The Student Affairs Committee has no action items for the Board but does wish to share the following information.

Preliminary figures reflect that in spite of a nationwide decline in the number of high school graduates, total enrollment at Clemson should show a slight increase for the fall semester with approximately 2200 freshmen and 400 transfers scheduled to register. Even with the slightly larger number of new students, it is projected that the academic credentials of the new class will continue to improve.

For the first time in a number of years, housing accommodations are available on campus for all incoming students with only a limited number being assigned to temporary spaces.

Construction continues on the 224 bed addition to Calhoun Courts which is scheduled for occupancy for the fall of 1985.
