The Board of Trustees met at the College this F.R.

Present:

Nessers, Smickson, Smitt, Bowen Johnston Wannamaker, Cobane, Hardin, Donaldson, Bradley, Sease, Feidal, and Evans.

Col. Smickson reported that he was unable to have the name of Cherry's Station changed and that the Blue Ridge Railroad had agreed to make joint repairs to the station house.

Res. That three hundred dollars ($300.00) be appropriated for the purpose of arranging the structure of a survey and other necessary expenditures for the construction with the Chittsino Railroad alleged to be caused by the rise on the Desha River— the same to be paid out on the approval of the President of the Board.

$200.00 Two hundred dollars was appropriated to build a room for Mr. Schillott.

$200.00 Two hundred dollars was appropriated for rooms to Mr. J. E. Davis to hold

Res. That the members of the Fertilizer Board be requested to represent the Board of Trustees to attend the Farmers Assembly of the approaching session and to agree to have passed the Fertilizer Act prepared prior to the last session of said body.

The Board of Trustees of Clemson Agri-
Cultural College respectfully call the attention of the President for Management of the Blue Ridge Railroad to the lack of better facilities at Cherry’s Crossing. The very large proportion of the 200 students who attend the College would use the railroad as most accessible if the convenience thus provided would justify their doing so. But as it is very many of such students adopt another route as it is convenient to them, because of the lack of such facilities.

The main difficulty is the lack of accommodation furnished at this point by the Railroad. There is but one small building utterly insufficient to furnish shelter to the large number of students who at different times are obliged to take or leave the train at this crossing. There is no accommodation at all for the baggage of such students. If the weather be inclement, a large number of students and all the baggage are exposed to serious danger, constant and damage. In addition to these facts the station is used largely and frequently by the ladies of the College and the neighborhood. The same inconveniences apply to them and in a greater degree than with the young men. The Board therefore request respectfully request the President and Management of the Blue Ridge Railroad to supply suitable accommodation at Cherry’s Crossing.

Res: That Mr. Goodman is allowed to accompany daughter and furnish help to the President
and other residents of the College Community at the market price. Said beef or other
fresh meat to be kept entirely separate and
abstract from that furnished to the Boarders.
Rescinded. Feb. 27, 1906

Res: That the Prof. & Animal Husbandry be
authorized to use the sum of $200 to erect
some apparatus for raising fodder and
necessary buildings for sheltering sheep and goats for the purpose
of a herd, to be under the direction of the
Committee on Experiment Farm.

$500.00 was added to the appropriation for
house for Mrs. Biggs to be distributed under
the direction of the Experiment Committee.

Res: That the whole matter of water supply
be referred to the Exp. Committee with power
to act, and that the sum of $45.00 be if so
much be necessary to enable them to make
such contracts as they may deem proper.

This Catherine B. Truscott was unanimously elected
Librarian.

Res: That Prof. Callow be made a member
of the Experiment Station Staff.

Res: That President and Treasurer draw their checks
for all expenses ordered at this meeting.

Board adjourned.

Agreed. Feb. 27, 1906.
