Committee Reports

Financial Development

May 1, 2010

Committee Members:

David Bynog, Rice University

Stephen Clark, College of William and Mary

Susan Markley, Villanova University

Zac Rolnik, Now Publishers (Chair)

Peter Whiting, University of Southern Indiana

Board liaison:

Rick Anderson

The Financial Development Committee continues to experience change in its membership, adding three new members in 2009-2010 to replace members who either retired or resigned from the committee. Nonetheless, we were able to make some progress on a number of

fronts. This includes:

- The FDC is responsible for creating and implementing a multi-faceted fundraising program designed to support NASIG programs and activities. The committee prepared the first NASIG Comprehensive Development Plan and submitted it to the NASIG Board at the last Annual Conference. After careful review, the Board agreed to pursue many of the recommendations, including a vendor showcase and newsletter advertising.
- The FDC created a draft version of its committee manual.
- The FDC completed an investigation of our insurance policies. We recommended no changes to our existing policies. Based on a detailed consultation with Duncan Financial (the group that covers our Officers and Board members) it is clear that we are in good shape with the general liability policy that we hold through Zurich.

Please let me know if you have any questions.

Respectfully,

Zac Rolnik, Chair
