

# Spring Hop Week-End Starts Tomorrow

## Scabbard And Blade To Hold Banquet Tomorrow

### Moorman To Deliver Address To Military

The annual Scabbard and Blade Banquet, which is to be held this year on Friday, March 16, is open to all military staff members, officers and NCO's, of the Army and Air Force detachment and to those students who are members of the Senior Platoon, Pershing Rifles, Executive Sergeants, and all Senior officers of the Cadet Corp, and all members of the Scabbard and Blade, both present and former.

The occasion will feature an address by Brigadier General Moorman, who is commander of the Air Weather Service. Dr. Bob Moorman, a brother of General Moorman, is connected with the Clemson Engineering Department.

The price of the banquet will be \$2.25 per person. Uniforms will be worn by Scabbard and Blade members and the military staff; for others it will be optional.

It has been noticed that this annual function is not getting the support this year that it did previously; it is hoped that all persons eligible will take the opportunity to attend the banquet and make it a success.

### Spring Inspection Is Now Underway

The Army ROTC at Clemson College is now undergoing its annual formal inspection. Seven inspecting officers from Third Army Headquarters in Atlanta are observing the cadets in Military Science classes and at drill, which was held this afternoon. The team is also inspecting Administrative records, classroom facilities, and equipment, and will continue the inspection through Friday.

Colonel J. E. Wilkins, Infantry, is Chief Inspector; other members of the team are Colonel R. T. Mulvanity, Ordnance; Lt. Colonel L. H. Clark, Signal Corps; Lt. Colonel Luther O. Hinson, Infantry; Lt. Colonel A. G. Johnson, Quartermaster Corps; Major Richard W. Kimball, Infantry; and Captain J. G. Miller, Jr., Engineers Corps.

In past years the annual inspection has been held in conjunction with the Mother's Day exercises. The inspecting officers observed the parade on Mothers' Day and on the following Monday and Tuesday they inspected the classes and equipment. Classes were discontinued for part of the day so that the officers could inspect the cadets individually while in regimental formation. Some of the cadets demonstrated equipment.

This year, however, regular classes will continue as scheduled. The cadets have been inspected at the regular drill period this afternoon and in the regularly scheduled military science classes.

Military equipment demonstrations by the cadets are not planned for this year's inspection.

### "Mr. Food" Will Speak Wednesday

Dr. A. S. Perry, food consultant from Atlanta and member of the National Institute of Food Technology, will present a lecture in the Plant and Animal Sciences Auditorium on Wednesday, March 21, at 8:00 p. m.

"Mr. Food", as he is known on radio and television, will demonstrate some of his famous techniques of food preparation in a talk sponsored by the Horticultural Club. He will be assisted by Food Technology students of Clemson.

Dr. Perry is noted for his interesting and entertaining lectures.

### NOTICE

There will be an important meeting of the Veterans Club March 20 in Room One, Chemistry Building at 6:30 p. m. All members of the club and all interested veterans are requested to attend.

### Clemson Host To Student Government Convention Mar. 23

Clemson will be host to approximately 70 delegates from 13 colleges for the South Carolina Student Government Convention to be held March 23-24. Don Clark of Carolina, president of SCSG, will preside at the two day meet which will include two banquets, a dance and discussion groups. Officers for next year will be elected.

Discussion groups will be held on freshmen orientation, desegregation, NSA, of parliamentary procedure. All groups will be led by students from the University of South Carolina.

Mary Lous Vaughan, chairman of the Carolina-Virginia Region of the United States National Student Association, will speak to delegates about the National Student Association. Clemson recently joined the NSA.

### Tau Beta Phi To Induct Members

The South Carolina Alpha Chapter of Tau Beta Phi, which is in charge of co-ordination of the various engineering departments on campus, met Monday night at 6:30. Plans for the spring election and initiation of members were discussed and dates set. Reports on the progress of the planning for the Engineering Fair were presented and further planning was discussed.

The Engineering Fair, which is a biennial affair and was last held in April of 1954, will take place April 21-22. It will consist of exhibits by all the departments of the school of engineering which will feature the work of students in the department.

### NOTICE

All candidates for graduation in August 1956 and January 1957 are requested to make application for diplomas in the Registrar's Office by March 28. This application is necessary if the individual is to participate in "Senior Day".

## Jungaleers To Play For Both Dances

Tomorrow night at nine o'clock the Clemson Jungaleers will kick off the formal edition of the Spring Hop. The dance tomorrow night will end at one a. m. The Jungaleers will finish up the week-end with the informal dance from eight until twelve Saturday night.

The Jungaleers have become popular throughout the South since their start in the late 1920's. Their engagements this year have included jobs at various country clubs and other colleges to mention only a few.

Featured with the group will be its leader, Mac McDaniel on the clarinet and saxophone. Vocalist Jack Hughes will give his rendition of such favorites as "Laura," "Blue Moon," "Don't Blame Me," "Sunny Side of the Street," and "Dream."

