SENIOR--FRESH GAME
CLASS OF '08 AGAIN HOLDS THE CHAMPIONSHIP.

The Championship class game of football was pulled off Wednesday afternoon, February 5, between the Seniors and Freshmen, the former winning by a score of 5 to 0, thus retaining the championship won during the past two years.

The Seniors played in their old time form, never once letting up in their work. The Freshmen fought pluckily, but their line could not withstand the almost irresistible plunges of Capt. Poag during the latter part of the second half.

GAME IN DETAIL

Captain Poag kicked off for the Seniors 15 yards. Connolly at once punted 30 yards Robertson returned 10. Seniors failed to make the required distance.

Base Ball at Clemson.
BY OUR COACH.

Prospects for a winning baseball team at Clemson this spring look rather encouraging in spite of the fact that most of the stars of last year's team are lost, and leave the important positions of shortstop, catcher and right field to be filled by the new material.

Several new men are showing up in excellent form, and the pitching staff promises to be one of the strongest ever developed in a Southern college. Farmer and Waldrop are the old twirlers back, but Lascott, Rivers, Baxter, Stokes, Wood and Richard-son are going to make the two veterans hustle to hold their positions. The catching job left

The Celebration of the 13th Anniversary of the Col-umbian Literary Society.

Promptly at 8:30 o'clock, on the evening of Saturday, Feb. 1st, the cadet band struck up a lively tune, "College Life", by which the speakers of the evening, headed by the Chief Marshall, Mr. D N. Harris, marched into the college chapel and upon the stage.

The stage was beautifully decorated with palm-tos, rubber, and numerous other hot house plants, arranged in a semicircle behind the chairs of the speakers, and blossoming flowers occupying its front edge. Behind presiding officer H. B. Risier's chair hung the life-size portrait of South Carolina's greatest statesman, John C. Cal-horn. Over 'it, floated the "Old Glory" and our dear "Palmetto Tree".

The Tiger

Classes

Senior Class

Again the Senior team rose to the occasion and gracefully defeated all competitors for the championship of class football. This is the third consecutive year the class of '08 has distinguished itself by defeating the other classes, and it is a record of which we may well feel proud.

The Freshmen played a plucky game, and with the excellent coaching they had received, coupled with the support of practically the entire Faculty and under-classmen, it was no easy job to defeat them.

If the Seniors succeed in winning the championship of the track on Field Day, their superiority in athletics cannot be questioned, and with such men as Spratt, Warren, Cannon, Marston, Pong, and Lee, the outlook is very bright.

Before very long, the second term exams, will be upon us; and the question after that is, “Are we two-thirds Alumni?”

Messrs. Tindall, Warren, and Ezell won the medals for declaimer, Orator, and Debater, respectively, in the annual celebration of the Columbian Literary Society.

One of the most deplorable incidents that has occurred in the history of the class is the indictment by the state of Mr. J. N. Napier for grand larceny. He is charged with having effected an entrance to the poultry yard of Prof. Hous-}

Junior Class

At a recent meeting of the Junior Class, a very appropriate motto for the class was adopted. The committee brought up a number of excellent mottoes, but one which seemed to appeal to the class more than any other was: “By being men of few words, we hope to be the best of men,” which was, therefore adopted by a unanimous vote. This motto, if lived up to, will certainly be a credit to the class, therefore let us, as a body of men, try to keep this in mind all the while. The class also voted a present to Prof. Gantt, to show their appreciation of his kindness in coaching the class football team. Prof. Gantt did all in his power to put out a creditable team, but owing to the fact that some of the best men were seriously hurt in practice a few days before the game, and that it was impossible to get the game postponed, it was thought proper to cancel the game instead of playing under such disadvantages.

Prof. T. G. Poats met with the Junior Electrical Science Club on last Friday evening, and gave a very interesting lecture on “Preservation of Timber.” This being such an appropriately chosen subject for those interested in the engineering courses, and so elaborately discussed, proved very enlightening to the members of the club and others present.

