Homecoming

Today's Features

5 John Watson
John Watson may not lead the Clemson team in any statistical category, but this starting offensive tackle has the top career grade point average on the team. Already accepted to medical school with still another year of eligibility left after 1985, Watson is a goal-oriented person who makes the most of his opportunities. Kassie Kessinger explains.

7 Sherry Thrift
Today is Homecoming and who better to feature than a former homecoming queen. Sherry Thrift is the second former Clemson homecoming queen to make it nationally in various pageants (you all remember Shawn Weatherly) in recent years. Foster Senn had the enviable task of featuring the runner-up Miss America.

50 Student Assistance Program
Clemson is one of many Universities across the country that is instituting a student assistance program for all its student athletes. The athletic department has taken advantage of the program as all athletes use it to aid them in areas of personal character, drug abuse, family and academic problems.

61 University Feature
More than 160 of the state's top high school teachers attended one of the 10 Advanced Placement Institutes offered at Clemson this past summer. Catherine Sams tells us about Clemson's interest in improving South Carolina's educational system.

73 Tigerama
For 29 years Clemson has given its fans one of the top shows in the south on the Friday before its Homecoming football game. The floats, the fireworks, the skits, the queens, its all part of Tigerama. Jill Mixon describes the history of the exciting event.

77 This Day in Tiger Football
As we hit mid-season and the weather gets a little more conducive to the grid sport, we go down memory lane with Foster Senn. He describes some of Clemson's most exciting games on this date in history on page 77.

79 Carlon Box
Number-seven is listed as Carlon Box in today's program, but he won't be able to play for the Tigers. This returning letter winner from the secondary had a near fatal injury this summer that will limit his mobility the rest of his life. It won't limit his spirit, however, as Scott Peterson details.

107 Color and Pageantry
How did Clemson adopt that Tiger Paw which we see all over streets, clothes and cheeks every Saturday. David Webb gives us the history of the paw and the school colors.

111 Tigers in the Crowd
Many Clemson athletes had outstanding seasons at Clemson in 1984-85. Fortunately, many have returned for this academic year. Kassie Kessinger profiles six of Clemson's top athletes.

On the Cover
Running down the hill is the most exciting 25 seconds in football. Jim Moriarty of Southern Pines, NC, captured the moment last year and it is the subject of today's cover.

Today's Game
By Tim Bourret

What a difference a year makes. Last year in the season opener Clemson defeated Virginia in Charlotteville, 55-0. The then second-ranked Tigers put on an awesome display in every phase of the game gaining 535 yards in total offense and holding the Virginia team that eventually went to a bowl game to 171 yards in total offense. Clemson gained 302 yards on the ground and had just one turnover the entire evening.

Those statistics seem a long way off compared to the last couple of weeks as Clemson will try to end a three-game losing streak against the powerful and favored Virginia Cavaliers in Death Valley this afternoon. Clemson has gained only 471 yards in total offense over the last two games combined and the Tigers have averaged just 130 yards a game on the ground for the season.

Virginia has offensive statistics that used to typify Clemson's stat sheet. The Cavaliers, who enter the game with a 3-1 record and have averaged just under 30 points a game, have picked up 265 yards a game rushing this season, including a season high 301 against Duke last Saturday evening. They throw the ball only when they have to, another hallmark of Clemson's successful teams in recent memory, as they have gained only 532 yards in the air, but have a 54 percent completion mark. Another interesting comparison is the fact that Virginia runs the ball 72 percent of the time. When Clemson was 37-6-2 between 1981 and 1984 the Tigers ran the ball 76 percent of the time.

Virginia Coach George Welsh might have been taking notes on Clemson's team in recent years. He must have learned something from the 55-0 loss to the Tigers last year because he put the Cavaliers on an unprecedented unbeaten streak the remainder of the regular season. Virginia did not lose again until the final regular season game with Maryland, then went on to a victory in the Peach Bowl over Purdue.

Welsh has become one of the most renowned coaches in the country because of his ability to resurrect programs. At Navy, he made the midshipmen winners and bowl bound teams as he took them to the Holiday, Garden State and Liberty Bowls between 1978 and 1981. And, now at Virginia he has taken a program that had just two winning seasons between 1953 and 1979 to a top 20 season and its first bowl game. Virginia football is no longer "white meat on the schedule," as Frank Howard used to say. The Wahoos have been defeated the team in 1981.

Virginia has used a sound, ball control offense in running up its 3-1 record so far. Barry Word, the ACC's top rusher, has a 7.0 rushing average so far this season with 481 yards and three touchdowns. He gained over 100 yards rushing in each of the first three games this year, including 188 yards on 17 carries against Georgia Tech in Virginia's important win in Atlanta.

Like many teams across the nation, Virginia plays two tailbacks. Howard Petty and Word have switched off starting assignments this year and Petty is third on the club in rushing with 176 yards total. He is also a threat out of the backfield as a pass receiver.

Virginia went to its fullbacks much more often last Saturday as red-shirt freshman Kevin Morgan excited the home crowd with 128 yards on 18 carries. He had just 16 carries for 55 yards coming into the game, but Duke gave up the dive play over and over and Morgan took advantage of it. Antonio Rice added 45 yards from the fullback position against Duke, giving the Cavs 173 yards from that position for the day.

Don Majkowski did not start at quarterback against Clemson last season and that might have been one of the reasons Clemson walked away with an easy win. He came off the bench to help Virginia to a tie with Georgia Tech last year and has been a starter since. Virginia is 7-2-2 with him as the starter because he has everything you need in a fine quarterback; he can pass (54 percent completion mark), he can run (99 yards and over three yards a carry) and he has the leadership qualities.

Jim Dombrowski might be the best offensive lineman in the south. The All-America tackle is the main reason Virginia averages 265 yards a game on the ground. Watch the left side of Virginia's line when the Cavs go for a short-yardage situation.

Defensively, Virginia plays a conventional 5-2 alignment. Two senior linebackers are the top performers, Russ Swan and Charles McDaniel. Swan leads the team in tackles with 48, including 26 individual hits and he had his first interception of the year against Duke. McDaniel is third on the club in stops with 34, including five

Michael Dean Perry will be making his first appearance in Memorial Stadium this afternoon for the Tigers against Virginia.
for losses and two quarterback sacks.

The name Scott is a familiar one to Clemson fans in recent seasons. Jim Scott was a top defensive lineman for the Tigers between 1980 and 1983. His younger brother Sean Scott is now a star defensive lineman for Virginia. Coming into the Clemson game Sean has 35 tackles to rank second on the club and he leads everyone in quarterback sacks with eight for 55 yards. He had eight all of last year when he was an outstanding freshman.

The defensive side of the line of scrimmage has been a bright spot for Clemson also this season. Clemson gave up 26 points against Kentucky, but the defense allowed just one touchdown and repeatedly held Kentucky to a field goal when Clemson errors gave the Wildcats outstanding field position.

Steve Berlin has been a standout for Clemson defensively and he is on a near record pace for tackles by a defensive lineman with 39 in the first four games. If he can average 11 tackles a game the rest of the season, he will break Mark Heniford's eight-year old record for tackles by a down lineman. He had 10 stops at Kentucky, including a career-high three for negative yardage.

Linebackers Henry Walls and Keith Williams continue to lead Clemson in tackles overall with 60 and 57, respectively, through four games. They both like making tackles, but they have been in for a lot of plays this year and would much rather rest on the sidelines a little more often. Clemson opponents have held the ball nearly 10 more minutes per game this season.

Offensively, Randy Anderson had 47 completions in his first three games this season, the most completions in a three-game series since Tommy Kendrick had 54 completions in a three-game series in 1970. Anderson has hit 51 percent of his passes so far this season and has been sacked just six times in four games.

Kenny Flowers has been the top rusher for the Tigers in each of the last three games and has 252 yards to lead the club. He had a 6.2 yard average at Kentucky. Stacey Driver is second on the rushing chart with 137 yards and is now over 1500 for his career. Freshman fullback Tracy Johnson had 55 yards at Kentucky for the best output by a Clemson fullback this season.

Overall, Clemson must stop making turnovers. Clemson averaged six yards a carry on the ground in the first quarter of the Georgia Tech game, but had three fumbles. Last week Clemson averaged five yards a rush in the first half, but had three more turnovers. Virginia on the other hand has committed just four turnovers all season and therein lies the secret to their success (Clemson has 18 turnovers).

If Clemson ends it's turnover problems, the Tigers have the talent to extend their 24-game undefeated streak against Virginia and a 14-game Homecoming unbeaten streak against the world.

Sunday afternoon the Clemson soccer team, which has never lost to South Carolina in the sport of soccer, will meet the Gamecocks at Riggs Field at 2:00 PM. Clemson has an 11-0-1 ledger this season and the club is ranked number-one in the nation. Clemson now has a streak of 19 games in a row without a loss. Tickets for tomorrow's soccer game will be available at the gate.

Last year, ARA served thousands of meals to people away from home. College students, hospital staffs, industrial personnel. Why, right here in Clemson, ARA serves over 15,000 breakfasts, lunches and dinners to students, parents and faculty daily.

But you may not know our full story. ARA chooses only the freshest and most wholesome ingredients. Bright, crisp vegetables. Ripe, firm fruits. The choicest meats and dairy products. Ingredients that are chopped, steamed, broiled, baked and blended into luscious menus. For banquets or birthdays. Cocktail parties or tailgate feasts. In your home or in one of our private dining rooms in the Clemson House. No matter what your special occasion, ARA can fill the bill of fare.

So the next time your calendar is marked with a red letter day... call ARA for that special service.

We'll cater to your every need.

Call 654-1893 or 656-2120
Challenge seems to be the constant companion of John Watson. He is a 6-4, 255-pound starting offensive lineman on Clemson's football team, and he has already been accepted to medical school. Both achievements have satisfied his long range goals of four years ago.

What may come as a surprise to many avid football fans, especially those of whom would give their eye tooth to play on Clemson's football squad, is that Watson would have sacrificed football had his grades suffered. He is a pre-med student with a 3.5 grade point average as a zoology major.

Watson will get his undergraduate degree in December. He has the option of continuing school while pursuing a graduate degree in bio-engineering and completing his eligibility with the football team, or he can begin medical school next year. His extra year of eligibility is the result of being red-shirted in 1983.

Watson has been a man with a mission since graduating from Bamberg-Erhardt High School in 1982. He set several goals upon entering Clemson; one was to become a starter, one was to gain acceptance to medical school, one was to acquire friends outside of football, and one was to take part in as many campus activities as possible. He has accomplished all of his goals.

A typical day for John usually begins at 8:00 A.M. when he arises and heads for breakfast. Classes start around 9:00 A.M. and occupy his time until lunchtime. He has lab three afternoons or uses the hours for study-time until practice. He is required to attend offensive line meetings that last up to two hours prior to practice each day. Following another 2-1/2 hours of physical practice he eats, and then goes back to the books.

As time allows, Watson has made every effort to get involved with as many campus activities as he can. He is a member of Pi Kappa Alpha fraternity, Blue Key (an honor fraternity), Mortar Board and Sigma Tau Epsilon.

"I think it's important to develop friendships outside of sports."

Budgeting his time is vital to Watson's academic success. "Because practice is so physically demanding I can't stay up all night and study," he said. "That's bad, but if I stayed up all night it would definitely show up the next day, and I wouldn't want that."

One thing that irritates John as much as anything is to be labeled a smarty. He firmly believes the key to success in the classroom is the same as becoming a top football player—hard work.

"I hate when people say you are smart and that is how you can make the good grades," the junior from Bamberg, SC, said. "You know, anybody who has enough sense to get in Clemson can do it. I'm not smarter than anyone in this whole place, but it's just that I'm more conscientious than some and I don't miss class and I do what is required for class. My goal in every class is an A. If you put enough time into it and are willing to be committed, you can reach your academic goals. It's a lot of challenge and I don't get bored."

Watson concedes that his medical school aspirations coupled with his football goals have meant many sacrifices that aren't usually made by normal college students, a fact that leaves him very envious at times. "Sometimes I don't have a lot of time to put into my studies. But I know it's something I have to do. I've missed out on a lot of things but everything's a tradeoff. I'm sacrificing a lot of what a normal college student goes through. But, you know, I'm sacrificing that for another side of the coin. Sounds like everything is peachy, but it isn't. It is a lot of work, and it gets old fast."

Football has been a rewarding experience for Watson in the way of providing recognition, which he says everyone wants, and as a means to realize his dream of becoming a physician. "There are benefits from making yourself do both, but it's tough," he sighed. "I took coming to Clemson as a challenge. I could have gone to a smaller school and done both, but I doubt I would have been nearly as pushed or challenged. Maybe it was an insecurity that I had to find out about. So it was more for me just proving something to myself."

