## Green Leaves For Australia; Hubbell Is Visiting Professor

**Duke Teacher Here For Semester; Green Honored With Fulbright**

By Connie Faucette

As the spring semester begins there are two important changes in the English Department. Dr. Claud B. Green has been awarded a Fulbright Lectureship at the Universities of Sydney and Adelaide, in Australia and will leave Clemson early this month for a year's leave of absence. The second change, and one that will affect Clemson immediately, is that for the spring term Clemson will have as visiting Professor of English one of the country's most distinguished scholars, Dr. Jay B. Hubbell, Professor Emeritus of American Literature at Duke University.

Dr. Green is the first Clemson faculty member ever to receive a Fulbright Award, and the second from South Carolina. He is a native of Clayton, Georgia, and received his A. B. and M. A. degrees from the University of Georgia. Dr. Green obtained his Ph. D. from Duke University. He has been a member of the Clemson English staff since 1940, and is the author of the forthcoming biography of John Trotwood Moore, a Tennessee man of letters.

Dr. Green will go from here to San Francisco and then proceed to Australia by boat, arriving in time for the beginning of the fall semester in Australia. He will lecture on American Literature at the two universities and will return by way of Europe early in 1956, thus completing an around-the-world tour.

Clemson is indeed sorry to see a man such as Dr. Green leave, but it is a real honor both to him and the college to be awarded a Fulbright Lectureship.

Dr. Jay B. Hubbell comes to the English staff from the University of Virginia where he was a visiting professor of English for one year. He is, by reason of his wide reputation and his many honors, probably the most distinguished scholar that Clemson has had on its faculty. Dr. Hubbell is the country's leading authority on Southern American literature, and his recent history, *The South in American Literature, 1607-1900*, published by the Duke University Press is a landmark in that field of scholarship. He is author of an anthology, *American Life in Literature*, which has gone through several editions including the Armed Forces' Institute.

Dr. Hubbell has also published *The Last Years of Henry Timrod*, one of the few books on this great South Carolina poet, and is the co-author of the book, *Introduction to Drama*, which is used here at Clemson. He is, in addition, author of scores of scholarly magazine articles, having served as editor of *"The Southwest Review"* and having founded the journal, *"American Literature"*.

Dr. Hubbell did his undergraduate work at the University of Richmond. He received his M. A. at Harvard and his Ph. D. from Columbia University. He was head of the Department of English at Southern Methodist University from 1921 to 1927, and in addition to his professorship at Duke University until his recent retirement, was Visiting Professor at the University of Vienna in 1949 and 1950, and Fulbright Professor at the University of Athens in 1953. He has also taught at the University of North Carolina and Wake Forest College. Dr. Hubbell is past vice president of the Mod-

## Announce Changes For Dining Hall

Jimmy Humphries, student body president, announced this week that students will be admitted to the dining hall for meals about ten minutes earlier starting at dinner, Monday, Feb. 13.

The student government has obtained permission of college officials to experiment with this in order to lessen the confusion and tiresome waiting outside the dining hall before each meal.

Humphries stressed the fact that this will be only on a trial basis for the first week and that it is a success will be continued indefinitely.

Certain rules have been made to accompany this change. There will be no smoking in the dining hall before the meals, due to the lack of ashtrays on the tables. Students will be asked not to run after entering the dining hall. Waiters will be serving hot dishes to the tables and some confusion could be caused by unnecessary running. The third and perhaps most important rule is that of not eating until after the divine blessing. This rule has been true so far this year and will continue after this change is made.

## New Freshmen Requested to Get Heads Skinned

It has been called to the attention of the student body that certain freshmen who entered Clemson this month have not had their traditional haircut. Student government officials have requested that all new freshmen who have not had their heads shaved to do so at the first opportunity. It has been stressed that this is not a college rule but rather a tradition. Freshmen who do not conform with this policy will be talked to personally by student government members.

## Senior Platoon Leaves For Marti Gras Festival

Approximately 50 members of the Senior Platoon, Clemson's crack drill team will leave the campus shortly after dinner tomorrow for their annual trip to the Marti Gras Festival in New Orleans.

Traveling by bus and several cars the platoon expects to arrive at its destination sometime around noon Saturday. Platoon officials have stated that the members will be housed at the Naval Air Station during their visit to the festival.

The drill team will participate in the Comus parade Tuesday night and will leave for the return trip to Clemson on Wednesday. They should arrive back sometime Thursday morning.

## Glee Club Goes North For Concerts

The Clemson College Glee Club will journey to Rensselaer Polytechnic Institute, Troy, N. Y., to take part in "The Big Sing" to be held there on the night of May 18. The Clemson Glee Club will appear on the program with the Glee Clubs from three other colleges and universities — Yale University, Dartmouth College and Rensselaer Polytechnic Institute.

The annual Conference Seminar of the Intercollegiate Musical Council, of which will be the major public event, will begin on Thursday, May 17, and continue through Saturday, May 19, and will consist of intensive discussion panels among the directors and student officers of college music organizations of male students. Frank H. Baxter, president of the Intercollegiate Musical Council, New York City, will preside over the general sessions.

Collaborating with Joel Dolven, director of music at Rensselaer in plans for "The Big Sing" in May are Fennel Heath of Yale, Paul Zeller of Dartmouth, and Hugh McGarrity of Clemson. The preliminary plans call for several combined numbers by the four clubs, and also a group of songs of its own by each club, to round out the program.

## NOTICE!

The Veterans Club meets on the second and fourth Tuesday of each month in Room 1, Chemistry Building. All veterans are urged to attend these meetings and to join the Club.

Sponsors for the Central Dance Association of Clemson College which will present the Mid-winters Ball, February 10 and 11 are: (Top row, left to right) Miss Emma Jenkins of Columbia, for Powers McQueen, Decorations Chairman, from Columbia, S. C.; and Mrs. Carl Pate for Carl Pate, Alternus, from Bennettsville, S. C. Woody Herman and his Orchestra will furnish the music for both dances.

## Herman And Third Herd To Be Featured At Dances Here

Tomorrow night at nine o'clock Woody Herman and his Third Herd will raise the curtain on the 1956 Mid-Winters week-end. The Central Dance Association has obtained the Herman orchestra for three different appearances over the week-end.

## Phi Eta Sigma Offers Awards To Graduates

All graduating seniors who plan to work for graduate degrees, and who are members of Phi Eta Sigma, Freshman Honor Society, are eligible for a three-hundred dollar scholarship from that Society.

The National Phi Eta Sigma Fraternity offers two three-hundred dollar scholarships each year on the basis of the students' scholastic record, evidence of creative ability, evidence of financial need, promise of success in chosen field, and personality.

Any qualified person who is interested should get in touch with Professor B. E. Goodale, faculty advisor of Phi Eta Sigma at Clemson College, at Room 117 Plant and Animal Science Building. The local deadline for applications is February 20, 1956.

## Juniors To Hold Barbecue At Ag Center Saturday

The Junior Class of Clemson College is sponsoring a supper at the Ag Center Auditorium on Saturday, February 11, from 5-7 p. m.

This supper, which will come between the Woody Herman Jazz Concert, in the afternoon, and the Saturday night dance of the Midwinter's B. all, will feature a choice on the menu between hamburger steak and barbecue, both with all the trimmings.

Advance tickets for this supper will be on sale in the dining hall for \$1.00. Tickets at the door will cost \$1.25.

## F. T. A. Meeting Is Interest To All Education Majors

The Future Teachers of America will hold its regular meeting on Tuesday, February 14, at 6:00 p. m. in Clubroom 3. An educational program is being planned.

All students majoring or minoring in education or taking one course in education are urged to join the F. T. A. The aim of the F. T. A. is to acquaint students with the teaching profession on the local, state, and national level.

The Herman aggregation will play for the usual Friday and Saturday night dances in the dining hall and in addition will give a 2½ hour concert Saturday afternoon.

Tickets for the two dances will be on sale in the dining hall through dinner tomorrow and will also be sold at the door. Tickets for the concert may be purchased at the door. Ducats for the Friday night dance are \$3.50 with the Saturday night bids going for \$4.00. Block tickets are \$7.00. Tickets for the Saturday afternoon concert will be \$5.00.

Woody Herman brings to Clemson one of the most heralded dance orchestras in the nation. Herman himself is the classical example of an all time jazz great. Starting his career as a young man the maestro has worked up through many of the leading bands in the nation to his present spot.

