

Concert Series Is Announced For Next Year

Bruce, Wise Nominated For Student Body Head

NOMINATED TO HEAD STUDENTS

Miles Bruce (left) and Pat Wise

Shuford Unopposed For Vice-President; Elections April 21

Two rising seniors were nominated for Clemson's student body president and ten other juniors were named to fill 7 positions on the Senior Council at a meeting held in the College Chapel Tuesday night, April 15.

Miles Bruce, arts and sciences major of Greer, and Pat Wise, Jr., mechanical engineering major of Vancluse, were named to oppose each other in the presidential race.

Gene Shuford, textile manufacturing junior of Forest City, N. C., was unopposed in the nominations and will be the new vice-president of the student body. No write-in ballots will be permitted in the election.

The ten men nominated to the Senior Council included the following: Sam Bookhart, chemistry major of Kingstree; Jim Callahan, electrical engineering major of Atlanta, Ga.; Bill Creighton, textile chemistry major of McCormick; W. J. Gibson, horticulture major of Greer; Tom Gioiosa, architecture major of Bethesda, Md.; and Bob Guyton, mechanical engineering junior of Pelzer.

Also, J. P. Hudson, mechanical engineering major of Decatur, Ga.; A. C. Hutson, pre-med major of Seabrook; Bill Rhodarmar, textile manufacturing major of Canton, N. C.; and E. R. Taylor, horticulture major of Greer.

The elections will be held Monday, April 21. The polls will be open from 8 a. m. until 6 p. m.

The ballots will be tabulated and the results will appear in next week's TIGER.

Baptist Student Union Retreat To Be Held In Anderson, April 18-20

Officers From Twenty-Three Colleges Are Expected to Attend Annual Meet

The annual South Carolina State Baptist Student Union Retreat will be held in Anderson at the First Baptist Church, April 18, 19, 20. Primarily a training conference for the 1952-53 B. S. U. Officers from the twenty-three campuses in South Carolina, the Spring Retreat will begin with a picnic supper on Friday evening and lasting through the worship service on Sunday morning.

Three hundred students are expected to attend. Mr. Doug Turley of The Citadel is president of the South Carolina B. S. U. Baptist students of Anderson and the First Baptist Church will be hosts to the group. Miss Adelle Carlson and Mrs. Mildred Clinkscales of Anderson are serving in charge of arrangements.

The theme for the Retreat is "His Imperative—My Compulsion". The messages and devotional thoughts will develop this theme. Among the outstanding speakers will be Dr. G. Kearney Keegan, Southside Student Secretary from Nashville, Tenn. Dr. Keegan will speak at the Installation Service on Saturday night on the subject "My Compulsion—Reconciliation" and again Sunday morning on "Envoys for Christ".

Dr. Glenn Blackburn, pastor of the Wake Forest Baptist Church and Chaplain of Wake Forest College, N. C., will deliver the address Friday night on "My Compulsion—Devotion" and Saturday morning, "My Compulsion—Preparation". Mr. Riley Munday, student secretary at Mississippi Southern College, Hattiesburg, Miss., will deliver the luncheon message on Saturday afternoon. He will also teach the Junior Sunday School class.

Training Conference will be led by Mr. Harold Cole, State BSU Secretary, Miss Dorothy Sears, Mr. Jim Spangenberg, Mrs. Helen Barry, Mrs. Mildred Clinkscales, Miss May Tindal, Mr. Erwin McDonald, Miss Helen Bolt, Miss Kay Teague, Miss Frances Nicoll, Mr. Leroy Benedict, and Mr. B. F. Loyd. Sunday School teachers will be Mr. Mark Hawthorne, Miss Kay Teague, Mr. Spangenberg, and Mr. Munday.

Students will take an active part in the Retreat program. All music has been planned by Lovey Jo Moore, State Music Chairman and devotionals are under the direction of Mr. Edgar McKnight, State Devotional Vice-President. Other students taking part will be Nancy Pusser, Jerry Dempsey, Roy Easterly, Leneve Thomas, Bobby Brown, Pat White, Carolyn Seay, and those in musical groups from several different schools. Special features of the Retreat

J. J. Lever, Former TIGER Editor, Killed In Accident

James J. Lever, Jr., Class of 1941, was killed April 5 when the automobile in which he was driving alone overturned near Aiken.

While at Clemson Mr. Lever was editor of The TIGER, president of the sophomore class, member of Blue Key and Tiger Brotherhood, an organizer of the Young Democratic Club of Clemson.

After his graduation from Clemson he was associated with the Anderson Independent and Daily Mail.

In 1942 Mr. Lever entered the Air Corps as a private. He was discharged in 1946 with the rank of major, after serving two and one-half years in the India-Burma-China theater.

Following his discharge, he became secretary to Senator Olin D. Johnston, a position he held until ill health forced him to resign. In the summer of 1950, Mr. Lever was a member of the campaign staff of Gov. James F. Byrnes.

In January, 1951, he became South Carolina manager for the Knox Corporation of Georgia, the position he held at the time of his death.

Mr. Lever was a past president of the Anderson Civitan Club, an active member of the Columbia Lodge of Elks, the Veterans of Foreign War, the American Legion, and at the time of his death was president of the Young Democratic clubs of South Carolina.

J. M. Eleazer Honored At Sumter Party

J. M. Eleazer, author of "A Dutch Fork Farm Boy", a recent publication of the University of South Carolina Press, was honored at an autographing party in Sumter on April 15, presented by the Garden Makers Club of Sumter.

Mrs. William Halsey, who did the illustrations for the book, was one of the honor guests. A native of Sumter, she is an artist on the staff of the Gibbs Art Gallery in Charleston.

Mr. Eleazer, who has achieved a national reputation as a writer on rural subjects, is information specialists with Clemson College. He was county agent for Sumter County for 25 years, and his wife was a home demonstration agent.

The University Press displayed an exhibit showing the progress of Mr. Eleazer's book from the manuscript to the completed volume. Included were the original drawings for the illustrations used in the book.

Plans Being Made For Annual Junior-Senior Banquet, April 27

Plans are now being made for the annual Junior-Senior banquet which will be held in the College Dining Hall May 9.

Seniors will begin signing up for tables Thursday, April 17, immediately following supper, according to information released today by Thomas Ekw, president of the junior class.

Signings will take place in the Student Government Office, located near the Guard Room.

Juniors will begin signing up the following Thursday, April 24. The fee for juniors, seniors who have not attended before, and seniors who will be attending their third supper banquet, is \$3.00.

Sam Bookhart is chairman of the seating committee. There will be no special tables.

Six Members Of Student Government To Attend State Meet

Six members of Clemson's Student Government Association will attend a meeting of the South Carolina Association of Student Governments to be held in Columbia on April 24 and 25.

Those men from Clemson who are eligible to make the trip are Harry Lightsey, president of the student body; Ray Bell, vice-president; Jim Key, secretary; J. K. Alexander, chairman of the senior council; Gene Shuford, speaker of the student assembly; A. K. Bowman, member of the student assembly; and the president-elect of the student body.

This will mark the first such convention held in the state. The association was formed from a joint idea of Clemson and the University of South Carolina.

The University called the first convention and will be the host school. Clemson is now writing a history of the association's initial year of existence.

Governor James F. Byrnes has been asked to address the delegates.

Furman Singers Program Postponed

The Furman Singers Concert, originally scheduled for April 22, has been postponed.

Efforts are being made to schedule the concert at a later date.

Fiber Society, Inc., Holds Two-Day Meeting At Clemson House April 15-16

Physicists, chemists, engineers, and technologists from all over the country engaged in work with textile fibers opened a two-day conference in the Clemson House on Tuesday afternoon, April 15. The Governing Council, executive body of the Fiber Society, Incorporated, held a session and registration took place. Those members of the Fiber Society registering early were on hand for an informal discussion on "Problems of Microbiologically Damaged Cotton."

Formal sessions of the Fiber Society conference began Wednesday morning in the auditorium of the Clemson textile school at 9 o'clock with a welcome by Dr. Robert F. Poole, president of the college, and Dr. Hugh M. Brown, dean of textiles.

P. B. Marsh, T. Kerr, and H. D. Barker of the United States Department of Agriculture discussed "Changes in Cotton Resulting from Micro-organisms and Weathering."

Two representatives from the Celanese Corporation of America, F. Nistico and B. S. Sprague, followed with findings on "A Modified Viviani Tester for the Continuous Measurement of Yarn Denier."

Later in the morning, "Tactical and Instrumental Ranking of Softeners on Starched and Unstarched Cottons" was discussed by C. R. Stock and A. Hvizdak of the American Cyanamid Company.

The Institute of Technical Technology then contributed a paper on the "Response of Cotton Fibers to Very High Compression," and "High Compression Tests of Textile Fibers" was discussed by H. J. Kolb, F. W. Billmeyer, W. F. Busse, and H. E. Stanley of Dupont.

After lunch delegates to the

Senior Day Be Held On Tuesday, May 6

Senior Day will be held, it was learned recently, when Dr. R. F. Poole, president of Clemson, approved a series of recommendations submitted to him by a committee of seniors.

John Stanley Heads YMCA Cabinet, Other Members Selected

The newly-elected officers of the YMCA Cabinet for 1952-53 are: President, John Stanley, dairying junior of Conway; vice-president, Lee Bivins, animal husbandry junior of Atlanta, Georgia; and recording secretary, Thornwell Dunlap, dairying junior of Clinton.