The band itself will highlight such numbers as "Intermission Riff," "Apple Honey," "Lean Baby," "Buggy Blues," "Tenderly," "Tippin' In," "Page Boy Shuffle," "Man With a Horn," "Harlem Nocturne," and "Lullaby of Birdland."

Tickets for the dance have been on sale all week in the Dining Hall and will continue on sale through tomorrow at dinner. Tickets may also be obtained at the door.

There have been no changes concerning the sale of tickets for this dance. At the last dance the sale of stag tickets turned out unprofitable, therefore it was decided by the CDA that these tickets would not be sold at Spring Hop.

The other change concerns the selling of tickets throughout the dance. Tickets will be sold until the end of the dance instead of terminating the selling at intermission as in the past. It was announced by the Senior Council that anyone not having a ticket in the dance would answer to the Council.

### NOTICE

Payments for the 1955-56 TAPS are due. Students who have not paid for their book or who have made only a partial payment may complete payment in the TAPS office any night after supper. The TAPS office is located on the top floor of the Student Center. The price of the year-book is \$6.00.

### Event Board To Be Placed On Loggia

Each campus organization should contribute \$2.00 toward an event board to be placed in the Loggia, it was decided at the last meeting of the Council of Club Presidents, which was held on March 7. Francis Holliday, representing the sophomore "Y" Council, presented the plan, which called for the co-operation of every club that planned to use the board to announce its meetings and other events.

In addition to making plans for this project, the Council discussed the subject of determining what should be done when a club president from first semester was serving on the student assembly as a council representative, and was replaced by a new president. It was decided that the old president should remain on the Student Assembly and be a non-voting member of the Council of Club Presidents.

Mr. Roy Cooper, faculty advisor to the Council, reminded club presidents that Club information and rolls should be turned in to the Student Affairs Office along with the new officers and faculty advisors. He also stated that that office desired information about any awards being presented by clubs.

### Canterbury Club To Elect Officers

The Canterbury Club (Episcopal Students) will elect officers soon for the coming semester. The student vestry consists of the Senior Warden, the Junior Warden, and the other regular officers. Nominations for these offices will be made at the meeting Wednesday night.

The Senior Warden must be nominated from the Senior class, and the Junior Warden from the Junior class. The other officers may be nominated from any class.

All members are urged to be present for the election of the officers who will lead the group during the semester.

### Rostron Addresses Clemson Aero Club

Professor J. P. Rostron of the Clemson Engineering Department was the featured speaker at the regular meeting of the Clemson Aero Club last Wednesday night. The basic principles of aviation was the topic of his talk.

The next meeting of the Aero Club will feature a talk by the Club's faculty advisor, Professor Park, and a short film on flying.

Keys will be issued for the gas tank at the next meeting, and all members are requested to be present.

### Ag Engineers Begin Initiation Tuesday

At the meeting of the American Society of Agricultural Engineers Tuesday night two movies, "Flame Cultivation", and "Wildlife and Care", were shown.

It was decided at the meeting that the initiations of new members would begin next Tuesday and last the rest of the week.

Plans for sending delegates to the national convention were also discussed. The convention this year will be held in Roanoke, Virginia.

Clemson's own Jungaleers will furnish the music for the Spring Hop Friday and Saturday nights. Both dances will be held in the Clemson College dining hall. The Jungaleers, who have grown into one of the most popular college bands in the South since their beginning, is under the direction of Mac McDaniel. (Photo by Bob Huey.)

### Eurey Wins ASME Original Papers Judging Contest

The winner of the American Society of Mechanical Engineers' Original Papers Judging Contest, held on March 6, was Edward M. Eurey, a third-year ME student from Estill. Eurey's paper was on "Testing An Air Conditioner".

The Clemson Chapter of ASME met to hear the papers at 6:30 in Room 300 Riggs Hall. Bill Rawls, president of the Society, was in charge of the program.

Others who participated in the contest were Allan A. Pettigrew, ME freshman from Calhoun Falls, who spoke on "Cycling An Automobile Engine In A Laboratory to Simulate A City Block of Driving"; Claude A. Graves, from Due West (assisted by F. D. Guerry and W. E. Mosely), whose topic was "Twelve Stroke Diesel"; and "Construction Problems In An Atomic Aircraft Engine", by Billy Passinos, ME senior from Greer.

The judges for the contests were Mr. A. D. Schildhauer and Mr. J. E. Shigley.

### ASCE Plans For Engineering Fair

At the March 6 meeting of A. S. C. E. plans were made for help with exhibits of the Strength of Materials Laboratory and Hydraulics in the Engineering Fair. Also discussed were plans for ordering some exhibits from "Armco".

Prospective new members attending the meeting were recognized, final plans were made for their initiation. David Rozendale was elected Publicity Chairman for the TIGER.

After the business meeting a movie was shown entitled "The DuPont Story".

### NOTICE

Any student who turned in books to the Veterans Book Exchange to be sold and did not pick up the unsold books or the money may do so Friday, March 16 between six and seven o'clock in room A-604.

