expects to prepare additional compounds for testing.

Dr. Prince has collected a large number of specimens in connection with his project, "Preparation of a host list of fungi for South Carolina" but has not yet had the time to identify and classify all of them. Although he is, unfortunately, leaving Clemson soon he will attempt to complete the work on the collection so that other botanists may have the benefit of his efforts.

Further work remains to be done by Professor Newman on the "Survey and classification of trees and shrubs on the Clemson College Property." Necessary help for this work has not been available during the past year but it is planned to complete the survey as soon as circumstances permit.
Continued -

Probably, the faculty will be very busy during the next two or three years handling the large enrollment of students anticipated and will have little time for research; however as normal conditions return the Kress Committee hopes there will be increased interest in the opportunity which Kress research projects should afford for professional improvement.

The Committee wishes again to remind you that requests for grants for meritorious projects will be welcomed.

Respectfully submitted

Kress Committee -

ANNUAL REPORT ON THE WORK OF THE LIBRARY COMMITTEE

May 17, 1946

The work of the Library Committee over the past twelve months has been aimed mainly at rounding out and arranging the results of the self-survey, with a view to getting the data before the General Education Board. The report was forwarded through the President's Office around May 1, 1946. Upon the request of the General Education Board, a supplemental report itemizing proposed expenditures of $138,200, over a five-year period, was similarly forwarded. Of this sum $75,000 is asked of the Board.

Meetings of the committee were held at intervals during the year to consider various library objectives and policy.

Continued -
On August 1, 1945, the committee met to consider a report titled "The Improvement of Instruction: the Relation of the library to instruction." The report was submitted by W. Stanley Hoole of the University of Alabama. The consensus of committee opinion was that the report gave timely insistence on increased cooperation between the library and the instructional forces of the college or university.

The meeting of October 29, 1945, was devoted to consideration of the regulations covering music-room activities. A copy of the regulations is appended herewith. Also at this meeting, preliminary copies of the Peabody Report were passed out and read as information.

Early in March of the current year the committee met with Mr. Tauber, of Columbia University, substituting for Dr. Louis R. Wilson, who was scheduled for a meeting with the committee at this time. The purpose of the conference was to discuss the needs of the Library in the way of organization, physical equipment, and supply of books. Both Mr. Tauber and Dr. Wilson have seconded our efforts to interest the General Education Board. We hope for material results; how material, or how soon, we have no means yet of knowing.

On May 14, 1946, the committee met for the purpose of considering ways and means of getting one or more of the surplus army library units now at the disposal of the U. S. Department of Education. A committee was appointed to study the procedure for securing these units and to make application on behalf of the Library.

Though understaffed, the Library has functioned satisfactorily over the past year. The staff has been able, not only to carry on normal library services to the College and community, but also to make a self-survey. As funds and trained librarians are available, it is desired to build up both staff personnel and facilities to meet the demands of contemplated expansion of the general college program.

Respectfully submitted,

Mark E. Bradley, Chairman
Library Committee
MUSIC COMMITTEE

The music committee is formed to promote the interest in classical music among the student body. In doing so, its duties are twofold: (1) to offer a unified program for the enjoyment of the students, and (2) to maintain and increase the music collection.

I. ORGANIZATION

A. Membership shall be limited to approximately twenty-five.
   (1) Applicants should show a knowledge of music and a desire to offer their time and service to the work of the committee.

B. Applicants will be taken in at the beginning of each semester.
   (1) Approval will be subject to recommendation by the three officers of the committee. (See Art. D)
   (2) A member may be dropped at any time on the unanimous decision of the three officers.

C. While the army is represented at the school, representation on the committee of the different units will be approximately in ratio of their respective numbers.

D. Table of Organization
   (1) Chairman of the committee.
   (2) Sub-chairman in charge of program planning.
   (3) Sub-chairman in charge of program playing.
   (4) Record supervisor - to take reports for new records or damaged ones.
   (5) Members

Diagram of committee set-up.