Ginger Cureton, CDA president indicated that ticket sales were going just about as expected with the usual rush for tickets at the door after the dance starts being expected.

## Mu Beta Psi Receives Eleven New Members

At recent meeting of Mu Beta Psi, musical fraternity, eleven new members were received. Initiation for these new members will be held the week of February 13-17.

The new members are John Rogers, Jr., architecture junior from Easley; Carol Brown, agronomy student from Kingstree; Stanley Powell, textile chemistry junior from Rock Hill; George Taylor, mechanical engineering junior from Erwin, Tennessee; Tommy Jones, animal husbandry student from Yonkers Island; Jack Shaffer, Jr., chemical engineering junior from Columbia; Sidney Stubbs, Jr., architecture junior from Sumter; Dick Lee, agricultural engineering student from Sumter; Henry Williams, Jr., textile manufacturing student from Greenville; Rutledge Hammond, animal husbandry junior from Greenwood; and Professor J. R. Stanley, honorary member.

Mu Beta Psi also plans an intermission party at the Mid-winters Ball.

WOODY HERMAN

## Junior-Senior Banquet Time Change Has Been Suggested

By Newt Stall  
President of the Junior Class

In the process of planning the Junior-Senior banquet the officers of the junior class have received several suggestions. Among them is one of particular merit which has received careful consideration by college officials and officers of both the Junior and Senior classes. This suggestion is: That the Junior-Senior banquet be held in the afternoon on Saturday, May 12, instead of the usual early evening hour on Friday, May 11.

This suggestion came from several seniors, and the Junior class officers, who are responsible for planning the banquet, feel that all Juniors and Seniors should have a voice in deciding when the banquet will be held. It is their opinion, however, that the advantages of the plan outweigh the disadvantages. Hence, the plan will be considered desirable and the date of May 12 will be considered tentative unless a number of Juniors and Seniors object.

Should you object to this plan please make your objection known to Jim Humphries, president of the student body, and request a Junior-Senior vote to decide the date. It will be necessary to make the request within one week, since a great deal of advance planning is necessary for the banquet and arrangements must be made in the near future.

The points for and against are listed below. Please consider them and decide which are more important to you. This weekend is in honor of the Juniors and Seniors, particularly the Seniors, and we want to have the weekend exactly as you want it.

- For the change:
- 1) dates which cannot leave school or home until late Friday would not have to rush to get to an early banquet.
  - 2) the usual flat Saturday would have an added attraction, while the already rushed Friday night would be crammed.
  - 3) the girls could wear "dressy dresses" instead of the large and sometimes awkward evening dresses, which are awfully hard to crowd under a table.

## Changes Are Made In TIGER Staff For This Semester

Certain changes in the TIGER staff have been made for the second semester. Frank Anderson, Arts and Sciences senior from Clemson takes over the editorship with this issue. Roger Yike, Arts and Science senior from Charlotte resigned this post in favor of his studies. Yike will take over the column, "Don't Get Me Wrong, But", which has been vacated by Anderson.

Among other changes in the staff is the addition of Connie Faucette, Arts and Science senior from Columbia, as a special news feature writer.

Charles Spencer, engineering major from Charleston has taken over as news director for the coming semester.

All other students interested in working on the TIGER for the coming semester are invited to confer with the editor on Monday or Tuesday night.

## NOTICE

The Executive Board Meeting of the Veterans Club will be held on Tuesday at 4:00 p. m. instead of Friday. These meetings are on the second and fourth weeks of each month.

row of Columbia for Connie Faucette, Publicity Chairman, from Columbia, S. C. (Bottom row, left to right) Miss Emma Jenkins of Columbia, for Powers McQueen, Decorations Chairman, from Columbia, S. C.; and Mrs. Carl Pate for Carl Pate, Alternus, from Bennettsville, S. C. Woody Herman and his Orchestra will furnish the music for both dances.

## We Need More Speakers

In the past few days Clemson College has been subjected to a highly intensified course in Religion. Consisting of Religious Emphasis Week activities, this course will be concluded with the convocations tomorrow.

Just exactly what is this week of Religion for? Is its main purpose to produce a super Holy atmosphere around the campus? Perhaps it goes deeper than this.

Thought provocation is one of the big problems at Clemson. The fact that Clemson students aren't provided with mental conflicts other than studies is evident. There are many ways to incite student thinking and one of the best is this idea of having outside speakers to visit the campus. Religious Emphasis Week fills this need to a certain degree, but still the problem is not licked.

The need still exists for intellectual thought production in fields other than Religion. The idea was first started last year with several outsiders presenting their ideas to the student body at convocations. This program received nothing but favorable remarks. It looked as though we really had something good. This year nothing has been said concerning these convocations. With these programs being so popular last year, why not a continuance of them?

### LITTLE MAN ON CAMPUS

by Dick Bibler

### ADVENTURES IN SOCIAL SCIENCE: NO. 2

Do off your caps and bells; there will be no fun and games this day. Today, with earnestness and sobriety, we make the second of our forays into social science. Today we take up the most basic of all the social sciences—sociology itself.

Sociology teaches us that man is a social animal. It is not his instincts or his heredity that determine his conduct; it is his environment. This fact is vividly borne out when one considers any of the several cases of children who were raised by wild animals. Take, for example, the dossier on Julio Sigafos.

Julio, abandoned as an infant in a dark wood near Cleveland, was adopted by a pack of wild dogs and reared as one of their own. When Julio was found by a hunter at the age of twelve, the poor child was more canine than human. He ran on all fours, barked and growled, ate raw meat, lapped water with his tongue, and could neither speak nor understand one single word. In short, he was a complete product of his environment.

(Julio, incidentally, was more fortunate than most wild children. They never become truly humanized, but Julio was exceptional. Bit by bit, he began to talk and walk and eat and drink as people do. His long dormant mental processes, when awakened at last, turned out to be remarkably acute. In fact, he was so bright that he learned to read and write in a month, got through grammar school in five years and high school in two. And last June, as thousands of spectators, knowing Julio's tragic background, stood and cheered, he was graduated valedictorian from Cal Tech with a degree in astrophysics!)

(Who can say to what towering heights this incredible boy would have risen had he not been killed the day after commencement while chasing a car?)

But I digress. To return to sociology, people tend to gather in groups—a tendency that began, as we all know, with the introduction of Philip Morris Cigarettes. What an aid to sociability they are! How benignly one looks upon his fellows after a puff of Philip Morris's gentle, pleasant, flavorful tobacco! How eager it makes one to share, to communicate, to extend the hand of friendship! How grateful we all are to Philip Morris for making possible this togetherness! How good not to live in the bleak pre-Philip Morris world, with every man a stranger!

The groups that people live in today (thanks to Philip Morris) vary widely in their customs. What is perfectly acceptable in one society may be outlandish in another. Take, for instance, the case of Ug Poopoomoogoo.

Ug, a Polynesian lad, grew up in an idyllic South Sea isle where the leading social event of the year was the feast of Max, the sun god. A quaint all-day ceremony was held, with tribal dancing, war chants, fat lady races, pie eating contests, and, for the grand finale, the sacrifice of two dozen maidens.

According to Ug's folkways, sacrificing maidens was quite acceptable, but when in his eighteenth year he was sent as an exchange student to the University of Wisconsin, he soon learned that Americans take a dim view of this practice—in Wisconsin, at any rate. The first twelve or thirteen maidens Ug sacrificed, he was let off with a warning. When, however, he persisted, drastic measures were taken—he was de-pledged by his fraternity. A broken man, Ug quit school and moved to Milwaukee where today he earns a meagre living as a stein.

This column is brought to you by the makers of Philip Morris Cigarettes, who are otherwise rational men. Ask for new Philip Morris in the smart new red, white and gold package.

## FAMOUS ... LAST ... WORDS

### TALK OF THE TOWN . . .

## Job Hunters Have Wonderful Chance For Interviews With Large Companies

By Charles I. Sanders

### COME UP AND SEE THEM SOMETIME

Is your future secure?

A sentence such as this would be a good one to lead off an ad for annuities, Ford stock, or government bonds. (Note: this is not a free plug for the aforementioned investments, although the writer would not oppose accepting a few tokens of appreciation from Ford or the U. S. Government). However, we don't want to sell investments in the usual sense; what we have is a few interviews to give away.

