ERWIN BACK ON BASKET-BALL TEAM

The re-appearance of Captain Erwin in playing togs has added a hundred per cent. to the dash and fight of the practice on the basket ball field and now the fellows are working as if their very lives depended upon the outcome. The fact that Erwin can participate in all games has caused a decided boom in Clemson stock and now both players and corps feel that a successful season awaits us.

Caughman, Glover, and Hoffmeyer are playing their usual good game while the rapid improvement in the work of Thornton, Walker, Gee, Vincent and some others among the new men shows that there are going to be three-cornered fights for nearly all the positions.

Manager Caughman has not been content with games with colleges only, but has arranged games with several of the South’s best Y. M. C. A. fives also. Among these are Spartanburg, Atlanta and Chattanooga. At Spartanburg, where Clemson plays Saturday they have to meet a team composed of such men as “Big Sook” Erwin, and one of his kind is enough on any team. The Atlanta and Chattanooga fives have established reputations, and a fair sample of their abilities may be gotten by remembering that the Atlanta Y. M. C. A. team won from Auburn last week by a score of 70 to 20.

SECRETARIES VISIT CLEMSON

The Clemson faculty were the proud hosts of the county secretaries of commerce last Saturday, Jan. 17. The secretaries had been in convention at Anderson and were invited to visit Clemson by Dr. Riggs. The trip was made through the country in automobiles furnished by Anderson boosters and they arrived at Clemson about 11 A. M.

Professors and instructors were on hand to show their guests through the different buildings, though they had only two hours to devote to sight seeing, when they could have easily used as many days.

At one o’clock, the party reviewed the formation of the corps at mess call, following which all retired to the office of Dr. Riggs where a tempting luncheon was served.

Several speeches were in order after the dinner, and among the speakers were some of the most important men in the State. Dr. Riggs spoke of the work that the college was doing; saying that it had sent out 12,000 students since its founding. He approved heartily the idea of establishing a Calhoun library instead of changing the name of the institution; and denied that Clemson had more money than she needed, showing that a half-million dollars more would hardly do more

SKETCH OF LIFE OF ROBT. E. LEE

Jan. 19, 1807—Oct. 12, 1870

The great general of the Confederacy, of America, of the English race, son of Henry Lee, “Light Horse Harry” was born at Stratford, Va.

At the age of eleven he lost his father. At eighteen he entered the Military Academy at West Point, graduating in 1829, second in his class, and received a second lieutenant’s commission in the engineers. In the Mexican war he served as chief engineer on General Wood’s staff, and was distinguished in the advance on the capital, especially at Chapultepec. From 1852 to 1855 he was commandant at West Point. In 1859 he was sent against John Brown’s force at Harper’s Ferry, captured Brown, and commanded the troops that kept order at the execution of that fanatical abolitionist and red-handed murderer.

Virginia seceded April 17, 1860. Three days later, Lee, believing that his supreme political allegiance was due his State, resigned from the army of the United States. He had been offered the command of the Northern army. He loved the Union. The bitter struggle between his personal preference and his high sense of duty is shown in the words of his wife, written to a friend at the time: “My husband has wept tears of blood over this terrible war; but he must as a man and a Virginian share the destiny of his State,
which has solemnly pronounced for independence." Within two days after his resignation he was made commander-in-chief of the military and naval forces of the State of Virginia. His first services were to superintend the defense of Richmond. Later he was sent to oppose Rosecrans in West Virginia. In 1862 his duty was to prepare the coast defenses of Georgia and South Carolina. When Joes. E. Johnston was wounded at Seven Pines, Lee was put in command of the army around Richmond. He beat Pope at the second battle of Manassas. He then crossed the Potomac. Chance revealed his plans to McClellan. The drawn battle of Sharpsburg did not impair his prestige. He won the victories of Fredericksburg and Chancellorsville in the face of overwhelming odds. His second invasion of the North resulted in his defeat at Gettysburg. In 1864, with masterful skill he stubbornly resisted Grant at the Wilderness, Spottsylvania and Cold Harbor. Then followed the long siege of Petersburg and Richmond. Lee's efforts to ward off the break up of the Confederacy were unavailing. Compelled to evacuate Richmond, April 2, 1865, he tried to effect a junction with Johnston, but was hemmed in by Grant's army and forced to surrender, April 9, at Appomattox. He frankly accepted the results of the war, and although deprived of his former property at Arlington on the Potomac, and the white house on the Pamunkey, he declined many offers of pecuniary aid; and accepted the presidency of Washington College, Lexington, Va., now called Washington and Lee, and remained there until his death. Here he devoted himself assiduously to the proper duties of a college president, gaining the affectionate esteem of the faculty and students, as he had of the officers and soldiers of two armies in former years.

