DR. DeWIT MILLER'S LECTURE

The Fourth Lyceum Entertainment.

On last Saturday evening in chapel Dr. DeWitt Miller gave a lecture as the fourth Lyceum attraction. This was the third time that many of us had heard Dr. Miller speak, so we knew that a treat was in store for us. Although the night was cold and disagreeable, quite a good audience was present to greet Dr. Miller.

The speaker's subject was "The Uses of Ugliness," which he treated at some length as applied to individuals and notions. He spoke at some length on the Chinese immigrants. He said that the Chinese were imitative, and that they knew nothing only their old oriental customs. He said that they were honest, law-abiding people, but that when they came to America that their purpose was only to better their condition, and that their heart was not in their work—that they were not the desirable citizens that we Americans wanted—and that we wanted them only across the Pacific ocean from us.

He thought the Europeans were a more desirable class of immigrants and that if they came to America to make their homes, that they were the people that would make citizens and help the Americans solve their problems.

The speaker dwelt at length on the results of the war between the States. He said that both parties were right in their views, and that both parties made an honest fight; but that none of us would change the results.

Dr. Miller spoke in his usual forceful manner and seemed at his best during the entire evening.

All those present seemed to enjoy the lecture to the greatest extent, and many of us will gladly look forward to the time when we can have Dr. Miller with us again.

Bill Connelly is now giving Garrett a close race for sport of the Senior Textile section. We are watching the race with interest.

"Wreck" Gilmore received a letter a few days ago, bearing the handwriting of a paternal ancestor. Upon opening it, he found a crisp five-dollar bill. He brightened up around the gills and began to read the epistle. The first sentence read as follows: "Turn the enclosed five dollars over to Rev. M. B. Kelly." Broken Heart!

THE COTILLION DANCE

On Friday evening, December the second, the Cotillion Club gave its annual fall dance at the Agricultural Hall. The hall was beautifully decorated in white and light green colors, with a profusion of potted plants tastefully arranged throughout. At one end of the hall the orchestra was half concealed by a bank of palms and rubber plants, adding a romantic effect to the music which issued therefrom.

Refreshments, consisting of salad, sandwiches, and coffee were served in the upper hall at midnight.

Among those present were, Miss Emma Jenkins of Pinopolis, with Mr. Joseph Jenkins; Miss Sadie McPhail of Pendleton, with Mr. F. H. Jeter; Miss Vina Patrick of Anderson, with Mr. A. P. Fant; Miss Alice Stirling of Pendleton, with Mr. O. B. Brodie; Miss Kitty James of Converse, with Mr. T. C. Redfern; Miss Elsie Thompson of Greenville, with Mr. J. A. Dew; Miss Luella Sloan of Anderson, with Mr. J. Y. Scruggs; Miss Bette Duke of Rock Hill, with Mr. M. F. LOCALS

"Rip" Major, Auburn's star punter and old student of Clemson, spent a day or two on the campus last week.

Bill Perry and Pete Brodie came over for the Cotillion Club dance, Friday night, December 2, and spent Saturday and Sunday in barracks with friends. Pratt Henderson, class '10, was also here for the dance.

Everybody's glad to see Coach Dobson back on the campus. We all know that he had a pleasant stay in Atlanta.

G. W. Fleming and M. H. Epps made a business trip to Greenville Saturday, December 3.

Lucius Webb, class '10, is spending a few days on the campus.

Quit, quit, quit that loafing around
If you want to get a pass;
You got to work, work, work, work 'em some,
If you 'spect to make your class.

Senior Garrett (seeing headlines concerning an aviation meet): "Gee, I didn't know that Atlanta was to have an ovation meet!"

A cadet, writing his father about the ill fit of his uniform, said, "My collar presses on my Adam's apple so hard that I can taste cider every time I put on my coat."

Ask "Goat" McLure why fences are built in this country.

Rat Johnson (seeing German Club returning from having picture made): "What is that?"

Old Boy: "That's the German Club."

Rat Johnson: "I wish that I had taken German instead of bookkeeping, so that I could have been in that club."

THE CALHOUN.

The society was called to order promptly at seven o'clock on the night of December 2nd. Mr. N. K. Rowell gave an excellent declamation on "Books." Mr. D. B. Hill read an interesting essay on "The Rural Schools of South Carolina." Mr. F. W. Lykes delivered a well written oration on "Trusts." Mr. Lykes had studied his subject well, and brought out many interesting features of trusts and monopolies.