Other recently selected members of the Cabinet were: William Shuler, agricultural engineering senior of Sumter; Jimmy Sams, civil engineering sophomore of Clemson; Jack Sherer, agricultural engineering sophomore of Columbia; Jerry Dempsey, mechanical engineering sophomore of Drayton, North Carolina; Mack Branham, education junior of Columbia; Bobby Squires, agronomy sophomore of Aynor; Bill Hughes, mechanical engineering junior of Aiken; Philip Porcher, arts and sciences sophomore of Mount Pleasant; Jerry Hammett, animal husbandry sophomore of Kingstree; Jim Callahan, electrical engineering junior of Atlanta; Chester Wilson, animal husbandry senior of Columbia.

Also, Joe O'Cain, vocational agricultural education sophomore of Orangeburg; Frank Byrd, textile manufacturing sophomore of Kingsport, Tennessee; Joe Lindsay, pre-medicine sophomore of Clemson; Robert Tinsley, animal husbandry sophomore of Laurens; Herbert Corbitt, vocational agricultural education sophomore of St. Matthews; Dick Buckles, animal husbandry senior of Kingstree; Lamar Neville, arts and sciences sophomore of Newberry; and Robert Hollingsworth, animal husbandry junior of Cross Hill.

There new cabinet men and officers will be installed at the Vespers services at the YMCA next Sunday, April 20. Mr. Ralph Frost, general secretary of the YMCA at the University of Tennessee, will conduct the installation services.

The Vespers program will be presented by a deputation of students from the University of Tennessee.

J. F. McLaurin Is President Of Cotton Ginners

J. Franklin McLaurin, a graduate of Clemson in the class of 1922 and a member of the board of trustees of the college, was elected president of the National Cotton Ginners Association at the recent meeting in Dallas, Texas. Mr. McLaurin has served for the past two years as president of the Carolinas Ginners Association.

Mr. McLaurin is chairman of the South Carolina unit of the National Cotton Council and a delegate member of the national organization. He is also a member of various and sundry committees in several cotton organizations.

The National Cotton Ginners Association, of which he has just been made head, comprises cotton producing states from California to the Carolinas.

conference were given the choice of a tour through textile facilities at Clemson, a tour of textile plants in the vicinity of the college, or more discussion on testing fibers.

A social hour was held at 6:30 p. m. in the Tiger Tavern followed by a banquet in the Sabre Room at the Clemson House. J. C. Goldberg of the Research Division of J. P. Stevens and Company was the master of ceremonies and R. T. Kropf, vice-president and director of research of Belding Hemingway Company, Incorporated, spoke on "Objective Objectives."

The day will begin at noon on Tuesday, May 6, and will end at noon the following day.

Tuesday night Harry Lightsey, president of the student body, reported the recommendations of the committee, which was appointed at a senior class meeting Tuesday, April 8.

The committee, as a whole, was named for the purpose of drawing up a set of rules and regulations governing the conduct of the seniors. Composed of all club presidents in the senior class, the committee was also divided into sub-committees, which are now working out details concerning games, food, dance, and publicity.

Competition For Trustee Medal Be Held April 28

The Department of English at Clemson has announced that competition for the Trustees' Medal will be held in the Chemistry Lecture Room on Monday, April 28, at 7 p. m.

The Trustees' Medal, given since the earliest days of the college to the best speaker in the competition, is the oldest and one of the most distinguished awards offered by the college.

An elimination procedure to narrow the final contest to the five best candidates will be arranged after all entries are made. The finalists will deliver their speeches before the assembled sections of English 301, Public Speaking, on April 28, and classes in English 301 will be suspended on Friday and Saturday, May 2 and 3. Students in English 301 have been notified that they are expected to be present and that attendance will be checked.

The following rules were announced by Professor H. M. Cox, head of the English Department:

Any full-time student is eligible to enter.

Each entrant must notify Professor Cox of his intention to compete, not later than Monday, April 21.

The speech must not exceed twelve minutes in duration and must be the original composition of the speaker. He may choose any subject he wishes.

Students interested in entering the contest may get further information directly from Professor Cox in Room 27 Main or from their English 301 instructors.

Baptist Students Elect Officers, Bivins Is President

Officers recently elected to serve on next year's council of the Baptist Student Union are: President, Lee Bivins of Atlanta, Georgia; enlistment vice-president, Frank Abercrombie of Taylors; social vice-president, Chester Wilson of Clemson; devotional vice-president, Reaves McCall of Hartsville; secretary, Bob Froelich of Allendale, New Jersey; treasurer, Roy McCall of Hartsville.

Also, Sunday school superintendent, Bart Taylor of Lancaster; Training Union director, Jerry Dempsey of Drayton; publicity chairman, Charles Meiburg of Clemson; promotions chairman, Carrol Smith of Travelers Rest; extension chairman, Bill Hughes of Aiken; music chairman, Hoyt Hardee of Loris; Christian action chairman, Bill Shuler of Sumter; editor and poster chairman, Bruce Parrish of Central.

Chosen presidents of the Baptist Training Union, which meets on Wednesday nights were George Buck of Columbia, Joseph Lee of Landrum, Bobby Squires of Aynor, Carl Martin of Elloree, Fletcher Derrick of Johnston, Moodye Clary of Charleston, A. G. Dempsey of Drayton, and Frank Byrd of Kingsport, Tennessee.

Elected president of the Training Union which meets on Sunday nights was Emory Washington of Clemson.

Philadelphia Symphony Tops 6 Attractions

Roberta Peters To Open Series Oct. 15

Six of the top musical attractions on tour next season will appear on the 1952-1953 Clemson College Concert Series, it was announced Tuesday by G. E. Metz, chairman of the concert committee.

They include Roberta Peters, coloratura soprano; the Marine Band; the American Savoyards; the Robert Shaw Choral; the Philadelphia Orchestra; and Alexander Brailowsky, pianist.

One thousand season tickets at six dollars each have been made available to the general public for the coming season. They can be ordered from the President's Office, Clemson College. As usual a limited number of single admission tickets will be on sale to reach concert but they will cost twice as much as concerts attended on a season ticket. All performances will be given in the Clemson Field House.

The 1952-53 series will open on October 15 with the appearance of Roberta Peters, beautiful young coloratura soprano who is the newest sensation of New York's Metropolitan Opera. The twenty-two year old singer has made additional triumphs on radio and television since her debut at the Metropolitan in 1950. Last year she was chosen by Sir Thomas Beecham of the London Royal Philharmonic to sing at the Festival of Britain.

The Marine Band conducted by Lt. Colonel William F. Santelmann will give two performances at Clemson on Armistice Day, November 11. To accommodate the large number of people wishing to hear this attraction a matinee and an evening concert have been scheduled.

Called the "President's Own", this 85 piece band plays on many official occasions in Washington of which one of the latest was the visit of Queen Juliana of The Netherlands. Dating back to the Revolutionary War, it has played for every president since George Washington under the leadership of several outstanding conductors including John Philip Sousa.

A performance of Gilbert and Sullivan's operetta "Patience" will be given by the American Savoyards, sponsored by Charles L. Wagner, America's impresario of the traveling opera, have been acclaimed by the hard-to-please critics of some of New York's biggest newspapers and magazines.

On February 20 the Philadelphia Orchestra, conducted by Eugene Ormandy, will make one of its few stops in the South at the college. This orchestra, noted for its technical perfection and luster, is playing a return engagement at Clemson after a memorable performance here in 1949.

The series will be brought to a close on March 5 with a performance by Alexander Brailowsky, the pianist who has been called the "Heir to Chopin". He holds the world's box office record for pianists with his Chopin cycle, a series of performances during which he played all of the composer's published works. He is also noted for his interpretation of Beethoven and Schumann.

Lecture Series Postponed 'Til Fall Semester

The first in a series of lectures sponsored by the Clemson chapter of Blue Key will not be held tonight as originally scheduled. Dr. G. Watts Cunningham, former dean of the Cornell Graduate School was to have been the speaker.

The series will begin next fall.

Workers Needed For TIGER

All students interested in working on the news staff of The Tiger are requested to be at the Tiger office either tonight or tomorrow night at 7:30.

The Tiger office is located on the parking lot below Third Barracks.

College Graduates Found In Country's Top Posts

Some 2,500,000 young people—about one out of six between the ages of 18 and 21—in the United States have been attending college. And the college students represent a bewildering array of people—"the Greasy Grind, the All-round Student, the Big Man on Campus, the Student Who Just Sat There; the Protestant, the Catholic, and the Jew; a smattering of Negroes and members of other races; the wealthy students and those who worked their way."

"They Went to College," recently published book based on a survey sponsored by TIME magazine and analyzed by the Columbia University Bureau of Applied Social Research, reveals some startling new facts about college educated men and women.

The survey indicates that a college degree pays off. The college men surveyed had median earnings of \$4,689 in 1947, as compared to the \$2,200 median income of all American men in the same year. The college man makes more in the first year after graduation than the average man does at his peak. The first year graduate median is \$3,537; the average man's median is \$2,845. Graduates over 50 make about three times as much as the non-graduate.

In answer to the question, "Would you say that your college courses have helped a lot, helped some, or none in your present occupation," 70% felt that they had helped a lot, and only 2% said they had not helped at all.

When the graduates were asked to rate their education in more general terms, they still expressed satisfaction with their college courses. If they had it to do over again, 98% would go to college, 84% would choose the same college, and 14% would again go to college but would select a different institution. The majority would repeat their major.

About 71% of the graduates questioned worked their way through college, either wholly or partly. But the figures regarding income show that graduates who had to earn their college expenses have lower incomes than do those who were supported during college.

The survey and the subsequent book will be of interest and benefit to college graduates, educators, college students, potential college students, and parents. College graduates will get a portrait of themselves; college students may get a glimpse of what is to come. Educators will discover how their graduates made out and what the graduates think is wrong with the colleges they attended and the courses they took. Potential college students and their parents will be aided in trying to decide whether a college education is worthwhile.