Mr. R. T. Gaston, who left college some weeks ago, on an honorable discharge, has returned to college and has taken up his work with more vigor than he has ever manifested before. All heartily welcome Mr. Gaston and hope that he will find no trouble in making up for lost time.

Mr. F. L. Nance, who was so unfortunate as to get his collar bone broken in football practice, some weeks ago, is again able to attend classes.

Juniors Coles and Wylie, spent a very pleasant evening last Sunday with friends in the city of Anderson.

Sophomore

The real object of class foot ball is to develop men for the next year’s team. Considering the form in which some of our men played in the recent game with the Seniors, we feel sure that there is a chance for some of them to work with next year’s foot-ball squad. Our class team labored under many difficulties this year. When the team was practically picked, and the men were playing their places—then it seemed that quite a number of them wanted to quit foot ball and join the “coughing brigade.” The first requirement in joining the brigade is to be put under arrest. These men who were put under arrest, did not get back to the foot ball team until a few days before the game. Gantt had been doing the putting, but on the day of the game he was unable to get out, therefore, we
were without a punter, and had to do the best we could.

Prof. Lewis did his duty in coaching the boys, and we feel sure that under favorable circumstances we would have put out a winning team.

The members of our class to receive block Cs for last year's Athletic work were Brown, Robbs, and Byrd.

W. S. Howin visited The G. F. C. while in Greenville on the first.

J. E. Brown spent a delightful day at his home in Pendleton on the first.

The season of class football is over and the Seniors are champions. While it was a great disappointment to us that we did not win the championship, we are satisfied with the showing that our team made, and it will encourage us to go into the contest all the harder next year.

This was the last chance of the Seniors to win the championship, while we have three more. The Seniors did not become champions until their Sophomore year, but they have held that honor from then until now.

The game Wednesday, while fast, was free from unnecessary roughness. Lokey, Britt and Gilmour played star ball.

Fellows, next year when the season for class football opens, let every man go out and try for the team. That was probably the main cause of our not winning the championship this season. Not enough men went out to try for the team. A great many went out at first, but they gradually commenced dwindling away, until when about a week before the first game with the Preps, we scarcely had enough to compose a team. 'Let not this be the case next year,' fellows. Let us all go out and try for our team, and practice hard and the championship is ours.

The baseball and track season has opened, and now is a chance for some of our classmates to win positions on either of these teams.

Most of us have played baseball before, and it is nothing new. Even if we do not succeed in making the team this year, the experience that we get will go a long way in helping us to make it next season. So let's go out and try anyway.

Prof. Calhoun desires that all men, who care to try for the track teams come out on the field every afternoon from five to six. Every boy should try to make this team. A fellow without any experience whatever, can make it if he tries hard enough and long enough.
At our last meeting, Mr. J. C. Littlejohn, the president for the third quarter, was installed. He made a few remarks expressing his gratitude to the society for the honor conferred upon him.

The debate, as usual, was snappy and well discussed. The query was one of unusual interest. The advisability of joining Winthrop and Clemson into a co-educational institution. Some pleasing points were brought out, and the debate was thoroughly enjoyed.

The officers for our annual contest were elected. This contest promises to be the best that the society has ever had. Some good men are to contest and the society expects to have a very successful celebration. The following officers were elected for the occasion:

Mr. W. M. Rosborough, presiding officer; Mr. E. V. Garrett, chief marshal; assistants, Mr. H. C. Wilburn, Mr. B. C. Wolf, Mr. T. B. Reeves and Mr. L. P. Byars.

**KLYPT.**

At the University of Virginia, a new idea has been set on foot by members of the faculty in the way of a "College Hour," a time set apart once a month for the faculty and student body to get together, get acquainted, and discuss questions of interest to the welfare of the university at large. The occasion will be informal and every student will be expected to enter into the spirit of the time, and to give what ideas he has for the improvement of college life.—Ex.

The University of Chicago Athletic Association cleared $35,000 on football this past fall. The largest receipts were $17,000 from the Indiana game and $13,000 from the Minnessa game.—Ex.