The subject for debate: Resolved, "That negroes should be debarred from owning land in South Carolina," was well discussed on both sides. Both house and judges decided in favor of the negative.

Mr. J. T. Crawford responded as first extemporaneous speaker. He made an appeal for more orderly conduct while at cadet mess. As everyone has observed, our conduct while at meals is entirely too boisterous. It is hoped that Mr. Crawford's suggestions will be heeded.

Mr. Salley, chairman of the pin committee, informed us that an order would be sent off for pins, in a day or so. It is to be hoped that the pins will get here before the holidays.

The president, Mr. Freeman, appointed Messrs. Lykes C. S., Cooper, H. P., and Bell, T. E., to solicit subscriptions from the society members for the purpose of buying a new president's robe.

Several visitors were in the hall, and, among those who gave us some words of encouragement, were Messrs. Prosser and Workman of the Palmetto society.

THE PALMETTO.

What good does the society do, anyway? Perhaps all who ask that question, expect, in answer, an elaborate description of the many ways in which the youth is polished into a gentleman, such as is required by modern society. There is, however, other purpose which the society serves at Clemson, viz., controlling, to some degree, public sentiment in barracks.

Saturday night, three strong men representing the affirmative, and three strong men representing the negative, stood up and declared their views upon a subject that has, for the last few months, been swaying back and forth upon the tide of sentiment in barracks, and has been awaiting the decision of the students.

So far as many minds are concerned, the question was settled when the judges rendered their decision in favor of Messrs. Jeter, Hunter, and Workman on the affirmative, rather than in favor of Messrs. Fields, Johnston, and Johnston, on the affirmative. The subject in question was: "Resolved, that the agitation of the negro question at Clemson College is harmful." We hope that the negative, in its two-fold victory, has established its views to such an extent that the Y. M. C. A. will no longer meet with the opposition it has had in getting the course in "education of the negro" started in the mission department of the Y. M. C. A.

The society was honored by the presence of the leading members of the other two societies. We were glad, also, to have our Y. M. C. A. secretary, Mr. Sweeney, visit the society. On account of the lyceum lecture in chapel, we were not permitted to have "speeches" from these visitors. For this same reason—shortness of time—the orations, declamations, and essays were postponed till next meeting.
Consolation was brought to many Clemson inhabitants by the illustrated lecture given by Dr. DeWitt Miller sometime ago. It is consoling to know that there is something in life other than beauty. The speaker had a sympathetic audience.

Well, it seems that the negro problem is being studied anyway, whether a text book is used or not. If you are not aware of this, just visit the literary societies, sometime. The negro problem must be solved, and it behooves us as college men to inform ourselves upon the probable solution of the problem.

At some time during the collegiate year, almost all colleges and universities have an entertainment for the benefit of their alumni. It is nothing less than proper that every institution of learning should hold an annual meeting of alumni, for the purpose of furnishing pleasure and entertainment to those former students who come to visit their alma mater. As it is at Clemson, an alumnus may come to the college at any time; but he seldom meets with members of his class; and, unless he is a member of one of the recently graduated classes, he is generally without acquaintance in the corps. Some method should therefore be adopted, by which the corps and faculty of the college annually could give an entertainment for the enjoyment of the alumni of every class. Let this plan be agitated, so that, in years to come, there will be a special time that every alumnus of Clemson College is especially invited to visit his alma mater and live again, as it were, some of the pleasures of college life.

Examinations are almost upon us. Are you prepared for the test? Examinations are held in possibly every university, college, and high school of any importance in the United States. They are perpetuated as a means of testing the students' knowledge. There are many arguments given by the opponents of the examination system, which appear to some as sufficient proof that the system should be abolished; but the great educational leaders have found no other or better substitute; consequently, we have these examinations to meet. Examinations are not only made use of by institutions of learning, but are used as tests by the government, corporations, public and private concerns; in the selection of the better class of employees. And, as long as the world at large uses examinations, we must employ them in the educational work, as a part of our desirable training for life. Whether the more plausible arguments be for or against the present system of examinations, we have it and must make the best out of it. Let every man realize that the results of these examinations may be the deciding point in his college course. Connected with examinations, is the great temptation to use unfair means. Follows, especially underclassmen who do not realize what it means, remember that you owe it to your parents, yourself, your fellow students, and the Honor system to deal honestly on all occasions.

SENIOR.

