

## Fairey Is Elected President Of Senior Class

Shown above is the presentation of a check to the Architecture Department by the Minarets. In the picture are, left to right, Sam R. Putnam, chairman of the library committee, Mr. John Gates, head of the Architecture Department, Harry J. Demosthenes, president of the Minarets, and Clayton Hyland, chairman of the fund-raising committee.

## Professor Curtis Elected To Office

### Minaret Frat Donates Check To Department

The Minarets, honorary architectural fraternity, recently presented a check for the sum of fifty dollars to the Architecture Department. The presentation was made by H. J. Demosthenes, president of the Minarets, to Professor John Gates, head of the architecture department, and Professor Sam Putnam, chairman of the faculty library committee.

The money is to be used to completely redecorate the architectural library according to a design prepared by a committee from the Minarets with Robert T. Lawrence as chairman, in collaboration with the faculty library committee.

The funds for the donation were taken from the proceeds of a recent drive for funds undertaken and sponsored by the Minaret fraternity. The library project is one of several which the Minarets are pressing for the improvement and advancement of the Clemson architectural Department. The Minarets have thirty student members on the campus.

Theta Tau Fraternity elected Donald D. Curtis to its highest office, Grand Regent at its biennial convention in Kansas City recently. Mr. Curtis is professor and head of the Department of Mechanics and Hydraulics at Clemson.

Theta Tau, founded at the University of Minnesota in 1904, is the oldest and largest professional engineering fraternity. It has at present 23 active chapters and one recently accepted petitioning group to be installed, and there are three inactive chapters. Twelve alumni associations are active in the larger cities of the country. Thirteen thousand men have been initiated.

The fraternity is headed by an executive council made up of alumni elected biennially by the active chapter delegates assembled in convention. In addition to Mr. Curtis, the present council comprises A. D. Hinckley, Executive Secretary of the Illuminating Engineering Society, New York City, as Grand Vice Regent; Enrich J. Schrader, consulting mining engineer, Reno, Nevada, founder of the fraternity, as Grand Scribe and Executive Secretary-Treasurer; Paul L. Mercer, Division Manager, Union Electric Power Company, Keokuk, Iowa, as Grand Treasurer; John M. Daniels, Director of Admissions, Carnegie Institute of Technology, Pittsburgh, as Grand Marshall; T. C. Brown, professor of Mechanical Engineering, North Carolina State College, Raleigh, as Grand Inner Guard; Frank W. Edwards, head of Civil Engineering, Illinois Institute of Technology, Chicago, as Grand Outer Guard; and Norman B. Ames, Head of Electrical Engineering, George Washington University, Washington, D. C., as delegate-at-large.

Mr. Curtis brings to the office a long experience in the handling of the fraternity's affairs. He was editor and business manager of the GEAR of THETA TAU, the official publication, for three years. During the second of these years, he was elected Grand Marshall and continued in that office 21 years, serving at many conventions, council meetings, chapter installations, regional conferences, and official visits to chapters in various sections of the country. The past two years he has been Grand Vice Regent.

Mr. Curtis is also a member of Tau Beta Pi, Sigma Xi, and Phi Kappa Phi and of the American Society of Civil Engineers, the American Geophysical Union, the American Society for Engineering Education, Advisory Committee of the National Rivers and Harbors Congress, and other professional and civic organizations.

## Horne Named Student Body Veep As Sibley, Ackerman Withdraw

Ben Horne (left), new president of senior class, congratulates John Fairey, newly-elected president of student body.

John Fairey was elected president of the senior class in the mid-year election held on Tuesday, February 20. Fairey, an arts and sciences major of Orangeburg, defeated Walter Pearson, mechanical engineering major of Greenville, by a vote of 103 to 71.

Ben Horne, pre-forestry major of Charleston, was unopposed for the office of student body vice-president after Winston Sibley, animal husbandry major of Greenville, and Charles Ackerman, arts and sciences major of St. George, withdrew from the race.

Nolan Gardner, textile manufacturing student of Kershaw, was elected senior class representative by a vote of 122 to 59 over Luke Langley, textile manufacturing major of Clemson.

Frank Flowers, animal husbandry student of Darlington, was unopposed for the office of secretary of the senior class.

Bob Machen, textile manufacturing major of Greenville, was the unopposed candidate for the vacant senior council seat.

Bob Johnson, animal husbandry student of Sumter was elected junior class representative without opposition.

## Students Nominate Outstanding Men In Each Of Three Religious Faiths

The three major religious faiths at Clemson, Jews, Protestants, and Catholics, last week each nominated five outstanding living Americans of their own communion to stimulate the thinking of the student body along the lines of brotherhood.

Brotherhood Week, sponsored by the National Council of Christians and Jews, is being observed this week. The purpose of Brotherhood Week is to better relations between the major religious faiths of the nation.

The men nominated by the Jewish students are: Bernard Baruch, Henry Morgenthau, Jr., Albert Einstein, J. R. Oppenheimer, and David E. Lilienthal. The Protestant nominations are: John Foster Dulles, Ralph Jackson Bunche, George Catlett Marshall, Warren Robinson Austin, and Douglas MacArthur.

The Catholic students nominated Francis J. Cardinal Spellman, Joseph Lawton Collins, Henry Ford, II, Mrs. Clara Boothe Luce, and Bing Crosby. Bernard Baruch was born in Chester, S. C. His first public service was in 1916, when President Woodrow Wilson appointed him a member of an advisory commission of the Council of National Defense. As chairman of the War Industries Board in 1918, Baruch directed the industries of the entire nation. He served on the American commission to negotiate for peace in 1919. He was awarded the Distinguished Service Medal for his aid in national affairs. During President Franklin D. Roosevelt's administration Baruch planned the National Recovery Act in 1933.

Henry Morgenthau, Jr. served as an agricultural adviser to France during World War I. He later served in the United States Navy. He fought for America's entry into the League of Nations. In 1932, he became chairman of the Federal Farm Board. He was named the first president of the Federal Farm Board in 1933. In 1934, Morgenthau was appointed the United States Secretary of the Treasury. He conceived the idea of selling U. S. Savings Bonds directly to the public. He was responsible for several laws which advocated taxation according to the ability to pay.

J. R. Oppenheimer served as director of the Los Alamos Scientific Laboratory during World War II. Before the war, he was professor of physics at the University of California. He is presently chairman of the General Advisory Committee of the Atomic Energy Commission and director

of the Institute for Advanced Study at Princeton, New Jersey. Oppenheimer has served on various advisory groups set up by the President and was credited as chief draftsman and architect of the Acheson-Lilienthal report.

Albert Einstein is best known for his work on relativity. His concepts concerning relativity were basic in the development of atomic energy. He won the Nobel Prize in 1922 for his work on photochemical equivalent. He also wrote papers on the Cervarium Law of Emission and Absorption of Light, which changed the entire theory of light.

David E. Lilienthal served as counsel for railroad brotherhoods, and as such participated in important cases involving the rights of labor. In 1931, he became a member of the Wisconsin Public Commission. He was appointed one of the three co-directors of the Tennessee Valley Authority in 1933. In 1941, he became chairman of the T. V. A. Lilienthal assisted in drawing the State Department plans to control atomic energy by setting up an international authority. He was confirmed as Chairman of the Atomic Energy Commission in 1947.

His Eminence Francis J. Cardinal Spellman, Cardinal Archbishop of New York, was consecrated Auxiliary Bishop of Boston in 1932, and in 1939 was installed as Archbishop of New York. He was appointed Military Vicar for the United States in 1939, and in 1946 was created a Cardinal of the Catholic Church. He is the author of a number of books.

