Soph. Vs. Fresh.

The last game of class ball and the game which decided to which class the trophy cup should be given was played Saturday, Feb. 4th, between the Sophomores and Freshmen. The game was spectacular throughout—and as it was the game which decided the championship, quite a lively rivalry was shown between the classes on the side line.

The Junior team stood ahead in the series which had been played before, as they had beaten the Sophomores by a score of 17-0, and as the Soph.-Fresh game was a tie game the cup was given to the Juniors without any further playing.

Those who starred for the Sophomores were Middleton, Massey and Barnwell and Alexander, while for the Fresh, Alex Lewis, James, Vaughan and Hardin played good ball. The game was interesting from start to finish, but neither team seemed able to score. The game ended with the ball in the possession of the Freshmen near the middle of the field—a 0-0 game.

Senior Hardin (looking at Annual dummy): “Say, this is a peculiar book; it is blank all the way through.”

Noted Speakers to Visit Clemson

In the early part of next month, two of the most noted workers in the College world of today are to be here under the auspices of the Y. M. C. A. To the old men of the school, Dr. W. D. Weatherford needs no word of introduction; but for the new men, it is well to say a word concerning his past activities.

Dr. W. D. Weatherford.

“Dr. W. D. Weatherford's life is a true demonstration of the Power of an Unbroken Record. He is of the Southern lineage, was reared in Southern clime, and was educated in Southern institutions. He is pre-eminently a college man, for he has been an active leader in college athletics, in social and fraternity life, and in student religious activities. He holds the degrees of B. A., M. A., and Ph. D., from Vanderbilt University.

For the past ten years, he has been Student Secretary of the Young Men's Christian Association, and has wrought a great change in the moral and religious life of Southern College men. He has also contributed to the intellectual world through his
writings. His books are especially acceptable to college men.

Louis Bernhardt.

With Dr. Weatherford, will be Mr. Louis Bernhardt. Though a graduate of a Southern college—the University of Georgia—Bernhardt is but slightly known to the college men in this section. The reason for this may readily be understood after reading the following selections from his Autobiography.

Born and reared in a Southern home of culture and refinement.—At the age of sixteen, he entered the University of Georgia.—“It was during his freshman year that he learned to gamble, and this became a passion which mastered his life.”—Graduated and became cashier of an express company—squandered inherited money at gaming table—became a defaulter, and soon drifted into a life of crime—as a result of which he served 22 years in penitentiaries—was on his way to commit suicide when he was influenced to go to the MacCauley mission in New York, and was there converted in 1906.—In March, 1907, he was called by the student body of Yale to take charge of the Yale Hope Mission; and since that time has been giving his entire time to college religious work.

A change in the operation of the publications of this college is needed. In nearly all colleges and universities it is the custom to have two, and sometimes more, boards of editors for each publication during the college session. The good of such a system can readily be seen, for with a large student-body—such as we have—there are quite a number of competent students who really need and would appreciate the experience of working on these publications. Then, again, a new set of editors occasionally would add very much to the life of the publications; new ideas can readily be seen, for with a large student-body—such as we have—there are quite a number of competent students who really need and would appreciate the experience of working on these publications.

Then, again, a new set of editors occasionally would add very much to the life of the publications; new ideas can readily be seen, for with a large student-body—such as we have—there are quite a number of competent students who really need and would appreciate the experience of working on these publications.

The College World in the following editorial under the above caption, argues against the idea that the grind is unsuccessful in the business world. **"The conviction current among college students that a man's record in undergraduate curriculum work is no index to his success in later life, has recently received several severe jolts, one by the class graduating from Harvard June, 1894. A few months ago Dean Briggs and E. H. Wells, of Harvard, and Prof. F. E. Farrington, of Columbia, were instructed to go over the records of this class and to pick out the names of the members who had achieved distinct success. Each judge was to establish his own standard and definition of success and was to work independently of the other. This was done. When they for comparison twenty-three men had been named by at least two of the three judges. The undergraduate scholarship records of these men were then obtained and a comparison was made with the scholarship records of twenty-three other members of the same class, chosen at random. The results are interesting and striking. It was found that the 'successful' men had 196 A's to their credit during their undergraduate days, while the twenty-three gathered at random received only 56. It was also found that the 'successful' men were charged with only 33 D's as against the 75 on the records of those selected at random.**