"Lee," says a Northern writer, "was a man of singularly noble character, and much revered and beloved." He was devotedly religious, and was a life member of the Protestant Episcopal Church.

"Gen. Lee showed through all the war, and during his life after the war, wonderful freedom of vindictiveness. One day, on the brow of a hill, just before a great battle, Gen. Lee and Gen. Jubal Early met in consultation. Before their eyes was a wonderful war panorama. Regiment after regiment of the enemy came into sight in the distance and took their stations in line of battle. Gen. Lee turned to Gen. Early and said:

"I wish that all those people were at home engaged in some useful occupation."

"And I wish," Gen. Early replied, "that all of them were in hell!"

"You have not spoken like the noble soldier I know you to be," answered "Marse Robert." "Gen. Early, there has not been a minute during this war when I have not felt able to pray for the men I was fighting."

"After the war this large-moulded, great-minded man set himself to the task of helping to heal the breach which the conflict had caused. He was altogether lacking in bitterness of feeling toward the men of the North."

Those who remember war times tell us that Early's sentiments were more in accord with the feelings of a great majority of Southern people than were General Lee's.

Ben Hill of Georgia paid this tribute to the great chieftain:

"He possessed every virtue of other great commanders without their vices. He was a foe without hate, a friend without treachery, a soldier without cruelty, and a victim without murmuring. He was a public officer without vices, a private citizen without wrong, a neighbor without hypocrisy, and a man without guile.

"He was Caesar without his ambition, Frederick without his tyranny, Napoleon without his selfishness, and Washington without his reward. He was gentle as a woman in life, modest and pure as a virgin in thought, watchful as a Roman vestal in duty, submissive to law as Socrates, and grand in battle as Achilles."

Never hands
Waved sword from stain as free,
Nor purer sword led braver band.
Nor braver bled for a brighter land,
Nor brighter land had a cause so grand.
Nor cause a chief like Lee.

—Father Ryan.

His body may be earth, dust, and ashes in the chapel of that college in Virginia. Endearing love of him is enshrined in the hearts of the people of his homeland.

It may interest Clemson men to think of 1867 as the birth-year of both Thomas G. Clemson and Robert E. Lee.
THE TIGER

MAKES WONDERFUL ESCAPE

As many times as we have heard of cameras “busting into blitherins” upon gazing for a few short seconds upon the face of a single sad-faced man (to say nothing of a married one), we can appreciate the workmanship and material which was evidently employed in the construction of Mr. Holladay’s camera. Just think, kind reader, what that poor camera had to go through—no you needn’t twitch and squirm, I don’t mean you, because I am sure that you were a goodly sight for sore eyes to the camera but what about those hundreds of others who would make a “medusa’s head” “hunt the tall timbers,” and later try to get a job in a beauty shop? Can you wonder that even now that camera is only convalescent at Durham? The last word from Mr. Holladay is that it may get over the visit, but that he is mightily afraid that it won’t look like the same camera again. If it survives though I agree with you that it ought to live all the rest of it’s life.