Boy—Pa. What's an informal machine?

Pa.—Why, a phonograph running at midnight, my son.—Wisconsin Sphinx. Take warning, Sapphiricus!

**THE TIGER**

**LECTURE BY E. B. PERRY**

**A PERFORMANCE BY A DISTINGUISHED MUSICIAN.**

On the evening of Friday, February 7, Mr. Edward Baxter Perry of Boston gave a wonderful exhibition of classical music on the Lyceum Course. Though blind, he studied six years in Germany and by his concert, he plainly showed his perfect mastery of his chosen profession—art in the shape of music. At eight o'clock, he began the performance by a short but well worded address of introduction in which he vividly described the origin of the piano lecture concert.

His first selection was a "Ballade in A flat," which was founded on the polish legend of "Switez Maid." It was beautifully rendered and though thoroughly classical, was highly appreciated by the extremely large audience. After a short but accurate description of the next selection, he proceeded to add another laurel to his crown by holding the audience well nigh spell bound by his lifelike reproductions of a raging fire and ringing bells. The third selection, like the preceding two, was derived from a legend; and was composed by Mr. Perry himself.

The imitation of a galloping horse, with his clanking shoes in this number, the buzz of a spinning wheel and the sounding of a fox horn in the next number; and the accurate modulations of tone to represent three voices, a galloping horse, and a raging storm in "Erl King," the fifth number were characteristics of the music and showed the skill of Mr. Perry in these exceedingly difficult selections. The ninth and closing number of the program was preceded by an excellent description, and an eloquent appeal to the young men of America to devote more of their time to culture rather than along industrial lines.

As was expressed by several, the sentiment of the audience was that, though the music was practically peerless and highly enjoyable, it was minor to his true common sense and philosophical talks between each selection.

**Science Club Meeting.**

Friday evening, January 24th, the Clemson College Science Club hold its January meeting. The program for the evening consisted in the discussion of two topics—one by Prof. Styles Q. Howard, "A Dynamometer for Testing Automobiles," the other by Prof. A. F. Conradi, associate professor of entomology, "Bug versus Bug".

Prof. Howard gave in detail the mechanics and use of the new testing apparatus by which purchasers and prospective purchasers of automobiles can satisfy themselves that the claims made by manufacturers of machines as to horse-power, hill climbing ability, etc., are true or not, as the case may be.

The subject of Prof. Conradi's paper suggests the general trend of the thought in it—to fight insect pests by means of predaceous insects which are the natural enemies of those pests. It is a striking fact that our native or indigenous insect pests are not of any considerable damage in our own country; only the introduced species are very destructive, and this is because their natural enemies have not yet been brought into the country or have not become established. This point he brought out very clearly; and by several illustrations, showed that, though spraying and other artificial means may be applied with a considerable degree of success, the cheapest and most effective way of checking the spread of an insect pest is by seeking out in the original home of the pest its natural enemy and introducing that by acclimatization. The case of the boll weevil in Texas was an illustration given. In Cameron country, the little red ant, a predaceous insect lives in abundance, and is very fond of the boll weevil as a food. As a consequence, the two cannot thrive together, and the ant gets the better of the struggle. A large crop of boll weevils means a large crop of ants; and often the ants become so numerous that the boll weevils do not supply a sufficient quantity of food for them. This ant has been distributed to other parts of...
Baseball at Clemson

Continued from page 1.

vacant by the peerless Bissell will be the hardest to fill. Without a great catcher, a baseball team is like a ship without a rudder, and every effort will be made to get a first-class backstop. "Pat" Willy performed creditably behind the bat in several games last season and the experience gained in them will be a great aid to him in landing the place.

"Strick" Coles, at first, seems to be just as fast and sure as ever, and if he strengthens his batting will be a hard man to displace from the initial corner.