General Joseph Lawton Collins, Chief of Staff of the United States Army, graduated from Louisiana State University and the United States Military Academy. He was appointed Chief of Staff of the Seventh Army Corps in 1941-42 and Chief of Staff of the Army Ground Forces in 1945. He was appointed to his present post in 1949.

Henry Ford, II, was named the United States Junior Chamber of Commerce's "Young Man of the Year" in 1945-46. In 1945, he became president of the Ford Motor Company and in 1947, President Truman appointed him to his five-man Air Policy Commission. In 1940, he became a convert to the Catholic Church. He has recently contributed one million dollars for the establishment of a Brotherhood Center for Christians and Jews in New York City.

Mrs. Clara Boothe Luce, American playwright, Congresswoman, journalist, and author. She is a

recent convert to the Catholic Church. As a Republican member of the House of Representatives she served the Fourth Connecticut District in the seventy-eighth and seventy-ninth Congresses. She recently gave her estate at Monck's Corner to the Trappist Order of Priests and Brothers for the establishment of a Monastery there.

Bing Crosby is best known as a singer on the radio and on the screen. Among his movies are: "The Bells of St. Mary," and "Going My Way." He was awarded the Academy of Motion Picture Arts and Sciences award in 1944 for his performance in "Going My Way." Together with his brother, he organized the Crosby Research Foundation to assist in bringing into production war equipment and aids to injured veterans.

John Foster Dulles was secretary of the Second Hague Peace Conference in 1907. He was a counsel to the American Commission to Negotiate Peace in 1918-19. He was a member of the United States Delegation to San Francisco United Nations Conference. He is chairman of the Carnegie Endowment for International Peace. He is also chairman of the Commission on Just and Durable Peace, instituted by the United States Federal Council of Churches.

Ralph Jackson Bunche, political scientist, was professor of political science until 1938. He was with the Office of Strategic Service as a social science analyst from 1941-44. He has served as director of the Division of Trusteeship of the United Nations since 1946. He served as acting mediator in Palestine in 1948-49.

General George C. Marshall has served as United States Secretary of State and United States Secretary of the Army. He was on the Atlantic Charter Conference. He is president of the American Red Cross.

Warren Robinson Austin served as U. S. Senator from Vermont from 1937-1947. He has served on the special committee on atomic energy and the Inter-American Commission on Problems of War and Peace. He is United States representative to the United Nations. He has a seat on the United Nations Security Council.

General Douglas MacArthur is Commander-in-Chief of the United Nations Forces in Korea. He is commander of the United States Army of Occupation in Japan.

## Blood For Korean Use Acked By Red Cross Unit On March 15-16

The American Red Cross Bloodmobile will visit the Clemson College campus on March 15 and 16 in an effort to secure a minimum of four hundred units of blood from the student body. All blood collected by this unit is to be used by our Armed Forces. At the end of each day's operation of the bloodmobile, all blood collected will be shipped by the fastest means available to laboratories in Philadelphia for processing into plasma and shipment by air to hospitals in Korea and Japan.

The blood collection unit will be set up in the basement of the Clemson Methodist Church. It will consist of a twelve bed hospital with a permanent staff of thirteen including an examining doctor, three or more nurses specially trained in drawing blood, and eight other assistants. The full time assistance of thirteen volunteer assisting nurses and other workers has been requested of the Clemson American Legion Auxiliary Post.

The examining doctor determines the physical fitness of each volunteer blood donor, and a rejection rate of 10 per cent is usual. In most cases the donor can give a pint of blood and be back at his work in an hour's time. Students under 18 years of age are urged to get written consent of their parents well in advance of the visit of the bloodmobile in order that no delay will be experienced in processing donors.

Application blanks will be made available to cadets through their Military Science instructors, and veterans through the Commandant's office and the Hillel-Brandeis Club. Civilian volunteer donors are asked to register with Sgt. William Brown in the office of the Commandant.

## Plans Discussed For Y Membership Drive

Plans for the annual YMCA Membership and Finance Campaign have recently been made, with the drive to begin on March 5. The committee has met and further plans will be announced at a later date.

Chairman of the membership and finance committee of the YMCA is George Shelton, education senior of Naval Base, who is being assisted by Chris Turner, electrical engineering junior of Marion, and Bob Prince, agricultural engineering senior of Lynchburg.

## State Methodist Students Meet Here

Students from sixteen colleges will attend the twenty-third annual South Carolina Methodist Student Conference, which begins here tomorrow and continues through Sunday. The conference is sponsored by the Clemson Wesley Foundation, and all sessions will be held at the Clemson Methodist Church.

The theme for the conference is "Christian Power In the Secular World."

The Rev. M. B. Hudnall, associate pastor of Buncombe Methodist Church, Greenville, is dean of the conference. Miss Sue Henry of Clemson is registrar.

Speakers for the meetings are: Dr. Samuel E. Stumpf, who is professor of Christian Ethics in the School of Religion of Vanderbilt University, Nashville, Tennessee; Dr. J. Lem Stokes, II, who is director of Religious Life in Church Related Colleges with the

DR. SAMUEL E. STUMPF

Methodist Board of Education, Nashville, Tennessee; and Professor John D. Lane of the School of Arts and Sciences, Clemson.

The Rev. J. Claude Evans, pastor of the Clemson Methodist Church, is state director of the Methodist Student Movement.

The Rev. Harold Hips, associate minister of the West Market Street Methodist Church, Greensboro, North Carolina, will direct the recreation for the conference. The events planned for Friday evening are: a worship service presented by the Clemson Wesley Foundation; an address, "Christianity and the Secular Mind," by Dr. Stumpf; fellowship groups; and recreation directed by Mr. Hips.

Saturday, Furman University will present the morning worship service, Dr. Stumpf will speak on "Christianity and Democracy," and Dr. Stokes will speak on the Methodist Student Hour.

Officers will be elected at a business session Saturday afternoon. Present state officers are: Miss Dorothy Jennings of Converse, president; Phil Jones of Wofford, vice-president; Miss Sylvia Best of Columbia College, secretary; Jack Padgett of Clemson, treasurer; and Jimmy Gallo-way of The Citadel, publicity chairman.

Sunday morning during the regular Sunday School hour, Holy Communion service will be held, and the new state officers will be installed.

Everyone is invited to attend the Sunday morning worship service at 11:30. Dr. Stumpf will deliver the sermon on "Creative Power." This service will conclude the conference.

## J. W. Parker Wins Ceramic Contest

James W. Parker, ceramic engineering senior of Savannah, Ga., is the winner of the speech contest on ceramic topics sponsored by the Clemson chapter of the American Ceramic Society.

The student chapter of the American Ceramic at each of the thirteen schools in the United States granting a degree in ceramic which is open to any student majoring in ceramic engineering. The winner of these chapter contests are eligible to compete in the National Convention of the American Ceramic Society, which will take place in Chicago in April. All expenses for the Convention are paid by the American Ceramic Society. Prizes are awarded to the student representatives at the convention on the basis of their speaking ability and the merit of their speech to the ceramic industry.

This is the first year that Clemson has had seniors in ceramic engineering and has been able to participate in the National Convention.

## Opening Exists For Air Force Officers

The Office of the Professor of Air Science and Tactics recently announced that an immediate requirement exists for reserve officers appointed directly from civilian life.

Any person who is a college graduate and possesses a degree from any accredited college or university may apply for a reserve commission in the United States Air Force.

Procedure for applicants and other interested persons is available in the Office of the Professor of Air Science and Tactics, Clemson.

## Notices

All juniors and seniors majoring in textile engineering who wish to join the American Society of Textile Engineering should sign the list on the bulletin board in the Textile Building as soon as possible.