### Army Elimination To Be March 22

Plans for selecting the best drilled individuals in the Army ROTC have been drawn up by the Executive Sergeants, while tentative plans for the best drilled Air Force individuals have been outlined.

### Agronomy Club Plans Initiation

The Clemson Chapter of the American Society of Agronomy held its regular bi-monthly meeting March 13, 1956 at 6:00.

There were fifteen old members and four new members present. The president welcomed the new members and informed them of the activities of the club and the initiation, which will start next Monday, was explained to them. They will carry a flask with three layers of soil in it and also a box of candy for the old members.

Carol Brown, vice president of the club, was appointed to work with the placement office in arranging interviews for members of the club during the coming year.

The club has recently been working on a new constitution as it has been without one for some time. At this meeting the president read the proposed constitution to the club and several changes were made. The constitution will be adopted in the near future.

### College Glee Club Sings At Furman

The Clemson College Glee Club attended the Noon Luncheon at the Greenville Lions March 14 and presented a short program after the meal. Later the Glee Club journeyed out to Woman's College of Furman University and presented a pop concert.

The Clemson Glee Club has accepted an invitation to sing at the May 3 meeting of the Clemson Women's Club at the Clemson House. On May 4 the Glee Club will sing at Coker College in Hartsville, as a part of their spring tour.

### NOTICE

Any student who wishes to become a member of the Clemson Skeet Shooting Club is asked to contact Mr. Pete Norris at his home at 227 Ravenel Road or his wife, Mrs. Norris, in Room 104 in the Old Education Building. Mrs. Norris may also be contacted by calling 6421—ext. 323. The range is now under repairs and should be open for shooting early in the spring.

## Alpha Psi Omega To Bring Rhythm Review Girls To Campus For First Annual Show

One of the most sensational shows ever to be presented at Clemson College will be given here next Friday night, March 23, by the Hanna High School of Anderson in conjunction with the Boys' High. This show was presented in Anderson for two nights to a packed auditorium at the Boys' High School and was again presented due to popular demand for a third showing.

The chief asset of the show is about 200 beautiful girls who have much talent to offer an attentive audience. They sing, dance and present themselves in true stage fashion.

The varied costumes are of many colors which blend nicely with the setting and the atmosphere of the number. In the ballet scenes there are many colored ballet skirts which add

to the effect of the music. Some of the musical hits which are given in this production are "I Got Rhythm", "Gal in Calico", "Love Letters in the Sand", "Stormy Weather", "Lady of Spain" and many others. A bit of jive is added with such hit numbers as "Scrub Me Mama, With a Boogie Beat" and "Smokey Joe's Cafe". Each number has a different presentation with a different cast.

A beautiful scene is set by an all girls cast in which they picture a Nymph's Delight. Dressed for a lovely day at the beach, the four Nymphs dance out their delight while a chorus of female voices in the background sings "Love Letters in the Sand".

Jennie Lou McGee, Betsy Crawford, Mimi Smith and Alice Gamble give their interpretation

of "Sylvia" in which they dance a ballet with splendid grace and poise.

Another clever presentation is that given by Jennie Lou McGee as she recreates Ted Lewis' immortal "Me and My Shadow".

This production is the annual Hanna High School's Rhythm Review which is produced for the entertainment of their cast. It is being brought to the Clemson campus under the sponsorship of the Alpha Psi Omega, Kappa Psi Cast.

The Alpha Psi Omega has been active on the campus for the past few years in interest of more entertainment for the students.

The admission charges for the production will be fifty-cents. All students are invited to come.

### Sponsors For Spring Hop

Sponsors for the Central Dance Association of Clemson College, which will present the Spring Hop, March 16-17, are: (top row, left to right) Miss Betty Bergdorf of Converse College and Columbia; Miss Molly Atrial of Converse College and Sumter for Marion Sams, Vice-President, from Walterboro; Miss Myra Eaves of Salem College and Rutherford, N. C., for A. B.

Blanton, Placing Chairman, from Forest City, N. C.; Miss Anne Hendrix of Winthrop and Columbia; for Lynn Hendricks, Floor Chairman, from Columbia; and Mrs. Carl Pate for Carl Pate, Alternate, from Bennettsville. Not pictured are Lea Allen of Salem College for Connie Faucette, Publicity Chairman, and Judy Bolden of Salem College, for Bruce Cannon, Secretary-Treasurer.

## News Needed

MOST readers are probably wondering why the TIGER has diminished in size this week from its regular six pages.

Last week we sent out letters to the various club presidents over the campus requesting a news article from their organization every week.

The response to these letters has been good but not good enough. We certainly need the club news. Without it, we cannot publish the type of college newspaper that YOU want to read.

Please get this news in to us as soon in the week as possible. Preferably Monday night. If not Monday then early Tuesday night.

## Mothers Day

It was announced last week by college officials that there would be no special festivities planned at Clemson for Mother's Day this year. Several weeks ago it was announced by the Educational Council that the annual Mother's Day parade previously presented by the Cadet Corps would be called off. There was some hope that some other activity might be planned for that Sunday in place of the parade.

