

Bruce, Shuford Elected To Head Student Body

Spivak Will Play Junior-Senior Dance

Concert And Banquet Open Festivities; Camak To Speak

The Central Dance Association has announced that Charlie Spivak and his orchestra will furnish the music for the annual Junior-Senior Dance to be held May 9-10 in the College Field House.

The formal dance, which will last from 9 to 1 Friday evening, will be preceded at 7 p. m. by the annual banquet to be held in the College Dining Hall.

The speaker at the banquet will be Dr. M. B. Camak. Dr. Camak, superintendent of schools at Ware Shoals, is noted throughout the South as an after-dinner speaker and editorialist.

Serving as committee chairmen for the banquet are: Thomas E. Gioiosa, decorations; Sammy Bookhart, seating; Mack Carmichael, placing; Charles Meiburg, publicity; and Louis Seaborn, favors.

The informal dance will begin at 8 p. m. and last until midnight on Saturday. Spivak and his orchestra will present a concert in the College Chapel at 4 p. m. on Friday.

Charlie Spivak, "The Man Who Plays The Sweetest Trumpet in the World," is the musician whose fresh and original idiom in trumpet playing is described as "honey in the horn." He is the leader of a nine year old band which rocketed to top-flight stature so rapidly that it now ranks among the kings in the entertainment world.

Notches in Spivak's musical belt are 20th Century-Fox's "Pin-Up Girl," starring Betty Grable and "Follow the Boys" for Universal and a flock of box-office records created at the Paramount Theatre in New York, the Hotel Statler, New York, the Palladium in Hollywood and other top spots. Spivak's music-making is so solidly established for its individuality that it can be identified whenever and wherever it is played as "indubitably Charlie's."

Born in New Haven, Connecticut, Spivak got his first trumpet while still in grade school, a tiny instrument with the first valve practically on top of Charlie's nose. He went to Hill House School in New Haven, studying the trumpet on his own time with George Hyer, who is a member of the New Haven Symphony Orchestra. The fact that Spivak's family had charted out a medical career for him didn't alter Spivak's decision to take to the brass, and when Paul Specht, then one of the country's outstanding bandleaders, offered him a job, he signed up—and remained with the outfit for five years.

To Play

He next joined the Bennq Polack Band, another number one outfit, and his next stop was the Dorsey Brothers Orchestra, where he played alongside such musicians as Glenn Miller, Skeets Herf, and Bob Crosby. When Ray Noble came to America, he asked Glenn to help him organize a band, and the first musician to be signed was Spivak.

When Spivak left to try his musical wings on his own, he became the highest paid freelance trumpeter in radio, playing on the Ford Symphony Hour, Kate Smith, and Fred Allen broadcasts. When he felt ready to organize his own band, a lot of encouragement came from Glenn Miller, who told him he had all the ingredients necessary for a winning combination.

Spivak got his first big engagement at the Glen Island Casino, jumping off place for more than a dozen of the nation's topflight bandleaders. He was so successful that the Casino traditionally a summer spot, broke a precedent by keeping its doors open for the winter to accommodate Spivak's drawing power.

Spivak came to the Cafe Rouge of the Hotel Statler shortly after, and broke Glenn Miller's and Jimmy Dorsey's records there, then did the same thing at the Commodore. He has been a regular fall attraction at the Statler every season.

Camp Elected To U. S. Chamber Of Commerce

W. B. Camp of Bakersfield, California, a Clemson graduate in 1916 and a present member of the Board of Trustees, was recently elected a Director of the Chamber of Commerce of the United States of America to represent agriculture for a two-year term.

Mr. Camp was born March 14, 1894, on a farm in Cherokee County. Extensively educated in scientific agriculture and seasoned by years of practical experience, he has emerged not only as an authority in agronomy but as president and co-owner of a large farming business. His farms in California, Washington, and South Carolina produce cotton, truck crops, potatoes, alfalfa, and cattle.

Mr. Camp's interest in farming in the state of his birth led him to establish the Camp Irrigation Fund to show what artificial sprinkling could do for South Carolina crops. For the education of promising young farmers at Clemson, he provided the Geofrianna Camp Foundation.

As its Agronomist, he wrote bulletins for the United States Department of Agriculture and newspaper and magazine articles on farming. As Agricultural Appraiser of the Bank of America National Trust and Savings Association, he put into successful operation many abandoned small farms. He pioneered the California One-Variety Cotton Law.

For many years he has actively fought communism and socialism in America. Mr. Camp is considered the godfather of two of California's finest harvests, cotton and potatoes. He is a foe of Federal controls and subsidies and is a stout believer in the old fashioned idea that farmers should shun regimentation and "stand on their own feet."

Juniors Begin Signing Up For Junior-Senior

Juniors will begin signing up for tables for the Junior-Senior Banquet tonight immediately after supper. Signing up will take place in the Student Government Room, located near the Guard Room.

Seniors who have not already signed up are urged to do so immediately.

The fee for juniors, seniors who have not attended before, and seniors who will be attending their third such banquet, is \$3.00.

Wright Bryan Heads American Editors

Former TIGER Editor Elected To Top Position By Nations' Journalists

Wright Bryan, who is today editor of The Atlanta Journal, has been elected president of the American Society of Newspaper Editors.

Mr. Bryan, the son of Mr. B. Bryan of Clemson, is a graduate of Clemson and a former editor of The TIGER.

Mr. Bryan's election took place at a Washington meeting of the organization on Saturday, April 19. He advanced to the top post of the nation's leading society of editors after years of service to its program of improving journalistic standards. He was unopposed in the election.

Will Speak

PAUL RUDOLPH

Minarets Will Hold Annual Banquet May 3

Paul Rudolph, who, at thirty-three, is one of the youngest well-known architects in the Southeast, will speak at the annual banquet of The Minarets, honorary fraternity of the School of Architecture. The banquet will be held May 3 at eight p. m. in the Saber Room of the Clemson House. A pre-banquet party will be held from four to six in the afternoon.

Mr. Rudolph is a designer partner of Ralph S. Twitchell of Sarasota, Florida, with whom he has been associated since 1940. He received his Masters degree in 1947 from Harvard School of Design.

"Spatial on Construction Concepts in Modern Architecture" is the topic of Mr. Rudolph's banquet speech.

The banquet is open to all students in the School of Architecture. Architects from the surrounding area will also attend.

An informal social gathering with Mr. Rudolph will be held Friday, May 2, from seven to ten p. m. in the Minaret club room.

The purpose of the annual banquet is to acquaint architectural students with architects of the surrounding area, to give the students a chance to hear prominent outside speakers, and to honor graduating members of The Minarets.

Serving on the program committee for the banquet are: W. H. Simmons, chairman, Bill Hughes, David Sedberry, Carroll York, Stuart Blume, and C. L. Bates.

On the staff of The Journal for more than twenty years, Mr. Bryan has served as city hall reporter, city editor, managing editor, and associate editor before accepting the position of editor in August, 1945.

During World War II, he compiled a distinguished record as a war correspondent. Mr. Bryan gained nationwide fame with his first hand radio account of the Allied invasion of Normandy. Serving as a correspondent for The Journal and for the National Broadcasting Company, he gave the American people their first account of the landing as he viewed it from an Air Force bomber.

Continuing to follow the movements of the Allied armies in Europe, Mr. Bryan was captured by the Germans in September, 1944. He was liberated in January, 1945.

A member of Sigma Delta Chi, honorary national newspaper fraternity, he served in 1942 as chairman of the Georgia Press Institute.

Classes Make Nominations

J. W. Barton, mechanical engineering junior of Atlanta, Georgia, and M. C. Branham, education junior of Columbia, were nominated for the office of senior class president at the class officers' nominations held on Tuesday night.

Running for the senior class vice-presidency are L. T. Howard and L. C. Butler.

B. I. Miller and H. W. Fletcher were nominated for secretary of the senior class.

Nominated for senior treasurer were J. B. Cooper and S. W. Bookhart.

Eight men were nominated for senior class representatives. They are: R. T. Dunlap, D. L. Milling, W. J. Rhodarmar, D. M. Carmichael, J. D. Hanahan, D. H. Bouchillon, J. A. Porter, and J. E. Morrah.

Junior Class

Nominated for junior class officers were: president—S. C. Griffith, S. J. Player, and R. L. Blackwell; vice-president—P. B. Waters, unopposed; Secretary—J. K. Willis and J. T. Messer; Treasurer—H. N. Padgett and W. C. Cottingham.

Class representatives — R. M. North, J. T. McCarter, I. S. Sims, L. F. Neville, D. H. Spearman, J. W. Williamson, O. D. Blackwell, and F. R. Gressette.