"There is a lot of discipline and self-motivation required in my position, and that is a lot of the same thing that it takes in school work. Another thing I'll have when I leave here is confidence, because if I can do this, I can do anything that I want too. This (football and medical school) is the hardest thing I've ever done, and, hopefully, it will be the hardest thing I ever do."

Watson pointed out one particularly telling lesson on himself occurred right before pre-season, when he learned he was accepted to medical school for this fall. "I could have left right then and been in med school now," he revealed, "but I thought of all I had gone through with spring practice, lifting weights, and wanting to be a starter. I don't know what not going to med school now told me about myself, except that I wanted to finish what I started. I didn't want to cop out on football."

Watson has met other self-inflicted challenges, including hopping on a bicycle and covering some 160 miles for a trip home just for the fun of it this summer. Just looking at the young man one would not gather he was an individual likely to take anything but football seriously. In fact, he doubts many of his teammates are even aware that he is as academically successful as he is. He says, "I'm not what you would call your intellectually looking person."

One thing is for certain, if ever anyone dare to challenge John Watson, they better be sure they are equal to the task, because Watson is a man eager to conquer a challenge. He certainly met the challenge of being the complete student-athlete at Clemson.

John Watson has already been accepted to medical school.
Where good people go for good food™
Sherry Thrift is driving down Highway 123 in Clemson. It's hot, but she's alive and looks dazzling in a creme-colored dress, white shoes, two necklaces, and two rings on each hand.

Seat pulled up, Sherry drives up beside another car at a stoplight. She looks at the other driver and then waves and smiles with such enthusiasm that her passenger asks if it's an old sorority sister or cheerleading buddy.

"No, I don't know her," Sherry says. "She looked, so I waved."

That is the epitome of Sherry Thrift, the 1982 Clemson Homecoming queen and former cheerleader who is currently Miss South Carolina and recently finished first runner-up in Miss America. She speaks to everyone, wants to know everybody, and seems to smile all the time.

The 23-year-old blonde from Westminster was named Miss South Carolina July 13. She then finished second to Susan Aiken, Miss Mississippi, at the Miss America pageant September 14 in Atlantic City, N.J.

"Being Miss South Carolina was something I had always dreamed about and wanted to be," she says. "When I was crowned, I was just very, very thrilled."

The excitement did not end there, however, as Sherry went on to compete in Atlantic City. Clogging for the talent competition, Sherry advanced to the final 10 and then, after a long discussion by the judges — some say the judges were breaking a tie — Sherry was named first runner-up to Miss America. She now says laughingly that she may someday write a book titled "There She Is, Almost Miss America."

"It was a wonderful time," she now says of the week in Atlantic City, "It was one of the best weeks of my life. I really took time to get to know the other girls, and now I can truthfully say I have a friend in every state of the country."

One of the reasons admirers and pageant judges have often praised Sherry is her personality, which could be described as spirited or bubbly but which she prefers to just call "happy." "I want to live every day to the fullest," she says. "Sure, you can have some bad days, and you don't want to smile. But then I just think and say to myself, 'Sherry, you've got it so lucky.' So many people take the little things for granted. You just can't do that and be happy."

Sherry says, "It just wasn't God's plan for me to win Miss America but being Miss South Carolina and doing so well in Miss America have really opened a lot of doors for me. Good things are really starting to happen." She will soon do her first television commercial (for Peeler's Milk), and she and her business manager are working on several other possibilities.

"Miss South Carolina is a job for a whole year," she said. "You have to be very flexible and be on call anytime. You never know what you might be doing the next day. But, I want to be busy. I want to work hard as Miss South Carolina and promote the great state we have."

Despite her current excitement, Sherry says she does miss Clemson. "I really love Clemson and have so many friends there," she says. "I wish I could be at Clemson for four more years. Being a Clemson graduate affords you so many opportunities, also."

Especially when you have a personality like Sherry Thrift.
Victory Peal
Symbolic of Clemson’s Progress

If the Tigers win the game today, listen for the Victory Peal resounding over the campus in celebration.

In June, the first six bells of a proposed 47-bell carillon were installed in Tillman Tower, where they chime the hour and play the Victory Peal, the first four notes of the Westminster Chime.

The peal, which will ring at graduation and other campus celebrations, is symbolic of the progress Clemson University has made in the past year. For example:

- Students, faculty and staff found a new best friend with LUIS, a computerized library system that allows them to check the status of library holdings from anywhere on campus.
- After a successful fund raiser in Washington, D.C., groundbreaking ceremonies from the Strom Thurmond Institute were set for fall 1985, with Vice President George Bush scheduled to attend.
- With the addition of two new microscopes, Clemson’s $1.6 million electron microscope lab became one of the best of its kind in the country, allowing users to magnify images more than 300,000 times.
- In competition with 152 other college units from across the country, the Air Force ROTC detachment marched away with the No. 1 ranking in the nation.
- Helene M. Riley became the first female department head at Clemson when she was named head of the department of languages.
- The South Carolina Agricultural Experiment Station dedicated its new $4 million Pee Dee Research and Education Center near Florence, and construction began on the new $9.5 million chemistry building behind Sirrine Hall.
- Under a program approved by the state Commission on Higher Education, Clemson became the only institution in the state to offer a Ph.D. in computer engineering.
- In May, the university conferred 1,492 degrees — including the first Ph.D. in forestry — to the largest graduating class in Clemson’s history.
This has been a special year in the life of Walter Cox. Fifty years ago he enrolled at Clemson as a freshman after graduating from Belton (SC) High School. It is fitting that in his golden jubilee academic year with the University that he has become interim president of Clemson University.

Cox has served Clemson over the last five decades in a number of capacities on the academic side and the athletic side of life, and Clemson has become a lot better place because of his presence. Cox received his bachelor of science degree in June of 1939, then remained for another year to pursue graduate work. In February of 1940 he began his association with the University as a full-time employee as he became a line coach on Frank Howard's first team. He held the assistant coaching position until 1950. During this period he also served as the head baseball coach and as athletic ticket manager.

Cox gained his knowledge on the gridiron from Jess Neely and Frank Howard, two Hall of Fame Head Coaches. Cox played on the Clemson varsity football team between 1937 and 1939 and was an all-state selection in 1939. He was a member of Clemson's first bowl team, an eleven that downed Boston College in the 1940 Cotton Bowl. Cox earned three letters in football and the team had a 20-6-2 record during his career.

In 1942 Cox was called into the Armed Forces and served with the rank of lieutenant in the Fiji Islands, New Caledonia and Guadalcanal with the 147th infantry Regiment of the 37th Division.

In 1950 Cox moved on to the other side of campus as he brought his excellent administrative dexterity and knowledge to university administration. Between 1950 and 1955 he served as Director of Public Relations and Alumni Affairs and as an assistant to the vice president.

In 1955 he moved up to the position of Vice President for Student Affairs and Dean of Students, a position he had held the last 30 years until his most recent appointment on July 2. He has had a stellar career as University Vice President and has directed many programs that have benefited the overall quality of life at Clemson University.

During his three decades as Clemson's first vice president for student affairs and dean of students, Walter Cox guided the campus through a population explosion from 2,700 students in 1955 to more than 12,500 today, a span of years that includes such milestones in the University's development as the enrollment of women and the peaceful desegregation of the institution. Under his leadership the programs and functions of the student affairs division have steadily expanded and improved to meet the changing and increasing needs of this dynamic student body.

Through the offices and departments of admissions and registration, student life, student health services, the University Union, housing, intramurals, intercollegiate athletics, bands, student financial aid, counseling and career services, university canteens, and the bookstore, the student affairs division that Cox has assembled performs essential student services to support and complement Clemson's academic mission. It provides students with special opportunities for intellectual, moral, cultural, spiritual and physical growth.

The success of the comprehensive and progressive approach Cox took as vice president for student affairs is evident in such services as the Counseling and Career Planning Center, which provides individual counseling and group programs on topics ranging from academic and personal concerns to time management and assertiveness training; the University Union, through which students devise, produce and participate in more than 800 varied activities each year; and Fike Recreation Center, a half-million-dollar complex of modern intramural sports and physical training facilities.

Walter Cox has an illustrious and honored history at Clemson University. He is one of only a handful of graduates to be selected to the Clemson Athletic Hall of Fame and to also win the Clemson Medallion (1984) and the Distinguished Alumni Award (1963). He has truly run out of awards to win, but he still has the motivation to climb more mountains as an active university president. After 50 years of serving a university, most alumni retire to private life. Not Walter Cox, he serves his university from the highest level.

Athletic Director
Bobby Robinson

Few Athletic Directors in the country have moved up the ladder as fast as Bobby Robinson. This past March the 39-year-old native of Columbia culminated a 12-year steady progression up the administrative steps to the position of Clemson Athletic Director. He succeeded Bill McLellan on Friday, March 8, 1985.

Robinson came to Clemson in 1970, not in athletics, but in the housing office. After three years he moved across campus to serve as an administrative assistant in the athletic department. "I started at Clemson in the housing office, but I came to Clemson to work in athletics," said Robinson. 'No opening existed at the time so I had to wait until one opened up.'

After serving the athletic department in every imaginable manner, he became business manager in 1975. Two years later he was named assistant athletic director and in 1980 he became associate AD. He held that title four years, but his responsibility moved to an area of strength in regard to the football and basketball programs in 1982.

While serving his administrative duties with vigor, he also coached the Clemson golf team between 1975 and 1983. During his time as the head coach Clemson won its only ACC title in golf and three times the Tigers participated in the NCAA tournament. In 1983, his final season as the head coach, he guided Clemson to a Number Five national finish. Clarence Rose was one of three All-Americans to play for the Tigers during his tenure. Rose is now a successful member of the pro tour.

Thus, it is easy to see why Bobby Robinson is most qualified for the position of athletic director at Clemson University—he has done it all. He has been an administrator at all levels, he has worked in other areas in the University, he has been a head coach and he has handled the budgetary aspects needed to run an $8.5 million dollar program.

Robinson has done everything in the Clemson athletic department, but he concedes there is a big change between associate athletic director and athletic director. 'I no longer can just look at what we could do in a situation, it has changed to what will we do'. The area of facilities is something I will be more involved in also. We have some of the best facilities in the nation and we want to continue to rank favorably in that area." Robinson already has formulated a 10-year plan for facilities as he has a keen interest in all sports at Clemson. Changes in the soccer facility and tennis facility are planned for the next few years.

All of these factors have allowed him to come to grips with what is necessary to be a leader of a national program such as the one at Clemson. "Our philosophy will always be the same. We’re going to be as good as we can be and give our coaches and athletes the opportunity to compete and be successful. That is the primary goal from an athletic point of view.

"From the University point of view, we have to be as good as we can be, yet operate within the rules and be a force within this University. As long as we are within the University structure, we do report to people and we are not different from anybody else—we can be a very positive factor for this University. Our importance is no bigger than that of the English or math department.

Robinson has confidence in his staff, his athletes and the facilities at Clemson University. "We have a solid base in all areas and we are a very solvent athletic department. But, we need to get better, take everything that we have and broaden it. We can’t stand still. We will look ahead within the framework of the University and work to expand our horizons. We want to be as good as we can be and be a vital part of this University and represent the State of South Carolina in a positive manner.”

Robinson was born in Columbia and attended A.C. Flora High School. During his high school career he was a point guard for the basketball team and a third baseman in baseball. He also played a good bit of golf during his younger days and was a scratch golfer at one time. He did not play any high school sports as a senior because of a heart stroke suffered in the summer of 1963. He graduated from A.C. Flora in 1964 and enrolled at Furman.

Robinson graduated from Furman with a B.S. degree in business and political science in 1968. He was a member of the varsity golf team and was the president of the Sigma Alpha Epsilon fraternity chapter at Furman. He worked in his family’s real estate business for two years after receiving his degree from Furman.

Bobby Robinson has served Clemson as a successful coach and administrator since 1970.
For the past four years the Orange Aids Catalog marketing program has made it possible for Clemson alumni and IPTAY members to shop at home for quality Clemson products. The Orange Aids program provides officially licensed Clemson products and the proceeds go directly to support various university programs.

Last fall a new 6000 square foot retail outlet was opened adjacent to Gate 9 on the northwest corner of Memorial Stadium. The store features the finest in Clemson clothing, gifts, and souvenirs and is open all year long for your shopping convenience. Each catalog item and many more products are available.

You are encouraged to shop before and after each home football game, before home basketball games or each weekday when you visit the Clemson campus. You can also now enjoy a snack or pick-up tailgate supplies in the new ice cream bar located within the store.

If you did not receive a Fall ’85 Orange Aids Catalog, please write to P.O. Box 2096, Clemson University, Clemson, SC 29632.

We thank you for your support and look forward to serving you in the upcoming year.

Clemson University has established a licensing program to protect the use of the University's name and insignias. Our proud heritage has created a demand by University students, fans, and alumni for products bearing the name and logos of our University to show their allegiance.

