A CHANGE IN THE PRESIDENCY OF CLEMSON

PROF. RIGGS TO SERVE UNTIL A PERMANENT SELECTION IS MADE.

With the beginning of the year 1910, there takes place one of the most important changes in the history of Clemson College. Dr. P. H. Mell, who has for seven years served as president of our beloved institution, has retired to private life, and proposes to devote the rest of his life to collecting data and making scientific researches.

In his farewell address, Dr. Mell expressed to us his thanks for the kindly feeling and hearty co-operation of which he has always been the recipient. He said that he felt a particular interest in Clemson on account of the fact that it was the last time that he would ever be associated with college work; and despite the fact that he is a Georgia man, he signified his intentions of ever remaining loyal to us in our athletic contests by appearing on the side lines, and wearing Clemson colors.

We wish for both Dr. and Mrs. Mell a most pleasant future in their new work and surroundings, and hope that they will frequently pay us a visit to Clemson, where their work and friendship is valued so highly.

The trustees, having accepted the resignation of Dr. Mell, at once went to work to find a suitable man to fill the vacuum. A committee was appointed for this important task, and having made diligent inquiries concerning the fitness of numerous applicants from prominent educators throughout the South, failed to find among that number the man that they thought was fitted for this particular position. Therefore, Col. M. B. Hardin, the Senior member of the Clemson faculty, was asked by the trustees to act as president until they could make a permanent selection. But on account of his already heavy work, and the numerous responsibilities connected with the position, this grand old man refused to accept. Accordingly, Prof. W. M. Riggs, director of mechanical, civil and electrical engineering, was unanimously elected by the board of trustees to act as president until a permanent selection could be made.

Notwithstanding the fact that Prof. Riggs is a very busy man and is so much in love with his present work, we are particularly pleased to note that he had loyalty and ability enough to be induced by the Trustees to accede to their request.

The selection of Prof. Riggs came as no surprise to the students and the friends of Clemson; for he has been at Clemson for over fifteen years, and has always been recognized as a man of unusual ability both as an educator and a man of rare executive power. He has had charge of the mechanical department since his connection with the college, this department ranks along with the best of its kind in the country. It is known to be a fact that graduates in this course, with a recommendation from Prof. Riggs, will give the holder a position in preference to a Cornell man or a graduate of a similar institution.

Not only has Prof. Riggs brought the engineering course to a high standard, but on account of the fact of his being a graduate of an Agricultural and Mechanical institution, he recognizes the fact that agriculture is of supreme importance at Clemson, and it has always been his ambition to see this feature of our college brought to a higher standard. Being a South Carolinian and having resided the greater part of his life in this state, and allied with her interests in all kinds of educational work and various other pursuits, we feel that the trustees have made no mistake in selecting Prof. Riggs as the temporary head of the state Agricultural and Mechanical college until the permanent president is chosen.

We assure the trustees that their action in this matter meets with the hearty approval of the stu-
dent body and the friends of the institution. On account of Prof. Riggs’ relation with the student body in athletics and various other college activities, he is near to each and every one. Not only has he brought athletics to the high standard, which has made Clemson recognized throughout the entire south, but, at the same time, he has kept our different teams free from professionalism and unclean athletics, which has clouded the names of many of our Southern colleges. Therefore, be his administration long or short, we voice the sentiment of the entire student body when we say that every student stands ready and willing to help make his administration a success in every particular. Suffice it to say, that without such a spirit manifested by a student body, no college president could ever make his work a success.

RESOLUTIONS

At a meeting of the Clemson College Alumni Association and former students of Clemson, at a dinner in the Union Station dining room in Columbia, on Wednesday night of the 1908 State Fair Week, the following resolutions were adopted:

[CONTINUED ON PAGE FIVE]
you join a society, you will never become a member. That is the purpose of society work, to give training and experience in speaking. This is an invaluable factor in any college man's career. No man has ever said he regretted being a member of a society, but how many have been the expressions of regret from those who did not join.

The annual celebrations of the societies will soon begin. It is the duty of every member who can to take part in these exercises, and make them a success. Nothing is more conducive to increasing society spirit than a good, lively celebration. Then, again, these celebrations are a good indicator of the work done by these organizations. Heretofore, the annual exercises have been excellent, but with a little work, there is no reason to doubt that this year's will be up to the usual standard. Several of the men who took no part in the contests last year are going to enter again this year. This is sufficient to make this session's celebrations good.

This issue of "The Tiger" contains the constitution and rules of the "Clemson College Association of Ex-Students." This organization was begun in Oct. 1908, and was perfected in Nov. 1909. The ex-students of Clemson have felt the need of such an organization for several years, and have, through their perseverance and work, succeeded in the establishment of it. The purpose of the organization is for the promotion of the interests of both the old students and the college. However loyal all the former students may be they cannot effect, separated as they are, nearly so much for their own welfare, and for that of the College, unless they become members of this organization. Every man that goes out from the College, whether he be a graduate or not, wants to see Clemson prosper, and wants to do all in his power to make her prosper. Now, the best way to aid in this prosperity is to join the Clemson College Association of Ex-Students.