Is your future secure? Do you know just what you're going to do when you finish up your four or five years at Clemson? Do you have any suggestions at all about the jobs that industry has available for Clemson graduates? Satisfy your curiosity, still your anxiety, sign up for a few interviews this semester.

A few students seem hesitant about signing up to talk with company representatives, thinking that the companies are not happy to spend time on students who are not set definitely on working for them. Naturally the interviewers would rather talk to somebody very likely to be hired, but on the other hand they would rather talk to any student at all to avoid having to sit and twiddle their thumbs for a half-hour. If you see from the schedule that an interviewer has some free time, and you have some interest about the company he's speaking for, go in to see him and chat awhile. Chance contacts can some-

times lead to worthwhile jobs later on in your career.

Which brings up another point. Many things contribute to your education here at Clemson, and not all of these occur in classrooms. Interviews are a very good opportunity for you to brush up on your social relations. Enough practice at shaking hands and introducing yourself will help you to do it with ease later when it means promotion or sales. And the necessity of the out-stretched hand is evident if politics is your field. In addition to further developing your social graces, you can very easily learn about a number of different industries from casual talks with interviewers.

A final reason for filling up interview schedules is that the reputation of the school must be upheld. (You know, dear old Clemson, do or die, that sort of thing.) Company representatives coming here in the past have found a large number of men they wanted to hire. To make sure this record continues, get out and talk to the people visiting the campus this semester. The record for last semester was an average of seven men at each group interview and eight per individual interviewer. This should be easy to beat, especially on the group interviews. Although it doesn't seem to be general knowledge, those group meetings are open to all classes—freshmen, sophomores, and juniors, as well as seniors. Turn out. Make your future secure.

## A Word To The Wise

By DICK ELLIOTT,  
Assistant Student Chaplain

"... But he said, 'Lord, let me first go and bury my father. But He said to him, 'Leave the dead to bury their own dead...'". Luke 9:59, 60.

"... Honor your father and mother..." Mark 7:10.

These two familiar passages of Scripture don't actually conflict when interpreted correctly, but they do show rather clearly the conflict that many college students are caught in today.

The student upon leaving high school is pretty well sold on what the "Old Man" believes, but after a year or two of separation and college environment little differences of opinion begin to develop along professional, religious, and social lines. It is my firm belief that this differentiation is fundamental to the growth of our society and nation. If a student, upon graduation from college, doesn't have a few concepts in each of these fields that the older generation in general doesn't have, then his college education has been little more than he could have gotten at home from correspondence courses.

But sometimes these differences of opinion become strong and hard to handle. They can cause a lot of trouble and heartaches in the family and community.

Suppose a student believes something very strongly and finds it supported by his religion, his logic, and his morals, but also finds that his parents disagree with him. Should that student stifle his beliefs and recede (or try to recede) to the level of thinking of the masses? Or should he risk hurting his parents by pursuing his belief? It is a hard decision to make, and the progress of our nation lies in the balance.

I think the answer is God. If we know that God is with us, we are on safe ground. "If God be for us, who can be against us?" (Romans 8:31). And we can content ourselves with the knowledge that someday our parents who may now... "see in a mirror dimly"... then... "shall understand fully". (1 Cor. 13:12).

Davy Crockett's courage at the Alamo may have been over-emphasized, (someone said once that if there had been a back door to the Alamo there never would have been a "Davy Crockett") but he did show that he had courage in Washington when he stood for the rights of the American Indians, although he knew he would not be re-elected because of it. That's the kind of courage we need today, and I wonder if we have it.

### DON'T GET ME WRONG, BUT . . .

## Dance Week End Should Be The Greatest; Need Merits? You Should Turn Detective

By Roger Yike

### ANOTHER DANCE WEEKEND

Nothing can be added to the already tremendous amounts of material that has been released about Woody Herman and his Third Herd, so there is no sense in embarking upon a senseless rampage in this column about the advantages of taking in a dance weekend. The CDA is keeping to its policy in having big name bands play for the dances and with the continued co-operation from the students, the remaining two dances should feature big name orchestras also.

### LOST—ONE WEAPON . . .

In case anyone is interested in collecting a nice fat reward of a few merits or so, they can keep his eyes open for an M-1 rifle that has been misplaced by some misguided individual who thought that they passed them out for keeps. The local law enforcement agencies have been alerted to be on the lookout for this rifle. If anyone has any lead on the whereabouts of the little lost soul, it would be fine if they could make a report of the fact. Signed or otherwise. After all, somebody is going to be awfully disappointed when they can't take a rifle to drill with him.

### R. E. W.

The student body is to be congratulated on its turnout for the convocations and hall forums during Religious Emphasis Week which ends tomorrow. This year's visiting clergymen were some of the best that have ever visited our campus. The committee which formulated and de-

veloped all the plans should be heartily thanked for giving Clemson and the surrounding community such a fine opportunity to hear outstanding speakers.

### SWAN SONG? . . .

Maybe this shouldn't come in this column, but it is about the best place to sneak it in without getting caught in the act. I wanted to take the opportunity to thank everyone who helped me during the year and a half that I was co-editor and editor. Thanks even go to the ones who cut my hair for you made life so much more interesting by presenting me that thrill of suspense and unbearable waiting. Never knew what would happen next. The rule is still in style that you must have so many credits to graduate and the Army is stingy with commissions if you can't manage to get out in four years. So it has been great.

### OPEN TO SUGGESTIONS . . .

After trying to fill a six page paper week after week, it seemed like a snap to write a column that would fill up enough space so the editor wouldn't curse and jump up and down when he saw how short the column was. But the editor just did and so I must continue on my merry way putting little words on paper so that they will form long sentences which will fill up another hole. If anyone has any ideas for this column, please feel free to speak forth and make your plea for recognition. Ideas are always needed and seldom are turned down completely. Just tempered to suit the taste.

## DISC-O-PATION

By Mack McDaniel

A great college or university must first be an institution of learning. Its academic standing must be unquestioned. It must also be a center of culture and refinement. The individuals holding important administrative positions, as well as the members of the faculty must be recognized scholars.

Many of us have been here long enough to see a marked change in Clemson. These changes have been necessary for progress and of course, there are always those who oppose progress.

We hope that this progressive move is an indication that we are working towards Clemson some day ranking among the great universities of the country. For this to become a reality, Clemson must place more emphasis on the liberal arts field, also the athletic program must be good and its purpose should be to develop character and to instill a feeling of pride among the students. It should

not be used as a means of cheap publicity.

During all these progressive moves, we have gone forward very little in the field of music. Of course, we do have the concert series, name bands for the dances, a few musical organizations and bands, and several music courses, but we've had these for some time. It does not seem that any effort is being made to expand the music program.

Many new albums of good music have appeared in the stores in the last few years. One can buy music for—just about everything.

An excellent album among these is Paul Weston's MUSIC FOR QUIET DANCING. The moody arrangements are for a fine collection of tunes suited for quiet dancing. Among them are THESE FOOLISH THINGS, ANNA, GIGI, THE SONG FROM DESIRE, and I WENT OUT OF MY WAY. Paul Weston is joined by the Norman Luboff Choir.

Sam Donahue has recently recorded a 12" LP called FOR YOUNG MODERNS IN LOVE. From the album cover, "a fresh approach to mood music... This delightful sonorous new combination of trombones and rhythm instruments; a welcome change from overgrown orchestration of the past."

New as this album's conception is, it is dedicated to the world's oldest approach to anything: love. Which goes to show fashions in music or manners can change, youth and romance, on the other hand, only change lovers. Even the cavemen had their Young Modern Set, silly as it sounds, and someday our own age will seem just as far away and funny sounding. Perhaps in the far distant future, some collector of twentieth century curiosities, rummaging through a dusty attic, will come across this album and smile at its quaint reference to Young Moderns, back in a time that will have become old-fashioned.

## Veteran's Corner

Here are authoritative answers from the Veterans Administration to questions of interest to former servicemen and their families:

Q. I plan to take an accredited four-year school course at night under the Korean GI Bill. Will I get the full rate of GI allowance for this course?

A. No. Accredited night law courses may be measured as not more than three-quarters time training. Your allowance may not exceed the three-quarters time rate.

Q. I understand that if I apply for disability compensation within one year from my dis-

charge, the payments may be backdated to the day following my discharge. The one-year period is almost up, but I have no way of getting to a VA office to pick up an official application blank. What can I do?

