

Commencement Program Scheduled For June 3rd.

William Wright Bryan Will Address Graduates

William Wright Bryan, who graduated from Clemson College in engineering in 1926 and became editor of the Atlanta Journal twenty-seven years later, will be the commencement speaker here Sunday, June 3.

Mr. Bryan, editor of the Cleveland (Ohio) Plain-Dealer since 1954, will be making his second return visit to Clemson as commencement speaker having addressed the 1946 graduates. He will also receive the Doctor of Letters degree, one of four honorary degrees to be conferred on the commencement program this year.

Dr. R. F. Poole, Clemson President, also announced that the Rt. Rev. C. Alfred Cole, Columbia bishop of the Episcopal Diocese of Upper South Carolina since 1953, will be the baccalaureate speaker.

The Rt. Rev. Cole, a native of Washington, D. C., earned an A. B. from Duke University and a B. D. and D. D. at the University of the South at Sewanee, Tenn.

Mr. Bryan, a product of Clemson schools, joined the Atlanta Journal as a reporter in 1927, and succeeded to city editor, managing editor, associate editor, and editor. He was a World War II correspondent for the Journal and the National Broadcasting Company.

Newspaper training began on the Clemson College campus, where he was a four-year staff member of the student weekly, "The Tiger". He was a summer

reporter for the Greenville Piedmont for two years.

Mr. Bryan is a past president of the Georgia Press Institute, Atlanta Rotary, American Society of Newspaper Editors and Red Cross chairman in Atlanta and Cleveland. He married the former Ellen Hillyer Newell and has three children.

Graduation exercises will be held at 5 p. m. in the outdoor theatre. The baccalaureate service will be in the College Fieldhouse at 11:30 a. m., preceded by a commissioning service for the Army and Air Force ROTC in the outdoor theatre at 9:30 a. m.

The commencement program will include invocation by the Rev. Charles E. Raynal, Clemson Presbyterian Church, and the benediction by Rev. George R. Cannon, Clemson Methodist Church. Opening baccalaureate prayer will be offered by Rev. Robert L. Oliveros, Clemson Episcopal Church. The Clemson Community Chorus, directed by Robert E. Lovett, will present the musical selections on both programs.

Honorary degrees will be conferred on a metropolitan newspaper editor, a Methodist minister, a company executive and a state official.

The four degrees, announced by Dr. Poole, will honor two Clemson alumni and graduates of the University of South Carolina and Furman.

Doctor of Laws will be presented to Jefferson B. Bates, Columbia state treasurer, and Alexander G. Furman, co-owner of the Alesker G. Furman Company in Greenville. The Doctor of Humanities degrees will be awarded to Rev. William W. Friday, pastor of the Washington Street Methodist Church in Columbia. The Doctor of Letters degrees will be received by William Wright Bryan, formerly of Atlanta, editor of the Cleveland Plain-Dealer.

Mr. Bates, a native of Wateree, is a graduate of the University of South Carolina. He was elected to the State House of Representatives in 1923 and was state senator from Richland County in 1934. He has been state treasurer since 1940.

He is an ex-officio chairman of the State Board of Bank Con-

NOTICE!

The Clemson Little Theater will present their last production of the current school year on the nights of May 31, June 1, and June 2. This production, *BLITHE SPIRIT*, is being presented in honor of the Class of '16. The play will be presented in the auditorium at the new Food Products section of the Agricultural Center.

P. R.'s Show Skill At Donaldson Exhibition

The Pershing Rifles of Clemson College appeared at Donaldson Air Force Base on Armed Forces Day, May 19th. They performed on the afternoon program at the base, and demonstrated precision drill techniques that have won them recognition throughout the country.

The unit, formed in 1892 by General John J. Pershing, is a national honorary society organized for the purpose of encouraging, developing and promoting the highest ideals of the military profession—leadership, honor, brotherhood. The members are chosen, through elimination drills, for their drill and teamwork qualities.

Members of the sophomore class compose the entire unit. They have developed a close order-fast drill cadence which has won them top honors in various drill competitions in the East and Southeast.

During this year's Cherry Blossom Festival in Washington, D. C., their 47 members won two trophies—Champion of the ROTC drill competition and for First Place in Marching in the

NEW SENIOR COUNCIL of Clemson College gathers for meeting in board room in student center Tuesday night. (L-R) are John Duffie, Sumter; Jimmy Richardson, Lancaster; Paul Blanchard, Charleston; James Brunson, Rock Hill, vice president; "Skeeter" Butler, Hartsville, chairman, (replacing Bill Rawl, Spartanburg); Bill DuBose, Darlington, secretary; James Brittain, Mills River, N. C.; John Turner, Marion; and Tom Berry, Greenville. (Independent photo).

Butler Is Chosen For Senior Council Chairman

Jim Brunson Named Vice
Chairman; Bill DuBose Secretary

C. M. "Skeeter" Butler has been chosen to head next year's Senior Council, the judicial branch of the student government. The vice-chairman will be Jim Brunson and Bill DuBose the secretary.