"An investigation along the same line has recently been made by the Yale Alumni Weekly. The basis of the analysis was not a single class, but the first honor men of the university over a period of years. It was found that 56 per cent. of the valedictorians and salutatorians of the Yale classes have won not only success but honorable distinction. One became president of the United States, thirteen became college presidents, five became judges of higher courts and forty-five became full professors in universities of colleges.

"These facts ought to be sufficient to guard the student who really wants to know the truth against the crude inference, based upon a very few individual cases, that there is no relation between high scholarship and success in life." —Rin-gum-Phi.

Owing to the fact that there was a very large crowd out, the Y. M. C. A. held its regular Sunday evening service, last Sunday evening, in the college chapel instead of the Y. M. C. A. Hall. The speaker of the evening was Hon. C. C. Featherstone, of Laur-ens, South Carolina, whose subject was "Lies and Liars." In his address Hon. Featherstone pointed out the different classes of liars and spoke very forcibly on effects of telling lies. He said that the horse-trader liar, political liar, physician liar, church liar, lawyer liar, and the society liars were the worst kind of liars; but that he thought society liars were the worst of them all. We were very glad to have Hon. C. C. Featherstone address the Y. M. C. A., as such a lecturer as he is very hard to secure for such occasions.

We were very glad to have a large number of visitors to attend this service, and extend them a cordial invitation to attend all of these services. We hope to have a number of good speakers during the remainder of this session. Rev. Edward S. Reaves will address us next Sunday night.

**CLEMSON COLLEGE, S. C.**
Classes

Senior.

Some few days ago a mechanical member of the class so far forgot himself in the study of "steam," and the writing of experiments, as to allow his mind to ponder, for a few moments, on the "history making around him." Now, it is known that some mechanicals, think "so deep" that they do not have time to become broad, but plod along in the straight, narrow, deep (?) path laid out for them to follow. However, the above mentioned brother was an exception to this type. On thinking over the various sections and divisions of the class, he was struck by the fact that in Section I were to be found more high ranking officers, more men connected with the college publications, and some of the best athletic men in college. On a closer investigation, it was found that two Majors, Messrs. Jenkins and Keith; the Captain Quartermaster, Mr. J. A. Dew; two Company Captains, Messrs. Altman and Jeter; First Lieutenant and Adjutant Mr. A. M. Salley; First Lieutenant and Band Master, Mr. R. S. Wolfe; two First Lieutenants, Messrs. Wiggins and Rast; and one Second Lieutenant, Mr. J. S. Knox, are prominent in the military department, to say nothing of the "Senior privates," D. C. Beaty, Chapman, Deason, Egerton, Freeman, Gilmore, Sanders and Wall.

The Editor-in-Chief, the Business Manager, one of the Assistant Business Managers, and four of the Literary Editors of the Annual; the Editor-in-Chief, the Business Manager, the Associate Editor, the Local Editor, and the Class Reporter of the Tiger; the Editor-in-Chief, Literary Editor, and Exchange Editor of the Chronicle; one ex-President and one President-elect of the Calhoun Literary Society; one President-elect of the Palmetto Literary Society; and one President-elect and one President-elect of the Columbian Literary Society are found in the ranks of the "Number One" section.

In the athletic line we find the baseball manager and a good pitcher, O. F. Sanders, and a crack catcher, E. S. Jenkins. Our mechanical friend was somewhat startled at this revelation. Evidently there are men in this "Number One" section who are going to startle the world in their chosen professions.

J. A. Dew has been away from college for the past several days doing State entomological work.

F. H. All went to Columbia last week to attend a meeting of the executive committee of the State Oratorical Association. Messrs. Chapman, Altman, and Epps, went to Six Mile Academy last Friday night to witness the production of "The Deacon" by the local talent of Liberty. All report a very pleasant time.