Our program is designed to protect the quality and integrity of products bearing the name and registered marks of our institution. Formal procedures for approval of products, artwork, and quality control of merchandise is in place.

We urge you to look for and buy officially Licensed Collegiate Products. A hang tag should be attached to all merchandise that has been approved by our University. We need and appreciate your cooperation.

If you have any questions or comments concerning this program, please contact Mr. Robert E. Ricketts, P.O. Box 31, Clemson, S.C. 29633 or telephone (803) 656-2101.

Shop ORANGE AIDS and support Clemson University!
Located outside of Gate 9 of the stadium.

Store Hours:
Monday-Saturday 9:30 a.m. – 6:00 p.m.

Extended hours for football and basketball games and special events.

Phone Orders: (803) 656-4757
Or (803) 656-2050
Coach Danny Ford's children enjoying their Price Aquatech pool.

Coach Danny Ford wants more than just a place to swim . . .

- A relaxing retreat from pressures of the day.
- An ever-ready setting for formal or casual entertaining.
- A family gathering place that eliminates the generation gap.
- A health benefiting experience.
- A lifetime home improvement and hedge against inflation.

Since 1956. The prestige pool builder in North and South Carolina.
Clemson football fans owe Auburn some favors. Each of the first four football coaches in Clemson history came from Auburn, including John Heisman, the Hall-of-Fame Coach who laid the groundwork for the Clemson football tradition in the early years of this century.

In contemporary times, Clemson fans owe Auburn another favor, stemming from a friendship between Danny Ford and Pat Dye. Ford, Clemson’s head coach since the 1978 Gator Bowl, was a player under Dye when the latter was an assistant coach under Bear Bryant at Alabama. The two became good friends and it was Dye who convinced Ford to pursue the coaching profession.

“Pat Dye and I were good friends when I was in my senior year in college and I was wondering what I was going to do with my life,” said Ford. “Coach Dye was the one who pushed me to ask Coach Bryant about a graduate assistantship. He put me on the staff and I have been in coaching ever since.”

Clemson fans are certainly happy Ford entered the profession because he has brought a solid program to among the finest in the nation. Now in his seventh full season at Clemson, his record of 52-15-2 (.768) is the fourth best winning percentage in college football among active coaches.

In the last four seasons Clemson has a 37-6-2 ledger, the fourth best winning percentage in America. The class of ‘84 was the third winningest in ACC history in terms of winning percentage, and no ACC class in the 32-year history of the league ever won more games in a four-year period.

Ford has been a part of three ACC championship teams and one national championship team at Clemson. In 1978 he was offensive coordinator for the 11-1 team that won the Gator Bowl over Ohio State, 17-15. The Gadsden, AL native was more than just the offensive coordinator in that game however, as he had become the head coach of the Tigers on December 10 after Charley Pell had already left to go to Florida. The 30-year-old Ford made quite a celebrated beginning to his head coaching career with that victory over the Woody Hayes coached Buckeyes. The nationally televised Clemson victory helped put the Tigers on the national football map and it began Clemson’s climb to among the elite of college football.

In 1981 Ford became the youngest coach in the history of the game to win the National Championship. At the age of 33, Ford surprised the college football world by taking the unranked Tigers to three wins over top 10 teams and a perfect 12-0 record. Clemson handed Herschel Walker the only regular-season loss of his Georgia career, downed North Carolina in Chapel Hill in the only showdown of top 10 teams in ACC history, then defeated former champion Nebraska in the Orange Bowl.

That obviously is the highmark of Ford’s brief, but eventful career at Clemson as he was named National Coach-of-the-Year by UPI, the College Football Writers of America, the Walter Camp Foundation and the Football Coaches of America.

A review of Ford’s football past should help us understand why he has been so successful as a head coach. Another in a long line of former Bear Bryant players that have gone on to greatness in coaching, Ford played for the Bear between 1967 and 1969. He was Kenny Stabler’s sophomore tight end as a starter in 1967, played that position in 1968 and moved to offensive tackle in 1969. Ford started all three years, was All-Southeastern Conference in 1969 and played on three teams that went to bowl games. In 1969 he was also a member of the All-SEC academic team, and served as the captain of the Alabama team.

After Dye’s coaching, Ford remained at Alabama as a graduate assistant for the 1970 and 1971 seasons. He had already earned his B.S. degree in industrial arts and earned his master’s degree in special education in 1971. Ford became a full-time aide for Bryant in 1972 and 1973. The Tide went to four bowl games while Ford was an assistant coach.

Clemson’s current head man then accepted a position as an assistant coach under Jimmy Sharpe at Virginia Tech. He remained in Blacksburg for three seasons (1974-76) before coming to Clemson as offensive line coach in 1977. And, just 23 games later he was named head coach of the Tigers at the age of 30, the youngest active division I coach in the country.

Few people climb to the top five of their profession by the age of 37. Pat Dye gave Danny Ford some sound advice back in 1969 and Clemson fans are glad he took it.
Miles Aldridge is the newest member of the Tiger coaching staff as he joined Clemson on June 28, 1985. The native of Kansas City, MO will coach the inside linebackers and recruit in the lower part of South Carolina. A 1971 graduate of Gardner Webb College, he is in his 15th year of coaching. He began his collegiate coaching career at East Tennessee State, after which he moved to Wichita State, Tulsa, and then Mississippi. His most recent stint before Clemson was at Duke, where he served as lineback coach for two seasons.

Lawson Holland was a reserve quarterback for the Tigers from 1970-73, which makes him the only current coach who played Clemson football. In his seventh year, Holland is in charge of receivers and recruiting Virginia, Washington, D.C., and central North Carolina. The Mooresville, N.C., native earned his B.A. in secondary education from Clemson in 1975.

Nelson Stokley has been the Tigers’ offensive coordinator for the past five years. He came to Clemson on January 18, 1980 after serving as offensive coordinator for Virginia Tech. The 1968 graduate of LSU was the school’s starting quarterback for 1965-67 and then served the fine southern institution as an assistant coach from 1968-75. Stokley still holds many LSU passing records and he was the SEC Sophomore of the Year in 1965.

Don Denning is in his fifth season with the Clemson staff. The deep secondary coach and north Georgia recruiter joined the Tigers on July 1, 1981. He has previously served Western Carolina as defensive coordinator and assistant athletic director, Memphis State as assistant head coach, and Delta State University as head coach. Denning graduated from Presbyterian College in 1960 and received a master's degree from Western Carolina in 1969.

Woody McCorvey is in his third year of coaching the tight ends. He came to Clemson from Alabama A&M where he was the defensive coordinator for four years. The 1972 Alabama State graduate lettered four years in football at the school before earning his physical education degree. He then received a masters degree in health, leisure and sports from the University of West Florida in 1977.

Larry Van Der Heyden has coached some fine offensive linemen during his six years at Clemson and is a major reason why the Tigers’ ground game has been so successful. The offensive line coach joined the staff on January 5, 1979 from Memphis State where he was offensive coordinator for three years. He has also served stints at Iowa State, Drake, Indiana State, East Carolina and Virginia. He earned his B.A. and masters degrees at Iowa State and lettered three years in football and baseball.

Tom Harper, the Tigers’ assistant head coach, came to Clemson from Virginia Tech’s coaching staff on Feb. 2, 1981. The native of Piqua, OH served as the defensive coordinator for Virginia Tech, North Carolina, Iowa State and Wake Forest, where he was head coach in 1972. Harper graduated from the University of Kentucky in 1955 and received his master’s degree at the same school in 1958. Nine of his former players have signed pro contracts in the last four years.

Chuck Reedy has coached Clemson’s running backs for the last seven years. The St. Augustine, FL., native also recruits for the Tigers in southeast South Carolina, south Georgia and Florida. He earned two letters in football at Appalachian State where he graduated in 1971 with a degree in health and physical education. He came to Clemson from Kentucky on July 5, 1978.

Tommy West coaches the defensive and bandit ends and also recruits middle and south Georgia for the Tigers. He is in his fourth year at Clemson, he came from Appalachian State University on July 10, 1982. The Gainesville, GA., native earned his B.S. degree in health education from the University of Tennessee in 1975 after lettering three years in football and baseball for the Volunteers. A fine all-around athlete, he was drafted out of high school by baseball’s Chicago Cubs.

TEXTILE HALL
HAS 500,000 SQ. FT.
FOR RENT...

BUT YOU DON’T HAVE
TO RENT IT ALL.

Textile Hall is known as the perfect spot for any large gathering because of its 11-acre exhibit complex, built on a 50-acre site with free parking for over 3,500 cars. But that’s only part of the Textile Hall story. Did you know that Textile Hall’s auditorium can seat 2,000 people for meetings, or 1,500 for catered dinners? Or that Textile Hall has smaller rooms for sales meetings, banquets, seminars and receptions? Or that Textile Hall can accommodate practically any size meeting or meal, from a barbeque for 10,000 to a wedding reception for 750 or less? Before your next meeting or reception, get the full story on Textile Hall.

TEXTILE HALL CORPORATION
GREENVILLE, SOUTH CAROLINA, USA

Exposition Avenue; PO Box 5823; Greenville, SC 29606; (803) 233-2562 Telex 57-0397

Serving the industry and the community since 1915

Textile Hall is proud to be a donor of the Textile Bowl trophy, presented annually to the winner of the Clemson-North Carolina State game, in honor of the textile graduates of these two fine universities.

For the sixth time in the last seven years the Clemson all-around sports program has been ranked in the top 15 in the nation. The survey, conducted by the Knoxville Journal, takes into account national rankings in selected sports. Women's sports are not included in this poll, which has been in existence since 1971.

This poll is a good index of Clemson's athletic success in recent years. Clemson first made the top 20 in 1975-76 with a number-20 finish. The Tigers had four top five finishes between 1980 and 1983, one of only two schools in the nation to do that during this time period.

The 1984-85 academic year was another outstanding season for Clemson sports as nine teams were ranked in the top 30 of their respective sports. Five male sports teams and four female sports teams were in the top 30, highlighted by the soccer team's national championship. Three other individuals were lauded as national champions as Richard Matuszewski and Brandon Walters won the NCAA indoor doubles national title, while Tim Krebs won the 1500 meters at the NCAA indoor track meet in Syracuse, NY.

SHOW YOUR PRIDE FOR CLEMSON WITH A TIGER PAW FLAG

The Tiger Paw Boat Flag is a great way to show your support for the Clemson Tigers while you are on a camping trip, or in your car.

Designed with metal grommets, the 12" x 18" nylon boat flag is perfect for aluminum staffs, trailer ladders, or car antennas. Show everyone you're a Tiger fan. Order your flag today.

For information on our Clemson Tiger Flags or our Tiger Paw 3" x 5" Flag, please call or write.

Please send me ___________________ Clemson Boat Flags. I have enclosed my check or money order for $9.35 (this includes postage and handling) plus applicable sales tax for each flag.

Please send me ___________________ brass Clemson Tigers. I have enclosed $28.95 (this includes postage and handling) plus applicable sales tax for each tiger.

CLEMSON FOOTBALL
and
CBS SPORTS
THE WINNING TEAM

College football brought to you live by CBS Sports and TV 7 featuring the best games from the ACC. Join the EYEWITNESS SPORTS TEAM, Stan Olenik, Paul Jackson and Lonnie McCollough for complete coverage of Clemson football.
The Clemson University Athletic Department provides the following for your safety and emergency medical needs:

1. Advanced cardiac life-support stations in four locations. (North stands, Upper North deck, South stands, Upper South deck.) These units are staffed with skill-care nurses, physicians, cardiologists, internists, paramedics, and EMTs.

2. Mobile units of EMT's and paramedics are strategically located throughout the entire stadium.

3. Ambulances with life-support equipment are available in North stand and South stand areas and have prearranged routes for evacuation to local hospitals.

Learn to recognize these personnel and facilities.

WHAT TO DO IF EMERGENCIES ARISE

Please step back and give the organized stadium EMS personnel room to work. Well-intentioned attempts to help by untrained persons interferes with the efficiency of the EMS system. If you have basic or advanced training in specific life-support methods, make your qualifications known and offer your help. Untrained personnel can be frequently more harmful than helpful.

MEDICAL ADVICE FOR FANS

If you have a pre-existing medical or health problem, please check with your personal physician and obtain his advice before attending games. Many emergencies occurring at the stadium do so because of prior existing conditions. Use common sense in dressing, eating, drinking and physical exertion. Be certain that you have identification on you as to the diagnosis and what medications you are currently taking.

Be aware of warning signs of heart attacks: chest pain, chest tightness, shortness of breath, sweating, palpitations, fainting, nausea and vomiting.

Recognize that our most common serious medical problem at football games are heart attacks and allergic reactions to insect stings. Be aware that insect stings will continue to always be very frequent at outdoor sporting events and should always be treated with immediate ice until advice can be obtained. If you have ever had a reaction to bee or other insect sting, check with your personal physician as to whether you should carry a kit.