Continued -
E. Duties of the various parts.
(1) Chairman is senior officer and coordinator
(2) Program planning division is to offer each evening five days a week (Monday through Friday) a unified program of classical music.
   a. The purpose is to make these programs interesting, entertaining and instructive.
(3) Program playing is interested with job of seeing that the planned programs are played according to schedule.
   a. It is to be composed of students capable of handling records without damaging them.

II. Functions
A. The primary function shall be that of planning and playing programs.
   (1) Programs will be played from 6:50 - 8:20 P. M. Monday through Friday and 2 - 4:00 P. M. on Sunday.
   (2) A. The week day programs shall be planned.
   b. The Sunday program shall be a request program conducted by a music committee member.
B. The music committee shall preside over the music collection.
   (1) First be seeing that records are not handled by unexperienced persons.
   (2) Secondly by seeing that broken records are replaced.
   (3) Thirdly by obtaining new albums of records.
C. The music committee will strive to promote anything of a musical nature intended to promote the educational and cultural welfare of the student body.

III. Financial
A. The committee will not charge any dues and is dependent on outside assistance in pecuniary matters.

IV. INCIDENTAL
A. A box will be placed in the music room for students who may suggest pieces they would like to hear so that they may be taken into consideration in planning programs.
B. Distribution of programs
   (1) One copy in Administrative Building.
   (2) One copy outside Guard Room, Barracks #1.
   (3) One copy for file.

Respectfully submitted,

William W. Vicinus, Pvt.
A. U. S.
Report of Music Committee continued -

RULES

1. Hours for selected programs: 6:50 - 8:20 P.M. Monday through Friday
   Saturday, no program
   Sunday, request program 2-4 P.M.

2. The music room is maintained for music appreciation, and quiet will be observed accordingly.

3. The piano may be played only when the record player is not in use.

4. Only members of the music committee will be permitted to operate the record player except by special permission from a committee member.

5. Popular music will not be played on the Carnegie set. Modern classics are permissible, however.

6. The music room is maintained for your enjoyment. Keep it neat and orderly. Books on music should be checked out upstairs.

7. Record all broken or chipped records on posted lists. Make note of record and album number.

May 17, 1946

President R. F. Poole
Clemson, South Carolina

Dear President Poole:

Report of Student Loan Committee

Under present conditions there is little interest in the Student Loan Funds. From the funds administered by the Student Loan Committee, loans were made as follows:

Thomas Lee Crawford ... $25.00 ...... Nov. 19, 1945
Marion Butler............. $30.00 ...... Apr. 22, 1946

The Crawford Loan was repaid December 31, 1945. The Butler Loan was repaid May 17, 1946.

From the Stackhouse Loan Fund, which is administered by a special committee, a loan of $600.00 was made to Gordon Goodale, who is now taking graduate work. The Clemson College Foundation made two loans, one on March 1, 1946, for $97.50 and one on April 15, 1946, for $97.50. These loans were handled through Mr. J. H. Woodward, Secretary of the Foundation.

Continued -
The College Loan Funds for students include the:

(a) Southern Railway Loan Fund
(b) George Cherry Loan Fund
(c) Daniel Memorial Loan Fund
(d) Student Loan Fund Association
(e) U. D. C. Loan Fund
(f) Stackhouse Loan Fund

Through the generosity of Mr. Cecil Reid the John Bryce Baskin Loan Fund was created. This has been the means of helping many worthy boys. Mr. Reid takes an active interest in its administration.

As a matter of interest, attention is directed to the following scholarship funds:

(a) Sears Roebuck Agricultural Scholarships
(b) Slater Textile Scholarships
(c) Borden Agricultural Scholarships
(d) Anderson Fellowship for graduates

Respectfully submitted,

A. J. Brown

Dr. R. F. Poole, President
Clemson College
Clemson, South Carolina

Dear Dr. Poole:

The Public Lectures Committee during the past year has sought to cooperate with various groups both on the campus and outside the community who were interested in bringing speakers to the college and community.

