FOOTBALL MANAGERS ELECTED

Last Wednesday evening the Athletic Association of the class of 1918 held the first meeting for the purpose of electing a manager and two assistant managers of its Tigers. The council met in the athletic tenement, and elected by the Athletic Council, and elected by the Association. These nominations were as follows: for manager, Jones, J. H., and Wallace, F. M.; for Asst-Managers, Burns, T. H., Young, J. L., Bruton, R. H., and Black, J. M. After a few remarks by the president, Mr. Henry, the vote was taken. Mr. Wallace, J. H., was elected manager, Messrs. Burns, T. H. and Young, J. L., were chosen as Asst-managers. Mr. Henry, then made this speech: "We have here set up a new standard, a managerial ability—the Athletic Council endorses that Mr. Way be elected manager of all class athletic teams, in order that he may demonstrate his managerial ability." The suggestion was adopted, and Mr. Way is our manager of class athletics. Here's at you "Jim-

"Taking your case usually means that somebody else has to work harder. Last name basis by the American every back but its own."

Vol. XIII. CLEMSON COLLEGE, S. C., FEBRUARY 13, 1918. No. 15

TEAM IN FINE TRIM

WOLFORD HERE TODAY.

Our basketball team is rapidly getting back into fine form now. All of the players are going the same direction Monday, every afternoon, and all indication points towards our having an even better team this season than we had last. We have already shown P.C. that we are often the "rug," and we are going to show the rest of the teams the same thing. Every one is glad to see the reformation of basketball here, as it is one more indication of our determination to put out winning teams in every class of inter-collegiate athletics.

It is an absolute certainty, but the Wolford Basketball Team is expected to play our team here next Friday. It seems strange to have to arrange for at least as many games as we usually have. We hope to be able to publish a schedule in the next issue of the "Lynx." Let's all be out and help the team to pull up that score next week.

EDITORIAL

"Stones walls do not a prison make, Nor iron bars a cage."

That for a hermitage—

The editor has the misfortune of being under arrest for a few days, and has been able to take but little note of what has been going on in the life of the Tig...er. However, he feels certain that the editor has taken advantage of his misfortune to make the next issue even more enjoyable than the previous one, and that the subscribers will read with pleasure whatever may be in this issue.

The editor will be out Thursday—and it will be a long time before he boasts out of another confinement—albeit taking due precautions.

To say that the new issue of "The Chronicle" is good is to state only what the editor feels most certain of being true, that it is better than any other journal of its kind in the State. It is the product of the entire student body, and, in the opinion of the editor, it is second to none in the State. The editor will be out Thursday—and it will be a long time before he boasts out of another confinement—albeit taking due precautions.

If you have missed any previous issues, the editor recommends that you purchase a copy of the current issue, or subscribe to the future issues of the journal. The editorial content, articles, and features are carefully selected to provide readers with valuable information and engaging content.

TIGER OPINIONS

The Tig...er wishes to call the att...ention of the entire student body and faculty to the purpose of the following letter to the President's Office. The letter concerns the latest development in the campus community and is intended to inform the entire student body of the recent events and actions related to the issue.

LOCALS

Mrs. Wineslow Stowe gave a card party last Sunday afternoon in her home. Her daughter-in-law, Mrs. Hoke Stowe, Miss Henrietta Barrett, who has been stationed at Fort Benning, Mrs. Dan Raveley, has returned to Spartanburg.

Dr. C. C. Norman, who has been in an Atlanta hospital for several weeks, has returned greatly improved.

Mrs. W. L. Long has returned from Augusta.

Last Tuesday night the hotel was the scene of a very enjoyable little dance given by the young men of the hotel. Mrs. Lewis furnished the piano music for dancing. Messrs. Max, Hochman, Armstrong, and Green, gave some vocal selections between dances.

The Red Cross Chapter of Clemson College met on Friday afternoon for the purpose of perfecting the organization. The by-laws were read and the various committees and sub-committees were appointed, including the executive committe. The names of the various women's committees have been busy making plans for contributing to the war. There are now 46 members in our chapter.

Dr. Redden has been ill for the past few weeks with bronchitis. We all hope to see him at his post soon again.

Mr. and Mrs. Jimmie Neal have left here and are now evantually the lower floor of the old President's Mansion.

Professor Marvin returned to his home from the Spartanburg hospital last Monday. He wanted to resume his classwork immediately, but his doctors advised him to rest up for a while longer.