A. You can apply by letter. Be sure to give full information about yourself, and specify the benefits you are applying for. VA, then, will send you an official application to fill out and, as long as you return it within one year, the date of your original letter will be considered the date of your application.

Q. I am planning to buy a

house with a GI loan. Why is it necessary to have the property appraised?

A. The law requires that the purchase price of the house be no more than the reasonable value as determined by an appraisal made by a VA-designated appraiser.

Q. My daughter is receiving VA compensation payments, based on the death of my husband, a World War I veteran. She is over 18 years old, but she is attending school. Will the payments continue during her vacation period, or will they be stopped when she is not actually in school?

## To The Seniors

By Johnny Blackmon

Before the end of February, there will be an announced meeting of the Senior Class. This will be a planning meeting and I would like for everyone to come to it with some definite opinions on the subjects to be discussed. I would also like to see as many seniors as possible at this meeting, because in dealing with Senior Class business there is no required number that must be present to vote on any proposal, and I do not want anyone to complain about the decisions made at this meeting. If you want to have a voice in the Senior Class activities for the remainder of the semester—be at this meeting—and be prepared to voice your opinion; be ready also to accept the will of the majority. The projects at hand for the rest of this year will require that we operate united, with no small factions pitted against each other on petty issues.

The agenda of business for this meeting will be as follows:

- 1 Senior Day
- 2 Senior Class Project
- 3 Caps, Gowns, and Invitations
- 4 Mailing list for reference after graduation
- 5 Association for the betterment of Clemson
- 6 Any other business to be brought before the class

Perhaps an explanation is in order on the nature of business to be handled under these topics. Under Senior Day it must be decided what type of Senior Day is desired, and at this meeting a request will be made for volunteers for the committees which must be formed to plan for Senior Day. Also an explanation of the rules to be observed during this event will be made.

Concerning the Senior Class Project, we must decide what project we wish to undertake

and how we propose to raise this money. A committee must also be formed to direct this project.

There has always been considerable trouble in the taking of orders, the distributing of, and the collection (in the case of the gowns only) of caps, gowns, and invitations. I would like to present this problem and ask for suggestions for a better way of handling them.

The other two items refer to new ideas to be presented to the class and I would prefer that they be explained at the meeting so there will be not much chance for a misconception of these ideas.

So far there has not been much collective action by the class as a whole and this has been because the seniors are so involved in the functions of practically every club on the campus that I have tried not to put an extra burden on anyone, but from here on out it will be necessary to call for the services of different seniors. I hope that everyone asked will pitch in and help so that we can do our projects up in a professional manner.

There will be numerous announcements made concerning the time and place of the meeting. I hope everyone that is interested in his class will be at this meeting, if possible.

## Veterans Corner

Q. I want to change the beneficiaries of my GI insurance policy. Must I use a VA form for this purpose, in order for the change to be accepted by VA?

A. It is not necessary to make the change on a VA form, although it is advisable to do so. You can change beneficiaries by writing VA a letter. Be sure to give your insurance number, full name, address and branch of service. And don't forget to sign your request.

Q. I want to make an advance payment on my GI home loan. Is there any minimum amount I must pay?

A. Your advance payment must be at least the amount of one monthly installment, or \$100—whichever is less.

Q. Must a veteran's blindness be service-connected, in order for him to be eligible for special VA aids for the blind?

A. Not necessarily. To be eligible, the veteran must have a compensable service-connected disability; blindness itself, however, need not be service-connected.

## Part-Time Jobs Given Students

Students needing financial assistance, and looking for a part-time job, should fill out and leave an application in the Student Aid and Placement Office.

Teaching departments and other college agencies, as well as business and industrial activities in the nearby communities, fill many of their openings by calling the placement office.

Applications submitted last fall should be renewed this semester, since class schedules, completed credits, courses, etc., have changed.

## SAME Takes Field Trip To Rock Quarry

By Preston Stokes

The Clemson College student chapter of the Society of American Military Engineers were host of the Campbell Limestone Company's Quarry at Liberty, S. C., on the afternoon of December 14th. The SAME members were given a tour through the quarry led by Mr. Robert S. Campbell, president of the company, and Mr. W. E. Vaughn, manager of the Campbell firm.

The tour started in the 125 foot pit of the quarry. Six well drills were in operation over the pit drilling holes six inches in diameter in preparation of the next blasting of the pit wall. Each hole was being drilled to carry about one-half of a ton of dynamite. Some of the pieces of granite knocked loose are too big for the crushers to handle.

To facilitate this operation, the company has a self-propelled travelling drill. A cage is suspended from a forty foot boom extending from the tractor base and an air drill one and a half inches in diameter extending from the cage. One operator may sit in the cage and control all of the movements and operations of the drill. This drill is used to drill holes in the larger boulders so that they may be blasted into smaller ones by dynamite placed in the holes.

Rock which had been reduced to movable size was loaded by a power shovel, which had a four cubic yard shovel, into two-bodied trucks which transported it to the first of three crushers. Each of the trucks was capable of carrying seven and a half tons of rock.

The primary crusher handled rocks up to forty-two inches in diameter. In the crusher, a 25 ton manganese steel shaft rotates eccentrically, crushing the rock against the steel walls of the crusher. The process broke the rock down into pieces seven inches in diameter and smaller and dropped it on a conveyor belt that carried it to a screen, where all pieces less than two and a half inches in diameter dropped onto another conveyor belt.

The larger stones were fed into an eighteen inch crusher, and when smashed into smaller pieces, fell onto the same belt as the smaller stones had done.

The belt took the stone to another screening station where the dust and "crusher run" stone were taken out, the remainder going to the "surge pile". From the surge pile it was carried to a ten inch crusher and then sorted to sizes of: one-half inch, three-quarter inch, inch and a quarter, and dust. The different sizes were then carried to stockpiles by conveyor belts.

The products of the quarry are primarily used for road construction with some going into industrial construction. The quarry was established in 1884 and was purchased by the Campbell family, originally of Tennessee, in 1934 from the Holston Quarry Company. Mr. R. S. Campbell, the present owner, also operates a granite quarry at Pacolet, and a limestone quarry at Blacksburg.

The S. A. M. E. members who attended the tour were: C. P. McElveen, president, Preston Stokes, sec.-treasurer, S. J. Boles, J. A. Gilreath, D. S. Lee, D. R. McDaniel, S. R. Moore, H. W.

## Noted Architect To Speak Here

R. Buckminster Fuller, inventor and patent holder of Goedic structures, including the recently publicized air-lifted portable hanger domes for the Marine Corps, will be a visiting design critic and lecturer in the Clemson department of architecture this month.

In addition to classroom work Fuller will give two public lectures—one entitled "Design Science" on Monday, February 6 at 8 p. m. and the other "Comprehensive Designing" on February 13 at the same time. Both lectures will be held in the chemistry auditorium.

Fuller annually spends short periods as a visiting lecturer at various architectural schools throughout the country including Princeton, Yale, Cornell, Massachusetts Institute of Technology, Tulane, North Carolina State and Michigan.

A pioneer in experimental work on light-weight structures, he received the Marine Corps Award of Merit last year for his light-weight structures movable by helicopter. These structures have been called "the first basic improvement in mobile military shelters in 2600 years."

Fuller's Goedic domes are made up of small pieces which can be fitted together quickly and easily. Their many identical and interchangeable parts are pre-cut and drilled to tolerances of five one-thousandths of an inch. His clearspan, translucent dome over the rotunda of the Ford Motor Company building in Dearborn, Michigan, was assembled in thirty working days from 19,680 five-ounce aluminum struts averaging three feet in length with a total weight 1/29th that of a conventional structure. He has also proposed a 750 foot clearspan diameter dome to cover the playing field of the Brooklyn Dodgers.

Murphree, L. F. Pace, D. S. Rosendale and J. L. Mathews, Capt. J. P. O'Hanlon and Capt. Taylor, the society advisors, were also on the trip, as was M/Sgt. Langdon who helped with transportation.

At the S. A. M. E. meeting of Thursday, January 9, a movie titled "Earth Filled Dams" was shown to the society. The various stages of construction of earth dams were taken up in detail with emphasis on the different types of equipment used. Also, the different types of soil used in the earth fill were discussed in full.