The survey indicates that the graduates almost unanimously agreed that they were wise to attend college.

We may take the survey as "advice" and continue to work until we reach the high place of "college graduates."

Need For Auditorium

Someone has again written of the crying need of an auditorium for Clemson. The following letter addressed to Colonel Anderson appeared in the Anderson Daily Mail last Saturday:

"Clemson College is such a fine institution, and is rendering such a great service to the people of the state, and especially to the thousands of students, that I am wondering why something cannot be done about getting an auditorium of adequate proportions for the campus.

"The field house, which has been used for all of these years, is inadequate in so many respects.

"In the first place, the surroundings are not conducive to the enjoyment of artistic entertainment.

"I have recently attended an event at the beautiful auditorium on the Bob Jones University campus and two nights later at the Clemson field house.

"It was certainly a let-down, and it did not reflect credit on the college.

"If a private institution such as Bob Jones can finance a splendid structure, I can't see why Clemson cannot do the same thing.

"I am wondering if a really effective campaign, well organized, and put on by alumni chapters over the nation, could not raise the funds needed for a Memorial Chapel on the campus.

"Clemson is a half century old now. Many of its alumni have become moderately wealthy and surely many feel a debt to their alma mater.

"This would be a wonderful project to honor the college's heroic dead, and to provide the institution with this badly needed facility."

M. R. J.

S C Loses Great Leader

Clemson and South Carolina have lost one of their best friends and one of their most promising potential leaders in the tragic death of Jimmy Lever.

His leadership was exerted at Clemson when he served as president of the sophomore class, editor of The TIGER, member of Blue Key and The Tiger Brotherhood, and as an organizer of the Young Democratic Club of Clemson.

Following his graduation he served brilliantly as a newspaperman, soldier, political aide, and housing official. His leadership ability was shown by his rise from the rank of private to that of major in four years.

Every phase of Jimmy Lever's career was devoted to service for others.

Leaders throughout the state and nation were high in their praise of his character, ability, and personality. Sen. Burnett R. Maybank said, "... I always appreciated so much, knowing as I do, how much he did in the housing field to benefit so many by assisting them to become home owners ... South Carolina has lost one of its most promising young men, and I have lost a devoted friend."

State Senator Edgar A. Brown said, "... With his brilliant mind, sparkling personality, and boundless energy, his future was unlimited ..."

State Senator William P. Baskin said, "... In the passing of James J. Lever, Jr., the state of South Carolina has lost a fine young Southern gentleman. Mr. Lever was a man of ability, integrity, and sincerity ..."

TALK OF TOWN

Accidents Under Pre-Fab Creates Some Interest

By "DOC" BAKER

HOLD IT!

One of the married students living in a pre-fab suffered from a mild case of embarrassment shortly before the holidays when he returned home to find a strange automobile parked under his house.

It appears that a professor was visiting another professor; his parked car rolled downhill, went off the street and crashed under the house. Fortunately, the teacher's eleven months old baby, who was sleeping in the runway auto, was not even scratched.

The damage was reportedly \$500 to the car and \$100 to the house. By charging admission to the crowds who drove by to witness the freak happening, the money could have been more than accounted for. —

SOME HEADQUARTERS

During the Easter vacation, a friend and I had the pleasure of seeing Washington while the famous cherry trees were in full bloom. Also, we viewed the Defense Department's mammoth Pentagon building.

Both of us were curious as to the size, number of workers and cost. They say taxi drivers know everything; consequently, we grilled one for his knowledge on the structure. He told us that the cost was estimated to be fifteen million dollars and finished at eighty-four millions.

Also, that the five-story monster covered 38 acres and had seventeen miles of corridors. This same "hack-driver" informed us that slightly more than 32,000 (yes, thirty-two thousand) men and women worked in the building.

If his figures on the employees are correct, this one building, as a population, would be in South Carolinas ten largest cities.

To those of you entering the service, this is a chauffeur's analysis of your headquarters' headquarters.

NO INFERENCE

In THE TIGER on January 17, this column remarked about visiting girls' absence after concert intermissions. Some students at one of the visiting institutions, along with one of the school's officials, gathered I was throwing a direct accusation at them. This was not the case and their reaction was purely a hypothetical one.

An unofficial report from one of the concert series' workers states that there are at least six different schools which have visitors to some of these events. They come by public conveyors, private and chartered buses and automobiles. Some

have season tickets while others purchase tickets for the individual performances.

I don't know who the missing listeners were, nor do I know where they were from; however, several were away from the auditorium (?) for the second half. In the face of these generalities, coupled with a general statement I do not see how anyone could have derived a personal supposition.

MORE PROGRESS

The library's browsing room has a new addition for music lovers. Through the efforts of the music department, electronics department and the library committee, four new turntables, equipped with earphones, have been acquired.

This seemingly simple event has much behind it. It provides for those students taking Music Appreciation courses to carry out listening assignments. At the same time, other students can listen to records for personal pleasure. Since the volume by-passes a speaker and enters the headphones, a person sitting next to the turntables will not be disturbed by any noise.

Had this equipment been purchased outright, the cost would have been more than twice what it was. However, by buying the parts and having interested, qualified students voluntarily assembling them, the expense was greatly reduced.

Then, the cooperation extended by the library committee places all of these facilities to the students' access in a centrally located, convenient place. Furthermore, by working out a few minor details, they have eliminated any excessive work or hardship on the part of any one individual.

This progress may not be a milestone in Clemson's history, but it is certainly a well-founded stepping stone toward offering students a broader education and better recreation.

Everyone concerned with this addition is to be congratulated. It is something that has been sorely needed for a long time.

VOTE OR BE QUIET

Next Tuesday, student government officers for the coming year will be elected. This year, as in the past, there is evidence of some machine politicians trying to shove in a few glory-happy individuals. The only way to prevent this is for everyone to turn out and cast a ballot.

If there are those of you who don't have enough initiative to make your choice, you have absolutely no right to gripe when "rotten apples" get in the barrel.

Gags From Other College Rags

By Rembert Stokes

Give the guys a five day holiday and they all come back with Woolworth sustans ... you know, five and ten.

"Ish thish Spruce, tree-tree-tree?" inquired the drunk on the phone.

"No, this is Walnut, fir-fir-fir," came the reply.

"Sorry, wrong lumber," replied the drunk.

Then there was the deaf and dumb man who fell into the well and broke three fingers screaming for help.

Cadet to Date: I wonder why the popular guys always get the prettiest girls?

Date: Why, you conceited thing.

First lawyer: "As soon as I realized it was crooked business, I got out."

Second lawyer: "How much?"

The little child was sitting demurely on the couch watching her mother smoking a cigarette. Her little nose was wrinkled and in her pale blue eyes there was an expression of childish disillusionment. Finally, unable to stand it any longer, she burst out in her quavering falsetto: "Moth-

He bought her a new sweater and then tried to talk her out of it.

Seriously, I want to add a word of congratulation to the many who kept the spirit of Clemson burning brightly during the blood drive. And for those who could have given and didn't, a poem.

A soldier lies in pain. Give us your blood, lest sleepless nights,

Your conscience linger nigh, Whispering to you, small, smug heart,

"Why did you let him die?"

Review of Truman's Plan For Seizure of Steel Plants

By Forrest E. Cookson, Jr.

Last Tuesday Mr. Truman took the steel situation by the horns and threw it into the air with a mighty gusto. Ever since the government seized the steel industry at midnight on the eighth of April, there has been much discussion of the many aspects of the whole problem.

First, there has been confusion over exactly what the labor, management, and government point of view is in regard to the wages of the steel workers and the price of the steel. Second, there has been much talk of whether the President had the constitutional right to seize the steel industry.

Let us examine both of these questions and see what has actually happened and on exactly what parts of the Constitution the President based his seizure right.

The steel worker had got his first raise in pay on December 30, 1950. The CIO United Steel Workers then had a one-year contract with the steel companies. As this contract began to expire, talks were begun to agree on a new contract.

Labor wanted considerable increases in wages. To off-set these wage increases, the steel companies wanted a corresponding raise in the price of steel. And here is where the government ran into trouble. They did not want to raise the price of steel; the steel companies on the other hand said, either raise the price of steel or we will not give the union what it wants.

To go off the track for a moment and explain the government set up. Under the Mobilization Act the President has two boards under him: The Wage Stabilization Board and the Office of Price Stabilization. When the going got rough in the steel dispute, the problem was turned over to the Wage Stabilization Board.

This Board considered the problem and came up with some recommendations for settlement which the Unions accepted and the Companies turned down. The Companies then offered proposals of their own which were turned down by the Unions. This was the situation when the President stepped in and took over the mills just before the strikes were about to begin.

Let us now look at the argument of the Unions. They said that they had not gotten a wage increase for over a year. The average wage rate in steel is \$1.88 whereas for autos it is \$1.99 and for coal it is \$2.42.

Furthermore the cost of living has gone up and so the steel worker can not buy as much now as he could in 1951. So the steel worker must have a raise in pay. With this everyone agrees. The hitch is how much should this raise be and should it be accompanied with a corresponding raise in the price of steel.

Management said that although the steel worker needed a raise in pay, the government must allow the companies to raise the price of steel in order to pay for this increased working expense. At the same time there was no agreement over what the amount of the wage raise should be.

Now, the whole problem was handed over to the Wage Stabilization Board. The Wage Board recommended that: There be wage increases of 12.5 cents an hour back to Jan. 1, 1952; to this was to be added 2.5 cents an hour after July 1, 1952; and 2.5 cents next Jan. 1; also 3.5 cents in fringe benefits (such as holidays, etc.); the union shop (workers have to join union after being hired). Labor backed these proposals and fully accepted them as a basis for settlement.

