Regular Meeting Academic Senate  
June 4, 1917.

Meeting called to order by City Director Ports 4:10 P.M. Mr. Bramlett was absent excused.

On motion of Prof. Daniel the following resolution was adopted: That it is the sense of this faculty that there is no need for a director of the Academic Department further than to have as an acting director a presiding officer who shall serve as a channel for the transmission of reports, notices etc. and have supervision of general care of the rooms, halls, etc. used by the department.

On motion of Prof. Daniel the following resolution was adopted: That it is the sense of this faculty that the placing of the professor of pedagogy should be determined by the character of the work he is to do. If his work is to prepare teachers in general, he should be a member of the Academic faculty; if he is to prepare teachers for special subjects, he should be attached to that department with which his work is most closely connected.

Prof. Martin offered the following resolution which was adopted: That in view of the enormous high cost of living and the further fact that all salaries in practically all professions and industries have substantially increased and the still further fact that some salaries in this department are lower than they were 25 years ago, we request the President and the Board of Trustees to take under consideration the
greeting of increasing the salaries of the teachers of the Academic department.

Faculty adjourned 6:10 PM.