Sophomore Class

Sophomore class nominations are: president—W. W. Shealy, A. T. Mitchell, and I. P. Montgomery; Vice-president—D. D. Padgett, R. M. Heriot, J. H. Hardee, and H. F. Hunt; Secretary—G. U. Bennett, R. A. Blair, and F. M. Dwight; Treasurer—J. B. Cooper, J. P. Truluck, and C. O. McLendon; Representatives—L. B. Thompson, J. A. White, L. R. Brandon, L. J. Turner, D. Morris, P. C. Trihey, D. T. Hinson, W. E. Stafford, K. D. Brandt, J. P. Lawson, E. R. Sanders, J. B. Alexander, C. E. Kirby, and F. C. Derrick.

The election of these officers will take place Tuesday, April 29. The polls, which will be open from 8 a. m. to 6 p. m., will again be located in front of the Post Office.

New Student Body Heads

Gene Shuford (left) and Miles Bruce.

European Dairymen Here For 5 Weeks

Twenty-nine Production Trainees Here For Course Under LaMaster

A group of twenty-nine dairy production trainees representing five friendly European countries are at Clemson for a five-weeks course. The course is under the supervision of Professor J. P. LaMaster, head of the Clemson Dairy Department.

The project is sponsored by the Mutual Security Agency program. This dairy team, one of fourteen such groups that are studying various phases of American agriculture this year, came to Clemson because the college agreed to give them a special dairy short course.

The Europeans, composed of ten trainees from Austria, six from Yugoslavia, seven from Germany, four from Norway, and two from Belgium, are under the guidance of R. D. Steer, extension cooperative marketing specialist.

Interpreter for the group, which is staying at the Clemson House, is Miss Anne Staltenberg of Germany.

They arrived in Clemson Saturday and began classes Monday in Long Agricultural Building. Monday morning at a brief ceremony they were welcomed by Walter Cox, assistant to Dr. R. F. Poole, president of Clemson; Dr. H. P. Cooper, director of the State Experiment Station and dean of the school of agriculture; Director D. W. Watkins of the Extension Service; and Mr. LaMaster.

The mornings will be devoted to special instruction by members of the dairy department and others, and most of the afternoons will be devoted to field trips on the Clemson farms and in nearby counties. They will study demonstrations and experiments on the college farms.

R. D. Steer, extension service cooperative marketing specialist with headquarters at Greenwood, was loaned to the government as a technical consultant in connection with the trainee program.

He spent the past two weeks in Washington with the group, and will remain with them at Clemson and accompany them to

(Continued on Page 3)

Bruce Defeats Wise In Race For President

7 Senior Council Members Elected

Miles E. Bruce, arts and sciences junior of Greer, was elected president of the Clemson student body in elections held last Monday.

He defeated Patrick N. Wise, mechanical engineering junior of Vaulcuse, by a vote of 820 to 328.

Bruce, who also served as president of his class during his freshman and sophomore years, succeeds Harry M. Lightsey, animal husbandry senior of Columbia.

Gene Shuford, textile manufacturing junior of Forest City, North Carolina, who was unopposed in the nominations, automatically became vice-president of the student body. He replaces Robert R. Bell, industrial education senior of Pelzer.

Those elected to the Senior Council were: James F. Callahan, electrical engineering junior of Atlanta, Georgia, 797 votes; William P. Creighton, textile chemistry junior of McCormick, 870 votes; Wilton J. Gibson, horticulture junior of Greer, 845 votes; and Thomas E. Gioiosa, architecture junior of Bethesda, Maryland, 755 votes.

Also, Robert D. Guyton, mechanical engineering junior of Pelzer, 819 votes; Joel P. Hudson, mechanical engineering junior of Dacus, Georgia, 817 votes; Arthur C. Hutson, pre-medicine junior of Seabrook, 742 votes.

The total vote cast, 1148, was a record for Clemson student body elections.

32 June Graduates Accept Commissions

Will Be Called To Duty In Regular Army After Graduation

In addition to furnishing several hundred new reserve officers for the army this year, Clemson will graduate thirty-two students in June who have accepted commissions as second lieutenants in the regular army.

According to information released by Colonel Forrest E. Cookson, commandant of cadets at Clemson, they will be called to duty soon after graduation.

These graduates who expect to make the army a lifetime career were chosen for their outstanding leadership qualities, definite aptitude for military service, high moral character and participation in campus activities.

Designated as Distinguished Military Students in their junior year, they will leave Clemson as Distinguished Military Graduates.

Regular army commissions will be given in all six branches represented at Clemson: armor, engineers, infantry, ordnance, quartermaster and signal.

Those graduates accepting regular commissions in the infantry are: James L. Allen, agronomy major of Clio; Fred Bartlett, Jr., textile manufacturing major of Spartanburg; Mills L. Fleming, Jr., arts and sciences major of Spartanburg; John F. Hare, arts and sciences major of Lake Wales, Fla.; Sam J. Matthews, Jr., agronomy major of Scranton; Richard R. Simpson, textile manufacturing major of Westminster; William A.

Staland, agronomy major of Ash, N. C.; Louis M. Stephens, education major of Canton, N. C.; and David C. Mangum, animal husbandry major of Spartanburg. Ordnance: Oliver D. Brock, textile manufacturing major of Whitmire; Paul R. Osborne, textile manufacturing major of Kingsport, Tenn.; Norman R. Tice, textile manufacturing major of Brooklyn, N. Y.; and Lee H. Witt, Jr., textile manufacturing major of Swansea.

Engineers: Everett A. Butler, Jr., industrial education major of Youngstown, Ohio; Palmer C. Davis, civil engineering major of Greer; and Perry D. Tripp, civil engineering major of Greenville.

Signal Corps: Dennis A. Childs, Jr., textile manufacturing major of Spartanburg; Benjamin L. Nettles, electrical engineering major of Charleston; Donald B. Salley, mechanical engineering major of Saluda; Bonny R. Stockman, textile manufacturing major of Clemson; and Arthur A. Walsh, Jr., electrical engineering major of West Englewood, N. J.

Quartermaster: John H. Dowling, textile manufacturing major of Chester; Fredis C. Fore, vocational agriculture education major of Mullins; George T. Hauser, textile manufacturing major of Caldwell, N. J.; James N. Littlejohn, horticulture major of Sumter; Prince F. Norton, textile manufacturing major of McColl; Richard L. Shores, textile manufacturing major of Spartanburg; and Fred G. Sutherland, textile manufacturing major of Spartanburg.

Armor: Luther W. Hampton, Jr., textile manufacturing major of Clemson; John A. Simpson, dairy major of Richburg; George E. Taylor, textile manufacturing major of Newnan, Ga.; and Edwin M. Grainger, agronomy major of Nichols.

Fertilizer Conference Will Be At Clemson House In May

State Manufacturers, Dealers Salesmen To Meet May 21-22

Fertilizer manufacturers, dealers, and salesmen in South Carolina, as well as certain agricultural leaders, will attend a Fertilizer Conference at Clemson College on Wednesday and Thursday, May 21 and 22.

Headquarters for the conference will be the Clemson House. Mr. B. D. Cloaninger, head of the fertilizer inspection and analysis department at Clemson, announced that all room reservations should be made directly to the Clemson House.

Registration will begin at 8:30 a. m. on Wednesday, May 21, in the lobby of the Clemson House. A preview of the tours scheduled for the afternoon will be given at 10:00 a. m.

Included in the speakers for the morning will be Dr. H. P. Cooper, Dr. W. A. King, J. K. Reed, Dr. W. R. Paden, E. G. Godbey, W. P. Law, O. W. Beale, Dr. W. B. Albert, and H. E. Bland.

Following lunch in the Saber Room of the Clemson House, a tour of the experiment station, pastures, and farms will be conducted on buses and trucks.

Dr. Robert F. Poole, president of Clemson College, will deliver the welcome address at the banquet, which is to be held in the Saber Room at 7:00 p. m. Toast-

master for the evening will be C. G. Cushman, leader of Clemson Extension Dairy Work.

Dr. Firman E. Bear, chairman of the soils department of Rutgers University, will deliver the main address.

Beginning at 9:00 a. m. on Thursday morning, several classes will be conducted by members of the Clemson faculty. They are as follows: "Chemical Weed Control," Dr. W. B. Albert; "Outlook of Insecticides for Use on Soils," Dr. M. D. Farrar; "Agronomy Research Program," Dr. W. R. Paden; and "Research Tobacco Program," J. F. Bullock.

The conference will adjourn at 12:00 noon.

Ware Transferred

Marshall T. Ware, electrical engineering graduate of the Class of 1951, has been transferred by the Westinghouse Electric Company from Pittsburgh to Charlotte, N. C.

Taps Payments Due April 28

All TAPS, Clemson's annual publication, must be paid for by Monday, April 28, according to information released recently by Tony Bowman, editor. Payments will be accepted in the TAPS Office in the basement of seventh barracks from 7 to 11 p. m. daily.