In answer to this the steel companies said that they must have a price increase of \$12 a ton. This was to cover the increased expenditure which the steel companies must make. The present profits of the companies are too low to absorb the increase in wages without a corresponding increase in price.

The government says that this is wrong, and that the companies can absorb a wage increase in their profits. This is the way they figure this. Under the O. P. S. rule a company can only raise its price if the profits before taxes are less than 85% of the average profit for the best years 1946-1949. In the steel industry the profit level is 200% of that of the base years.

In reply, the steel industry says that the important thing here is that profits should be figured after taxes have been allowed for. And, of course, because the tax rates vary from year to year, this is a very good point. So here is where the settlement broke down. Furthermore the steel industry stands only twenty-seventh in the top forty-five industries in relative profits after taxes have been taken out.

Here, the whole problem seems to revolve around whether the profits should be calculated before or after taxation. There are strong arguments for both as I have outlined above. In this maze of figures we must remember that taxes are as much a part of operating expense as labor. They are sure to be there year after year and they can be depended upon to be an expenditure. So that we should really think of profits as that which the corporation makes after the payment of all overhead. Thus I agree with the industry point of view that profits should be figured after taxes and from this point the steel industry deserves a price raise.

To sum up the economic phase of the steel dispute, it is hardly fair for the government to give the Unions a wage boost without a corresponding price increase. Eventually the government will do just that, and until they do there can hardly be any solution to the problem.

Now look at the seizure action of the President. There are two points of view on this matter: Industry says that the President could not do it. The President says that he could.

The steel companies say that if we allow the President to take action like this without specific congressional approval, that we are heading towards socialism. If the President can take over an industry any time that he chooses then why could he not take them over for good and throw private enterprise? This seems a little exaggerated since all government seizure is a temporary matter.

What are the President's powers that should enable him to seize any industry? Mr. Truman has said that the present situation is a national emergency. So in this emergency he can take action which he considers is in the public welfare. Remember in the Constitution the President takes an oath that he will defend the Constitution and live up to its principles. In this same document there is a phrase "provide for the common welfare." This is one of the things that the President is pledged to support. And certainly with the situation being the way it is today in the world, it is providing for the common welfare for the President to insure that there is continued production of steel.

The Tiger

"He Roars For Clemson A & M"

Member of Intercollegiate Press and Associated Collegiate Press

Founded by the Class of 1907 and published weekly during the school year by the students of Clemson College.

THE TIGER is South Carolina's oldest college newspaper. Its claim, "The South's Most Interesting College Newspaper," is based on circulation, comments, and general attitude of those who read it.

Cadets Voted to Make Clemson Permanently Dry 20 Years Ago

Delegation From Tennessee To Present Program

Included in the group from the University of Tennessee which is to present the vesper program at Clemson YMCA on Sunday, April 20, will be Miss Betty Bell, President of the YWCA, Miss Patricia Mann, Chairman of the Program Committee, and Mr. George Regas, President of the YMCA, Tom Walker, president elect of the YMCA and Hart Brown, member of the Cabinet. The group will be accompanied by Mr. Ralph Frost, Executive Secretary of the YMCA.

The group will meet for a picnic supper Saturday afternoon. Following this there will be some discussions of the work that is being done by both the YMCA and YWCA in both schools. Also additional suggestions will be given concerning work that is being done in some other colleges and universities, especially work that is of a very significant nature. The group will be guests for a dance and social sponsored by the Social Committee of the 'Y' Cabinet and the Intramural Council. Sunday morning the UT students will be invited to attend different Sunday school classes and church services. Sunday afternoon will be devoted to visiting some places of interest in and around the college. The Vesper program will be given at 6:00 Sunday night.

Installation of the new officers will also be held—John Stanley of Conway, President; Vice-President, Lee Bivins of Atlanta; Secretary, Thornwell Dunlap of Clinton plus the other cabinet members that are listed elsewhere in this issue of *THE TIGER*. The public is cordially invited to attend this Vesper service. In addition to the regular program several news and travel reels will be shown.

Clemson students visited the University of Tennessee recently where they presented the Vesper program and also had opportunity to meet with some UT students who will not have the opportunity to make the trip to Clemson. In addition to visiting a number of buildings and places of interest at the University, the Clemson group were guests for a picnic at Norris Dam which, in itself, was a very educational experience for many of the students who had not visited this tremendous reservoir and power generating plant.

It is anticipated that the Tennessee group will be interested in seeing the mess hall, the Clemson House, the Calhoun Mansion, the Chemistry Building, the Library Building, and various departments of the School of Agriculture.

Professor Campbell Attending Meeting

Thomas A. Campbell, Jr. of the Clemson Textile School, associate professor, Textile Management Department, is attending the Southeastern Regional Cost Conference, being held at the Ansley Hotel in Atlanta, Georgia.

By Tommy Matthews

Have you ever read any of the old editions of *THE TIGER* on file in the library? You ought to try it sometime. They give a good indication of what life used to be like at Clemson.

For instance, in the edition dated April 27, 1932, there appeared an interesting article on drinking at this institution.

Boy, if you Senior Council members think we have a drinking problem here now, just read this:

CLEMSON WILL BE PERMANENTLY DRY
In almost story-book fashion, a magnificent expression of loyalty was demonstrated by the cadet corps in the college chapel Thurs-

E. E. Jones Named Chairman SAE Club

E. E. Jones, mechanical engineering major from Savannah, Georgia, was elected chairman of the Clemson SAE Club for next year in an election held Tuesday night. J. W. Jackson, textile engineering major from Greenville was elected to fill the office of vice chairman. C. D. McCown, mechanical engineering major from Effingham was elected secretary and Charles Whitaker, mechanical engineering major from Union, will be the club treasurer.

The newly organized SAE Club was formed last year. At the present time a petition for the granting of a charter is being considered by the SAE Council in New York. If the SAE Council grants a charter at this time it will elevate the club to the rank of SAE Student Branch. In order to meet the requirements for chartering, a program of technical activities must be followed and in order to comply with this qualification the club has made two field trips—one to the LeTourneau plant and another to the Buck-Pontiac-Oldsmobile assembly plant near Atlanta.

In addition to this, color motion pictures on Boeing's Gas Turbine and McDonnell's Navy Phantom have been shown and for the May 6th meeting, the last meeting of the year, a speaker has been secured. Mr. P. V. Toffoli, of the Pure Oil Company, will address the group at that time.

The outgoing officers are: John H. Creighton, chairman; D. B. Salley, vice chairman; R. F. Brunson, secretary; and H. B. Rawls, treasurer. Professor A. D. Lewis is the faculty advisor for the club.

S.C. Historical Asso. Meets In Greenwood; Six Professors Attend

Six members of the arts and sciences department attended the South Carolina Historical Association, held in Greenwood, April 5.

Those attending were: C. L. Epting, E. M. Lander, R. S. Lambert, W. E. Webb, C. H. Carpenter, and J. E. Tuttle.

Letters To Tom Clemson

Columbia, S. C.
April 13, 1952

Dear Tom,

Sorry, old fellow, this isn't my idea. I'm as sorry as you or anyone else about this strike we telegraph workers went out on. Please try to understand it was not my idea. Personally, I was always satisfied and tried to tell "the troops" every day. Now I'm trying to "get it across" to you and other of their friends.

You, the administration, faculty, townsfolk, business people, mills, shops, and students, in fact everybody has been swell to me there and I miss you every day and want to get back and give you and your people as near the kind of telegraph service you could expect at any place.

When I was called by my boss at Atlanta, Ga., last Sunday to report here, I pled with him to let me open my office instead, but he said they felt the larger offices as well as defense and military camps should be started first and wanted me to rush here and open this office, which I did. So far not a single regularly employed person at this office has returned to work, just men from the small offices like my Clemson town are running this office trying to get them back so we can return to our own places because we miss our home towns, and I hope everyone at home can understand what I am trying to do—give the people of Clemson the kind of telegraph service they have a right to expect.

When I left home, just one office in South Carolina was open—Greenville. Now we have 38 open in South Carolina.

I am glad I had a part in getting the Columbia office open so we can handle telegraphs for the Capitol City, University of South Carolina, Jake Penland, and other bitter enemies of the Tigers. Hope this will bring us a little bit closer to each other—Clemson and Carolina.

Again, please try to understand my predicament and I'll be back as soon as I can possibly be there, because I miss Clemson people lots, and hope they will continue to patronize me in the future as in the past.

Sincerely,

O. W. "Glad Tidings" Deason

J. Paul Sheedy* Switched to Wildroot Cream-Oil Because He Flunked The Finger-Nail Test

PAUL was having a sand-wich at the Dromedary-Bar when his roommate said: "Sheedy, every co-ed sphinx your hair's ugly! Your camel's hair coat won't pass the Finger-Nail Test! Therefore, if you fig-ger to get any dates, I humbly beseech you to try Wildroot Cream-Oil! Contains soothing Lanolin. Non-alcoholic. Relieves annoying dryness. Removes loose, ugly dandruff. Grooms hair neatly and naturally all day long. It's your hair's best friend!" Sheedy got Wildroot Cream-Oil and now his hair-a looks terrific! Better desert water, pyramid your savings up to 29¢ and dry-ve to any drug or toilet goods counter for a bottle or tube of Wildroot Cream-Oil, America's biggest-selling hair tonic! Ask for it on your hair at the barber shop, too. You'll really be done yourself a favor!

Textile Chemists And Colorists Will Meet At Clemson April 26

The Piedmont section of the National Association of Textile Chemists and Colorists will hold its spring meeting at Clemson College on April 26.

Two business sessions, a luncheon, and a banquet make up a full program for the day. Dr. Harley Y. Jennings, of Dan River Mills, Danville, Virginia, will preside over a research committee meeting at 10 a. m.