The members of the Council, elected by the Student Body in April, are: Tom Berry, Paul Blanchard, Jim Brittain, Jim Brunson, C. M. Butler, Bill DuBose, John Duffie, and Jimmy Richardson. In addition, John Turner, vice-president of the senior class for next year, is automatically a member of this body.

Six students have been selected to serve as attorneys before the Council next year. They are: Bill Allgood, Joe Blandford, John Jeffries, Francis Holliday, Hugh McLaughlin, and Fletcher Smoak.

These six attorneys will serve

Ernesto Roberts To Give Lecture

Ernesto Roberts, distinguished modern Italian architect, will present a lecture at Clemson on Monday, May 28th at 8:30 p. m., in the Chemistry Auditorium.

Mr. Rogers is in the United States to receive an honorary fellowship in the American Institute of Architects.

Hillel-Brandies Award Given To Mr. D. G. Hughes

The annual Hillel-Brandies Club award has been given, for the school year 1955-56, to Mr. D. G. Hughes, Clemson's Director of Student Aid and Placement. The award, a bronze engraved plaque, is given on the basis of nominations submitted by the various church organizations, on the campus, to a person who has shown exemplary contribution of religion and fellowship for the current school session.

Senior Platoon Chooses Owens As New Leader

Sammy Owens, industrial management major from Greenville, was elected leader of the Senior Platoon for next year at a meeting of the new members held Thursday night.

Other officers, all rising seniors, elected were: assistant leader, Tony Rutz an agricultural economics major from Camaguey, Cuba; business manager, Bill Dunn, an industrial management major from Columbia; assistant business manager, Bruce Schaefer, a pre-med major from Toccoa, Ga.; publicity manager, Bill Pressley, agricultural economics major from Asheville, North Carolina.

Tentative plans being made for next year's drills include trips to New York, Miami, Washington, and New Orleans. A unanimous vote of appreciation was given to Marion Sams and the Senior Platoon for a job well done.

Hugh M. Milton To Be Commission Services Speaker

Hugh M. Milton, Assistant Secretary of the Army for Manpower and Reserve forces, will deliver the principal address at Clemson College commissioning services Sunday, June 3.

The commissioning program will be held at 9:30 a. m. in the college amphitheatre. Secretary Milton will make the presentations, following opening remarks by Dr. R. F. Poole, president of the college. Oaths of office will be administered by Lt. Col. W. D. Cauness, professor of military science and tactics.

Secretary Milton will also address the Kiwanis Clubs of northern South Carolina Saturday, June 2, at Greenville.

The speaker, a reserve major-general, is distinguished in both military and education. He served successively as a teacher of mechanical engineering, Dean of Engineering, and president of New Mexico Military Institute. Born in Lexington, Ky., he graduated from the University of Kentucky in 1919 with a B. S. and in 1923 with an engineering degree.

Recalled to active duty in World War II, he served as Chief of Staff, XIV Corps, in the South Pacific, where he was promoted to Brigadier General. He participated in five campaigns, including the capture of Manila, and was awarded the silver star for valor in 1945.

He was recalled a second time in 1951 as executive for reserve and ROTC affairs in the Department of Army at Washington. President Eisenhower appointed him to his present post on November 18, 1953.

NOTICE!

The Blue Key Honor Fraternity will sponsor a movie on Sunday, May 27 at the Clemson Theater. Admission for the picture will be \$.40 with shows beginning at 2:30 and 4:00. Tickets can be obtained from any member of Blue Key.

Twenty-Two Juniors Cited As Distinguished Military Students

Will Represent Clemson College
At Fort Benning ROTC Camp

Twenty-two rising seniors have been tentatively designated as Distinguished Military Students at Clemson College, by the Department of Military Science and Tactics. These students will represent Clemson College at Fort Benning ROTC camp this summer.

Those designated are: Theodore C. Alexander, arts and sciences major from Anderson; Isam E. Ballenger, textile chemistry student from Inman; Paul E. Blanchard, architecture major from Johns Island; William G. Coats, vocational agricultural education major from Cross Hill; Samuel C. Gambrell, Jr., agricultural engineering student from Owens; Homer B. Goff, Jr., electrical engineering major from Columbia; Charles M. J. Jenness, mechanical engineering student from Greenville; James H. Jones, Jr., electrical engineering major from Anderson; Kenneth G. Jordan, textile chemistry student from Anderson; Daniel D. Lee, Jr., dairy major from Dillon; Christopher W. Matthews, III, mechanical engineering student from Charleston; Sammy L. Owens, industrial management major from Greenville.