The stadium emergency phone number is (803) 656-2999.

IPTAY, in its 52nd year as Clemson’s athletic scholarship fund-raising club has continued on its long and successful journey. From a modest beginning in 1934 with only 162 members, IPTAY has grown to include 20,000 loyal Tiger supporters. IPTAY, “I-Pay-Thirty-A-Year,” is recognized as the number-one group of its kind in the country.

During the 1984-85 academic year, IPTAY continued to grow and expand with the addition of three features. The IPTAY Athletic Academic Endowment was established during the fall of 1984 for recruiting scholarships for academics. The basic principle behind the endowment is that money donated by matching gift companies is earmarked for a separate scholarship just for academics.

IPTAY also introduced the Tiger Life program in late 1984. With Tiger Life, the Clemson IPTAY Club is the owner and beneficiary of a whole life insurance policy on a participant’s life. The contributor makes comparatively small annual gifts for a maximum of eight years. Contributions go directly to Clemson University Tiger Life and all donations to Clemson and IPTAY are, of course, tax deductible. With this program, the member creates a sizable capital asset without impinging on the funds destined for his family. In effect, it creates a $100,000 endowment fund in the contributor’s name.

During the past year IPTAY also adopted the Orange and White as the official publication of IPTAY. The Orange and White, which is published weekly from mid-August to March and monthly during April, June, and July, began exclusive distribution to 20,000 IPTAY members in early September.

Listed above are just three features that IPTAY has implemented in order to continually attain new heights of success. But, the determining factor that has allowed IPTAY to flourish for over 50 years, is the undying dedication of its members.

The reason is people—people who are committed to a successful program at Clemson University, both on and off the field. Professors, athletes, administrators, managers, trainers, alumni, and friends all play a part in this success. The results which have been produced are something Clemson people can all be proud of in this search for excellence at Clemson University.

The on-going search for excellence in the academic area at Clemson University has resulted in the awarding of the 1984 Fulbright Scholarship for graduates to study overseas to six of six Clemson applicants. In addition, a Guggenheim Scholarship was awarded to another Clemson graduate. Of the 320 valedictorians in South Carolina 120 were accepted to Clemson University. Furthermore, a building program is being instituted on campus that will include a new chemistry building, as well as the expansion of several other departments.

That search for excellence is further exemplified by the efforts of the 20,000 IPTAY members who contributed $118,000 more in 1984 than the year before. These monies enabled over 440 athletes, managers, and trainers to receive scholarship aid to attend Clemson.

These athletes also have the strong commitment to excellence that Clemson supporters both desire and desire. The Tiger football team has the fourth best four-year record in college football. In December 1984, the soccer team became the school’s second national champion by defeating defending champion Indiana. Soccer, men’s cross country, women’s cross country, men’s tennis and women’s tennis were all Top 20 teams, while the men’s and women’s tennis teams were conference champions. Swimming and wrestling enjoyed their best seasons ever. There were 19 All-Americans and 60 all-conference performers competing for Clemson, in addition to six athletes that took part in the Olympics. There is no doubt that Clemson athletics enjoyed one of its best years ever.

IPTAY certainly was a major reason for these accomplishments. But, what is IPTAY other than scholarships? And how has Clemson University benefited from these 51 years of service? The Clemson IPTAY Club has a board of directors led by President Lawrence Starkey, Vice President Jim Patterson, and Secretary-Treasurer Eddie Dalton.

Under the direction of these men, the main purpose of IPTAY continues to be raising monies for athletic scholarships, and thanks to the foresight of athletic department officials and the support of the Board of Directors, many improvements have taken place on campus which are of benefit not only to athletes and fans of athletics, but to the academic area of the University as well.

Specific areas of improvement in recent years include installing lights on Riggs Field, building a new baseball facility (with lights that were added this spring), funding Tiger Band travel, donating over $200,000 to the President’s Fund, and developing the East Beach area enjoyed by all Clemson students.

The attitude of Clemson people, especially those associated with IPTAY, is “success is a journey, not a destination.” The search for excellence continues at Clemson and, thanks to the continued support of 20,000 IPTAY supporters, the excellence in athletics will continue. As IPTAY continues its service to Clemson, one may only wonder what the future holds.

After 23 consecutive years of record-breaking support, there is no doubt that Clemson will remain number-one.

possibly
two of
the BEST!
When you purchase $215,000 worth of office supplies annually, you need to do it in the most cost-effective means possible.

That's the responsibility and challenge facing Russ Conley at South Carolina National Bank.

For every day, across the state, more than 2,300 people depend upon his department for the materials and supplies they need to respond to their growing audience of customers.

Harper Brothers lent a hand through the introduction of Purchasing Management System. A computerized mode of purchasing office supplies that is more time and cost efficient than anything else in the market.

Purchasing Management System gives you precise, timely inventory control without the cost. And all but eliminates expensive, time-consuming back-orders and misfills.

"With the help of Purchasing Management System, we have been able to cut delivery time from seven days to one. In terms of inventory reduction alone, that translates into savings of $80,000 for this year."

Monday morning press a button and enter your order. Tuesday morning, it's on your desk.

If you'd like to do something about your office supplies purchasing, we'd like to show you how to press our button.

Let's talk.

People who take flying seriously complain if an airline isn’t performing. So you can imagine how proud Piedmont was last year when, according to *Air Transport World* magazine, we received fewer complaints than any other major airline.

It’s one reason why *Air Transport World* recently named us, of all the world’s airlines, the Airline Of The Year. And a reason why our record against the competition has been so good lately.
SEASON TICKET HOLDERS: Other Visitors: Season ticket holders and other visitors to the stadium are requested to enter Gates 1, 5, 9, 11, or 13. Persons with top deck tickets must enter the stadium via the ramps which are located behind the North and South stands. Ramp entrances are adjacent to Gates 1 and 13 on South side and Gates 5 and 9 on North side.

HANDICAPPED: Special entrances have been provided at Gates 1 and 13 for the handicapped.

WILL CALL: Should you have tickets at the will call window, you will find them at Gate 13.

Gates 4, 6, and 8 are closed prior to the games and are opened for exit purposes only.

PASS OUT CHECKS: Pass out checks will be available at Gates 1, 5, 7, 9, 11, 13, and the top decks. Any person leaving the stadium other than with a team pass must have a pass out check, as well as an admittance stub to be readmitted to the stadium.

EMERGENCIES: First aid stations are located: South Side – Under Section J; South Top Deck – Under Section E; North Side – Under Section T; North Top Deck – Under Section K. Trained nurses are on hand during the game. Should a doctor be needed, ask any usher, who knows the seat locations of doctors. Ambulances are located at Gates 1, 5, 8, and 13.

TELEPHONES: Pay telephones are located at the stadium ticket offices at Gates 1, 5, 9, 13, and top decks.

PUBLIC ADDRESS SYSTEM: The public address system is extended primarily for spectators' information concerning the game. Please do not request the use of the public address system to make social contacts.

RESTROOMS: Ladies' and mens' restrooms are located beneath the stands and can be reached by exit from any portal.

LOST & FOUND: If any article is lost or found, please report same to Gate 1 information booth.

CONCESSION STANDS: Concession stands are located beneath all stands and can be reached by exit from any portal. A concession price list is published on this page.

EMERGENCY CALLS: Emergency calls are received in the Security Booth. The emergency number is 656-2599.

NOTE: The following items are prohibited in Memorial Stadium - umbrellas, folding chairs, chaise lounges, food and beverage containers of any type, alcoholic beverages, thermos jugs, and ice chests.

NOTICE: Solicitation for any purpose is prohibited at an athletic contest in Clemson Memorial Stadium and Littlejohn Coliseum.

WHEN TIMING IS CRITICAL...

LIFE REACH

As the region's preeminent referral center for patients with cardiovascular disease, Providence Heart Institute in Columbia treats patients from across South Carolina. And when a heart problem needs immediate attention, our Life Reach helicopter can get a patient to us rapidly and safely.

The helicopter is fully staffed and equipped for critical care—and it can take off within 5 minutes of a call to our Emergency Room. At 150 miles an hour, the Life Reach crew can reach any hospital in South Carolina in under an hour—often in only minutes. On the trip back, the medical team on the helicopter is in communication with doctors at Providence.

Heart disease touches almost every family in South Carolina. The Providence Heart Institute was created to provide the highest quality services for the diagnosis and treatment of cardiovascular problems, and the Life Reach helicopter is a reflection of our dedication to that goal.

We are committed to offering the most up-to-date diagnostic and therapeutic services...with an expert medical staff...using the very latest techniques and equipment...in the finest facilities. Providence Heart Institute also has a commitment to research into the best methods of treating and preventing cardiovascular disease.

Our state's community hospitals are able to take care of almost any illness you'll ever have. But it's good to know that when specialized cardiovascular services are needed to complement those at primary care facilities, Providence is available. And it's reassuring, too, to have Life Reach Rapid Transport standing by—when timing is critical.

The following is an interview conducted with Ron Heitzinger of the firm Heitzinger & Associates of Madison, WI. Last April Clemson University retained this firm for the purpose of implementing a student-athlete Assistance Program, which is a personal education program that stresses prevention and intervention. Some of the universities throughout the nation that have used the program are Wisconsin, Iowa, Washington, Notre Dame, Ohio State and Indiana. Additionally, six major league baseball teams also use these services.

Q. What is the main function of SAAP and the service it provides?

A. The Clemson University SAAP, which stands for Student-Athlete Assistance Program, provides confidential, professional and voluntary assistance and support to students regarding personal problems that are adversely affecting their academic or athletic performance. Educational programs are also offered to prevent problems and promote the general well-being of student-athletes. The SAAP offers education and assistance regarding: alcohol/drug problems, emotional problems, family difficulties, health/physical problems, financial and legal problems, eating disorders/nutrition and stress management.

Q. Who is involved with implementing the program and how long does it take to implement SAAP?

A. The SAAP has three parts. First, there is the written part, where we devise manuals for coaches and athletes, set policies and provide information packets about our programs. Second, we visit the University to meet and train a Core Committee, which is the group of professionals on campus, such as academic advisors, trainers, a few coaches and liaison people in the community and campus. Core Committee members receive special training and education to help in the identification, assessment, and referral of student problems. Finally, there is the follow-up stage, where we come back to the school with follow-up programs. We anticipate this will be a two-year program, then the school handles the program itself.

Q. How do you go about selecting the members who comprise the Core Committee?

A. We recommend a wide range of people spread throughout the athletic department and campus where athletes can pick, in a confidential way, someone they can go and talk to so they’re not worried it will get back to their coach or their parents. That way, anytime the athletes see these people, it is not going to be seen any different than people talking to them in a normal way so that they would not know they are going to them for a specific problem.

Q. How are the students’ rights protected?

A. To insure the SAAP’s effectiveness and protect students’ rights, several guidelines must be adhered to: First, the academic or athletic status of the student will not be jeopardized by the student seeking assistance. Secondly, the decision to use the program must be voluntary. If the student rejects a suggestion to seek assistance, it is the student’s responsibility to remedy the academic or athletic performance problem or face appropriate action. Above all, the program must protect the privacy of the student by employing strict confidentiality measures. Any details of communication between students and Core Committee members or athletic department personnel may not be disclosed to any source without the written consent of the student. Unless the student consents otherwise, the person making the referral to a source of assistance at a student’s request may disclose only the following information: the student’s name, address, phone number, how the student was referred to SAAP, and the reason for the referral. Records are maintained solely for program evaluation and will be kept by the SAAP Program Coordinator in a centralized secure location.

Q. Explain how the SAAP works.

A. Well there are several procedures a student-athlete can follow for seeking information or assistance. First, a student-athlete can contact a coach, trainer, or other athletic department personnel for information or assistance. After a discussion of that student’s situation, this person will aid him/her in contacting a Core Committee member for further assistance. Secondly, a student-athlete can con-
tact a Core Committee member directly for assistance. The Core Committee member will discuss the situation with that person and help them to then outline a plan in regard to the problem. This plan may include a referral to the appropriate source of assistance such as: alcohol drug treatment agencies, counseling centers, education and community programs and University services. The Core Committee member and referral sources can help provide necessary assistance and follow-up until completion of the recommended plan.

Q. What is the procedure for coaches, trainers, and other athletic department personnel for seeking information/assistance on behalf of a student-athlete?

A. If concerned about a student's academic or athletic performance or inappropriate behavior, athletic staff should carefully observe and document the situation and possible performance indicators. Next they should discuss the situation with the student if a problem is indicated. Then they should review the observed and documented performance deterioration or inappropriate behavior. Then they should explain the consequences if the situation does not improve and offer the help of the SAAP. The staff member should assist in contacting a Core Committee member at the student's request, or contact the Core Committee member directly and present their observations and documentations. Then the staff member should allow the Core Committee member to confidentially contact the student. This procedure is the same for family and peers that also may be concerned about a particular student-athlete.

