REPORT OF THE FACULTY ATHLETIC COMMITTEE
Report of the Faculty Athletic Committee, Continued.
January 14, 1904.

5. No football player who leaves College before the end of the first term shall be allowed to participate in match games during the next two college terms.

The Committee unanimously recommends the adoption of the following rules for the regulation of college athletics, to take effect at the beginning of the second term's work:

6. No team shall be allowed to leave the college grounds to participate in match games unless accompanied by a member of the faculty, and shall be responsible to the Faculty for the conduct of players, and shall not be excused from the college. Such representative shall be appointed by the Chairman of the Faculty Athletic Committee, and his expenses shall be included in the Faculty's expenses for the term.

1. Any student who fails on more than two subjects during a collegiate month shall not be allowed to participate in match games during the ensuing month. If, by reason of absence or other cause, a grade on the month's work is lacking, the instructor shall give a temporary grade based upon the work done, and this temporary grade shall be used in determining the student's athletic standing until the regular grade is available.

2. No student who is deficient in any subject for a college term shall be allowed to participate in match games during the next two terms, unless such deficiency is removed by examination or otherwise. Change from one course to another or from a regular to an irregular or special course shall not interfere with the operation of this rule.

3. No graduate student shall participate in any match game unless he is taking at least twenty hours per week of graduate work; that is, work of a higher grade than is given in the regular college courses. Such student shall also conform to the rules of class standing as set forth in sections 1 and 2. Further, no graduate student of more than one year's standing shall participate in any match game.

4. No irregular or special student shall be allowed to represent the College in any match game unless taking at least 24 hours work per week, of which not less than 12 hours shall be "theoretical" work.
5. No football player who leaves College before the end of the first term, except for reasons satisfactory to the Faculty Athletic Committee, shall be allowed to participate in match games during the next two college terms.

6. No team shall be allowed to leave the college grounds to participate in match games unless accompanied by a member of the Faculty, who shall be responsible to the Faculty for the conduct of players and coaches while away from the College. Such representative shall be appointed by the Chairman of the Faculty Athletic Committee, and his expenses shall be included in the expenses of the trip.

Respectfully submitted,

J. S. Mizeau.

Faculty Athletic Committee.

To the Faculty,

Clemson Agricultural College.
The committee appointed by the faculty to consider the letter of the U. S. Commissioner of Education relative to the exhibit of examination papers at the St. Louis Exposition, beg to submit the following:

1. It is recommended that this college take part in the proposed exhibit, provided the directions for preparing the papers can be modified as to admit of some practicable plan for showing the work of both links of each college year.

2. In view of the impossibility of obtaining the required papers by conforming to the plans as set forth by the Commissioner, it is recommended that the president of the College, or someone whom he may appoint, shall communicate with Dr. Harris pointing out the difficulties and asking permission to deviate from his directions in such particulars as the professors in charge of the work may deem necessary.