Piedmont Section Of Textile Chemists And Colorists Will Hold Meeting

The Piedmont Section of the American Association of Textile Chemists and Colorists will hold its annual spring meeting at the Clemson House on the Clemson College campus on Saturday, April 26. Dr. Harley Y. Jennings, of the Dan River Mills, Inc., Danville, Va., will preside over the Research Committee Meeting at 10 a. m. in the Textile School.

An officer's luncheon will be held at 1 p. m. in the Clemson House. The technical session

will begin at 3 p. m. in the Textile Building and will feature a discussion on "New Chemical Finishing of Textiles," by D. D. Gagliardi, of the Warwick Chemical Company.

R. H. Smith, of the High Point Chemical Company, and chairman of the Student Technical Contest Committee, will preside over the contest between students from Clemson College, North Carolina State College, and Georgia Tech,

who will present technical papers in competition for a trip to the national meeting of the association in Boston.

George McElroy, manager of the Owens-Corning Fiberglass Plant at Anderson, is to be the main speaker at the evening banquet, which will be held at 7 p. m. in the Saber Room of the Clemson House.

General chairman for the entire meeting is John S. Beattie, of the Abbeville Mills Corpora-

tion, Abbeville. Officers of the Piedmont section include J. C. Whitt, of Cone Mills Corporation, Greensboro, N. C., vice-chairman; M. M. McCann, Warwick Chemical Company, Burlington, N. C., secretary; and Arthur Thompson, Ciba Company, Incorporated, Charlotte, N. C., custodian.

Also, Dr. Harley Y. Jennings, chairman of the Research Committee; and Councilors Sumner H.

Williams, of the General Dyestuff Corporation; Linton Reynolds, of the Riegel Textile Corporation; Henry A. Rutherford, of the North Carolina State College School of Textiles; and Joseph Lindsay, Jr., of the Clemson College School of Textiles.

Sectional committee members are John S. Beattie; Wilford R. Sargent, of Scholler Brothers, Incorporated; Clarence Hooper, of Burlington Mills; and Russell G. Lawrence, of Robm & Haas Co.

If You Drive, Don't Drink, Luck Won't Last Forever

At this time of year many of us are being selected to assume various responsibilities affecting our campus life in 1952-53. Several principles that follow here have come out of the experience of several generations of college students.

We must keep in mind the chief objectives bringing us to Clemson: occupational preparation, cultural enrichment, social development, philosophical orientation, and spiritual maturation. Our curricular and extra-curricular activities should be chosen with these objectives in mind. We should select our organizations so that we will receive a balanced "diet."

As a minimum, we ought to insist on average academic standing for that standing is generally a valid indication of our intellectual achievement—the extent of our occupational preparation, especially, in most fields studied at Clemson.

We must select the extra-curricular organizations giving us the greatest dividends for the time invested. By all means we should participate in two different types of activities. We ought to work for a balanced development as a person.

We should take on only as much as we can do well. It is no credit to us, contributes little to our development, and adds little to the college for us to do a job poorly or carelessly. What's worth doing is generally worth doing well.

We should try to avoid the same types of responsibility in different organizations. We will get more and be able to give more in the long run, if we diversify.

We must learn when to say "yes" and how to say "no." And if we try to see the consequences of the "yes" and the "no," it will be easier to know which is in order. And it is necessary for us to be man enough to accept the consequences of our decisions. And also man enough to acknowledge our mistakes in judgment and action, and rectify them as much as possible.

It is right that we should take care of ourselves—body, mind, and soul.

At Clemson it is hard to follow these lines of action—primarily because it isn't the custom. But on the whole, the men who have achieved success here, and after, have followed such a course.

Students Should Plan College Activities

More than 52,000,000 motor vehicles traveled 465,000,000 miles in the United States last year. This is an all-time record. But, all those cars, trucks, and busses rolling all those miles killed 37,100 persons and injured nearly two million in 1951.

More than 11,400 drivers under 25 years of age were involved in fatal accidents and 416,000 more in personal injury accidents. Men and women under 25 constitute about 15 per cent of the total of all drivers. Yet they must accept the blame for more than 25 per cent of 1951's fatal accidents and almost 21 per cent of the non-fatal accidents.

Week-ends in 1951, as in 1950, were the most dangerous time of the week to drive. Starting with Tuesday, when only about 10 per cent of all accidents occur, the death and injury total rises steadily through Wednesday, Thursday, and Friday. From Friday afternoon until the small hours of Monday, America's streets and highways are a gory platform for half of the week's casualties.

The carnage is greatest on Saturdays, and last year's Saturdays took a record-breaking toll. Compared with the last day of every week in 1950, Saturdays in 1951 saw seven per cent more deaths and 13 per cent more injuries.

Why is Saturday so cruelly different? Part of the reason is simply that Saturday brings out more cars than any week-day. But so does Sunday.

Saturday night is traditionally party night in America, and too many Americans think they can handle intoxicants and their cars with all their faculties. The staggering drunk, bad as he is, is not the big problem. Drunks behind the wheel are vastly outnumbered by the drivers whose two or three or four drinks make them feel and look harmless. They don't reel when they walk—but they kill when they drive.

Resolutions

RESOLUTIONS OF THE SENIOR CLASS OF CLEMSON COLLEGE, CLASS OF 1952

1. Any property destroyed will result in expulsion.
2. Disorderly conduct in barracks or on campus will bring expulsion. This includes downtown Clemson and surrounding areas.
3. Men will be held personally responsible to the Senior Class for property damage.
4. Any tampering with college property or equipment will bring expulsion.
5. Any underclassman taking part in any Senior Day activities will be expelled.
6. The Senior Class accepts full responsibility for planning Senior Day, for the conduct of all students, and the punishment of any violators. In accepting this responsibility, the Senior Class alone will have the authority to turn in violators.
7. Any act against the betterment of Senior Day and not covered in the above regulations will result in expulsion.

TALK OF TOWN

Engineers - Architects Have Successful Fair

By "DOC" BAKER

ANOTHER SUCCESS

The week-end before Easter holidays will be marked as a successful one at Clemson. At this time the Architectural-Engineering Fair opened with splendor and amazement to Clemson's visitors from everywhere.

This event was started twenty years ago by the Engineering and Architecture students. Its purpose was depicting progress in these fields. After walking through any of the exhibit buildings, there is little doubt but that the boys were doing the same this year.

Nine different departments showed 101 displays. These projects were divided and assigned to the eight chartered, professional societies and one non-chartered club. (ASAE recently organized a Clemson chapter; member schools must be active two years before they are chartered by the national organization.)

As one of the spectators at this show, I made it a point to observe certain exhibits and the people's reactions to them. One of the interests put on by the Electrical boys was the wonders of a stroboscope.—Water appeared to be running upward instead of downward. Another apparatus rang bells if anyone came too close to a five-dollar bill which was placed on a table in plain view.

Around the corner, boys were playing "sparklers" with a million volts of electricity. Across the hall, lightning was striking a house protected by lightning rods. There were many other worthwhile pieces of equipment, but these are the ones that seemed to have a special appeal at the time I toured the building.

Upstairs, the modern art items and house models were drawing the crowds. By eavesdropping, I learned the folks were trying to interpret some of the artistic abstractions.

Among the articles put out by the prospective Mechanical Engineers, a suitcase that refused to be carried in a straight line was eye-catching.

Beside it, a diesel engine half-turned a pulley in both directions. According to the guide, it just "couldn't make up its mind." Walking down the aisle, crowds saw ping pong balls suspended and spun in mid-air by a jet of water.

Probably the most puzzling item was a ditty entitled "Water From Space." A spigot was suspended by wires; nothing else was attached to the faucet; yet, a forceful stream of water spouted from its mouth. An almost constant mob surrounded this "rain-maker" with gaping mouths and popping eyes. Some of them were really putting the pressure on "Blinky" Martin, the demonstrator, trying to learn the secret. A student chairman told me one bewildered man telephoned Dr. Sams, head of the Engineering school, in the middle of the night to find out how it worked. It seems the caller couldn't believe his eyes and was unable to sleep that night.

The Ceramics men attracted crowds with Professor Bickelhaupt at the potter's wheel. Also, the baking and glazing processes seem-

ed to have an eye-catching appeal. One of the funniest non-professional happenings I saw was in this part when a woman wearing a heavy, purple veil wanted to get a closer look at some vermiculite. Not wanting to raise or remove the "net", she was going through an ordeal trying to fit a pair of horn-rimmed glasses through the veil's holes.

Of course, there were many, many other items of equal value, but the aforementioned ones were especially noticeable by the average visitor.