D. D. Gagliardi of the Warwick Chemical Company will speak at a technical session at 3 p. m., following a luncheon for officers of the Piedmont section.

The section's annual contest between textile students at Clemson, North Carolina State, and Georgia Tech will be held during the afternoon. Students from these three schools will give their papers. The winners will receive prizes and trips to the national association meeting at Boston next fall.

The banquet speaker will be George McElroy, manager of the new Owens-Corning Fiberglass plant at Anderson.

Campus Interviews on Cigarette Tests

No. 39...THE FLYCATCHER

"THEY HAD ME BACKED UP TO THE WALL!"

He's fast—he's smart—he covers ground—he's a real varsity outfielder! The 'quick-trick' cigarette mildness tests were almost too hot to handle, but he didn't make an error. He realized that cigarette mildness can't be judged in slam-bang fashion. Millions of smokers throughout America know, too, there's a thorough way to judge cigarette mildness!

It's the sensible test...the 30-Day Camel Mildness Test, which simply asks you to try Camels on a day-after-day, pack-after-pack basis. No snap judgments! Once you've tried Camels for 30 days in your "T-Zone" (T for Throat, T for Taste), you'll see why...

After all the Mildness Tests...

Camel leads all other brands by billions

Tigers Lose To Wake Forest For Sixth Loss In A Row

Lose to Davidson, Duke and Wake Forest On N. C. Road Trip

After marking up their third win of the season over South Carolina last April 4, with Billy O'Dell's beautiful pitching performance, the Clemson Tiger baseball team has seemed to hit a streak of hard luck as they have dropped their last six games in succession.

In Clemson's 5-2 victory over the Gamecocks, Billy O'Dell displayed a style of pitching that will long be remembered down Carolina way. Bill struck out a total of 21 Carolina batters and allowed only 4 hits. The following day, The Carolina team gained revenge over the Tigers as they handed the Tigs a 6-4 licking by way of a 6 run outburst in the sixth inning. Baker was the losing pitcher.

In the Clemson-Wake Forest two game series, the Deacons displayed one of the heaviest hitting powers the Tigers have yet faced. Wake Forest collected a total of 14 hits to account for their 12-5 drubbing they handed the Bengals in their first meeting. Bill Brooks, Deacon catcher, led the hitting for the visitors as he collected a homer and two singles in four times at bat, driving in four runs for the N. C. lads. Knoebel and Jimmy Evans led the Tigers' hitting as they collected three hits each. Woodlief gained credit for the win for Wake Forest while Crosland was charged with the loss.

In the second game of the series, the Deacons and Tigers met in a slugfest battle which ended with the Deacons on top by the score of 16-14. The lead changed hands six times before the Wake Forest team clinched the victory in the ninth inning as they scored three runs off three walks, two hits and a sacrifice.

Knooby Knoebel and Wyman Morris led the hitting attack for the Tigers as they collected three hits each in six times at bat. First baseman, Bob Smith led the batting for the Deacons as he batted out four hits in five trips to the plate. Lynch received credit for the win. Dempsey was charged with the loss.

N. C. TRIP

The Tigers dropped their fourth game in a row as they were bested by the Davidson Wildcats by the score of 4-3 in a game that displayed good pitching and clutch hitting by the Davidson team as they gained revenge of the Tigers for the 21-6 licking they handed them earlier in the season.

J. C. Hicks went the route for the Bengals and allowed but 7 safeties; however, Clemson batters could not seem to hit the pitching of Andy Courts and Ish Bennett as they held the Tigs to 6 safeties. Shortstop Johnny Gray led the Wildcats attack at the plate with three singles in 4 times at bat. Doug Kingsmore was Clemson's big gun with two for four, one of his hits being a triple.

Duke's Joe Lewis handcuffed the Tigers with his four hits pitching performance in Durham last Monday afternoon as the Blue Devils beat the Tigers by the score of 6-2. This was Lewis' third win of the season. The victory was the 12th in 14 starts for Lewis.

Ben Crosland started the game for the Tigers but was relieved by Robby Saylor in the second. Billy Lea was the only man to collect more than one hit off Clemson pitching as he singled in the second and again in the seventh inning. Johnny Gibbons hit an inside the park home run in the third and Lewis clubbed a triple to add to the Duke hitting.

A five run outburst in the seventh inning by the Deacons of Wake Forest broke a 6-6 tie and the Deacons went on to win by the score of 11-7 in a Southern Conference baseball game that was played in Wake Forest last Tuesday afternoon. Bobby Brown limited the Tiger batters to six hits and struck out six in gaining credit for the win.

Clemson scored two runs in the third inning but the Deacons came back in the bottom of the fourth to go ahead 3-2. They added one in the fifth and two in the sixth to have a 6-2 lead going into the 7th inning. With O'Dell, Murray, and Coker on base, Wyman Morris came to the plate and belted a grand slam home run to tie the score 6-6.

However, the deacons took advantage of the four walks, a sacrifice, three singles and two errors and scored five runs in the bottom of the seventh to complete their scoring. This was the Deacons' 11th win against three defeats. Three of their wins came over Clemson.

Browsing Room Is Equipped With 4 New Turn-Tables

Clemson's music department has just added four turn-tables with sixteen sets of headphones in the browsing room of the library. The record players are equipped to play all current speed records.

Four people may listen to a record at one time. There are no speakers involved and students not listening to records will not be annoyed by the music.

Plans are being made to move the record library into the browsing room. This will take place during the summer according to the itinerary. Also, all students will have access to any record in the library except those on reserve for listening assignments. These may be used only by those students taking music appreciation.

Recordings cannot be taken from the library except by faculty members for classroom instruction. All records to be played will be selected from the files and the listener will sign for the record and a set of earphones. When he has finished, the user will check them in.

A spokesman for the music department stated that the purpose of the new addition was to increase listening facilities for the faculty, students in general and the students taking classes in music appreciation.

Illinois Frosh Better Qualified For College Work

Urbana, Ill.—(I. P.)—Freshmen entering the University of Illinois are today better qualified scholastically for college work than they were in the mid-thirties. Selecting for comparison the freshman class of 1949 — first "normal" freshman group following World War II, composed largely of students entering college directly from high school—E. C. Selyer, University of Illinois recorder, made a study of the group similar to research which he had conducted on the freshman classes of 1935-36-37.

Selyer's earlier work indicated that there is a definite positive relationship between rank in the high school graduating class and the scholastic record achieved by freshmen in college. His results also demonstrated that a reasonably accurate prediction of scholastic success could be made for groups of students according to the standing of the group in the high school class.

The study of the 1949 class covered 1,819 freshmen who completed the year and for whom a complete record of grades was available. Students dropped for low scholarship, those not taking full schedule, and those who voluntarily withdrew during the year for any reason were omitted from the study. Comparison of the two studies revealed:

More of the entering freshmen are coming from the top half of their high school classes. Freshmen are making better scholastic records, including those from the lowest quarter of their high school class.

The standing of a high school graduate in his class—highest 25 per cent, next highest 25 per cent, next lowest, and lowest 25 per cent—can still be depended upon as an indication of how well he will succeed in college.

Moxley (C) defeated Nichols, 7-5, 6-0.
Coleman (C) defeated Eason, 6-1, 6-3.
Draper and Langford defeated

Proposed New Army Uniform Being Tested By Two Battalions

A proposed new Army uniform has been issued for service test to two battalions of the Third Infantry, one at Fort Myers, Virginia, and the other at Fort McNair, Washington, D. C. The new uniform, worn by the units this winter in a test of its acceptability as to color, design, and fit, is the greenish-gray uniform in shade G. No. 44.

This uniform was developed by the Research organization of the Quartermaster Corps in collaboration with consultants and technical experts from industry, under a directive from the Department of the Army Uniform Board as part of the Board's complete survey of Army uniforms.

It differs from the existing uniform in a number of important respects, most apparent of which are the change in color and the substitution of a comfortable fitting belted coat for the present short jacket, usually referred to as the Eisenhower jacket. The same uniform, except for distinguished insignia, the officer's sleeve braid, and the chin strap on the cap, will be worn by both officers and enlisted men.

The color of the proposed new uniform, its most striking characteristic, is a neutral shade of deep greenish-gray, selected after a comprehensive study of a wide range of possible colors for an Army uniform.

University have been raised in the interim between the studies as witnessed by the fact that a larger percentage of freshmen admitted in 1949 were dropped for low scholarships during the freshman year than was the case when the first studies were made.

Lower ranking high school students of 1949 have been able to meet the University's required C average than was true at the time of earlier study.

Folk, '51 Graduate Completes Course At Fort Benning

Second Lieutenant James M. Folk, class of 1951, completed the associate infantry company officer course at Fort Benning, Georgia, on April 3. Folk, who is from Bamberg, received his commission on August 11, 1951.

The fifteen-week course is designed to produce company grade officers well-grounded in the basic fundamentals and techniques of all infantry units with emphasis on the development of capable company commanders.

It is but one of the eighteen courses open to officers and enlisted men of the Regular Army, Organized Reserve Corps, and National Guard. Courses range from training recruits to be paratroopers to training regimental commanders and general staff officers.

Lander Deputation Gives Program At Wesley Foundation

A deputation from Lander College gave the program at the regular meeting of the Wesley Foundation meeting last night in the fellowship hall of the Methodist Church. About twenty girls made the trip.

Camera Club Will Meet April 22

President of the Clemson Camera Club, B. L. Nettles, requests that all members and prospective new members of the club be at a special meeting next Tuesday night, April 22, at 7:30 p. m. in the club room.

The annual outing is to be discussed with plans concerning the date and other arrangements.

Throughout the year we sit in class like this, but when it comes to exams, wetrytositlikethis.