CHARGE OF THE FILM BRIGADE
(In 4 parts without permission of any concerned)

Half a reel, half a reel,
Half a reel onward!
All in the valley of click
Rode the six hundred.

“Forward the Film Brigade!
Get into the focus!” he said;
Into the valley of click
Rode the Six Hundred.

“Forward the Film Brigade!
“Tin” has all arrangements made
Fifty and fifty we split—
“Bob’s” not blundered.
Y. M. C. A.’s the certified checks;
Block “C’s” the mazuma in pecks
Out of the valley of clicks—
More than Six Hundred.

Vitas to the right of them,
Cenas to the left of them,
Kinets in front of them,
Volleyed and thundered,
Stormed at with stage advice,
Boldly they rode, and nice,
Into the jaws of clicks,
Into the picture thrice,
Rode the Six Hundred.

When will their fillums sell?
Quickly, if all goes well—
“Tin” has not blundered,
Take little “Cat” and “Pel,”
Show them that war was h—1
For the Six Hundred.

EDITORIALS

Most of us do not appreciate the magnitude of our college. Just to prove it—if you have heard of Purdue University in fact you think it one of the ranking schools of the North both in work and numbers. You didn’t know that Clemson had more men registered as students than Purdue has, did you?

There have been about 840 men registered back at Auburn since the Christmas holidays. Some school too, isn’t it?

TECH TAKES GREAT HONORS

In the first Southern inter-collegiate architectural competition, Tech comes out with all the honors. Three men from Tech tied for first place while a fourth was mentioned. Drawings were submitted by Auburn, Tulane, Texas A and M. and Tech. These drawings were submitted to and were judged by the architectural faculty of Pennsylvania. Preparations are being made for the Senior class at Tech to enter the Eastern Inter-collegiate competition which will be held in the spring. This competition is held between the large schools, as Pennsylvania, Columbia, and Harvard.

FLORIDA HAS A CEMENT TENNIS COURT

The University of Florida has recently completed a cement tennis court, which will give the players a practical court in all kinds of weather.

TEXAS A. & M. BOY KILLED

W. B. Hector, a student of the A. and M. college of Texas, was instantly killed on the night of December the 24th, when he attempted to alight from a rapidly moving freight train. He evidently lost his footing when he jumped and was thrown under the wheels of the train. One of the wheels passed over his head, crushing it.

The ladies of the campus of Texas A. and M. gave a party and Christmas tree for 115 students who remained at college during the holidays.

The Inter-collegiate Prohibition Association has launched a systematic campaign to secure the signatures of college students to petitions urging Congress to pass the Hobson prohibition amendment. It is expected that a great number will be secured.

HALF HOURS IN THE LIBRARY

A book which should be of interest to all South Carolinians, whether members of the Episcopal church or not, is the Life of Bishop Ellison Capers by his son, the Rev. Walter B. Capers. It is entitled “The Soldier-Bishop,” and is a most interesting account of a man who was much beloved by many people over the entire State. Though the natural desire of the author would be to eulogize his father, Mr. Capers has given us a true account of the life of the good bishop, and the entertaining anecdotes and incidents show the bishop’s nobility of character and his love of all that was true and best in life.

Be sure and read "Down North on the Labrador" by Dr. Wilfred T. Grenfell, who, by the way, is Sir Wilfred T. Grenfell and who figured as best man in the Wilson-Sayre wedding in the White House. It is not a novel but a tale with the romance of adventure and excitement. As some one has said, Dr. Grenfell made Labrador a part of the known world, and his stories are facts put in such an attractive manner as to read like a romance with all the stage setting of the frozen seas.

To get some idea of Dr. Greenfield’s wonderful work among the fishermen and the needy on the Labrador, and as companion pieces to his works, one should read Norman Duncan’s books: “Dr. Luke of the Labrador,” “Dr. Greenfell’s Parish,” and “Every Man for Himself.”