All of the spring activities of the college that might be presented on Mother's Day have already been previously scheduled for some other date and it is too late to change them.

Officials did say, however, that if possible something would be planned for next year's Mother's Day.

Although there will be no formal festivities planned for Mother's Day this year, students are encouraged to invite their parents and relatives and friends to visit the campus at this time.

### THE CARE AND FEEDING OF ROOM-MATES

Today we take up room-mates, a delightful phenomenon of American college life. Having a room-mate is not only heaps of fun; it is also very educational, for the proper study of mankind is man, and there is no better way to learn the dreams and drives of another human being than to share a room with him.

This being the case, it is wise not to keep the same room-mate too long, because the more room-mates you have, the more you will know about the dreams and drives of human beings. And that's what we're all after, isn't it?

So try to change room-mates as often as you can. A recent study made by Sigafos of Michigan State shows that the best interval for changing room-mates is every four hours.

Now let us discuss how to go about choosing a room-mate. Most counselors agree that the most important thing to look for in room-mates is that they be people of regular habits. This, I say, is arrant nonsense. What if one of their regular habits happens to be beating a great gong from midnight to three a.m.? Or growing cultures in the tooth glass? Or reciting the Articles of War? Or peanut brittle?

Regular habits indeed! I say that beyond quibble, far and away the most important quality in room-mates is that they be exactly your size. Otherwise you will have to have their clothes altered to fit you, which can be a considerable nuisance. In fact, it is sometimes flatly impossible. I recollect one time I roomed with a man named Tremblatt Osage who was just under seven feet tall and weighed nearly four hundred pounds. There wasn't a blessed thing I could use in his entire wardrobe—until one night when I was invited to a masquerade party. I cut one leg off a pair of Tremblatt's trousers, jumped into it, sewed up both ends and went to the party as a bolster. (Incidentally, I took second prize. First prize went to a girl named Antenna Wilkins who poured molasses over her head and went as a candied apple.)

But I digress. Let us get back to the qualities that make desirable room-mates. Not the least of these is the cigarettes they smoke. When we borrow cigarettes, do we want them to be harsh, shoddy, and disdainful of our palates? Certainly not! What, then, do we want them to be? Why, we want them to be gentle, delicately-reared, and designed to suit the tempo of today's broader, easier life! And what cigarette is gentle, delicately-reared, and designed to suit the tempo of today's broader, easier life? Why, Philip Morris, of course! (I'll bet you knew it all the time!)

To go on. In selecting a room-mate, take great pains to find someone who will wear well, whom you'd like to keep as a permanent friend. Many of history's great friendships first started in college. Are you aware, for example, of the remarkable fact that Johnson and Boswell were room-mates at Oxford in 1712? What makes this fact so remarkable is that in 1712 Johnson was only three years old and Boswell had not been born yet. But, of course, children matured much earlier in those days. Take Wolfgang Amadeus Mozart who wrote his first symphony at the age of four. Or Titian, who painted his first masterpiece at five. Or Hans Otto McGrath, who was in many ways the most remarkable of all; he was appointed chief of the Copenhagen police department at the age of six!

(It must be admitted, however, that the appointment was less than a success. Criminals roamed the city, robbing and looting at will. They knew young McGrath would never pursue them; he was not allowed to cross the street.)

The makers of Philip Morris, who sponsor this column, cordially invite you and your room-mate to try today's new, gentle Philip Morris. It's always welcome!

Charge room-mates every four hours.

But I digress. Let us get back to the qualities that make desirable room-mates. Not the least of these is the cigarettes they smoke. When we borrow cigarettes, do we want them to be harsh, shoddy, and disdainful of our palates? Certainly not! What, then, do we want them to be? Why, we want them to be gentle, delicately-reared, and designed to suit the tempo of today's broader, easier life! And what cigarette is gentle, delicately-reared, and designed to suit the tempo of today's broader, easier life? Why, Philip Morris, of course! (I'll bet you knew it all the time!)

## "You Can't What!"

### TALK OF THE TOWN . . .

## Squeaks Not From Violins, Oil Needed; Letters (?) To Block C

By Charles Sanders

### HELP WANTED

We wish this college could be endowed by some rich oilman. Not with money necessarily, but with a number of barrels of oil. We could sure use them before the next concert in the Field House.

At times during the program presented by the Minneapolis Symphony Orchestra there seemed to be an off-key echo to the violins. The acoustics in the Field House are not usually this selective when it comes to echoes, and it turned out that the squeaks were due to the bleachers protesting as the audience ensconced upon them shifted and settled during the music.

It is evident to anyone who heard the concert that the orchestra did not need any reinforcement to produce a very audible volume of music, and the noises of the bleachers were, to say the least, hardly needed. As a matter of fact, the continual squeaking was a nuisance. It is obviously impractical and foolish to request some 200 people to sit absolutely still throughout a concert; it would be quite possible to give the bleachers a quick check some day and either tighten the bolts or oil the necessary connections to give a set of seats that did not squeak under pressure.