She was only an undertaker's daughter, but could she ever lower the bier?

Citadel Linksters Defeat Tigs, 22-5; Picard Is Medalist

The Clemson linksters found the going rough against The Citadel golf team as the Cadets defeated the Tigers, 22-5 at the Boscobel course April 9.

Bill Picard of The Citadel was medalist with a par 72. Low for Clemson was Dick James with a 73.

The summary:
Smith (Citadel) defeated James, 2 and 1.

Cobb (Citadel) defeated Thornhill, 3 and 0.

Smith and Cobb defeated James and Thornhill, 3 and 0.

Picard (Citadel) defeated Allison, 3 and 0.

Johnson (Clemson) defeated Leighton, 2 and 1.

Picard and Leighton defeated Allison and Johnson, 3 and 0.

Lowry (Citadel) defeated Lawson, 3 and 0.

Diedman (Clemson) defeated Stall, 2 and 1.

Lowry and Stall defeated Lawson and Diedman, 3 and 0.

Commercial Group Executives Will Meet At Clemson Apr. 18-19

The spring meeting of the South Carolina Association of Commercial Organization Executives, which was originally scheduled for Anderson, has been transferred to the Clemson House by direction of the board of the organization. It will be held Friday and Saturday, April 18 and 19.

In developing the program for the meeting, the program committee decided to emphasize agriculture. Inasmuch as all on the program were accessible at Clemson, plus hotel facilities, the change was ordered. The Anderson, Greenville, and Greenwood Chambers of Commerce are the host organizations.

Among those who will appear on the program are J. M. Eleazer, Clemson information specialist; J. C. Littlejohn, Clemson business manager; B. E. Goodale, professor of dairying; E. E. Waite, associate professor of psychology; E. Hugh Agnew, president of the South Carolina Farm Bureau; John C. Floyd, manager of the South Carolina Chamber of Commerce; George McNabb, of the State Department of Research, Planning, and Development and Ed Cherry, of the United States Chamber of Commerce.

Oconee Boy Scouts Planning Excursion To Lake Jimiki

Boy Scouts of Oconee County are now making plans for a giant camping excursion to Lake Jimiki May 23, 24, and 25. Over 200 boys and their leaders are expected to participate.

The Scouts will, of course, sleep in the open and will do their own cooking. A full program is being arranged to include such activities as campcraft, handicraft, woodcraft, first aid, artcraft, and pioneering.

There will also be instructions in swimming, boating, and lifesaving, which will be taught on the lake, located north of Walhalla.

The public is invited to inspect the camp site at any time.

An open-air devotional will be held Sunday morning, May 24.

Lt. F. D. Sease Completes Infantry Officers Course

Second Lieutenant Fred D. Sease of Ehrhardt, who graduated from Clemson in January, 1951, completed the associate infantry company officer course at Fort Benning, Georgia, on April 3.

After receiving his commission in 1951, Lieutenant Sease was assigned to the 8th Division at Fort Jackson. He served as weapons instructor there until last November 22.

1st Lt. B. W. Mitchum Awarded Silver Star

First Lieutenant Bobby W. Mitchum, Clemson graduate in 1949, was recently awarded the Silver Star in ceremonies at Fort McClellan, Alabama. Lieutenant Mitchum received the award for "outstanding leadership and skill" in action in Korea last July.

Lieutenant Mitchum, a native of Smoaks, majored in vocational agricultural education at Clemson. He is presently stationed at Fort McClellan.

Get This Postgraduate Course worth Thousands of Dollars!

New Aviation Cadet Program Offers Special Advantages To College Men Now Preparing for Military Service

Here is valuable postgraduate training that money can't buy! As an Aviation Cadet you can receive instruction and training worth thousands of dollars—at the same time you are serving your country. You can choose—immediately—between being a Pilot or Aircraft Observer in America's swiftly expanding Air Force. The Air Force encourages candidates to stay in school and graduate. Seniors and students with two years or more of college who anticipate early entrance into military service can receive unmatched training in flying and leadership for the years ahead.

WHO MAY APPLY
AGE—Between 19 and 26½ years.
EDUCATION—At least two years of college.
MARITAL STATUS—Single.
PHYSICAL CONDITION—Good, especially eyes, ears, heart, and teeth.

HOW TO QUALIFY

1. Take transcript of college credits and copy of birth certificate to your nearest Air Force Base or Recruiting Station.

2. Appear for physical examination at your nearest Air Base at Government expense.

WHERE To Get More Details
Visit your nearest U. S. Air Force Base or U. S. Army—U. S. Air Force Recruiting Station or write direct to Aviation Cadet, Headquarters, U. S. Air Force, Washington 25, D. C.

3. Accomplish Flying Aptitude Tests and enlist for two years only!

4. The Selective Service Act awards you a four-month deferment while awaiting class assignment.

5. Immediate assignment to Aviation Cadet Training Classes starting July 19, August 19, October 2, and November 19, 1952.

6. Attend Aviation Cadet Training School for one year—either as Pilot or Aircraft Observer. Get \$106 monthly plus food, housing, uniforms, and other benefits.

7. Graduate, win your wings. Commissioned second lieutenant, begin earning \$5,000 a year! Receive \$250 uniform allowance, 30-day leave with pay.

Tigers To Meet The Citadel Here This Week-End

By Harold Owen

BUMS, INDIANS FAVORED TO WIN PENNANTS

The fervor caused by the opening of the big league season so stirred the usually lifeless sports staff that we put our minds together and came up with the conclusion that the Brooklyn Dodgers and the Cleveland Indians are almost a cinch to win the pennants in their respective leagues.

The New York Yankees, a team that can never be discounted, will furnish the main opposition to the Indians, but the great pitching staff headed by Feller, Lemon, and Garcia should be enough to carry the Indians to the top of the pack. The Red Sox without the services of Ted Williams will have trouble staying in first division.

As for the National League, the New York Giants whose pennant hopes were severely dampened by the loss of Monty Irvin, and the Philadelphia Phillies with Curt Simmons back in the fold will battle it out for the runner-up spot. Eddie Stanky and his Cardinals could easily be the surprise team in the league but if that happens it would be nothing short of a miracle.

Here is the consensus of the league standings come the first of October:

National	American
1. Brooklyn	1. Cleveland
2. New York	2. New York
3. Philadelphia	3. Chicago
4. St. Louis	4. Boston
5. Boston	5. Detroit
6. Pittsburgh	6. St. Louis
7. Chicago	7. Washington
8. Cincinnati	8. Philadelphia

TIGER NINE TO MEET THE CITADEL THIS WEEKEND

The Clemson baseball team should get back into the winning side of the ledger this weekend when they meet the Citadel baseball team Friday and Saturday. The Bengals had a rough road trip in North Carolina, losing to Davidson, Wake Forest and Duke.

The team still has plenty of hustle in spite of these setbacks and the best incentive the team can have is for the students to turn out in mass for both games in support of the Tigers.

Two Tiger pitchers, Billy O'Dell and Bobby Saylor, have been hurling great ball in the recent games. O'Dell struck out 21 men in the South Carolina game to set a new State record and Saylor came in as a relief in the Duke game Monday and kept the Blue Devil sluggers in hand remarkably well.

The Tiger nine which at the start of the season was inexperienced should definitely improve in coming games.

In the Conference the Tigers are now in eighth place in the standing with 3 wins and six losses with only the Citadel beneath them. But if the Tigers can take two wins from the Cadets they will be in a much better position in the Conference.

The Duke Blue Devils are on top with seven wins and one loss and appear to be well on their way to the Southern Division crown.

AF RIFLE FIRES IN HURST COMPETITION

The Air Force rifle team was among 220 teams competing for the National Hurst Trophy this year. The first team entered finished on the bottom of the top half being 106 in the competition. The second team finished a little further down.

The largest number of teams fired in the event this year than have ever competed since the trophy was established.

Capt. William Connelly, the team coach, has done a great job with the riflemen this year and heartily deserves to be congratulated for his efforts.

ODDS AND ENDS

Doug Kingsmore, outstanding Tiger leftfielder, caught a bad case of influenza on the North Carolina road trip last week. Doug was taken to the hospital and it is not known now how long he will be out of the Tiger lineup. The tennis team is now riding on a undefeated record and has a great chance of finishing the season with no losses on their record.

Clemson Cindermen Start Season With Impressive Wins Over Carolina And Roanoke; Lose To Ga.

In the last two weeks the Clemson cindermen met South Carolina, Roanoke, and Georgia losing only the latter meet by a score of 53-88. The Tigers won over Carolina by a score of 76-55, and beat Roanoke 98 1-3 to 28 1-3. In the Carolina meet Drawdy and McBride led the scoring with 10 points each while Buck George of Clemson was second with nine points.

In the Roanoke event Dreher Gaskins ran away with scoring honors with a total of fifteen points, while Gearhart of Roanoke was high man for the visitors with 8 points.

In Athens the high point man was furnished by Georgia in the person of O'Quinn with fifteen points.