Junior.

At a meeting of the Athletic Association held last week the following members of our class were honored with positions: Mr. H. F. Rivers was elected manager of the football team for 1911, and Mr. J. F. Ezell was elected assistant manager of the 1911 track team. Messrs. H. M. Hutson, H. S. Kennerly and O. B. Brodie were nominated for the position of assistant manager of the baseball team for this year. Two of these men will be elected by the athletic committee.

Mr. M. L. Hamer has been called home on account of the illness of his father. We hope that his father’s condition will soon permit him to return to college.

Mr. D. B. Hill spent last Saturday in Greenville, where he went to have dental work done.

Mr. R. D. Caldwell spent last Friday and Saturday in Gaffney. His plea also was dental work.

Messrs. H. S. Kennerly and T. R. Risher are now in the hospital. Their many friends and classmates are hoping to see them out again soon.

Mr. J. H. S. Wessinger spent last Saturday and Sunday in Spartanburg.

From the frequency of their visits to Calhoun, it seems as if McIntyre and Calwell have become very much attached to the little town. Perhaps it is not the town though; make your own conclusions as to that.

Sophomore.

About thirty of the agricultural Sophomores took possession of Liberty on Wednesday, Feb. 1. The trip was taken in order that we might see some winter spraying. We saw the different steps in the process of peach tree spraying, and also heard a talk on the subject by Mr. Byars, of the Department of Agriculture. Professor Crampton accompanied us. After seeing the town and patronizing the soda founts liberally, we returned to the college in the afternoon.

The game between the Sophomores and the Freshmen was fast and clean from start to finish. Although our team seemed to be in fine condition, the plucky Freshmen held it down to a score of 0 to 0.

Swagger Sticks
Scarf Pins
Fraternity, Club, and Society Hat Bands and Neckwear
Pennants
Presentation Belt Plates, etc.

Send for Catalogue.
Among our visitors at the last meeting were Messrs. Martin, Beaty and Eagerton from the Columbian and Palmetto societies. We are always glad to have any of the members from our sister societies visit us and hope that the friendly feeling that exists between the different societies will continue.

The declamation of Mr. Hill was a real treat. Mr. Hill always gives us something good when he is on duty.

The debate was more thoroughly discussed by the house than by the regular debaters. The question was, Resolved, "That Clemson is Materially Rotten, in That She Cannot Recommend Her Agricultural Graduates for Positions." However, it was brought out in the discussion that the Department of Agriculture refuses to give recommendations, only when the position is an extremely important one; or, when the position to be filled is in a different branch of agriculture from that taught here. Both house and judges decided that the Agricultural Department is not rotten.

Several of our members were excused in order to visit the other societies.

Mr. Salley, the critic, was excused in order to attend to some Annual work.

We were glad to see Mr. Boone wearing the new president's robe which was recently purchased.

The exercises last Friday night were again up to the usual good standard, judging from the favorable and commendatory report of the literary critic.

The subject of debate was interesting more or less to all of us. It dealt with a subject which has been agitated a great deal recently in other countries, and which will possibly be a foremost theme of discussion in our own nation before many years have passed. Most of us, however, went away feeling easy in our minds, for we felt that the negative had voiced the sentiment of all Carolinians when they overran successfully the points of the affirmative and proved that woman's suffrage is not desirable.

The first orator, Mr. G. H. Garner, gave us a well written oration. Mr. J. H. Kanzeter, the second orator, was absent.

Both declaimers, Messrs. E. E. Hall and J. L. Gilmore, rendered good declamations. Mr. C. R. Gilliam, essayist, was absent. We were glad to have Mr. J. G. Knox of the Calhoun Society visit us and speak a few words of encouragement to the society.

A Miracle Defined.

Michael Butler, one of Uncle Sam's trustees, who carries mail to the jackies at the Philadelphia navy yard, and over Gray's ferry road to the naval home, had this joke the other day for a party of friends. It's a story about the definition of the word miracle:

Mike said to Pat: "Can you tell me the definition of the word miracle?"