Future plans of the society concerning field trips were also discussed. At present, there are tentative plans for trips to the Hartwell Dam site and also to Savannah, Georgia.

## Talk Given To Sophomore Y Council Monday

Rev. Wallace Fridy, pastor of the Washington Street Methodist Church in Columbia was the speaker at a meeting of the Sophomore YMCA Council held on Monday. The president of the council, Francis Holliday,

presided at the meeting. The business meeting following Rev. Fridy's address included the reading of the Council constitution, and approval of the working committees.

Rev. Fridy is a graduate of Clemson, where he was president of the "Y" Cabinet. He later graduated from Yale Divinity School, where he was president of the student body.

## A Campus-to-Career Case History

Dick Abraham of Bell Telephone Laboratories, here experimenting with closing the loop on a transistor feedback amplifier.

## "I'm working with top names and top talent"

That's one of Richard P. Abraham's comments about his career with Bell Telephone Laboratories in Murray Hill, N. J. "In 1954, after I'd received my M.S. from Stanford," Dick continues, "I was interviewed by a number of companies. Of these I liked the Bell Labs interview best—the interviewer knew what he was talking about, and the Labs seemed a high-caliber place.

"The Labs have a professional atmosphere, and I'm really impressed by my working associates. As for my work, I've been on rotating assignments—working with transistor networks and their measurement techniques, studying magnetic

drum circuitry, and doing classified work on Nike. This experience is tremendous. "In addition to the job, I attend Lab-conducted classes on a graduate level several times a week. Besides that, the Labs are helping me get a Ph.D. at Columbia by giving me time off to get to late afternoon classes. That's the kind of co-operation you really appreciate from your company.

"What are important to me are the opportunities offered by the job and the work itself. My wife and I own a house near Murray Hill, and we've found a lot of friends through the Labs. All in all, I think I'm in the right kind of place."

Dick Abraham is typical of the many young men who are finding their careers in the Bell System. Similar career opportunities exist in the Bell Telephone Companies, Western Electric and Sandia Corporation. Your placement officer has more information about these companies.

# Tigers Down Citadel In High Scoring Contest

By Louis Jordan

## GOOD GAMES

The Tigers have had several good games since this column last went to press before the end of the last semester. One of the best that the Clemson boys have turned in so far this year was in the game with Furman in Textile Hall in Greenville where the Paladins are seldom conquered. There the Tigers trailed the Furman boys until the last period of playing time. It was then that the pressure of a narrow lead played havoc with the Furman five, and the Tigers were just beginning to turn on the steam.

Coming down the home stretch the Tigers hit accurately and frequently to get a handsome lead before the whistle sounded to find the Clemsonites out front by a terrific score of 112 to 99.

Many records were broken by the Tigers in this game with the first being the highest score ever made by a Clemson team. This record was broken again last Monday, though, when the Tigers massacred the Cadets from The Citadel with a 114 score.

Other records that were broken against Furman, the largest combined score recorded and the most free throws attempted. Clemson and Furman had a total score of 212 points which topped the old record.

One other record which was set against Furman was the free throws attempted of 52 which topped the old record of 47 which was made against L. S. U. earlier this year.

A record which was tied in this game was the amount of total points scored. Ironically enough last year the Tigers and the Paladins ended up with a combined score of 212 points, and the teams followed suit again this year with the same amount of points.

Besides the Furman game being close until the last minutes of the game, there seems to have been an even more exciting game here on the campus during the mid-term holidays while most of the students were at home occupied with other entertainment. In a hard fought battle all the way, the Tigers lost to the Wake Forest Deacons in a close 104-103 battle.

Even though the Clemson basketball team has not had the best season as far as the wins and losses are concerned, they have played so bang-up basketball all season and have given some of the top teams in the nation a hard game. Teams like North Carolina, N. C. State and Wake Forest along with Duke University are all among the highest ranking teams in the country today.

The Tigers have been in close scrapes with all of them this year. Of course, all of us would like to see the Tigers beat the tar out of the Tar Heel teams, but we have to remember that it was only recently that Coach McFadden was able to sponsor a team that could compete with the Big Four and that it will take time to build a team that will ride the Tar Heels and the Wolf Pack and the rest of the North Carolinians to their doom.

## ACHES AND PAINS

As the winter months pass, there seems to be a good bit of groaning and moaning coming from the area around the field house. This is not unusual and should not cause any unnecessary worry as to what is causing such noises. The strange sounds that are heard are caused mainly by the boys who are stretching tight muscles after a hard day's workout.

The football team has donned their pads and are beginning to liven up a bit after almost three months of rest. For the next few weeks there will be many hard licks thrown and many a sore arm for Herman to work on while Coach Howard looks over his charges and tries to make some decisions about the possibilities of the next fall's schedule.

Right now it is rather hard to tell about the situation and even harder to even try to forecast any of the future of the 1956 football team. Just using facts and figures and any other help, I believe that we can expect a pretty good season from the boys who did so well last year. Of course they will have the much needed help of the boys who will be coming up from the freshman squad as well as some of the old members who lacked experience last season.

We'll all be watching the practice field for the next few weeks and everyone will have his own opinion. Let us hope that all the opinions will lead toward a stronger Tiger team than the coming opponents, and that these opinions will be right.

## WELCOME SENIORS

During the weeks that the football team is scrimmaging on the practice field, there will be a lot of boys who are now high school seniors coming up to watch the practice. Some of these boys will be looking at the Clemson campus to decide if Clemson is their choice for college. There will be many high school football players here and they will be trying to decide if Clemson is the right school in which to enroll for an education and also play football. If any of these boys would like to be shown around the campus, the Sports Staff wishes to extend to them the invitation. I'm sure that the athletic publicity department would also be more than happy to direct the boys over the new Clemson campus.

Doc Morgan goes up into the air to snatch the last Monday night. Clemson won the contest 114-68. (TIGER photo by Bob Huey.)

## Highest Score By Tigers For Season

Coach Banks McFadden and his high scoring, Clemson Tigers scored the highest number of points ever amassed by a Clemson basketball team as they humbled The Citadel Bulldogs 114-69.

The Tigers were at their best as the bench was cleared before the game was over with every Tiger scoring at least two points. Captain Bill Yarborough led the night's scoring with 28 points to up his season average considerably. Forward Vince Yockel, sporting the lead in scoring for Clemson, dumped in 24 more points. Gene Seay, tall and flashy at center, worked the pivot for 21, and Ed Brinkley dropped in 14.

Clemson	G	F	P	T
Yarborough, g	10	8-8	0	2
Yockel	11	2-2	2	24
Smith, f	2	2-2	2	6
Moncrief, f	1	1-2	0	3
Brinkley, c-g	4	6-6	2	14
Seay, c	6	9-11	0	21
Riser, c	1	1-2	2	3
Yeary, g	1	1-3	2	2
Morgan, g	1	0-1	0	2
Holzschub, g	2	4-5	1	8
Cameron, g	0	2-2	1	2
Total	39	36-44	14	114

The Bulldogs, who gave the Tigers a good game in Charleston in their first meeting, surprisingly enough stayed with Clemson during the first twelve minutes of the game with the score 25-24 at that point. Then, Yarborough hit for eight straight points and that broke the back of the Cadets. The Tigers got down to brass tacks and began to pull away. With only five

The Citadel	G	F	P	T
Wright, f	0	0-0	3	0
Spiver, f	1	2-2	1	4
Sparling, f	1	2-2	1	4
Gayewski, f	4	1-2	4	9
Meltin, c	1	0-0	2	2
Harmening, c	4	3-6	4	11
Hanna, g	4	4-6	1	12
Saville, g	2	0-1	4	4
Hancock, g	2	0-1	1	4
Ballard, g	2	0-0	0	4
McDonald, g	6	3-4	3	15
Totals	27	15-24	24	69

minutes left to play in the half Clemson lead 42-29. Clemson really poured on the coal in the second half, leading at one time by 30 points early in the half. More amazing, at one point during the half, Clemson scored eighteen points, while the Cadets fruitlessly tried but could not score.

The Tigers apparently have the best team ever seen at the College. This is in direct accordance with the administra-

tion and the coaches here at Clemson. They have broken record on top of record. In a previous game they broke a record for the total points in a season, and they have four more

games to play. Their game average is a new record, and various members of the team have broken many records long set by previous Tigers.

