BETWEEN THE BUREAU OF ANIMAL INDUSTRY, U.S. DEPARTMENT OF AGRICULTURE

AND THE CLEMSON AGRICULTURAL COLLEGE OF SOUTH CAROLINA

The Inspector in Charge of the State of South Carolina shall from time to time select for his headquarters a point in the State which he believes to be most advantageous to the work under his direction, and from which the best results can be obtained with the least possible outlay of time and money; Provided, however, that temporary headquarters shall be maintained at Clemson College for a period of six months from date.

3. The Inspector in Charge shall have entire charge of the work in the field, and subject to the approval of the Bureau and the President of Clemson College, shall recommend the salaries, as well as the appointment and dismissal of all men when a position shall be vacant, or a new position granted. The Inspector in Charge shall choose a man whom he deems qualified to hold the position, and who is satisfactory to the President of the College. The nomination shall then be forwarded to the Bureau, and it approved by it, the appointment shall be made. The aim shall be to select and employ as agents only such men as are satisfactory to both parties.

5. All stationary, supplies, blank books, and reports shall be furnished by the Bureau, with the exception of the State permit and quarantine blanks and poster notices adopted as official for the State.

6. In case of publication of the results of the tick eradication work, whether in reports, circulars, newspapers, or other publications, it is understood that mention will be made by the party publishing such matter of the fact that the work is conducted cooperatively between the Bureau of Animal Industry and the Clemson Agricultural College.

7. All general policies governing the conduct of the work, and particularly such policies as concern the territory in which the work is to be carried on, shall be mutually agreed upon by the parties to this memorandum, and all orders relating to such policies shall be issued from the Bureau office to the Inspector in Charge, and copies of all such orders shall be furnished to the President of the College.

8. It is understood that so long as the appropriation is available, the College, acting as the agent for the State, will contribute not less than $30,000 per annum to the eradication work, and that the Bureau will contribute adequate funds for cooperation. The salary of the Inspector in Charge shall be divided between the parties to this memorandum and the application of all other funds available shall be as agreed upon by the Bureau and the President of the College.

9. It is understood that South Carolina shall be treated as a separate territory reporting directly to the Washington office.
10. The co-operative arrangement covered by the memorandum may be terminated by either party upon one month's notice in writing.