Also, Robert S. Parker, electrical engineering student from Spartanburg; Ralph H. Ramsey, III, agricultural engineering major from Brevard, N. C.; Charles G. Richey, arts and sciences student from Ware Shoals; Ad N. Stall, Jr., textile manufacturing major from Greenville; Preston

W. Stokes, civil engineering student from Charleston; James K. Sullivan, chemistry major Greenwood; Joseph S. Taylor, industrial management student from Marlinton, Virginia; William G. Thomas, mechanical engineering major from Edgemoor; John R. Trimmer, industrial physics student from Bedford, Pennsylvania; and Bonum S. Wilson, ceramic engineering major from Charleston.

These men have been chosen on the basis of their high character and exceptional leadership qualities, their outstanding proficiency in the theory and practice of military science, and their scholastic attainment. Provided that they pursue these ideals at camp and successfully complete their summer training, the twenty-two cadets will be formally designated Distinguished Military Students at the beginning of the next school year.

They will then be eligible to apply for a Regular Army commission to be granted them upon graduation from college. At summer camp these men will be the main upholders of Clemson College's high military reputation.

Numeral Society Has First Meeting; Officers Elected

The Numeral Society of Clemson held its first scheduled meeting Monday night, May 21, at the Blue Room of the Clemson House.

The primary function of the Society is service to Clemson College. Its purpose is "to initiate, develop, and perpetuate the traditions of great school spirit that have and will make Clemson College grow in stature among the colleges and universities of the world."

Projects and aims for the coming year were discussed, and officers for the fiscal year of 1956-57 were elected as follows: Dick Carter, Savannah, president; Everett Griffin, Forest City, N. C., vice-president; Charles Bussey, Henderson, N. C., secretary; Tony Vickers, Durham, N. C., corresponding secretary; and Charlie Bryan, Columbia, treasurer.

Bob Erwin from Laurens was elected Pledge Executive and Pat Kramer from Paterson, N. J., was elected promotion executive.

Poppy Day To Be Observed May 26

Saturday, May 26, will be American Legion Poppy Day in this area. Poppies will be worn to designate persons who have made a donation for the benefit of disabled veterans.

Every one has been urged to participate in this worthy cause, if he is approached by one of the many persons who will be helping with the drive.

NOTICE!

Those students planning to attend summer school at Clemson who have not registered are asked to do so in the IBM room immediately. Also they are requested to sign up for rooms in the dormitory office.

Lynn Hendricks (right), Columbia senior, receives the Wofford B. Camp award as the outstanding member of the Blue Key fraternity at Clemson College for 1955-56. Presentation is made by Frank Butner, professor of sociology and advisor of the national service and leadership fraternity. (Clemson News Bureau Photo.)

Industrial Engineering Will Be Offered For Students Next Fall

A curriculum in industrial engineering will be offered next September for the first time at Clemson College.

Engineering Dean J. H. Sams said the new curriculum has been added to satisfy a strong demand by rapidly increasing South Carolina industry of recent years. The curriculum will cover design, coordination, and production systems in manufacturing. Its goal will be to teach efficient integration of manpower, material and machines into a production team.

The industrial engineering student will be trained at Clemson in the specialized fields of motion and time study, engineering

economics, job evaluation and wage incentives, plant design and operation, and production and quality control methods.

The first two years will be devoted to basic sciences and fundamentals required in the general field of engineering. During the last two years the student will be given basic studies in related fields of engineering, mechanical, electrical engineering, and a choice of approved electives. Emphasis in electives will be placed on subjects more closely related to the student's particular interests.

Students in the new field will be encouraged to develop initia-

tive, neatness of workmanship and self-reliance. The value of harmony and good supervision will be stressed, he adds.

Since the first two years of the curriculum are the same as work offered in other engineering curricula, a number of freshmen and sophomores at Clemson will be interested in changing to the industrial engineering work at the junior level next fall. This will enable present students to graduate in industrial engineering within two years.

Further information on admission and transfer to the new curriculum is available from the Director of Admissions at Clemson College.

No Interest Being Shown

MANY times during the course of a school year complaints come into the editor's office of both commercial newspapers and college newspapers to the effect that the newspaper is not giving the true opinion of its subjects. These complaints sometimes grow into what could be a serious situation. They start as just a small fire and then continue to grow until they envelope several persons or groups of persons who are at each other's throats. This could actually be avoided in more than a few instances if the persons who had the complaints in the beginning, had been close to the source of publication.

For the past few years it has been the case with this newspaper. After the second World War there were many enthusiastic veterans returning to Clemson from the various theaters over the world. These men had much to give to the school in the way of ideas and information. Something new was added each week and opinions were varied because of the many persons that held an interest in the progress of the school.

This was the ideal situation when scores of ideas and opinions were published each week by the TIGER. From those post war days until now there has been a steady decrease in the amount of interest shown in student publications here on the Clemson campus. The situation has become a burden upon those who try to get information and oddity happenings around the campus to the students on Thursday afternoon.