They set a record in this game scoring 114 points, a feat never accomplished by a Tiger team they rank low in defense, Clemson is ranked eleventh in the nation in scoring.

Looking forward to the ACC tournament in Raleigh on March 1, 2, and 3, the Tigers seem to be set to play the number one team in the conference, which is Duke at the present time. With a little better luck on their defense, they could win this game and go on to rate high in the journey.

Tests, tests, everywhere, With drops and drops of ink; And never a prof who'll leave the room And allow a guy to think.

## Freshmen Basketball Team Finishes Successful Season

On February 6 the Clemson freshman basketball team encountered the Asheville-Biltmore team in a regularly scheduled contest in which the Clemson frosh team came out as the victor by a score of 98-54. Fred DuBerry and "Coo-Coo" Parnell led the Baby Bengals in their eighth victory of the season while Doug Hoffman, Ken Rodgers and Doug Gaigneault played top-notch ball.

In the free scoring event Coach "Rock" Norman cleared the bench to give the reserve strength experience for varsity ball next season.

The Freshmen have four more games this season and are expected to win at least three of the remaining contests. Brevard College will present the Tiger Frosh little competition at Brevard, North Carolina on the 13th of February and the Cubs are expected to take the Spartanburg Junior College basketeers in the Clemson Field House on the 17th.

The last game of the season will be played in the Clemson Field House on the 23rd of February when the freshmen from Furman University invade Tiger

Town to try their luck on the strong Clemson team.

Furman is not expected to present too much of a problem to the charges of Coach Norman but it is known that they like the taste of Tiger meat. The Furman team is not exceptionally tall but they do have a fast group of boys. Following the paths of their older brothers, the young Paladins have hard battles to all their opponents thus far this year.

After the game with Furman University, the freshmen will have completed one of the best seasons in recent years if the trend toward winning games continues.

As of now, it would be impossible for the Cubs to top the record of last year's freshmen but they have given a fine showing of themselves. The next year's varsity will be strengthened greatly by this team of Coach McFadden will have room for the rising team on the Clemson Varsity that is surely going to be the strongest yet.

LOCKHEED Aircraft Corporation Georgia Division

Lockheed's Georgia Division's long-range expansion program offers unlimited opportunities to young Engineers interested in career development.

Advanced research and development are underway on nuclear energy and its relationship to aircraft. A number of other highly significant classified projects augmented the extensive production program on the new C-130 turbo-prop transports and B-47 jet bombers.

Lockheed's Engineering Representatives, Frank Sutton, Dave Rogers, and Waymon Knight, will be on campus Thursday, February 23, Friday, February 24, and Saturday, February 25 to discuss your future in Lockheed's expanding program.

A group meeting will be held at 6 PM, Thursday, February 23, in Olin Hall at which time a color movie describing the manufacture and flight of Lockheed's new Hercules turbo-prop transport cargo plane will be shown. All interested students are invited.

See your Placement Officer for further details.

## ROTC Band Gets Superior Rating

The South Carolina Military District conducted its annual informal inspection of all ROTC activities at Clemson on Tuesday, February 7. The team was headed by Colonel R. G. Stanton, chief of the South Carolina Military District.

While final results of the inspection will not be known for some time, inspecting officers indicated their pleasure over the performance of the Army ROTC Band and gave it a general rating of superior. This is particularly significant in as much as this is the first year the ROTC Band has functioned separately from the Clemson College Band.

The ROTC Band is under the direction of Mr. R. E. Lovett, and Mr. C. W. Cheetham, technical officer. In addition to Colonel Stanton, the inspection team consisted of Colonel Clifton E. Singleton, who inspected training and facilities, Major John P. Ripp, who inspected supply, and Captain Ernest A. Hagemeyer, who inspected personnel records and administration.

Pendleton Phone 3821 Clemson Phone 5387

We Service All Makes and Models

Pendleton, S. C.

Co-captains of the Clemson swimming team Dick Carter and Mac Hendee, pose for pictures in the YMCA pool. Carter and Hendee are both seniors and will be swimming their last regular meet for Clemson against Emory.

## Swimmers Lose; Lack Of Strength Shown

Clemson, lagging badly due to little manpower and the loss of Wes Millard, dropped its last two meets to the University of North Carolina and the University of Virginia.

On Monday, January 30, the Tigers entertained the Tar Heels, and U. N. C., apparently out only to break records in the short pool at Clemson, tumbled Clemson 49-33. In the meet following this one, a surprisingly good Virginia team topped the Tigers 44-40 to run Clemson's season record to 2 wins and five losses.

Clemson was obviously outclassed against North Carolina as the Tar Heels took first place in every event except diving and the 200 yard back stroke. Joel Porcher and Dick Carter, Clemson's steadiest pair, took the only first place honors for the Tigers.

Charlie Krepp of North Carolina set a new record for the nation in the 160-yard individual medley. He knocked approximately three seconds off the old record.

Louis Ackerman and Hugh Dowdle were swimming hard in the 160, but even they could not break into the top three. Dowdle also placed third in the 200 backstroke. Van Ravenstein placed third in the 200 yard breast stroke.

In the 60 yard dash, Roth from North Carolina introduced a style of stroke and kick that was considered unorthodox, but was good enough to cop first place. A new pool record was also set by the Tar Heels in the 400 yard freestyle relay. In the 440 freestyle, North Carolina took it easy with one of their swimmers using the backstroke over half the time.

In the Virginia meet, the Tigers got more than they expected for the Cavaliers and lost their fifth match of the season by only four points. Even with good performances by Porcher, Carter, Hendee, Van Ravenstein, and Ackerman, Clemson was outclassed in the important events. The loss of Millard was a strong hindrance to the team, and could have made the difference.

Clemson, with Dowdle, Ackerman, and Wes New, won the 300 yard relay, while Carter took first place honors for the Tigers in the 220 free-style. Mack Hendee took second place in the 80 yard dash.

In diving, Porcher again took top honors. Dick Carter

### College Boy

A college boy is laziness with peach-fuzz on its face, idleness with lanolin on its hair, and the "Hope of the Future" with an overdrawn bank book in its pocket.

A group of nurses at the University of Pennsylvania Nursing School recently wrote an essay entitled "What Is A College Boy?", and it was reprinted in the Ohio State Lantern. Here are a few selections:

He likes good liquor, bad liquor, cancelled classes, double features, Playtex ads and girls on football week-ends. He is not much for hopeful mothers, irate fathers, sharp-eyed ushers, campus guards, alarm clocks or letters from the dean.

A college boy is a composite... he has the energy of a Rip Van Winkle, the shyness of a Mr. Micawber, the practicality of a Don Quixote, the kindness of a Marquis de Sade, the imagination of Bill Sykes, the aspirations of a Casanova and when he wants something it is usually money.

A college boy is a magical creature... you can lock him out of your heart, but not out of your bank account. You can get Continued on Page 6

## Tigers Win Two; Lose Two Of Holiday Games

During the mid-term holidays the Tigers had three games on the agenda with one game being played with Furman before the exams. Clemson won two of these four games when they downed the Furman five in Textile Hall in a rough and tumble scramble for supremacy and also downed The Citadel Cadets in Charleston for the only other game that they won in this series.

Against the teams of the Big Four the Tigers did not fair so well as they lost to both North Carolina State and to Wake Forest.

For the first time in three years the Tigers were able to defeat the Pladins in Textile Hall. Although the Clemson basketballers had to come from behind in the last quarter to win, they showed the fighting spirit all the way until the final whistle blew. Many fouls were committed as the contest grew heated and in the final minutes almost the entire second team of oth Clemson and Furman were on the court.

Darrell Floyd was the mainstay for the Furman courtmen while Clemson had several outstanding players including Yockel, Yarborough, Cameron, Seay and Yeary.

The following Saturday night the Wake Forest Deacons invaded the Tiger domain to capture a close contest by a score of 104 to 103. This was one of the closest high scoring ball games of the season except that of the Clemson-University of North Carolina games earlier in this season.

Although handicapped by the loss of Bill Yarborough early in the second half, the Tigers continued to fight their way with the Deacons until the last few seconds when Williams of Wake Forest dropped two to put the Deacons out front by three points and in a position to freeze the ball until time ran out.

Murdock of Wake elected to keep possession of the ball but he was fouled and dropped both his free throws to put the game out of reach for the Tigers. In the remaining second or two Tom Cameron dropped two points to bring the Clemson boys within but one point of the Deacons but there was not enough time left for the Tigers to score again.