Q. Is the service provided just for athletes?

A. No. Once we got involved in the program and began talking about alcohol and drugs, we started seeing other topical areas come up, such as the usual family problems that deal with alcohol problems and drugs and numerous other areas that center on relationships and sexuality. Also, occasionally you find that some of the people selected for the Core Committee show signs of alcohol, drug, etc. dependency. We find that as soon as we come in and set the program up for students that usually in the second year we develop a program, what is known as employee assistance program, for the staff. A lot of coaches start saying things like, "I'm on the road a lot; I don't see my wife much; I'm going through a divorce or separation; I'm drinking a lot; Where do I go for help?"

Q. What benefits have you seen from the program?

A. We use what is called a PLISSIT Model. "P" stands for permission; the "LI" stands for little information; the "SS" stands for some suggestion; the "IT" stands for intensive therapy. So, everytime some kids would come into my office, about four of them ask questions that deal with permission. For example: "Is this normal?" "Am I OK?" A typical question would be, "If I had four beers any night in my home, fell asleep in the bed, and the bed started spinning around, am I an alcoholic?" No, that's normal. Anytime you put too much alcohol in your system that's going to happen. The "LI" would be, "What's a blackout?" What if I don't remember anything when I get up in the morning? The "SS" suggestion would be: "I want to stop using drugs but I can't, what should I do?" The "IT" is knowing that people need intensive therapy and they need to be filtered out to a counselor or a treatment center. So that it usually goes 4,3,2,1, so that everytime people come into the office they aren't alcohol and drug addicts. They're young people trying to figure out what they should do with the usage of alcohol and drugs.

Q. Have you seen results from Clemson's SAAP since April?

A. I'd say that since April probably over 50 students have used the program under different types of referral, either as self-referral or a coach referring them for some type of discipline. As successful as Clemson's program is, you will not see, or know what is happening. That is because the program is confidential. There won't be a list of people who have used it. Eventually there may be a person come forward to say this really helped him/her, and then that person will go back to the training sessions and speak up about it.

Q. Do you think the problem of abuse is worse with athletes than the regular student?

A. We know this — that they are more identifiable, they are more in the public eye, and they get more attention. For example, we changed our drunk driving law back in 1984 in Wisconsin, and they had a big crack-down during the holiday period, and 128 people were arrested. One person got their name in the papers and that happened to be a hockey player. That's going to happen because of their notoriety. We also know that there are a lot of reasons right now in our society that athletes will have a tendency to use a variety of drugs in different ways. Lifestyles of an athlete already denotes, as an example, a separation of the normal social or sexual relationships, and that causes problems for them because of the high intensity of winning and losing emotions that can easily be replaced by alcohol or drugs. Athletes have a tendency to lean to an encyclical pattern, where they will swear off drugs during the season, but will go back on them during the offseason, which is used as makeup time, and then they more than makeup the lost time by using more than the normal amount of drugs, and then develop problems.

Q. Will SAAP help head off future problem situations for the athletes at Clemson?

A. I see the first year of a program like this helping the fence sitters that are pulled by people who say, "Come on let's go have a good time tonight." "Try this." "Let's do this and that." When you're not educated you'll trust your peers, and that is why a lot of people get into abuse situations. They don't have the proper information. It will also set up a policy and a procedure of dealing with people who are abusing — through drug testing, through situations that are coming in front of the court systems, whatever. The final thing we really stop is crisis situations from happening, because the athletic department — coaches, trainers, athletes — visually start seeing these abuse situations and they learn to start confronting those situations. If they don't, they then start to feel guilty, because we teach them to feel guilty. That is their role. It is not a narcotic situation, it is a caring situation for what is happening. That is what we stress in all our educational sessions.

Q. What is the worst problem on college campuses in your opinion?

A. My own belief is that we don't have drug problems on college campuses today, we have alcohol problems. But everybody is focusing on the small amount of people who are having problems with drugs. Everywhere I go we try to educate as much on alcohol as we do on drugs. I think we're cracking down in the U.S., because an attitude shift is really occurring with drugs. It's not happening with alcohol. If anything, we are seeing an increased use of alcohol back in the high schools.
We'd like to salute the entire sports program of Clemson. And all the athletes and coaches who are part of it. We're proud to be Tiger supporters, and proud to be part of the Clemson community.

BUILDING A BETTER TOMORROW TODAY

Chances are the Ballenger Group has touched your life. Through the highways you ride on. The electricity you turn on. The airports you leave. The buildings you enter. The water you drink. The bridges you cross. For over one-half century, the Ballenger Group has served community needs in the southeast. Ballenger continues to bring innovation and "firsts" in construction to our area's largest projects.

We're proud to be building your future.

ASHMORE BROTHERS
Highway and commercial asphalt paving and drainage systems.

BALLenger CONSTRUCTION COMPANY
General contractors for industrial, commercial and institutional facilities.

BALLenger INDUSTRIAL & COMMERCIAL SERVICES
Maintenance services, development and implementation of maintenance management systems.

BALLenger HIGHWAY/HEAVY COMPANY
Highways, airport runways, and dams.

STRUCTURES, INC.
Concrete bridge construction over land or water regardless of terrain.

BALLenger WATER SYSTEMS COMPANY
Constructors of water and waste treatment facilities.

UTILITY TECHNOLOGIES GROUP, INC.
Providing unique benefits of privatization for public and private clients.

Corporate Headquarters • Greenville, SC
Let us start building your future today.
Call Danny Schaaf at 803/244-5112.

America's Eighth Largest On-Campus Stadium
RCA "Small Wonder"

CLC020 Color Video Camera

- Solid state MOS image sensor
- Infrared auto focus system
- Electronic viewfinder with adjustable diopter
- f1.2—6:1 lens with power zoom
- Optional titler
- Macro focus
- Constant automatic white balance
- Remote pause control with quick review
- Automatic iris
- Built-in microphone

RCA SelectaVision®

VLP900 Convertible Video Cassette Recorder

- Converts instantly from table model VCR to portable unit
- Programming by remote control with on-screen instructions
- Up to one year, 8-event programmer
- Automatic tracking control
- Five-head video system with "field still" special effects
- New Express recording (XPR)
- On-screen display of time, channel, tape counter, date
- Sound-on-sound audio dub
- Direct camera input

RCA ColorTrak Television

FLR530R

- NEW 20" diagonal square picture tube
- Digital Command Center remote control
- On-screen time and channel number display
- Multi-band quartz crystal tuning
- Automatic program setting
- Super AccuFilter 110° COTY picture tube
- Unitized XtendedLife chassis
- Automatic picture control systems
- High-compliance audio system with stereo adapter jack
- Sharpness control
- VHF and UHF antennas

Visit any local RCA dealer for a demonstration.

A mere 1/8" of rain could float your car off the road. Hence the reason for Vector, Goodyear's superb handling all-season radial. Vector's aggressive criss-cross tread actually pumps water away. To help your car maintain traction, even when the elements become hostile.

And Vector's performance advantages are enduring. Even after thousands of miles of wear, Vector's deep tread and double-steel belts continue to give you outstanding traction and performance.

It simply performs like no other tire in the world.
The passage of the Education Improvement Act, widely hailed as a long overdue commitment to public education in South Carolina, marked the end of months of political debate involving educators, legislators, taxpayers and lobbyists on both sides of the issue.

But for one group of people, the work has barely begun. While legislators accept kudos for their efforts and taxpayers pat themselves on the back for accepting a sales tax increase with grace, public school teachers face the challenge of fulfilling the EIA's great expectations.

It's a challenge Clemson University is helping them meet.

Hundreds of teachers from school districts all over the state spent part of their summer vacations at Clemson learning to be better teachers. Still more teacher-improvement programs are in the planning stages.

More than 160 of the state's top high school teachers attended one of the 10 Advanced Placement Institutes offered at Clemson this past summer.

The two-week institutes were designed to better prepare teachers to teach honors courses that lead to Advanced Placement tests, which allow high school students to earn college credit and skip certain freshman-level courses.

"The Education Improvement Act stipulates that all schools must provide opportunities for students to take Advanced Placement tests, which means more teachers will need training to help students prepare for the tests," says Clemson vice provost Jerry Reel.

Also begun in the summer of 1985 was the state's largest single effort to improve the quality of science and math education. The program involves five state institutions, but was the brainchild of Clemson's Doris Helms, head of the biology program.

With $1.2 million from the National Science Foundation and $673,000 from the State Commission on Higher Education, Helms spearheaded the development of a unique professional development program for teachers who need to improve their own knowledge of the subjects they teach.

"The program is aimed at people who are teaching science, math or computer science courses but recognize that they have deficiencies in those subjects," Helms says.

With another grant of $50,000 from the state CHE, Clemson will establish the state's only Center of Excellence in Math Education. The program, to be administered by the department of mathematical sciences and the College of Education, is designed to boost the quality of math education in grades 6 through 12 through summer institutes, post-graduate courses and a variety of classes for teachers.

John Luedeman, professor of math sciences and director of the center, said the project is aimed at increasing the number of secondary math teachers certified in mathematics, reducing the number of math classes taught by teachers not so certified, and improving the professional image and content knowledge of math teachers.

The College of Education also has been awarded a $71,000 grant from the U.S. Department of Education each year for three consecutive years to train special education teachers.

The grant will help students enrolled in Clemson's special education master's program learn to work with learning disabled, emotionally handicapped and educable, mentally handicapped students.

According to a Clemson survey of Oconee, Pickens and Anderson county teachers, one out of five special education teachers working at the secondary level is teaching in a field outside his or her training. The teachers surveyed indicated they needed help in such areas as adapting standard curricula to meet their students' needs, working with community agencies, career and vocational counseling and understanding the emotional needs of adolescents. The grant will allow Clemson to add several courses designed to meet these needs.

Many of Clemson's teacher training programs were under way long before the EIA became a reality.

The Clemson Writing Project continued for the third summer, helping teachers hone their writing skills and learn how writing tools can be used to help students understand a variety of subjects.

Some of the approaches to using writing in teaching are having students keep a journal of their reactions to subject matter; "freewriting," in which students are given a period to write everything they know about that subject; and writing on a subject both before and after a formal class lecture.

In another continuing project, 20 secondary social science teachers attended the third annual Strom Thurmond Seminar in Government and Politics.

This year's sessions featured talks by prominent people in government and politics, both at Clemson and in Washington, D.C. The seminars are sponsored by the Strom Thurmond Institute as an effort to increase political knowledge and awareness among teachers of civics, political science and history.

And the Computer Vantage Van, outfitted with equipment and software donated by Texas Instruments, is still on the road, visiting public schools throughout South Carolina to conduct "computer literacy" programs for teachers who need to increase their knowledge of this critical discipline.
COULD BE THE BEST PASS OF THE GAME.

FOOTBALL FANS...THIS BUD'S FOR YOU.
HERE’S HOW TO BUILD THE COST-MANAGED, EMPLOYEE-SATISFYING BENEFITS PROGRAM.

Competition is growing more fierce than ever before, everywhere. You can find competition within your own company. A battle is raging right now between managing costs and building an employee compensation program that attracts and keeps valuable employees.

FROM THE SINGLE SOURCE

Now, for the first time, you can build an affordable, cost-managed compensation program for your company using the most innovative insurance and financial products available today—all from one source, the single source, Blue Cross/Blue Shield and Companion.

THE CHOICES

Starting with health benefits, choose from cost management plans; Preferred Personal Care, our preferred provider organization or Companion HealthCare, our health maintenance organization. Companion companies offer group, supplemental and dependent life, disability coverage, pensions, annuities and workers compensation. Add payroll deduction plans like individual homeowners, automobile and universal life.

Service-only options include third party claims administration, cost management and employee wellness programs.

TOTAL EMPLOYEE FLEXIBILITY

With our flexible compensation plan, employees receive the added benefit of choice that allows them to build a plan that best meets their needs. You benefit from affordable, managed compensation costs and employee satisfaction.

THE ONLY SOURCE YOU’LL EVER NEED

To be truly competitive, you need a compensation program that offers flexibility, cost-managed benefits and employee satisfaction. You need the Single Source, Blue Cross/Blue Shield and Companion. For information on any of our products, contact your independent agent or the Blue Cross Marketing Division at 803-788-3860.

THE SINGLE SOURCE.

Keowee Key . . .
a recreational/leisure lifestyle
unlike anything else in Upstate South Carolina!

Whether you're seeking a permanent home or a weekend retreat, Keowee Key offers the ideal recreational/leisure lifestyle. Beautiful homes, townhouses and villas in a quality environment . . . by the lake, near fairways or in secluded woods. The calming waters of 18,500 acre Lake Keowee create a secure, relaxed setting. Yet, there's plenty to actively enjoy: a country club with restaurant, lounge, meeting rooms and pro shop; an 18-hole championship golf course; a marina with swimming pool, cabanas, saunas, exercise room, lounge and lighted tennis courts. Come see the many homesites and homes we offer. Your dream home can be an affordable reality . . . at Keowee Key, the Upstate's premier recreational community. Less than an hour from Greenville and a whole world apart. For Free Discovery Packet and Discounted Vacation/Opportunity Packages, call 803-944-1333 or write . . .