Any demonstration uses attendance as a "yardstick" to measure effectiveness, success and value. During the fifteen hours the buildings were open, more than 5,000 people gazed at the sights offered to them. This means that the demonstrators were busy continuously.

Surely, all of Clemson is proud of the departments concerned and the magnificent job they did in making this one of the most successful Architectural-Engineering fairs.

UNBECOMING

Monday afternoon, three softball games were in progress on Bowman Field; yet, two platoons insisted on holding special drills in the middle of the playing field. Once, each group was perched in right and left fields, respectively. A third drill unit used Bowman Field, but its leader was thoughtful enough to practice under the trees near Tillman Hall and out of the way.

I am of the opinion that if two softball teams were to begin a game in the middle of a parade or inspection, there would be no end to the complaints, possibly no end to the orders to move on. Why doesn't the same hold true when the shoe is on the other foot?

TOO MANY RENTALS

Every time a formal event takes place on the campus, a few nearby merchants amass a small fortune by renting proper attire to Clemson students. This is all well and good—it is not my contention to deprive establishments of their profits; however, I do say let's save the troops money.

Probably the year's biggest event is the annual Jr.-Sr. banquet and ball. Roughly, I would estimate there are 700 students in these two classes. I dare say that 600 of them do not have formal clothing. Of course, the formal-dress uniform could be worn, but who likes to feel as if he were a weed in a flower garden?

Dismissing the uniform angle, there are two possible remedies. One would be to have a banquet semi-official, sanctioning dark business suits. To add flavor to the week-end, a costume ball could be held on one of the nights. Many of the students can create a costume cheaper than the \$7.50 they pay to rent a tuxedo.

The other solution is for some service organization to take it upon themselves to be rental agents. I don't think it would be hard for them to get a franchise on Clemson's demands. Even if they couldn't rent the "monkey suits" any cheaper, the money would at least remain at and benefit Clemson.

Television May Come To Clemson

By Forrest E. Cookson, Jr.

TELEVISION AT CLEMSON

Just the other day the FCC announced that Clemson had been given a television channel for educational purposes. Under the rules of the government there can be no advertising over those channels set aside for education. It seems to me that television at Clemson would really be a good thing, most of all if we could get started before any of the educational channels in the South. Let us hope that the South Carolina legislature will authorize expenditures for the construction of a station for the use of the college.

Such a station would open unlimited possibilities for the different schools to show the people of the state the kind of things that are learned at Clemson. It would also be the perfect media for the adult education program. TV lectures by the different schools could do much towards raising the educational standards of this part of the state.

Right now there are some colleges that give academic programs over radio and television, but as far as I know no school is as yet devoting an entire channel to college level education. If Clemson could be the first to introduce such a program, we would serve a very great need to the state and to the South as a whole.

MID-SEMESTER REPORTS

Once each year the registrar's office receives mid-semester reports on each student. These are the well known pink and blue slips. But our professors turn in another report on us which a lot of people do not know about. These reports rate each student on the following things:

1. Character
 2. Personal appearance
 3. Technical ability (Juniors and Seniors only)
 4. Leadership (Juniors and Seniors only)
 5. Class standing
 6. Native ability
 7. Earnestness
- and some others like this.

A student can be rated superior, average, and inferior. As all these reports come in,

they are averaged together and become part of the student's record. When you finally graduate, the registrar has a cumulative record of all of your professors' opinions of you. Then when some one is checking your record before giving you a job, they can look at this record and find out just what sort of fellow you will probably be.

Perhaps some of us should remember this in class and realize that we are being evaluated on more than just how much we can absorb from our teachers.

MAIL AT CLEMSON

One of the most important things in a Clemson man's life is the mail that he receives. I think everyone will agree with this. Now every day as all freshmen will testify, they have to make numerous trips down to the P. O. to get their mail and the mail of their upperclassmen. As everyone has different box numbers nobody can check too many boxes at once. Now I think that I have a way by which the mail for an entire company could be checked by one or two rats and save everyone the trouble of running down to the P. O.

Next time that you go to the P. O., look at the bottom layer of boxes. They are all large boxes. Whom they belong to I do not know. But if each company could be given one of these boxes then one freshman could get all the mail from one company at the same time. This would also save the troops the money spent on box rent.

If the big boxes belong to departments and schools then I think that these departments and schools could use several small boxes rather than one large one. If this is impossible then I suggest that the P. O. officials get together with the college and give each company a large pigeon hole in the P. O. This would serve the same purpose as the boxes.

It would be, of course, a necessity that all mail be addressed with the name and the cadet company. If this system could be carried out then the whole mail problem would certainly be simpler.

Letters To Tom Clemson

Dear Tom,

Monday night of this week the junior class sponsored the Variety Show in the college chapel, featuring girls from Anderson and some local talent. The show itself was very good, and it was evident that those participating had devoted much of their time to make it a good one.

These people deserve recognition, and yet, this is almost impossible. Some students at Clemson still try to play the "grammar school role" by sitting on the front row and participating in the show with undesired whistles and yells. Such was the case last Monday. The only difference is that these students are over grammar school age and the show was not a wild Western.

It is to be realized that some people like to be heard more than they like to listen, even though what they have to say is unrehearsed, undesired, and impolite. However, it seems that these people could control themselves at such times as last Monday night so others could enjoy the performance the way

it was intended.

Chances are that the Variety Show will never make another appearance here at Clemson. If not, maybe the students responsible for all of that disturbance last Monday will realize that it will probably be because of them. Maybe they will grow up some day, and then when a performance is given here they will consider the fact that they are not the only ones the performance was given for.

Sincerely,
Charlie Long

Dear Tom,

Last spring, when I made my campaign for president of the Junior Class, I promised that we would have one of the best Junior-Seniors possible this year. I think that one of the first requirements for a good one would be to charge a reasonable price. So I started looking around for a way of raising money in a way that would cause the least pain to everybody concerned. So I hit upon the idea of having the "Varieties"

show come over here from Anderson, and we were lucky enough to be able to put in some of our own local talent to make it even better.

So this past Monday you had the opportunity of seeing one of the best amateur musicals that has ever been to Clemson. No one accepted any money for taking part in the program. We all think that this was a fine gesture of friendship from our friends over in Anderson.

We would like to express our appreciation to the members of the cast; to our director, Miss Eleanor Cathcart; the accompanist, Miss Mary McConnell; all the girls from Anderson; and our own boys here at Clemson; to Hampton Furniture Company for the props; and to everybody that worked on committees.

But most of all, we would like to thank you for coming, Tom, and for helping make it such a success.

See you at the Junior-Senior. Sincerely,
Thomas F. Eskew
President, the Junior Class

The Tiger

Twenty-nine foreign officials, here for a five weeks course in dairy production are shown above with representatives of Clemson College. Those in the picture are: front row, left to right—D. W. Watkins, director of the Extension Service; Dr. H. P. Cooper, dean of the School of Agriculture and director of the Experiment Station; Professor J. P. LaMaster, head of the Dairy Department; Ludwig Eisenreich, Germany; Johann Heinrich Linser, Austria; Michael Hofer, Austria; R. D. Steer, extension cooperative marketing specialist and technical consultant; Viktor Gfeller, Austria; Hans Jettlund, Norway; and Erwin Walasek. Second row—Dr. Eugene Hecker, Germany; Viktor Josef Rang, Austria; Miss Sofia T. Mikovic, Yugoslavia; Miss Anne Staltenberg, interpreter from Germany; Walter Obritzhauser, Austria; Dr. Hilaire Gaston Doorme, Belgium. Back row—Rudolph D. Katalinic, Yugoslavia; Bogdan T. Sestan, Yugoslavia; Walter Kock, Austria; Gunnar Hadland, Norway; Franc F. Kervina, Yugoslavia; George Holder, Austria; Alfred Brockl, Germany; and Djordje J. Zonji, Yugoslavia.

Newsbriefs FROM EVERYWHERE

Eleazer Guest Speaker

Seneca—J. M. Eleazer, Extension Information Specialist of Clemson College, was guest speaker of the spring meeting of the Oconee County Council of Farm Women this afternoon at 2:00 p. m. The meeting was held at the Oak Grove school house.

Wilson Baptist Veep

Anderson—Chester A. Wilson, animal husbandry senior of Columbia was elected social vice-president of the South Carolina Baptist Student Council at the annual spring retreat held in Anderson.

Memorial Service

Abbeville—A memorial to Captain James F. Coleman, a Clemson graduate in the class of 1923, who was reported as missing in action in New Guinea in 1944, was erected on Easter Sunday at Melrose Cemetery in Abbeville. He offered his services as an electrical engineer in the last war. After a few months training, he was assigned to the Signal Corps and sent overseas. In 1944 he disappeared on a flight from Australia to New Guinea. He was last with twelve other men and no trace of the men or the airplane has ever been found.