Alpha Phi Omega announces that their annual Stunt Night will be held on Thursday, March 1. Further details will appear in next week's issue of "The Tiger."

## Sports Needs At Clemson

Clemson sorely needs a program designed to teach students new athletic skills. Many students would like to learn how to play tennis, golf, handball, and various other sports which they could enjoy both while at Clemson and after graduation. Skills such as golf and tennis have an actual monetary worth; in some professions they are an absolute requirements. The majority of college students usually possess only an average amount of athletic ability and do not have the surplus of skill or the experience to go out for varsity teams in these sports. Others would like to receive instruction in tumbling, diving, swimming, wrestling, weight lifting, or archery, and are prevented in engaging in these activities only from a lack of knowing how.

The Clemson YMCA has an excellent program of intramural sports which is doing an admirable job in providing students with an opportunity to play volleyball, football, and other team sports. Participation in such team sports is to be encouraged, but many students do not enter such a program because they feel that they do not play well enough or they do not know how to play at all. Competition for places on the intramural teams runs high, and those boys with superior athletic ability usually get to play much more than those with average ability or no experience.

A program to teach college students athletic skills which they can use in later life is being administered successfully in many colleges. Such programs allow the student to sign up the activity or skill which he wishes to learn at a regular time. Classes are formed and are sometimes taught by other students or professors who are proficient in the sport. Starting with assumption that their pupils know nothing of the sport, its theory is taught before actual practice is started. This gives students who have had little or no previous experience a chance to start from the bottom and learn all about the sport.

Actual instruction is started with all members of the classes going through the same movements. Fundamentals are stressed from the beginning. Since all members of a class are equally inexperienced, no one is embarrassed by his lack of experience, or lack of proficiency. As the students begin to master the course, friendly competition is encouraged, but the fact that the students are learning a skill, not competing for a letter, is emphasized.

W. C. D.

## Livingston Is Promoted

Captain Clyde M. Livingston, a graduate of Clemson, has received the temporary rank of major and has been assigned to Reese Air Force Base, Texas.

Major Livingston, director of Academic Training at Reese, received his commission as Second Lieutenant in 1942 when he graduated from advanced pilot training at Spence Field, Georgia. During World War II Major Livingston served with the Eighth Air Force and was awarded the Distinguished Flying Cross with one Oak Leaf cluster and the Air Medal with four Oak Leaf clusters.

## Organization For TM Majors Is Discussed

Plans are underway for the establishment of an organization which has been proposed in recent years but no definite action has been taken.

Men majoring in textile manufacturing. Such an organization would be designed to promote better student-faculty relations and a better understanding of the School of Textiles. It has been proposed that the club would sponsor lectures by prominent textile executives for all textile students. Tentative plans call for membership limited to juniors and seniors.

A meeting of all textile manufacturing juniors and seniors has been scheduled for Tuesday, February 27, at seven o'clock in the Textile School auditorium. Professor T. A. Campbell, who has agreed to act as faculty advisor of the group, will discuss plans for the organization of the club.

## Letters To Tom Clemson

Dear Tom,

On behalf of my colleagues of the Religious Emphasis Week and for myself, I wish to thank the faculty and students of Clemson College for the warm welcome and for the manifold courtesies which were extended to us during our stay on the campus.

I have never been on a campus where so large a percentage of the college community participated in the events of the Religious Emphasis Week. I have never found keener or more intelligent interest in the things of the Spirit. I have never found such wholehearted and complete cooperation on the part of all branches of the college community to the end that the Religious Emphasis Week might be a success. For these things and for many more we are profoundly grateful.

Whether or not this week was a success only you and time may properly judge. We ourselves did not expect to turn the world upside down in our week with you, but if we did succeed in sending you with deepened resolution to your ministers and teachers that your minds and your spirits may become more truly disciplined, we shall count our week among you well spent.

I hope that you can find some way to convey our appreciation to the faculty and students for the high privilege of being welcomed among you for the week. Thanking you for this kindness, I am,  
Most sincerely yours,  
Warner L. Hall

## TALK OF THE TOWN

## Sabers For Cadet Officers Advocated; Students' Poetry Can Be Published

BY GRADY DANIEL

**BROTHERHOOD: WHAT IT IS**  
This is National Brotherhood week. It started this past Monday, February 18, and goes through February 25. Its purpose is to better relations between the major religious faiths of the nation; however, this is not all. Brotherhood, according to the dictionary, is "a class of individuals of the same kind, profession or occupation." Brotherhood is a criterion of Americans and of the nations of the world. Perhaps it is more so a characteristic of America, the "Land of the Four Freedoms," than any other nation.

We are all brothers, "one Die, one Mintage, one Humanity; every man the kinsman of every other; mankind brothered in the one mould of the Creative Word" (G. D. Boardman). If ever there was a time when this country needed a strong bond in brotherhood, it's now. It has been said time and again, in more situations than one, "united we stand, divided we fall." Certainly that's also true of brotherhood. Brotherhood is an essential of American society.

In my estimation, Clemson displays a good example of brotherhood through the cooperation of the different church groups as well as between our foreign students and home students. There is an air of brotherhood about every Clemson man, young and old, each holding high regard and respect for the other; none letting church affiliations and divergence of beliefs stand as barriers to friendships, but rather in many cases, act as "ties." In other words, we realize that we all pray to the same God, that all things come from one God, and that that same one God watches over us all, from day to day. This is as it should be. Nevertheless, some of us fail to realize that "each race, each religion, contributes its own talents, culture and idealism to produce that amazing blend of ideas and vigor which have made America great."

Still, we lack one fine imperative point that is of the utmost importance to our brotherhood on this campus, and everywhere else for that matter, and should not be overlooked. It cannot be overemphasized!

We must remember that "all Americans are the same—all citizens of one country and all working together." We all play life's game together. It's a hard game, but it is easier to play through cooperation. We

should "judge everyone else by their individual personalities, character and how they play—not by their race or religion." Let's remember that, and put it to practice. Let's make every week brotherhood week!

### ATTENTION, POETS!

Beginning in the next week's issue of THE TIGER, the Poet's Corner will be revived once more. This column hasn't appeared in the paper for quite sometime for unknown reasons, even to me.

I know we have a lot of poetry lovers and "would be" poets on the campus, so if you have any of your own compositions that you would like to see in print, just send them to me (Grady Daniel, Box 1230). Don't hide your talents; let other people know about them, too! If you think they're not so hot, don't let that hold you back; remember, yours is only one opinion!

The deadline for each issue of the paper is Tuesday night of each week, so start to day and send 'em in. Just write or print them plainly on notebook paper or stationery, or if you can type—type them. The best of the poems received each week will be printed in the Poet's Corner of THE TIGER.

### SABERS NEEDED

The Executive Sergeants Club has now initiated a movement to supply the cadet officers with sabers. As you of the cadet corps know, not all of the officers have them, since the corps has expanded thereby creating a need for more officers. There was a time when every cadet officer had a saber, but now due to the college's financial condition and the acute shortage of metal, it has become impossible to outfit them. The club has mailed letters to all the alumni requesting their support, either financially or by the donation of a saber that was presented to them when they were in school. This is a very worthwhile undertaking and we hope that you alumni will do your part—you never have failed us.

This is the second big undertaking that the Executive Sergeant's Club has created. If you remember, the first one was to get gloves for the cadet corps, which was very successful. We realize that you men are truly working for the betterment of Clemson's Cadet Corps and we know that this new program will also be as successful as the last. Keep it up; you're doing fine!

## Gags From Other College Rags

by Johnnie Nowell

Dean (to new janitor of girls' dormitory): "Why didn't you come around last Friday and draw your week's wages, Ole?"  
Ole: "You mean I get paid, too?"