In many respects the speakers this year presented a more varied type of program than those of recent years. Both the students and the community people have had a chance to hear some outstanding speakers. The Hon. Clinton P. Anderson, Secretary of Agriculture, spoke here in the fall. The Claud W. Kress Endowment Fund presented a fine array of speakers in T. R. Ybarra, author and Latin American specialist, Kumar Goshal, Hindu historian and H. R. Knickerbocker, author and correspondent. In addition, this Fund sponsored Miss Dorothy Crawford, an impersonator, and Warren Sims, a magician. The Jewish Chautauqua Society sent us Rabbi Samuel R. Shillman of Sumter. The Y. M. C. A. brought in Dr. T. Z. Koo, a representative of the World Student Christian Federation and an internationally known scholar and writer. Other speakers included Mr. R. M. Cooper, Director of the Research, Planning and Development Board of South Carolina, Mr. E. C. Soper, building expert, Bishop Stephen E. Keeler, Episcopal Bishop of Minnesota, Dr. Lionel Marks, member of the Engineering faculty at Harvard University, Mr. Strom Thurmond, formerly judge of the Circuit Court, Mr. T. B. Pearce, member of the 1946 Board of Visitors, and the Rev. John A. Pickney, Rector of Holy Trinity Church, Clemson. Numerous other speakers visited particular groups during the year.

Respectfully submitted,

May 17, 1946

Dr. R. F. Poole, President
Clemson Agricultural College
Clemson, South Carolina

Dear Mr. Poole:

I beg leave to submit herewith the report of the Schedule Committee.

During the war period the college had a large number of army trainees and comparatively few regular students. As Dean Kinard acted as coordinator between the College and the Army the burden of making up the schedule of classes fell on his office, and the work was done largely by Mr. LaGrone and Mr. Cox.

With the return of more nearly normal conditions, the regular schedule committee took up the work in January of this year. The committee has prepared the examination schedules for the first and second semesters of the current college year, and the class schedules for the second semester and for the first term of the summer semester beginning June 3rd.

All members of the committee have been very cooperative and Mr. Metz, as usual, has furnished the committee with the necessary data.

Ever since the college adopted the tri-semester system students have been allowed to enter at any one of four periods during the calendar year. We now have first semester Freshman, and second semester Freshman and so on thru all of the classes. The result is that the college must offer each semester all first semester subjects and all second semester subjects. The full effect of this innovation will be felt next fall when 2500 students will be enrolled. The present master schedule is now twice as large as the one before the war and contains approximately nine thousand squares, each square representing a one hour period in some subject.

The Registrar's Office has recently furnished the committee with a breakdown of next fall's enrollment by classes, courses and semesters. The committee hopes to start on the fall schedule early in the summer so as to have ample time to solve some of the knotty problems that lie ahead.

Respectfully submitted,

W. B. Aull, Chairman
Schedule Committee

WBA:dm
May 17, 1946

Dr. R. F. Poole, President
Clemson Agricultural College
Clemson, South Carolina

Dear Dr. Poole:

I am submitting herewith the final report of the Committee on the "Coordination of Courses For Returned Veterans."

In our report to you May 16, 1945, it was stated that the committee had practically completed work on courses for veterans with an eighth grade education and for veterans with a high school education.

It was proposed to give those with an eighth grade education specialized courses at the high school level extending over a period of six semesters or less. For those with a high school education it was proposed to give for the first two semesters approximately the work we give our Freshman followed by two semesters of specialized work in the student's chosen field.

This rather ambitious program never materialized for two reasons: first, the state department of education in with the Veterans Administration began last May the establishment of special courses in the high schools and in industry for those veterans who wanted to live at home and who had no desire to go to college. This type of training will undoubtedly solve part of the problem of what to do for the veteran who had only a grammar grade education. Second, with the rapid demobilization of the Armed Forces after the fall of Japan, many veterans with some college training wanted to come back and finish their work as soon as possible. Others who had not contemplated going to college before the war were quick to take advantage of the "G.I." Bill of Rights." As a consequence we now have over a thousand applications from prospective students that must be put on a waiting list.