Clemson has no school of journalism nor are there any arrangements for re-embursement of the editors of the publications. Without the help of individual students the strain on the members of the staff is tremendous. Beginning with the first issue next semester we hope that we can have a full staff and many various opinions from which there will evolve a better student paper for this ever-growing college.

Exams Are Close

TIME has come once again for all of the students in all of the colleges over the country to settle down to the long grind of examinations. These exams are important to most all of us who want to make the best of their grades.

One of the best ways that a college student can remain in the best standings with his next door neighbor is to respect his desire for studying in these trying times.

After a person has stayed up several nights in a row until the wee hours of the next day, he becomes more sensitive to all sound. It is imperative that complete silence be had during these studying periods.

Try to be quiet for the grade points sake.

Last Roundup

THIS is the last issue of the TIGER until next September. The TIGER staff hopes that along with all the new faces, all of the old ones will be back. That is, those who have not graduated. L.M.J.

DISC-O-PATION

By Charlie Richey

HOUSEPARTIES, ANYONE? Wilson, "Gone With the Wind," by Stan Freeman, "Try a Little Tenderness," by Eddie Heywood, "They Say It's Wonderful," by Joe Bushkin, and "Where or When," by Joe Reichman. This album is a must!

For a duke's mixture of contemporary instrumentals, be sure to get Duke Ellington's new album entitled "Duke's Mixture," in which he presents an outstanding array of his best-liked recordings. The tunes of the album are: "I Let A Love Go Out of My Heart," "The Hawk Talks," "How High the Moon," "Do Nothing 'till You Hear from Me," "V. I. P.'s Boogie," and "The Mooche."

Not a very appropriate title for this time of year, but Les Brown's "I've Got My Love to Keep Me Warm" album is a collection of terrific tunes—and very well performed, too. The title tune, "A Good Man is Hard to Find," "High on a Windy Trumpet," "A Fine Romance," "Taking a Chance on Love," and "Lover's Leap" are the tunes in

For the piano-music lovers, Columbia has a new album entitled "Soft Pedal." Each great tune is done by a separate artist and includes "I'm in the Mood for Love," by Erroll Garner, "Honeysuckle Rose" by Teddy

DON'T GET ME WRONG, BUT . . .

A Bird Is A Bird, But Watch Out.... Speak To Us, Mr. Laundryman—With Cash

By DICK CARTER

APOLOGY

Hello there again. We all got fooled last week. I was informed that last week's TIGER would be the last one until September, but it seems those who have the power decided that there would be another publication.

If you will recall, I wrote in my column that it too was the last until September, but here I am again.

BLUE JAYS

Garb your civil defense helmets boys, the blue jays are attacking! That seemed to be the idea that one individual had as he was clobbered from above.

It seems that this individual was walking across what used to be known as the little quadrangle when he spied a baby blue jay. He, being a gentle soul, stooped to see if it was hurt. Poor man. Old mother blue jay just happened to be very close by and naturally she attacked, hitting his target perfectly with her cute little, hard as a rock bill.

So remember, boys, when you're strolling along on the campus, watch for birds and if you see any, run for cover. A guy isn't safe around here anymore what with tanks, Blue Jays, ODMHD and most of all of these darned whirlybirds.

Speaking of whirlybirds, I do believe that the ODMHD has met their match this time. If I see any yellow poles hang-

ing from skyhooks, I'm leaving. That would be it—finis.

I'd like to close this column for the year with a tender note, and what could be more appropriate than urging you to give a listen to Rosemary Clooney's new album, "Tenderly." She does "Tenderly," "Till Be Around," "Blues in the Night," "Oh, You Beautiful Doll," "The Lady is a Tramp," and "What Is There to Say?" See you next year.

TALK OF THE TOWN . . .

Student Government Deserves Praise Fire Department Rescues Tree . . .

By BILL DUNN

This year has been one of outstanding achievement and advancement toward the common goal of a better Clemson by the Student Government. The Student Government, efficiently led by the president of the Student Body, Jimmy Humphries, has made great strides in placing the feelings of the student before the administration. This has done much toward promoting better student-administration relations.

Being elected the outstanding student government in South Carolina is an honor which may be pointed to with pride. Among the programs promoted by the student legislative body this year include the student loan fund, a faculty evaluation plan, and the promotion of a student operated campus radio station which may be a reality sooner than most students realize.

COOPERATION AND APPRECIATION

The heads of the Engineering Department have been very cooperative in letting their class rooms remain open at night for the benefit of the students who find that they cannot study in the dormitories because of the excessive amount

of noise. This is a privilege which the students should appreciate and they should show their appreciation by leaving the rooms in the condition which they found them. It is not unusual for a professor to enter his room in time for his eight o'clock class only to find the chairs disarranged and paper strewn over the room. We eat like hogs but we don't have to act like them.