Spectator

Des Moines dairy: "Our cows aren't a bit contented—they're anxious to do better."

Technician

Sweet young wife: "Now over in this corner, we'll have a love seat—over there, we'll have a love seat, and here by the fireplace we'll have another love seat."  
Decorator: "My word, do you call this a living room?"

Young wife: "Why, of course—if it isn't living, I don't know what it is!"

Gamecock

"May I kiss your hand?" said he with burning looks of love.  
"I can remove my veil," said she, "much easier than my glove."  
Brown Herald

Many a sober-faced little lamb goes riding in the moonlight and comes home with a sheepish grin on her face.

## NOW HEAR THIS

## Lack Of Interest In Concerts Fault Of Educational Facilities At Clemson

BY DOC BAKER

### FAULTS OF CONCERTS AT CLEMSON

Here's the way I look at the concert series. There is a faulty point somewhere between the faculty, committee members and the student body.

At the last concert, the student representation was about fifty. That isn't too good, especially when there are about 2500 of us planking down money to pay for these concerts. Now, there must be some explanation.

To begin, let's take a look at the concert committee. I think they are sincere and energetic in their work. They go to all kinds of trouble selecting artists to appear on the campus. They portray interest in their work. Still, they are BARKING UP THE WRONG TREE. This is plainly evidenced by the student attendance.

The athletic committee doesn't have to send out publicity to get the troops over to the football games, or any other sports events. Yet, with the publicity, the fellows remain away from the concerts? WHY?

### WHY?

Here's why! Most students are taught to enjoy football. Everyone knows something about it. Even grammar school pupils can follow the game, talk the game and re-live the game.

This is not true when it comes to the "long-haired" music. For example, circulars were distributed to every room in the barracks concerning the Houston Symphony Orchestra. These bulletins contained the name of the conductor, the soloist, the program and a brief history (history, not the story), of a few of the renditions. These things were sent around—what effect did they have?

The opening number was an overture, written by Tchaikowsky. Why, half the students at Clemson don't know whether he is Russian or a coal miner's son. They never heard of the music. It doesn't strike them as being interesting.

Another part of the program stated some-

thing about the audience's reaction when a particular composition was first played. This made a smaller impression on the student body than Dr. Poole's possibilities for spitting in the middle of Bowman Field.

In fact, about 25% of the students don't know which notes match Guido's scale. One-third don't know the difference between an orchestra and a jazz band. Just ask one to name the composition of a symphony orchestra! Our students are not prepared from kindergarten on to be interested in this type program.

If one musters enough common curiosity to attend one evening, he is bored. All incentive to return is gone.

Apparently, it is deemed important enough to take a sum of money from the students to sponsor these programs. If it is this important, then it is equally important to give a little added time to educating the pupil along the line of the program. This in itself is a big problem.

One of the student body officers mentioned programs in which a music "brain" would go through the program and explain its various qualities. What he didn't say was how to get the fellows to the program.

After approaching the subject, I think the real reasons are easy to point out. First, there is no background in the general education that stimulates an interest in the concert presentations. Second, there is no interest developed at Clemson. Third, should a student attend a concert due to curiosity, he wonders why people will listen to THAT stuff rather than jazz. If he confronts a professor, he is told he needs culture. Students have minds that need to be impressed with facts and an understanding of these facts; not a mere "you need to" for an explanation. Fourth, and last, the tendency at Clemson is to do as little outside work as possible and hit the sack for as many hours as possible.

There will never be any appreciable interest in the concert series unless more emphasis is placed on musical education.

## Platter Chatter . . . .

By Stan Kohn

The more I think about it the more I convince myself that Clemson College is a very music-conscious school, particularly so for a school that offers no major in music. Consider all of the campus organizations that are in some way concerned with presenting music to the students. Possibly at the top of the list would be the group that physically supply music here on the campus—the military band, the concert band, the Glee Club, and the Jungaleers.

The military band is probably the greatest contributor of music for the masses. The neophyte concert band fares not as well for it is born to serenade parents on Mother's Day, only to die shortly thereafter. The Glee Club presents its annual Christmas concert as well as appearances elsewhere in the state. And the Jungaleers, a group not often heard on this campus, is busy making a name for itself at the University of Georgia. They've played seven consecutive weeks there, but still haven't found the opportunity to play for the students here.

And then there are groups that bring us the music of others for our listening and dancing pleasure. The Central Dance Association has brought some top performers here for the dance series this year. Our Clemson Concert Series presents the greatest of performers of music to the student body each year.

Also on campus are five—count 'em—juke boxes. And it seems that they're continuously playing.

And there's Mr. McGarity's Music appreciation course. It was there that the now-famous "We Need More Sofas" Club was born. It goes without saying that there are about 3000 shower-stall Sinatras on the campus. Each one is capable of singing the lead in any opera—under the right conditions.

But this isn't all. The student body has a large representation in the choirs of the local churches. Speaking of churches, both the Anderson College and Furman Choral Ensembles appeared here, and were well received, during Religious Emphasis Week.

And the crowning touch is the number of students that are record maniacs. A record maniac is a student who first spends his entire ROTC check on the latest discs. Then he borrows his old-lady's ROTC check to round out his collection. And then has to hock his typewriter to get some special that have just been released.

So you think I've covered

everything, eh? Well, there are still some boys that haven't been mentioned. There's a large number of boys on the regiment—I didn't know it until I got here—who are proficient musicians on their respective instruments. Only difference between them and band-members is that the boys that over here have brains (I just lost my last two friends for that).

What I'm referring to is that stu-

dents on the sixteen other companies are allowed to practice any time they want to, and don't have to worry about the time of day. The boys whose prime interest is music, or should be, have to make sure they don't practice between rehearsals—or something like that.

Well, I've got to tune my trusty uke and go back to keeping up with Arthur Godfrey programs.

that he (Oscar) is still hung over from Mid-Winters and hasn't been able to gather much this week.

that he (Oscar) promises that it won't happen again.

that it didn't take Jeff's place (Tobin) long to get back on the bandwagon. He (Oscar) wishes him (Tobin) the worst of luck.

that he (Oscar) wonders why Henry (I'm president of A. S. T. E.) Magill has suddenly decided that Duke has more to offer than Brevard.

that he wonders if Betty's shaft letter had anything to do with it.

that Jack (I want to be hell) Patton seems to be hitting the Anderson highway pretty regularly. He (Oscar) wonders if this could be the real pig.

that he (Oscar) hears that the top hit tune at Winthrop is "Don't Fence Me In." He (Oscar) is sorry to hear that the girls have sunk to the new low.

that he (Oscar) thinks that Bubba (You must have heard of me) Snow could stand to be a little friendlier to the troops.

that maybe he (Snow) hasn't realized that this is Clemson, not Carolina.

that Bill (She's just pleasingly plump) Brown started to go to Converse this week-end but was waylaid enroute.

that he (Oscar) thought he (Oscar) was out West the other day when "Tex" Hayes walked by. He (Oscar) wonders what

time they have round-up in the band barracks.

that Fred (I run the C. D. A.) Barlett has abandoned Union. He (Oscar) will look further into this matter.

that "Moochbags" Chapman's tonsils are still showing too often. This is his (Oscar's) last warning to the blockhead.

that he (Oscar) thinks that the Klan oughta' hide against Maxie Burch if he (Burch) doesn't quit playing cops and robbers.

that the wolves are knocking at his (Oscar's) door. He (Oscar) will be mighty careful from here on out.

that he (Oscar) enjoyed the Wake Forest basketball game except for the pitiful attempt by "Muscles" Graham to be funny.

that "Muscles" just ain't got it.

that from the looks of George Rodgers, he (Rodgers) should have been listening instead of talking.

that James (Boy) Fleming could stand a few voice lessons.

that if Bill (How about fixing me up?) Patton spent less time in the pool room, he (Patton) would keep more change in his pockets.

that Gandy has been sucked again. He (Oscar) hopes that the school teacher will let him down easier than the Limestone cutie did.

that he (Oscar) would like to congratulate the Concert Committee for bringing us the Houston Symphony Orchestra.