Chapman Promoted

Mr. Wayne Chapman, an electrical engineering graduate of the Class of 1949 at Clemson, has been made district engineer of the Duke Power Company, with headquarters at Liberty. His territory includes Central, Clemson, and Six Mile.

Evans Is Speaker

Anderson—The Reverend Claude Evans, pastor of the Clemson Methodist Church, will be the guest speaker at the evening Fellowship meeting of Trinity Methodist Church next Sunday. His topic will be the "Christian Home."

Goodman Treasurer

Myrtle Beach—John Goodman, assistant librarian at Clemson College, was named treasurer of the South Carolina Library Association at the 31st annual meeting held Saturday at Myrtle Beach. J. Mitchell Reamer, member of the Clemson library staff, was named to the American Library Association Council.

Lt. Cmdr. Warren To Aid In Formation Of Research Unit

Lt. Cmdr. W. P. Warren from the Office of Naval Research, Washington, D. C., will be on the campus to talk to all members of the Naval Reserve who are interested in forming and affiliating with a Volunteer Naval Research Unit on the campus. Membership will be open to all ranks and rates of the Naval Reserve, and they will assist in the programs according to their training and ability. On Wednesday night 30 April at 7:30 p. m. Lt. Cmdr. Warren will talk to all interested Reservists in Room 114, Physics Building to give the information about the program and the requirements of the program. Affiliation with this proposed Research Unit will enable the Reservist to earn his satisfactory year of federal service and thus be able to retire with pay after he has accumulated twenty such satisfactory years.

The History Club will hold initiation for new members on Thursday, May 24. New members to be initiated at this time include W. D. Anderson, J. W. Compton, C. R. Massey, E. W. Noel, J. G. Same. Also, R. J. Sobocinski, F. G. Scott, C. S. Gregory, M. C. Branham, C. A. Gibson, and C. S. Simpson. The initiation will be held on the third floor of the Agriculture Building. The next meeting of the club will be held on May 1 at 6:45 p. m. Officers will be elected at this time.

Europeans

(Continued from Page 1)
Wisconsin for a similar course there. The visitors are not dairymen. Most of them are college professors or researchers or connected with commercial processing plants. All of them speak German and this is the common language for the class sessions. For the benefit of the ones who do not understand English, Miss Staltenberg, the interpreter assigned to the group by the Mutual Security Agency, translates into German and speaks into a microphone connected to the headphones of the trainees. At the end of their course at Clemson, the visitors will travel to Madison, Wisconsin. Four days will be spent in Chicago visiting the national headquarters of the meatpacking and dairy processing plants. They will return to Washington on June 12 before going back to their native countries.

that the "leg" show was all right Monday night. At least it was different.

—OSCAR SAYS—
that "Beauty" McClure and "Beast" Thompson sure do make a cute (?) couple.

—OSCAR SAYS—
that some of the boys around here should get their horns cut off. Catch? See Oscar for further information and directions.

—OSCAR SAYS—
that Smalls is just like a ball rolling down hill when he is singing—easy to start but hard to stop.

First Edition Of Devotional Book Distributed Soon

The first edition of Clemson's devotional magazine—The Clemson Tower—will be distributed shortly before Mother's Day. The Sophomore YMCA Council is sponsoring the publication, which was originated from ideas of members in an attempt to plan the semester's program.

Joe O' Cain, rising junior majoring in vocational agricultural education, and Bill Favor, rising junior majoring in arts and sciences, will edit The Clemson Tower. Both had experience in journalism while in high school, serving as editors of their school newspapers.

The new booklet will consist of editorial, short stories, poems, short devotionals, and articles all centered around the religious theme. It will consist mostly of original material from students. Plans are to use several articles written by teachers and alumni of Clemson. The staff which was selected recently is now securing original manuscripts. The Clemson Tower will be approximately 8 inches by 6 inches in size and will be mimeographed, with a printed cover.

The editor stated that contributions from any interested person will be appreciated. Any material on the religious theme is welcomed. The deadline for these contributions is Wednesday, April 30. Material may be sent to any member of the staff, the Clemson Tower.

The purpose of this new campus publication is "to cultivate new interest in religion and to create more serious thinking on the part of present-day college students." Tentative plans are to publish the booklet two or three times a year. Circulation will be approximately 900.

The assistant staff is headed by the three business managers, Edwin Nolley, Joe Lindsay, and William Byrd.

Other members of the new staff consists of Lamar Neville, Jerry Dempsey, and Jerry Hammett, in charge of art and make-up; David Townsend, Ronald North, Ed Andrews, and Jack Sherer, in charge of features; Jack Brown, circulation director; and Jimmy Willis and Bill Amick, circulation managers.

—OSCAR SAYS—
that he (oscar) hopes that "Footsie" Taylor will take some post graduate work up here so he can play in these pretty politics for a few more years.

—OSCAR SAYS—
that "Footsie" has been running ever since he was a rat. He (Footsie) just hasn't run far enough.

—OSCAR SAYS—
that he (Oscar) hears that Cline is so small that he has to wear taps on his heels so that you can hear him coming down the hall.

—OSCAR SAYS—
that he (oscar) wonders how many of the campaign promises will be kept this year. Not very many.

—OSCAR SAYS—
that "Combat" Jones even wears his uniform when he gets home. He sure does love it.

—OSCAR SAYS—
that the boys had better be careful with their bottles next year or the "big-bad" New Senior Council will nip them in the bud.

—OSCAR SAYS—
that there aren't many party boys on the new Senior Council. Looks like a bunch of missionaries to him (oscar).

Students Attend AIEE Meet In New Orleans

Three Clemson students and two faculty members attended the annual Southeastern Conference of the American Institute of Electrical Engineers in New Orleans April 16-19. Those representing Clemson at the meeting were: Professor F. T. Tingley, counselor of the local chapter; Professor H. V. Poe, who served on the judging committee for the student papers presented; R. C. Dwight of Sumter, chairman of the local chapter; J. D. Wolfe of Rock Hill; and W. G. Morrison of Anderson.

Host school for the conference was Tulane University.

Highlights of the week-end included a tour of the harbor facilities of New Orleans in a yacht, the "Good Neighbor," a banquet at Arnaud's, famous French restaurant, and a moonlight dance aboard the luxurious river steamer "President".

Gags From Other College Rags

By Rembert Stokes

With a hey and a ho, to Boscobel go,
The cats with their Bee-Bop glasses
Sounding on high the battle cry,
"To hell with books and classes!"
While spring is sprung, and hearts are young
And loyal to the mission,
We're keeping intact and balling the jack—
A helluva good tradition.

If a girl says she loves you more than anyone else in the world, she must have done a lot of experimenting.

Dear Son:
I just read in the paper that students who don't smoke make better grades than those who do. Please think about this.

Love,
Father

Dear Father:
I would rather make a B and

have the enjoyment of smoking. In fact, I would rather smoke and drink and make a C; furthermore, I would rather smoke and drink and neck and make a D.

Love,
Son

Dear Son:
I'll break your darn neck if you flunk anything.

She: Honey, you don't mind if I wear velvet instead of silk, do you?

He: No, dear, I'll love you through thick or thin.

Law professor at registration: So you're Pre-Legal, huh?
Student: I'm the youngest in our family.

A dumb girl is a dope.
A dope is a drug.
Doctors give drugs to relieve pain.
Consequently,
A dumb girl is just what the

doctor ordered. Did you see in the paper where a fellow beat his wife to death with a golf club? No, how many strokes did it take?

"Drink broke up my home."
"Couldn't you stop it?"
"No, the still exploded."

PACK, TAR HEELS TO INVADE TIGERTOWN

Coach Smith's Tiger nine should have their hands full this weekend when they engage two strong Tarheel teams, North Carolina and North Carolina State.

The Bengals looked better than they have all season against The Citadel and perhaps that game could mark the beginning of a winning streak for the Tigers.

Both the visiting teams boast rather strong outfits and both have better than .500 average in the games they have played this season.

Bobby Saylor still looks to be the best hurler for the Tigers as his pitching effort against the Cadets Saturday seems to bear out.

As was expected, Knobby Knoebel is the team's leading hitter. Third baseman Wyman Morris is also giving the Tigers a lot of punch at the plate.

TRACK TEAM WINS MILLIGAN RELAYS

Though the competition was a little stiffer this year the Tiger track team copped the Milligan relay for the second year in a row with four points to spare.

The Tigers managed to take first place in the meet, taking first, second and third in the high jump and the discus.

Big Dreher Gaskins was top man for the Tigers this year as he tied for first place in the high jump, placed second in the shotput and second in the discus.

But even though the Tigers won, it was still a far cry from the team's performance last year when they set seven new records and completely outdistanced the other teams in the meet.