FIRE PROTECTION DEMONSTRATED

Several local Boy Scouts had their Nature Study Merit Badges revoked Tuesday for starting a fire while attempting to smoke several squirrels out of a tree on the Calhoun Mansion grounds. Approximately fifteen minutes after the fire started the fire department arrived on the scene armed with a jeep, a First World War water pump, and a rotten garden hose. The water pressure produced by the pump was so great that the stream of water reached almost half way up the tree. By the time the ladder truck reached the scene the fire had burned itself out. This ended the exhibition of the efficiency of the Clemson Fire Department.

A Word To The Wise

By DICKY BALLENGER

ARE YOU BIG ENOUGH?

In Baltimore, a man lost \$3,278. He got it back. This is how it was:

George Gerczak, who put all his cash in one basket and then sold the basket, has his \$3,278 back, thanks to the honesty of a farmer. The Maryland farmer related that he found the money and had no thought but to return it.

Would that we could get all people to give heed to God's words: "Providing for honest things, not only in the sight of the Lord, but also in the sight of men." (2 Cor. 8:21).

As exams draw nigh, students are tempted to be dishonest. We hear talk of crib notes, copies of exams, and certain keys that will open the door to a pass-

ing exam; yet also a decaying person. Cheating is wrong. There is no elastic clause. There is no goal worthy of illegal means.

One of the common sense rules of life is that as you practice, so shall you perform. Take whatever example you wish—the football team, the band, judging team or Senior Platoon. When the real test comes, you play as you practiced.

College is somewhat of a practice. Here we learn to live and lead. If we form the habits of cheating, stealing, or any other bad habit now, we will not stop at the end of classes. The seed has been planted and is now growing. Whatever ye sow, that shall ye also reap.

:-: Veteran's Corner :-:

Here are authoritative answers from the Veterans Administration to questions of interest to former servicemen and their families:

Q. Could I get a GI loan to pay off household expenses such as grocery bills, doctor bills and furniture bills?

A. No. Under the law, GI loans may not be used for such purposes.

Q. I am a totally and permanently disabled World War II veteran. For that reason, VA has waived premium payments on my GI term insurance policy. Would I be permitted to convert my term policy to a permanent plan, even though the premiums are under waiver for disability?

A. Yes. You may convert

your term policy to any permanent plan except endowment. You could choose between Ordinary Life, 20-Payment Life or 30-Payment Life.

Q. I am receiving disability compensation payments from VA. My disability has recently worsened. Would a statement to that effect, by my own physician, qualify me for higher VA payments?

A. The statement alone would not suffice. It would have to be followed by an official VA examination, and reconsideration of your case.

Q. I am a World War I veteran drawing a disability pension. In figuring my annual income, would I have to include the rental value of the small

house that I own and live in?

A. No. Under the conditions you cite, the rental value of your home would not be considered as income, for VA pension purposes.

Q. Are there any conditions at all under which a Korea veteran could draw GI unemployment pay and GI training allowances at the same time? I understand that normally the dual payments are prohibited by law.

A. There are two exceptions to the law barring simultaneous receipt of both payments. Korea veterans taking GI correspondence courses, as well as those in school less than half-time, may be eligible for GI unemployment allowances at the same time as they are drawing GI training allowances.

Maravich Named As Head Basketball Coach

By JERRY AUSBAND

CLEMSON AND THE ACC

Press Maravich is certainly a welcome addition to the Clemson coaching staff. With his full time devotion to basketball the Tigers can again rate high in the Atlantic Coast Conference. Banks McFadden did a remarkable job with the basketball team for the time that he had to devote to the process, but he simply could not apply all of his time to this game.

Maravich, who will report to the campus in June, is perhaps one of the best known high school coaches in the United States. His experience, his writing ability, and his resourcefulness as a coach certainly make him the man for the job.

Clemson's basketball standing in the young years of the ACC has always been the cellar. This past year, McFadden brought the squad to its best season in the conference, earning for the Tigers the name of the most improved team in the country. Many of the school records were broken as both the entire team and especially Bill Yarborough exerted their best efforts to scare some of the most powerful teams in the fast ACC circuit.

Clemson should have one of the best teams in the conference next season. Not only will the addition of a new coach rectify a pitifully neglected sport, the returning ballplayers which Maravich will have to work with are among the best in the two Carolinas.

TRACK TEAMS ARE SUCCESSFUL

On the completion of a very successful season both the Tigers and the Cubs went into state tournaments as the odds on favorites to rank high in their respective divisions. They certainly did not disappoint the men of Clemson.

The Tigers came back with a second place rating in the state tourney and a high place in the ACC meet. To even overshadow their mates' achievements, the Cubs won the state meet on the splendid running and leaping of the freshman stars.

To completely dominate the AAU meet in Raleigh last weekend would have seemed to be an impossible feat with the stupendous running of Duke's Dave Sime and North Carolina's Jim Beatty. But yet, the Tigers almost did it. Although they won only one first place, all of the six men who went placed in some event. Perhaps the most outstanding among the placers were Joe Bowen who ran the 100 yard dash in 9.7 seconds to end up only five yards behind Sime who tied a world's record with 9.3, Walt Tyler who ran fifth in the three mile behind Beatty who led the pack, and Bob Spooner who won the shot put as he has so many times this year.