Shown above is Dr. Koloman Lehotsky, second from right, faculty adviser of the Hillel Brandeis Club, and Rabbi Samuel Glasner, center, counsellor of the group, after receiving silver coffee services from Mr. Nat Kaplan, second from the right, representing the South Carolina Lodges of B'nai Brith. At right is Alvin Zatzoff, president of the club, and Sidney Merians, vice-president, is at the left.

## Lehotsky Is Presented Gift By B'nai Brith

### Li. Smarr Attending Basic Armor School

Among the names listed on the roster of officers attending the fourteen weeks Basic Armored Course at Fort Knox, Kentucky, is Lieutenant Albert W. Smarr, Jr., Executive Officer of Detachment 1, 3420 Area Service Unit. Lieutenant Smarr, the son of Mr. and Mrs. A. L. Smarr, Sr., of Hickory Grove, attended Hickory Grove High School, graduating in the Class of 1941. After interrupting his education to serve in World War II, Lieutenant Smarr returned to South Carolina and entered Clemson where he was graduated in the Class of 1950 with a Bachelor of Science degree.

His first date of entry into the service was September 29, 1943, at Fort Jackson, S. C. He was sent to Kessler Field, Mississippi, for his basic training and then attended various Air Force schools before he was assigned to duty with the 8th Air Force in Europe, participating in three campaigns before being shot down and taken prisoner by the Germans. After months of imprisonment, Lieutenant Smarr was liberated by the Russians and returned to military control. Upon completion of his collegiate career, Lieutenant Smarr accepted a direct commission as a second lieutenant and was ordered

Mr. Nat Kaplan, representing the South Carolina Lodges of B'nai Brith presented a coffee service to Dr. Koloman Lehotsky, faculty adviser of the Hillel Brandeis Club at Clemson, on Wednesday evening February 14. He also presented a similar gift to Rabbi Samuel Glasner of the University of Georgia, counsellor of the Clemson group. B'nai Brith is an organization of Jewish men which sponsors various national youth organizations, among them being Hillel units on major college campuses across the country. It is also the sponsoring body of the Anti-Defamation League.

## Former Officers Are Asked To Donate Sabers To The College

Clemson alumni who were presented with a saber when they were cadet officers are being asked to donate them to the college. The Clemson College Executive Sergeants Club is making an appeal to all former officers of the Cadet Corps to bring their sabers out of storage and send them to the College for use by officers who are unable to be supplied with them.

It has always been the custom in the past for all the officers of the Cadet Corps to carry sabers for parades, reviews, and inspections, but because of the emergency scarcity of metal, it has been impossible to completely outfit all officers with sabers. The cadet corps has expanded greatly over its pre-war size, and at present the platoon leaders and assistant platoon leaders of

two battalions are without sabers. In an effort to keep the Cadet Corps at the high standard set by former cadet officers, the Executive Sergeants Club is asking former officers to donate their sabers so that all officers can be equipped with sabers for Spring Inspection and the Mothers' Day parade. Letters are being sent out to former cadet officers asking their

cooperation, and anyone else having a saber they would like to donate for use by the College is asked to send it C. O. D. to Box 924, Clemson.

The Clemson College Executive Sergeants Club is composed of cadet first sergeants, supply sergeants, color sergeants, and sergeant majors. It is dedicated to the advancement of Clemson, and has worked on numerous projects for the betterment of the Cadet Corps. The president of the 1950-51 Club is Ray R. Bell, education major of Pelzer. Sponsor of the club is M-Sgt. J. L. Zorens, chairman of the committee in charge of securing the donation of the sabers is L. H. Witt, Jr., of Swansea.

### Campus Interviews on Cigarette Tests

#### Number 12...THE MOURNING DOVE

"Some of them  
are pretty sad!"

Melancholy and dejected, this gloomy miss found little to titillate her in the recent deluge of quick-trick cigarette tests! She was not enthralled by the idea of judging cigarette mildness with just a fast puff or a single sniff. But, joy of joys! ... happiness came to her when she discovered one test that left no doubt in her mind.

It was the sensible test! ... the 30-Day Camel Mildness Test, which simply asks you to try Camels as a steady smoke — on a pack after pack, day after day basis. No snap judgments needed. After you've enjoyed Camels — and only Camels — for 30 days in your "T-Zone" (T for Throat, T for Taste) we believe you'll know why...

**More People Smoke Camels  
than any other cigarette!**

# Clemson Five Needs One Win In Week-End Series

## Cone Named Teague Award Winner

Fred Cone has scored again! Last Sunday the highly-regarded Tiger fullback was named winner of the Lewis E. Teague Memorial Award as the outstanding male athlete for the Carolinas in 1950.

In a poll of sports writers of both North and South Carolina, Cone won over 16 other nominees which represented every major sport.

First, the field of eligibles was narrowed to five. On the next ballot, Cone tied with Jimmy Thomas, North Carolina swimmer, whose name was written in on that vote. However, Fred was the choice in the final poll, and he will receive the award at a banquet on Monday, February 26, at the Hotel Charlotte in Charlotte.

At the same time, Miss Jane Thomas, Salisbury, N. C., golfer, will receive the award as the outstanding woman amateur athlete of the Carolinas in 1950.

Upon receiving the award, Cone will become the second athlete to represent South Carolina. Banks McFadden, the Tiger's All-American football and basketball star and now coaching here at Clemson, won the trophy in 1939.

During his three years of football at Clemson, Fred led the Tigers to two undefeated seasons and two post-season bowl victories.

Cone was named All-State every year he played for the Bengals and received All-Southern honors his last two seasons.

The Teague Award was established in 1938 at a meeting of the Carolinas Association of the A. A. U. The trophy is now given each year to the best male athlete in the two Carolinas.

Soon after the birth of the award, Judge Lewis E. Teague of High Point, N. C., National A. A. U. delegate at large, died. The trophy was then made a memorial to the Judge. In 1941, the awards committee voted to present a similar award to the outstanding woman athlete.

## Former Tig Athletic Wins Commendation Of Enemy

When a soldier is commended by one of his own officers, it means he has done a very good job. But commendations from an enemy officer are comparable to the "needle in a haystack." However, the 20th Engineer Combat Battalion has such a man assigned.

Lt. Edward Padgett, then sergeant in the 238th Engineers, was captured in the approaches to Aachen. During the battle for Aachen, the German commander, Col. Wilck, decided to surrender. But the task wasn't easy; the Americans were blasting the town with everything but the "kitchen sink." Col. Wilck sent out two men with a white flag, and they were instantly killed by American shells. Two more were sent out, and again they were killed. The situation was desperate.

A Nazi adjutant went into the Prisoner of War cage and asked for volunteers from among the American PW's. Lt. Padgett volunteered. Running and crawling through the intense shell-fire, Lt.

Padgett had several narrow escapes before he reached the American lines. Arriving in friendly territory, he explained the situation, then went back and brought out the German garrison. Later, at the surrender conference, Col. Wilck remarked, "This man is very brave. He should be rewarded." When he left the conference, Col. Wilck left his pistol on the table for Lt. Padgett, with this note: "In memory of an honorable defeat."