"Sure," said Pat with a grin.
"Well, will you tell me?" queried Pat.
"I'll do that," replied Pat. "Now, just turn around."
Mike did as he was told and Pat booted him hard.
Mike straightened up in anger.
"Did you feel that?" asked Pat, with a chuckle.
"You bet your life I did," Mike replied.
"Well, if you hadn't felt it, it would have been a miracle."
—Philadelphia Record.

**SOCIAL ITEMS.**

St. Valentine's Day is almost here—a time when the post-mistress will be kept busy sending off the tokens the various cadets so eagerly mail to their "best girls."

Last Monday evening a number of the young ladies and men on "The Hill" were so fortunate as to enjoy a most delightful Euchre party given by Mrs. Lee in honor of her guest, Miss Coffin. During the entire evening most exquisite music was rendered by Mr. Wolfe on the violin, with accompaniment on the piano by Mr. Cornell. Late in the evening Mr. Dobson sang a number of enjoyable pieces, and Misses Harris and Coffin gave several piano selections, which were thoroughly enjoyed. Also Mr. Cornell played the cornet. The highest scores at Euchre were made by Miss Lena Hardin and Mr. C. W. Rice, each of whom received a very pretty and tasteful gift. Miss Coffin, as guest of honor, was presented with a very attractive prize. This was one of the most enjoyable of all the card parties which have been given here this season. Those present were: Misses Lena Hardin, Sara Furnar, Clara Barr, Lucile Strode, Fannie Harris, Mamie Morse, Helen Brackett and Mrs. Bradley; Messrs. W. P. White, J. F. Allison, M. Birch, H. C. Thompson, G. F. Lipscomb, C. W. Rice, H. L. Reaves, J. E. Toomer, C. Van W. Cornell, Wolfe and Dobson.

Mr. and Mrs. A. Bramlett returned to Clemson last Monday after spending a couple of weeks in Atlanta. We are glad to see that Mr. Bramlett is well again.

Mrs. A. B. Gardner came back last Saturday, having spent several weeks at her home in Kentucky.

Mr. R. L. Sweeney, our Y. M. C. A. secretary, is on Campus again after spending a week in Raleigh, N. C., and parts of Virginia.

Miss Clara Barr, who was for several days the guest of Mrs. Freeman, returned to Greenville last Wednesday.

Miss Coffin, who has been visiting Mrs. R. E. Lee, went home.

Mr. Tarbox has resumed his work here after a six weeks absence on account of the illness of his brother.

Miss Tabitha McFall, of Anderson, spent several days with Mrs. P. H. Clinkscales last week.

The Thursday Club met last week with Mrs. W. M. Riggs. A great many ladies were present to enjoy this meeting. Mrs. L. E. Hubard read several very interesting clippings on "Chanticleer," and also a very pleasing selection from Robt. Browning. Later in the afternoon, at the request of the hostess, Mrs. Hubard read the synopsis of the story of "Madame Butterfly."

Dr. F. H. H. Calhoun has been chosen by the University of Michigan to teach in the summer school there this year. Dr. Calhoun will give two seven weeks courses, one in glacial geology, and the other, a teachers' course in physiography. Among the bulletins recently published in the extension work is a very excellent one by Dr. Calhoun entitled "Track and Field Sports for High and Elementary Schools."

The friends of Mr. and Mrs. D. W. Daniel regret very much the illness of their little daughter, Evelyn, who has the measles, but are glad she is now improving.

Miss Mary Omery of Pineville, N. C, is expected at Clemson on the 15th of February to spend a couple of weeks with Miss Helen Brackett.

MODERN ARITHMETIC.

He was teaching his girl arithmetic,
He said that was his mission.
He kissed her once, he kissed her twice
And said, "Now, that's addition."

And while he added smack to smack,
With joyful satisfaction,
He stopped to take a few from her,
And said, "Sweet, that's subtraction."

And still they lingered there to kiss,
With mutual elation,
The bold lad doubled up the sum
And said, "That's multiplication."

Then father came and raised his foot,
And snorted in derision,
That chap struck earth six miles away
Pa said—"That's long division."—Exchange.