Captain Lee who played at second last season, will probably be moved to his old job in center field. "Bun" is a great outfielder, and as there are several good infielders in the squad, it will probably be easier to get a good man for the keystone sack. For Tom Robertson's old job at shortstop, there are Kirby, Henderson and Crisp, of last year's team, to select from. Lafar Bissell is showing all of his old time form at the far corner of diamond, and should certainly be able to make a great race for the position.

McFadden, Brown and Sandifer will have a great fight on their hands for the vacant outfield gardens. Several new men are showing good form, and the men that can hit are the ones that will win. The squad will be cut down soon to about 25 men and that number will be held during the season.

Every man will have to work all the time, and the merc fact that he is picked to play in the early game does not guarantee any one that he has the team cinched. This should keep the whole team working at top speed all the time, as the slightest let up will cost a man his place.

Every effort will be made to

THE TIGER

(Continued from page 1)

The exercises were begun by a short and very appropriate address from President Riser, who introduced as the first declaimer, Mr. D. L. Tindal, of Clarendon county. His declamation, "The Black Horse and its Rider", was well rendered, especially as to his gestures and voice modulations. The second declaimer, Mr. B. H. Covington, of Marlboro county, delivered an excellent declamation whose subject was "Titus Quintus' Appeal to the Romans". During the short interval that followed, the band rendered an excellent selection.

The first orator, Mr. F. J. Cruder, of Orangeburg county, held the audience spellbound with an oration on "The Average Man". While his composition was a little so good as that of his competitor, Mr. G. Warren, of Colleton county, whose appropriate gestures made his oration on "Christian Manhood" the most striking event of the evening. Another selection from the band and the debate was taken up on the Query, "Resolved, that private ownership of street cars, light and water plants is the best policy to be followed by American cities". This subject, which is so much thought of by our public men of today, presents many debatable points which are very well balanced on both sides. The affirmative side was presented in a very logical and attractive form by Mr. F. L. Martin, of Horry county. After his detailed and forcible argument of twenty minutes, the negative side was presented by Mr. S. J. Ezell, of Spartanburg county. He hotly contested every inch of his ground and showed very clearly that evil would result from monopoly, and that all things for the public good should be governed by the public. Both debators cited several incidents to prove their points, and Mr. Ezell closed his argument with the time-worn truth that "Competition is stifled by Corporation".

The judges, Professors Bradley, Martin and Poats, after a short consultation, returned with their decisions and the medals. Prof. Bradley, with a few well-chosen words about coming second in a contest, praised all the speakers and presented the medals to Messrs. Tindal, Warren and Ezell.

POSTSCRIPTS

Senior Thomas: "What is a reduced phosphate?"

Pike Lewis, "It is a phosphate that has had a row with Capt. Minus."

Prof. Newman: "Mr. Frasier, how many cars are generally found on a barren stalk of corn?"

Judge, "Two I think, sir."

Senior Ezell: "Say, What princess was it that married Gladys Vanderbilt?"

Prof. Carter Newman, speaking of a very rare plant that only a few scientists had seen, was interrupted by Junior Wolff, who said that it must be very rare as he had never seen it.

Weathersbee, writing editorials for the Tiger, "If I had a chew of tobacco I could get some inspiration."

Harry K., "I didn't know you had to put tobacco juice on the Tiger."

Rat Mappus, "I almost broke my leg in that foot ball practice yesterday."

Rat Lunz, "That's nothing, every bone in my stomach feels like it was broken."

Prof. Morrison, "Mr. Jones, where is the Erie Canal?"

Fresh Jones, "It connects New York and England."
Local talent receives very little encouragement from the Faculty at Clemson. At the celebration of the anniversary of the Columbian Literary Society, there were scarcely a half dozen residents of the hill present. It may be that the professors felt that they could not endure the boredom of listening to the crude and unpolished speeches of students, but if that was the reason for their absence, we can assure them that they need entertain no such ideas in the future. In our poor opinion the exercises were a credit to any institution. But still we may be unjust in our surmises—it was rather cold. The students turned out almost en masse, and they are to be congratulated upon the excellent, orderly and attention throughout the evening.