Lt. Padgett entered service in 1942 from Camp Blanding, Florida. He was sent overseas in 1943 and made five campaigns with the Combat Engineers, including the Normandy beachhead. He attended Favores High School and later attended Clemson College, where he made the football and boxing teams. At present Lt. Padgett's wife, Elizabeth, and their 11 months old daughter reside in Athens, Ga. Lt. Padgett is the son of Mrs. G. W. Boone of Leesburg, Fla. He is a member of the Leesburg VFW and American Legion.

## Bengals On Road For Return Tilts With Carolina, Citadel; Try For Tourney

Clemson's basketball quintet is trying hard to gain a berth in the annual Southern Conference tournament to be held in Raleigh on March 1, 2 and 3. At the present time, the Tigers stand a strong chance of being accepted. A win over either Carolina or The Citadel this week-end would clinch a berth for the McFaddenmen.

Clemson's 82-77 victory over George Washington Tuesday night increased their Conference record to seven wins and four losses.

Six teams are already sure of bids to the tourney. They are North Carolina, State, South Carolina, West Virginia, William and Mary, Virginia Tech, and Duke. Two more teams will complete the field. The present contenders for these two positions are Clemson, Maryland and North Carolina.

If the Duke's Blue Devils beat North Carolina tomorrow night, the Tar Heels will then have a 9-8 record. Whereas, if Clemson loses both of their remaining tilts, they will have a 7-6 record. This would give the Tigers a higher percentage than North Carolina.

Maryland, with a 9-7 record at the present, has three games remaining. Against V. M. I., Richmond, and George Washington, the Terrapins should not have too much trouble.

That brings us back to the Tigers. Tomorrow night, Clemson faces South Carolina in Columbia. The Gamecocks, already assured of a position in the tourney, defeated the Tigers at Clemson back in January. Slaughter, who led the Birds in their 76-61 conquest of the Bengals, will once again be the man to stop. The tall star has been named to several all star teams already and is among the nation's top ten scorers.

The Tigers will counter with sharp-shooting John Snee, who was far below his potentials at the last meeting between the two teams.

Saturday night, the Bengals travel on to Charleston, where they may clinch their bid to the Conference tourney. At Tiger-town, the Country Gentlemen set the Citadel back 69-43, and should repeat the performance in the low country.

## Marvin Robinson Proving Rebound Ace For Bengals

By Harold Owen

Last year's freshman basketball squad, reputed the best ever to play under Clemson colors, had many possibilities for varsity material, but one of the brightest prospects, who has now proven his potentialities is tall, dark-haired forward, Marvin Robinson.

Marvin who played first string for the freshman last year, has been perhaps the best rebound man on the varsity this year, as well as gathering his share of points.

This big strapping six-footer was born in Weaverville, N. C., twenty years ago, but later moved to Asheville at a tender age.

Marvin was a standout in football, baseball, and basketball at Lee Edwards High school in Asheville and was named on the triple-A Conference team in basketball for two years. He maintained a B average throughout his high school career and was a member of the student council.

After graduation from high school, Marvin was undecided as to which college he wanted to attend, but on looking over Clemson, he was so enthused by the friendliness of the coaches and by the school in general that he decided to enroll.

Marvin claims that his idea of life is sitting with his girl, eating fried chicken (like mother cooks), and listening to sweet and low music. He doesn't like to study but says he favors visual aid to education which means he likes to go to movies.

At present his biggest ambition is to go with the Tigers to Southern Conference basketball tournament. He thinks that the Tigers have an excellent chance to be invited if they play the ball that they are capable of for the rest of the season.

His biggest thrill so far in college was starting his first varsity game this year for the Tigers. Marvin thinks that the freshman team of last year was one of the best group of boys that he has ever worked with

teaching career after graduation this June.

He is active in various other campus organizations, being a member of the Black "C" Club, the Scabbard and Blade, and Kappa Phi Kappa.

Jack, a senior this year, is finishing his four year basketball career at Clemson. He came to Clemson in the fall of 1947 with a fine high school sports record. Neel and his teammates led their high school to the Kentucky state semifinals in basketball. Quite a feat, considering the top flight competition that Tucky high school basketball is famous for.

Jack earned four block letters on the high school gridiron and three in prep basketball. He also starred in American Legion baseball for two seasons.

Mr. Neel has played in 12 games so far this season. His sharp-shooting eye has given him a commendable average of 30% on his attempted field goals.

Jack's driving style of play has sparked the team for four seasons, and his assistance will be missed next year.

as well as being such a great team as a whole.

Majoring in textile engineering, Marvin hopes, if he isn't drafted by the army, to get a job with a machinery company when he graduates from Clemson.

Judging by the way Marvin has been playing basketball this year, there's little doubt he will become one of the real greats of Clemson before he graduates two years hence.

## Clemson Sports World Shocked By "Fix"

Shown above is some of the action that is typical of the hotly contested intramural basketball race in the last few weeks.

## Tiger Football Team Holds Initial Intra-Squad Game

Coach Frank Howard's Tigers climaxed their first two weeks of spring practice with the first intra-squad game of the year last Saturday afternoon.

The Head divided his Bengals into two squads each having both an offensive and defensive team. The scrubs played defensive while the regulars ran the attack.

Frank Kennedy, the most likely candidate for first-string wingback, galloped around end for 60 yards, probably the longest run of the afternoon.

In attempting to find a capable blocking back, Coach Howard used Milton Pate, Doug Herlong, a converted end, and Marion Thompson, a fullback last year, alternately at that post. This doubtful position may not be such a problem to the coaches, since all the men performed like veterans.

The brightest spot in the game was the performance of the team's fullbacks. Jim Shirley showed plenty of power at that slot, but the fact that he would have to

struggle to gain the first string berth was in evidence by the play of Lawrence Gressette and Hank Hankerson.

Buck George, Rock Hill's gift to Clemson, more than fulfilled the expectations of his football ability by his hard-driving running as well as by his passing.

George Withers, a glue fingered end, set some sort of a record in the game by hanging on to 10 of the 10 passes thrown his way.

## Staff Loss To B-1 Being Questioned

By Harold Owen

The Clemson College sports world was blown wide open last night when it was revealed by authoritative sources that the intra-mural game between the staff team and Company B-1 was fixed.

No sooner had the two teams left the court than the tongues of the multitudes who witnessed the contest began to wag. The crowd first began to suspect that something was afoot when ace John James missed his third field goal attempt from mid-court.

Their preceptions were substantiated when Gil "I Got Them Close" Campbell fouled out in 30 seconds instead of his usual time of a minute and a half. The chinker came immediately after the hoax when Harry Dukes was seen lighting a cigarette from a pack belonging to him.

Detectives, working fast under the supervision of sleuth Sam Shovel, and with the aid of blood hounds, cracked the case when all the evidence pointed to big time gamblers Doug Herlong and Gil Rushton.

Prosecution was not pushed when it was revealed that the gamblers lost by a strange quirk of fate. A member of the B-1 contingent in attempting to pass the ball to team mates in the last seconds bounced the ball off the head of John A. Simpson into the staff basket, giving B-1 a lead of only 20 points. The game was supposed to have been lost by 21 markers.

J. Roy Cooper, director of intra-mural sports, was deeply shocked when he learned of the incident. He is quoted as saying, "We will not have intra-mural activity at Clemson until it is played fair or unless I get in on the graft."

Note—The staff team is also being investigated because of suspected violations of the sanity code.

# Tigers Split With Maryland, George Washington

★ ★ ★ ★ ★

Clemson defeated George Washington 82-77 in a Southern Conference basketball tilt at Washington, D. C. Tuesday night to virtually assure themselves a bid in the tourney playoffs at Raleigh in March. Electrical disturbances delayed the receipt of more details of the game.

