Thos. Morrison Sec.

Called Meeting, December 2, 1848.

The faculty was called to order by the president at 8 p.m., with Messrs. Cline, Greighead, McKee, Durnin, Weaver, Bully, Strode, Longham, Morris, Hulme, Redman, Clinton, Morrison, and Brackett present.

At the request of the president, Dr. Redman stated that the subject of the meeting was to consider the advisability of alternating the college on account of the prevalent epidemic of measles. The doctor stated that at least a third of the corps have not had measles, that the capacity of the hospital is limited, which would necessitate using the barracks, and that the barracks are unsuited for such use. Therefore, he recommended holding examinations at once and allowing the cadets to go home.

The commandant had taken a census of the corps, and found that 97 have had measles, 105 have not, and 19 are uncertain. 12 have measles now.

Upon Dr. Redman's motion, it was decided to adjourn in order to consult with the president of the Board of Trusters, and to meet at the call of the president.