In the elections of officers to fill positions in athletic organizations, personal prejudice should be entirely eliminated. Athletics is the main medium by which the standard of a college is maintained, and every student should lay aside all questions of personal like or dislike, and strive to place the men of most ability in the positions of greatest trust. A man may be popular among his fellows and have the ability to fill fairly well a certain athletic position, but still there may be another man who is a little better qualified to fill that position. Then it is every student's duty to vote for the better man. Factions may be all right in some cases, but in athletics they should not come into evidence. If a man demonstrates his ability in a subordinate position, he should be given the advance to the high place.

Base ball and track practice has begun in earnest. There is some good raw material on the diamond and over the track, and when the coaches get the men hammered into form, Clemson will have good chances for success in both branches of spring athletics.

Coach Shaughnessy is working hard to turn out the best baseball team Clemson has ever had, and it is up to the student body to support him. Every man that can play ball should go out and try for the team. Of course everyone cannot make the team, but the more competitors the better the chances are of getting a good aggregation.

Dr. Calhoun, the father of football, and Jack Shaughnessy will coach the track team again this season. In former years track athletics at Clemson were relegated to the back ground, foot ball and base ball being considered the all important sports. Dr. Calhoun, however, by his untiring efforts, has succeeded in arousing considerable interest in track sports, and the success of the teams last season is convincing proof of Clemson's ability to win honors in this new field.

For the third consecutive year the Class of '08 won the class championship. This is a record that the Seniors can look back to with pride, especially as every game that they have played since they were Freshmen resulted in a zero score for their opponents.

**METHODIST CHURCH IS ORGANIZED**

Recently, the quarterly conference of the Clemson College Methodist Church was held here, Rev. A. J. Cauthen, the presiding elder of this district being present. The meeting was held for the purpose of organizing the church at this place, of which Rev. J. H. Graves is the pastor.

The organization was perfected by the election of the following officers:

**Trustees**—S. M. Martin, chairman; T. W. Keitt, secretary; and treasurer; W. W. Klugh, H. M. Stackhouse, J. N. Hook, W. C. Tucker, J. H. Hook.

The above trustees were appointed a building committee and instructed to secure plans for the approval of the quarterly conference so that, when sufficient funds can be had, the work on the church edifice can be started. It is planned to erect a building costing between twelve and fifteen thousand dollars. Mr. Graves is at present away from the college and in the lower part of the state collecting funds for the building.

Phillips in chemical laboratory, "Lykes, give me a cleated (pleated) filter-paper."

Prof. Hunter wants a fifty calibre electric light"
"Gus" Keasler, of football fame, was a visitor at Clemson recently.

Mr. Anderson, the photographer for the '08 Annual, paid Clemson a short business trip recently.

In a hard fought football battle on Feb. 5, the crack Senior team defeated that of the Freshmen by a score of 5 to 0.

Mr. Jacobi, representing the Rothschild Tailoring Company, of Greenville, S. C., was here recently, with a large line of samples for spring and summer suits.

Miss Catherine Cox, who for several weeks has been a guest at the home of Professor and Mrs. A. B. Bryan, has returned to her home in Atlanta.

Mr. F. H. Clinkscales, who for some time has been doing a large mercantile business here, has sold out to Mr. Winslow Sloan, who has also been doing a large amount of business.

Mr. S. C. Stewart, of the class '02, visited Clemson a few days ago while on his way home from Pittsburg, Pa. He had with him a wife to whom he was married a few weeks ago.

The Clemson College Baptist church was organized a few days ago, and preparation is now being made for the erection of the church. From the number of churches to be built in the near future, a great moral change is coming to Clemson.

The 13th Anniversary of the Columbian Literary Society held in the Memorial Hall on Feb. 1st is considered to be one of the very best exercises of its kind that has ever been given at Clemson.

Mr. W. C. Tucker has organized a large class in book-keeping and is now in a fair way of making Clemson more purely industrial than ever before. This has nothing to do with the regular course, but it is hoped that it will soon be instituted in the regular courses.