★ ★ ★ ★ ★

## Baby Tigers Defeat Asheville-Biltmore

Clemson's baby Bengals gained revenge as they overpowered Asheville-Biltmore Junior College in a preliminary tilt at the Clemson Field House last Thursday night by the decisive score of 77-51. The frosh team lost to the North Carolina lads earlier in the season by a 50-49 count. The Tigers gained more confidence in themselves in the third quarter to go ahead and overcome the 29-28 half-time lead that was held by Asheville-Biltmore.

The baby Tig's offensive and defensive work was by far superior to any other game this season. Alternates under the backboard, good guarding and offensive team work were the deciding factors of the Tiger's victory.

Paul Chastain took scoring honors for Clemson as he netted 20 points. Charlie Gage and Cliff Burriss followed with 16 and 13 markers respectively.

Miller led the Tar Heels scoring with 16 points to his credit while Lance trailed with 15.

Gage, Speer and Burriss showed up well defensively for the Tiger team. Clemson's center, Gage, practically monopolized both back boards.

Miller, Knighten and Rice were the defensive standouts for the visitors.

The freshman team has only two remaining games. They travel with the varsity to Columbia to play the Carolina Biddies Friday night, Saturday they go to Charleston to meet the Citadel frosh in a night game.

Carolina's strong freshman squad beat the Tiger frosh earlier in the season to the tune of 77-31. The Bengal freshmen have not played the Citadel youngsters this year.

Scoring:  
Clemson  
Lindsay 1  
Speer 8  
Stamps 2  
Twiddy 1  
Gage 16  
Sease 11  
Hearon 2

Thompson 3  
Knighten 6

## Wildcat Five Drops Baby Tigers 60-45

Clemson's baby Tigers lost to the Davidson junior varsity in a fast moving game played at the Davidson field house last Friday night by a score of 60 to 45. The Tiger cubs had previously downed the Davidson frosh in a home encounter by a score of 62 to 60.

Davidson's junior 'Cats led at the half by a score of 28 to 24. The North Carolinians came back even stronger in the second half to increase their lead over the Clemson boys. Charley Gage led the Tiger cub's scoring column with 15 markers, Hipp followed with 10. Lindsey, Gage, and Burriss stood out defensively for the Tiger quintet.

Melton, Davidson's offensive star, performed brilliantly as he hit the net for 17 tallies. Boyd paced him with 10 points. Melton, Grey, and Adams played good defensive ball for the home game.

Clemson (45). Lindsey 2, Hipp 10, Gage 15, Shane, Chastain 2, Sease 6, Willingham 4, Burriss 6, Davidson (60). Boyd 10, Holt 6, Keith 6, Henley 8, Melton 17, Grey 5, Oigenburg 6, Adams 2.

## Sonny Moorer To Bolster Next Year's Varsity Quintet

By Carroll Moore

Vernon Moorer is fast becoming one of the familiar figures on the Tiger basketball team. Sonny, as he is better known to the students here at Clemson, has proved to be one of the stellar ball players on this year's squad. His aggressiveness in defensive play has made him one of Coach McFadden's best guards. Sonny is team with an average of over eight points per game.

Sonny weighs 175 pounds and is six feet tall. The nineteen year old, sandy-haired sophomore is majoring in architectural engineering.

Sonny graduated from McKinley Tech in Washington where he participated in basketball and football. He played guard on Tech's football and

Two shots of the furious action in last Thursday night's tilt with Wake Forest are shown above. At the left, Doug Haugk is seen adding two markers to the Tiger's total of 57 points. McGraw (42) can be seen under the basket. At the right,

John Snee is pictured as he gets off a field goal attempt over the arms of the Deacon defender. The 57-47 win was victory number eight for the Tigers this year.

# Tigers Defeat Deacons 57-46

## Snee Paces Scorers With 22 Points; Haugk, Moorer Set Defensive Pace

The Clemson Tigers, still hopeful for a berth in the Southern Conference basketball tournament, gained revenge for an earlier loss to Wake Forest by defeating the Deacs, 57-47, in the Field House last Thursday night.

John Snee virtually lifted the Tigers to victory almost single-handedly by sinking 22 points, most of them coming at crucial moments when the Deacons were threatening to take the lead.

The game itself while one of the low scoring variety was one of the better games played at Tiger-town. Both teams played hard with the lead changing eight times in the first half. The Tigers left at intermission leading 22-20.

While the contest was close during the second half the Tigers never relinquished their lead.

Bellett 3, Kotecki 6, Mason 11, McCotter 10, Geary 4, Meuller 2, Brooks 2, Barham, Hartley.  
Clemson -- (57) -- Haugk 10, Townsend, Robinson 4, Hicks 1, MCGraw 3, Richardson 6, Snee 22, Moorer 11, Murray.

## Terps Edge Bengals 54-50 In Extra Period; Moorer, Haugk Top Scorers

The Clemson Tigers lost the first game of a four-gar road trip as they were defeated by the Maryland basketball team, 54-50, in an overtime period at College Park, Md. The Terps outscored the Tigers 5 to 1 in the extra period.

## Emory Tankers Hand Bengals First Loss; White Takes Honors

Emory University handed the Clemson watermen their first defeat of the year as they eked a nine-point victory. The meet was a close one all the way. In fact, had the Tigers taken two more second places, they would have won.

"Chicken Leg" White was high scorer for the locals as he earned firsts in the 100 yard free style, 220 yard free style and swam as the anchor man in the 400 yard relay. Converse was the next in line with eight points. Levis capped scoring honors for Emory.

Today, Coach McHugh and the tankers left for Raleigh, North Carolina, to participate in the Southern Conference meet. This will definitely be the stiffest competition the Tigers will see all season. Some of the conference teams rank high in the nation. Also, some teams boast having contenders for international honors.

SUMMARY:  
300 yard Medley Relay: Emory; McDonohue, Cunningham and Levis. Time, 3:15.  
220 yard Free Style: 1. White, (C); 2. Levis (E); 3. Klinck (C). Time, 2:34.  
50 yard Free Style: 1. Houston (E); 2. Converse (C); 3. Bee (C). Time, 25.1.  
Diving: 1. Rice (E); 2. Jacks (E); 3. Kirkpatrick (C).  
100 yard Free Style: 1. White (C); 2. Levis (E); 3. Houston (E). Time, 58.3.

Julius Townsend sank a free throw with two seconds to go to make it 49 to 49 and send the Bengals into an overtime period.

Sonny Moorer lead the Tigers scoring for the night with 11 counters to tie with the Terp Dick Koffenberger and Don Moran for high point honors. Doug Haugk garnered 13 tallies for the Bengals.

Maryland's Lee Brawley broke the individual high scoring record he set last year on the first goal of the night. He tied his and Maryland's record mark off 347 for the season.

In the extra five minutes, Clemson was limited to one free throw by Marvin Robinson while the Terps gathered two field goals and one free throw for their five points.

Summary:  
Clemson (50)—Haugk 13, Robinson 3, Hicks, Townsend 1, Richardson 7, Snee 10, Moorer 11, Murray 2, Neel.  
Maryland (54) — Brawley 11, Manis, Conley 4, Fellows, Moran 14, Levin 1, Johnson 9, Koffenberger 14.  
Halftime score: Clemson 28, Maryland 31.  
Free throws missed: Richardson 2, Snee 2, Haugk 2, Robinson 4, Moran 5, Johnson 2, Manis, Brawley, Koffenberger, Levin.

200 yard Backstroke: 1. Cunningham (E); 2. Asbury (E); Taylor (C). Time, 2:30.5.  
200 yard Breaststroke: 1. McDonohue (E); 2. Monroe (C); Atkinson (C). Time, 2:41.  
400 yard Free Style: 1. Klinck (C); 2. Levis (E). Time, 5:58.

