JUNIORS ELECT NOMINEES COMMITTEE

The Junior Class held a meeting Thursday evening for the purpose of electing a baseball manager and five men to serve on the committee to nominate the officers for 1919. The meeting was called to order by T. A. Campbell and J. H. Robertson

Mr. Alfene nominated Mr. Campell for the position of baseball manager. Mr. Alfene then noted that Mr. Alfene was the only one who had been in the position for the past two years. Mr. Alfene then presented Mr. Campell's name to the committee.

The committee then cast ballots for Mr. Campell. The voting was conducted by Mr. Alfene. Mr. Campell received 12 votes, with 5 votes for Mr. Robertson. The final vote was 12 to 5, with Mr. Campell being elected as the new baseball manager.

The committee then turned their attention to the nomination of five men to serve on the committee to nominate the officers for 1919. Mr. Alfene nominated Mr. Robertson for the position. Mr. Alfene then presented Mr. Robertson's name to the committee.

The committee then cast ballots for Mr. Robertson. The voting was conducted by Mr. Alfene. Mr. Robertson received 7 votes, with 5 votes for Mr. Campell. The final vote was 7 to 5, with Mr. Robertson being elected as one of the five men to serve on the committee.

After the business, the president announced that the committee for the senior's ring had been made with the same company that is furnishing the rings. He urged the men to give the rings to their classmate and have them engraved. The committee then turned their attention to the announcement of the candidates for the various offices. The names of the candidates will be announced before the next meeting.

The meeting adjourned at 8:30 p.m.

Football is over. The Juniors have realized that it is time to be good citizens. They have shown a real spirit of וחrosis, form, for after all, it is with the spirit that they have lost their glory. But they came from behind with great determination and spirit to spur the Tiger into action. The Tigers are not necessarily in depression, as the coming of the Spring, with their bright ideas, will soon lift up their spirits. The Juniors are not necessarily in despair, as the Spring will bring new hope, and the Tiger will be ready for the new season.

Debate

Query: Resolved: "That a large navy is of more value to the U. S. than a large army."BODY

Lavaw, the Junior's flag, has been raised three times. The following was the celebration.
The college orchestra rendered music between the orations and the debate, and the students participated in the celebration. The colors were well prepared, but good selections and delivery were their own. At the end of the program, Moore, Barrow, Martin, and Burnet delivered speeches and after some time announced the following winners:

Descalmor, Mr. Robe: Orator, Mr. Tallaxas: debater, Mr. Storren. We are sure that all who were present considered their time well spent, as the celebration was good in every respect.

Clemson Agricultural College

A young man can make no better investments than in a technical education. Clemson College is a matter of business. A man who wishes to borrow the money at interest, will find that his increased earning capacity perhaps even the first year of graduation will be sufficient to repay the loan. It is a poor business policy to wait to earn the money necessary to pay for an education with an earning capacity of one-half or one-third of that of the young man after graduation. Every year of retardation, uneducated labor represents a direct financial loss. Every boy of ability and ambition whose parents are unable to pay for his education, should get some friend to inform him that he can start his business and begin preparation that will make him a great earning capacity and a fuller life. There is no time to lose. The world is looking for men of large earning capacity, for them. Already there is a surplus of the one-horsepower variety.

Clemson Agricultural College

One of the largest and best equipped Agricultural and Mechanical Colleges in the South. 1,944 acres of land. Value of plant over $1,000,000. Over 120 teachers, officers and assistants. Endowment of over $600,000. Every county in South Carolina represented. 15 Degree Courses. A Short Course. Other Special Courses in New and Modern buildings, equipment and instruction. Over $100,000 monthly in public service.

VALUE OF A TECHNICAL COLLEGE EDUCATION

A college education is no longer a luxury of the rich, but more a necessity of the poor boy whose parents can not afford to start him. In earning capacity, it represents at the outset a capital of from $5,000 to $10,000, depending upon the energy, character and personality of the possessor, and the capital increases with every year of the efficient one. There was a time in the history of the world when expert knowledge was so much in demand, so indispensable to individual success, and so little-compensated, for the cultivation of the positions of low wage, long hours and poverty.

Clemson College brings within the reach of every boy in South Carolina the benefits and possibilities of a technical education. The way is provided whereby, if he has the ability and necessary technical knowledge, he need not continue in ignorance. Here, at a cost lower than that of similar institutions, can a young man gain an education that will prepare him for self-supporting, self-respecting citizenship.