Mr. W. M. Forest, who holds the chair of Biblical History and Literature in the University of Virginia, visited Clemson several days ago and spent a week with us. While here he delivered several interesting and instructive lectures on several prominent Bible characters.

Rev. W. H. Canada, a noted missionary from South America, was here recently. While here Rev. Canada gave a very interesting lecture on Brazil and its moral conditions. He is home on a short vacation, and will in a few days, leave his old home at Taylors in Greenville County, and go back to the wild land of diamonds and pampas grass.

Coach F. J. Shaughnessy who coached our last season's football squad so successfully, and who, since the Thanksgiving game in Atlanta, has been visiting several of the large Northern cities, has arrived on the campus to enter upon his duties as coach of our baseball team. We are glad to see Coach Buck in our midst, and know that we shall have a well trained team this spring.

At a mass meeting in the chapel several nights ago, block "Cs" were awarded to those men who came up to the requirements for that honor on last season's football, baseball, track teams.

In regard to the wearing of "Cs" Prof. Gantt stated that no one who had not won this block "C" on the field had the right to wear a single "C" of any size or description. Group letters may be worn without conflicting with the rules of the Athletic Association.

With the coming of the spring days the track team has begun its annual practice. When the first call for practice was sounded by the coach, Prof. Culhoun, a large number of men reported on the field. Counting old and new men, there were about seventy-five who reported for work.

For the first week, practice will be light, for the track is not in good condition. This, however, will be fixed as soon as possible, for Dr. Mell has promised to have it put in good shape.

There are good number of last year's team back. Among them are: Warren, Cannon, Truluck, Pog, Byrd, Pridmore, Boykin, Harris, Spratt, Barrett, Hanckle, Windham, Fleming, McLaurin, Shealy, Marston, Roseborough and Riser. Besides these there are a number of new men who show promise of making good.

The team has for its captain, "Jack" Spratt, who, combined with his knowledge of the game, and his ability, will undoubtedly make a fine man for the place.

Manager Fraser had secured for team meets with the following institutions: Georgia Tech, U. of Ga., and the U. of S. C., and is now negotiating with the track managers of Furman University, and the U. o' N. C, no official schedule can as yet be published.
Senior-Fresh Game

ance, so Robertson punted 30 yards. Webb being downed in his tracks by McCaslan. Webb and Lokey failed to gain, so Connelly dropped back to punt, but the punt was blocked. Connelly recovering, 1st down for Freshmen. Venning gains 3 yards around right end, and Stokes fails to do any damage on a tackle over tackle play. Connelly then punted 20 yards out of bounds. Poag hit center for 5 yards, but on a fumble, the freshmen secured the ball.

Lokey backed for 2 yards, and later failed to gain. Again Connelly's punt was blocked, this time by Poag, and again Connelly recovered. Lokey hit center for 2 yards, and later circled left end for 7 yards. Gilmer made it first down by annexing 2 yards. Venning and Stokes failed to gain, and Connelly, on a fake punt, was thrown for a 7 yard loss by Pratt. Robertson lost 2 yards on end run. Robertson then punted 40 yards to Webb, who signalled for a fair catch but McCaslan interfered, the Seniors being penalized 15 yards for the interference. Connelly punted 25 yards to Robertson. Riser made 3 yards on tackle over tackle. Pratt no gain. Robertson's punt was blocked, the Freshmen securing the ball, Lokey hit center for 2 yards. The foward pass did not work very successfully for the Freshmen so they were penalized 15 yards. Connelly punted 55 yards, Freshmen recovering the oval. Ball now on Seniors 35 yard line. Gilmer makes 2 yards on tackle over tackle play, but Lokey fails to gain. Connelly then punts 20 yards, Robertson being down in his tracks. Freshmen penalized 5 yards for being off side. On fake pass, Robertson looses 3 yards. Robertson's punt was blocked, but Mace fell on it. On the next attempt, Robertson booted 25 yards. Gilmer made 3 yards over tackle. Lokey adds 2 more, and Connelly, on a fake punt, fails to gain. Half ended with ball in Seniors possession on their own 30 yard line.