New Mentor To Report On Campus During June

Clemson now has a new basketball coach. Press Maravich, who recently headed the coaching staff in basketball at Aliquippa, Pennsylvania, condescended to fill this position last Saturday. Athletic Director Frank Howard said Maravich would report to his post June 1. Banks McFadden, the Tiger's coach for the past 10 years, relinquished this spot to assume fulltime duty as defensive backfield coach.

After interviewing several other possible candidates at various times during the year, Maravich accepted. The Pennsylvania mentor came down to visit the campus in the middle of April for a talk with the college officials.

"I am sure that Coach Maravich will be an asset to our coaching staff," Howard said. "He seems very enthusiastic about the job here and I know he will put his heart into the work and give Clemson a good representative team in the Atlantic Coast Conference. Coach McFadden can be complimented on the improvement his teams have shown and Coach Maravich will find some fine boys to work with this fall." A few of the returning men the new mentor will have to help in his initial year are: Vince Yockel, from Jersey City, New Jersey; Tom Cameron, also from Jersey City; Dick Yearly, hailing from Nicholasville, Kentucky; Ed Brinkley, Asheville, North Carolina; Eddie Moncrief, claiming Moultrie, Georgia; and Carrol Stone, from Piedmont, South Carolina. These proven courtmen will be given added depth by several competent rising freshmen.

Before entering the coaching profession, the 39-year-old Maravich starred with the professional basketball team of the Detroit Eagles, under Dutch Dehnert. He also served as a player-coach of several Naval air

PRESS MARAVICH

station teams. During the second World War, he saw combat duty as a Naval aviator in the Pacific Theater.

Since turning all his attention to coaching, Press Maravich comes to Tigertown with the highest recommendation of such basketball notables as Neenie Campbell of McKeesport Vocational High; Everett Case, North Carolina State; Frank McGuire, North Carolina; Clair F. Bee, Director of Athletics, West Virginia; Donald Moore, basketball coach, Duquesne University; Cliff Wells, Basketball coach, Tulane; and John Michaelson, football coach, Pittsburg.

The newest man on the Clemson campus has had 10 years experience under his belt doing a creditable job at two colleges, Davis-Elkins College, and West Virginia Wesleyan, also two years as assistant coach at West Virginia University. From 1952 to 1954, he was coach at Baldwin High School in Pennsylvania, and since 1954 has been at Aliquippa.

Not limiting his talent to the field of leadership, Maravich has shown his versatility by co-authoring "Basketball Scouting", published in 1950. The "Scholastic Coach" and "Athletic Journal" has printed many of his stories, and the "Seal-O-San", yearly basketball coaches digest, will feature one of his articles.

The seasoned coach possesses a B. A. degree in Business Administration in addition to a B. S. and M. S. in Physical Education. He is also married and has two boys, ages 12 and 8.

Spooner And Bowen Star In A. A. U. As Clemson Tigs Shine

Bob Spooner heaved the sixteen-pound shot 47'-5", to take first place in his event at the North Carolina-South Carolina A. A. U. track meet last Saturday, and lead the Clemson squad of Joe Bowen, John Steedly, Wilbur Simmons, Walt Tyler, and javelin-man Paul Snyder.

Three out of the six qualifiers in both of the hurdle events were from Tigertown. The final running of the 220-yard low hurdles had Bowen and team-

mate John Steedly, in the third and fourth positions, respectively. When the final heat of the 120-yard high hurdles was run, it was Steedly taking fourth place, and Joe Bowen placing fifth; a position receiving no points, unfortunately.

In an event seldom witnessed at most collegiate track meets, the 440-yard hurdles, freshman Wilbur Simmons placed third.

Another representative of the

strong Clemson frosh team, Walt Tyler, placed fifth in the three-mile run. This position did not carry any points, but Tyler's performance is rather outstanding for as a freshman, he placed that high in a field of fifteen experienced trackmen, headed by Jim Beatty of North Carolina.

The other member of the Baby Tiger team competing, Paul Snyder, failed to qualify for the finals in the javelin contest.

What's doing

at Pratt & Whitney Aircraft

Today's leadership . . . a reflection of policies established in aviation's infancy

Back in The Roaring Twenties, the magic dream pictured American families someday using the light personal airplane as freely as the family car. Among the realists, however, was a handful of men who were unshakable in their conviction that the real future of aviation lay with bigger aircraft, higher speeds, greater ranges—all possible only through engines of higher power and more reliability than those of that era.

In the spring of 1925, six of these men of vision founded a company in Hartford to undertake the development of a new aircraft engine—an air-cooled type. The year's end heralded their first success—Pratt & Whitney Aircraft's "Wasp".

