Carol Ann Borchert

### Feedback on New Website

None

As part of the NASIG 25<sup>th</sup> annual celebration task force activities, David Winchester supervised several hours of video taping. He emailed me on October 21, 2010 for the purpose of transferring that data to NASIG. The approximately 80 GB of data is currently housed on the Washburn University server. The systems tech at Washburn University suggests placing the video on an external hard drive. I emailed the archivist at the University of Illinois to find out how to proceed with the transfer. After a month of not hearing any response, I sent the archivist another email and will continue to pursue this issue. If it is not resolved by February or March 2011, then I will ask for board input on how to proceed.

Respectfully submitted,  
Peter Whiting  
NASIG Archivist