SECOND HALF

Webb kicked 35 yards, Robertson advancing 20 yards on the first play, McCaslan fumbled, Freshmen securing the ball. Freshmen failed to gain, so Connelly punted 20 yards. Ball on Seniors 10 yards line. Robertson booted 25 yards, Webb being downed in his tracks, Lokey failed to gain so Connelly punted 10 yards on a fumble, the Freshmen secured the ball. Growther backed over left tackle for 4 yards and Stokes made 3 more over right tackle. On a double pass, Webb to Connelly to Lokey, Lokey was thrown by Poag for a 10 yard loss. Robertson booted 30 yards. Stevens dropping the ball, and Seniors recovering. Poag hit center for 4 yards. Fai led to make the distance. Robertson punt ed 30 yards. Webb signaling for a fair catch, but let the ball drop. He recovered. Connelly punted 30 yards. Poag backed center for 10 yards. Tindall dittoed for 8 Seniors fumbled but recovered, making first down. Ball now on 45 yard line, with only about 3 minutes to play. Capt. Poag, by a series of line plunges, carried the ball over for the only touchdown of the game, the last down being made just as the whistle announced the end of the half. Poag's gains were as follows:

5 yds., 4 yds., 7 yds., 6 yds., 3 yds., 5 yds., 8 yds., 8., and the remaining distance, 1 foot, carried the ball over.

Robertson failed at easy goal.

LINE UP

SENIORS     FRESHMEN

J. C. BEARD, Prop.
The series of Bible lectures given by Prof. W. M. Forest of the University of Virginia were perhaps the best of their kind ever heard at this place. The subjects of the lectures were as follows: "Amos the Shepherd Prophet," "Hosea the Prophet of Love," "Isiah the Statesman Prophet" and "Jeremiah the Prophet of a Lost Cause." Prof. Forest handled these subjects in a masterly manner, and his efforts will prove of great educational value.

At the annual business meeting of the association on Feb. 9, the following officers were elected to serve for the ensuing year: J. C. Pridmore, president; G. W. Keitt, vice president; S. O. Kelley, treasurer; W. J. Marshall, secretary.

These are all strong men, and under their leadership, we predict for the association the very largest measure of success. The following gentlemen were elected to fill vacancies on the advisory board:

Dr. R. M. Brackett, Prof. Bryan, whose term expired, was elected to fill the unexpired term of Capt. Clay. Mr. J. E. Johnson of the class of '06 was elected one of the Alumni members of the board. The other members of the advisory board are: Col. R. W. Simpson, Dr. Mell, Prof. Daniel, Prof. Hunter and Rev. B. R. Turnipseed.

At this meeting, reports from the various committees were read and these showed that the Association has made a remarkable growth during the past year—in many respects surpassing anything that has been accomplished by any other Southern College.

On Saturday evening Jan. 25, a conference of the Bible class leaders was held in the association hall for the purpose of discussing the Bible study situation and to formulate some plans for enrolling more men in Bible study. At the conclusion of the conference hot chocolate and cake were served, thus adding pleasure to a very profitable meeting. On the following Saturday evening a similar conference was held for the Bible class secretaries.

As a result of these two meetings, something over fifty men who have not been taking Bible study were enrolled in classes. The Bible study enrollment now numbers 425. Many thanks are due the ladies of the Hill who so kindly furnished the cake for both these occasions.

On a Tombstone.

THE TIGER

BY FRESMEN IN FAST AND INTERESTING GAME.

One of the most interesting and exciting games of football was played Saturday afternoon between the Fresh and Prep teams. There was to be a double-header between the Juniors and Seniors, Fresh and Prep; but much to the regret of many, the Juniors forfeited to the Seniors and disbanded for the season.