It is quite possible, too, that this service would be greatly appreciated by the next group to present a concert at Clemson. It's hard enough to compete against the whooping-cough victims in the audience without taking on noisy benches, too.

### MORE HELP WANTED

Ye editor suggested tonight that we say a kind word to those who have been bringing news into us with regularity and faithfulness each week. We have been very pleased to note the number of articles that has crossed the desk on Monday and Tuesday nights of recent weeks.

Apparently there wasn't much

news this week, though. As you can see, this TIGER is a lean one. We print all the news that's fit to print, and then some, but if the articles do not come in, we can do nothing but run thin editions. If you have anything to contribute, bring it on up to the office; if you can use the publicity, we can use your news.

And by the way—anyone interested in working for the paper with a very good prospect of moving up on the staff in the near future should come up to the office now. We'd like to talk with you.

### HELP!!!

The following letter came in the mail this week. Since it was not directly signed, it couldn't go into the "Letters to Tom" column, but we can print anything in this column, and usually

do. Herewith the letter. The opinions stated are definitely the opinions of the writer. (The writer of the letter.)

"Dear Tom,

Is it no longer safe to come out of the dining hall? It seems as the Block C Club pledges have begun to assault students as they come out of the dining hall after dinner. (sic) Due to the low mentality of these individuals, we can hardly expect them to act otherwise. I guess we will all have to carry weapons of some kind when we go to meals. These obtuse members of the human race (this I doubt) should be kept in cages. These things sure support the theory of evolution; they act as if they had never evolved.

A very angry and disgusted student"

Well, at least Darwin should be happy.

gives you confidence

## A Word To The Wise

By Bill Alford

The ideal commitment of a Christian is to give his life to God to be used for His purpose. Active or semi-active association with a Church indicates a profession of belief in God. If this profession is sincere, then we have faith, the basic element of a Christian.

But it is not enough to be one who thinks he believes in God. Probably the most important prayer we can pray is "Thy will be done." It is difficult to believe and practice the philosophy that whatsoever happens to me is unimportant as long as I am doing God's will. There

are many items that we would like to possess to entertain in terms of friends, insurance, and success in life. It is impossible to find absolute security in the physical world of today.

Think of the relatively short span of time our lives occupy compared to time itself which may have no beginning or end. What have we gained if we become famous or well-known in seventy or eighty years?

Christ said, "He that findeth his life shall lose it; and he that loseth his life for My sake shall find it."

## The Tiger

Saturday Nights

Take the right step toward a

# good future

See the  representative on March 26th

Working here at International Harvester's Melrose Park Works near Chicago are graduate engineers conducting research on an experimental diesel engine to obtain basic combustion data.

When the representatives from IH are on your campus, contact your Placement Director for personal interview.

Or, if unable to meet with IH representative at that time, write to F. D. MacDonald, Education and Personnel Department, International Harvester Company, 180 N. Michigan Avenue, Chicago 1, Illinois.

The engineer who joins International Harvester joins a sound, long-established but progressive company—that represents opportunity for advancement. Harvester has long been associated with leadership in new and improved products that increase agricultural productivity, result in better transportation, and assist in construction and the handling of heavy materials.

IH needs mechanical, industrial, metallurgical, chemical, agricultural, and electrical engineers. IH is looking for engineers for training programs, for product design, for tests and developments, for research and experimentation in nearly all its divisions. IH wants to hear from you.

## INTERNATIONAL HARVESTER

Builders of products that pay for themselves in use...  
International Trucks • McCormick Farm Equipment and Farmall Tractors • Crawler Tractors and Power Units

Members of Alpha Zeta, top honor fraternity of the School of Agriculture, enjoy their annual banquet at the Clemson House. Mr. B. D. Cloaninger of the fertilizer analysis department was the speaker at the supper meeting. (Photo by Bob Huey.)

that Bill (Drumstick) Campbell really put on a show at the Block C dance. He (Oscar) thinks the Jungaleers ought to hire him. Let him put on his cellophanes and he would make a terrific comedian.

that he (Oscar) is glad it was High School Week-end so Bill (Void) Voight and Lance (Slouch) Williams could show their dates on campus without being noticed.

that you bumpkins ought to turn out for this dance. He (Oscar) is glad it is a low-priced dance so he (Oscar) will have enough money for "extra-curricular activities".

that he (Oscar) is glad Joe (Thin Man) Tisdale is such a big deal in the band. He's just the type for all you bumpkins in the band.

that Doc (Showboat) Morgan was trying to act "big deal" as usual this week-end. He (Oscar) thinks that Morgan didn't even impress the high schoolers.

that he (Oscar) hopes David (Rosie) Rogendale has a date this week-end. He (Oscar) gets a big kick out of watching you stoop to dance, Dabby Long Legs.

that Bill (Garbo) Neely was his usual nasty self this week-end. Wise up, gutter-mind. Nobody thinks you're cute.