For the student of Sociology and the debater on such subjects, a most useful book is the latest volume of the Papers of the Southern Sociological Congress. It is entitled, “The South Mobilizing for Social Service,” and contains articles on such subjects as Child Welfare, Organized Charities, the Race Problem, and the Church and Social Services.

A book full of lively interest is the Adventures of Francois, by S. W. Mitchell. It describes the life and experiences of a soldier of fortune at the time of the French Revolution. Francois, a jolly fellow, has a varied career and passes from one thrilling adven-
tured to another. His dog, Toto, is an important character in the book and one follows their experiences with bated breath and with a deep interest. The author, Dr. S. Wier Mitchell, who was a noted nerve specialist, as well as a well known writer, has recently died.

COLUMBIAN
The Columbian Literary Society held its regular meeting last Friday evening at seven-thirty.

The meeting was called to order by the president, and, after the roll-call, a unique and instructive form of exercises was carried out.

The first on the program was a report on the Mexican situation by Mr. G. R. Briggs, in which was given a review of President Wilson’s policy and the latest developments along our border. Mr. A. P. Gandy, next, spoke to the society on “Back to the Farm,” and very creditably did he set forth the many and various reasons why we should go back to the farm and upbuild it. Mr. M. Edmunds then gave to the society an interesting and very appropriate “Sketch of the life of Robert E. Lee.”

Mr. R. G. Kennedy gave a well-delivered speech on “Phases of Life.” Then Mr. F. L. Bunker gave a very good talk on “Courage and Conscience.” The last speaker was Mr. J. Miley, who gave an instructive talk on “Up-building the Farm.”

Ignoring is a blister.

EYESIGHT REGAINED
I suffered many years from blindness. Altho not blind from infancy. I lost my sight in early youth. It was when I began buying my own clothes. People on every side recommended and helped, but I didn’t get what I wanted until one day a man showed me a “High Art Suit” made by Strause & Bros. Since then I have seen the reason why.

Wishing to help all those having the same trouble, I recommend Strause & Bros. A representative carrying a full line of Spring and Summer styles will be in Room 62 on Jan. 26 and 27. Mr. Feckler, Special Agent, will be here Satisfaction guaranteed. ROOM 62.

CLASS FOOTBALL IS PROGRESSING
The following schedule has been arranged by the schedule committee and awaits the approval of Coach Williams, who is expected to arrive here the morning of the thirty-first of this month.

Sophs vs. Freshmen—Feb. 4th, 1914.
Juniors vs. Freshmen—Feb. 7th, 1914.

The date of the first game is only one week off; so it is time for the classes to get busy and stir up some of that old college spirit.

“Jimmie” James has been chosen by the Freshmen to pilot them to victory. He already holds one championship on his list, so he can be counted on as a dangerous contender. He is ably assisted by “Jo” Parker and a few other varsity men. Up to date, the squad consists of about forty men, and a pretty healthy lot at that. Some of these men have never had any experience, but they are learning fast and make a favorable showing.

“Hop” Gandy, last year’s varsity captain, is directing the energies of the Sophs. “Hop” is a splendid worker and can be depended on to get out a good team. To assist him, he has Webb, Major, Stribling, McMellan and Littlejohn. Unfortunately the squad is very small, consisting of about twenty-two men, but the coaches are putting every effort forward to get out a winner, and they are liable to spring a few surprises before the season is over. There are a good many big Sophomores in barracks that need some one to get behind them, and drive them out.

The Juniors are very fortunate in having the All-southern tackle, “Shorty” Schilletter to coach them, and if he, with the assistance of Bristol and Pressley, doesn’t get out a line to be envied, we will be very much surprised. Like the Sophs, the Juniors only have two squads, but these are doing fine work.

Everything points toward a very interesting race for the cup. Of course the winner cannot be picked, because football is stocked full of surprises, but from a general round up, the classes seem very evenly matched.