Under the supervision of the present officers and committees, there is assured success for the Association. The officers were carefully selected, and those best suited for the various places were elected and installed. The members of the Association feel that they have made wise selections, and the duties of each office and committee will be performed with zeal and earnestness. Under the present administration, the membership should show a large increase. Those who have attended the College only for a year, or two should feel it their duty to become a member, the
same as that of a graduate. No one should feel that because he does not possess a diploma that he should not join this worthy cause. It is for all Clemson students, taken as a whole, and none should hesitate to become members.

The place of meeting has been wisely selected, and placed at a date when it will be possible for the largest number to attend. Coming, as it does, during Fair week, each meeting should have a large attendance. A large attendance means more members and more enthusiasm. Every member should be able to attend at least once in every two or three years. It will be the duty of each one to attend as regularly as possible; as well as to look after the individual members interests, to further the cause of the Association, and to do what is in his power for the good of the College. For the Association, we predict an organization of prosperity, and one from which much good may result.

SILVER SERVICE
RETIRED PRESIDENT WILL RESIDE IN ATLANTA.

On the afternoon of January 3, there was a gathering of the citizens of the campus in the college parlor at which Prof. W. M. Riggs presented to Dr. and Mrs. P. H. Mell a handsome silver service as a token of the love and esteem in which they are held by their many friends at Clemson. Prof. Riggs made a very appropriate speech which was feelingly responded to by both Dr. and Mrs. Mell. Dr. and Mrs. Mell, after a residence of seven years at Clemson, leave this week for their new home in Atlanta, with the best wishes of all for the greatest happiness and success.

Watch the Tigers when they begin practising.
Clemson’s Coach
Joe Holland, Edgefield boy, will instruct Clemson.

Joe Holland, who will coach the Clemson baseball team this spring, is one of the best of the many baseball players South Carolina has contributed to the national game. Holland is from Edgefield, and has played in the Carolina, the Cotton States, Southern and Virginia leagues. Last season, he was with the pennant winning Roanoke team, and his good work contributed in no small measure to the success of the Roanoke bunch.

Holland played a great game at Clemson, taking care of third base a few years ago, but as a football player he was a star of the very first water. He was a terror on the gridiron, although as a baseball player he was a complete success as is evidenced by the fact that he is brought back to teach future illustrious Tigers the ways of the game.

Holland is an outfielder now, and plays a fast game in the gardens. He can hit the ball too, and his satisfactory work was a figure in the stand Roanoke took in the pennant race in the Virginia league. He will make a good coach for Clemson and his many friends in Columbia would like to see him in a Columbia uniform.

An effort was made by Manager Granville to land him for the local club last season, but the Mobile club, to whom he belonged, and the Columbia manager could not agree. Later Shaughnessy, the Roanoke manager, and a former Clemson football and baseball coach, pulled off a deal with Mobile that sent Holland to Roanoke. Several South Carolina ball players were on the Roanoke team, Pressly and Robertson playing there, with Holland, Touchstone, who played with Greenville, and Newton with Charlotte, both of whom were drafted by Cleveland, were also on Shaughnessy’s team.—The State.

The boys will do the work.
In the meantime give them your support.
Get all the new men out.
Endeavor to have the old form of baseball.
Remember that success depends upon you.

DOPE

What is the next thing?
Baseball! baseball! baseball!
Track! track! track!

Dr. Calhoun is going to put out another successful track team. Now it is up to the students to make this team self-supporting.

From what we have learned and know of Joe Holland, he is the man to put out a winning bunch of Tigers, on the diamond.

The baseball schedule will probably be published in the next issue of this paper, as the manager has about completed it.

Under the leadership of Captain Kirby, we expect nothing this side of the pennant. Remember, however, that one man cannot do the whole stunt.

I lay upon my bed a-thinking,
Of the sorrow each meal had brought,
And my eyes were kept a-blinking,
As the duty of each meal was wrought.

First, in the early morn,
I sat down to the breakfast spread:
But soon I wished I’d never been born,
For the effect left me half dead.

A little later, I began to increase in power,
And, in this, I was not so badly wrong,
For by the dinner hour,
My appetite was quite strong.

But I was doomed to disappointment,
For the table was quite full,
And I chewed, and chewed to my contentment,
But made no impression on such unruly bull.

So silently, I resolved to wait,
For the bounteous evening tea,
But what was the use of my having a plate,
When there was nothing there for me.