that Rusty (The Kid) Langley is still wet behind the ears, and the only reason he ever gets a date is because they can be like a mother to him.

that Block C ought to turn their "Cubs" loose on some of these no-good punks we have around here for freshmen. Sic 'em, Cubs.

that he (Oscar) hears that the Co-eds have had enough. Don't sweat it Dolls, he (Oscar) isn't through with you yet. He (Oscar) is waiting to see if any of you scourage dates for the dance week-end.

that he (Oscar) hasn't heard much from Jim (King Midas) Doar. He (Doar) must be saving all his money for one big week-end.

that "Tiny Gene" Wilkes is the worst thing since Moorhead. If you stay here long enough maybe they'll let you be a cheer-

—OSCAR SAYS—  
that "Jelly Roll" O'Dell is a "has been" for sure. His latest let down was being shot out of the saddle by Jim (Oodles) McCanless. What could be worse?

### 'Pueblo Boy' Film Be Shown Sunday

Daily life of the Pueblo Indians, oldest known inhabitants of the New World, will be presented at Clemson College next Sunday in a color film, "Pueblo Boy".

This will be accompanied by another film, also in color, showing how the Secretariat Building of the United Nations Headquarters in New York City, was erected. "Sidewalk superintendents" will be able to watch the skill and daring of skyscraper crews hundreds of feet in the air in this picture from United States Steel.

"Pueblo Boy" includes the annual Indian Festival at Gallup, New Mexico.

These films, to be shown at 3 p. m. at the chemistry auditorium, are presented weekly as a community service by the Clemson Unitarian Fellowship.

### Delta Sigma Nu Visits Medical College Of S. C.

Delta Sigma Nu, pre-medicine fraternity of Clemson College, visited the Medical College of South Carolina in Charleston on Saturday, March 10. A tour of the entire school was conducted by a student of the college.

At the club's last meeting March 13, three new members were initiated and a film on blue babies was shown by Dr.

### Short Course Offered In Pre-stressed Concrete

A short course in prestressed concrete, co-sponsored by the School of Engineering and the national Prestressed Concrete Institute of Lakeland, Florida, will be held at the Clemson House March 15-17. Approximately 400 engineers and architects from North and South Carolina, Georgia, Tennessee, and Florida will attend the three-day meet.

The course will cover a wide range of interest from the actual design and manufacturing principles of prestressed concrete through its use in construction.

Walter L. Lowry, head of the civil engineering department and chairman of the course, has planned morning sessions for discussions of the broad phases of the subject and two concurrent afternoon sessions devoted to design and manufacture and construction.

Prestressed concrete, a relatively new technique in this country, incorporates a different idea into building construction. Conventional reinforced concrete is being replaced with a combination of high-tensile and high-strength concrete to support heavy loads on long spans with smaller sections. The result is a savings in materials and cost.

W. T. Rainey Jr., of the Textile Department.

New members initiated were: Don King, George Warren, and Frank Griffith.

Outstanding architects and engineers in the country will present talks on the principles and uses of prestressed concrete. They include Harold Wenzel, J. S. Oliver, and E. C. Clay of the Portland Cement Association, Atlanta, Ga.; John Heald of J. A. Roebing's Sons, Inc., Atlanta, Ga.; J. N. Hicks, vice president of Stressteel Corp., Wilkes-Barre, Pa.; Kenneth Roberts of Palmer and Baker, Mobile, Ala.; Dr. D. A. Polychrome of Georgia Tech; Peter J. Verna, Jr., president of Concrete Materials, Inc., Charlotte; Lloyd E. Hill, sales engineer of J. A. Roebing's Sons, Inc., Trenton, N. J.; H. H. Edwards, president of Leap Concrete Co., Lakeland, Fla.; and George W. Ford, president of Prestressed Concrete Institute.

This course, presented as a public service, is the second of its kind ever offered in the country to acquaint engineers and architects with the advantages, use and possible savings of prestressed concrete.

## What's doing at Pratt & Whitney Aircraft

**R. P. I. Dedicates Graduate Study Center Near Main Plant**

Engineers from Pratt & Whitney Aircraft waiting for classes to begin at R.P.I.'s new graduate study center. Courses, leading to advanced degrees in specialized fields, include Aeronautical Engineering, Applied Mechanics, Higher Mathematics, Thermodynamics, Nuclear Technology.

The vast facilities required for practical application of advanced technical knowledge to the development of future aircraft engines are housed in P & W A's Willgoos Laboratory—the world's most complete, privately owned turbine laboratory.

Engineers participating in graduate study program complement their classroom training with laboratory experience, gained through their daily employment.

The dedication last month of a full-fledged graduate center near the Pratt & Whitney Aircraft plant in East Hartford, Connecticut, set a precedent in relationships between industry and education. At a cost of \$600,000, P & W A's parent company purchased and equipped the building that was presented outright to Rensselaer Polytechnic Institute for its Hartford Graduate Center. Moreover, an additional grant by this industry leader to R.P.I. was used to establish a liberal fellowship fund. Since last fall, when classes first began, this tuition-assistance plan has functioned to assure advanced education for Pratt and Whitney Aircraft's applied scientists and engineers.