JV NINE HAS GOOD RECORD

The junior varsity baseball nine is showing up the varsity team this year as far as won-lost records are concerned. Thus far the Cubs are holding a record of six wins and two losses.

The next encounter for the Cubs will be at Calhoun Falls against the Clippers there tomorrow afternoon.

Coach Birdog Hughes is very pleased with his team this year, both with their record this year and the spirit and hustle they have shown on the diamond.

Second baseman Don Shane is the club's leading hitter, with his average hovering around the .500 mark. Farrell Owens has shown up thus far as the team's outstanding hurler. He has pitched a one-hitter and a two-hitter in games this season.

Three freshmen have also looked exceptionally good in play thus far, centerfielder Gray, rightfielder Howard, and catcher O'Quinn. They all appear to be varsity material next year. Ballard has also looked great at his first base position.

The JV's must be a fast group of boys. In the last three games they have stolen 33 bases which should be some sort of a record.

SAYLORS, O'DELL LEADING HURLERS

Bill O'Dell has been the hardest working Tiger pitcher this season, having worked in 31 innings. O'Dell is also the leader in strikeouts with 44 and boasts the best earned record on the team. He has won two and lost two.

Bobby Saylor, the Greenwood soph, is the only undefeated hurler among those who have pitched over 10 innings. He has won one and has no setbacks. But Saylor has the dubious distinction of throwing the most home run balls with four being blasted while he was on the mound.

The pitching statistics are as follows:

Pitcher	IP	SO	H	BB	R	ER	2B	3B	HR	W	L
Baker	19	9	31	10	21	9	8	0	1	0	2
Crosland	12-4	10	18	13	16	6	1	3	1	0	3
Dempsey	31-2	2	1	5	2	1	1	0	0	0	1
Hall	71-3	4	7	8	6	4	0	1	1	0	0
Hicks	242-3	7	35	4	25	14	10	0	1	1	2
O'Dell	31	44	30	17	27	9	1	1	2	2	2
Saylor	182-3	14	19	6	13	10	7	3	4	1	0
Stehmeyer	51-3	6	2	5	3	0	0	0	0	0	0

Clemson Splits With The Citadel, 5-8 And 14-4

Knoebel and Morris Lead Tigers At The Plate; Saylor Pitches

After losing Friday's game, 8-5, to The Citadel, the Clemson Tigers came roaring back to cop Saturday's contest, 14-4, to gain a split in the two-game series.

The win Saturday broke an extended losing streak for the Tigers. They now have a record of four wins and 10 losses for the season.

FIRST GAME

The Tigers got off to a great start by punching across two runs in the initial frame but the Cadets tied it up in the second and then went ahead 4-2 with two more tallies in the fourth inning.

The Citadel put the game on ice with four runs in the sixth. Allen started the rally with a single. Long then doubled and Denny singled to tally both of them. Rierison doubled after Wilcox had batted a two-baser to push across two more runs. That was all for Tiger starter Hicks, but Roger Baker got Strange and Chapman on infield taps that finished the scoring for that inning.

The Tigers rallied for two runs in the bottom of the sixth and Wyman Morris hit a round tripper in the ninth but The Citadel still had enough runs to take the 8-5 victory.

SECOND GAME

The Tigers found their batting eye in the second game and led by Knobby Knoebel who clouted a grand slam homer in the fourth blasted The Citadel, 14-4, Saturday afternoon.

Knobby's wallop erased a one run lead that the Cadets had held to that time. Knoebel knocked in six runs with his homer and a double bagger.

The Tigers scored two runs in the seventh and then sewed up the game with an eight run surge in the eighth frame. Roy Coker's three run homer was the big blow of the inning.

Chapman's homer added one more run to the Cadet total and they added two more in the ninth. Bobbie Saylor gained credit for the win, his first of the season, by neatly scattering eight hits along the route.

Clemson Cindermen Win Milligan Relays

The Clemson track team won the Milligan Relays with a total of 88 points, while Tennessee Tech was close behind for second place with 84 points. The other teams in the meet were Eastern Tennessee Teachers, Milligan, Lee McRae, and Bryan. Last year's Clemson team broke several records and literally ran away with the meet, but this year's squad found T. P. I.

The only news available for the summary of the meet was the places that the Clemson team made in each event.

Summary: The number in parenthesis indicates the place each man had in the event.
100 yard dash—(2) Freret
120 yard hurdles—(2) Richardson, (3) Slattery

440 yard dash—(2) George, (3) Lorelle, (4) Buck
1 mile run—(1) Cason
220 yard hurdles—(3) Richardson and Radcliff (tie)
High jump—(1) Gaskins, Mitchell, and Slattery (tie)
Broad jump—(4) Shearer
Pole vault—(2) Folger, (3) Fain, (4) Cochrane
Shot put—(2) Gaskins, (3) Radcliff

Discus—(1) Evans, (2) Gaskins, (3) Rivers
Javelin—(2) Freudenberger, (3) Evans, (4) Odum
440 relay—(2) (Whitten, Wells, Joye, Freret)
880 relay—(2) (Whitten, Shearer, Joye, Freret)
Sprint medley—(1) (Buck, Sanders, Doar, Cason)
Mile relay—(1) (Buck, Lorelle, Doar, George)

Tennis Team Defeats Carolina Here, 7-2 For Seventh Win

In a return match with the University of South Carolina, the Clemson College tennis team defeated the Carolina netmen, 7-2, for their sixth consecutive win.

The Tigers had previously defeated the Birds in Columbia last Monday.

Results:
Draper (C) defeated Poore, 6-1, 6-3.

Asnip (C) defeated Potter, 6-0, 6-6.

Trapp (C) beat McCredie, 6-0, 6-0.

Moxley (C) defeated Seamen, 6-3, 6-0.

Coleman (C) defeated Wilder, 6-3, 6-4.

Seaborn (C) defeated Bones, 6-1, 3-6, 6-2.

Draper and Trapp (C) defeated Potter and McCredie, 6-0, 6-1.

Poore and Bones (SC) beat Stokes and Seaborn, 4-6, 6-2, 8-6.

Watts and Martin (SC) defeated Kinsey and Owen, 3-6, 6-3, 8-6.

display for Mother's Day were also discussed at this meeting. The display will be mounted on the bulletin board in the lobby of Tillman Hall.

Prints to be included in the display must be turned in to Sgt. Rimmer in the Commandant's office by Friday, May 9, at 4:30 p. m. If any member turns in more than one print he is requested to place his numerical choice on the back of the print. Prints will be placed on standard mounting.

Tiger Cindermen Meet PC Saturday

The Clemson cindermen will be on home grounds for the last time this season when they take on Presbyterian here Saturday afternoon. The meet will start at 2:30.

The meet should be the toughest of the season for the Bengals. PC beat South Carolina when the two teams met this year.

But the Tigers hopes were brightened this week by the return of Jimmy Wells in the 100 and 220 events. This will be the first meet that Jimmy had been

ready to run. Coach Norman also said that he will also run Buck George in the 220. Buck put on a great performance in the mile relay in the Milligan meet last Saturday.

Though PC is lacking in depth they have a few men who rank with the best in the state. Jordan is perhaps the best 100 and 220 runner in the State and Horne throws the shot and discus exceptionally well.

One of the best races in the meet will be between Ronny Richardson and PC's Watts in the hurdles.

Clemson Men Invited To Present Program Washington Alumni

Harry M. Lightsey, of Columbia, President of the student body; L. M. Stephens of Canton, N. C., Cadet Colonel; Bill Shuler, Chaplain of the Cadet Corps, of Sumter; and John Stanley, of Conway, President of the 'Y', have been invited to accompany Mr. Holtzendorf and have part on the program of the Washington Alumni.

Be Happy-Go LUCKY!

I wonder if my answer's right
Each time I take a test.
No guesswork, though, for cigarettes—
For Luckies taste the best!

Barbara Mencher
Brooklyn College

In a cigarette, taste
makes the difference—
and Luckies taste better!

The difference between "just smoking" and really enjoying your smoke is the taste of a cigarette. You can taste the difference in the smoother, mellower, more enjoyable taste of a Lucky... for two important reasons. First, L.S./M.F.T.—Lucky Strike means fine tobacco... fine, mild tobacco that tastes better. Second, Luckies are made to taste better... proved best-made of all five principal brands. So reach for a Lucky. Enjoy the cigarette that tastes better! Be Happy-Go Lucky! Buy a carton today!

When I light up a Lucky,
I know just what's in store—
A cigarette of mildest blend
And taste that calls for more!

Donald K. Hess
Franklin and Marshall College

L.S./M.F.T.-Lucky Strike
Means Fine Tobacco

The Rebels and the Yanks were foes,
But now they all agree
That nothing else can match the taste
Of L.S./M.F.T.