Alas! the end 'tis quite sad,
For all the tables were so bare,
And of the mess-hall, I had had
A very true “nightmare.”
Calhoun Literary Society.

The evening of January 7 found the hall of the Calhoun Society well filled, and found some of the speakers with papers which had been prepared more or less hurriedly. The exercises were not characterized by their usual snap and vigor; their lack of spirit may have been attributable to a holiday excess of what we have lately heard called “fruit-cake and femininity.” Certain it is however, that while the exercises were unusually brief and not remarkably brilliant, yet they were mirth-provoking from start to finish, and were thoroughly enjoyed by the large house, which seemed to be in the mood for looking at the funny side of everything that was said. Even the presidential dignity suffered.

Exceptions to the general character of the speeches were Mr. Altman's excellent essay, and Mr. Inman's thoughtful oration. Mr. McKeown, as a volunteer debater, was largely instrumental in overthrowing the opposing regulars. It seems remarkable that a debate on the advisability of admitting women to the public professions should provoke no irregular discussion on the part of the house; but the assembly at this point took on the aspect of a Quaker meeting, wherein no one was moved by the spirit to say anything. It is the sincere hope of the Society's well-wishers that at the remaining meeting of the session, the aforesaid spirit shall become more active and energetic.

The extemporaneous speeches were up to the average. The declaimer's contribution to the society's welfare was gratefully received by the treasurer.

It was with regret that the Society heard the secretary instructed to drop from the rolls the name of Mr. J. Z. Blake, honorably discharged. In the absence of Mr. Sitton, Mr. Crawford discharged the duties of secretary.

The Columbian Society.

In our last December meeting the president was absent, and Mr. Carothers, being senior member, called the meeting to order after which he was elected by the society to act as temporary president.

Being near examination week, the meeting was short, but nevertheless, interesting.

The query: “Resolved, that the negro of Africa will some day be superior to the Americanized Negro” as discussed by Messrs. W. H. Hanckel, J. F. Ezell, and J. M. Buckner, for the affirmative, and Messrs. J. B. Keith, B. B. Harris, and C. J. Hayden for the negative.

The house, as well as the judges, decided that the negative won the debate.

A meeting of the society was later held to select the contestants for the declaimers medal at the annual society contest. The following men took part in the exercises: L. C. Harrison, C. J. Hayden, J. N. Carothers, W. M. Wiggins, F. H. Aull, J. B. Keith, and W. M. Wall. After consideration, the judges decided that Messrs. Aull and Keith were to represent the society.

At our first meeting in January, our president, Mr. Johnson, gave us an exceptionally good address. He impressed upon the society the responsibility which every college man holds, in a very forcible manner. If we follow his advice, there can be no doubt that the year 1910 will be a most successful one.

Junior Class.

Another year has passed, we are drawing nearer the goal, and though it is more than a year ahead of us, we must come to realize that we shall have to do the greater portion of the remaining work during the present year. It behooves us then to make, at the beginning of this new year, determinations and resolutions to master everything with which we come in contact. For those of us who are prone to become discouraged it is well to remember that others have accomplished the same things that are now facing us. With good work the remaining five months of this session, there can be little excuse for any of us not entering the Senior Class.

Everybody reports a nice time during the holidays, and seems to be in fine spirit to go back to work again.

It will be recalled that Mr. S. G. Venning left school during the past term on account of his father's illness. We regret very much to know that Mr. Venning will not resume work here.

Among those who spent the holidays at the college, were Messrs. Eagerton, H. C., Stickley, J. P., and Wiggins, W. M.

Our president, Mr. B. B. Harris, spent the holidays with his roommate, Mr. W. H. Hanckel, at Charleston. Mr. Harris reports a very nice time.

It is almost time to get out a class football team, and it is up to every Junior who can give his aid and time towards putting out the winning team. Our class has the material if it is only put in the right place. At a meeting of the class a short time previous to the holidays, Messrs. White of the Senior class and Gilmer of the Junior class were elected as coaches for the team. With these coaches, we should be able to do some good work.

Sophomore Class.

The Fresh and the Soph.

A Freshy as green
As ever was seen
Approached the college door,
And into his eyes
Came a glad surprise
At sight of a Sophomore.

"Good luck," quoth he,
"Most surely to me
The fates have kindly sent;
For who can doubt
That I am about
To meet the President?"

With heart all abeat,
Yet scorning retreat,
He passed through the sacred door;
And even though death
Seemed stealing his breath,
Addressed he the Sophomore.

"The President, sir,
You are, I infer,
Of this dispenser of lore;
I'm here, as you see,
To take a degree,"
Said the Fresh to the Sophomore.

With rage quite insane
The Soph clutched his cane
And thumped it half through the floor.
"The President, sir!
You impudent cur!—
Why, I am a Sophomore!"