The new graduate study center, 115 miles away from its home campus in upper New York State, is staffed by a resident, full-time faculty. Engineers at Pratt & Whitney Aircraft and other companies in the vicinity are able now to continue their education without interrupting their normal employment.

Designed to raise the level of knowledge and to broaden the base from which research can be approached, this unique new concept of education will lead enrolled engineers to greater achievement in their careers through pursuit of advanced degrees in specialized fields from the nation's oldest engineering college.

R. P. I.'s Hartford Graduate Center, a modern, one-story building in a suburban location, is just a few minutes' drive from the P & W A plant. Student facilities include a large lecture room, a library, classrooms, seminar rooms, a cafeteria, and parking areas.

World's foremost designer and builder of aircraft engines

## SECRETS EXPOSED

Last Saturday afternoon at the annual intra-squad game there were several surprises for those interested Clemson fans who braved the threat of rain to watch the Orange against the White.

One of the best surprises was that of a transfer student from Georgia Tech and Oak Ridge, Tenn. Charlie Horne was this lad who took top honors in ground gained as well as having made the longest run of the game.

Charlie gained 88 yards rushing in nine carries. This is better than 9 yards per try. One of the most thrilling plays of the game was when Charlie broke through the left side of the line and then down past the secondary into the open. He was not long in the clear though. Joel Wells, Willie Smith and Dalton Rivers were close on his heels and caught up with him just as he crossed the 20 yard marker heading toward the goal. Two plays later Charlie again took charge to score from the four.

Another of the surprises in the game was the running ability of Gene Crocker, a halfback from Gaffney, S. C. Gene broke loose on several nice runs which gave him a net total of 42 yards for the afternoon.

The old stand-bys in the backfield of the Orange team, Charlie Bussey and Joel Wells, added their usual to the net gains of the victors in addition to a fine passing record of six out of eight passes.

Joel played the familiar role of workhorse along with Bob Spooner. Joel rushed a total of 63 yards for the afternoon while Bob gained 64 with his efforts. For the Orange, Jim Coleman was the high man with a total of 71 yards which included several nice runs.

All in all, the teams both looked fine for the spring practice game. There was a good bit lacking in the ranks of co-ordination and timing but after all, this is spring.

## WHAT ABOUT THE RIFLE TEAM?

There is some question as to whether the rifle team will receive block letters after this season. If they don't, then it will be a big mistake on the part of whoever is responsible. Members of the rifle team work as hard for the honor of the school as does most any of the other athletes. Of course there is not the physical strain that there is in football, baseball or track, but many hard hours go into the preparation of a single rifle match. Those who fire on the range have to have a tremendous amount of practice each week. The time that they put in on the range should be well worth at least a block letter.

Besides the individuals not receiving a block letter, there was another injustice brought to my attention. The rifle team does not receive any support from the school whatsoever. That is, none except that of the school so generously letting them use the basement of the old six barracks which could hardly be put to any other use. The ROTC units here on the campus have been footing the bills for most all of the trips that the team has taken this year. Besides these expenses there is a matter of ammunition that has to be dealt with. This too the ROTC has been furnishing.

This year the rifle team has had an exceptional season of eight wins and no losses. They placed second in the state match besides having one of their boys come in third in the individual high scoring. This team is functioning for the benefit of Clemson just as any other team on the campus is. The rifle team should have block letters just as these other minor sports do.

## CONGRATULATIONS

Congratulations are in order for two members of the Tiger basketball team. Bill Yarborough and Vince Yockel made the first string of the all-state basketball squad for the 1955-56 season.

Although the Tigers did not have an exception season, they did give a superior showing for themselves all year long.

At the top of the list in points scored was Vince with Bill close behind him. Both boys contributed invaluable help to the team this year and Vince will be able to do the same next season. As for Bill, we wish him good luck wherever he goes.

# Tigers Show Strength As Orange Beats White

Clemson's mighty Tigers showed their power for the fall season last Saturday in Memorial Stadium as the Oranges downed the Whites in a hard fought game, 32-13.

The Oranges, spearheaded by the sharp running and passing of Charlie Bussey, was the combined efforts of the first and fourth teams, while the Whites, losing but exhibiting Charlie Horne, a transfer from Georgia Tech, was composed of the second and third teams.

Horne was the leading ground gainer for both teams, eating up 88 yards on the ground. Horne, an Oak Ridge, Tennessee man, will be eligible next fall for varsity play, and it looks as if he will play some ball for the Tigers next fall.

Bill Barbary of Taylors quarterbacked the White team and he did a fine job. He certainly will be an able substitute for Charlie Bussey next season. Bussey was the big gun for the Oranges, completing six out of eight passes and leading them to 251 yards on the ground and 33 in the air. He also caught Dalton Rivers for a touchdown pass in the end zone.