Tigers To Meet N. C. And N. C. State This Week-End

Clemson JV's Rip LaFrance And Greenville For Wins Five And Six

Clemson's Tiger baseball team will play host to two North Carolina teams here this week-end when they meet the University of North Carolina here Friday afternoon at 3 o'clock and the N. C. State Wolfpack Saturday afternoon.

The Clemson junior varsity won its fifth and sixth game of the season by defeating LaFrance, 10-1, last Saturday and taking Greenville high school, 9-0, last Monday. The Cubs have lost two contests thus far this season.

The Baby Bengals' next encounter will be with Calhoun Falls tomorrow afternoon at Calhoun Falls.

Coach "Birdboy" Hughes was very pleased with the appearance of Cubs and said he thought that they played their best games this season.

Results of the two games:

Animal Husbandry Judging Contest Is Announced

The Animal Husbandry Judging Contest is now open to any student majoring in agriculture who has not had Animal Husbandry 306 and is not trying out for senior judging team.

Those trying out will practice on Monday, Wednesday, and Friday at 4:00. All students interested will meet in front of Dairy Building.

Awards will be given to winners at banquet given for all members of the contest.

Suber Re-elected President Of Tri-County Club

Robert D. Suber, Jr., rising junior majoring in agricultural engineering from Orangeburg, was re-elected president of the Tri-County-Clemson Club last Thursday night, April 17, at a special meeting held in the YMCA club room number 2.

The members of the Tri-County Club are students from Orangeburg, Calhoun, and Bamberg Counties.

Other officers elected were as follows: Carl Francis Martin, sophomore from Ellmore, vice-president; Dalton Judy, junior from Orangeburg, secretary; Jackie Sanders, sophomore from Cordova, treasurer; and Joe O'Call, sophomore from Orangeburg, reporter.

Each year the club sponsors one formal dance. Last year the Tri-County Club had a dance at the Orangeburg Army at which the Clemson Junglers furnished the music.

Competition For Trustee Medal Held April 28

The Department of English at Clemson has announced that the final elimination for the Trustee's Medal will be held in the Chemistry Lecture Room on Monday, April 28, at 7 p. m.

An elimination to narrow the final contest to the five best candidates was scheduled to have been arranged after all entries were made. These finalists will deliver their speeches before the assembled sections of English 301, Public Speaking, on April 28, and classes in English 301 will be suspended on Friday and Saturday, May 2 and 3.

Students in English 301 have been notified that they are expected to be present and that attendance will be checked.

The Trustee's Medal, given since the earliest days of the college to the best speaker in the competition, is the oldest and one of the most distinguished awards offered by the college.

Professor Joseph Lindsay, head of the textile chemistry and dyeing department of the Clemson school of textiles, attended meetings of the National Council of the American Association of Textile Colorists and Chemists and its general research committee which were held in New York City last week-end.

Professor Lindsay is a counselor for the Piedmont Section of the Association which is holding its annual spring meeting at the Clemson House this week-end. The American Association of Textile Colorists and Chemists is composed of members from education and industry.

MEET YOUR TEAM

Roy Coker

By Carroll Moore

One of the most improved ball-players on this year's Tiger baseball squad is Roy Coker, the Bengal's big-little second baseman. This is Roy's first season on the

defensive men on the Bengal's squad.

Besides being recognized as a star defensive man, Roy ranks among the top three in the Clemson offensive as he has appeared at the plate 47 times and has collected 18 hits for a batting average of .375. In the Citadel game last Saturday, Roy hit a homer in the bottom of the eighth inning with two men on base to put the Tigers ahead by the score of 9-4.

Roy stated that the team has gotten off to a slow start, but he believes that they were now beginning to work together as a team and should end the season with a better record than the fans think.

He added, "We have really got a swell bunch of boys on this year's team as well as some very good baseball prospects for the years to come."

Coach Bob Smith said that Roy's hitting ability and excellent fielding have made him one of the most valuable men on this season's squad.

Wyman Morris

By Bill Burnett

One of the players making a name for himself on this year's baseball nine is a little third baseman from Olanta.

Wyman played three sports, football, basketball, and baseball in high school for four years, two years at Olanta and two at Sherwood, S. C. During his senior year he captained the baseball, football, and basketball teams. On the football field he played left half, he played guard on the basketball team, and played third base, catcher, and pitcher on the baseball team.

The Arts and Sciences sophomore's batting average for four years of high school play was .420, and his average his senior year at Sherwood was an even .500. In the three years that Morris played American Legion baseball he batted .365, and while playing with Hemingway of the Coastal League last summer he batted a high .409.

So far this year for the Tigers, Wyman has been a big man at the plate, hitting in the clutches with an average around .380. He and Knobby Knoebel seem to be battling it out for an RBI record on the Clemson team and both of these players are among the leaders in the conference. Morris plays his third base position in an excellent manner and plays it cool in the tight spots. His hustling and his ability to play has brought him into the eyes of all of the Tiger supporters and many of them are beginning to call him "Sluggo" Morris. His friends started this

varsity nine, and if he continues to play the calibre of ball that he has in the first part of this season, he should prove to be the main spark in the Tiger line-up for the next two seasons.

Roy entered Clemson in September, 1950, from Taylors High School where he lettered in two major sports, baseball and basketball. Roy played short-stop on the high school baseball squad and led the team in hitting his junior and senior years.

His junior season, he hit .390. During Roy's final year in high school baseball he hit an amazing .523 for the season. This outstanding batting average and his excellent fielding ability placed him on the C Class All-State team.

Roy stands only 5' 8" and weighs 150 pounds. His agility and smooth maneuvering ability are the key to his excellent fielding. Fans who saw the Clemson-Citadel game here Saturday saw Roy make two almost impossible fielding plays as he came over from his second base position to field the ball back of first base and go on to throw the runner out. Fielding gems such as these have made Roy one of the most dependable

Lindsay Attends Textile Meetings In New York City

Professor Joseph Lindsay, head of the textile chemistry and dyeing department of the Clemson school of textiles, attended meetings of the National Council of the American Association of Textile Colorists and Chemists and its general research committee which were held in New York City last week-end.

Professor Lindsay is a counselor for the Piedmont Section of the Association which is holding its annual spring meeting at the Clemson House this week-end. The American Association of Textile Colorists and Chemists is composed of members from education and industry.

Clemson's 1952 Tennis Team

The Tigers now have a record of 4 wins against 10 losses. In a two game series with The Citadel last week-end, the Bengals dropped the first one by the score of 8-5 and won the Saturday afternoon game by the score of 14-4.

The University of N. C. Tar Heels headed by Coach Bunn Hearn, will bring his strong squad here to Clemson with an array of players from last season's UNC team with plenty of experience behind them. They are lacking in depth but have a good first team.

Second baseman Mark Herring heads the offense for the Tar Heels for the second season in succession. Another one of their stars is Captain Ben Smith, first sacker for the Tar Heels. Dick Wiess, veteran catcher for the North Carolina team will also add power to the visiting squad.

Coach Bob Smith, Clemson mentor, stated that he expected to start Robby Saylor on the mound for Friday's game. The starting pitcher for Saturday's game is still undecided but will probably be between J. C. Hicks, Roger Baker, or Charlie Hall.

Former Clemson Man Killed In Auto Crash

Leland R. Cannon, Class of 1950, of Anderson was fatally injured early Tuesday morning when his car ran into an embankment at the junction of two highways three miles from Timmonsville. He died in an ambulance enroute to McLeod Infirmary at Florence.

Mr. Cannon was a veteran of World War II, a member of the American Legion, and of the Moose Lodge in Anderson. He was salesman and assistant manager of the Anderson Specialty Company.

Funeral services were held Wednesday afternoon in Anderson.

nickname in a joking way, but many of the fans have picked it up and the way he has been hitting the ball lately, the name seems to fit him perfectly. He has three home runs to his credit so far, and one of these was a grand slam.

He said that this year's team had some excellent ballplayers on it, but with the lack of experience of playing together has handicapped it some. He also said that Clemson should have an extra good team next year because the boys will have more experience of college ball and playing together. The only ones that will be lost through graduation are Baker, Knoebel, and Evans. The rest of this year's team is made up mostly of sophomores and freshmen. He said that he thought the team was doing fine with nearly all rookies in the lineup.

Tiger Netmen Beat Furman Second Time Here Tuesday, 5-4

The Clemson netmen defeated Furman here, 5-4, Tuesday afternoon for their eighth win in a row. It was the Tigers second conquest of Furman.

Results:

Roberts (F) defeated Draper, 6-4, 6-3.

Maddox (F) defeated Asnip, 9-7, 2-6, 7-5.

Trapp (C) defeated Ransbotham, 8-6, 3-6, 6-3.

Moxley (C) defeated Rogers, 6-1, 6-0.

Coleman (C) beat Riddick, 6-3, 6-4.