The summaries of the meets are as follows:

CLEMSON-CAROLINA

Javelin — Freudenberger (C), Evans (C), George (C) 173' 11" Shot Put — Gaskins (C), Radcliff (C), Cap (SC) 41' 8.5" High jump — Martin (SC), Slattery (C), Richardson (C) 5' 10" Discus — Evans (C), Hodges (C), Wiggins (SC) 117' 0.5" Pole vault — Sain (C), Darouse (SC), Cochran (C) 11' 6" Broad jump — Fabian (C), George (C), Darouse (SC) 20' 7.5" One mile — McBride (SC), Cason (C), Blain (SC) 4:47 440 yard run — George (C), Hulen (SC), Spence (SC) time :52.4 100 yard dash — Drawdy (SC), Ferrett (C), Joye (C) time :10.3 120 high hurdles — Richardson (C), Rector (SC), Slattery (C) :15.9 880 yard run — McBride (SC), Froelich (C), Reeves (SC), 2:09 220 yard run — Drawdy (SC), Cunningham (SC), Ferrett (C) :22.2 Two mile run — Blair (SC) Ervin (C), Counts (C), 10:59.3 220 low hurdles — Radcliff (C), Richardson (C), Robbins (SC) :25.8 One mile relay — South Carolina (Spence, Cunningham, Hulen, Mueller) 3:42.6

CLEMSON-ROANOKE

Shot put — Gaskins (C), Radcliff (C), Kirby (C) 42' 8" High jump — Gaskins (C), Slattery (C), Gearhart (R) 5' 10" Discus — Gaskins (C), Hodges (C), Evans (C) 125' 3" Pole vault — DeCoste (R), Cochran (C), Sain (C) 12' 6" Broad jump — George (C), Fabian (C), DeCoste (R) 20.05" One mile run — Cason (C), Ryhne (R), Noel (R) 4:39.6 440 yard run — George (C), Lorette (C), Buck (C) :53.4 100 yard dash — Frerette (C),

The Clemson cindermen will journey to Johnson City, Tennessee, Saturday to compete in the Milligan Relays. This meet has team, individual, and mixed events. It also consists of all field events and Coach Norman said that the Clemson team would enter all of the different ones. Clemson is very well respected in the Tennessee city because of last year's excellent showing. Coach "Rock" said that about twenty or thirty boys would make the trip.

Gearhart (R), Wells (C) :10.8 120 high hurdles — Richardson (C), Frith (R), Slattery (C) :15.6 880 yard run — Froelich (C), Slattery (C), McConehie (R) 2:10.3 220 yard run — Frerette (C), Gearhart (R), Whitten (C) :23.9 Two mile run — Ryhne (R), Ervin (C), Noel (R) 10:33.3 220 low hurdles — Radcliff (C), Revell (C), Frith (R) Mile relay — Clemson (Buck, Lorette, Doar, George) 3:39

CLEMSON-GEORGIA

100 yard dash — Hooper (G), Frerett (C), Dodd (G) :10.7 220 yard dash — Hornbuckle (G), Hooper (G), George (C), Lorette (C) :50.2 880 yard dash — Harrison (G), Froelich (C), Slattery (C) 2:09.5 One mile run — Cason (C), Harrison (G), Shane (C) 4:40.1 Two mile run — Ervin (C), Counts (C), Smith (C) 10:52.7 120-yard high hurdles — O'Quinn (G), Richardson (C), Benerofe (G) :35 High jump — O'Quinn (G), Gaskin (C), Mitchell (C) 6' 2" Pole vault — Three-way tie for first Folger, Sain, and Cochran all of Clemson 11' 4" Broad jump — Conine (G), George (C), Fabian (C) 21' Shot put — Langley (G), Griffith (G), Radcliff (C) 45' 2" Discus — Langley (G), Griffith (G), Evans (C) 127' 9" Mile relay — Georgia (Hooper, Dodd, Dortch, Hornbuckle) 3:31

Ten Professors Attend Physical Society Meet In Raleigh, Apr. 10-12

The Southern section of the American Physical Society met in Raleigh, North Carolina, April 10-12.

Those attending from Clemson were: Dr. L. D. Huff, H. L. Reeves, M. Shackelford, K. L. Wood, Dr. H. A. Jarrell, Dr. C. A. Reid, A. R. Reed, T. G. Lindsey, H. E. Vogel, and C. S. McCamy.

Golf Team to Meet Carolina, Citadel, Woff. This Week

Clemson's linksters defeated the South Carolina golf team at the Boscobel golf course 16 1-2 to 8 1-2 April 4. Dick Jones of Carolina was medalist with a one over par 73. Dick James was low for Clemson with a 74.

The summaries:
Jones (SC) defeated James 2 1-2 and 1-2.
Thornhill (C) defeated Prezioso, 2 and 1.
Allison (C) beat Stobbs, 2 1-2 to 1-2.
Johnson (C) defeated Morrison, 3 and 0.
Steadmen (C) tied Boswell, 1 1-2 and 1 1-2.
Lawson (C) defeated Irick, 2 1-2 and 1-2.
Jones and Prezioso defeated James and Thornhill, 3 and 0.
Allison and Johnson defeated Stobbs and Morrison, 3 and 0.
Steadmen and Lawson tied Boswell and Irick, 1 1-2 and 1 1-2.

Baptists Will Observe Children's Day; Other Events Are Planned

The Clemson Baptist Church will observe Children's Day on April 20. A sermon will be preached especially for children. The Junior Choir will sing and a dedication service for infants will be held.

Dr. C. F. Sims, executive secretary of the South Carolina Baptist Convention, will be the guest preacher at the Clemson Baptist Church on April 27. Revival services will begin at the Clemson Baptist Church on April 28 and will last until May 4. The Reverend Mack M. Goss, pastor of the First Baptist Church of Hendersonville, North Carolina, will be the guest preacher. Services will be held each morning at 10 a. m. and each evening at 7:15.

Tiger Baseball Squad Returns From N.C. To Meet Citadel In 2 Games

The Clemson College baseball team will return home from their North Carolina trip to meet the Citadel Bulldogs here Friday and Saturday afternoon in two Southern Conference tilts. The Bulldogs will be seeking their first Conference win of the season, while the Tigers will be trying to get back into the win column after dropping their last six games in a row. Their present Conference record stands at three wins against seven losses.

The starting pitching for either team has not been announced. It is possible that either J. C. Hicks or Ben Crossland will probably get the nod to hurl the opener against the Bulldogs.

Paul Chapman, outfielder for The Citadel squad, has been showing his power at the plate thus far this season as well as his fielding ability. The Bulldogs have 10 returnees from last season's squad and 8 prospects up from the freshman team last year.

Van Fossen Awarded Scholarship To Harvard University

Richard W. Van Fossen, instructor in English at Clemson, recently has been awarded the James A. Rumrill Scholarship for graduate work in English at Harvard University.

Mr. Van Fossen, who plans to begin work at Harvard in September, was offered scholarships to three other institutions, including the University of Chicago, Vanderbilt University, and the University of Minnesota.

he native of Washington, D. C. served in the Navy for more than a year. He graduated from Duke University in 1949 and received his Master's Degree from the same school in 1950.

THE DU PONT DIGEST

Ch. E's at Du Pont

Plant development work is solid background for a future in chemical engineering

The work of production supervisors at Du Pont, as discussed here last month, is aimed at getting better results from existing processes and equipment.

In contrast, the job of plant development groups is to find ways to improve methods and products, and advise management when changes should be made for economic or technical reasons. Chemical engineers in this work are responsible for lowering process costs, adapting the product to new uses and improving product quality to obtain a larger share of the existing market.

These duties provide an understanding of the fundamental aspects of the business, as well as a broad view of Company operations. The training and experience a man gains as a member of a plant development group—often a first assignment at Du Pont—is an excellent background for any field he may move into later.

Conducting a development study usually involves obtaining data from

laboratory, semi-works and plant-scale experiments, estimating profits and investments, and consulting with sales, research and production personnel, also with auxiliary departments such as Engineering, Chemical and Purchasing, and with outside authorities.

Here are typical problems solved by plant development groups:

John Purdom, B.S.Ch.E., Ohio State '49, and Kenneth Kehr, B.S.M.E., North Carolina State '50, discuss diagram of a process for improved recovery of a nylon intermediate.

1. Prompted by obsolescence and wearing of equipment, experimental studies and economic comparisons were made on the entire process of isolating dyes. Methods in use called for crystallization, filter pressing and tray drying. It was found that a rotary vacuum filter with a continuous rotary steam tube dryer, air conveyor and a dust collection system reduced costs about \$50,000 a year.

2. Production of sodium silicate was to be increased substantially, but the tank-type furnace at the heart of the process proved a bottleneck. The furnace design, including exit and

Thurman W. Kaiser (at right), B.S.Ch.E., Purdue '50, supervises tests of improved process for making neoprene intermediates.

[FOURTH OF A SERIES]

Raid Bernhardt, B.S.M.E., Cornell '44, M.S.M.E., Carnegie '48, and René M. LeClare, M.S.Ch.E., M. I. T. '51, check installation of improvements in plant equipment.

entry ports, was improved, and its capacity enlarged at a small fraction of the cost of a new furnace.

With the rapid growth of technological improvements all over the world and increasing competition, plant development work assumes greater and greater status. The Ch. E. entering such a group at Du Pont finds a wealth of opportunity for his skill and ingenuity.

HAVE YOU SEEN "The Du Pont Company and the College Graduate"? Free, 40-page book describes opportunities for men and women with many types of training. Write: 2521 Nemours Bldg., Wilmington, Delaware.