*****   **

With the announcement of the near approach of the first term examinations, comes the realization, to the Seniors, of the fact that this is the beginning of the end. That is, unless some of us become so awkward and careless and "fall down" below the required term grade, or, on the other hand, some member of the faculty develops an unaccountable fondness for us, disliking to see us go out to do battle with the cruel world without one more year's training. Be this as it may, we should all realize, as never before, that we should grasp every opportunity and get the most out of it possible.

Listen! fellow members, have you ever thought of the possibilities open to college men, which are not within the grasp of men who have never attended college, and who will never be able to attend? If not, do so now; and I am sure that the remainder of your college course will be spent in more diligent work. So we must seize opportunity by the forelock, and put forth our best efforts in the discharge of our duties.

Mr. J. R. Fizer visited Greenville Saturday, December 3, for the purpose of having his eye treated.

Mr. B.P. Folk visited Seneca last Saturday on business, or at least, that is the reason he gives for going.

Has anybody here seen Martin? We mean Captain Epps, of course. If you see him, ask him what he went for, did he get it, did he bring it back?

Mr. "Gene" Sitton went over to Spartanburg in his machine last Saturday, returning Sunday.

*****   **

In our class, at present, there are 104 men. Of this number, 56 are taking some one of the three agricultural courses, 25 are taking the electrical engineering course, 12 are taking textile, and 11 are studying civil engineering. With 104 men in our class now we should have at least 100 in our class when we graduate in June, 1912.

Mr. E. B. Blount, a member of our class, has been granted an honorable discharge, and has returned to his home in Barnwell county. Blount is the fourth man from our class to leave college since September. We wish them all the best of luck, though we should rather for them to have staid in college and to have graduated with the present Junior class.

Mr. O. B. Brodie, an ex-member of our class, spent a few days on the campus last week. He will return to college, and take up his work with us again at the beginning of the second term.

"Mose" Sanders (at soda fount): "What will you have Boone?"

Nine rules of traditional conduct, which the Students’ Council asks all first-year men to observe, have been printed on small cards and are being placed in the hands of Michigan’s latest arrivals.

They are as follows:
1. Wear the freshman cap or toque the entire year.
2. Never smoke a pipe on the campus.
4. Get all prep-school pins out of sight.
5. Never sit on the senior benches.
6. Always allow a man of a higher class to precede you through a door.
7. Attend all mass meetings.
8. Learn the “Yellow and the Blue” at once.
9. Don’t forget the fact that you are a freshman.—Michigan Daily.

THE TIGER

Misconception.
I'd like to be a Senior
And with the Seniors stand;
A fountain pen behind my ear,
A note book in my hand.
I would not write in it at all,
But keep it clean all day,
For I would be a Senior,
And with the Seniors stay,
I would not be an angel,
For angels have to sing;
But I would be a Senior
And never do a thing.

A Roman Football Game.
(From the Chicago Evening Post.)
'Twas in the Roman stadium;
The football team of Rome
Would uphold the palladium
Of the brave sport at home.
The rival team of Spartans
Their own proud honors bore—
Attired in skins or tartans,
Or—well, whatever they wore!

"Let nothing now dismay us,"
The Roman captain cried—
His name was Quintius Caius—
While speaking to his side,
"Nothing now dismay us,
Our team will hold their stand,
The Seniors are our friends;
And with them we'll stand hand in hand.

The Spartans had the kick-off—
A scrimmage then ensued;
They took the maimed and sick off;
The game was then renewed,
"XL, XI, C"—routed.
The Spartans seemed a dream.

"MDCC, VI" it
Came rolling from his tongue;
The Spartans would defy it,
But to one side were flung.
They tried them for a tackle,
But no one could they vex,
When with a rauous cackle
Came "CCCIX!"
Back fell the Spartans, humbled;
They slipped, they fell they sprawled,
They tipped, they slid, they stumbled,
"XX, DC V"—loudly.
Proud Caius let it roll,
And Halfback Tullius proudly
Kicked from the field a goal!

The Y. M. C. A. held its regular religious meeting Sunday evening, December 4, 1910. This meeting was very well attended, and proved to be a successful one.

The religious meeting committee had planned to have Dr. DeWitt Miller to lecture at this meeting, but for some reason he could not be with us; so we were exceedingly fortunate in securing Prof. Daniel to fill his place. Prof. Daniel, as usual made a very fine address. He lectured on "The Religion of the Negro." In his address, he pointed out the different ideas that negroes have of religion and the ways in which they carried out these ideas. He also defined religion as "humanity uplifted and glorified." If this definition be true, it is our duty to do all we can toward the religious uplifting of the negro.