Miller (C) defeated Howell, 6-1, 6-4.

Roberts and Ransbotham (F) defeated Draper and Seaborn, 6-4, 2-6, 6-1.

Maddox and Rogers (F) defeated Asnip and Moxley, 6-1, 6-4.

Coleman and Langford (C) beat Riddick and Howell, 6-3, 6-4.

Morris has two more years and should prove to be one of the greater players who has been at Clemson in a good while. He plays his heart out to win a game and he likes to win, but he is also a good loser and an excellent sport. Coach Smith said that Morris was a great help to the team while playing the previously weak hot corner spot. Now Clemson fans will not have to worry about finding a good third baseman for the next two years anyway.

Tennis And Golf Are Leading Competition In Intramurals

Schedules are out this week for Intramural tennis. Players are requested to play opponents as scheduled and report the score to Mr. Cooper. Each player will be scheduled against a different opponent next week, and then the drawings for the tournament will be posted.

Those who signed up for the golf tournament are to play 18 holes and turn in their score card to Mr. Cooper. Drawings for flights will be made around May 1st and the tournament will be match play.

With the rain and baseball games on Mondays, Wednesdays, and Fridays the softball league has been cut short on games. Next week, however, presents a full schedule and then the playoffs will begin. A-4 is the only team in group I that has a perfect record with three wins and no defeats. The Faculty is leading group II, while the Block C club is leading group III, and C-1 is the leader of group IV. After next week's schedule games, the winners of these groups will begin to play for the championship.

100 High School FFA Members To Meet Here

Approximately 100 members of the Future Farmers of America, with their vocational agriculture teachers representing various sections of South Carolina, will be guests of Clemson College Friday and Saturday, April 25 and 26. The boys are members of their respective high schools graduating classes.

The Clemson Collegiate Future Farmers of America Chapter and the Alpha Tau Alpha Chapter will be in charge of arrangements for the group.

Activities planned include a program Friday night, at which time information about Clemson will be presented, along with a program of entertainment including a football picture.

Saturday morning a tour of the campus and experiment stations will be made. In the afternoon the group will be guests of the athletic department at the baseball game between Clemson and North Carolina.

Mr. Walter Cox, assistant to the president, has been working with the local group of students making the necessary arrangements.

Baptists Plan Revival Series Next Week

The revival at the Clemson Baptist Church will begin Monday evening, April 28, at 7:15 p. m. It will be continued through Sunday evening, May 4. Services will be held daily at 10:00 a. m. and 7:15 p. m. however there will be no Saturday morning service and the Sunday evening service will begin at 7:30.

There will be a Sunday School assembly on Sunday morning, May 4, at 10:15, at which time the Reverend Mack M. Goss will speak to the entire Sunday School.

Mr. Goss' general theme will be "If the People Don't Come—Go!"

Mr. Goss is a graduate of Mercer University and of Andover-Newton Theological Seminary. He has held churches in Walhalla, Summerville, Hartsville, and has recently gone to be pastor of the First Baptist Church in Hendersonville, North Carolina.

Dr. Crouch To Speak Sunday

Dr. S. J. L. Crouch, pastor of the Fort Hill Presbyterian Church of Clemson will be the speaker at a public meeting on Sunday, April 27, at 3:30 p. m. in the new Chemistry Auditorium of Clemson College. His subject will be "The United Nations" a Force for Man's Welfare.

This spring Dr. Crouch was sent as a delegate to the third annual meeting of the American Branch of UNESCO held in New York. He was chosen by the Board of Education of the Presbyterian Church of the U. S. as a delegate from South Carolina because of his background of travel, of study, and of his teaching on international relations. The American Branch of UNESCO consists of one hundred men, selected from every walk of life and all areas of culture in the United States. It acts in its particular fields as an advisory agency to the State Department.

The Clemson Lions Club and the Clemson Branch of the American Association of University Women, co-sponsors of this meeting, cordially invite the public to hear Dr. Crouch's discussion.

Stephens, 34 Oakland Circle, Canton, N. C. They will spend four days at the academy, from April 30 to May 4.

The cadets will visit the academy in company with 110 other selected ROTC cadets from throughout the United States. According to information received from the sesquicentennial director the visiting cadets will be integrated into the West Point corps of cadets for the duration of their stay.

While at West Point the visitors will be provided with individual cadet hosts. They will take their meals in the Cadet Mess along with their hosts, march to classes, and conform to the general routine of the cadets.

Cadets Anspin and Stephens will leave Clemson by train for New York City on April 30.

21 Freshmen Initiated Into Phi Eta Sigma

Twenty-one Clemson freshmen were initiated today into the Clemson College Chapter of Phi Eta Sigma, national freshman honor society. The fraternity is the only honor group open to Clemson freshmen. To become a member, the freshman must have an accumulative grade point ratio of 7.5 (out of a possible 9.0) or better for either his first or his first two semesters.

New members are as follows: William Donald Ashcraft, electrical engineering major of Florence; John Martin Bailey, Jr. of Seneca, electrical engineering; Melvin Eugene Barnette, arts and sciences major from Pendleton; Garland Franklin Brewer from Seneca, majoring in mechanical engineering; Arthur English Brown, a ceramic engineering major of Florence; and Niles Craig Clark, Jr., of Watertown, animal husbandry.

Also, Clarence Westmoreland Davis, textile engineering major from Abbeville; Thomas Champion Drew, Jr., mechanical engineering major from Gaffney; Robert Bertram Dupree, Jr., mechanical engineering major of Wofford; William Alfred Gaskue of Marion, an electrical engineering major; and James Travis Greene of Augusta, Ga., arts and sciences.

Also, William Theodore Jeffries, textile manufacturing major of Orangeburg; Angus McPherson Lander, III of Spartanburg, chemical engineering; Samuel Lindsay Lemmon, Jr., of Conway, mechanical engineering; John Connor Leutwyler, chemical engineering major of Savannah; and Allston Thomas Mitchell of Greenville, a double major in textile engineering and textile manufacturing.

Also, James Aubrey Murphy, textile engineering major of Starr; William Francis Stafford, chemical engineering major of Oswego; Charles A. Strait, Jr., of Rock Hill, a major in mechanical engineering; and Cecil Jerome Walters, agricultural engineering major from St. George. Charles E. White, chemistry sophomore from Sumter, is president of Phi Eta Sigma at Clemson.

Alpha Phi Omega To Elect Officers

Alpha Phi Omega plans to hold election of officers for next year on Monday, April 28, at 8:45 p. m. All members are urged to be present for this meeting.

Tentative plans for the Alpha Phi Omega annual banquet have been made for Monday, May 5. Final plans will be announced later. Plans have also been made to re-decorate the club room, to hold an intermission party for the Junior-Senior, and to operate an information booth for the visitors on Mother's Day.

Shown above is the recently installed record player table which was built for the Music Department by the Electrical Engineering department. The table can accommodate four records at once. Sixteen people may listen at one time, each record player being equipped with four headphones. Looking over the new equipment are Mr. R. E. Lovett (third from right), head of the music department, and Miss Cornelia Graham (third from left) librarian.

Shigley Heads Research On Testing Machine

Engineers at Clemson have recently completed construction of a testing machine for measuring cutting forces on sawteeth at actual operating speeds.

Designed to measure tooth force at speeds up to 12,000 feet per minute and feeds up to one quarter inch in depth, this machine is the newest in the School of Engineering Research laboratories. Said to be the only testing machine in the world of this nature, it is expected that many wood processing industries throughout the United States will take advantage of the facilities made available for research.

In the past sawteeth have been built and shaped to a tradition rather than designed on a fundamental scientific principle, according to Professor J. E. Shigley of the Clemson School of Engineering and Director of this research. It is our aim to determine which tooth shapes possess the highest cutting efficiency with various woods and grains, he continues, and determine if there exists a tooth shape for which sharpness is not very important.

Former Clemson Student Promoted At Specialist School

Clarence W. Maffett, Jr., who attended Clemson College, was recently promoted to the rank of sergeant while attending the Army's Eta Jima Specialist School in Japan.

Camp Eta Jima, located in southern part of central Japan, is a principal Army training center in the Far East area. It occupies the grounds of what was once the key academy for officers of the Japanese navy.

Sergeant Maffett, a member of Company I, is serving as engineering instructor in the school. As a civilian, he was employed by the State Highway Department of Georgia.

Faculty Approves May 6 As Senior Holiday

The faculty has approved May 6 as Senior Day. All that remains to be done now is the planning.

At present, the administration is making plans to raise the necessary funds for the holiday.

Committees are well underway working on their respective projects. The committee chairmen include the following students: recreation, Bob Hughes; food, Bob Johnson; dance, Bill Brown; publicity, Tony Bowman; and dimes, Bill Prince.
