Report of the Committee on the Norris Medal.

1st. It is the opinion of the committee, after careful examination of the extract from Col. Norris' will, that the testator had in mind the college at large: therefore your committee recommends that the medal be awarded to that student from the college at large who merits the same upon graduation.

2nd. That the award shall be based upon scholarship and meritorious conduct, as indicated by the average session marks of each year covered by the period of competition.

3rd. That the period of competition shall embrace the last three years of college life.

Respectfully submitted by

Chairman of committee.

May 7th, 1908.

Committee.
