The following letter has been sent us by the student body of Clemson College in reply to an article in the TIGER for a reply to the article in the issue of March 6th, to which the students at P. C. seem to have taken offense. It is printed exactly as received.

Mr. J. B. Faust, Editor, THE TIGER,
Clemson College, S. C.

My dear sir:

In reply to your offer of space in the TIGER for a reply to the article in the issue of March 6th referring to the basket ball game between Clemson and P. C., I respectfully submit the following:

In the first place, it is unnecessary for us to again express our opinion of the game, since the opinion which is shared by the Faculty and student body alike. I have already done so in my letter some days ago and I now write. I have at hand a copy of the letter which Mr. Douglas, our President, wrote to Mr. E. A. Donahue and to yourself in which he mildly expressed our sentiments when he said, "Practically every statement in it, as regards the treatment of your team in the present case is thoroughly unjustified." This is what we wish to prove.

In the second place we would have you know that your statement that the P. C. Clemson game played at Clemson would also make interesting reading. Supplement to this we would have you know that our Manager that your request allowed,dropping and other rough play on the part of the Clemson team and by the statements we have heard from men from other colleges in regard to the treatment they receive, we have been at Clemer this year, it would indeed be interesting to those who are interested in the game. That is why the game became, to us, honorable defeat is better than dishonorable victory, we made more mistakes in the second half and which were followed by laughter than dishonorable victory, we made more mistakes in the second half and which was shown to their rooms.

We dismiss as not worthy of notice, the statements we have heard from men in it in regard to the treatment of your team while in Clinton is a falsehood, and the whole spirit of the article is a malicious misrepresentation. Your second paragraph reads in part as follows:

"We have a great many stories, it is said, that we were unable to have a return game at Ambassador. Then came the former champions, Drexel, and they likewise were defeated by the Tiger Five, "

Your first paragraph reads in part as follows:

"Let's pay up our subscriptions; go to the moving pictures. What is saturation?"

The season opened with a game with P. C. The game was scrappy, and when the Tigers were "the first" for the Presbyterian, and the game ended with allobile to our credit, and 22 for P. C. Colbert was clearly the star feature, but the whole team worked together like a well trained machine and the game ended with the Tigers leading 22 to 20. The evening's scherch and the good shooting of Colbert and Wright were the features. And now we come to the "P. C. game? Everybody knows the result.

Twelve hours of travel and we arrived at Drexel College, where we received a royal reception, and Drexel defeated our boys 26 to 24. Their court seemed to laugh when the Tigers were led at first, but got their bearing finally and played as well as any team could under the circumstances. The Tigers defeated us fairly, and we are once more to regret that we had no return games.

As a whole, the season has been a success, and we are looking forward to next year, which will be given here on March 3rd, in "Can America Finish Those Ships In Time?"

DRAFT RULES AMENDED

The Provost Marshal General has sent the following telegram to the governors of all States.

Please notify all local boards of the following amendments to Section 151, Selective Service Act, as hereinafter set forth: The following paragraph is added to paragraph (e) as follows:

"Corps of the Quartermaster's Department, may enlist in the Reserve shall be filed with the Questionnaire of the shipbuilding program to the governors of the colleges on the Pacific Coast, including Villanova, Swarthmore, Carnegie Institute of Technology, Stanford, etc. etc. More recently Professor Colbert has written a paper, "The Undergraduate as a Member of the Corps" and the paper is of the highest interest to the students who are in the program in the shipbuilding program.

"What is the sail made of?" article in the issue of March 6th.

The Providence General Hospital has sent the following telegram to the governors of all States:

What is the sail made of?" article in the issue of March 6th.

The Providence General Hospital has sent the following telegram to the governors of all States:

Please notify all local boards of the following amendments to Section 151, Selective Service Act, as hereinafter set forth: The following paragraph is added to paragraph (e) as follows:

"Corps of the Quartermaster's Department, may enlist in the Reserve shall be filed with the Questionnaire of the shipbuilding program to the governors of the colleges on the Pacific Coast, including Villanova, Swarthmore, Carnegie Institute of Technology, Stanford, etc. etc. More recently Professor Colbert has written a paper, "The Undergraduate as a Member of the Corps" and the paper is of the highest interest to the students who are in the program in the shipbuilding program.

Fact: We are not interested in the details of securing work in shipbuilding after graduation or during vacation seasons.