It appears then that for the present, at least, short courses for veterans are out of the question. We do have some special and post-graduate students in college who are not interested in a degree. These students are taking regular college courses in specialized fields for what they can get out of them.

The committee feels that in many respects we are fortunate. In a technical college such as ours it would have been very difficult from many standpoints to carry on work at the high school level and at the same time do creditable college work.

Respectfully submitted,

W. B. Aull, Chairman
Report of the Committee on Scholarship and Honors

The Scholarship and Honors committee made the following recommendations during the past school year:

1. That a Norris medal be awarded in June 1947 to cover the period between June 1943 and June 1947.

2. That all medals and awards for scholastic achievement, with the exception of the Norris Medal, be presented at the Honor's day program.

3. That the Honor's day program be directed by a committee composed of the presidents of the scholastic honor societies of the campus. The chairman of the scholarship and honors committee shall be a member of this committee, ex-officio.

4. That this Honor's day committee be authorized to give a reception, smoker, stunt night, or some other form of entertainment (the nature of which shall be decided upon by the committee) to the incoming freshmen to acquaint them with the scholastic honor societies of the campus. The members of the scholastic honor societies are to act as hosts. This entertainment will be given within six weeks after the beginning of the fall semester.

5. That it be suggested to the scholastic honor societies that they hold an "open house" reception for all sophomores with good scholastic records (the exact grade point ratio to be decided upon by the committee) for the purpose of instilling an interest in the societies upon the part of the sophomores who might become eligible for membership.

Respectfully submitted,

D. C. Sheldon, Chairman

REPORT OF SOCIAL FUNCTIONS COMMITTEE

The number and the type of dances given during the last year have been more nearly normal than in other recent years. The dances have been very satisfactorily conducted.

At the dances the Social Functions Committee has been active in meeting visitors and guests, and especially in welcoming Clemson men returning from the armed forces. The students have been unusually responsive and cordial to faculty chaperons.

Informal discussions were held in regard to social activities available to returning G.I.'s and their wives. Many campus organizations have supplemented our efforts in this work.

Respectfully submitted,

George H. Edwards, Chairman
May 17, 1946

Dr. R. F. Poole, President
Clemson Agricultural College
Clemson, South Carolina

Dear Dr. Poole:

The Committee on Student Government gave assistance in all student class elections this year as well as the elections to the Senior Council.

Senior Council officers and members have been closely advised during the year.

Assistance was given in reactivating Blue Key, Tiger Brotherhood, Alpha Phi Omega and Mu Beta Psi.

On a number of occasions, advice was given student military leaders on methods of improving morale and morals of the cadet corps.

The expected "Veteran Problem" has not been as expected by many. The freshmen veteran who is new to Clemson, may have too many privileges and too few opportunities to learn to respect the customs and traditions of Clemson. Judging from accomplishments, the Veteran Students' Organization is weak and poorly directed. Many veterans who have previously attended Clemson, have accepted positions of leadership on the campus and will be of invaluable assistance to the faculty and administration. Some of the campus organizations headed by Veterans are: Blue Key, Tiger Brotherhood, Senior Council, Central Dance Association, The Tiger, Taps, Alpha Chi Sigma, Alpha Phi Omega, Tau Beta Pi, Block "C" Club, Phi Psi, Sigma Tau Epsilon, and Dairy Club.

Most of the old Clemson men who have returned from service are well aware of the problems of the fresnman veteran. They need the assistance of many, to inculcate the Clemson Spirit into this group who will never know the joys and sorrows of being a lowly Clemson "rat."

Respectfully submitted,

B. E. Goodale, Chairman
Student Government
Annual Report
Student Organizations Committee

May 17, 1946

The first meeting of the Committee for this session was held on August 31 to determine whether or not Clemson will be represented in "Who's Who Among Students in American Colleges". It was decided that conditions at Clemson would not warrant the selection of candidates this year. With the approval of President Poole, this decision was sent to the Editor with the statement that we hope to submit a long list for the 1946-47 Edition.