This talented group of men continued to improve their powerplant designs, developing engines of steadily mounting power that operated efficiently and dependably. They contributed much to aviation's progress—so much so that currently three-quarters of the world's commercial airliners and many of our nation's first line military aircraft are P & W A-powered.

Today's P & W A powerplant designs are supported by the very finest research facilities and equipment, and a technical staff that is continually being strengthened. That nucleus of six men has grown into one of the world's leading engineering organizations. Yet to this very day, engineering achievement at Pratt & Whitney Aircraft is guided by its founders' simple policy . . . the best airplanes can be designed only around the best engines.

World's foremost designer and builder of aircraft engines

PRATT & WHITNEY AIRCRAFT

DIVISION OF UNITED AIRCRAFT CORPORATION
EAST HARTFORD 8, CONNECTICUT

The Original Wasp, the first P & W A engine—designed, fabricated and assembled in less than seven months. Weighing under 650 pounds and officially rated at 410 horsepower, this lightweight, air-cooled radial engine was a milestone in aviation history and set the pattern for almost three decades of record-breaking advances.

The Double Wasp, an 18-cylinder, two-row piston engine rated at 2400 horsepower for basic use. Its rating increased by water injection to 3400 horsepower, the Double Wasp was instrumental in turning many a military crisis into an aerial victory in the decisive battles of World War II.

The Wasp Major, a 28-cylinder engine with pistons arranged in four rows of seven each and a 3800-horsepower rating. Its power and performance having never been equalled, the Wasp Major represents the apex of the art of building reciprocating engines.

The J-57 Turbojet, first jet engine in history to be officially rated in the 10,000-pound-thrust class. In quantity production since early 1953, the J-57 has continuously undergone progressive development. It gives every indication of having almost unlimited growth possibilities.

The Engines of Tomorrow, advanced jet, turboprop, and nuclear. Already in various stages of development, these aircraft engines of the future will further contribute to the long history of leadership that Pratt & Whitney Aircraft has established in the field of aviation.

that he (Oscar) is beginning a new column, and wants to warn the troops—if you don't behave you will read about it!

—OSCAR SAYS—
that he (Oscar) wants to know why **Bruce (Albino) Cannon** doesn't wear a wig — you are looking more like a cue-ball every day.

—OSCAR SAYS—
that he (Oscar) thinks that if **Lynn (I can fly) Hendrix** had enough runway he could take off like a bat out of hell, and he (Oscar) wishes he would—take off that is!

—OSCAR SAYS—
that he (Oscar) is proud of **Carl Lewis**, at last he brought a girl to the dance that he was not ashamed of. The only trouble was that the girl was ashamed of him.

—OSCAR SAYS—
that he (Oscar) thinks the only difference between **Monkey Coats** and a giraffe is that **Monkey** has two legs.

—OSCAR SAYS—
that he (Oscar) thinks that the only thing to **Bill (Bucket Belly) Rawl** is his stomach, why don't you tuck it in so you can see where you are going.

—OSCAR SAYS—
that he (Oscar) wants to know if **Bill (Goggle Eyes) Cooper** is going to let **Rice** chaperone his honeymoon this summer? You might as well, your big brother has to help you with everything else!

—OSCAR SAYS—
that he (Oscar) is disappointed that the **Anderson (Pig Pen) College** pantie raid fell through,

but what could you expect from these freshmen?

—OSCAR SAYS—
that he (Oscar) thinks that if **Smith (Puss) Chance** is going to wear walking shorts he should put something in them besides toothpicks—that goes for all you glamour boys.

—OSCAR SAYS—
that he (Oscar) hears that **Lance Williams** and his vice-gang are moving back into the dorms — couldn't you "hoods" make the enterprize pay off?

—OSCAR SAYS—
that he (Oscar) wants to know what we are going to do with **Bill (Runt) Muzzey**—he won't graduate, he won't disintegrate. Why don't you just blow away?

—OSCAR SAYS—
that he (Oscar) wishes all you guys going to summer school and summer camp a big time, for he (Oscar) is going to stay at the beach and take care of your broads.

—OSCAR SAYS—
that he (Oscar) is glad to see **Charlie Bussey** date, a blind pig will find an acron once in a while—Congratulations!

—OSCAR SAYS—
that he (Oscar) is glad to see **A. B. Blanton** leave — now he (Oscar) won't have any competition with the local mill girls.

—OSCAR SAYS—
that he (Oscar) thinks all you Ag boys ought to try grubbing with a girl some times instead of a hoe, once you do you'll never go back to the farm.

—OSCAR SAYS—
that he (Oscar) wants all you boys and girls to be good this summer. Take it easy if you can, if not, take it any way!

Large Crowd Here For Armed Forces Parade

By JIMMY LIGON

A large crowd saw the Armed Forces Day parade, honors presentations, and panoramic Armed Forces equipment displays held on Bowman Field last Thursday.