Rivers, too rated the acclamation of coaches, fans, and Carolina scouts. He is evidently one of the most improved players on the team and should provide the Tigers with another end to work with letterman Willie Smith.

It was evident from the opening kickoff which the stronger team was, although the fans had their moments when they might have retracted their first impressions. Charlie Bussey took the opening kick off and returned it 25 yards to his own 39. The Oranges with a backfield of Joel Wells, the ACC's leading ground gainer last year and a possible All-America choice, Bob Spooner, a second team man last year with a great amount of possibility, and Jim Coleman, the smallest and one of the fastest men on the field, took only seven minutes to score their first touch down. In twelve plays, the orange shirted Tigers had gone sixty-one yards with Bussey sneaking over the final

foot. He also kicked the extra point to put his team in a seven point lead.

The Oranges capitalized on a White fumble to score their second TD. Recovering the fumble on the 31, Coleman clipped off five on a fourth and five gamble to give the Oranges a first down on the 18. Wells lost two, then Bussey connected with Rivers on a beautiful catch to score the Oranges' second touchdown. Bussey's placement was wide and the Oranges led 13-0.

With the fourth team in for the Oranges, the Whites took over on the Orange 18 yard line. Barbary hit Ray Masneri with only 30 seconds left in the half to make the score 13-7 on Barbary's PAT.

The Orange looked as if they were going to the Orange Bowl in 1957, which the Clemson Marching Band had optimistically prophesied at half time, by taking over from the Whites and marched to their touchdown. Jim Coleman sparked the 75 yard drive with a 23 yard run and going the last two yards. He added the extra point

to make the score 20-7.

Here it was that Charlie Horne made his big show. He scooted for 42 yards and the game's longest run to the Orange 20. From there, he cracked out 10 more, and then Horne went over from the four. Barbary missed the free point and the White scoring for the day was over.

Wells, outstanding the entire game, sparked the next to last Orange TD with a 26 yard run, finally going over from the one with 2:35 gone in the fourth quarter.

The Whites were not so soon to be taken out of the game and they drove to the Orange two before being thwarted by Bob Gobble as he dropped Gene Crocker on the four on fourth down.

Bob Spooner, the only man in the backfield who had not scored, drove the Tigers to another touchdown as he went over from the two. Thompson blocked the extra point, and the game ended 32-13.

## Two Tigers Picked On All-State Team

Two of the Tigers' top basketball aces have been selected to the South Carolina All-Star team. Both Vince Yockel and Bill Yarborough received the honor of being selected to the first team of the all-state squad selected by the members of the South Carolina Association of Sports Writers. Yarborough is not a newcomer to the basketball fans of South Carolina as he made the headlines quite frequently last season as a junior and also his sophomore season. Bill has broken more records than any player at Clemson—18. Among them are: most free throws attempted, most free throws made, most points scored and most field goals made.

Vince Yockel is relatively new in the sports world of the South, but promises to become more popular as the seasons roll around. He is a sophomore with two years remaining here at Clemson.

Vince played supreme ball on the courts for Coach Banks McFaddin this past season. He was high scorer for the season as well as being a high scorer for the freshmen last year.

Yockel scored 544 points for an average of 20.9 points per game. He is expected to be the strength of the Tiger team next season.

Teammates for the Tiger men on the All-State team this year are Darrell Floyd who played for Furman University, Lee Collins who played for South Carolina, and Grady Wallace who also played for the University.

## Jacobs Presents Blocking Award To Marazza

Dick Marazza was presented the annual Jacobs' Blocking Trophy for his performances during the 1955 season with the Tiger Football team. The Jacobs trophy is given to the player who is considered the best blocker in the state each year. The Trophy is kept by the school for which the recipient played. After a year the trophy is passed on to another school unless a player from the same school wins the award. Marazza receives a medal as a memento of this award.

Presenting Dick with the trophy at half-time were Mr. Hugh Jacobs and Mr. Bill Jacobs, both of Clinton, S. C.

## Rifle Team Wins Eighth Match Of Current Season

The Rifle team continued its fine record last week as it downed the firing squad from Presbyterian College. This was the eighth regular season firing match that the Tiger sharpshooters have participated in thus far this season plus the state firing match. They have been the victors in all eight of the meets and placed second in the State match. Some of their opponents have been Wofford, South Carolina, Davidson and others.

The Tigers scored 1843 points out of a possible 2000 while the Presbyterian team was able to compile only 1819.

For the Tigers as high scorers were W. S. Hayden and W. R. Crotwell. Both fired a high 373. The individual high honors for the meet was Cannella of Presbyterian.

The Clemson ROTC firers were Hayden, Crotwell, Capt. Smith, Dye, Day, Jones, Langston, Phillips, Dill and Rubenstein.

The Presbyterian firers were Cannella, Kinsey, McLean, Pue, Pigg, Patten, Cain, McElveen, Crowder and Kurtz.

The coach for the Tiger Rifle Team is Sergeant Simpson and the Officer in charge is Captain Luce.

The next firing match will be held at Clemson when the team meets the Wofford firing squad this coming Friday.