Down in Charleston there was a different story for Coach McFaddin to tell as his charges dwelled in a house of ease and then moved out with a final score of 86-70. Vince Yockel took the scoring honors of the night with a total of 31 points to his credit even after having to leave the game in the final period with a sprained ankle.

The Cadets went out in front of the Tigers early in the game by a score of 12-11 but their glory was short-lived as the Clemsonites went to work and pushed ahead by a margin of 12 points. At the intermission the Tigers lead the Bulldogs 45-31 and only once in the last period did the Cadets threaten. They pulled to within five points of the Tigers lead only to have the margin spread again and then it was too late.

From Charleston the Tigers journeyed to Winston Salem where they again encountered the Deamon Deacons but this time the score was not as close. The Wake Forest team took advantage of their home grounds and pounded out an over-whelming victory to the tune of 108-87. In this game Yockel captured the scoring honors for the Tiger team with 35 points while Yarborough was second in line with 22 for the Tigers.

In the last game of the holiday series, the Tigers lost to the North Carolina State College Wolf Pack. It was in this game that the Tigers set a new all-time season's scoring record. In this game the Tigers topped the 1,707 points amassed by the Clemson team of 1952 by 14 points. This mark has been and will be increasing throughout the remainder of the season.

Ronnie Shavlik, the N. C. State flash, lead the number four team in the nation to victory over the Tigers. From the opening whistle to the end the Tigers were behind. Never once could they gain the footing they needed to overcome the strong State attack.

Up through the N. C. State game the Tigers had a record of 6 wins as compared to 12 losses. They have scored high in every game and are among the top ranked offensive teams in the nation.

## Tigs Have Four Games To Play

The Clemson varsity basketball team has remaining on its schedule four more games before the Atlantic Coast Conference Tournaments to be held in Raleigh, N. C., March 1-3.

Three of the games are Conference games and are certainly as hard a game as has been played thus far this season.

The first of these games is with the University of Virginia. The Virginians will have the benefit of playing on their own soil. This may be a deciding factor between the two teams that battled it out at Clemson earlier this season.

Clemson downed the Cavaliers by the close score of 75-73 as the season opened. This was the first game that Vince Yockel got his bearings on the goal and became high scorer for the contest. Yockel now has more experience than he did early in December and his range should be better.

For the second of the last four games the Tigers journey over to the University of Maryland on the following night where the Terps will meet the Tigers for the second time of the 55-56 season. Maryland defeated the Tigers in their last encounter in the Clemson Field House but not by a large score. Maryland is a definite possession type ball club and the scoring was kept to a minimum. For the Tigers, Yarborough came through with 16 points which was only three more than Tommy Smith. The scoring was evenly distributed throughout the Clemson lineup as the final score ended as 71-63.

Following the game with the Terps, the Tigers return to their native Southland to finish the season with the University of South Carolina and Furman University.

Against Carolina the Tigers didn't fair so well in their last meeting, but this time they will be in the Clemson Field House and be playing for keeps.

The entire line-up scored in the last game but not quite enough to overcome the 94 points gained by the Gamecocks.

The Tigers and the Gamecocks have met twice this season and have split the two games. In the Gator Bowl tournament the Tigers won the honors by defeating the Gamecocks 94-87.

In the Gator Bowl game Yockel was the high scorer with 31 points while the rest of the score was distributed throughout the lineup.

For the final game of the season the Tigers will meet the Furman University team at Clemson. In the last meeting the Tigers had to come from be-

The 1955-56 basketball team has broken many of the old school records as a team and the individual records have been given a blasting all season. As team records there is a new record for the most field goals made in one ball game and also the most field goals attempted in one game.

There were 42 field goals made in the Wake Forest game and there were 52 chances at the free throw line for the Tigers. Both are new records for the Clemson team.

In the individual record department, Bill Yarborough broke his old record of free throws made with 14 out of a possible 16. Vince Yockel has attempted more free throws in a single game though. He had 17 chances at Charleston against The Citadel.

hind to take the Paladins by a score of 112-99.

Darrell Floyd of Furman will be the key in the clogs for the Furman five but he will meet stiff competition in Bill Yarborough, Vince Yockel, Tom Cameron, Ed Brinkley, Gene Seay, Bill Riser and Tommy Smith.

In the last game with Furman Seay had 23 points as high scorer for the Tigers while Cameron had 22 and Yarborough and Yockel had 19 apiece.

This should prove to be one of the best games of the season for both teams. Furman will be seeking to gain vengeance on the Tigers for the insult they suffered at their hands in Textile Hall.

### Financial Aid Offered Students

Students who will need financial assistance after this semester may discuss their problems with representative of the Pickett and Hatcher Educational Fund in the Faculty Lounge on Wednesday afternoon, February 15, 1956, from 3 to 7 p. m.

Loans from this foundation bear two percent interest until four months after leaving college, when interest is increased to four percent.

Each year, thousands of dollars in scholarships, fellowships, and loans are not used. Reference books in the library explain many of these programs. Notices concerning many awards are posted on academic bulletin boards, and appear in the TIGER and local papers. Mr. Hughes, Director of Student Aid and Placement, may be able to provide additional information and assistance. His office is located near the Student Lounge for your convenience.

### Summer Study Is Offered Students By British Univ.

Opportunities for foreign study in seventeen countries are listed in Foreign Study Grants, 1956-57, pamphlet published today by the Institute of International Education, 1 East 67th Street, New York City.

Fellowships at the University of Ceylon and the Free University of Berlin, scholarships for summer study in Austria and England, study awards for artists, musicians and active labor union members are described in the 20 - page booklet. Other awards administered by the Institute are also listed. These have been offered by universities, private groups and governments in Europe, the Middle East, Asia and Latin America. More detailed information on these grants is available from the Institute in New York or from its regional offices in Chicago, Denver, Houston, Los Angeles, San Francisco, and Washington.

Earliest deadline for applications is January 15 for the two awards at the University of Ceylon and for one award for advanced study in Brazil. February 1 is the closing date for the French Government awards and for the art and music fellowships offered by the Woolley Foundation. Closing dates of other competitions are in February, March, April and May.

General eligibility requirements for the fellowships and scholarships, designed mainly for graduate students, are U. S. citizenship; proof of good academic record and capacity for independent study; good character, personality, and adaptability; and good health. Ability to read, write and speak the language of the country of study is a requirement for most competitions.

A private donor will give six grants for study in Spain. Other countries in which awards are available are Austria, Brazil, Ceylon, Cuba, Denmark, Great Britain, France, Germany, Iran, Israel, Italy, the Netherlands, Sweden and Switzerland. Competitions have closed for awards in Colombia and Mexico.

The Institute of International Education administers exchange

Pictured above is the bronze bell which at one time hung in a tower on the Furman University campus. This bell was captured by some Clemson students in a pre-athletic event spirit raid. The bell was returned to the Furman campus by the boys standing behind the bell. Left to right, they are: Eddie Andrews, Tommy Bray and Bill Derrick. (TIGER photo by Bob Huey.)

programs for public and private agencies in the U. S. and abroad. Each year approximately 4,000 persons from 80 countries study or train in a country other than their own through Institute programs.

### Tiger Brotherhood To Stage Banquet At Clemson House

The Tiger Brotherhood recently announced that a banquet in honor of its charter members and all previous members will be held at 6:30 p. m. on Friday, February 24. The banquet will be held at the Clemson House.

All present, past, and honorary members will be invited. Further information concerning details of the banquet will appear in later issues of the Tiger.

## BOEING AIRPLANE COMPANY

WILL CONDUCT PERSONAL INTERVIEWS ON CAMPUS

**February 27 and 28 - Group Meeting February 27**

Boeing has many positions open for graduating and graduate students. These opportunities are in all branches of Engineering (AE, CE, EE, ME and related fields). Also needed are Physicists and Mathematicians with advanced degrees.

Fields of activity include Design, Research and Production. Your choice of location: Seattle, Washington or Wichita, Kansas.

Personal interviews will cover the details of openings, the nature of assignments, Company projects currently in work, and miscellaneous information about the Company.

Come and learn about the excellent opportunities with an outstanding Engineering organization—designers and builders of the B-47 and B-52 Multi-Jet Bombers; America's first Jet Transport, the 707; and the Bomarc IM-99 Pilotless Aircraft.