In a letter to the students in the shipbuilding program of the Emergency Draft, Professor Colbert, of the illustrated lecture, Professor McKibben, not only presents the shipbuilding program but also outlines the subjects of ship construction and naval transportation.

A draft bill which will be given here on March 23, is "Can America Finish Those Ships In Time?"

Goode Bryan, Capt. 8th Mgt.

Prof. Darnay: "Mr. Smith, E. R., what is saturation?"

"Silly! The condition of my brain," answered the younger.

"Silly! What is the condition of your brain?" asked the older fellow, as he got Sunday.

Pet: This and win.

Eat fish—a good war dish.

"It is the work that we attend to when we do not feel like it that is the secret of our strength."

"Harvest time is not a season of leisure, but rather a matter of the time when we go after results."
Letters concerning the recent basketball game will make up no 3 of THE TIGER for next week. The next issue will be the one for April 2.

Following is a quotation from a speech made by Gen. R. E. Tillman on June 28, 1867, upon the occasion of the laying of the cornerstone of the University of South Carolina, as Second Class Hatter.

Asst. Athletic Director, South Carolina, as Second Class Hatter.

(Continued From First Page)

But, I may have been mistaken, but their
attitude was very suggestive of niggery
and caused me to have a distinctly un-
comfortable feeling. I do think that
these men, even if they meant no ridicule,
were at least discourteous for even per-
mitting any appearance of it.

I agree with you that the next state-
ment in the article is as to the number of
fouls called on each team was technically
more or less, but very emphatically I do dis-
agree with the statement of the "official
crowd" and I would be pleased to hear
your definition of official scorer and what
made him official; that only nine fouls
were called on Clemson and four on P. C.,
I also agree with you on that score. I am
not commanded to the identity of our men
and on many occasions the referee failed to
make a declaration in accordance with his
name to the identity of our men and on
many occasions the referee failed to
work impossible and it impossible
to designate the name in the score.

Just these few words on P. C. We start
ded in our paper that P. C. committed as
many fouls as Clemson, and I am ready
further and say that I believe P. C. committed more fouls than Clem-

Clemson Agricultural College

A young man can make no better investment than in a technical education. Viewed merely as a matter of education, even if he has to borrow the money it will be found that his increased capacity will enable him to earn a sum of money during the first year of his college career which will be sufficient to repay the loan. It is a poor business policy to waste time which may be used to advantage.

Every year of a man's labor, after he has obtained a college education, is more valuable to him than any year of his life before the college training.

College men have, however, manufactured and seen manufacturers that they are not the most skilful, and in business affairs, not only in being developed for future executive positions, but also, lastly, that they have the dollar as a test of their knowledge and training. They have been educated to work in a small fraction of the time required by ordinary workers, to work in teams of skilled men, to be leaders in the college. Men who are interested should see him at once.

Carolina the benefit of the possibilities of a technical education. The crammed curriculum is one of the largest and best equipped Agricultural and Mechanical Colleges in the South. 1,644 acres of land. Value of plant over $1,300,000. New and Modern buildings, equipment, sanitation. Over 100 professors and instructors. One of the most successful educational institutions in the country. Every year of a man's labor, after he has obtained a college education, is more valuable to him than any year of his life before the college training. There is no time to lose.

And now undergraduate summer work has become so well recognized that many technical colleges, among them the Georgia School of Technology, require a certain amount of summer work in the regular curriculum, and manufacturers are preparing to earn the money necessary to pay for the college, should it prove to be a success. The work is not excessively hard, and the wages are sufficient to cover the cost of living expenses, and leave a moderate surplus after graduation. The work is not excessively hard, and the wages are sufficient to cover the cost of living expenses, and leave a moderate surplus after graduation. The work is not excessively hard, and the wages are sufficient to cover the cost of living expenses, and leave a moderate surplus after graduation.

Clemson Agricultural College:

SCHOOL OF ENGINEERING AND AGRICULTURE

One of the largest and best equipped Agricultural and Mechanical Colleges in the South. 1,644 acres of land. Value of plant over $1,300,000. Over 100 teachers, officers and assistants. Enrollment of over 3,000. Every college in South Carolina recognized: 13 Degree Courses. 4 Short Courses. 7 Departments of instruction. New and Modern buildings, equipment, sanitation. Over $150,000 expended in public service.

VALUE OF A TECHNICAL COLLEGE EDUCATION

A college education is no longer a luxury of the few, but a necessity for the majority. Even more so, a necessity for the minority.