Success on the field doesn’t come easy.

It takes a lot of work. A lot of planning. A lot of effort, skill and commitment.

Then, if you’ve worked hard enough and planned well enough, you come up with a winner.

And that’s what the South Carolina Electric Co-ops have done over the past 50 years. By delivering affordable, dependable power to rural areas, they made possible the industrial-ization of more than half of our state.

Whether that industrial development took place in factories or on farms, rural electrification made production more efficient and effective, reduced food prices and expanded our potential for economic development.

That means life got better. On the farms. And in the cities. Because South Carolina Electric Co-ops are fielding a winner. For everyone.
CARQUEST Can Help Care For Your Classic.

At CARQUEST, we stock thousands of parts on our shelves, but, if we don’t have what you need we’ll get it - usually overnight.

So, whether you drive a new car, an old classic or anything in between, CARQUEST will get you the parts you need when you need them.
Our most sincere appreciation goes to each of these dealers who have donated cars to the Athletic Department for use in travel by members of the staff.

What do Southern Methodist, Virginia Tech, Pittsburgh, Boston College, Baylor, TCU, Houston, Virginia and Air Force all have in common? That's right, they are all recognized major college football competitors who have all been to bowl games within the last two years.

But, this roster of schools from across the country has something else in common: all had an average home attendance in 1984 that was lower than Clemson's attendance for its Homecoming pep rally, commonly known as Tigerama. The 28th annual affair drew almost 40,000 people last season to Clemson Memorial Stadium and all of the above teams had an average home attendance for the season that ranked less than 40,000.

That might be the best documentation as to how big Tigerama has gotten in recent years. This combination pep rally, talent show and fireworks display is one of the most entertaining events in the southeast year after year.

"I got the idea for Tigerama while I was at the University of Florida," said Joe Sherman, the retired director of the Clemson News and former director of Alumni Relations. "Florida had this big student talent show the night before the Homecoming game called 'Gator Growl', and when I came back to Clemson in 1956, I persuaded the alumni council to fund a show like it for the following year. I got Blue Key to sponsor and coordinate the show and things started rolling from there.

When Shermcup formulated the concept of Tigerama, his ideas were based upon the theory that competitive skits by student organizations, student specialty acts and official student groups constituted an enjoyable program. In the past many student groups have used football foes, fellow students, and university officials as the prime targets for ribbing in their performances. All in all, Tigerama has been successful in reaching the goals outlined by its founder through the establishment of a tradition at Clemson.

The inaugural performance of Tigerama took place on November 8, 1957. It was vitally important for the first production to be a successful venture so that Tigerama would be able to continue in the future. In order to ensure this success, Blue Key President-elect Joe Blandford launched the campaign. "What is Tigerama?" This tactic was used to get everybody on campus interested in this new idea. At the time, Tigerama became the hottest thing Clemson had seen since the original administration building burned in 1894.

The 10,000 or so fans that braved the cold that first night 29 years ago were treated to an exciting performance. Featured on the first program were Mac McCahan, a fire eater; juggling specialist Dale Tinsic; and major-ettes Phyllis O'Dell, Diane Austin, and Carolyn Willis. Later during the evening Miss Austin was chosen as the very first Miss Tigerama. Stan Kenton and his Modern Jazz Orchestra provided musical entertainment for the gala event.

There were also skits performed at the first Tigerama. The Canterbury Club walked away with the first prize purse of $75 for their skit entitled "A Dining Hall Panorama."

But, the show didn't end there. No sir. As the grand finale, the Pyro Display Company of Florida put on a large fireworks display. During that first year the fireworks cost $850 and have steadily increased in price over the years. Last night's fireworks extra-

The crowning of the Homecoming Queen is just one of the events at Tigerama.

At Robin's we have a commitment to quality and value. Those two principles mean that you the customer can find quality men's and ladies clothing at considerable savings. If you haven't been to a Robin's store lately, you're truly missing a great experience in clothing. Robin's will help you outdress not outspend!

At Robin's, we believe in providing a great experience in clothing.

Ladies clothing in Florence, Columbia and North Myrtle Beach only.
As every schoolboy knows, October 12 is a big day in the history of the world. On this day in 1492, an Italian man named Christopher Columbus discovered America, setting the stage for development of the world's most prosperous country.

Although no Clemson football games played on this day have probably had the consequence that day had (Clemson has never played South Carolina on this day) the Tigers have battled many times on October 12 and always provided exciting action.

1912—Coach Frank Dobson's Tigers took on Riversides of Georgia this Saturday. It was a very hot day on Bowman Field—it was, "a day far more suited for baseball," said The Tiger newspaper. The Tigers were able to jump out to an early lead, however, behind the running of E.H. "Buck" Pressley and the excellent blocking and tackling of the Clemson lines. Pressley scored twice and Marion Coles once as the Tigers pulled away to a 26-0 victory.

1935—"We saw a good exhibition of football today." That was about all Clemson Coach Jess Neely could say after his Tigers were crushed by the Duke Blue Devils, 38-12, in Durham. "Honey" Hackney starred for Wallace Wade's Devils as Duke simply outmanned the Tigers. Duke picked up an early Clemson fumble, ran it in for a score, and was never headed after that. Walter "Streak" Lawton and Mac "Ripper" Folger were credited with playing well for the Tigers.

1940—It was billed as "the Battle of the Giants." Highly-touted Clemson and Wake Forest met on this day before an overflowing crowd of 16,000 on Riggs Field in Clemson. Both teams entered the game undefeated and untied. "No fiercer fight will be played this year in the Southern Conference," said one local paper in previewing the contest. The game was nothing more than a Clemson rout, though, as the Tigers whipped the Deacons 39-0 for a Homecoming win. All-America candidate Joe Blalock starred for Clemson. All he did was run an interception back for a touchdown, run for a touchdown, throw for a touchdown, and block a Wake quick-kick. Not a bad day's work. The rest of Frank Howard's team was outstanding, also. Charlie Timmons scored for Clemson, and the Tiger defense held the powerful Wake offense to under 100 yards in total offense.

1946—A struggling Tiger team met Wake Forest this day in Groves Stadium in Winston-Salem. After losing two of their first three games, the Tigers hoped to rebound against the Deacons. This didn't happen. Wake scored early to take a lead, and then rain set in during the third quarter as the game turned into a defensive struggle. The Deacons won 19-7. Bobby Gage tallied for the Tigers.

1957—Behind the play of Bob Spooner, Harvey White, and Charlie Horne, Clemson toppled Virginia, 20-6, in Charlottesville this day for a conference win. The young Tiger team took the win before a silent Cavalier crowd.

1963—in a game where the weather was probably more interesting than the contest, Clemson and Georgia tied 7-7 at Death Valley. A tremendous rain and hail storm at halftime set the crowd heading for cover and many heading for home. Larry Rakestraw scored for Georgia in the first quarter, and Bob Swift tallied for Clemson as the two teams deadlocked.

1968—in a battle of Southern cats, the Auburn Tigers spoiled Clemson's Homecoming 21-10 at Memorial Stadium this Saturday. Clemson was able to move the ball well but could not punch it in often enough. Dwight Hurston led Auburn while Ray Yauger sparked Clemson.

1974—in Clemson's worst game of the season, Maryland stomped the Tigers 41-0 at College Park. The Terps seemed to do everything right while Clemson could never get it together. Maryland won the ACC in the first year of a three-year domination of the league. Today Clemson will meet Virginia in this October 12 contest. And, even though it may not be as important as Columbus's sighting, the game should surely have a significant impact on each team's season as both coaches discover more and more about their respective teams.

Carlon Box
By Scott Peterson, Greenville Piedmont

After bucking strong odds that he would not live, Carlon Box sat surrounded by his Clemson jersey, Tiger rags and other gifts and cheered his teammates on in a nationally televised football game against rival Georgia.

There was a time after Box flipped his car in the early-morning hours of August 8 near Gainesville, FL, that doctors didn’t think he would survive. They knew he would never again play football at Clemson University. They all but guaranteed he would never again walk.

For days, Box stared at the wall and contemplated his future with remorse.

Not life without football, for that was a trivial point. Rather life as it would be in a wheelchair. Life as it would be for a college junior who was the life of the party, but whose world had come crashing down in one tragic event.

“I wouldn’t miss it for the world; it’s going to be a great game,” said Box before the Georgia game. He was a strong safety who before the accident made his biggest advances for playing time in spring practice battling for the backup spot with Norman Haynes. “You never know how these games are going to turn out, so you can only hope. But it’s at home and it’s our turn to win.”

“I just wish I could be there, but I know I can’t.”

“Watching college football bothered me at first. I remember the first game of the season with Boston College. It bothered me because I knew I wasn’t going to play anymore, but I realized how lucky I was just to play at all.”

“That’s how I look at it. I’m just lucky to be here at all. Some of these guys didn’t do anything either and they are worse than I am. You don’t understand it, but you just have to keep going.”

Like the most simple of his daily activities, watching a sport that was a boyhood dream to compete in has been a painful readjustment — too strong a reminder of the days before he apparently fell asleep at the wheel of his late-model car, hit a ditch and flipped it four times throwing him out of the sun roof.

Box remembers very little about the accident, only that, “I left a friend’s house near Gainesville and soon after wrecked. I was laying on the ground and I was all wet,” he said in a telephone interview from Lucerne Spinal Center in Orlando, Fla. “A friend of mine — the guy who found me — was bent over telling me to stay still and not to worry.”

Box suffered massive injuries, including a crushed chest, a severed spine and a skull fracture.

The outlook was bleak, both medically and psychologically. But visits and letters from family, friends, Clemson players past and present and Clemson coaches, especially second-year coach Don Denning, have helped Box through the difficult early period and now, the day-long therapy sessions and training classes.

Denning drops him a note about once every four days keeping Box informed of the Tigers’ progress as the season progresses. Along with frequent visits from his parents and other family members, his girlfriend sees him every day without fail.

“At one time they said he was just staring at the wall, and he may have been,” Denning said. “By God, I would stare at it too. I don’t know if I could have been as strong as he was.”

Box is one-third of the way through an expected three-month stay at the Lucerne unit. He is free of the pain in his chest and back, but his body that once was strong at 190 pounds, now is frail, nearly 30 pounds lighter and trapped in a cast-like brace that extends from his neck to his waist.

Before his therapy is complete, the hospital will allow Box one weekend of travel. He plans to spend it watching Clemson football, but this time viewing the Tigers battle Maryland in person at Death Valley.

“I’m just trying to get out of here and that’s what pushes me every day. I just want to go back to Clemson, and I hope I do well enough that they let me get back for the Maryland game,” Box said.

“There are a lot of people here that are worse than I am, so I don’t feel so bad. You see people that don’t have anything.”

“One guy that I’ve met since I’ve been here is a quadriplegic. One night, he caught a taxi home because he didn’t want to drive drunk. Well, a little way down the road, a drunk hit the taxi and did that to him.”

“A lot of things happen to you and you just have to believe there is a reason for them. You just ask for strength to help you get through. You get worried that sometimes you might not be able to do stuff and that makes you worried. I don’t want to not be able to do the same things I did before.”

One of those objectives is to return to Clemson in January to continue work for a degree in graphic communications. Box plans to move back to campus with his former roommate and teammate Hal Hawisher.

But Box is still learning the basics. It wasn’t long ago that he couldn’t even pick himself up out of bed, but it only took a week of work to start rebuilding the strength back in his arms.

“A lot of it is learning how to transfer myself from place to place out of the wheelchair,” Box says. “It’s hard at first just sitting up because the blood rushes straight down and you lose it because you get real dizzy and pass out. It takes a while to get used to it all.”

“A lot of my friends that I knew when I lived down here come to see me, but they don’t know what to say. I can sense that, even in some of my family. Some of my cousins or an aunt or somebody will write me a letter, but it’s just a card that says ‘Love Aunt So-and-so’ because they don’t know what to say.”

“There really is no difference now. You can’t say anything that would bother us. People think they do, but it bothers you more when they act funny because it makes you feel funny.”

Sometimes, service means more than fixing a power line.

That's the kind of service most people expect from us. But that's not all we do. Our Summer Foundation provides assistance for organizations which aid people in need. Programs like the Baptist Medical Center Foundation and the Foundation for the Multihandicapped, Blind and Deaf of South Carolina, whose helping hands reach a lot of people.

If you know of an organization that could use our help, drop us a line. We'd like to be of service.

Greg Coats, SCE&G Lineman

The Greenville Clemson Club salutes CLEMSON SOCCER and its 1984 National Championship Team!