On March 11 the Committee received from President Poole a request that we look into the movement of students in forming Social Fraternities. At meetings following this request the Committee went on record as follows:

(1) Before any student organization is officially recognized an application must be submitted and approved by the Student Organizations Committee.

(2) This Committee has in the past approved student organizations whose membership is based on scholastic accomplishment or academic or artistic interests.

(3) At present the Committee does not approve the official existence or establishment of local social (as understood) fraternities and clubs.

(4) The attention of the "Committee on Student Publications" should be called to the above statements because four local social fraternities were allowed publication of membership and aims in the 1942 "Taps" and the "Tigers" has recently published records of activities of some of the clubs.

Clemson Alumni members of the Committee expressed themselves as opposed to social clubs for Clemson students and it is the consensus of opinion of the Committee that there is no place in Clemson barracks for such clubs.

On April 9 we received a request for recognition from Beta Sigma Chi, a local Greek letter club made up of students from the Charleston area and described in 1942 "Taps" as a Secret Social Fraternity. At a meeting on April 11 the Committee refused the request. The grounds for this refusal were given in the records of previous meetings, as read above. Upon receipt of Committee disapproval Beta Sigma Chi appointed a faculty advisor, and he has conferred with the chairman, and we have been assured that B. S. C. will change its constitution and by-laws so that it can be officially recognized and can continued its project of encouraging higher scholastic work among male students in Charleston County High Schools.

Continued -
At the April 11 meeting it was decided to request President Poole to "direct each student organization on the campus to file with this Committee a copy of its constitution and by-laws".

Sixteen fraternities have compiled with directive to date.

On May 2nd a census of recognized fraternities was made for the publication called "The Fraternity Month". It was found that there are

13 Professional Fraternities
7 Recognition Fraternities
3 Honor Fraternities

Respectfully submitted,

Robert K. Eaton, Chairman

Student Welfare Committee

The Student Welfare Committee and its individual members have been active during the past year.

Working most of the time as individuals, we have given personal advice, promoted dances, helped to revive Blue Key, Tiger Brotherhood and other student organizations. Some of the members have spoken to student groups in barracks, supervised elections, and counted ballots.

The Chairman has again administered the Pre-Medical Aptitude Test to students planning to enter medical school in September. He has attended more than a dozen student meetings to help revive organizations, carry out their initiations, and lend his support and counsel to students seeking to devise a workable honor system.

At the request of the Senior Council, the Welfare Committee met with student members of the Council to discuss a cut system which the Council was recommending to the President. After three meetings with members of the Student Council and considerable deliberation, the Welfare Committee joined the Council in recommending a revised plan to the President for consideration. The Chairman has received a letter from the President thanking the Welfare Committee for their efforts to correlate the thinking of the two groups before submitting this proposal to him.

The Chairman feels that the Welfare Committee has accomplished some worthwhile things during the past year.

John D. Lane, Chairman
May 14, 1946

President E. F. Poole
Clemson, South Carolina

Dear President Poole:

Report of Uniform Committee

For the second time within a period of thirty years, the Clemson students have laid aside their gray uniforms and put on the uniforms of the armed forces of this country. Following World War I, an army type uniform was worn for several years.

Within the past eighteen months two trips have been made to manufacturing centers in New York and Philadelphia for the purpose of seeking first-hand information about uniforms. The inability of the returning serviceman to purchase civilian clothing is evidence of what we were confronted with. There was not even an offer to make the type of cotton shirt worn by the Clemson cadets.

Another factor which could not be overlooked was the draft. The student under eighteen years of age would be required to invest at least $100 in a uniform which he might use for a relatively short time before being called to the service or else it might not even be delivered before that time. Then, too, the heavy woolen trousers and the cadet caps would not be comfortable for summer wear.

Even in times such as these costs should not be overlooked. For the sum of $20.00 a student may be provided with army uniform clothing from the beginning of the 1946 summer school to the end of the 1947 summer school.

