Item 3. University Budget for Fiscal Year 1982-83

Statement: In its meeting of June 19, 1976, the Board adopted policies, rules, regulations, and delegations of authority to the Administration which state, in part:

Budgets for each year shall be prepared and submitted to the Board of Trustees as soon as practicable after passage of the General Appropriations Bill of the State. When the Board of Trustees finds that it is impracticable, due to the date on which an appropriations bill is passed or for other reasons, to review and adopt a new annual budget prior to the beginning of a new fiscal year, the Administration is authorized and directed to utilize appropriations and other funds available in continuing into a new fiscal year the general level of operations prevailing at the end of the previous fiscal year pending approval of a new annual budget by the Board of Trustees. In carrying out the interim operations, the Administration shall implement to the extent practicable any known changes in budget items adopted previously by the Board of Trustees, provided by legislation, or directed by the State Budget and Control Board.

At its July 9, 1982 meeting, the Board of Trustees approved continuing applicability of the above authorization for Fiscal 1982-83 operations pending adoption by the Board of a new annual budget.

Recommendation of the Budget and Finance Committee: (1) That the proposed 1982-83 budget submitted by the Administration be approved subject to a reduction of 4.6% as mandated by the State Budget and Control Board, and that the Administration adopt proper guidelines to implement the budget with the following delegations of authority as contained on page 58 of the proposed budget:

In approving this budget, the Board of Trustees recognizes that the amounts shown as income are estimates and subject to changes, and that the amounts shown for expenditures are a reflection of plans and workload estimates as of the time the proposed budget was prepared. It further recognizes that each day may bring new challenges and developments requiring adjustments in plans, programs, estimates, and budget items. In order to provide for continuity and essential flexibility in operations, the Board of Trustees reaffirms for Fiscal Year 1982-83 the delegation of necessary authority to the President to act in all matters, and to the Vice President for Business and Finance to act in fiscal, contractual and other business matters, including specifically authority to negotiate and make timely changes in contracts, to approve transfers and expenditures of funds permitted in Section 128 of the General Appropriations Act to be retained at the Institution, to adjust operating, permanent improvement and other income and expenditure items, and to take such other actions considered necessary in fiscal,
contractual and other business matters in response to changing conditions and estimates. The Chairman of the Board, the Budget and Finance Committee, the Executive Committee or the full Board are to be consulted for further specific directions and approval as conditions appear to warrant.

(2) That budget income and expenditure adjustments deemed essential and already made by the Administration for 1982-83 be confirmed and ratified.

Board Action: Approved