The 1984 CLEMSON UNIVERSITY SOCCER TEAM
Season Record: 22-4-0
1984 NCAA National Champions

Congratulations team members, coaches and staff!

We also extend our special thanks to Clemson fans everywhere and especially to WFBC Radio AM-FM for their outstanding support.
For the past 51 years thousands of you have displayed your unsurpassed loyalty to Clemson by making IPTAY one of the greatest athletic scholarship groups in America.

Now there are some people who want to make another unique effort for Clemson by providing an endowment to assure the future security and success of the Clemson Athletic Department.

Tiger Life is a program through which you make an affordable investment over an eight-year period to ensure a sizable future gift to the Clemson Athletic Department.

Listed below are a few individuals who, with a few others who wish to remain anonymous have arranged for gifts in excess of $2,000,000 to Clemson Department Endowment.

Mark Slade Avent
Landrum H. Henderson, Jr.
Mrs. J. William Holcomb
David A. Gray
J. Chris Swift

Daniel H. Coker, Jr.
Rebecca D. Coker
David Eugene Cleveland
Mr. and Mrs. R. Allison Dalton
James W. Engram
Rodney C. Foster
Mr. and Mrs. S. Leonard Gough
Mr. and Mrs. Elbert L. Henderson
Daniel E. Hunt
Charles D. Miller
Robert W. Robinson, Jr.

Mr. and Mrs. Joseph J. Turner, Jr.
Mr. and Mrs. Sam B. White

If you think you would like to consider this unique opportunity you may call Bert Henderson or Allison Dalton at (803) 656-2101 or write either of them at PO Box 31, Clemson, SC 29633.

This is a good opportunity to do something for Clemson that will make a big difference forever.
Northlake Condominiums make luxurious lakefront living affordable. The latest in modern architecture joins with the natural beauty of Lake Hartwell to create a unique housing alternative, or the perfect weekend retreat.

Each of the two and three bedroom units is energy efficient, with maximum insulation. Every unit includes thermal windows, high efficiency heating and cooling systems, modern appliances and a patio. Additionally, many units have such special features as skylights, solariums, fireplaces, whirlpools and saunas.

The development also features a central clubhouse, tennis courts and a swimming pool. The clubhouse contains a fitness area with weight machines, sauna, whirlpool and steam room. Northlake Condominiums represent waterfront living at its best. And most affordable.

Call today.

Satisfaction Guaranteed
Or Your Money Back

Whatever you buy at Sears, you have the right to use it for a reasonable time before you determine it is satisfactory and decide to keep it. If you decide it is not satisfactory, return it to us at our expense. We will do whatever is necessary to correct the cause of your dissatisfaction.

If we can't satisfactorily provide a remedy, or if you request a refund, we will refund your full purchase price including any appropriate delivery charges, finance charges and applicable taxes.

Sears Pledge of Fairness

If, after you have decided to keep your purchase, it doesn't give you the service or performance you reasonably expect of it and there isn't a specific written warranty on the item that will satisfactorily correct the problem, please let us know.

We want to make an adjustment that you will consider fair.

You Can Count On Sears
You can count on Sears for satisfaction

Satisfaction guaranteed or your money back is a promise Sears has lived by for half a century. Other things you can still count on at Sears: fair prices, good workmanship, wide selection, competent service.

You pay good money at Sears. In return, Sears believes that you should be completely satisfied with everything you buy.

You must be satisfied with performance, quality of workmanship, fit, styling—even color. Suppose you buy a blue sweater through the catalog and the blue strikes you as different, however slightly, from the blue on the printed page.

Says Sears catalog: “In such a case, as with everything we sell, we guarantee your satisfaction or your money back.”

Sears goes to extraordinary lengths to make certain that you will be satisfied. For instance:

1. Men and women from Sears spend thousands of hours a year at factories that make Sears products.

   These men and women are called buyers, but they do a lot more than place orders. They study the needs and desires of Sears customers—and work personally with manufacturers to make certain that Sears products perform as expected.

2. The Sears Laboratory tests over 10,000 products a year.

   Sears maintains one of the world’s largest private laboratories for testing consumer goods. It tests for strength, durability, handling, and performance.

3. Sears employs engineers to help manufacturers improve their efficiency.

   This is one of many steps Sears takes to help hold down costs. Others include an almost fanatically efficient distribution system.

   Example: Refrigerator door handles are left off refrigerators for shipment to Sears stores. With door handles tucked neatly into cartons instead of sticking out, each carton can be a little smaller, Sears can get more refrigerators on each truck—and the shipping cost for each refrigerator goes down a few cents.

   Dozens of small efficiencies like this explain why Sears regular prices are so reasonable, and Sears sale prices such terrific bargains.

   So it’s first to Sears for millions of shoppers—more than shop at any other store. These millions have found again and again that they are likely to spot exactly what they’re looking for at Sears, to pay a fair price for it—and to be completely satisfied with it once they get it home.

There’s more for your life at Sears.

You can use Marvess® Olefin yarn for more fabrics than you thought...

for less money than you think.

As the most extensive product line in terms of colors and deniers, Phillips Marvess olefin multifilament yarn sets the standard for the upholstery industry. But this technically superior yarn also has a wide variety of other fabric applications.

Fabrics for window curtains, shower curtains, drapes, mattress ticking, indoor/outdoor furniture covering, bedspreads. The list goes on and on.

So do the benefits of using this strong, yet lightweight yarn. For example, Marvess olefin has the lowest specific gravity of any fiber, which reduces the number of ends and picks needed per square inch. Thus it produces more yards per pound of fabric. And that means big savings to you.

Our non-allergenic, fade-resistant yarn also has extremely low moisture absorption, so less energy is required in the drying process—which means additional savings. And because of its high strength, wet or dry fabrics don’t need to be overconstructed.

Last, but certainly not least, Phillips Fibers has the largest plant capacity in the U.S. devoted exclusively to producing textile olefin filament yarns for the home furnishings industry. And the price is competitive, but then, that’s what you’d expect from one of the performance companies.

For more information and service that’s second to none, contact Olefin Fibers Marketing, Phillips Fibers Corporation, P.O. Box 66, Greenville, SC 29602. Call: 803/242-6600.

WE HELP PUT A BRIGHTER FACE ON THE FUTURE.

The Jefferson Pilot Companies

There are perhaps two almost immediate associations with Clemson athletics—besides a winning tradition—brilliant, bright, almost blinding orange and the Tiger Paw. No matter where you go, you can always spot a member of the Clemson faithful by either of these telltale signs. But how did these symbols of Tiger prowess evolve?

The late William J. Latimer, 1906 graduate of Clemson College, did some extensive research on the football program at his alma mater, and offered the following in regard to the school's nickname and colors:

In referring to the players on the school's first football team of 1896 coached by Professor Walter Merritt Riggs, Latimer said, "Due to the lack of helmets and head protection, they (the players) wore long hair. These long manes might have gained them the name of Lions had it not been for the orange and purple striped jerseys and stockings that resembled tigers. The latter nickname seemed to stick."

John Heilman, coach of the 1900 Clemson football squad, followed up on that nickname. He used the insignia of a Tiger's head with bared fangs and the motto "Eat 'Em Up Clemson!"

Latimer's findings are further substantiated by the fact that Riggs had played football at Auburn (nickname Tigers) and that school's colors were orange and blue.

The official colors of Clemson University are Burnt Orange and Northwestern Purple, although the predominate colors of Clemson uniforms combine patterns of orange, white, and blue. Joe Sherman, former Clemson sports publicist, news bureau director, and director of Clemson's alumni relations, offered the following in his book THE CLEMSON TIGERS in regards to the Tigers' hues:

"It is extremely doubtful that anyone can tell you with certainty how the Clemson colors swung from purple (and a rather pale purple, at that) and gold to what for several years was described as Northwestern purple and burnt orange."

Sherman, a member of the Clemson Class of 1934, recalled one story that suggested that former football coach Jess Neely found it almost impossible to keep the uniform colors from fading between wash, wear, and weathering.

Neely consulted the school's College of Textiles, which arrived at a deeper purple and a gold that was extremely close to orange. Through the years, the colors became yet deeper, evolving to Burnt Orange and Northwestern Purple.

However, not all was content. In 1970, in an effort to upgrade the image of the university, then President R. C. Edwards contracted Henderson Advertising of Greenville to come up with a new Clemson symbol.

The agency wrote to every school in the nation that sported a Tiger as its mascot asking for an official logo. After making comparisons between those Tigers, the agency found itself in a quandary: A Tiger is a Tiger, no matter how much you try to change it.

After pondering the situation for several weeks, an agent came up with the idea of using the Tiger Paw. A request was sent to Chicago's Museum of Natural History for a plaster of Paris mold of a tiger's paw. A few changes were made, and the Tiger Paw was born.

After a brief trial, Clemson left the regal stripes and fangs of the Bengal tiger and went down—to its paw and started a trend that would be followed by advertisers, businessmen, entrepreneurs, politicians, and, alas, even other schools like Missouri, Ohio, and Pacific. There are now Tiger Paws, as well as prints from Wildcats, Panthers, and other ferocious felines, that adorn athletic uniforms on all levels of competition.

The paw is used to "welcome" opponents on all major roads leading to Clemson. It can be found on all sorts of paraphernalia and, of course, on the cheeks of Clemson fans.

Clemson fans are among the most loyal in the world. They are spirited and proud—proud of their school, their teams, their Paws, and their orange. Although one can find those orange paws in any number of places, feel certain that some clever Clemson fan will find yet another way in which to "make his mark" on the world.
Clemson Football’s Greatest Moment Captured Forever

Limited Edition Gold-Plated Commemorative Plaque

Savor that great moment when on the night of January 1, 1982, the Clemson Tigers became national champions!

This very special plaque is constructed of the finest materials. Etched into solid brass then plated in gold, each is carefully mounted on a mohogany plaque with satin finish.

The plaque features a scoreboard of the game, all of the individual scoring, game highlights, and much more.

This plaque is offered as a Limited Edition of only 5,000, and each will be individually numbered. Be among the first to obtain one by sending the coupon in today.

Available only by mail. Please, no phone orders.

The dipping mercury in our thermometers serves as a reminder that autumn has begun her gallant reign. The trees shed their splendor, and their colored leaves seem to paint banners across the sky that bear a message of welcome to all Tiger alumni. Whether or not they are physically here, all alumni return to Clemson today; this is homecoming.

Tiger Band will continue the welcome with their traditional pregame show, commencing with the stirring “Sock It To ‘Em”, the Orange Bowl March, and “Tiger Rag.”

As Tiger Band plays, it will spell out the word “Tigers.” Today’s guests of honor dotting the “i” in Tigers will be Mr. & Ms. Walter K. Lewis of Hartsville. Mr. Lewis is the president of the Clemson University Alumni Association, a member of the Clemson Class of ’37. Lewis received his Bachelor’s degree in Textile Chemistry and served as a Senior Marketing Specialist for Sonoco Products Company before retiring. Lewis has been the Alumni Association’s president since July 1, 1985, and will serve until June 30, 1987. The Lewis’ have two sons, Walter, III (Clemson ’65) and Allen.

During the pregame show, Clemson’s Fulbright Scholars will be recognized. Clemson has been most successful with its Fulbright nominees in recent years. Two years ago, six Clemson students were nominated and selected as Fulbright scholars, a feat unmatched by any other school nationwide.

“You’re A Grand Ole Flag” and “America The Beautiful” will be played to continue the pregame show. These selections will be directed by Dr. Richard E. Goodstein and accompanied by the Clemson University Chorus. Dr. Bruce F. Cook will then direct Tiger Band’s rendition of our national anthem, followed by the Clemson University Alma Mater, directed by William W. Campbell. The invocation will be offered by the Reverend Sandford Beckett, and the colors will be presented by an ensemble from Pershing Rifles, Company C-4, Kerry Graham, Color Guard Commander. Following the pregame show, it’s time to rev ‘em up as the Fighting Tigers make their traditional run down the hill.

Today’s halftime show, “Music of America,” was one of several shows created for the 1984 Summer Games of the XXIII Olympiad in Los Angeles. Tiger Band will enter the field with an opening fanfare before moving on to George Gershwin’s “Strike Up The Band.” Pieces of Dixie” and “The Battle Hymn of The Republic” follow, as will John Phillip Sousa’s “Washington Post” and “Yankee Doodle.”

The halftime presentation will conclude with another arrangement of “You’re A Grand Ole Flag”, “This Land Is Your Land” and “This Is My Country.”

The Clemson chorus will encore and join with Tiger Band for the Edward T. Madden arrangement of “America The Beautiful.”

As her first official appearance, the newly-crowned Clemson Homecoming Queen will circle the field on a float constructed by the brothers of Sigma Alpha Epsilon social fraternity. Crowned last night at Tigerama, the queen and her court will process to the background music of Paul McCartney’s hit, “No More Lonely Nights,” arranged by Jay Dawson.