The parade was highlighted by Honors presentations to cadets who distinguished themselves in various fields of military endeavor. The awards were presented by Major General Frank L. Bowen, Jr., Commanding General of Fort Jackson, Dr. Robert Franklin Poole, President of Clemson College, and Lt. Col. L. R. Booker (USA ret.).

Popular sidelights at the affair were the Air Force helicopter which was flown to its position on Bowman Field Thursday morning, the Army Field Artillery howitzer, numerous small weapons displays and several Armed Forces films which were shown in buildings adjacent to the parade grounds.

All who observed the parade were very favorably impressed, especially when considering the small amount of time allotted to drill this year. Speaking before the combined Rotary Clubs of

Pickens and Oconee counties at the Clemson House Thursday night, General Bowen observed that he had reviewed many parades even including some at West Point, but this was one of the finest he had seen.

Dr. Poole was also pleased with the parade and believes that it holds special significance, coming as it did at the end of the first year of change away from the system of military discipline at Clemson. He stated, "It was one of the best parades I have ever seen on the Clemson campus and I hope it will inspire in the students a desire to renew the Mother's Day program."

He said that the Mother's Day program was and could still be one of the most effective means of presenting Clemson to the general public. He emphasized, however, that any movement to renew the program must come from within the student body.

Mrs. Trively Will Play Leading Role In Drama", Blithe Spirit"

By JOHN MCKENZIE

Anyone suddenly startled to see an energetic, motherly-appearing woman briskly bustling down the bosky boulevards on a bicycle need fear no apparition. It may merely be Maxine Trively riding to rehearsal her role as Madam Arcati, the charmingly adlepatated seeress and psychic medium who is the most important character in "Blithe Spirit." If Clemson Little Theatre circles awarded Oscars, Mrs. Trively, the talented wife of Professor Trively of the Civil Engineering department, would undoubtedly have several tucket away in her attic by now.

Beginning with the part of the mother of a girl who had gone astray in "Squaring the Circle," Mrs. Trively has proceeded to a series of memorable interpretations as Birdie, the loveable, pathetic alcoholic of "The Little Foxes," in the self-explanatory title role of "The Madwoman of Chailot," and in perhaps her most important role, as the ex-southern belle with memories and delusions of grandeur in "The Glass Menagerie," the part first created by the immortal Laurette Taylor. A poetess and a part-time co-ed (She has been a member of Dr. Hubbell's American literature class this term), perhaps Mrs. Trively's only complaint, theatrically speaking, is that her roles have been a trifle too meaty. "I always get all the crackpot roles," she explains. "Nobody else wants to be mad, or give seances, or be an alcoholic." The reason for the casting is obvious; nobody else can play the parts as well. But from the merry twinkle in her eye as she complained it could only be assumed that if Mrs. Trively were offered the part of Sin in a musical version of "Paradise Lost" she would snap it up.

In John Hunter, who plays the leading male role of the be-deviled husband, Charles, in "Blithe Spirit," the Little Theatre possesses one of the most energetic and capable members. Formerly a wild turkey farmer from Gladys, Virginia, and now a professor in the Civil Engineering department, Mr. Hunter has been associated with almost every major production in Clemson for the last three years. As an actor, he has created the little role of Elwood P. Dowd in "Harvey," played the part of the evil prime minister in "Bobina" (a song and dance man's delight), of Peter Quilp in "The Cocktail Party," and of Mr. Humphreys in "See How They Run," and in his last appearance portrayed the sinister killer, Les-gate, in "Dial M for Murder." He has been president of the Little Theater until shortly before the present production, and now is faculty adviser; furthermore he has aided the Little Theater in almost every conceivable capacity, including that of producer in the highly successful "Don Juan in Hell." In "Blithe Spirit" his versatility and experience have enabled him to take the leading role at short notice after the unexpected withdrawal of another actor. In his freer moments Mr. Hunter plays cocktail music at the Ellmoore Inn. (Fruit cocktails, of course.)

The role of Elvira, Mr. Hunt-

er's lively although no longer living first wife in "Blithe Spirit" is played by Dorothy Ware. Mrs. Ware, a vivacious brunette who stands five feet three inches tall and weighs approximately 110 pounds soaking wet (after her milk bath), seems to have a penchant for being connected with plays concerning ghosts, "The Ghost Train" being among them. Probably it is the contrast between her own sprightly manner and the inactivity generally associated with ghosts that makes her so effective in such roles. Certainly there is considerable contrast in many respects between the charming and cultured Mrs. Ware and the character she plays in "Blithe Spirit," the admittedly charming but certainly rather low-minded Elvira, about whom her ex-husband is at one time forced to remark that "Seven years in the echoing vaults of eternity have in no way impaired your native vulgarity." Never-the-less, Mrs. Ware seems to enjoy her role of Elvira, and her appearance on stage will be eagerly awaited. She will be wearing, to emphasize her ghostliness, a diaphonous dress, which is actually, as she says, "Nothing but netting".