# WE DARE THEM ALL!

PHILIP MORRIS challenges any other leading brand to suggest this test

HUNDREDS OF THOUSANDS OF SMOKERS, who tried this test, report in signed statements that PHILIP MORRIS IS DEFINITELY LESS IRRITATING, DEFINITELY Milder!

1... Light up a PHILIP MORRIS Just take a puff—DON'T INHALE—and slowly let the smoke come through your nose. Easy, isn't it? And NOW...

2... Light up your present brand Do exactly the same thing—DON'T INHALE. Notice that bite, that sting? Quite a difference from PHILIP MORRIS!

Other brands merely make claims—but PHILIP MORRIS invites you to compare, to judge, to decide for yourself. Try this simple test. We believe that you, too, will agree... PHILIP MORRIS is, indeed, America's FINEST Cigarette!

# Clemson Purchases Stumphouse Tunnel

The picture above was taken at the Cotillion Club Costume Ball, which was held in the Little Gym on Saturday, February 17. The Cotillion Club is composed of Clemson faculty members and their wives.

By Louis Henry

Clemson College recently became sole owner of the historic Stump House Mountain Tunnel, a transportation "dream project," which was begun and abandoned before the Civil War. The purchase of the property, which embraces about ten acres was consummated at a public auction held in Walhalla. Clemson's bid was \$1,201.

The tunnel is located between Walhalla and Mountain Rest in Oconee County and will be used for experiments in the manufacture of blue-mold cheese of the famed Roquefort type. Clemson began experiments before World War II, but abandoned them during the war.

The Stump House Mountain Tunnel was begun in 1853, largely through the efforts of John C. Calhoun. If completed, the railroad line would have penetrated the mountains above Walhalla, connecting South Carolina with Tennessee and the West via Anderson and Augusta where it would have connected with the old Charleston to Hamburg line.

The work on the tunnel was financed by the state and continued for six years. The hard rock was drilled with hand-drills and hammers and was hauled out by hand and with mules. The company made its own blasting powder of potash and charcoal.

One and one-fourth miles of the tunnel were completed before the project was abandoned. The unfinished portion is about 160 feet long. Four shafts were sunk to facilitate work and for ventilation purposes. The deepest of these shafts is said to be 240 feet.

The work was suspended in 1859 because of lack of funds and was never resumed. Numerous attempts were made to arouse interest in the completion of the work. The 1939 South Carolina legislature voted \$5,000 to attract federal authorities' attention to what lawmakers claimed would be a means of connecting

the Middle-West with the South-east by direct rail route.

An estimated \$1,000,000 was spent while the six years' work was in progress on the tunnel.

A town housing about 1,500 people sprang up atop Stump House Mountain when work was begun on the project. The town was peopled mostly by Irish and Italian laborers from the North or directly from their own countries. It had a hotel, boarding house, store, church, and a number of saloons.

Many tales are told of murder caused by human greed and hatred, and a number of deaths occurred from accidents connected with the work.

A young stranger was murdered and robbed on the project. No one knew his name, and he was buried on the spot on which he was killed.

An Irish laborer beat a Mr. Smith from Georgia to death. A trial was held in Pickens, but there was no conviction.

A Mr. Kelley from Laurens lost his footing at the mouth of one of the shafts. In falling, he struck Collins, an Irish laborer, and they were both hurled to death.

Two men were killed by a cave. One was scalded to death by the hoisting engine at the mouth of one of the shafts.

A German laborer, who filled the miners' lamps, was killed when the materials in his refueling box exploded.

Much money, sorrow, and hard work, which seemed to be wasted effort, may yet have a profitable outcome. Clemson agricultural leaders believe that the tunnel process for the manufacture of cheese can be developed so that farmers in this area will receive a new and profitable source of income.

Shown above are the new members of Kappa Phi Kappa, new professional education fraternity, established here on the campus this past week. They are, seated from left to right: Frank A. Peake, National secretary-treasurer of Birmingham, Ala.; Dr. Henry G. Owens, Furman University, Greenville; Dean E. J. Ashbaugh, national president, Miami University, Oxford, Ohio; Dean W. H. Washington, Clemson; Dean Orin F. Crow, University of S. C. Columbia; and J. L. Brock, Industrial Education Department, Clemson. Standing left to right are: B. L. Huguley, Delegate McClintock, Carolina, C. W. Davis, W. S. Carter (chapter secretary), R. K. Simpson ('51), C. B. Ballew (behind Simpson), G. F. Shelton (chapter president), S. E. Askin, J. H. Parker ('50), H. J. Neel, F. O. Wilson, R. H. Shiley (chapter vice-president), J. L. Allen ('48), A. N. Reeves (behind Allen), Glenn Dempsey, John B. Gentry, Jr. (faculty adviser), J. S. Harper, and Delegate Jordan, Furman.

## Travel Club Offers Tours Of Europe

Six comprehensive, all-expense tours of nine European countries are planned by the Students Travel Club for college men and women during the summer vacation period.

Reservations and inquiries are being received by Students Travel Club, 1841 Broadway, New York City. Members, who will be carefully chosen from colleges throughout the United States, will sail from New York in June and July aboard such liners as the R. M. S. Queen Mary, R. M. S. Queen Elizabeth, S. S. Constitution, and the S. S. Washington.

Each of the coeducational groups will be accompanied by a responsible chaperone and an experienced travel guide—speaking the language of each country to

## Fleming Named Cadet Of Week

Cadet M-Sgt. Mills L. Fleming, arts and science junior of Spartanburg, has been designated by the Commandant as the outstanding cadet of the week.

Mr. Fleming was selected because of the efficient and impartial manner in which he has carried out his position in the Cadet Corps, that of regimental sergeant major.

handle all travel details. Guided sightseeing tours will be conducted at all major points of interest, as well as attendance of operas, concerts, music festivals, and theaters.

## Tau Beta Pi Elects Ulmer Vice-President

Furman S. Ulmer, electrical engineering senior of Brunson, was elected vice-president of the Clemson chapter of Tau Beta Pi. The honorary engineering fraternity chose Ulmer at its first meeting of the second semester on Thursday, February 15, to replace the former vice-president, who graduated in February.

Mr. Ulmer became a member of Tau Beta Pi in February of 1950. He is also a member of Phi Kappa Phi and A. I. E. E.

## CLASSIFIED

FOUND—New Clemson ring, class of 1951, in fourth floor latrine of first barracks. Apply TIGER office.

FOUND — Chain containing fourteen keys, all different. These are something new—they all open something. See Wheels, 9-402.

LOST, STRAYED OR STOLEN—On Cemetery Hill, during Mid-Winter weekend, one Tri-Kap rat pin. Call Dear John, 7734.

HELP WANTED—Young man with plastic-surgical experience to do minor repairs on man with fractured face. Apply Mr. Completely, YMCA.

## THE HISTORY OF COTTON TEXTILES

DURING a century and a half of industrial progress, textile manufacturing has seen vast changes take place in its sources of power. Many machines originally were operated by hand. The first successful mills ran by water power, but steam soon became the major driving force. New mills in the South were among the first to use electricity. Today, steam engines and water wheels only supplement the industry's primary motive power, electricity.

PRIOR TO SLATER'S TIME, MILLS WERE RUN BY HAND OR ANIMAL POWER.

NEW ARCHWRIGHT MACHINES INTRODUCED BY SLATER WERE EASILY OPERATED BY WATER POWER.

DURING THE 19TH CENTURY WATER POWER GAVE WAY TO STEAM.

THE FIRST USE OF AN ELECTRIC MOTOR IN COTTON MILL AT COLUMBIA S.C. 1895. A MILESTONE IN TEXTILE INDUSTRIAL F.