The third annual appearance of the Clemson Tiger Alumni Band will be made to salute not only students and alumni, but to Clemson fans across the globe with “The Song That Shakes The Southland,” TIGER RAG!

This week, Tiger Band would like to feature its drum majors, Cindy Morris and Jim McKenrick. Morris is a senior from Greenville majoring in nursing, while McKenrick is a senior from Rock Hill majoring in computer engineering. The drum majors direct field performances of the band.

Morris and McKenrick first tried out before a panel composed of two members from each class. The initial group of candidates is then cut in half. Those remaining try out before the band to a tape of the nominee’s choice. Judged on rhythm, technique, and the ability to change with tempo, the band then votes to elect its drum majors. McKenrick, in his fourth year in Tiger Band, said, “I thoroughly enjoy being the drum major of the band; it is a very rewarding position. The band is a great group of people to work with.” Morris, also in her fourth year in the band and in her second year as a drum major, added, “Nothing can equal the feeling of hearing the band enjoy what it’s doing. That makes all the work worthwhile. The whole experience is really great.”

Fraternities have been busy all week building their annual homecoming floats, highlighting a week full of activities around campus. Tigerama witnessed the skits, fireworks, and crowning of the Homecoming Queen last night, and several campus organizations will be hosting socials later today and tonight to welcome back their alumni.
**SWEAT CLOTHING**

By Russell Athletic.
Available in your choice of White, Navy, Orange or Oxford Grey.

Tigers In The Crowd

By Kassie Kessinger

Joey McKenna
Orlando, FL

McKenna, 21, will be going after his third individual ACC wrestling title and looks to make his fourth straight NCAA tournament appearance this season. Along with fellow senior Mark Litts, the 150-pound McKenna will serve as co-captain of this year’s squad. Last season the Florida native captured his second league crown, the 142-pound class. As a freshman, three years ago, McKenna won the 150-pound weight division. Last year McKenna was ranked eighth by Amateur Wrestling News in the 142-pound class and he helped the Tigers to their highest national ranking ever, number-11. Against conference competition, McKenna has compiled an impressive 17-1 slate; that includes a pair of perfect 6-0 marks his freshman and junior campaigns. Heading into the ’85-86 campaign McKenna stands 72-27, which ranks him among Clemson’s top eight all-time career winners. McKenna is majoring in business administration.

Elsa Breit
Wilhelmshaven, West Germany

Breit is a 24-year-old junior on the Lady Tiger cross country and track teams. One of the most consistent performers, Breit has already helped Coach Wayne Coffman’s Lady Tigers to a team triumph this season, as the Lady Tigers tied with Brigham Young for first place in the University of North Carolina Invitational. Breit turned in a time of 18:11.4 to place 12th in the race. As a member of the track team, Breit concentrates on the middle distance events, the 1500 and 800 runs. As a sophomore, the 5-5, 110-pounder ran 71st at the NCAA Championships, after running 34th at the ACC meet and 26th in the NCAA District III Championships. In her initial collegiate cross country season, 1983, the West German native finished the season strong by placing 19th at the ACCs, 23rd at the district meet and 52nd at the NCAA Championship. The microbiology major has been named to the ACC Honor Roll the past two seasons for outstanding academic achievements as well as athletic ability. For the 1984-85 year she posted a 3.70 GPA. She was born 7-21-61 in Trier, West Germany.

Bill Spiers
Cameron, SC

Spiers, 19, is a sophomore on Coach Bill Wilh elm’s 29th Tiger baseball club. As a sophomore, the 6-2, 180-pound infielder posted the second best batting average (.380) on the squad. He leads the team in hits with 46 points, on 19 goals and eight assists. His 46 points also was second best overall in the conference. In the Tigers’ 2-0 win over Duke last month Conner was honored as ACC Player-of-the-Week for scoring both goals. Since his rookie year in ’83 Conner has started in all but six games he’s played in. A tallied 6-7. Conner was named to the ACC Honor Roll a second time in his senior prep year. Born 6-11-85, Conner is pursuing a degree in accounting.

Gary Conner
St. Louis, MO

Conner, 20, starts at诚er for Coach I.M. Ibrahim’s defending national championship soccer team. The 5-11, 150-pound junior is on the same torrid scoring pace of a year ago when he topped the team in singles with 46 points, on 19 goals and eight assists. His 46 points also was second best overall in the conference. In the Tigers’ 2-0 win over Duke last month Conner was honored as ACC Player-of-the-Week for scoring both goals. Since his rookie year in ’83 Conner has started in all but six games he’s played in. A dislocated fibula suffered in the ’84 World Cup game at midseason forced him to miss three games and yet he wound up the Tiger’s leading point producer. Through the first nine games this fall Conner had already struck for five game-winning goals, which is two less than he had his first two seasons in Tiger-town. Conner is one of three all-state selections from the St. Louis area to sign with the Tigers. He was named St. Louis Amateur Athlete-of-the-Month during his senior prep year. Born 6-11-85, Conner is pursuing a degree in accounting.

Denise Murphy
Alexandria, VA

Murphy, 21, is a starter on the Clemson Women’s volleyball team. The third-year performer plays strong side hitter for Coach Wayne Noms’ Lady Tiger squad. She serves as co-captain along with Cindy Tjing for the ’85 club. By midseason the 5-8 veteran was leading the team in kills and digs, or defensive saves. Her sophomore year was marred by an ankle injury that sidelined her for several games. Despite missing a few outings, she managed to compile the second highest total of kills with 202, she served up 23 aces and was in on 206 digs. Academics are important to Murphy as evidenced by her 3.9 GPR during the 1984-85 academic year in biochemistry, the third highest overall GPR among Clemson athletes. Twice she has been named to the ACC honor roll for academic achievement. A zoology major, Murphy has her sights on being a doctor and entering the field of sports medicine.

Jay Berger
Plantation, FL

Berger, 18, is a sophomore for Coach Kresse’s top 10 Tiger tennis team. Berger is coming off the ultimate summer in which he captured the U.S. National 18-and-under title, the clay-court National 18-and-under crown and reached the round of 16 in the U.S. Open Tennis Tournament. By that round Berger was the only American besides John McEnroe, Jimmy Connors, Tim Mayotte and Greg Holmes to be there. As the world’s 73rd ranked men’s player, Berger shocked the 89th-ranked player, Brian Teacher, 4-6, 7-6, 6-4, 7-6, to advance to the final 16. It took the world’s number-seven ranked player, Yannick Noah, to eliminate the feisty Berger, 6-7, 6-2, 6-3, 6-1. Known as “The Warrior” by his Clemson teammates, the 5-9, 135-pounder played number-four singles and eight doubles most of last year for the Tigers. In singles he fashioned the team’s best overall mark of 57-11, which marked only the third time in history a Clemson tennis player had reached 50 or more wins in a season. Berger was born 11-26-66 and is majoring in business.
A person could have gotten some pretty good odds 30 years ago by betting that one football team would beat another one 24 consecutive times.

But that’s exactly what has happened in the Clemson-Virginia series. Had the bet been made, it wouldn’t have said how the 24 victories had to take place, or how close some of the games would be.

Had the Federal Trade Commission entered the picture, it probably would have ruled that no one team can have a monopoly on horse shoes, rabbit’s feet, buckeyes and four-leaf clovers.

The only requirement on the bet would have been a “W” in the left hand column when the final second ticked off. And that has been met.

But there have been blow outs, shoot outs, shut outs and luck outs as far as the two teams are concerned. The Cavaliers will quickly point out that the only kind of luck they’ve had has been bad. And no Clemson fan will disagree. Without some good luck along the way, the Tigers would not be as well off in this series.

Clemson was a charter member in the Atlantic Coast Conference (May 8, 1955) and Virginia came in the following December. Schedule commitments would not permit a meeting during the season of 1954, but the Tigers made their first trip to Charlottesville September 24, 1955, and came out a winner, 20-7.

The Cavaliers led, 7-6, at halftime, their touchdown being set up on a 62-yard run by Herb Hartwell, with the score coming on a one-yard run by Charles Jenkins and the extra point by Jim Bakhtiari, who was a true Iranian prince.

Clemson recovered a fumble at the Cavalier 21 in the third quarter and went on in to score the go ahead touchdown (possibly using a green football) and an eventual 20-6 win.

Probably the three most-remembered come-from-behind games were 1966, 1973 and 1980.

In ’80 the teams were knotted at 10-all at halftime, but the Cavaliers use two Tiger interceptions to score twice in the third period to lead 24-10 as the fourth quarter opened before a partisan Charlottesville audience.

Brendon Crite got Clemson seven points closer by scoring from 26 yards out on the first play of the final period. Homer Jordan passed to Jerry Gaillard for 51 yards on the last play of the third quarter to set up the score. The Tigers still trailed 24-17 with 3:05 left in the game before Steve Durham blocked a punt and Bill Smith picked it up at the 11 and scored. Obed Ariari’s PAT deadlocked the festivities at 24.

Clemson next forced another Virginia punt and got possession at its own 47 with 1:20 left. The Tigers moved to the Cavalier 35 where Ariari booted a 52-yard field goal with six seconds left for a 27-24 Clemson win.

Quarterback Scott Gardner carried the Cavaliers to a 13-0 first quarter lead in the 1973 game played at Clemson. And Virginia moved to a 20-6 advantage with 7:33 left in the second quarter. The Tigers edged to 20-18 on a 39-yard pass from Ken Pengitore to Jim Lanzendoen with 30 seconds showing in the half.

Cavalier Mike Lacika fell on a fumbled punt in the end zone for another Cavalier score and Clemson was down nine, 27-18, with just over two minutes left in the third period. Early in the final stanza Frank Wise recovered a Virginia bobble at the Cavalier 28, which the Tigers converted into a score.

The Pengitore-Lanzendoen combination worked for a 28-yard, go-ahead score with 6:44 remaining and Peanut Martin had to put the hit on Ken Sheldon three yards shy of a first down at the Clemson 17 with 56 seconds left to preserve the Tiger victory.

But no doubt the most dramatic game of all 24 came in 1966 at Clemson when the Tigers trailed by 17 points with 18 minutes to play . . . only to come back to win 40-35.

This game—with Jimmy Addison pitching for Clemson and Bob Davis hurling for Virginia—owns the most passing yardage by two teams of any the Tigers have ever played—627. Davis had 312 yards by himself, Addison threw for 283 and Jacky Jackson added 22 more for Clemson. Ed Carrington caught for 113 yards and Frank Quayle grabbed 103 yards for Virginia while Wayne Bell had 120 yards for Clemson.

Addison connected with Bell on a 10-yard scoring strike 17 seconds before the third quarter ended to narrow the gap to 35-26, with Addison running in the two-point PAT. A 46-yard Addison to Bell pass set up a two-yard scoring run by Jackson with 7:37 to go. Forcing a Virginia punt Clemson took over at its own 20. With a third and five at the Clemson 25, Addison found a streaking Jackson going down the left sidelines in front of the Tiger bench and he let go. Jackson took the pass, never breaking stride, and scored on a 75-yard pass play that gave Clemson a 40-35 lead.

But Davis wasn’t through. He passed the Cavaliers from their own 24 to the Clemson 14 before James Tompkins deflected a pass and Phil Marion intercepted and the Tigers regained possession at their own 20 with 1:49 showing and were able to run out the clock.

The Clemson team and its fans are hoping that the luck which has been prominent in any number of Virginia games as already seen above, will stick around for 60 more minutes today.

In case fans are wondering what those four trucks backed up to the Clemson dressing room contain, one has horseshoes, one is loaded with rabbit’s feet, another has buckeyes and the other has four-leaf clovers.

They’re three weeks late already.
In football a fumble can be

Very Costly...

The Same is True in Airconditioning.

“There is no substitute for error-free, consistent performance—in either field”

We have the winning combination in designing, manufacturing, installing and maintaining your environmental system. We have professional engineering personnel, modern shops and experienced field crews. We can provide new systems or modify existing systems. When the need arises for air conditioning, liquid & air filtration, heat reclamation & air distribution systems—Don’t Drop the Ball—Call on the professionals.

Leadership. Yeargin is in the forefront of high technology construction for tomorrow's industry... from precision laser equipment alignment procedures and clean room installations to automated welding systems.

For a glass optic fibers facility, we designed and constructed one of the nation's first self-contained mobile Class 100 clean rooms for preinstallation welding, bending, and cleaning of high-purity stainless piping. Yeargin had to meet precision equipment installations with job-required tolerances of .0001 millimeters.

Additionally, utilizing orbital welding techniques, we set new industry fabrication and installation standards under clean room conditions encompassing 300 production machines at a microchip circuit board facility.

Being a leader in the construction industry for carbon fibers, electronics, nuclear power, pharmaceuticals, pulp and paper, and foods is a position to which Yeargin is accustomed. Quality construction ...On time...And within budget.