The cadet gray uniforms worn by Clemson students were made according to detailed specifications based on about fifty years experience and the results of numerous tests conducted in the Textile School and by commercial laboratories. Contracts were usually made in March and soon thereafter the cloth purchased. Cloth samples of sufficient sizes, furnished with bids, were saved for comparison with the material in the completed garments. The gray cloth was the same as that used for making uniforms at the U. S. Military Academy. For the last cotton shirts used, we bought 30,000 yards of broadcloth. It was dyed and sanforized at one time so as to have the shirts all the same shade of gray. During the summer months the mills made up enough average sizes of shirts to outfit many students, thus leaving the small sizes and the large sizes to be made to order. Likewise, average sizes of trousers were cut and many were only partially finished.

Continued -
Report of Uniform Committee continued -

By having these shirts, trousers, and accessories, the tailors were able to outfit all those of average sizes with shirts, trousers, caps and belts. Coats and mackinaws were made to measure. The handwork required in the making of these uniforms added greatly to the costs as compared with civilian clothing.

Prior to the war the cadet uniform consisted of at least:
1 coat
1 mackinaw
2 trousers
6 shirts
2 caps
2 belts
1 rain coat
1 cap cover

The R.O.T.C. students are most anxious to return to the gray cadet uniform. At this time it appears this may be possible by September 1947.

Respectfully submitted,

J. C. Littlejohn

Committee: R. K. Eaton
S. W. Evans
P. B. Holtzendorff
The Commandant

May 15, 1946

Dr. R. F. Poole, Pres.,
A. & M. College of South Carolina,
Clemson, S. C.

My Dear Sir:

I beg to submit the following as the report of the Visiting Committee, for the last fiscal year.

There have been quite a large group of visitors to the Campus during the year. We have assisted the various departments in taking care of these visiting groups. There have been quite a number of conferences and conventions held here. Among them are the following: Future Farmers of America, 4-H Club Boys, Extension Service Workers, Farm Security Administration, Farm Credit Association, Textile Manufacturers, Land Tenure Conference, Farm Bureau Conference, Food Preservation School, State Convention of Reserve Officers, South Carolina Water Works Association, Upper South Carolina Methodist Annual Conference, Home Coming in the Fall, Secretary of Anderson, and a large number of government officials from Washington and the State and Annual Board of Visitors.

Continued -
Report of Visiting Committee continued -

Probably the largest gathering was for Home Coming, at which time more than one thousand, (1,000), old grads and their wives had lunch in the Field House, and the meeting of the Upper South Carolina Annual Methodist Conference, at which time more than three hundred, (300), preachers and laymen spent several days in conference here.

In addition to this there have been groups of teachers and children from more than twenty-five, (25), schools visiting the Campus. These groups are always shown around the Campus to various points of interest. In addition to the above there have been several prominent visitors from the State and elsewhere who have been shown around the Campus.

In this work we have had the cooperation of all departments concerned and it has been a pleasure to work with them in entertaining these groups.

Respectfully submitted,

J. H. Woodward, Chairman,
Visiting Committee.

May 17, 1946

President R. F. Poole
Clemson College.

Mr. President,

Your Committee on Religion and Ethics would report as follows, for the academic year 1945-46.

The Fourth Annual Memorial Service in memory of Clemson men who paid the supreme sacrifice in World War II was held in the college auditorium on December 7th, at twelve noon. The Memorial program contained the names of 345 Clemson men whose deaths were known. The names of 167 were added to those appearing in the program of the service held in 1944. Individual invitations were sent by the respective campus ministers to the parents or nearest of kin to attend this service in honor of their loved ones.

continued -
Report of Committee on Religion and Ethics continued

An appropriate form invitation was sent to the loved ones of those men whose names had appeared on the program in previous years. The response was good. The service, as in former years was broadcast, and was worthy of the occasion.

