DONATION OF COLLEGE MAKES BASKET BALL POSSIBLE.

P. C. ON CAMPUS FRIDAY.

Due to the fact that the receipts from the sell of the basketball and the additional donations raised by the sale of tickets, the entire amount of money raised by the basketball game, which was used to defray the expenses of the Columbia baseball team, has been turned over to the Athletic Association of the College.

The Columbia team meets the Red Cross team tomorrow.

RED CROSS MEETING HELD LAST FRIDAY EVENING.

DR. JOSIAH MOSER OF COLUMBIA MAKES EXCELLENT ADDRESS.

A Red Cross Mass Meeting was held in the College Chapel last Friday evening at which Dr. Josiah Morse of the State University, and Dr. D. W. Duncan, of the Clemson faculty made addresses.

Dr. Morse in his address stressed the necessity of the Red Cross organization in our society today. He said that the Red Cross is the greatest voluntary organization in the world.

The speaker then pointed out that the work needed is not a separation of this great body ministering on the field of battle to enemy and friend alike. Its work is to be an acceptable organization in the world.

He said that any one contributing either time or money should expect return. In closing he said that any one who is interested in the Red Cross should do his part.

ATHLETIC ASSOCIATION MAKES APPEAL TO OUR ALUMNI.

Below is published a copy of a letter that is being sent to all of the Alumni.

The letter is self-explanatory. We shall present the Alumni the question of importance of this appeal, and will come forward and do their part to put debt on a level. It is hoped that there are going to be—Champions of the S. I. A.

The letter is as follows:

To a Loyal Alumnus of Clemson College,

I am not bound to win, yet to do it, is just what makes the prettiest kind of man.

Yours for Clemson, J. H. Henry.

Professor Henry spoke of the financial condition of the Association. He outlined three things that would keep the Association from being materially reduced. One was to have an athletic fee such as we have now. This fee would be small and paid at the beginning of the season with the other college fees. This plan was suggested many years ago, and the Corps showed their desire for it, but for some reason the proposal was not acted upon. The other aspect is that the loss of Ohio State University, which has been the main factor for all of the Alumni, has already been mentioned. This is a wise plan, and one that should be pushed forward.

The third way was to make a campaign against the other college fees, particularly the Ohio State University. It is a wise plan, and one that should be pushed forward.

The second was to have the Alumni contribute to the upbuilding of the Association. This is also a wise plan, and one that should be pushed forward.

The third way was to make a campaign against the other college fees, particularly the Ohio State University. It is a wise plan, and one that should be pushed forward.

The fourth was to have the Alumni contribute to the upbuilding of the Association. This is also a wise plan, and one that should be pushed forward.

The future of the Association is in the hands of the Alumni. This is also a wise plan, and one that should be pushed forward.

SCHUMAN QUINNELL B. DUBBS INTERESTING PROGRAM.

The Schuman Quinell gave a very interesting lecture program in the college chapel last Saturday evening. The program was unusual and included some very original and a pianist. Miss Fortune was the pianist.

The program was as follows:

Chairman—Prof. M. E. Bradley.
Vice-Chairman—Mrs. W. W. Long.
Secretary—Mrs. W. W. Lockwood.
Treasurer—Prof. A. G. Raths.

The chairman then appointed the committee to meet the next day and make arrangements for the next session, and to exceed its contract with N. M. Morris, the Assistant Coach, thereby making an approximately $1,000. The present measure of finances, the Association will be forced to begin next season with a indebtedness of approximately $1,000.

The above facts, upon being presented to the students, caused them to make a determined effort to reduce this debt, and to this end they selected the men signed committee of seniors to solicit the aid of our Alumni. The students body, realizing the fact that the Athletic Association is the main support of the College, decided, after mature consideration, to discontinue the football team.

The Athletic Association is the main support of the College.

We therefore appeal to you for a contribution to assist in winding up this thing for the use of the College Athletic Association so that we may open next season with a clean sheet, and we know that you will assist in this endeavor.

The future of the football team will be one of which we can be proud.

Prof. Howard in his speech requested that he should not be able to speak above a whisper.

A. W. Mosee.

The speaker said that he had never been pulled a barge around a curve.

"To be free of a thing and yet to do it, is just what makes the prettiest kind of man."

are showing a very strong line of dining room, bed room and living room furniture in the many different periods.

Buncombe and North Sts., Greenville, S. C.
ALUMNI

Clemson is and always will be proud of the men who take up arms in defense of the state and nation which she represents. There are a number of men at present who will be expected to serve, and those are the sons of the senior class and underclassmen also, who have recently left their friends and associations at college to enter the training camp at Ft. Oglethorpe. Those boys are about forty in number, left on Jan. 5th for the camp. A letter from one of them, "Sam" Littlejohn '17 and "Little Joe" Harry Horton Ex. '18 is Lieut. of regulars at Chickamauga Park.

Since the organization of cantonments at college to enter the training camp at Ft. Oglethorpe. These boys, about forty in number, left on Jan. 5th for the camp. A letter from one of them, "Sam" Littlejohn '17 and "Little Joe" Harry Horton Ex. '18 is Lieut. of regulars at Chickamauga Park.

Following is a list of the men and their rank in the corps of cadets. It will be seen that the Clemson Corps has many efficient officers and line commissioned officers.

Letters from individuals say that they are hard at work and are satisfied. They are all in a state of readiness on account of having to compete with men that have had army training for many years.

ATTENTION FELLOWS!

A young man can make no better investment than in a technical education. Viewed merely as a matter of fortune, there is no instance where he has to borrow the money at interest, he will find that his increased earning capacity perhaps even the first year after graduation will be sufficient to repay the loan. It is a poor business policy to wait too long, the money necessary to pay for a technical education being capacity only one-half or one-third that of an educated man. Every year of untrained, uneducated labor represents a direct financial loss. Every turn of ability and ambition when our parents are employed. Always try to borrow the money at interest, he will find that his increased earning capacity perhaps even the first year after graduation will be sufficient to repay the loan. It is a poor business policy to wait too long, the money necessary to pay for a technical education being capacity only one-half or one-third that of an educated man.