Promptly at 3 o'clock, Webb for the Freshmen, kicked off 35 yards to Griffith who fumbled, Britt covered the ball. Fresh's ball on Prep's 25 yard line. Gilmer then gains 4 on a beautiful tackle play, while Lacey bounces for 3, and Stokes makes it first down. Gilmer again given the ball but fails to gain, Stevens loses on end run, Connelly punts 15 yards to Goodman. DuRant tears off 5 yards through center, while Cromer fails to gain. Capt. Goodman bounces 20 yards to Stevens who is thrown for a loss. Capt. Lokey bounces for 2, while Stokes gains 1 over tackle. Connelly punts 10 yards to Goodman who is thrown for a loss. Boulware is thrown for a loss on end run, Goodman punts 40 yards, Webb goes around left end for 5, while Capt. Lokey goes for 40 on fake back. Stokes adds about a foot over tackle, while Connelly goes around Right and for a touch-down on a fake kick. Webb fails at goal.

Second Half.

Goodman kicks 40 yards to Crowther who brings it back 15. Connelly gains 15 on a beautiful fake around left end. Lokey then bounces for 9, and Crowther 5 and 6 respectively, Gilmer gains 2 over tackle, while Lokey makes it first down. Webb tries a quarter-back run, but loses the ball on a fumble when tackled. Boulware fails to gain on end run, Goodman punts 25 yards to Connelly. Venning bounces for 4, Gilmer one, and Connelly punts. Webb for Prep makes 8 on tackle over tackle play, while Cromer bounces for 5 more, Gilmer does likewise, but DuRant gets vicious and bounces for 10, but sprains his ankle and is substituted by Cochran. Webb teases off 3 more while Cochran is called on and responds by giving 2 yards over tackle, Cromer adds 2, but fails on next attempt, and Goodman kicks 15 yards. Lokey works a trick play for 10 around left end and repeats the same play around right end for 30 more. Lokey is again given the ball and on 3 successive bounces carries it 18 yards. Crowther is called on, gains 9 over tackle. Connelly skirts left end for 15 more, behind beautiful interference, Webb tries quarter-back run but gains only 1 yard. Stokes adds 3 more on a tackle swing to the short. Connelly loses on fake kick, Ball goes over. Goodman kicks from behind his goal line for only 15 yards out of bounds. Capt. Lokey rips off 5 ones guard, and Stokes on a magnificent tackle play full of “hiking” carried it over for the third touch down. Webb kicked goal. Score, Fresh 17, Preps 0.

**THE TIGER**

work of Pratt, the Seniors made two touch downs.

The condition of the field was such that to kick goal was impossible. Therefore, the score was only 10 to 0.

For the Seniors, Pong did excellent work. His line backs were splendid, and all during the game he evidenced good head work and was in the game always. To Pratt, should be given a great deal of honor. His defensive work was good and he ran interference well. His touch down was a clever play.

For the Sophomores, McLaurin, at full back, was a wonder. He advanced the ball well and was a stone wall to get around. He would look good to any coach, and with training, he would perhaps be a great find for next year’s team. Evans, at half, played a good defense and he could always be called upon for a game. Byrd, at end, was swift and tactics well. Brown, at quarter, and Goodwin, at half, both deserve mention.

Every man played well, and his efforts were appreciated by the enthusiastic onlookers. Had it not been for a little misunderstanding concerning a mistake in lining, the game would have been a complete success. This affair was uncalled for and very unbecoming. If any mistake was made, it was an accident, and no remarks should have been made.

Texas with success. Often though, such a large number of natural enemies are developed on account of the large crop of the pest, that upon the destruction of the latter, there is no danger lest the beneficial insect should be starved to death. This should be attended to and a supply of the species always kept on hand.

The cabbage louse and melon louse are other instances cited. They both have the same natural enemy, the lady bug. If a crop of rape be planted previously to the planting of the melons, and near the same place, the cabbage lice infesting it will be sufficient food to grow a sufficiently large number of lady bugs to control the melon lice when they occur. If the rape be killed at this time the lady bugs are forced to migrate to the melon patch and feed upon the melon lice. In the future, the principal aim of economic entomology will be the introduction and propagation of the natural enemies of the insect pests with which we will have to contend.