The Committee recommended to the President that if the nation observes Victory Day for World War II during the academic year, the Memorial Service for Clemson men be held on that day. If the nation observes Victory Day during the summer session, the College continue to observe December 7th, as Memorial Day for Clemson men. The President agreed.

The Committee conferred with the President in the interests of co-ordinating College and campus activities. As a result of this conference the present Calendar Committee is functioning.

The annual Religious Emphasis Week meetings were held February 11-14 inc. There was an innovation this year in that, instead of having one principle speaker, each minister invited by the four Protestant campus churches spoke at one service. Taking everything into consideration, the effort would be considered successful.

In the interests of religious education in the public schools, and in view of the fact that the campus ministers are officially connected with the college, for the sake of the record it is stated that the four Protestant ministers have conducted a course in Bible, one period each week, in the local high school, during the past year. So far as the Committee knows this arrangement for instruction is unique in our state.

Finally, this Committee would go on record expressing its appreciation to the director of the College News Bureau for including a full-page cut of the campus churches in two football souvenir programs. This is not common procedure. The Committee thinks it is good. It bespeaks the most cordial relations between these two phases of college activities.

Respectfully submitted,

Sydney J. L. Crouch, Chairman
Religion and Ethics Committee
Clemson Memorial Service
Dec. 7 1945
Valley of the Shadow

God, I am traveling out to death's sea,
T, who exulted in sunshine and laughter,
Thought not of dying—death is such waste of me!
Grant me one prayer: Doom not the hereafter
Of mankind to war, as though I had died not—
I, who in battle, my comrade's arm linking
Shouted and sang—life in my pulses hot,
Throbbing and dancing! Let not my sinking
In dark be for naught, my death a vain thing!
God, let me know it the end of man's fever!
Make my last breath a bugle call, carrying
Peace o'er the valleys and cold hills forever.

—John Galsworthy.

*MEN KILLED IN ACTION PRIOR TO DECEMBER 7TH, 1944.
FAITH OF OUR FATHERS

Faith of our fathers! living still
In spite of dungeon, fire and sword:
O how our hearts beat high with joy,
When'er we hear that glorious word:
Faith of our fathers! Holy faith!
We will be true to Thee 'til death.

Our fathers, chained in prisons dark,
Were still in heart and conscience free:
How sweet would be their children's fate
If they, like them, could die for Thee!
Faith of our fathers! Holy faith!
We will be true to Thee 'til death.

♦ ♦ ♦

ONWARD CHRISTIAN SOLDIERS

Onward, Christian soldiers,
Marching as to war,
With the Cross of Jesus
Going on before!
Christ, the royal Master,
Leads against the foe;
Forward into battle,
See, his banners go.
Onward, Christian soldiers,
Marching as to war,
With the Cross of Jesus
Going on before!

Onward, then, ye people!
Join our happy throng!
Blend with ours your voices
In the triumph song!
Glory, laud, and honor,
Unto Christ the King;
This through countless ages
Men and angels sing.
Onward, etc.
Report of the Committee on Publications and Radio

Publications

This phase of the Committee's work is under direct supervision of John D. Lane, who is making a separate report on the subject.

Radio

A. General Broadcasting

Because of the difficulties and complications during the war period, only occasional broadcasts by special organizations such as the summer school, the DAR, the UDC, and other groups have been made. The chairman of the committee has been glad to make arrangements with the station for such broadcasts.

One special broadcast worthy of note was that on Dec. 7, 1945 covering the memorial program honoring Clemson men who had given their lives in the war services. This was broadcast over WAIR and was rebroadcast over five other stations, WORD, Spartanburg; WTMA, Charleston; WCRS, Greenwood; WOLS, Florence; WCOS, Columbia.

B. Agricultural Broadcasts

Over WAIR, Anderson, the Extension Service continued during the year the broadcasts of agricultural information and suggestions which have been going on for a number of years. The broadcast is on Monday at 1:30 p.m. in direct charge of A. B. Bryan, agricultural editor. Most of the programs are now given in interview and discussion form with Bryan serving as announcer and interviewer. The Experiment Station and School of Agriculture weekly broadcast, which was in direct charge of R. A. McGinty, vice-director of the Station, was discontinued about a year ago.