We all hope that he will soon be able to "show up" again with his old time pep.

Work on the annual is progressing like a March wind. The staff has been working time and half overtime so that the book may be ready for delivery by commencement.

Harry Wallace of Anderson is on the campus nearly every afternoon "shooting" the boys. Judging from some of those that have already been "snapped" we must congratulate Dr. Wallace on his unbreakable camera.

Ed. Vernon, captain of the company, left last Friday to enter the service. We hope he will be stationed at Stanly, N. C. He is in Spartanburg at present.

THE MAKING OF AN AIRMAN

(Continued from First Page)

came is not understood. Testing balance is a new science, and a complicated one requiring ingenious mechanisms. But it is of vital importance to him who later may be maneuvering with a spiril miles above the ground or roading along at 200 miles an hour at a speed in a solid block of glass.

One's balance is regulated entirely on a fluid found in the canals of the inner ear. It is as delicate and as accurate as the speed in the finest spirit level. It is necessary to act in unison in order to see how quickly it recovers equili- brium, and consequently how strong the cranial balance is in respect. One should not be the least surprised therefore when he is placed in a revolving chair and again required to walk, now forward, now back, and asked upon stop- ping to point in a certain direction or executing some other motions. Nor should he be surprised if everything he does appears to him to be done without purpose.

But the medical test is soon over, and if the candidate passes, he may be pretty sure his career is perfect. He then goes on to a mental examination which also sounds formidable, but which is in reality and of necessity brief. A few questions are asked as to the candidate's career, perhaps, but if he has any rueling training he need not fear the outcome.

If the candidate is one of the three who pass both a dictation and an interview, under his advice, he is notified that he is accepted for training for the Air Service as a member of the Signal Em- blished Reserve Corp. Then, as soon as the preceding classes move up, he is ordered into service.

From that moment until he receives his commission as an aviator or is discharged, he is known as a "spitfire" Cadet, with the rank of Private First Class, a salary of $1600.00 a month, 60 cents allowance daily, living quarters, uniform and all traveling expenses, the trip to the place where he is ordered to report, plus pay of $1,700.00, and a school of instruction to the government.

In that status he goes thru the ground school until he has qualified as a Reserve Military Aviator. Thereupon he is given his first commission, and he next gains a grade in rank, salary, and allowance. A first lieutenant, therefore, is put in a grade as strong as aviation itself. He is then fully trained, becomes a first lieutenant, with a base salary of $2600. Further, however, as a Reserve Military Aviator, he now receives 50 cents per hour on his base pay while on flying duty, and another 10 per cent while on duty at a saving.

BAYEUX

The society was called to order by the president, and was led in prayer by the chaplain. The regular critic being absent, Mr. McIlvain was appointed by the president to act as literary critic for the evening. The regular program was then carried out in an excellent manner. Mr. Raveley gave a short oration, which was enjoyed by all. Mr. W. W. Long gave a splendid declama- tion, and he draws comment for his delivery. A very humorous selection was read by M. Scott, the reader. Mr. Porter, the essayist, was not prepared. The critic, Mr. Freeman, was absent.

The election of officers for the third class was then made. It will be decided later whether the negative was upheld by Messrs. Heber, Copeland, and F. Mays. Mr. F. Mays should have control of all the rail- roads within her territory." Mr. Mays was elected literary critic; Mr. Mackin, reporting critics; and Mr. Chappell, secret- ary of the society.

SCHOOL OF ENGINEERING AND AGRICULTURE

One of the largest and best equipped Agricultural and Mechanical Colleges in the South. 1,344 acres of land. Value of plant over $1,939,000. Over 130 teachers, officers and assistants. Enrolment of over 1,000. Every course in South Carolina represented. 11 Degree Courses; 4 Short Courses. 24 Departments of Instruction. New and Modern Buildings. Equipment and Facilities. Over $100,000 expended in public service.

VALUE OF A TECHNICAL COLLEGE EDUCATION

A college education is no longer a luxury of the rich, but a necessity of the poor boy whose parents can give him little or nothing to start him on. In earning capacity, it means more than any other single factor can contribute to the earning capacity of a man. The first year of college education is worth $1,000 or $2,000 to the person whose parents are unable to pay for his education. After this, every year of its efficient use represents a higher and more valuable asset. The college education is the key to success in the world. The world is looking for men of large ability and is willing to pay for them.

SOUTH CAROLINA'S

Depends on your ability to earn it. Department of Agriculture, Clemson University, Clemson College.