KLUTTZ STEAK HOUSE

The Clemson chapter of Kappa Phi Kappa, professional education fraternity, recently celebrated its first anniversary with a banquet at the Clemson House. Present for the occasion were, left to right, in front of table, C. W. Davis, Class of 1951, alumni member teaching at Anderson Junior High School; J. V. Thompson, secretary-treasurer, Beta Nu (Clemson) Chapter, Saxonburg, Pa. Seated at table, W. M. Jones, Alpha Pi Chapter, Carolina; L. M. Stephens, Beta Nu, Canton, N. C.; Raymond Turgen, president, Alpha Pi, Carolina; Dr. McTyler Daniel, adviser, Alpha Pi, Carolina; Warren T. Jackson, national vice-president of Kappa Phi Kappa, Atlanta, Ga.; Joe D. Elam, president, Beta Nu, Spartanburg; Ben H. Hutchinson, regional councillor, Kappa Phi Kappa, Atlanta, Ga.; Dean Orin F. Crow, school of education, University of South Carolina. Standing, John B. Gentry, Jr., adviser, Beta Nu, Clemson; J. E. Bryant, Beta Nu, Savannah, Ga.; C. O. Holladay, Beta Nu, Ft. Deposit, Ala.; C. S. Gregory, Jr., Beta Nu, Birmingham, Ala.; G. G. Daniel, Beta Nu, North Augusta; Harvey Teal, Alpha Pi, Carolina; J. E. Tuttle, Alpha Pi, Clemson; J. L. Brock, Beta Nu, industrial education department, Clemson; Glenn Dempsey, Beta Nu, Clemson; J. J. Saracino, Beta Nu, Pendleton, S. C.; J. L. Pendleton, Beta Nu, Greenwood; Jerry Teal, Alpha Pi, Carolina. Active members absent when picture was made: B. L. Hueuley, McCormick; G. W. Dargan, Darlington; J. D. Wade, Lenoir City, Tenn. (Staff photo by Jack Trimmer.)

Signal Corps Fraternity Will Sponsor Mother's Day Exhibit

By A. W. Ringer

No doubt you have noticed a new ribbon being worn around the campus by a few cadets. The ribbon has three lands, two navy blue and one red with a gold emblem of two crossed flags in the center. This is the ribbon of Pi Tau Pi Sigma, the National Honorary Signal Corp Fraternity. A chapter of this organization has just been formed here at Clemson.

Pi Tau Pi Sigma was formed about twenty years ago at the University of Michigan to promote interest in the Signal Corps R. O. T. C. Twenty chapters have been established at colleges and universities all over the country.

During the war membership dropped and the fraternity became inactive, but in 1950 the University of Michigan once again activated the club.

A convention was held at the 1951 R. O. T. C. summer camp at Fort Monmouth, N. J. Claude Simpson of Clemson was among the delegates from thirty-three colleges who attended the meeting. Plans were made for reorganizing old chapters and chartering new ones. National Headquarters were moved from the University of Michigan to the University of Minnesota.

In the late fall of 1951 the Lambda Chapter was chartered at Clemson. Officers elected were A. W. Ringer, electrical engineering senior of Newberry, commanding officer; H. W. Fletcher, electrical engineering junior of McColl, junior executive officer; D. B. Salley, mechanical engineering senior of Saluda, finance officer; and R. J. Vause, agricultural engineering junior of Salter's Depot, adjutant. Major J. B. Williamson is the faculty advisor.

The fraternity is working on a project for Mother's Day, a working exhibit of signal equipment following the Signal Corp theme, From The Fox Hole To The Pentagon.

Two lines of communication will be demonstrated. Most of the equipment will be in operation and visitors will be welcome to operate it themselves under supervision of members of the fraternity.

Kappa Phi Kappa Holds Banquet

Clemson's Beta Nu Chapter of Kappa Phi Kappa, professional education fraternity, recently celebrated its first anniversary with a banquet at the Clemson House. National officers Warren T. Jackson of Atlanta, vice president, and Ben H. Hutchinson of Hapeville, Georgia, councillor, were honor guests.

To assist the Clemson chapter in greeting the national officers on their visit to South Carolina the chapters at Furman (Beta Mu) and South Carolina (Alpha Pi) were invited to send representatives to the meeting. Two faculty members, Dr. McTyler Daniel, adviser to the Carolina chapter, and Dean Orin F. Crow of the School of Education at the University accompanied four active members of Alpha Pi chapter to the banquet. The Carolina students attending were Raymond Turgen, Harvey Teal, Bill Jones, and Jerry Teal.

Joe D. Elam, education senior of Spartanburg, was toastmaster for the banquet. Highlights of the program included talks by Vice-President Jackson and Councillor Hutchinson and a report by Grady Daniel, Class of 1952, a graduate student at Clemson, on a new technique he has developed for making photomicrographs with an ordinary box camera.

During the evening President Turgen of Carolina gave a report of his chapter's activities, and President Elam reported for the local chapter.

Three new members, Joe E. Bryant of Savannah, Georgia, George W. Dargan of Darlington, and Clark S. Gregory, Jr., of Birmingham, Alabama, were recently received into Beta Nu chapter.

Lt. Lorick Swygert Finishes Infantry Course At Benning

Second Lieutenant Lorick S. Swygert, class of 1950, completed the associate infantry company officer course at Fort Benning, Georgia, on April 3. A native of Waterloo, South Carolina, Lt. Swygert received his commission on January 29, 1950, and was assigned to the First Armored Division at Fort Hood, Texas.

Prior to being called to active duty, he served as assistant county agent at Spartanburg. He is a graduate of Laurens High School.

Schedule Of Pictures At The Clemson 'Y' "On The Campus"

April 17-18, "THE UNKNOWN MAN," a first run Metro picture, starring Walter Pidgeon, Ann Harding.

April 18-19, "SUNNYSIDE OF THE STREET," starring Terry Moore, Frankie Lane.

Saturday Morning and Afternoon, "DISC JOCKEY," starring Ginny Simms and Michael O'Shea.

April 21-22, "MODEL AND THE MARRIAGE BROKER," starring Jeanne Crain, Thelma Ritter.

April 22-23, "TOO YOUNG TO KISS," starring June Allyson, Van Johnson.

Pre-Fab Life

By "DOC" BAKER

Neighbors, surrounding streets and houses, especially the last, create quite an atmosphere in the Clemson Pre-Fab areas. Take the case of my friends who live across the street with the house on either side. He, Aisle Fixet; she, the former Lemmie Duet, along with their eleven year old brattish son, Willie BeGood, form an envious family.

As anyone can plainly see, they weren't newlyweds; yet, she had spent all their married life shuffling between her parents and parents-in-law. Aisle won her hand in marriage a short time before he entered the service during World War II. Finally deciding to settle down to family life rather than add a third "ignorance stripe" (You know, the ones for reenlistments) he came to Clemson.

Ah me, love is grand, and true love never runs smoothly. Such has been this case; however, I've often wondered about that adreptive modifying love. Anyway, they came late one afternoon to look over the Pre-Fab which Aisle had rented. It was very picturesque as they got out of the family's 1929 touring sedan, holding each other like parakeets with locked wings, and drifted up to the front door. Inside, the cooling, "ohing" and "ahing" reminded one of a veterinarian giving throat inspections at a pigeon farm.

"Such a darling little house—just imagine, four rooms all to ourselves—just the three of us and a whole bathroom," were the first strains to echo across the street. Outside, they launched into a dissertation on the unique method used to name the streets. Ham avenue ran into Egg Nest, Berkshire Drive crossed with Poland China Path, Hydraulic Way paralleled Static Street and Two-Point-Intersection went north, east, south and west all at once. These fancy observations intermingled with periodic outbursts of, "Willie, don't break that—Son, be careful—quit bothering that—don't you pull the nice cat's tail," and "you mustn't walk in the neighbor's flowers," made a lunatic house seem like a haven. Later, however, I found this to be the grand part of love; the unsmooth came next.

Since this was their first home, they had no furniture. "I told you not to risk our money in that Smellovision stock," she jeered.

"Yeah, but if I hadn't failed and I'd made a million, you'd be telling me how smart I was," he retaliated. "Besides . . ."

"Oh! Why don't you get a job and go to work so we can have something. You ain't got no book sense—you know you won't learn anything up here," she wailed.

"Now, Lemmie, dear," he glibbed softly, "We'll make out some way. There's enough old furniture around our folks to get along

on. We'll only be here four or five years anyway. Let's make the most of it while I'm trying so hard to be a college graduate."

The calm returned. Darling little Willie was now under the house making a quick disposal of two cigarette butts he'd found. Of course, the only reason he smoked was because they didn't want him to. I later found that he chewed, also—he thought it made such a colorful occasion on a snowy day. He promptly informed me that I should keep my discovery away from his "old man"—Willie was a good shot with his slingshot.

Two or three days later they moved in. After two weeks, I thought I should have them over for dinner one night. However, it would be utter annihilation to let little Willie get his hands on the small amount of property I had. Weighing manners against propriety, I decided manners must go; I was determined to protect what was mine.

To avoid a downright rude appearance, I dropped over for a few minutes one afternoon. They were comfortably settled and living happily.

Aisle immediately showed me

his house, boasting how smart he was to make the old heirlooms and hand-me-downs into such an attractive home. It would take too much space to describe the entire house; consequently, we'll give it to you in installments. The living room will be first. Then we'll get around to the kitchen or Willie's cell.

The walls were painted a beautiful baby blue. This coupled with the pea green trimmings and char-truese drapes made the rose-pink arm chair stand out. In fact, had they removed the walls and left the chair in the floor by itself, the effect wouldn't be as nauseating. One can always add insult to injury. They had a burned orange ottoman in front of the big chair.

A mass of indiscriminate colors, decorated with jellied fingerprints and muddy tracks from Willie was the essence of the living room. I sat there expecting a complete reversal of my alimentary peristalsis at any time when little Willie himself threw a tantrum for some more peppermint sticks. I quickly excused myself and thought how fortunate some people are. Especially those with nothing and no children.

Professors McKenna And Tarrant Attend Southern Textile Meet

Professor A. E. McKenna and Associate Professor W. E. Tarrant, of the weaving and designing department of the school of textiles, recently attended the spring meeting of the South Carolina Division of the Southern Textile Association.

Mr. G. M. Anderson of Penick and Fort, Ltd., of Atlanta, spoke on "Problems in Slashing Synthetic Fibers".

A panel discussion on "Problems Encountered in Manufacturing Synthetic Yarn Fabrics" followed.