C. Other Radio Work of the Extension Service

This does not come under the committee's functions but under the chairman of the committee as agricultural editor. Under the extension radio specialist, Miss Winnie Belle Holden, with headquarters in Columbia, a regular and complete program of broadcasting over most of the 15 radio stations in the state is now in operation.

The agricultural editor's office also distributes each week to the 15 stations (a) "South Carolina Farm Flashes", consisting of briefly stated timely farm news and information; (b) brief interviews and discussions by extension specialists on the basis of their WAIR broadcasts; and (c) the USDA "Farm Flashes" from Washington.

Respectfully submitted,

A. B. Bryan

May 14, 1946

Chairman
Student Publications

During the 1946 fourteen issues of the Tiger have been published, totaling approximately 90,000 copies, and mailed to 1,100 members of Iptay, a few subscribers, and to over 4,000 students and ex-students in Service. Four issues of 10,000 each were printed in order to send them to the homes of all former students eligible to return to college under the GI Bill of Rights.

A year ago, our mailing list contained the names of more than 2,500 Clemson men overseas. At present it stands at approximately 1,500. More than 20,000 copies of the Tiger have been mailed to these men.

The cost of printing and the difficulties of getting the paper printed away from home have increased during 1946.

For the first time since 1943, a student editor and his staff have edited the Tiger without supervision of the Faculty adviser. They have put out a paper twice a month during this semester.

The Faculty Adviser has conducted his journalism class once a week during this semester. Each issue of the Tiger published by the student staff has been criticised by Professional journalists from neighboring towns, the director of the News Bureau, or some former member of the Tiger staff now connected with the College.

Prospects for the future are somewhat brighter. It now appears that experienced students will return in adequate numbers to fill all vacancies that will occur in the staff.

Tentative plans are to publish a Tiger about every six weeks during the summer if practicable.

Professor Ben Goodale, who volunteered to supervise circulation during the emergency, is still doing the job.

At the request of student leaders, including two junior members of the 1943 Taps staff, the Faculty Adviser issued a blanket invitation to the cadet corps to come out for the 1947 Taps staff. Approximately twenty-five students came out and elected an acting editor and business manager, who appointed others to help lay the groundwork for the Wartime Section to cover the academic period from 1943 to September 1945. Six weeks later, another meeting was called and the Faculty Adviser supervised the election of a permanent editor, business manager, advertising manager and art editor. The rest of the Senior and all of a Junior staff are to be elected in September. The four men elected expressed their intention to begin work at once on the 1947 edition of Taps. This will be the first yearbook since the All-American edition in 1943.

Respectfully submitted,

John D. Lane, Faculty Adviser
Student Publications
May 17, 1946

Dr. R. F. Poole, President
Clemson College
Clemson, South Carolina

Dear Dr. Poole:

The Calendar Committee was formed March 18, 1946, on the suggestion of the President of the College with the purpose of formulating annual, monthly and weekly calendars to facilitate the scheduling of events in the College and community. The weekly and monthly schedules have been issued since that time and an annual calendar is now being prepared which will include all college activities from September 1, 1946 to September 1, 1947, in as far as these events have been definitely scheduled that far in advance. (Copies of each type attached).

These calendars have met with a good response and we believe that they are making a definite contribution. Their future success depends upon the continued cooperation of various individuals in notifying the Secretary of the Committee of forthcoming scheduled events.

Respectfully submitted,

James E. Ward, Chairman
ALMA MATER

Where the Blue Ridge yawns its greatness
Where the Tigers play;
Here the sons of dear old Clemson
Reign supreme alway.

CHORUS

Dear Old Clemson, we will triumph,
And with all our might,
That the Tiger’s roar may echo
O’er the mountain height.

We are brothers strong in manhood,
For we work and strive;
And our Alma Mater reigneth
Ever in our lives.

—A. C. CORCORAN, ’19