For time and place of group meeting and for personal interview appointments—consult your

# DAN'S

WE WILL BE OPEN DURING THE DANCE WEEK END FROM 10 A. M. 'TILL 3 A. M., -- FRIDAY, 8 A. M. 'TIL 3 A. M. SATURDAY AND 8 A. M. 'TILL 12 SUNDAY

Rev. Edward H. Peters, Catholic convocation leader, talks to a group of Catholic students while Rev. Richard C. Hoefler, leader of the Protestant convocation,

talks to President Poole and Mr. Roy Cooper. These two men were the main speakers during Religious Emphasis Week. (Photo by Frankie Martin).

## RE Week Programs Here Begin Successfully

By Joe Bowen  
(Special Staff Writer)

At the end of the first day, Religious Emphasis Week is off to a good start. I hope it will continue to gain momentum as the week progresses. Certainly it should, and I'm sure it will if we continue to have the wholehearted support of the student body and administration. So far we have had the necessary support to make this the greatest Religious Emphasis Week ever held at Clemson.

Many thanks go to the R. E. Week Committee, the Convocation and Forum leaders, and

both the students and administration.

From all indications, the attendance at the convocations was well above the average of the "good old military days." No doubt the reason that we got off to such a tremendous start is that Rev. Hoefler and Rev. Peters won the admiration of their audience on their appearance. These two factors should contribute to increasing the attendance.

Not only were the convocations a success but the forums were equally successful. It is here, in an informal manner, that the student gets

down to business and thrashes out the questions stimulated in the morning convocations. Thanks to our forum leaders such questions and misconceptions of life and religion are clarified.

The highlight of the week was the student banquet held Wednesday night in the individual churches. It was here that the students had fellowship with their denominational guests. This banquet, the forums, and convocations completed a well-planned week. And one we hope was very successful.

Now, let's face facts. The success of Religious Emphasis

Week is not the attendance at convocations, or the immediate response to the week's activities. The success depends upon "YOU". Are the beliefs of the Clemson man strengthened and his concepts of religion broadened, or did the words of forum leaders and convocation speakers fall on deaf ears? Only you can answer this question. It will be answered not in words but in deeds—your deeds. If the success of this week were going to be measured by your words and actions, can we truly say "this week has been a success"? It's up to you.

## Summer Work Made Available To Students Here

There are many Federal Service Trainee openings for undergraduates in Architecture, Chemistry, Civil Engineering, Electrical Engineering, and Physics. Salary range is \$2690 to \$3415 per year and locations are throughout states. The next entrance test is in March, and application deadline is March 2, 1956. Among defense installations which will visit the campus, Naval Aeronautics and Naval Air Development and Material Center will discuss summer work.

The Department of Agriculture has a similar program in Soil Science, Agricultural Engineering, Conservation, economics and statistics. Salary range is same and application deadline is February 15, 1956.

The Engineers' Job Directory, which lists companies offering summer employment for technical undergraduates, has a job and location directory to help students make specific selections. Copies are in the Engineering Library and the Placement Office for reference purposes.

The Battelle Memorial Institute in Columbus, Ohio, has organized summer training programs in research and its industrial applications. Get further information in the Placement Office.

Rising seniors in Electrical Engineering and Mechanical Engineering may work with TVA in Chattanooga or a field office for the entire summer. Salary is \$76 per week. Applications are in Placement Office.

Among the companies interviewing soon on the campus, General Electric, The Texas Company, Boeing Airplane, Hercules Powder Company, Dupont and Gaffney Manufacturing Company will discuss summer work with undergraduates. Information on travel tours and summer study abroad is available in the Placement Office. Notices are posted on the bulletin board in Tillman Hall.

Many summer camp openings are also available. Among those reported to the Placement Office are Camp Arrowhead, Tuxedo, N. C.; Camp Jenid, Utica, N. Y.; George Williams College Camp, Wisconsin; Estes Park Conference, Denver, Colorado; Shariawin and Sherwood, Ware, Mass. The Camp Counselor Placement Service, Boone, N. C., provides assistance in locating camp openings.

Watch future bulletins for additional summer employment. Sign up for interviews in the Placement Office, if interview schedule includes summer students.

## Douglas Passes Out Reserve Commissions

Twenty Clemson Army ROTC cadets received commissions as 2d lieutenants in the United States Army Reserve during brief ceremonies held Sunday afternoon in the Chemistry Building. The presentation was attended by approximately 150 friends and relatives of the cadets.

One cadet, Mack G. Fleming, Armor, was designated a Distinguished Military Graduate for outstanding military achievement and has been offered a Regular Army Commission.

Initially scheduled to speak, was Brig. Gen. Eric S. Molitor, ret., but was unfortunately unable to keep the engagement due to an emergency operation.

The program consisted of brief remarks made by Colonel George A. Douglass, Professor of Military Science and Tactics at Clemson, concerning the Code of Standards of an Army Officer. The oath of office was administered by Chief Warrant Officer Major C. Cheatham, commissions were presented by Col. Douglass and the invocation and benediction were made by Cadet B. J. Arnold, student chaplain.

The newly commissioned officers have received orders calling them to active duty within the next two years for a period of either six months or two years dependent upon the requirements of the Department of Army.

The new officers are:

## Claudio Arrau To Appear In Concert On February 20

The fourth concert in the 1955-56 Clemson Concert Series will be a piano concert by the famed Chilean pianist Claudio Arrau, on Monday, February 20, at 8 p. m. Originally scheduled for the fourth concert in the Series was Walter Gieseking, who was recently injured in a bus wreck in Germany.

Claudio Arrau, who was born in a small village in Chile, has received world-wide recognition as one of the greatest musicians of our day. He studied in Germany under the direction of Martin Krause, who in turn was a pupil of the immortal Liszt.

Claudio Arrau has presented concerts on at least five continents. He first came to the United States at the age of twenty to play with the Boston Symphony under Montoux and the Chicago Symphony under Stock, in 1923. Today this pianist has to his credit some 300 appearances with every major orchestra in the country during the past ten years and more than 700 recitals in addition. It is a record considered without equal since the days of Paderewski.

Arrau comes from a remarkable family—he traces his ancestry, on his mother's side, back to the fabulous fountain-seeker, Ponce de Leon. He has a grandmother who lived to be one hundred and twenty years old, and his own mother now lives at his Long Island home with his wife and two children, and is a hale ninety-five.

Tickets for Arrau's concert will be \$3.00 for reserved seats and \$2.00 for general admission. Students, as usual, will be admitted on their Identification cards. Any persons enrolled in the Clemson Area Adult Education Center can purchase special tickets at the time of their registration for the Center, for \$1.00.

The atomic energy commission says it's now running electric lights and machinery by atomic power. It's certain now that some day the atom will air-condition your home—one way or another.

### Birth of Oil Fields Movie To Be Sunday

"Birth of an Oil Field," second in a new series of films to be shown at Clemson College, made by the Shell Oil Co. uses live-action photography to give dramatic glimpses of a drilling crew at work, while animated figures reveal what takes place below the surface of the ground.

This film, to be seen next Sunday at 3 p. m. in the Clemson College Chemistry auditorium, will be accompanied by "Grass Roots Ambassadors," wherein Everett Mitchell, of the National Farm and Home Hour, will show activities of exchange students in Europe and America, a subject of strong interest at this time, especially to college students.

These programs are arranged by the Clemson Unitarian Fellowship as a community service.

## Rev. C. A. Cole Makes Episcopal Church Visit

The Rt. Rev. C. Alfred Cole, DD, Bishop of the Diocese of Upper South Carolina, will make his annual visitation to Holy Trinity Episcopal Church on Sunday, February 12. Bishop Cole will celebrate the Holy Communion at 8:00 a. m., and will speak to the men of the Church at their monthly breakfast meeting immediately following the service.

All Episcopal students and their friends are invited to attend. At the regular 1:00 a. m. service Bishop Cole will preach and administer the Apostolic Rite of Confirmation or the Laying on of Hands to a class of adults, students and young people who have been in preparation since last fall. The public is invited to attend this service.

## Veterans Club To Hold Dance

The Veterans Club of Clemson College will sponsor a dance on February 25 in the Clemson Room of the Clemson House. This dance will be for members only, but members can bring guest couples.
